An advanced clinical elective focusing on the management of patients sustaining major orthopedic injuries and their sequelae. Students will be involved in all aspects of the continuum of care, including initial emergency management, non-operative and surgical treatment of injuries, inpatient care, and the outpatient management of patients sustaining fractures and dislocations of the extremities and pelvis. Students will work with faculty daily and are expected to have direct participation in all activities. The application of basic science foundations in anatomy, cell biology/systems physiology, and fundamental biomechanical principles will be emphasized as they relate to the treatment of fractures and optimizing fracture healing. Students may, with approval of faculty director, create a proposed innovated solution to an orthopedic trauma situation. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: Surgery Core Clerkship. Restricted to students in Phase 2 or 3 of the Carle Illinois College of Medicine.

CLE 744 Oral & Maxillofacial Surgery I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLE/744/)
Provides exposure to the field of Oral & Maxillofacial surgery. Students will gain experience in the full scope of this surgical specialty including traditional outpatient ambulatory surgery, craniomaxillofacial trauma, orthognathic/reconstructive surgery, cleft lip and palate surgery, and maxillofacial oncology. The student will gain experience in head and neck surgical anatomy, imaging, and principles of management of these subspecialty areas. Additionally, students will gain exposure in the application of technology to these clinical problems such as the role virtual surgical planning. No graduate credit. 2 professional hours. Approved for S/U grading only. Available for honors grading. Prerequisite: CLE 670: Surgery Clerkship. Restricted to students enrolled in Phase 2 or 3 of the Carle Illinois College of Medicine.

CLE 745 Oral & Maxillofacial Surgery II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CLE/745/)
Provides exposure to the field of Oral & Maxillofacial surgery. Students will gain experience in the full scope of this surgical specialty including traditional outpatient ambulatory surgery, craniomaxillofacial trauma, orthognathic/reconstructive surgery, cleft lip and palate surgery, and maxillofacial oncology. The student will gain experience in head and neck surgical anatomy, imaging, and principles of management of these subspecialty areas. This advanced course will allow for increased involvement in the day to day management of patients in the clinic, emergency room, in-patient setting, and the operating room. No graduate credit. 4 professional hours. Approved for S/U grading only. Available for honors grading. Prerequisite: CLE 670: Surgery Clerkship. Restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

CLE 746 Otolaryngology - ENT  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLE/746/)
This elective is designed for the student seriously considering a career in otolaryngology or seeking a deeper knowledge of ENT. Emphasis on diagnosis and treatment of common head and neck disorders. Students will experience ENT patients in ambulatory surgery, and in-patient settings. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Family Med and OR Orientation. Restricted to students enrolled in the MD program at Carle Illinois College of Medicine in Phase 2 or Phase 3 of the curriculum.

Information listed in this catalog is current as of 01/2022
CLE 748 Surgical Pathophysiology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CLE/748/)
Underlying modern diagnosis and treatment of complex surgical disease is a fascinating and complex pathophysiology. In the context of current practitioner training, it has become challenging to address these fundamental concepts in detail that is sufficient to initiate long-term interest in the scientific underpinnings of surgical science. This rotation allows student a ‘deep dive’ into the underlying physiology and medical history of modern diagnosis and treatment. Students will meet surgical patients, whose disease will initiate investigations of the historical and basic science underpinnings of modern surgical care. Potential areas of investigation may include classic medical physiology such as the treatment of hyperkalemia in a surgical patient with particular attention to the associated cellular processes and electrophysiology, the mechanisms of non-cytotoxic systemic cancer therapy such as immunotherapy and gene or protein directed therapy or the physiology of systemic inflammatory response and the (largely failed) attempts to interfere in that pathologic process on the cellular level. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: Students must be in Phase 2 or Phase 3 of the curriculum. This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

CLE 750 Developmental Pediatrics  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLE/750/)
This clinical rotation is designed to provide a student with a comprehensive preview of the commonplace developmental and behavioral problems experienced by up to 15% of children in our community. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Students must be in Phase 2 or Phase 3 of the Carle Illinois College of Medicine curriculum. This course is restricted to Carle Illinois College of Medicine students.

CLE 751 Neonatal Intensive Care  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLE/751/)
The student enrolled in this elective will be exposed to caring for neonates in the Carle Neonatal Intensive Care Unit (NICU). Students will participate and present in daily rounds, attend deliveries, and assist with procedures. Students will learn basic principles of neonatal care, as well as the diagnosis and management of common neonatal pathology. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Restricted to students in Phase 2 or Phase 3 of the Carle Illinois College of Medicine curriculum.

CLE 752 Pediatric Pulmonology & Sleep Medicine  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CLE/752/)
The goals of the Pediatric Pulmonology & Pediatric Sleep Medicine elective rotation are to delve into common pediatric pulmonary and sleep diagnoses (asthma, cystic fibrosis, insomnia, snoring) and become familiar with less common conditions. Students will learn to further develop the differential diagnosis and use it to generate a plan of care. In addition, pharmacology, physiology, radiographic imaging, pulmonary function testing, and polysomnography will be discussed as they relate to the various pulmonary and sleep diagnoses. No graduate credit. 4 professional hours. Approved for S/U grading only. May be repeated in separate terms up to a maximum 8 hours. Prerequisite: Restricted to students enrolled in Phase 2 or 3 or the Carle Illinois Curriculum.

CLE 753 Pediatric Hematology  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLE/753/)
Many of the important problems in Pediatric Hematology are encountered in an outpatient setting. The major goals of this elective are to gain exposure to diagnostic challenges, the evaluation of anemia, easy bruising and bleeding abnormalities, lymphadenopathy, neutropenia, thrombocytopenia, autoimmune, and other immunologic disorders. Additionally, students will gain exposure to patients with sickle cell disease, bleeding disorders, and clotting disorders. Finally, management of families facing major challenges, with attention to medical and psychosocial factors and provision of care in a multi-disciplinary team setting will be presented. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Completion of the Carle Illinois Pediatrics Clerkship. Restricted to students enrolled in Phase 2 or 3 of the Carle Illinois College of Medicine.

CLE 764 Physical Medicine and Rehabilitation  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLE/764/)
Provide students with an introduction to in-patient physical medicine and rehabilitation. Students will consult with patients in the hospital for possible admission, admit the patient, perform a history and physical, and round daily with attending physicians. Student will learn about different types of care provided through the physical medicine and rehabilitation service including: Rehabilitation, electrodiagnosis, general outpatient and musculoskeletal rehabilitation, and non-healing wound care rehab. Students will have the opportunity to work with a physician, to determine the goals and objectives of patient rehabilitation. Students will have the opportunity to observe and interact with other rehabilitation team members including physical and occupational therapists, speech-language pathologists, rehabilitation social work, case management, nutrition, and psychology. Outpatients are seen for musculoskeletal problems. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Restricted to students enrolled in Phase 2 or 3 of the Carle Illinois College of Medicine.

CLE 771 Addiction Medicine  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLE/771/)
This unique elective offers students direct access to the rapidly developing field of addiction medicine. Students will take part in direct patient care at an outpatient addiction specialty clinic with a multidisciplinary team of providers. They will also have the opportunity to attend a drug court in Champaign County and participate in a needle exchange program through the Champaign County Public Health Department. On satisfactory completion, students will have gained a better understanding of the evidence-based treatment options of individuals living with substance use disorders. They will also have firsthand experience combating one of the greatest challenges facing modern medicine - the opioid epidemic. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.
CLE 773  Radiation Oncology  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLE/773/)
Radiotherapy is an integral part of modern multidisciplinary cancer care. This clinical elective is designed to introduce students to the field of Radiation Oncology and use of radiotherapy. We will provide direct experience with evaluation and management of patients with malignant disease, as well as occasional benign conditions regarding radiotherapy. Students will learn epidemiology, pathophysiology, and staging of cancer patients, and then utilize evidence-based approaches for their treatment. This will include opportunities to learn basic information about radiobiology and physics to inform their understanding of radiotherapy planning and treatment delivery. Students will augment direct patient care interactions with attendance of multidisciplinary tumor conferences with other oncologic specialties, as well as departmental quality assurance rounds. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Medicine Core Clerkship. Restricted to students enrolled in Phase 2 or 3 of Carle Illinois College of Medicine.

CLE 774  Simulated Clinical Ultrasound  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLE/774/)
The Simulated Ultrasound elective enables students to develop skills related to clinical ultrasound. Utilizing a SonoSim and the associated online modules, students will have the opportunity to enhance their understanding of this imaging tool, and prepare for clinical environments that could benefit from point-of-care ultrasound. Students will learn ultrasound principles and acquisition skills through an online self-paced module. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Medicine Core Clerkship. Restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

CLE 775  Point of Care Ultrasound  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CLE/775/)
The Clinical Ultrasound elective enables students to explore specialties where point-of-care ultrasound can be utilized. Students will learn ultrasound principles and acquisition skills through an online self-paced module. Students will further learn through observing sonographers, providing students with opportunity to refine their skills through observation and questions. Students will work with attending providers (up to four) in different inpatient specialties to assess and care for patients, identifying cases where ultrasound imaging may be useful. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: Restricted to students in Phase 2 or Phase 3 of the Carle Illinois curriculum.

CLE 776  Diagnostic Radiology and Non-Cardiac Nuclear Medicine  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLE/776/)
Students will observe both acquisition and interpretation of diagnostic exams. These will include, but are not limited to, plain film, fluoroscopy, computerized axial tomography and magnetic resonance imaging. In addition, the student will observe both ultrasonography and nuclear medicine procedures including ultrasound of thyroid and abdominal structures. Nuclear Medicine interpretations will include bone scans, thyroid scans, PET/CT. Students will review films correlated to their clinical experiences and future residency plans, read assigned material dealing with basic diagnostic and fundamental radiology, and attend conferences related to the imaging service. Students will observe invasive diagnostic procedures occurring in the Imaging Department. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Student must be in Phase 2 or Phase 3 of the curriculum. This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

CLE 777  Vascular and Interventional Radiology  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLE/777/)
Students will observe and work with the Vascular and Interventional radiology team at Carle Foundation Hospital. Students will observe and participate in clinical management of patient with a disease and pathophysiology involving the entire human body and all organ systems. Student will learn basic imaging principles and how they are applied to the management and treatment of disease with special attention to minimally invasive, imaging guided techniques. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Students must be in Phase 2 or Phase 3 of the curriculum. This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

CLE 778  Imaging in Critical Care  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLE/778/)
This elective focuses on remote learning of imaging in the ICU. The primary focus will be interpretation of chest x-ray and chest CT. This starting point will allow students to pursue individual learning goals regarding critical care such as infectious disease, pulmonology, cardiology, and physics. Students will be given a chance to “follow” the patients through their time in the ICU by viewing their images and all other records. This will allow students to become facile with the electronic medical record system. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Family Medicine Clerkship. Restricted to students in Phase 2 or Phase 3 of the Carle Illinois College of Medicine curriculum.

CLE 779  Bariatric Surgery  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CLE/779/)
The goal of this rotation is to recognize the importance of obesity as a disease and the strong impact it has in patient’s health, also to describe the management of obesity and understand the pathophysiology of obesity. It will mainly focus on the pre-op assessment of bariatric patients by a multidisciplinary team, surgical procedures to treat obesity as well as the postoperative care of bariatric patients. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: Students must be in Phase 2 or Phase 3 of the curriculum. This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

CLE 780  Hand Surgery  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLE/780/)
The student participating in this elective will gain initial exposure to Orthopedic Hand Surgery both in the clinic setting and in the operating room. The student will work 1:1 with the faculty in the operating room and clinic in the care of Hand Surgery patients. This elective can be tailored to the individual student's needs, interest, and educational level. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Surgery Clerkship. Student must be in Phase 2 or Phase 3 of the curriculum. This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.
Information listed in this catalog is current as of 01/2022

CLE 781 Vascular Surgery credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CLE/781/)
This rotation seeks to expose the medical student to the specifics of evaluation and diagnosis of surgical vascular disease, and surgical interventions for vascular disease. Students will be involved and evaluate patients in both the inpatient and outpatient settings. Emphasis will be placed on history, physical and diagnostic results, a rich discussion of noninvasive vascular studies including venous duplex, arterial doppler, and arterial duplex, as well as advanced imaging results. The student will participate in the operating room and scrub into cases to assist with the surgical team. This rotation is designed to expose and educate medical students about the breadth of vascular surgery interventions and develop an understanding of a global assessment of a patient with vascular disease. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: General Surgery Clerkship. Students must be in Phase 2 or Phase 3 of the curriculum. This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

CLE 782 Rural Surgery credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CLE/782/)
The rotation in Rural surgery is designed to provide the student with exposure to the practice of general surgery in a rural setting at a smaller community hospital. The practice includes the evaluation and management of common general surgical conditions as well as significant exposure to flexible endoscopy – both EGD and colonoscopy. The students will be responsible for seeing new consults, writing a history and physical note, and presenting them to the preceptor. They will round on our patients daily. They will assist in all procedures. Additionally, the student will be exposed to the unique environment of a small community hospital, including the decision-making process regarding types of procedures which can be effectively completed versus those which require transfer. During this rotation, student will work one-on-one with the faculty preceptor and be provided with graded responsibility. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: Successful completion of the Carle Illinois Surgery Clerkship. Restricted to students in Phase 2 or Phase 3 in the Carle Illinois curriculum.

CLE 783 Colon and Rectal Surgery credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CLE/783/)
This is an advanced surgical elective focused on the lower gastrointestinal tract. Students will become part of our team as we care for inpatients and outpatients with colon, rectal, and anod disorders. The student will have the opportunity to evaluate patients in the hospital, office, endoscopy suite, operating theater, and participate in several multidisciplinary conferences. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: Successful completion of the Carle Illinois Surgery Clerkship. Restricted to Carle Illinois College of Medicine students. Students must be in Phase 2 or Phase 3 of the curriculum.

CLE 784 Pediatric Surgery credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLE/784/)
Pediatric surgeons care for children (birth to age 18) with surgical concerns. These can be either congenital problems (birth defects such as anorectal malformations, Hirschprungs disease, intestinal atresias, etc) or acquired conditions that present during childhood (pyloric stenosis, hernias, appendicitis). Care is provided in both the inpatient and outpatient settings and involves both planned and emergent procedures. The student will participate in the operating room, scrubbing into cases to assist with the surgical team. Students will be active participants in both inpatient and outpatient care and will also have 1 on 1 lectures to learn about surgical care and common pediatric surgical conditions. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Successful completion of the Carle Illinois Surgery Clerkship. Restricted to Carle Illinois College of Medicine students. Students must be in Phase 2 or Phase 3 of the curriculum.

CLE 785 Introduction to Urology credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLE/785/)
Participation in the outpatient and inpatient management of urological problems. These include urological neoplasms (prostate, bladder, renal, and testicular), urinary calculi, and management of urinary incontinence. The student will actively examine patients in the office and assist with surgery. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Successful completion of the Carle Illinois Surgery Clerkship. Restricted to Carle Illinois College of Medicine students. Students must be in Phase 2 or Phase 3 of the curriculum.

CLE 786 Introduction to Anatomic Pathology credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLE/786/)
This two-week elective is designed to introduce the student to the venule of anatomic pathology and its role in patient care. Areas that may be covered in Anatomic Pathology include gastrointestinal, gynecologic, genitourinary, pulmonary, head and neck, endocrine, neuropathology, and cytopathology. No graduate credit. 2 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 12 hours. Prerequisite: Completion of Phase 1. Restricted to students enrolled in Phase 2 or Phase 3 of the Carle Illinois College of Medicine.

CLE 787 Introduction to Clinical Pathology credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLE/787/)
This two-week elective is designed to introduce the student to the various sections of the clinical laboratory and its role in patient care. The goal of this two-week educational experience is to gain basic knowledge of laboratory organization, workflow, specimen adequacy, testing methodology and test interpretation. Students will rotate through the four major disciplines in Clinical Pathology: Blood Bank/Transfusion Medicine, Clinical Chemistry, Hematology, and Microbiology. After a review of the general processes in each discipline, the pathologist in charge of the section will discuss a particular patient event or situation with the student and examine the clinical relevance of the testing in progress. No graduate credit. 2 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 12 hours. Prerequisite: Completion of Phase 1. Restricted to students enrolled in Phase 2 or Phase 3 of the Carle Illinois College of Medicine.

CLE 788 Advanced Focus in Clinical Pathology credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLE/788/)
This two-week elective is designed to offer the student a more in-depth experience in a specific section of clinical pathology and its role in patient care. Areas that can be covered in Advanced Focus in Clinical Pathology include clinical chemistry, hematology, microbiology, and transfusion medicine. No graduate credit. 2 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 12 hours. Prerequisite: Completion of Phase 1. Restricted to students enrolled in Phase 2 or Phase 3 of the Carle Illinois College of Medicine.
CLE 793  Quality Improvement & Patient Safety  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/CLE/793/](https://courses.illinois.edu/schedule/terms/CLE/793/))
In this elective, students will gain experience with the various aspects of health care quality and patient safety. This could include participation in continuous quality improvement plans (CQI), literature reviews to inform hospital practice, policy and protocol development, and collaborating with health care administrators to respond to community health issues. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Restricted to students enrolled in the Carle Illinois College of Medicine.

CLE 794  Values in the Physician-Patient Relationship  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/CLE/794/](https://courses.illinois.edu/schedule/terms/CLE/794/))
Constant changes in healthcare settings, coupled with rapid advancements in technology, lead to increasingly complicated ethical dilemmas: Who decides what—patients, doctors, or family members—and on what basis? Should patients’ autonomy always be respected, or can physicians act paternalistically towards their patients? What are the ends and norms of the medical profession and how are they determined? Can physicians deviate from these ends and norms and refuse to provide treatment, for example, for conscientious reasons? In this course, we will attempt to answer these (and other) pressing normative questions. In doing so, we will attain an understanding of the complicated network of values at play in the physician-patient relationship. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Restricted to students enrolled in Phase 2 or 3 of the Carle Illinois College of Medicine.

CLE 799  Advanced Clinical Electives  credit: 0 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/CLE/799/](https://courses.illinois.edu/schedule/terms/CLE/799/))
Phase 2 and Phase 3 students are eligible to participate in short-term elective opportunities that can enhance their medical education. These electives include clinical opportunities, away rotations, away electives, clinical rotations, and visiting opportunities. Each elective is offered by participating host institutions in the U.S. and around the world. Elective opportunities are available in teaching hospitals, community clinics, and urban or rural sites and are open to clinical or final-year students, as determined by the host institution. No graduate credit. 0 to 4 professional hours. Approved for S/U grading only. May be repeated up to 20 hours in the same semester if topics vary, and separate semesters to a maximum of 32 hours. Prerequisite: Restricted to students enrolled in the MD program at Carle Illinois College of Medicine.
CMN - Communication

CMN Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/CMN/)

Courses

CMN 101   Public Speaking   credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/101/)
Preparation and presentation of short informative and persuasive speeches; emphasis on the selection and organization of material, methods of securing interest and attention, and the elements of delivery. Credit is not given for both CMN 101 and either CMN 111 or CMN 112.

CMN 102   Introduction to Communication   credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/102/)
Provides students with an overview of the major areas of study across the diverse field of Communication. Attention is given to the study of argumentation, persuasion, mediated communication effects, rhetoric, face-to-face communication with family, friends, and romantic partners, social support, nonverbal and verbal communication, group communication, health communication, organizational communication, race and communication, sports and communication, and common research methods in the field.
This course satisfies the General Education Criteria for:
Social Beh Sci - Beh Sci

CMN 111   Oral & Written Comm I   credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/111/)
Principles and practice in communication; stress on fundamentals of critical thinking in writing and speaking. The campus Composition I general education requirement is fulfilled by this course in conjunction with CMN 112. Credit is not given for both CMN 111 + CMN 112, and other courses that fulfill the Composition I requirement (such as RHET 101+RHET 102, RHET 105, ESL 115); Credit is also not given for both CMN 111+ CMN 112, and CMN 101. CMN 111+ CMN 112 cannot be taken by students who have completed the campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
Composition I

CMN 112   Oral & Written Comm II   credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/112/)
Continuation of Oral & Written Comm I; stress on deliberation and fundamentals of communication and public argument through speaking and writing. The campus Composition I general education requirement is fulfilled by this course in conjunction with CMN 111. Credit is not given for both CMN 111+CMN 112 and other courses that fulfill the Composition I requirement (such as RHET 101+ RHET 102; RHET 105; ESL 115); Credit is also not given for both CMN 111+ CMN 112 and CMN 101. CMN 111+ CMN 112 may not be taken by students who have completed the campus Composition I general education requirement. Prerequisite: CMN 111.
This course satisfies the General Education Criteria for:
Composition I

CMN 199   Undergraduate Open Seminar   credit: 0 to 5 Hours. (https://courses.illinois.edu/schedule/terms/CMN/199/)
May be repeated to a maximum of 6 hours.

CMN 204   Internship in Teaching Comm   credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/204/)
Supervised experience in assisting in the teaching of an undergraduate course in communication; practice in preparing and presenting brief lectures, conducting activities within class, and assisting students outside of class. Prerequisite: Junior standing, cumulative 3.0 grade-point average, 3.5 grade-point average in Communication coursework, recommendation from an instructor, and approval by application.

CMN 210   Public Comm in Everyday Life   credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/210/)
Introduces concepts useful for the critical analysis of public communication in everyday life. Drawing on communication theory and practice, especially theories of rhetoric, the course investigates techniques of persuasion, offers tools for critical analysis of public discourse, and considers the political and ethical implications of various forms of public communication.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

CMN 211   Business and Professional Communication   credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/211/)
Focus on relevant theory and research on communication strategies and skills vital to diverse business and professional contexts. Topics include personal branding and self-marketing; job interviewing basics; business ethics; business writing; networking; professional etiquette and behaviors; and business presentations. Activities include presentations, written assignments, and practice interviews. Prerequisite: CMN 101.

CMN 212   Intro to Organizational Comm   credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/212/)
Considers major theories, research questions, and approaches to organizational communication.

CMN 213   Small Group Communication   credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/213/)
Considers major theories, processes, and practical measures contributing to effective communication in small group and team contexts.
CMN 214  Organizational Communication & Diversity  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/214/)
A focus on the knowledge, skills, and abilities needed for students to understand and address various components of diversity in organizations. This class is designed to give students an environment to discuss diverse perspectives related to organizations. Thus, this course will explore such areas as power, gender, race, social class, sexuality, ability and age. The relationship between these areas to organizational communication concepts such as, assimilation & socialization, power, culture, employee conflict and relationships will be explored. Students do not need to have any prior knowledge of organizational communication in order to benefit from this course. Students will draw from their personal and familial organizational socialization experiences to learn about the role of culture in organizations.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

CMN 215  Interviewing: The Art and Science of Effective Questioning  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/215/)
Questioning is fundamental to human communication. The process for questioning in a structured, purposeful way is called interviewing, which is both an art and a social science. Students will learn theoretical principles related to major types of interviews and apply this knowledge through practice as both interviewer and interviewee, leading to competency in employment and informational interviews. Additionally, they will learn to be a critical observer of interviews taking place in the public sphere. Credit is not given for both CMN 115 and CMN 215. Prerequisite: CMN 101 or CMN 111 and CMN 112.

CMN 220  Communicating Public Policy  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/220/)
Study of the nature of policy-oriented communication; analysis and formulation of positions on issues of professional, personal, or public interest; design and presentation of public policy messages addressed to varying tasks and audiences, with special emphasis on advanced writing skills. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition

CMN 230  Intro to Interpersonal Comm  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/230/)
Study of communication theory and its application to interpersonal relationships; extensive discussion of problems of conflict and misunderstanding in personal affairs to facilitate the development of knowledge, insights, and skills in the processes of face-to-face interaction.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

CMN 231  Communication and Conflict  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/231/)
Examines how people experience and manage conflict in both private and public settings. Units focus on conflict in interpersonal, small group, and organizational contexts.
This course satisfies the General Education Criteria for:
Social Beh Sci - Beh Sci

CMN 232  Intro to Intercultural Comm  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/232/)
Introduction to the study of intercultural communication in a variety of contexts, including domestic and international; examines theory and research to explain what happens when people from different cultural and linguistic backgrounds interact. Requires students to think critically about the ways in which "taken-for-granted" ways of thinking, acting, and interacting are culturally specific.
This course satisfies the General Education Criteria for:
Cultural Studies - Non-West
Cultural Beh Sci - Soc Sci

CMN 250  Social Movement Communication  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/250/)
Examines the communication strategies of social movements, concentrating on the types of messages that social movements create (including rhetorical messaging, social protest, grassroots organizing, fundraising, and media outreach). Focuses on the communication of major 19th, 20th, and 21st century social protest movements, including movements for civil rights, environmentalism, women's rights, and others. Emphasizes the functions of communication for identity formation, promulgation, and social change. Provides knowledge and tools for the analysis and production of messages.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

CMN 260  Intro to Health Communication  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/260/)
Introduces theory and research on communication in health and illness contexts. Explores how messages from media, interpersonal, and organizational sources affect health beliefs and behaviors.
This course satisfies the General Education Criteria for:
Social Beh Sci - Beh Sci

CMN 275  Media, Money and Power  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/275/)
Describes the political economy of the media in the U.S. Acquaints students with a core understanding of how the media system operates, and with what effects, in a capitalist society. Examines the role of advertising, public relations, corporate concentration, and government regulation upon news reporting, entertainment, culture, and participatory democracy. Also examines issues related to the Internet, globalization, and public broadcasting.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western
CMN 277  Introduction to Mediated Communication  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/277/)
Survey of the history, structure, forms, and social effects of the American mass media, with significant focus on study of how media shape perceptions of people of color and other stigmatized groups.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci
Cultural Studies - US Minority
CMN 280  Comm Technology & Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/280/)
Introduction to theory and research on both old and new communication technologies; focus will be on how these technological systems develop and are used, and what implications of these systems have for culture and society.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci
CMN 304  Communication Internship  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/304/)
Directed internship experience for Communication majors. Students must have consent of the Internship Coordinator. May be repeated in separate terms to a maximum of 6 hours.
CMN 310  The Rhetorical Tradition  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/310/)
Survey of major trends in the development of rhetorical theory from Homer to the present.
CMN 312  Communicating for Innovation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/312/)
This course challenges the notion that good ideas are produced by "lone geniuses." Surveying theories from organizational communication, we will explore the important role communication plays in fostering innovation and creativity in the workplace. Some topics discussed include: socialization, group decision-making, information sharing, positive workplace environments, the role of communication technologies, and social networks. Students will analyze real-world cases and participate in class activities designed to demonstrate innovation processes in action.
CMN 320  Comm Controversy Public Policy  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/320/)
Examines how public policy shapes American life, by providing an advanced analysis of the controversies, discourses and effects of public policy with a focus on sustainability issues. Explores the American landscape, energy sources, environment, food systems, political process, and government lobbying rules and reform. Provides in-depth analysis of the definitions and histories of public policy and the tensions between public and private spheres that shape it. Develops a fundamental understanding of public versus private spheres; analyzes and critiques how public policy shapes American historical and cultural landscapes; increases skillfulness in oral and written analysis of controversies, institutions, political and economic power brokers, and social norms. Prerequisite: CMN 220 or consent of instructor.
CMN 321  Strategies of Persuasion  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/321/)
Studies of powerful instances of public persuasion; students examine key means of public influence.
CMN 323  Argumentation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/323/)
Study of the theory of argument, e.g., evidence, reasoning, and construction of briefs; practice in formal and informal forms of debate and public discourse on current public questions. Prerequisite: CMN 101.
CMN 324  Rhetorical Performance Styles  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/324/)
Examines the role of performance in rhetoric from the earliest ages of great oratory to the present day. Students will learn the terminology and mechanics of physical and vocal delivery, explore various time periods considered to have rich traditions of rhetorical performance, and analyze the techniques and rhetorical styles of different periods in the history of rhetoric. Students will create their own performances using the rhetorical techniques of practices ranging from ancient Greek oratory to TED Talks. Credit is not given for CMN 324 if credit for CMN 396 has been given.
CMN 325  Politics and the Media  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/325/)
Same as MACS 322 and PS 312. See PS 312.
CMN 326  Mass Media and the Audience  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/326/)
Presents information on how to conceptualize audiences, mass media use, and reception of media messages. Also examines the character of the audience experience, uses and gratifications of mass media, social cognition, and studies of audiences as interpretive communities.
CMN 330  War Rhetoric in Theatre and Film  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/330/)
Uses theatre and film as a framework for examining why war rhetoric plays such a significant part in Western culture. Students will analyze texts from stage and screen to explore the question of how war rhetoric shapes our perceptions about the world and about ourselves. Focuses on specific eras of Western theatre and film to investigate how pro-war and anti-war messages are negotiated in these media in ways that reflect cultural attitudes toward war. Credit is not given for CMN 330 if credit for CMN 396: War Rhetoric in Theatre and Film has been given.
CMN 336  Family Communication  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/336/)
Examines the nature and functions of communication in various family configurations (e.g. nuclear families, single-parent families, stepfamilies); discusses both problematic interaction patterns and links between family interaction and strong families.
CMN 338  Relationships and Technologies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/338/)
Examines the uses, functions, and effects of communication technologies in personal relationships (e.g., friendships, dating relationships, families). Emphasis on contemporary and emerging modes of communication with some consideration of historical and enduring modes of interaction.
CMN 340  Visual Politics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/340/)
Explores the role of visual images in U.S. culture, paying special attention to the ways that images function persuasively as political communication.
Provides tools for analyzing historical and contemporary images and artifacts, such as photographs, prints, paintings, advertisements, and memorials.
Emphasis on how visual images are used for remembering and memorializing; confronting and resisting; consuming and commodifying; governing and authorizing; and visualizing and informing.

CMN 345  Visual Media Effects  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/345/)
Provides an introduction to visual media effects in communication, and is intended for students with little or no experience with visual aspects of communication. Focuses on social scientific approaches to understanding visual media effects and theories of visual communication.

CMN 354  Freedom of Speech  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/354/)
Examination of the nature and variety of responses to value questions concerning communication; includes a survey of the evolution of and current controversies in freedom of speech.

CMN 357  Intro to Conversation Analysis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/357/)
Same as LING 357. See LING 357.

CMN 361  Storytelling as Oral Communication  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/361/)
Explores the role of traditional oral narrative in contemporary social life. Examines some major genres: folktales, family stories, personal growth narratives, professional autobiographical presentations, TED talks. Each of these genres will be examined in terms of content, context in a larger community of discourse, and performance demands. In addition, students will create and perform their own stories representing these genres.

CMN 368  Sexual Communication  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/368/)
Describes sex as a fundamental activity in the development and maintenance of human relationships. Communication about sex happens in a variety of interpersonal, group, organizational, and mediated contexts. Explores the many ways in which sexual communication intersects our personal, relational, cultural, and institutional norms and values. Topics will include social norms about sexual communication, sexual harassment, family communication about sex, sexual health education, doctor-patient communication about sex, and sex in the media and in advertising. Theory and research on communication processes will be used to elaborate how talk about sex can achieve multiple goals.

CMN 370  Political Economy of Communication  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/370/)
Addresses significant contemporary social issues from the perspective of the political economy of communication. Issues may include, but are not limited to, the influence of money on political communication, the role of the media in American attitudes toward racial inequalities, or the politics of science reporting. This course will feature a number of recent books on social problems in the United States that have a communication twist. Class-time will be focused on discussing the books. Prerequisite: Junior or senior standing required.

CMN 375  Popular Media and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/375/)
Using the critical lens of theories on race, class, gender, and sexuality, this class will investigate the complicated relations among popular media and culture, including how our everyday life and attitudes are thought to be shaped by the media, and how cultural systems can be said to inform the media. By exploring a wide range of media (e.g., film, television, music, the internet, and computer games), students will investigate the national, political, and personal dimensions of popular media and the varied ways in which media construct, reflect and intersect with specific cultural systems, identities, and classifications. May be repeated in separate terms to a maximum of 6 hours.

CMN 377  Propaganda and Modern Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/377/)
Traces the social, economic, and political underpinnings of propaganda and public relations. Examines the rise of corporate propaganda in the early 20th century and explores how these strategies were adapted by a wide range of social and political actors. The second part of the course discusses the above issues from contemporary perspectives. The role of WWI, WWII, and the more recent Iraqi war, in solidifying the role of government and commercial propaganda in society and the frequently blurry distinctions between government propaganda and commercial public relations will also be discussed. The relationship between propaganda, PR and the mass media will constitute a constant site of inquiry. This course focuses on theory, especially critical theory.

CMN 390  Individual Study  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/390/)
Individual investigation of special problems. May be repeated to a maximum of 6 hours. Prerequisite: Twelve hours of communication coursework; a grade-point average of 3.25; and consent of head of department.

CMN 396  Special Topics in Comm  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/396/)
Special topics in communication not treated in regularly scheduled courses. See Class Schedule for current topics. May be repeated as topics vary.

CMN 410  Workplace Comm Technology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/410/)
Focuses on how communication technologies are designed, implemented, adopted, and used within and across organizations. Reviews a broad array of theories used to conceptualize technology in the workplace. Emphasis on how theory may be used to understand applications such as knowledge management, telecommuting, distributed work, and virtual organizations. Further focus on analyzing real-world cases to develop skills necessary for working in contemporary organizations. 3 undergraduate hours. 4 graduate hours.

CMN 411  Organizational Comm Assessment  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/411/)
Organizational communication theory applied to the assessment of communication practices in organizations; systematic procedures for diagnosing communication problems and facilitating effective communication in organizations. Extensive use of case studies. 3 undergraduate hours. 4 graduate hours. Prerequisite: CMN 212.
CMN 412  Adv Organizational Comm  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/412/)
Advanced study of theory and research in organizational communication; considers such topics as communication networks, superior-subordinate communications, task-related and social information processing, and communicating with the external environment. 3 undergraduate hours. 4 graduate hours. Prerequisite: CMN 212.

CMN 413  Adv Small Group Communication  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/413/)
Advanced study of theory, research, techniques, and training methods in interviewing and group discussion; emphasis on empirical research findings concerning communication processes in face-to-face groups. 3 undergraduate hours. 4 graduate hours.

CMN 415  Classical Rhetorics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/415/)
Survey of the contributions to the theory and practice of rhetoric from Homer to the Renaissance. Same as CLCV 415 and MDVL 415. 3 undergraduate hours. 4 graduate hours.

CMN 416  Early Modern Rhetorics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/416/)
Significant developments in European rhetorical theory from 1500 to the 20th Century. 3 undergraduate hours. 4 graduate hours.

CMN 417  Contemporary Rhetorics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/417/)
Major contributors to rhetorical theory from I.A. Richards to the present. 3 undergraduate hours. 4 graduate hours.

CMN 421  Persuasion Theory & Research  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/421/)
Survey of major theories of persuasion, research on factors influencing persuasive effectiveness, and application to problems of persuasive discourse. 3 undergraduate hours. 4 graduate hours.

CMN 423  Rhetorical Criticism  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/423/)
Methods of interpreting and judging persuasive discourse with emphasis on political speaking and writing; extensive practice in criticism of rhetorical texts. 3 undergraduate hours. 4 graduate hours.

CMN 424  Campaigning to Win  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/424/)
Using a case study approach to illustrate how campaigns attempt to persuade and mobilize voters, students learn how to plan and manage effective political campaigns. Same as PS 411. 3 undergraduate hours. 4 graduate hours.

CMN 427  Children and the Media  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/427/)
Examines the role of the mass media in the lives of children. Focuses on how developmental differences influence how children process and respond to the media. Topics include media violence, media advertising, stereotypes in the media, and educational content. 3 undergraduate hours. 4 graduate hours.

CMN 429  Race and the Mass Media  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/429/)
Presents an overview of racial stereotypes in the mass media and the effects of stereotypical imagery on viewers. Discussion of the structural and social origins of stereotypic media from multiple perspectives focusing on published scholarship that systematically assesses the content and effects of racial representations from a social scientific perspective. Intersections between race, ethnicity, class, and gender also will be explored. 3 undergraduate hours. 4 graduate hours.

CMN 432  Gender Communication  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/432/)
Study of interactive relationships between gender and communication in contemporary American society. Examines how gender identity and expression are influenced by race, ethnicity, culture, age, ability, class, faith and other social characteristics. Explores how communication in social contexts creates and perpetuates gender roles. Same as GWS 432. 3 undergraduate hours. 4 graduate hours.

CMN 435  Adv Interpersonal Comm  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/435/)
Study of the major processes involved in an individual's adjustment to the communication situations of everyday life; emphasis on the development of interpersonal competency and orientations, social perception, interpersonal sentiment and hostility, trust, and the social context as factors influencing the understanding and evaluation of interpersonal messages. 3 undergraduate hours. 4 graduate hours. May be repeated as topics vary to a maximum of 12 undergraduate hours or 16 graduate hours.

CMN 437  Comm in Personal Relationships  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/437/)
Examines theories of communication within personal relationships, including family, friendship, and romantic associations. Specific topics include relationship development, conflict, power, self-disclosure, and relational uncertainty. 3 undergraduate hours. 4 graduate hours.

CMN 450  Topics in Public Communication  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/450/)
Explores topics in public communication not treated in regularly scheduled courses, with special attention to the ways that public communication unfolds in concrete rhetorical situations and moments in time; see Class Schedule for current topics. 3 undergraduate hours. 4 graduate hours. May be repeated as topics vary to a maximum of 12 undergraduate hours or 16 graduate hours.

CMN 462  Interpersonal Health Comm  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/462/)
Examines the role of communication in the management of mental and physical health. Focuses on topics such as communication and illness identity, health and interpersonal relationships, health care provider-patient interactions, impacts of technology on health communication, and health education and prevention efforts. 3 undergraduate hours. 4 graduate hours.
CMN 463 Organizational Health Comm credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/463/)
Focuses on organizational issues shaping communication between providers, patients, and consumers of health care and information, including background on financing personal medical services; organizations, professions, and their interrelationships involved in providing medical services; theorizing communication and organization in personal medical services; and communication between organizations and the public on health issues. Topics include managed care, professional communication, the hospital as a unique communication site, ethics in health communication, direct-to-consumer drug advertising, and health crisis communication. 3 undergraduate hours. 4 graduate hours.

CMN 464 Health Communication Campaigns credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/464/)
Focuses on the theoretical principles behind designing, implementing, and evaluating a health communication campaign. Students will be exposed to campaigns pertaining to alcohol abuse, illicit drug use, organ donation, safe sex, tobacco use, among others. The first part of the course reviews theories used in health communication campaigns, derived from the disciplines of communication, social psychology, and public health. The second part of the course focuses on designing campaigns and creating messages as well as evaluating the effects of those campaigns and messages. 3 undergraduate hours. 4 graduate hours.

CMN 465 Social Marketing credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/465/)
Social marketing offers a revolutionary approach to solving a wide range of societal problems. Social marketing applies traditional marketing principles and techniques to the challenges and rewards of influencing positive public behavior. This course is designed to give students a thorough orientation to key marketing concepts and their application to a range of communication issues with an emphasis on promoting community engagement, environmental conservation, financial literacy, health promotion, and injury prevention. Throughout the semester, attention is given to several behavior change models employed to guide current social marketing campaigns as well as a focus on the ten steps for developing, implementing, and evaluating a campaign. Students will acquire practical skills in designing a campaign as well as an appreciation for the role of behavior change models in social marketing. Same as CHLH 465. 3 undergraduate hours. 4 graduate hours.

CMN 466 Communication & Health Equity credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/466/)
Explores the role that communication plays as both a potential contributor to existing health inequalities and a means of helping to reduce them. Drawing on theories and research from communication, public health, and related social science disciplines, the course reviews relevant academic literature and utilizes media and policy examples to engage with key topics, such as communication inequalities and public discourse surrounding inequality and social determinants of health. 3 undergraduate hours. 4 graduate hours. Prerequisite: Junior standing or above.

CMN 467 Commercialism and the Public credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/467/)
Explores the influences of advertising and commercialism and their role in defining our political culture, social institutions, and personal lives. Through readings, written reflection, visual presentations, and class discussions, the course explores a wide range of advertising and consumer issues and discusses how consumers negotiate these forces. The first part of the course is devoted to a historical overview; discussing the risk and evolving nature of advertising throughout the 20th century. Having established a historical framework, the course offers six contemporary topics to be discussed in the remainder of the semester. Topics may include, but not be limited to: the commercial mass media; the public relations industry; gender in advertising; commercialization of childhood; the commercialization of medicine and science; contemporary consumer society; advertising in schools; and food, advertising, and body image. 3 undergraduate hours. 4 graduate hours.

CMN 468 Honors Individual Study credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CMN/468/)
Individual investigation of special problems. 2 undergraduate hours. No graduate credit. May be repeated to a maximum of 4 undergraduate hours. Prerequisite: Twelve hours of communication; a grade-point average of 3.50; and consent of head of department.

CMN 490 Honors Senior Thesis credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CMN/490/)
Individual study leading to a thesis for honors in the Department of Communication. 2 undergraduate hours. No graduate credit. May be repeated to a maximum of 4 undergraduate hours. Prerequisite: Senior standing; a grade-point average of 3.50; and consent of head of department.

CMN 491 Adv Topics in Communication credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/491/)
Advanced topics in communication not treated in regularly scheduled courses; see Class Schedule for current topics. 3 undergraduate hours. 4 graduate hours. May be repeated as topics vary.

CMN 501 Intro to Health Communication credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/501/)
Introduction to theory and research on communication in health and illness contexts, focusing on how messages from interpersonal, organizational, cultural and media sources affect health beliefs and behaviors. Some topics to be explored include: the theoretical foundations underlying differences in the ways individuals communicate about health, health campaign strategies and organizational influences on health and strategies for generating successful or beneficial health-related communication (as well as recognize problematic communicative trends).

CMN 502 Health Comm Research Methods I credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CMN/502/)
Introduction to social scientific methods for research on health communication and health outcomes. These methods may be used either to build general (theoretical) knowledge about communication or to aid in design and evaluation of actual messages and campaigns. Spring terms only. Prerequisite: Only for students enrolled in the MS in Health Communication degree program.

CMN 503 Health Comm Research Methods II credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CMN/503/)
Focuses on analytic strategy in both qualitative and quantitative analysis. Complements and expands upon the social scientific methods for collecting data introduced in CMN 502. Prerequisite: CMN 502 strongly recommended.
CMN 504  Health & Family Communication  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/504/)
Exploration of current perspectives on the interplay between family communication processes and health-related issues. Using theoretical foundations such as systems theory, communication privacy management theory, narrative theory and family communication patterns theory, students will explore the ways that family members communicate about health, cope with health-related problems, and influence one another’s health-related behaviors.

CMN 505  Provider-Patient Communication  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CMN/505/)
Study of theoretical bases for understanding social interactions in health care settings focusing on three general areas: (a) communication and identity, (b) health and personal relationships, and (c) health care provider-patient interaction.

CMN 506  Health Informatics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/506/)
Explores: (1) contexts of health informatics applications; (2) reciprocal relationships among people, activities, and health informatics applications; and (3) consequences surrounding the design, implementation, and use of health informatics applications. Course content includes: an introduction to health informatics and associated theoretical perspectives; health information as a strategic resource; provider health informatics applications; the e-health movement and consumer health informatics applications; and the intersection of health informatics with current challenges in health care.

CMN 507  Hlth Comm Orgs Pros & Policy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/507/)
Study of the organizational features of the U.S. health care systems, generating a comprehensive image of the context in which communication between patients and providers, health care consumers and organizations, and public health care messages are sent, received, exchanged, interpreted, and circulated. Offered Fall terms only. Prerequisite: Only for students enrolled in the MS in Health Communications degree program.

CMN 508  Successful Health Campaigns  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/508/)
Introduction to theoretical frameworks, research, and applications of health campaigns. Literature from contributing disciplines will be reviewed (e.g., advertising, communication, marketing, public health, political science, psychology and sociology) and key aspects of campaign development will be discussed (e.g., formative research, audience segmentation, message tailoring and evaluation). Offered Spring terms only. Prerequisite: Only for students enrolled in the MS in Health Communication degree program.

CMN 509  Soc Mktng & Health Behavior  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CMN/509/)
Orientation to the discipline of social marketing with some application to a range of problems, emphasizing issues with a health context. Topics will include audience research, segmentation strategies, communication channels, and the marketing mix. Students will acquire practical skills in audience research and learn about the design, implementation, and evaluation of health intervention initiatives that use social marketing. Offered Spring terms only. Prerequisite: Only for students enrolled in the MS in Health Communication degree program.

CMN 529  Seminar Communication Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/529/)
Special topics in communication theory and research. May be repeated to a maximum of 16 hours. Prerequisite: Consent of instructor.

CMN 530  Family Communication Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/530/)
Graduate seminar that examines theory and research on the development of families, communication in various types of families and family relationships, and current issues that affect family communication.

CMN 538  Seminar Rhetorical Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/538/)
Study of special topics in the history of rhetorical theory. May be repeated to a maximum of 16 hours.

CMN 550  Intro to Comm Grad Study  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/CMN/550/)
Orientation to discipline of Communication and too departmental research areas. Discusses disciplinary norms, research ethics/IRB, academic writing, and professional conduct. Advice on choosing areas of research, identifying suitable graduate advisor, time management, and career planning. Faculty visitors discuss their research and professional development topics. Approved for S/U grading only. Prerequisite: Communication graduate students only.

CMN 574  Communication Research Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/574/)
Introduction to content analysis, survey, and experimental research designs and quantitative and qualitative analysis in communication research.

CMN 575  Capstone Individual Study  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/575/)
Provides capstone experience for students in the MS in Health Communication degree program.

CMN 595  Special Problems  credit: 1 to 12 Hours. (https://courses.illinois.edu/schedule/terms/CMN/595/)
Individual investigation of special projects not included in theses. May be repeated in separate terms. Open to master's candidates for a maximum of 4 graduate hours and to doctoral candidates for a maximum of 12 graduate hours. Prerequisite: Consent from head of department.

CMN 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/CMN/599/)
Approved for S/U grading only. May be repeated.
CPSC - Crop Sciences

CPSC Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/CPSC/)

Courses

CPSC 102 Foundational Skills in Crop Sciences  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/102/)
Introduces students to opportunities and topics to prepare for success in crop sciences: basic quantitative and writing skills; research opportunities in the department; basic research skills including ethics and safety. Prerequisite: Restricted to Crop Sciences majors, Computer Sciences + Crop Sciences majors, and ACES Undeclared majors only; restricted to first time freshmen and first time transfer students.

CPSC 103 Sustainable Agriculture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/103/)
Introductory course in sustainable and organic agriculture. Examine how farming evolved from the subsistence farming of indigenous cultures to today's industrial farming of the US. Learn skills to assess the risk and benefits of different agricultural systems including organic farming. Evaluate various cropping systems used in different farming systems. Explore potential future agriculture practices for a growing world population.

CPSC 112 Introduction to Crop Sciences  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/112/)
Introductory course covering the principles and practices of crop production and sustainable agroecosystem management. Topics include plant growth and development, environmental factors influencing plant productivity, soil management, fertility, and nutrient cycling, pest control principles, and sustainability challenges facing modern crop production. Concepts are discussed in lecture and reinforced in hands-on laboratory sections. Additional fees may apply. See Class Schedule. This course satisfies the General Education Criteria for:

Nat Sci Tech - Life Sciences

CPSC 113 Environment, Agric, & Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/113/)
Introduction to agriculture and the environment; examine the largest managed ecosystem and its influence on natural ecosystems; develop a working understanding of natural and agriculture ecosystems and their interaction; examine various agriculture management strategies that can be used to produce food for an increasing world population while maintaining or improving environmental quality. This course satisfies the General Education Criteria for:

Nat Sci Tech - Life Sciences
Cultural Studies - Western

CPSC 116 The Global Food Production Web  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/116/)
Introduces students to the global web involved in the production of food we consume on a daily basis. Selected ecosystems of plants, people, and cultures in Asia, Africa, and Latin America will be studied based on involvement with various crops. Presents the origin and biology of plants; their evolution with humankind in various cultures; the spread and economic importance of crops around the world; and considers current hunger and environmental issues resulting from the global food web. Interactive communications with selected scientists, producers, and traders around the world through the World Wide Web and email system of the INTERNET permit students to get personal exposure to information and activities. This course satisfies the General Education Criteria for:

Cultural Studies - Non-West

CPSC 117 Agriculture and Science of Coffee  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/117/)
The growth and production of coffee and its impact on society and culture. The botanical aspects of coffee, coffee varieties/cultivars, and technologies for coffee growth, harvesting, post-harvest processing, and roasting will be discussed. The wide variety of coffee beverages, coffee flavor evaluation, coffee chemistry, coffee economics, and the physiological effects of coffee will also be examined.

CPSC 131 Agriculture in Mythology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/131/)
Compare and contrast the role agriculture and plant sciences played in the development of ancient cultures. Study agricultural references in ancient global mythology. Develop an appreciation of how agricultural diversity of various ancient cultures influenced mythology in the cultures in different regions. This course satisfies the General Education Criteria for:

Cultural Studies - Non-West

CPSC 180 Medicinal Plants and Herbology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/180/)
The use of cultivated and wild plants in medicines and health products according to Eastern and Western medical traditions. Consideration of herbal medicine use from ancient times to the present, important medicinal chemicals produced by plants, and the evaluation of plant chemical products as potential human medicines.

CPSC 199 Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/199/)
Experimental course on a special topic in crop sciences. Approved for Letter and S/U grading. May be repeated if topics vary.

CPSC 212 Introduction to Plant Protection  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/212/)
Covers the fundamentals of weeds, plant-associated insects, and plant pathogens. Lecture and laboratory material will cover diagnosis, identification, and control strategies used to improve plant health. Emphasis will be given to those pests and pathogens affecting plant agricultural production in Illinois and the Midwest.
CPSC 213  Evolution in Action  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/213/)
Introduction to evolutionary theory. Examination of how domesticated species have evolved. Develops an appreciation of how agroecosystems influence evolution of adjacent natural ecosystems. Elucidation of evolutionary mechanisms necessary for agricultural species to adapt to global climate change.

CPSC 215  The Prairie and Bioenergy  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/215/)
Designed for students who are interested in bioenergy and its production from prairie land. Instructors will provide information on the global trend of bioenergy production and consumption, importance of bioenergy, the role of Illinois prairie land in bioenergy production, potential U.S. bioenergy production, biofuels from plants, and socio-environmental benefits of bioenergy.

CPSC 241  Intro to Applied Statistics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/241/)
Introduces fundamental statistical procedures used to analyze and interpret data. General principles of descriptive and inferential statistics, measures of central tendency and dispersion, probability, correlation and regression, and tests of hypotheses are covered. An emphasis is placed on biological, environmental, and agricultural sciences, but numerous examples from other areas are discussed. Course content enhances students' ability to critically assess statistical information encountered in professional and everyday activities. Credit is not given for both CPSC 241 and STAT 100 or ACE 261.

This course satisfies the General Education Criteria for:
Quantitative Reasoning I

CPSC 261  Biotechnology in Agriculture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/261/)
Basic introduction to the techniques and application of biotechnology to a wide range of agricultural areas, and specific examples are given. May serve as either a terminal course explaining the techniques or as an introductory base for future studies. Prerequisite: Any 100-level course in a biosciences discipline.

This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

CPSC 265  Genetic Engineering Lab  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/265/)
Laboratory/discussion course that provides a hands-on introduction to the techniques and principles of genetic engineering, recombinant DNA and the impact of molecular genetics on society. Students will isolate DNA from plants and clone specific genes into bacterial plasmids, perform polymerase chain reactions, DNA restriction analysis and DNA blotting, and discuss the relevance of these techniques to both medicine and agriculture. Additional fees may apply. See Class Schedule. Prerequisite: A general biology course.

CPSC 266  Data in Biology and Agriculture  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/266/)
This course focuses on the use of computing and data analysis to solve problems in biology and agriculture and includes an overview of computer methods and limitations of current computer, network and storage hardware for big data sets. The nature, use and future potential of different types of computer hardware and software in biology and agriculture (e.g. mobile applications, high performance computing, wireless networking) will be discussed. Examples of computing-related and computing-limited problems in biology and agriculture, such as image analysis, remote sensing and genetic analysis will be used as case studies. The potential of computing to improve the food system, medicine and other applications will be presented.

CPSC 270  Applied Entomology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/270/)
Lectures, laboratory, and field trips cover the biology of insects and the recognition and management of insect pests of agricultural and urban ecosystems. Covers insect structure and physiology, classification, identification, life histories, behavior, and pest management. Same as IB 220 and NRES 270.

This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

CPSC 336  Tomorrow’s Environment  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/336/)
Introduction to interdisciplinary methods of analysis of environmental problems in a finite world; examination of the concept of the limits to growth; development of a working understanding of natural systems and environmental economics; and examination of various management strategies (technical, economic, and social) that can be used to improve environmental quality. Same as CHLH 336, and ENVS 336. Prerequisite: One course in the life sciences and one course in the social sciences, or consent of instructor.

CPSC 352  Plant Genetics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/352/)
The principles of heredity in relation to plant improvement. Same as NRES 352. Prerequisite: IB 103 or IB 104.

CPSC 382  Organic Chem of Biol Processes  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/382/)
An overview of the structure, properties, and reactions of carbon-containing compounds relevant to biological processes and cellular structure. The chemistry of hydrocarbon, aromatic, as well as oxygen- nitrogen-, phosphorus-, and sulfur-containing compounds will be examined. Macromolecular structures including biological membranes, carbohydrates, proteins and nucleic acids will also be discussed. Prerequisites: CHEM 102 and CHEM 104 or CHEM 202 and CHEM 204.

CPSC 393  Crop Sciences Internship  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/393/)
Supervised experience in a field directly pertaining to a subject matter in crop sciences. Approved for S/U grading only. May be repeated in separate terms. Independent Study courses are limited to 12 hours total applying to a degree in ACES. For registration in this course, students should contact the Department Undergraduate Program Coordinator. Prerequisite: Sophomore standing, cumulative GPA of 2.0 or above at the time the internship is arranged, and consent of instructor.

Information listed in this catalog is current as of 01/2022
CPSC 395 Undergrad Research or Thesis  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/395/)
Independent research, special problems, thesis, development and/or design work under the supervision of an appropriate member of the faculty. May be repeated. Independent Study courses are limited to 12 hours total applying to a degree in ACES. Prerequisite: Cumulative GPA of 2.5 or above at the time the activity is arranged and consent of instructor.

CPSC 396 Undergrad Honors Res or Thesis  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/396/)
Individual research, special problems, thesis, development and/or design work under the direction of the Honors advisor. May be repeated. Independent Study courses are limited to 12 hours total applying to a degree in ACES. Prerequisite: Junior standing, admission to the ACES Honors Program, and consent of instructor.

CPSC 407 Diseases of Field Crops  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/407/)
Studies the symptoms of major field crop diseases, life histories of causal organisms, and methods of control. Lecture and laboratory. Additional fees may apply. See Class Schedule. 3 undergraduate hours. 3 graduate hours. Prerequisite: CPSC 212.

CPSC 408 Integrated Pest Management  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/408/)
Examination of fundamental concepts of pest management including a historical review of pests and pest management; an overview of major pests (insects, weeds, plant diseases and vertebrate) in a variety of settings (agricultural, specialty crops, urban and structural); management options (area-wide, chemical, biological, cultural and physical); regulatory issues; and topics of current interest. 3 undergraduate hours. 3 graduate hours. Prerequisite: CPSC 212.

CPSC 412 Principles of Crop Production  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/412/)
Fundamentals in crop development and management, soil structure, management, and fertility, and how crops and soils interact are examined. Students learn how to diagnose real-world problems in fields and field crops grown in the Midwestern US, and to develop practical solutions to such problems. Preparers students to be competitive in careers within commercial crop agriculture. 3 undergraduate hours. 3 graduate hours. Prerequisite: CPSC 112 and NRES 201, or equivalent, or consent of instructor.

CPSC 413 Agriculture, Food, and the Environment  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/413/)
Advanced course in the complex interactions of food production resulting from different agricultural systems and the environment. Develop an appreciation of the intricacies of producing food for a growing world population while minimizing the impact on the natural environment. Understand the implementation of new technology and strategies for future food production. 2 undergraduate hours. 2 graduate hours. Prerequisite: CPSC 112 or CPSC 113 or equivalent course or consent of instructor.

CPSC 414 Forage Crops & Pasture Ecology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/414/)
Forages, their plant characteristics, ecology, and production; grasslands of farm and range as related to animal production and soil conservation. 3 undergraduate hours. 3 graduate hours. Offered in alternate years. Prerequisite: An introductory class in biology.

CPSC 415 Bioenergy Crops  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/415/)
Provides an overview and understanding of biomass feedstock production systems for sustainable biofuels production. 3 undergraduate hours. 3 graduate hours. Prerequisite: CPSC 112 or consent of instructor.

CPSC 416 Native Plants, Pollinators, & Food Ecosystems  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/416/)
Introduction to herbaceous native and non-native plants cultivated for landscape applications - conservation, uses, benefits for pollinators, significance for local biodiversity, and contribution to food production. Learn to: identify plants, establish and maintain plantings, and to enhance the interaction between beneficial insects and food crops. 3 undergraduate hours. 3 graduate hours. Credit is not given for CPSC 416 if credit for NRES 415 or HORT 344 has been earned. Prerequisite: HORT 100, IB 103, or basic Plant Biology course.

CPSC 418 Crop Growth and Management  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/418/)
Crop physiology and management as influenced by environment, plant species, and cropping system; relates plant growth processes to crop production practices based on current research. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 103 or CPSC 112 or equivalent, or consent of instructor.

CPSC 419 Midwest Agricultural Practices  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/CPSC/419/)
Introduces agronomic production practices in the Midwest and economics of the crop production value chain. Specifically designed for beginning graduate students in crop genetic improvement from non-agricultural backgrounds. 1 undergraduate hour. 1 graduate hour.

CPSC 426 Weed Mgt in Agronomic Crops  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/426/)
Principles of weed ecology and biology, and their application to weed management. Herbicides and their use in corn, soybeans and other agronomic crops. Specialized topics include weed management in reduced tillage, herbicide tolerant crops and management of problem weeds. Additional fees may apply. See Class Schedule. 3 undergraduate hours. 3 graduate hours. Prerequisite: CPSC 212 or consent of instructor.

CPSC 428 Weed Science Practicum  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/428/)
Intensive course on field diagnostic skills in weed science. Topics include weed and weed seed identification, sprayer calibration, herbicide application, herbicide injury symptomatology, and field diagnostics. Students who complete the course will be encouraged to enter the North Central Weed Science Society weeds contest, which occurs during the summer. Additional fees may apply. See Class Schedule. 2 undergraduate hours. 2 graduate hours. Prerequisite: CPSC 212 or CPSC 426 or consent of instructor.

CPSC 431 Plants and Global Change  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/431/)
The science of global atmospheric and climate change in the 21st Century. Understanding of how plants, including crops, will respond and may be adapted to these changes. Using plants to ameliorate predicted climate change. Same as IB 440 and NRES 431. 3 undergraduate hours. 3 graduate hours. Offered in alternate years. Prerequisite: CPSC 112 or IB 103.

</tbody>
</table>
CPSC 480  Cannabis Classification and Management  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/480/)
Designed to provide students with an understanding of the cannabis classification system and proper management practices for target compounds and products. Understanding cannabis biology and taxonomic classification is critical for proper management practices for the production of essential oils, psychoactive compounds, fiber, and seed oil and protein, and applications of those products. Discrepancies between scientific and vernacular names of cannabis and the inconsistency of vernacular names mislead producers and consumers. This course will discuss the taxonomy and vernacular nomenclature of cannabis and cannabis biology will be discussed based on individual subspecies. The subspecies classification will be necessary for proper management practices and harvesting of target compounds and products. 3 undergraduate hours. 3 graduate hours. Prerequisite: Students are expected to have basic knowledge of plant biology or consent of instructor.

CPSC 484  Plant Physiology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/484/)
Same as IB 420. See IB 420.

CPSC 486  Plant Growth and Development  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/486/)
Plant growth and development is a complex and highly regulated process that occurs over various spatiotemporal scales. This advanced interdisciplinary course integrates genetic, molecular, cellular, biochemical, anatomical, and physiological information in order to explore the life of a plant from its embryonic origins to its final death. Same as IB 479. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 103; CPSC 352 or IB 204, or equivalent.

CPSC 488  Soil Fertility and Fertilizers  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/488/)
Same as NRES 488. See NRES 488.

CPSC 489  Photosynthesis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/489/)
Same as BIOP 432 and IB 421. See IB 421.

CPSC 491  Ugrad Bioinformatics Seminar  credit: 0 to 2 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/491/)
Same as INFO 491. See INFO 491.

CPSC 498  Crop Sci Professional Developmt  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/CPSC/498/)
Topics related to professional development including resumes, interview skills, business etiquette, ethics, and presentations on opportunities in crop sciences and horticulture. 1 undergraduate hour. No graduate credit. Prerequisite: Junior standing in Crop Sciences or Horticulture.

CPSC 499  Advanced Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/499/)
Advanced experimental course on a special topic in crop sciences. 1 to 4 undergraduate hours. 1 to 4 graduate hours. Approved for Letter and S/U grading. May be repeated if topics vary.

CPSC 501  Programming for Genomics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/501/)
Same as IB 501. See IB 501.

CPSC 505  Research Methods in Crop Sciences  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/505/)
Lectures, discussions, and seminars dealing with research in crop sciences. 4 graduate hours. No professional credit.

CPSC 518  Crop Growth and Development  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/518/)
Study of the physiological processes involved in growth and development of crop plants and the interaction of these processes with the environment that influences productivity. Prerequisite: CPSC 418 or CPSC 484.

CPSC 526  Herbicide Action in Plants  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/526/)
Study of various chemicals used to inhibit plant growth, including their uptake, translocation, mode of action, metabolism and resistance mechanisms in plants; and the relationship of chemical structure to the environmental fate of herbicides. Offered in alternate years. Prerequisite: CPSC 426 and CPSC 484.

CPSC 527  Weed Science and Management  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/527/)
Advanced course on the biological and practical aspects of weeds and their management within Midwest agricultural systems. Includes discussions of current scientific literature to understand the latest advancements in weed science and management. 3 graduate hours. No professional credit. Prerequisite: CPSC 212. For Crop Sciences Online MS students only.

CPSC 538  Environmental Plant Physiology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/538/)
Same as IB 542. See IB 542.

CPSC 540  Applied Statistical Methods II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/540/)
Statistical methods as tools for research. Principles of designing experiments and methods of analysis for various kinds of designs, experimental (completely randomized, randomized complete block, split plots, Latin square) and treatment (complete factorial); covariate analysis; use of SAS for all analyses. 4 graduate hours. No professional credit. Credit is not given for CPSC 540 if credit for CPSC 542 has been given. Prerequisite: CPSC 440 or equivalent.

CPSC 541  Regression Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/541/)
The application of regression methods to problems in the agricultural, biological, and life sciences. Topics include simple linear, multiple linear, nonlinear, and logistic regression analysis and correlation analysis. Emphasis is placed on predictor variable selection, diagnostics, model selection and validation, and remedial measures, including ridge regression, weighted least squares regression, and the use of autoregressive models. Both quantitative and qualitative predictor variables are examined. SAS and R will be used. Same as ANSC 541. 4 graduate hours. No professional credit. Prerequisite: CPSC 440 or equivalent.
CPSC 543  Appl. Multivariate Statistics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/543/)
This class introduces students to statistical methods that consider several variables at once. Emphasis will be given to the applications of multivariate methods to data sets in biology and ecology. Students will develop good knowledge as to how multivariate methods work, they will be able to apply these methods using SAS and R and they will be able to make inferences on the results of the analyses for subsequent scientific publication. Same as STAT 543. Prerequisites: CPSC 440 or equivalent or consent of instructor.

CPSC 545  Statistical Genomics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/545/)
Same as ANSC 545 and IB 507. See ANSC 545.

CPSC 547  Quantitative Genetics and Genomics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/547/)
Most important traits in plant species are quantitative, which means that they are affected by large numbers of genes and their interaction with the environment. Many techniques and tools have developed to try to accelerate quantitative trait improvement, however understanding these methods and how to apply them appropriately remains a significant challenge for breeders and breeding organizations. Through this course, students will gain knowledge on fundamental quantitative genetics concepts and learn how to apply this knowledge to everyday genetic improvement situations. Special attention will be given to the application of QTL discovery, population improvement, and genomic selection in plant breeding programs. Each class will consist of a combination of lecture and in-class computer exercises conducted in small groups that the instructor will coach individually. Weekly readings from textbooks and/or primary sources will be assigned to help deepen student’s understanding of the topics covered in class. 3 graduate hours. No professional credit. Prerequisite: CPSC 352 or equivalent and CPSC 440 or equivalent. Familiarity with population genetics, plant breeding, mixed models, matrix algebra, and the R programming language is recommended.

CPSC 549  Crop Germplasm Resources  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/549/)
In this course students will explore the use, curation and collection of germplasm resources to facilitate crop improvement. Genetic diversity is the foundational resource that plant breeders use for the benefit of society; however, it is often challenging to identify, access, and use desirable genes from relatives of crop plants. Strategies and methods employed by plant breeders, curators and collectors will be discussed. Topics will include using distant relatives in breeding program, selecting a subset of accessions for evaluations when large collections are available, circumventing breeding barriers to obtain wide-cross progenies, navigating intellectual property issues, and writing a successful plant exploration proposal. 2 graduate hours. No professional credit. Prerequisite: Introductory courses in genetics (e.g. CPSC 352) and plant breeding (e.g. CPSC 453) or equivalent.

CPSC 550  Plant Breeding Literature  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/CPSC/550/)
Students will read a diverse group of plant breeding journal articles, will learn skills involved in evaluating a scientific paper, and will discuss articles with plant breeding faculty members. Approved for S/U grading only. May be repeated in separate terms to a maximum of 5 hours. Prerequisite: Graduate student status.

CPSC 551  Genomic Selection  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/551/)
Current topics and literature on the function and regulation of higher plant genes. Topics of emphasis: transposable elements, their effect on gene expression and variation, and uses in tagging and isolating genes; the developmental, tissue specific, or environmental regulations of plant genes; the structure, synthesis, subcellular targeting, and regulation of major cereal and legume seed proteins; the use of genetic engineering to explore the regulation of plant genes or to alter traits of agricultural importance. 4 graduate hours. No professional credit. Prerequisite: CPSC 352, MCB 450, or consent of instructor.

CPSC 552  Bioinformatics & Systems Biol  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/552/)
Bioinformatics and Systems Biology are emerging disciplines that address the need to manage and interpret the massive quantities of data generated by genomic research. In systems biology, advances in genomics, bioinformatics, and structural biology are used to generate global and unified views that integrate fragmentary knowledge of biological systems, their components and their interrelationships. This course is intended for students interested in the crossroads of biology and computational science and includes both lectures and hands-on experience. Same as IB 505. Prerequisite: Graduate level status or consent of instructor.

CPSC 554  Applied Bioinformatics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/554/)
Same as ANSC 542 and IB 506. See ANSC 542.

CPSC 557  Scientific Writing: Proposals, Manuscripts, and Peer Review  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/557/)
Advanced writing course covering topics specific to scientific writing, with emphasis on proposals, manuscripts, and peer review. 3 graduate hours. No professional credit. Prerequisite: Any 599 credit (sufficient data or research results for at least one figure or table).
CPSC 588  Plant Biochemistry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/588/)
Enzymes and pathways involved in plant intermediary metabolism. Basic cell physiology, bioenergetics, and hormonal regulation of metabolism. Same as IB 524. 4 graduate hours. No professional credit. Prerequisite: CPSC 484 and MCB 450.

CPSC 591  Grad Bioinformatics Seminar  credit: 0 to 2 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/591/)
Same as ANSC 591 and INFO 591. See INFO 591.

CPSC 593  Adv Studies in Crop Sciences  credit: 1 to 8 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/593/)
Directed studies of selected problems or topics relevant to Crop Sciences. Study may be in one of the following fields: 1) Plant Breeding and Genetics; 2) Plant Molecular Biology; 3) Plant Physiology; 4) Crop Production and Ecology; 5) Biometrics; 6) Plant Pathology; 7) Entomology; and 8) Weed Science. Prerequisite: Consent of instructor.

CPSC 594  Professional Orientation CPSC  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/CPSC/594/)
Discussion of the philosophy and components of graduate education in Crop Sciences including discussion of the development of methods and strategies useful in research, teaching, and extension. Students will be required to develop and submit a proposal describing planned research for a non-thesis research project, M.S. thesis or Ph.D. Dissertation. Approved for S/U grading only.

CPSC 598  Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/CPSC/598/)
Current research in crops, genetic engineering, plant protection and other topics relevant to Crop Sciences. Approved for both letter and S/U grading. May be repeated to a maximum of 14 hours if topics vary. Prerequisite: Graduate standing.

CPSC 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/599/)
Individual research under supervision of faculty. Required of all students working toward the Master of Sciences (thesis option) or Doctor of Philosophy in Crop Sciences. 0 to 16 graduate hours. No professional credit. Approved for S/U grading only. May be repeated in separate semesters.
CS Class Schedule

Courses

CS 100  Freshman Orientation  credit: 1 Hour.
Introduction to Computer Science as a field and career for computer science majors. Overview of the field and specific examples of problem areas and methods of solution.

CS 101  Intro Computing: Engrg & Sci  credit: 3 Hours.
Fundamental principles, concepts, and methods of computing, with emphasis on applications in the physical sciences and engineering. Basic problem solving and programming techniques; fundamental algorithms and data structures; use of computers in solving engineering and scientific problems. Intended for engineering and science majors. Prerequisite: One of MATH 220 or MATH 221 or MATH 231 or MATH 241.
This course satisfies the General Education Criteria for:
Quantitative Reasoning II

CS 102  Little Bits to Big Ideas  credit: 4 Hours.
Same as INFO 102. See INFO 102.

CS 105  Intro Computing: Non-Tech  credit: 3 Hours.
Computing as an essential tool of academic and professional activities. Functions and interrelationships of computer system components: hardware, systems and applications software, and networks. Widely used application packages such as spreadsheets and databases. Concepts and practice of programming for the solution of simple problems in different application areas. Intended for non-science and non-engineering majors. Prerequisite: MATH 112.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

CS 107  Data Science Discovery  credit: 4 Hours.
Same as IS 107 and STAT 107. See STAT 107.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

CS 124  Introduction to Computer Science I  credit: 3 Hours.
Basic concepts in computing and fundamental techniques for solving computational problems. Intended as a first course for computer science majors and others with a deep interest in computing. Credit is not given for both CS 124 and CS 125. Prerequisite: Three years of high school mathematics or MATH 112.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

CS 125  Introduction to Computer Science  credit: 4 Hours.
Basic concepts in computing and fundamental techniques for solving computational problems. Intended as a first course for computer science majors and others with a deep interest in computing. Credit is not given for both CS 125 and CS 124. Prerequisite: Three years of high school mathematics or MATH 112.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

CS 126  Software Design Studio  credit: 3 Hours.
Fundamental principles and techniques of software development. Design, documentation, testing, and debugging software, with a significant emphasis on code review. Credit is not given for both CS 242 and CS 126. Prerequisite: CS 125. For majors only.

CS 128  Introduction to Computer Science II  credit: 3 Hours.
Continuation of CS 124. More advanced concepts in computing and techniques and approaches for solving computational problems. Prerequisite: CS 124 or CS 125.
This course satisfies the General Education Criteria for:
Quantitative Reasoning II

CS 173  Discrete Structures  credit: 3 Hours.
Discrete mathematical structures frequently encountered in the study of Computer Science. Sets, propositions, Boolean algebra, induction, recursion, relations, functions, and graphs. Credit is not given for both CS 173 and MATH 213. Prerequisite: One of CS 124, CS 125, ECE 220; one of MATH 220, MATH 221.

CS 196  Freshman Honors  credit: 1 Hour.
Offered for honors credit in conjunction with other 100-level computer science courses taken concurrently. A special examination may be required for admission to this course. May be repeated. Prerequisite: Concurrent registration in another 100-level computer science course (see Schedule).

CS 199  Undergraduate Open Seminar in Computer Science  credit: 0 to 5 Hours.
Topics vary. Approved for Letter and S/U grading. May be repeated.
A significant coverage of fundamental models is presented, including linear models, unsupervised learning, supervised learning, and deep learning. A broad introduction to the use of classical approaches in data modeling and machine learning in the context of solving data-centric problems. Basics of computer systems. Number representations, assembly/machine language, abstract models of processors (fetch/execute, memory hierarchy), processes/process control, simple memory management, file I/O and directories, network programming, usage of cloud services. Basics of system programming, including POSIX processes, process control, inter-process communication, synchronization, signals, simple memory management, file I/O and directories, shell programming, socket network programming, RPC programming in distributed systems, basic security mechanisms, and standard tools for systems programming such as debugging tools. Credit is not given for both CS 241 and ECE 391. Prerequisite: CS 225, and CS 233.

Information listed in this catalog is current as of 01/2022
CS 357  Numerical Methods I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/357/)
Fundamentals of numerical methods for students in science and engineering; floating-point computation, systems of linear equations, approximation of functions and integrals, the single nonlinear equation, and the numerical solution of ordinary differential equations; various applications in science and engineering; programming exercises and use of high quality mathematical library routines. Same as MATH 357. Credit is not given for CS 357 if credit for CS 450 has been earned. (Counts for advanced hours in LAS). Prerequisite: One of CS 101, CS 105, CS 124, CS 125 or ECE 220; MATH 241; one of MATH 225, MATH 257, MATH 415, MATH 416 or ASRM 406.

CS 361  Probability & Statistics for Computer Science  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/361/)
Introduction to probability theory and statistics with applications to computer science. Topics include: visualizing datasets, summarizing data, basic descriptive statistics, conditional probability, independence, Bayes theorem, random variables, joint and conditional distributions, expectation, variance and covariance, central limit theorem. Markov inequality, Chebyshev inequality, law of large numbers, Markov chains, simulation, the PageRank algorithm, populations and sampling, sample mean, standard error, maximum likelihood estimation, Bayes estimation, hypothesis testing, confidence intervals, linear regression, principal component analysis, classification, and decision trees. Same as STAT 361. Credit is not given for both CS 361 and ECE 313. Prerequisite: MATH 220 or MATH 221; credit or concurrent registration in one of MATH 225, MATH 257, MATH 415, MATH 416 or ASRM 406. For majors only.

CS 374  Introduction to Algorithms & Models of Computation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/374/)
Analysis of algorithms, major paradigms of algorithm design including recursive algorithms, divide-and-conquer algorithms, dynamic programming, greedy algorithms, and graph algorithms. Formal models of computation including finite automata and Turing machines. Limitations of computation arising from fundamental notions of algorithm and from complexity-theoretic constraints. Reductions, undecidability and NP-completeness. Same as ECE 374. Prerequisite: One of CS 173, MATH 213; CS 225.

CS 397  Individual Study  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/397/)
May be repeated. Prerequisite: Consent of instructor.

CS 398  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/398/)
Subject offerings of new and developing areas of knowledge in computer science intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. May be repeated in the same or separate terms if topics vary.

CS 400  Accelerated Fundamentals of Computing I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/400/)
The first class in a sequence of two classes that introduces students to the basic concepts in computing with an emphasis on the fundamental techniques for solving computational problems. Topics include: core programming concepts (variables, data types, conditional expressions, loops, functions), basic data structures, searching and sorting algorithms, and data exploration and visualization. No prior programming experience is required. No undergraduate credit. 3 graduate hours. Prerequisite: Current enrollment in the Illinois Computing Accelerator for Non-specialists (iCAN) program or consent of instructor. Restricted to post-baccalaureate students with a non-computing background.

CS 401  Accelerated Fundamentals of Algorithms I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/401/)
The first class in a sequence of two classes that introduces students to the theoretical foundations of computer science. Topics include counting, sets, functions, decision trees, recursion, binary numbers, basic graph theory, depth first search and breadth first search, algorithms for computing shortest paths, data structures like stacks and queues, big O notation and asymptotic analysis, complexity classes like P and NP, and reductions. No undergraduate credit. 3 graduate hours. Prerequisite: Current enrollment in the Illinois Computing Accelerator for Non-specialists (iCAN) program or consent of instructor. Restricted to post-baccalaureate students with a non-computing background.

CS 402  Accelerated Fundamentals of Computing II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/402/)
Provides an accelerated introduction to class-based program design and the design of abstractions that support the design of reusable software and libraries. It reviews typical object-oriented concepts such as information hiding, encapsulation, polymorphism, inheritance, composition, and common design patterns. The course will also cover exception handling, database programming, and concurrent programming. No undergraduate credit. 3 graduate hours. Prerequisite: CS 400 or consent of instructor. Current enrollment in the Illinois Computing Accelerator for Non-specialists (iCAN) program or consent of instructor. Restricted to post-baccalaureate students with a non-computing background.

CS 403  Accelerated Fundamentals of Algorithms II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/403/)
The second class in a sequence of two classes that introduces students to the theoretical foundations of computer science. Topics include major paradigms of algorithm design divide and conquer, greedy, recursive, and dynamic programming; solving recurrences and analysis of divide and conquer algorithms; graph algorithms; formal models of computations like finite state automata and Turing machines; reductions. No undergraduate credit. 3 graduate hours. Prerequisite: CS 401 or consent of instructor. Current enrollment in the Illinois Computing Accelerator for Non-specialists (iCAN) program or consent of instructor. Restricted to post-baccalaureate students with a non-computing background.

CS 407  Cryptography  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/407/)
Same as ECE 407. See ECE 407.

CS 409  The Art of Web Programming  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/409/)
Client- and server-side technologies that enable modern Web applications. Topics include the building blocks of the Web (browsers, HTML, CSS, JavaScript) and data exchange (HTTP, AJAX, JSON, REST). Assignments expose students to full-stack web development, and JavaScript frameworks that scaffold MVC architectures and event-driven, asynchronous programming. The course culminates in a final project, where students work in teams to design and develop an original, database-backed web application. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225.

Information listed in this catalog is current as of 01/2022
CS 410  Text Information Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/410/)
Theory, design, and implementation of text-based information systems. Text analysis, retrieval models (e.g., Boolean, vector space, probabilistic),
text categorization, text filtering, clustering, retrieval system design and implementation, and applications to web information management. 3
undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225.

CS 411  Database Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/411/)
Examination of the logical organization of databases: the entity-relationship model; the hierarchical, network, and relational data models and their
languages. Functional dependencies and normal forms. Design, implementation, and optimization of query languages; security and integrity;
concurrency control, and distributed database systems. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225.

CS 412  Introduction to Data Mining  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/412/)
Concepts, techniques, and systems of data warehousing and data mining. Design and implementation of data warehouse and on-line analytical
processing (OLAP) systems; data mining concepts, methods, systems, implementations, and applications. 3 undergraduate hours. 3 or 4 graduate
hours. Prerequisite: CS 225.

CS 413  Intro to Combinatorics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/413/)
Same as MATH 413. See MATH 413.

CS 414  Multimedia Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/414/)
Organization and structure of modern multimedia systems; audio and video encoding; quality of service concepts; scheduling algorithms for
multimedia within OS and networks multimedia protocols over high-speed networks; synchronization schemes, user-interface design; multimedia
teleservices. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 241 or ECE 391.

CS 416  Data Visualization  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/416/)
Elements of databases, computer graphics and perceptual psychology combined to utilize the human visual system to improve user understanding
of large datasets. Topics include appropriate and effective selection and construction of charts, organization of dashboards, and design for user
engagement and interaction. 3 undergraduate hours. 4 graduate hours. Prerequisite: CS 225.

CS 417  Virtual Reality  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/417/)
Provides both a deep understanding of the fundamentals of virtual reality (VR) and practical experience implementing VR systems. Topics covered
include visual and audio display technology, tracking, human perception and psychophysics, building user interfaces for VR, and analyzing VR
experiences. 3 undergraduate hours. 4 graduate hours. Prerequisite: CS 225.

CS 419  Production Computer Graphics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/419/)
Advanced methods for representing, displaying, and rendering two-, three-, and four-dimensional scenes. General algebraic curves and surfaces,
splines, Gaussian and bump-function representation, fractals, particle systems, constructive solid geometry methods, lighting models, radiosity,
advanced ray-tracing methods, surface texturing animation techniques, data visualization methods. 3 undergraduate hours. 3 or 4 graduate hours.
Prerequisite: CS 418.

CS 420  Parallel Progrmg: Sci & Engr  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/420/)
Fundamental issues in design and development of parallel programs for various types of parallel computers. Various programming models according
to both machine type and application area. Cost models, debugging, and performance evaluation of parallel programs with actual application
examples. Same as CSE 402 and ECE 492. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225.

CS 421  Programming Languages & Compilers  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/421/)
Structure of programming languages and their implementation. Basic language design principles; abstract data types; functional languages; type
systems; object-oriented languages. Basics of lexing, parsing, syntax-directed translation, semantic analysis, and code generation. 3 undergraduate
hours. 3 or 4 graduate hours. Prerequisite: CS 233 or CS 240; CS 374; one of MATH 225, MATH 257, MATH 415, MATH 416 or ASRM 406.

CS 422  Programming Language Design  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/422/)
Exploration of major language design paradigms using imperative and functional programming as unifying themes. Tools include both practical
language processor construction and theoretical models. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 421.

CS 423  Operating Systems Design  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/423/)
Organization and structure of modern operating systems and concurrent programming concepts. Deadlock, virtual memory, processor scheduling, and
disk systems. Performance, security, and protection. Same as CSE 423. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 241 or ECE 391.

CS 424  Real-Time Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/424/)
Supervisory control aspects of Cyber Physical Systems (CPS): fundamentals of reliability analysis, real-time scheduling, simple feedback control,
software fault tolerance architecture, wireless networking and energy saving, principles of safety critical system engineering. Student groups design
and demonstrate supervisory control architecture for a robot. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 241.

CS 425  Distributed Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/425/)
Protocols, specification techniques, global states and their determination, reliable broadcast, transactions and commitment, security, and real-time
systems. Same as ECE 428. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 241 or ECE 391.

Information listed in this catalog is current as of 01/2022
CS 426  Compiler Construction  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/426/)
Compiler structure, syntax analysis, syntax-directed translation, automatically constructed recognizers, semantic analysis, code generation, intermediate language, optimization techniques. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 421.

CS 427  Software Engineering I  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/427/)
Software process, analysis and design. Software development paradigms, system engineering, function-based analysis and design, and object-oriented analysis and design. Course will use team-projects for hands-on exercises. Same as CSE 426. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 241.

CS 428  Software Engineering II  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/428/)
Continuation of CS 427. Software development, management, and maintenance. Project and configuration management, collaborative development models, software quality assurance, interoperability domain engineering and software reuse, and software re-engineering. Same as CSE 429. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 427.

CS 429  Software Engineering II, ACP  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/429/)
Continuation of CS 427. Identical to CS 428 except for the additional writing component. See CS 428. 3 undergraduate hours. 3 graduate hours. Prerequisite: CS 427.

This course satisfies the General Education Criteria for:
Advanced Composition

CS 431  Embedded Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/431/)
A survey of sampled data systems and embedded architecture; key concepts in common embedded system applications; signal processing and control; embedded microprocessor and device interface; time-critical I/O handling; data communications; real-time operating systems and techniques for the development and analysis of embedded real-time software; hands-on laboratory projects. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 241 or ECE 391.

CS 433  Computer System Organization  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/433/)
Computer hardware design and analysis and interface with software. Advanced processor design, including superscalar, out-of-order issue, branch prediction, and speculation. Memory hierarchy design, including advanced cache optimizations, main memory, and virtual memory. Principles of multiprocessor design, including shared-memory, cache coherence, synchronization, and consistency. Other advanced topics depending on time; e.g., GPUs and accelerators, warehouse computers and data centers, security. Same as CSE 422. 3 undergraduate hours. 4 graduate hours. Prerequisite: CS 233.

CS 434  Mobile Computing & Application  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/434/)
Same as ECE 434. See ECE 434.

CS 435  Cloud Networking  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/435/)
Provides a foundational view of computer networks with a focus on enabling modern large-scale cloud computing. The first part of this course studies the principles upon which the Internet and other networks are built, and how those principles translate into deployed protocols. The second part covers how those principles are applied in network infrastructure for modern clouds, enabling deployment of virtual networks on shared infrastructure, efficient transfer of big data and low latency communication, and federation of applications across countries and continents. 3 undergraduate hours. 4 graduate hours. Credit is not given for both CS 435 and CS 438/ECE 438. Prerequisite: One of CS 240, CS 241 or ECE 391.

CS 436  Computer Networking Laboratory  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/436/)
Design, application, analysis, and deployment of communication protocols and system software behind modern cloud/compute/network infrastructures. Students learn the internals of modern system infrastructures, including operating system networking kernels, cloud application service code, and firewall and router configuration. Students will gain experience with widely-used and production-grade code and systems, such as Cisco IOS, the Linux networking stack, and Amazon Web Services. This class links theory with practice to prepare students to confidently carry out tasks they will commonly encounter in industry, such as building an enterprise network, deploying a large-scale cloud service, or implementing a new network protocol. Same as ECE 435. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 241 or ECE 391.

CS 437  Topics in Internet of Things  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/437/)
Topics of networked embedded computing technology, known as the Internet of Things, in application, distributed, human-centric, or social contexts. The tight coupling between people, networking protocols, computing elements, and physical things in IoT systems presents unique challenges for data collection, processing in constrained computation and communication environments. Introduces general principles of IoT systems and protocol, offers broad foundations for IoT services, and allows specialization to pursue an in-depth understanding of selected IoT aspects or subtopics. 3 undergraduate hours. 4 graduate hours. May be repeated if topics vary. Credit towards a degree from multiple offerings of this course is not given if those offerings have significant overlap, as determined by the CS department. Prerequisite: CS 241. Additional prerequisites may be specified each term. See section information.

CS 438  Communication Networks  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/438/)
Layered architectures and the OSI Reference Model; design issues and protocols in the transport, network, and data link layers; architectures and control algorithms of local-area, point-to-point, and satellite networks; standards in networks access protocols; models of network interconnection; overview of networking and communication software. Same as ECE 438. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 241 or ECE 391; one of ECE 313, MATH 461, MATH 463.

CS 439  Wireless Networks  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/439/)
Same as ECE 439. See ECE 439.
CS 440  Artificial Intelligence  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/440/)
Major topics in and directions of research in artificial intelligence: basic problem solving techniques, knowledge representation and computer
inference, machine learning, natural language understanding, computer vision, robotics, and societal impacts. Same as ECE 448. 3 undergraduate
hours. 3 or 4 graduate hours. Prerequisite: CS 225.

CS 441  Applied Machine Learning  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/441/)
Techniques of machine learning to various signal problems: regression, including linear regression, multiple regression, regression forest and
nearest neighbors regression; classification with various methods, including logistic regression, support vector machines, nearest neighbors,
simple boosting and decision forests; clustering with various methods, including basic agglomerative clustering and k-means; resampling methods,
including cross-validation and the bootstrap; model selection methods, including AIC, stepwise selection and the lasso; hidden Markov models; model
estimation in the presence of missing variables; and neural networks, including deep networks. The course will focus on tool-oriented and problem-
oriented exposition. Application areas include computer vision, natural language, interpreting accelerometer data, and understanding audio data. 3
undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225.

CS 442  Trustworthy Machine Learning  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/442/)
Prepares students to understand the security and privacy problems in machine learning and educates students to propose different attack strategies to
defend the vulnerabilities of a range of learning algorithms and understand different defense approaches towards trustworthy machine learning
systems. Students will explore topics including basic machine learning foundations (e.g., linear regression and PCA), adversarial attacks against
different learning algorithms, differential privacy, data valuation, and different categories of defenses. The lessons are reinforced via a series of topic-
driven lectures, coding assignments, related paper readings, exams and in-class discussions. Students will learn to analyze current interactions
between attackers and defenders on machine learning and therefore develop an understanding of the principles on trustworthy machine learning
which is an emerging and important topic. Students will be required to finish three related homework projects, including 1) developing a machine
learning classifier, 2) designing adversarial attacks against the built classifier, and 3) developing defenses to improve the robustness of the trained
classifier against designed attacks. Students registered for 4 credit hours will also finish a final project based on the class topics, demonstrating their
ability to propose related new algorithms based on the class subjects. 3 undergraduate hours. 4 graduate hours. Prerequisite: CS 225; one of CS 440,
CS 441 or CS 446; one of MATH 225, MATH 257, MATH 415, MATH 416 or ASRM 406.

CS 444  Deep Learning for Computer Vision  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/444/)
Provides an elementary hands-on introduction to neural networks and deep learning with an emphasis on computer vision applications. Topics
include: linear classifiers; multi-layer neural networks; back-propagation and stochastic gradient descent; convolutional neural networks and their
applications to object detection and dense image labeling; recurrent neural networks and state-of-the-art sequence models like transformers;
generative adversarial networks and variational autoencoders for image generation; and deep reinforcement learning. Coursework will consist of
programming assignments in a common deep learning framework. Those registered for 4 credit hours will have to complete a project. 3 undergraduate
hours. 4 graduate hours. Prerequisite: Multi-variable calculus, linear algebra (MATH 225 or MATH 257 or MATH 415 or MATH 416 or ASRM 406), data
structures (CS 225 or equivalent), CS 361 or STAT 400. No previous exposure to machine learning is required.

CS 445  Computational Photography  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/445/)
Computer vision techniques to enhance, manipulate, and create media from photo collections, such as panoramic stitching, face morphing, texture
synthesis, blending, and 3D reconstruction. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225, MATH 225, and MATH 231.

CS 446  Machine Learning  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/446/)
Principles and applications of machine learning. Main paradigms and techniques, including discriminative and generative methods, reinforcement
learning: linear regression, logistic regression, support vector machines, deep nets, structured methods, dimensionality reduction, k-means, Gaussian
mixtures, expectation maximization, Markov decision processes, and Q-learning. Application areas such as natural language and text understanding,
speech recognition, computer vision, data mining, and adaptive computer systems, among others. Same as ECE 449. 3 undergraduate hours. 3 or
4 graduate hours. Prerequisite: CS 225; One of MATH 225, MATH 257, MATH 415, MATH 416 or ASRM 406; One of CS 361, ECE 313, MATH 461 or
STAT 400.

CS 447  Natural Language Processing  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/447/)
Part-of-speech tagging, parsing, semantic analysis and machine translation. Relevant linguistics concepts from morphology (word formation) and
lexical semantics (the meaning of words) to syntax (sentence structure) and compositional semantics (the meaning of sentences). 3 undergraduate
hours. 3 or 4 graduate hours. Credit is not given for both CS 447 and LING 406. Prerequisite: CS 374.

CS 448  Audio Computing Laboratory  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/448/)
Computational foundations of modern audio applications: theory of audio processing for implementation of applications such as room and 3D/
virtual audio rendering, pitch manipulations and autotuning, denoising for communications and forensics, audio classification, music information
retrieval based on audio, rudimentary speech recognition, speech and audio coding, applications of machine learning to audio scene recognition,
audio restoration, missing data recovery, and many more. This will be a lab-like course in which students collectively implement a variety of core audio
applications that are commonplace today. Students will be required to bring to class their laptops and headphones to participate in lab exercises. 3
undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 241 or ECE 391; one of MATH 225, MATH 257, MATH 415, MATH 416 or ASRM 406.

CS 450  Numerical Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/450/)
Linear system solvers, optimization techniques, interpolation and approximation of functions, solving systems of nonlinear equations, eigenvalue
problems, least squares, and quadrature; numerical handling of ordinary and partial differential equations. Same as CSE 401, ECE 491, and MATH 450.
3 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both CS 450 and CS 457. Prerequisite: One of CS 101 or CS 125; one of CS 357,
MATH 257, MATH 415, or MATH 416; MATH 285.
CS 457  Numerical Methods II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/457/)
Continuation of CS 357. Orthogonalization methods for least squares, Krylov subspace methods, non-linear equations and optimization in multiple
dimensions, initial and boundary value problems for ordinary and partial differential equations. 3 undergraduate hours. No graduate credit. Credit is not
given for both CS 457 and CS 450. Prerequisite: CS 357.

CS 460  Security Laboratory  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/460/)
Operating systems security: access control, least privilege mechanism and malware techniques. Network security: firewalls, sniffing, tunnels, intrusion
detection, AAA and worm structure. System security: forensics security architectures, and attack/defend exercises. Complements CS 461 via hands-on
project. Same as ECE 419. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 461.

CS 461  Computer Security I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/461/)
Fundamental principles of computer and communications security and information assurance: ethics, privacy, notions of threat, vulnerabilities, and
risk in systems, information warfare, malicious software, data secrecy and integrity issues, network security, trusted computing, mandatory and
discretionary access controls, certification and accreditation of systems against security standards. Security mechanisms: authentication, auditing,
intrusion detection, access control, cryptography, security protocols, key distribution. Same as ECE 422. 4 undergraduate hours. 4 graduate hours.
Prerequisite: CS 241 or ECE 391.

CS 463  Computer Security II  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/463/)
Program security, trusted base, privacy, anonymity, non-interference, information flow, confinement, advanced auditing, forensics, intrusion detection,
key management and distribution, policy composition and analysis, formal approaches to specification and verification of secure systems and
protocols, and topics in applied cryptography. Same as ECE 424. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 461. Recommended:
CS 475.

CS 464  Topics in Societal and Ethical Impacts of Computer Technology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/464/)
Topics selected from key current areas of impact of computer technology on aspects of society and ethics such as: freedom versus the rule of law
in cyberspace; social discourse; privacy; livelihoods and automation; fairness; security; political change; business models; technology divide. 3
undergraduate hours. No graduate credit. May be repeated if topics vary. Credit is not given towards a degree from multiple offerings of this course, if
those offerings have significant overlap, as determined by the CS department. Prerequisite: CS 225. One of CS 210 or CS 211 or ECE 316 or PHIL 316.
One of CS 361 or STAT 400 or STAT 200. Restricted to students with senior standing.

CS 465  User Interface Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/465/)
A project-focused course covering fundamental principles of user interface design, implementation, and evaluation. Small teams work on a term-long
project that involves: analysis of the problem domain, user skills, and tasks; iterative prototyping of interfaces to address user needs; conducting
several forms of evaluation such as cognitive walkthroughs and usability tests; implementation of the final prototype. Non-technical majors may enroll
as non-programmers who participate in all aspects of the projects with the possible exception of implementation. 4 undergraduate hours. 4 graduate
hours. Prerequisite: CS 225.

CS 466  Introduction to Bioinformatics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/466/)
Algorithmic approaches in bioinformatics: (i) biological problems that can be solved computationally (e.g., discovering genes, and interactions
among different genes and proteins); (ii) algorithmic techniques with wide applicability in solving these problems (e.g., dynamic programming and
probabilistic methods); (iii) practical issues in translating the basic algorithmic ideas into accurate and efficient tools that biologists may use. 3
undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225.

CS 467  Social Visualization  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/467/)
Visualizing social interaction in networked spaces: investigation of patterns in networked communications systems such as messaging (email, instant
messaging), social networking sites and collaborative sites; social network theory and visualizations; exploration of how to move beyond existing
visualization techniques; visualizing the network identity over compilations of online data. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite:
CS 225.

CS 468  Tech and Advertising Campaigns  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/468/)
Same as ADV 492. See ADV 492.

CS 469  Computational Advertising Infrastructure  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/469/)
Thorough coverage of technologies including web-search, auctions, behavioral targeting, mechanisms for viral marketing, that underpin the display
of advertisements on a variety of locations (e.g., ads on search engines; display ads). Students shall also learn about emerging areas in computational
advertising including location-based advertising and algorithmic synthesis of personalized advertisements. Discussion around privacy will be a
significant focus of the class. Same as ADV 462. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 173; CS 225; one of MATH 225,
MATH 257, MATH 415, MATH 416 or ASRM 406; CS 361.

CS 473  Algorithms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/473/)
Design and analysis techniques, approximation algorithms, randomized algorithms and amortized analysis, and advanced topics such as network
flow, linear programming, and dynamic data structures, among others. Same as CSE 414 and MATH 473. 4 undergraduate hours. 4 graduate hours.
Prerequisite: CS 374, and one of CS 361, MATH 461, or STAT 400.
CS 474  Logic in Computer Science  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/474/)
An introduction to mathematical logic from the perspective of computer science, emphasizing both computable aspects of logic, especially automated reasoning, as well as applications of logic to computer science in artificial intelligence, databases, formal methods, and theoretical computer science. Prepares students to use logic as a formal tool to solve problems in computer science and AI. Topics include: syntax, semantics and proofs for propositional and first order logic, the decidable logics and efficient realizations in terms of SAT/SMT solvers, decision and semi-decision procedures for first order logic and several first order logic theories, finite model theory and descriptive complexity. Additional topics include: connections between logic and machine learning, higher order logics, applications of logic to program verification, applications of logic in knowledge representation, proof complexity, modal and temporal logic, Courcelle's theorem and its applications in parameterized complexity, logic and its role in automatic program synthesis, connections between logic and database query languages. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 173, CS 225, CS 374.

CS 475  Formal Models of Computation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/475/)
Finite automata and regular languages; pushdown automata and context-free languages; Turing machines and recursively enumerable sets; linear-bounded automata and context-sensitive languages; computability and the halting problem; undecidable problems; recursive functions; Chomsky hierarchy; computational complexity. Same as MATH 475. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 374.

CS 476  Program Verification  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/476/)
Formal methods for demonstrating correctness and other properties of programs. Invariant assertions; Hoare axiomatics; well-founded orderings for proving termination; structural induction; computational induction; data structures; parallel programs; overview of predicate calculus. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225; CS 374 or MATH 414.

CS 477  Formal Software Development Methods  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/477/)
Mathematical models, languages, and methods for software specification, development, and verification. Same as ECE 478. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225; CS 374 or MATH 414.

CS 481  Advanced Topics in Stochastic Processes & Applications  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/481/)
Same as IE 410. See IE 410.

CS 482  Simulation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/482/)
Same as IE 413. See IE 413.

CS 483  Applied Parallel Programming  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/483/)
Same as CSE 408 and ECE 408. See ECE 408.

CS 484  Parallel Programming  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/484/)
Techniques for the programming of all classes of parallel computers and devices including shared memory and distributed memory multiprocessors, SIMD processors and co-processors, and special purpose devices. Key concepts in parallel programming such as reactive and transformational programming, speculation, speedup, isoefficiency, and load balancing. Synchronization primitives, libraries and languages for parallel programming such as OpenMP and MPI, performance monitoring, program tuning, analysis and programming of numerical and symbolic parallel algorithms. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 241.

CS 491  Seminar  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/491/)
Seminar on topics of current interest as announced in the Class Schedule. 0 to 4 undergraduate hours. 0 to 4 graduate hours. Approved for S/U grading only. May be repeated in the same or separate terms if topics vary to a maximum of 4 hours. Prerequisite: As specified for each topic offering, see Class Schedule or departmental course description.

CS 492  Senior Project I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/492/)
First part of a project course in computer science. Students work in teams to solve typical commercial or industrial problems. Work involves planning, design, and implementation. Extensive oral and written work is required both on-campus and possibly off-campus at sponsors’ locations. CS 492 must be taken as a sequence with either CS 493 or CS 494. 3 undergraduate hours. No graduate credit. Credit is not given for both CS 492 and a project course in another engineering department for the same project. Prerequisite: For Computer Science majors with senior standing.

CS 493  Senior Project II, ACP  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/493/)
Continuation of CS 492. Identical to CS 494 except for an additional writing component. See CS 494. 3 undergraduate hours. No graduate credit. Credit is not given for both CS 493 and a project course in another engineering department for the same project. Prerequisite: CS 492. This course satisfies the General Education Criteria for:
Advanced Composition

CS 494  Senior Project II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/494/)
Continuation of CS 492. 3 undergraduate hours. No graduate credit. Credit is not given for both CS 494 and a project course in another engineering department for the same project. Prerequisite: CS 492.

CS 497  CS Team Project  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/497/)
Student teams work with CS faculty to complete a significant project requiring advanced knowledge of CS principles. Project topics vary. 1 to 3 undergraduate hours. No graduate credit. May be repeated in the same term up to 6 hours, if topics vary; may be repeated in separate terms. Prerequisite: For majors only; junior or senior standing required.
CS 498  Special Topics credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/498/)
Subject offerings of new and developing areas of knowledge in computer science intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated in the same or separate terms if topics vary.

CS 499  Senior Thesis credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/499/)
Research and thesis development experience in computer science under guidance of a faculty member. Literature search, oral presentation, analysis and implementation, paper preparation, and completion of a written thesis. 3 undergraduate hours. No graduate credit. May be repeated to a maximum of 6 hours. Prerequisite: Consent of instructor.
This course satisfies the General Education Criteria for:
Advanced Composition

CS 500  Current Topics in Computing Education Research credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/500/)
Current research topics and theories in Computers and Education with an emphasis on learning theories such as constructivism, behaviorism, cognitivism, knowledge-in-pieces, test-potentiated learning, and transfer of learning. These theories will be applied to understanding how students learn computing topics such as programming and theoretical computing. These topics will be applied through the design of ethically responsible educational research studies. The course will culminate in students writing a research proposal or conference-style research paper based upon pilot data. 4 graduate hours. No professional credit. May be repeated if topics vary. Credit towards a degree from multiple offerings of this course is not given if those offerings have significant overlap, as determined by the CS department.

CS 508  Manycore Parallel Algorithms credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/508/)
Same as ECE 508. See ECE 508.

CS 510  Advanced Information Retrieval credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/510/)
Advanced concepts, models, and algorithms in information retrieval and major recent developments in the field, including historical milestones in information retrieval research, evaluation methodology, vector space retrieval model, probabilistic retrieval models, learning to rank algorithms, probabilistic topic models, information retrieval systems, text analytics, and topics of research frontiers in information retrieval. 4 graduate hours. No professional credit. Prerequisite: One of CS 410, CS 412, CS 446 or LING 406.

CS 511  Advanced Data Management credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/511/)
Advanced concepts in data management and information system design and implementation, and recent developments in the field. 1) Relational roots, objects and extensibility, query languages, data indexing, query processing, transaction processing, benchmarks, and 2) semi-structured data and unstructured data, information extraction, information integration, web search and mining, and other emerging directions in the field. Prerequisite: CS 411.

CS 512  Data Mining Principles credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/512/)
An advanced course on principles and algorithms of data mining. Data cleaning and integration; descriptive and predictive mining; mining frequent, sequential, and structured patterns; clustering, outlier analysis and fraud detection; stream data, web, text, and biomedical data mining; security and privacy in data mining; research frontiers. Prerequisite: CS 412.

CS 513  Theory & Practice of Data Cleaning credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/513/)
Same as IS 537. See IS 537.

CS 514  Advanced Topics in Network Science credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/514/)
We shall discuss classic and recent research in network analysis. Advanced topics include individual decision-making models, game theory, mechanism design, social choice, social signal design, diffusion of behavior on a network, choice architecture, network models, network mining algorithms and applications. 4 graduate hours. No professional credit. May be repeated if topics vary. Credit is not given towards a degree from multiple offerings of this course, if those offerings have significant overlap, as determined by the CS department. Prerequisite: CS 412, CS 446. Additional prerequisites or corequisites may be specified each term. See section information.

CS 519  Scientific Visualization credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/519/)
Visualization techniques useful in analysis of engineering and scientific data. Physical models; methods of computational science; two- and three-dimensional data types; visual representation schemes for scalar, vector, and tensor data; isosurface and volume visualization methods; visual monitoring; interactive steering. Same as CSE 527. Prerequisite: CS 418.

CS 521  Advanced Topics in Programming Systems credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/521/)
Advanced topics in building and verifying software systems, selected from areas of current research such as: model checking and automated verification, testing and automated test generation, program synthesis, runtime verification, machine learning and its applications in the design of verified systems, formal analysis of machine learning algorithms, principles of programming languages and type systems. 4 graduate hours. No professional credit. May be repeated if topics vary. Credit is not given towards a degree from multiple offerings of this course if those offerings have significant overlap, as determined by the CS department. Prerequisite: CS 374, CS 421. Additional prerequisites or corequisites may be specified each term. See section information.

CS 522  Programming Language Semantics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/522/)
Theory of programming languages including functional programming, meta-circular interpreters, typed, untyped and polymorphic lambda-calculi, and denotational semantics. Prerequisite: CS 422 and CS 426.
CS 523  Advanced Operating Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/523/)
Advanced concepts in operating system design and coverage of recent research directions. Resource management for parallel and distributed
systems. Interaction between operating system design and computer architectures. Process management, virtual memory, interprocess
communication, context switching, parallel and distributed file system designs, persistent objects, process and data migration, load balancing,
security, protection. Term projects. Prerequisite: CS 423, CS 425, and CS 433.

CS 524  Concurrent Progrm Languages  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/524/)
Theory of concurrency and concurrent programming languages. Formal models of concurrent computation such as process algebras, nets, and
actors; high level concurrent programming languages and their operational semantics; methods for reasoning about correctness and complexity of
concurrent programs. Prerequisite: CS 422; CS 475 or CS 476.

CS 525  Advanced Distributed Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/525/)
Peer-to-peer systems, sensor networks, and fundamental theoretical distributed computing. Review of classical work in each area, and application
of design methodologies to explore overlaps across them. Emphasis on protocol design, systems issues, and theory. Reading selections are roughly
two-thirds classical to one-third contemporary. Students write critiques, make presentations, and create a conference paper in a systematic manner.
Prerequisite: One of CS 423, CS 425, CS 438.

CS 526  Advanced Compiler Construction  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/526/)
Incremental and interactive compiling, error correction, code optimization, models of code generators. Prerequisite: CS 426.

CS 527  Topics in Software Engineering  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/527/)
Fault-tolerant software, software architecture, software patterns, multi-media software, and knowledge-based approaches to software engineering.
Case studies. Prerequisite: CS 428 or CS 429.

CS 528  Obj-Oriented Progrm & Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/528/)
Principles of object-oriented design; design patterns; use and design of frameworks; reflection, refractoring, use of unit tests as specifications.
Prerequisite: CS 427.

CS 533  Parallel Computer Architecture  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/533/)
Theoretical aspects of parallel and pipeline computation; time and processor bounds on classes of computations; data alignment network speed and
cost bounds; conflict-free access memories; overall computer system ideas. Same as CSE 522. Prerequisite: CS 433.

CS 534  Advanced Topics in Computer Architecture  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/534/)
Current topics in computer architecture, selected from areas of current research such as: energy efficiency, processing in memory, cloud computing, 3-
D architectures, security and privacy, hardware and software resiliency, cross-stack design, heterogeneous platforms, approximate computing, mobile
computing, machine learning accelerators, and novel computing technologies. 4 graduate hours. No professional credit. May be repeated, if topics
vary. Credit is not given towards a degree from multiple offerings of this course, if those offerings have significant overlap, as determined by the CS
department. Prerequisite: CS 433. Additional prerequisites or co-requisites may be specified each term. See Class Schedule information.

CS 536  Fault-Tolerant Dig Syst Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/536/)
Same as ECE 542. See ECE 542.

CS 537  Advanced Topics in Internet of Things (IoT)  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/537/)
Advanced topics in Internet of Things (IoT) algorithms, protocols, architectures, systems, and infrastructures, selected from areas of current research
such as: IoT sensors representations and compression, streaming and caching of IoT data, IoT analytics and feature learning, IoT-edge-cloud
computing infrastructures, resource optimization for multi-modal IoT systems, applications and human perception of IoT. Students will read and
discuss recent research papers and conduct a semester-long research project. 4 graduate hours. No professional credit. May be repeated, if topics
vary. Credit towards a degree from multiple offerings of this course is not given if those offerings have significant overlap, as determined by the CS
department. Prerequisite: CS 425, CS 438. Additional prerequisites may be specified each term. See section information.

CS 538  Advanced Computer Networks  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/538/)
Advanced concepts in computer networks, including congestion control, quality of service, naming, routing, wireless networks, Internet architecture,
measurement, network security, and selected recent research directions. Prerequisite: CS 438.

CS 539  Distributed Algorithms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/539/)
Same as ECE 526. See ECE 526.

CS 540  Deep Learning Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/540/)
A rigorous mathematical course covering foundational analyses of the approximation, optimization, and generalization properties of Deep Neural
Networks. Topics include: constructive and non-constructive approximations with one hidden layer; benefits of depth; optimization in the NTK regime;
maximum margin optimization outside the NTK regime; Rademacher complexity, VC dimensino, and covering number bounds for ReLU networks.
Evaluation is primarily based on homeworks, with a smaller project component. The course goal is to prepare students perform their own research in
the field. 4 graduate hours. No professional credit. Prerequisite: Basic linear algebra, probability, proof-writing, and statistics required. Real analysis
recommended.

CS 541  Computer Systems Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/541/)
Same as ECE 541. See ECE 541.
CS 542  Statistical Reinforcement Learning  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/CS/542/](https://courses.illinois.edu/schedule/terms/CS/542/))
Theory of reinforcement learning, with a focus on sample complexity analyses. Specific topics include MDP basics, finite-sample analyses of online (i.e., exploration) and offline (i.e., batch) RL with a tabular representation, finite-sample analyses of online and offline RL with function approximation, state abstraction theory, off-policy evaluation (importance sampling), and policy gradient. The course goal is to provide a comprehensive understanding of the statistical properties of RL under various settings (e.g., online vs offline), preparing the students for doing research in the area. 4 graduate hours. No professional credit. Prerequisite: Calculus, linear algebra, probability and statistics, and basic concepts of machine learning. Familiarity with (at least one of) the following topics is highly recommended: stochastic processes, numerical analysis, and theoretical computer science.

CS 543  Computer Vision  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/CS/543/](https://courses.illinois.edu/schedule/terms/CS/543/))
Same as ECE 549. See ECE 549.

CS 544  Optimiz in Computer Vision  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/CS/544/](https://courses.illinois.edu/schedule/terms/CS/544/))
Applications of continuous and discrete optimization to problems in computer vision and machine learning, with particular emphasis on large-scale algorithms and effective approximations: gradient-based learning; Newton's method and variants, applied to structure from motion problems; the augmented Lagrangian method and variants; interior-point methods; SMO and other specialized algorithms for support vector machines; flows and cuts as examples of primal-dual methods; dynamics programming, hidden Markov models, and parsing: 0-1 quadratic forms, max-cut, and Markov random-fields solutions. Prerequisite: CS 450 and CS 473.

CS 545  Machine Learning for Signal Processing  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/CS/545/](https://courses.illinois.edu/schedule/terms/CS/545/))
Fundamentals of machine learning and signal processing as they pertain to the development of machines that can understand complex real-world signals, such as speech, images, movies, music, biological and mechanical readings, etc. Hands-on examples of how to decompose, analyze, classify, detect and consolidate signals, and examine various commonplace operations such as finding faces from camera feeds, organizing personal music collections, designing speech dialog systems and understanding movie content. 4 graduate hours. No professional credit. Prerequisite: MATH 415; CS 361 or MATH 461 or STAT 400.

CS 546  Advanced Topics in Natural Language Processing  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/CS/546/](https://courses.illinois.edu/schedule/terms/CS/546/))
Advanced topics in natural language processing, ranging from general techniques such as deep learning for NLP to specific topics such as information extraction, knowledge acquisition, dialogue systems, language grounding, and natural language generation. Review of classic as well as state-of-the-art techniques and remaining challenges, and exploration of recent proposals for meeting these challenges. Intended for graduate students doing research in natural language processing. 4 graduate hours. No professional credit. May be repeated in separate terms up to 16 hours, if topics vary. Credit towards a degree from multiple offerings of this course is not given if those offerings have significant overlap, as determined by the CS department. Prerequisite: CS 447 and CS 446 or equivalent background.

CS 547  Deep Learning  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/CS/547/](https://courses.illinois.edu/schedule/terms/CS/547/))
Same as IE 534. See IE 534.

CS 548  Models of Cognitive Processes  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/CS/548/](https://courses.illinois.edu/schedule/terms/CS/548/))
Formal models and concepts in automated cognition; integrating machine learning and prior knowledge; current approaches and detailed analyses of the role of reasoning in the learning process; computational complexity and fundamental tradeoffs between expressiveness and tractability; implications for state-of-the-art artificial intelligence areas such as automated planning, the semantic web, relational learning, structured prediction, latent models, structure learning, theory formation, etc.; philosophical and psychological aspects of integrating analytic and empirical evidence. Same as ECE 548. Prerequisite: CS 440 or CS 446.

CS 549  Seminar in Cognitive Science  credit: 2 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/CS/549/](https://courses.illinois.edu/schedule/terms/CS/549/))
Same as PSYC 514, ANTH 514, EPSY 551, LING 570, and PHIL 514. See PSYC 514.

CS 554  Parallel Numerical Algorithms  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/CS/554/](https://courses.illinois.edu/schedule/terms/CS/554/))
Numerical algorithms for parallel computers: parallel algorithms in numerical linear algebra (dense and sparse solvers for linear systems and the algebraic eigenvalue problem), numerical handling of ordinary and partial differential equations, and numerical optimization techniques. Same as CSE 512. Prerequisite: One of CS 450, CS 457, CS 555.

CS 555  Numerical Methods for PDEs  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/CS/555/](https://courses.illinois.edu/schedule/terms/CS/555/))
Numerical techniques for initial and boundary value problems in partial differential equations. Finite difference and finite element discretization techniques, direct and iterative solution methods for discrete problems, and programming techniques and usage of software packages. Same as CSE 510 and MATH 552. 4 graduate hours. No professional credit. Prerequisite: CS 450 or CS 457.

CS 556  Iterative & Multigrid Methods  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/CS/556/](https://courses.illinois.edu/schedule/terms/CS/556/))
Comprehensive treatment of algebraic and multigrid iterative methods to solve systems of equations, primarily linear equations arising from discretization of partial differential equations. Same as CSE 511.

CS 558  Topics in Numerical Analysis  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/CS/558/](https://courses.illinois.edu/schedule/terms/CS/558/))
Advanced topics in numerical analysis selected from areas of current research. Same as CSE 513. May be repeated. Prerequisite: As specified for each topic offering, see Schedule or departmental course description.
CS 562  Advanced Topics in Security, Privacy, and Machine Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/562/)
Advanced topics in security and privacy problems in machine learning systems, selected from areas of current research such as: adversarial machine learning, differential privacy, game theory enabled defenses, robust learning methods, machine learning based cybercrime analysis, network intrusion detection, and malware analysis, and machine learning interpretation techniques. 4 graduate hours. No professional credit. May be repeated if topics vary. Credit is not given towards a degree from multiple offerings of this course if those offerings have significant overlap, as determined by the CS department. Prerequisite: CS 446 and CS 463 or equivalent courses, by consent of instructor. Additional prerequisites or corequisites may be specified each term. See section information.

CS 563  Advanced Computer Security  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/563/)
Current research trends in computer and network security. Privacy, tamper-resistance, unwanted traffic, monitoring and surveillance, and critical infrastructure protection. Subtopics will vary depending upon current research trends. Students work in teams in close coordination with the course instructor to develop one of the topics in depth by carrying out background research and an exploratory project. Same as ECE 524. Prerequisite: CS 461 or CS 463.

CS 565  Human-Computer Interaction  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/565/)
In-depth coverage of advanced topics in human-computer interaction (HCI). Applied models of human performance and attention, design tools for creative design tasks, interruptions and peripheral displays, gestures, and bimanual input, and usability evaluation techniques. Students complete a research-oriented term project of their choosing. Prerequisite: CS 465.

CS 567  Social Signals and Social Media  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/567/)
Online social interactions occur in many arenas important to society and human well-being, but are mediated through algorithmic interventions that alter the users expectations in these social spaces. This class explores the presentation of self, the presentation of collectives, the presentation of news, and social dynamics in these online spaces—and how algorithmic intervention shapes them from the perspective of social signaling theory. Topics covered include: the evolution of algorithmic matchmaking (as in online resume/interviews and dating sites), why people share misinformation, the mitigation of trolling, ethics, and bias in social media systems. Upon completion of this course, students will have an up-to-date understanding of the design social media interfaces with incentive structures from social signaling theory. 4 graduate hours. No professional credit. Prerequisite: CS 465 or equivalent or permission of instructor. Prioritize PhD students, then others.

CS 571  Combinatorial Mathematics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/571/)
Same as MATH 580. See MATH 580.

CS 572  Extremal Graph Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/572/)
Same as MATH 581. See MATH 581.

CS 573  Algorithms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/573/)
NP-completeness, design and analysis techniques, approximation algorithms, randomized algorithms, combinatorial optimization, linear programming. Intended for graduate students in Computer Science. Same as CSE 515. 4 graduate hours. No professional credit.

CS 574  Randomized Algorithms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/574/)
Basic and advanced concepts in the design and analysis of randomized algorithms. Sampling; concentration inequalities such as Chernoff-Hoeffding bounds; probabilistic method; random walks, dimension reduction; entropy; martingales and Azuma's inequality; derandomization. Randomized algorithms for sorting and searching; graphs; geometric problems. Basics of pseudorandomness and randomized complexity classes. Prerequisite: CS 473; MATH 461 or STAT 400.

CS 575  Methods of Combinatorics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/575/)
Same as MATH 584. See MATH 584.

CS 576  Topics in Automated Deduction  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/576/)
Advanced topics in computer-aided methods for formal deduction, selected from areas of current research, such as: resolution theorem proving strategies, special relations, equational reasoning, unification theory, rewrite systems, mathematical induction, program derivation, hybrid inference systems, and programming with logic. May be repeated in separate terms. Prerequisite: As specified for each topic offering, see Schedule or departmental course description.

CS 579  Computational Complexity  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/579/)
Turing machines; determinism and non-determinism; time and space hierarchy theorems; speed-up and tape compression; Blum axioms; structure of complexity classes NP, P, NL, L, and PSPACE; complete problems; randomness and complexity classes RP, RL, and BPP; alternation, polynomial-time hierarchy; circuit complexity, parallel complexity, NC, and RNC; relativized computational complexity; time-space trade-offs. Same as ECE 579. Prerequisite: CS 473 or CS 475.

CS 580  Topics in Algorithmic Game Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/580/)
A theoretical CS course covering advances in algorithmic game theory. This includes study of strategic, computational, learning, dynamic, and fairness aspects of games and markets (organizations that involve rational and strategic agents). In particular, topics will include computation and complexity of equilibria, mechanism design, fair-division, dynamics in games and markets, price-of-anarchy etc.. These topics arise from applications such as online marketplaces (like Lyft, Uber, eBay, sponsored search, TaskRabbit), social networks, recommendation systems, kidney exchange, spectrum auction, etc., and thereby will prepare students for related research and/or industry jobs. 4 graduate hours. No professional credit. Prerequisite: CS 473.
CS 581  Algorithmic Genomic Biology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/581/)
The purpose of the course is to give each student enough background and training in the area of algorithmic genomic biology so that each will be able to do research in this area, and publish papers. The main focus of the course is phylogeny (evolutionary tree) estimation, multiple sequence alignment, and genome-scale phylogenetics, which are problems that present very interesting challenges from a computational and statistical standpoint. Time permitting, we will also discuss computational problems in microbiome analysis, protein function and structure prediction, genome assembly, and even historical linguistics. Students will learn the mathematical and computational foundations in these areas, read the current literature, and do a team research project. The course is designed for doctoral students in computer science, computer engineering, bioengineering, mathematics, and statistics, and does not depend on any prior background in biology. The technical material will depend on discrete algorithms, graph theory, simulations, and probabilistic analysis of algorithms. 4 graduate hours. No professional credit. Prerequisite: CS 374 and CS 361/STAT 361, or consent of instructor.

CS 582  Machine Learning for Bioinformatics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/582/)
This graduate course on bioinformatics introduces a selection of topics in computational biology and bioinformatics, with special emphasis on current problems in regulatory genomics and systems biology. Computational approaches discussed will focus on Machine Learning techniques such as Bayesian inference, graphical models, supervised learning and network analysis. Bioinformatics topics will be introduced through lectures by instructor and research paper presentations by students, and include regulatory sequence analysis, cistromics, epigenomics, regulatory network reconstruction, non-coding variant interpretation, and protein structure and function prediction. A research project involving real data analysis with techniques related to course content is mandatory and will help prepare students for bioinformatics research. 4 graduate hours. No professional credit. Prerequisite: CS 446; Credit or concurrent enrollment in CS 466; or consent of instructor.

CS 583  Approximation Algorithms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/583/)
Approximation algorithms for NP-hard problems. Basic and advanced techniques in approximation algorithm design: combinatorial algorithms; mathematical programming methods including linear and semi-definite programming, local search methods, and others. Algorithms for graphs and networks, constraint satisfaction, packing and scheduling. Prerequisite: CS 573 or consent of instructor.

CS 584  Embedded System Verification  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/584/)
Same as ECE 584. See ECE 584.

CS 585  Hardware Verification  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/585/)
Same as ECE 519. See ECE 519.

CS 586  Combinatorial Optimization  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/586/)
Same as IE 519. See IE 519.

CS 588  Autonomous Vehicle System Engineering  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/588/)
Will introduce students to the computational principles involved in autonomous vehicles, with practical labwork on an actual vehicle. Sensing topics will include vision, lidar and sonar sensing, including state-of-the-art methods for detection, classification, and segmentation. Bayesian filtering methods will be covered in the context of both SLAM and visual tracking. Planning and control topics will cover vehicle dynamics models, state-lattice planning, sampling-based kinodynamic planning, optimal control and trajectory optimization, and some reinforcement learning. Evaluation will involve ambitious challenge projects implemented on a physical vehicle. 4 graduate hours. No professional credit. Prerequisite: CS 374, ECE 484, or equivalent.

CS 591  Advanced Seminar  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/591/)
Seminar on topics of current interest as announced in the Class Schedule. Approved for S/U grading only. May be repeated in the same or separate terms if topics vary. Prerequisite: As specified for each topic offering, see Class Schedule or departmental course description.

CS 597  Individual Study  credit: 2 to 16 Hours. (https://courses.illinois.edu/schedule/terms/CS/597/)
Individual study or reading in a subject not covered in normal course offerings. May be repeated. Prerequisite: Consent of instructor.

CS 598  Special Topics  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/598/)
Subject offerings of new and developing areas of knowledge in computer science intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. May be repeated in the same or separate terms if topics vary.

CS 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/CS/599/)
Approved for S/U grading only. May be repeated.
CSE - Computational Science and Engineering

CSE Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/CSE/)

Courses

CSE 198 Special Topics credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/198/)
Subject offerings of new and developing areas of knowledge in computational science and engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. May be repeated up to 6 hours in the same semester and to a maximum of 9 hours in separate semesters.

CSE 298 Special Topics credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/298/)
Subject offerings of new and developing areas of knowledge in computational science and engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. May be repeated up to 6 hours in the same semester and up to 9 hours in separate semesters.

CSE 398 Special Topics credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/398/)
Subject offerings of new and developing areas of knowledge in computational science and engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. May be repeated up to 6 hours in the same semester and up to 9 hours in separate semesters.

CSE 401 Numerical Analysis credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/401/)
Same as CS 450, ECE 491 and MATH 450. See CS 450.

CSE 402 Parallel Progrmg: Sci & Engrg credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/402/)
Same as CS 420 and ECE 492. See CS 420.

CSE 408 Applied Parallel Programming credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/408/)
Same as CS 483 and ECE 408. See ECE 408.

CSE 412 Numerical Thermo-Fluid Mechs credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/412/)
Same as ME 412. See ME 412.

CSE 414 Algorithms credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/414/)
Same as CS 473 and MATH 473. See CS 473.

CSE 422 Computer System Organization credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/422/)
Same as CS 433. See CS 433.

CSE 423 Operating Systems Design credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/423/)
Same as CS 423. See CS 423.

CSE 426 Software Engineering I credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/426/)
Same as CS 427. See CS 427.

CSE 427 Interactive Computer Graphics credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/427/)
Same as CS 418. See CS 418.

CSE 428 Statistical Computing credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/428/)
Same as STAT 428. See STAT 428.

CSE 429 Software Engineering II credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/429/)
Same as CS 428. See CS 428.

CSE 440 Statistical Data Management credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/440/)
Same as STAT 440. See STAT 440.

CSE 441 Introduction to Optimization credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/441/)
Same as ECE 490. See ECE 490.

CSE 448 Advanced Data Analysis credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/448/)
Same as STAT 448. See STAT 448.

CSE 450 Computational Mechanics credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/450/)
Same as TAM 470. See TAM 470.

CSE 451 Finite Element Analysis credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/451/)
Same as AE 420 and ME 471. See ME 471.

CSE 461 Computational Aerodynamics credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/461/)
Same as AE 410. See AE 410.

CSE 485 Atomic Scale Simulations credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/485/)
Same as MSE 485 and PHYS 466. See MSE 485.

Information listed in this catalog is current as of 01/2022
CSE 498  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/498/)
Subject offerings of new and developing areas of knowledge in computational science and engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated for a maximum of 6 hours in the same semester and up to 9 hours in separate semesters.

CSE 505  Computational Bioengineering  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/505/)
Same as BIOE 505. See BIOE 505.

CSE 510  Numerical Methods for PDEs  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/510/)
Same as CS 555 and MATH 552. See CS 555.

CSE 511  Iterative & Multigrid Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/511/)
Same as CS 556. See CS 556.

CSE 512  Parallel Numerical Algorithms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/512/)
Same as CS 554. See CS 554.

CSE 513  Topics in Numerical Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/513/)
Same as CS 558. See CS 558.

CSE 515  Algorithms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/515/)
Same as CS 573. See CS 573.

CSE 517  Adv Finite Element Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/517/)
Same as TAM 574. See TAM 574.

CSE 521  Computer Architecture  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/521/)
Same as ECE 511. See ECE 511.

CSE 522  Parallel Computer Architecture  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/522/)
Same as CS 533. See CS 533.

CSE 525  Computational Statistics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/525/)
Same as STAT 525. See STAT 525.

CSE 527  Scientific Visualization  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/527/)
Same as CS 519. See CS 519.

CSE 529  Interact of Rad w/Matter II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/529/)
Same as NPRE 529. See NPRE 529.

CSE 530  Computational Electromagnetics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/530/)
Same as ECE 540. See ECE 540.

CSE 532  Numerical Circuit Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/532/)
Same as ECE 552. See ECE 552.

CSE 542  Statistical Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/542/)
Same as ASRM 551 and STAT 542. See STAT 542.

CSE 543  Topics in Image Processing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/543/)
Same as ECE 547. See ECE 547.

CSE 551  Finite Element Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/551/)
Same as CEE 570. See CEE 570.

CSE 552  Nonlinear Finite Elements  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/552/)
Same as CEE 576. See CEE 576.

CSE 553  Computational Inelasticity  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/553/)
Same as CEE 577. See CEE 577.

CSE 554  Computational Plates & Shells  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/554/)
Same as CEE 571. See CEE 571.

CSE 560  Computational Fluid Mechanics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/560/)
Same as TAM 570. See TAM 570.

CSE 566  Numerical Fluid Dynamics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/566/)
Same as ATMS 502. See ATMS 502.

CSE 576  Computational Chemical Biology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/576/)
Same as BIOP 576 and CHEM 576. See CHEM 576.
CSE 598  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/598/)
Subject offerings of new and developing areas of knowledge in computational science and engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. 1 to 4 graduate hours. 1 to 4 professional hours. Approved for Letter and S/U grading. May be repeated for a maximum of 6 hours in the same semester and up to 9 hours in separate semesters.
CW - Creative Writing

CW Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/CW/)

Courses

CW 100  Intro to Creative Writing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CW/100/)
Acquaint students with the technical choices a writer makes in creating a story or a poem. Mondays are given to lectures on specific elements of poetry and fiction. Wednesdays are dedicated to readings by faculty and visiting writers. Fridays allow students the opportunity to work in small group discussion sections applying the week's techniques and skills to a close reading of stories and poems.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CW 104  Fiction Workshop I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CW/104/)
An introductory workshop in fiction, with a primary emphasis on short stories. Prerequisite: Completion of campus Composition I general education requirement.

CW 106  Poetry Workshop I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CW/106/)
Practice in the writing of poetry; experimentation with a number of fixed forms and free verse, but emphasis mainly on the student's freedom to develop a personal style. Prerequisite: Completion of campus Composition I general education requirement.

CW 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/CW/199/)
Topics course that varies each semester and by section. The topics offered each semester will be listed in the Class Schedule. Approved for Letter and S/U grading. May be repeated.

CW 200  Reading for Writers  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CW/200/)
Emphasizes the craft of short stories and poems through the study of formal elements central to the production of creative writing (e.g., plot, character, setting, point of view in short fiction and rhythm, meter, line break, imagery, simile, metaphor, formal patterns in poetry). Prerequisite: CW 104 or CW 106. For majors only.

CW 202  Topics in Creative Writing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CW/202/)
Independent writing projects and examination of literature as the cultural basis of the student's specialized fields. May be repeated as topics vary.

CW 204  Fiction Workshop II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CW/204/)
An intermediate workshop in fiction, with a primary emphasis on short stories. Prerequisite: CW 104 or equivalent.

CW 206  Poetry Workshop II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CW/206/)
Builds upon the workshop format of CW 106, with an emphasis on prosody and poetic technique. Students will deepen their sense of craft by putting into practice their study and understanding of a variety of poetic forms (e.g., syllabic poetry, dramatic monologue, sonnet, bound/free verse) and technical concerns (e.g., voice, tone, line, line break, image). The workshop component of the course typically includes 8-12 completed poems and their revisions. Prerequisite: CW 106.

CW 208  Creative Nonfiction Workshop  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CW/208/)
Types of nonfiction prose, including the personal essay, memoir, literary journalism, and historical writing.

CW 243  The Craft Essay: Creative Reading, Reflection, and Revision  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CW/243/)
In this writing- and reading-intensive composition class, students will look at how creative writers—fiction writers, poets, and essayists—write about creative writing outside of the standard literary analysis model. Realizing that there are other methods of discussing, analyzing, and considering literature is a major goal of this class. As a complement to the production of creative work, students will focus on how we analyze, consider, and place that work within the greater context of creative writing. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition

CW 404  Fiction Workshop III  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CW/404/)
An advanced workshop in fiction, with a primary emphasis on short stories. 3 undergraduate hours. 4 graduate hours. May be repeated for a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: CW 204 or equivalent.

CW 406  Poetry Workshop III  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CW/406/)
Practice of the writing of poetry aided by intensive study of examples. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: CW 206 or equivalent.

CW 455  Creative Writing Tutorial  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CW/455/)
Personal direction in a writing project: fiction (novel or short stories), poetry or creative nonfiction. Frequency of conference to be determined by the type of project. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: CW 208, CW 404 or CW 406, and consent of the Director of Creative Writing.

Information listed in this catalog is current as of 01/2022
CW 460  Intro to Literary Editing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CW/460/)
Practicum in which students learn all the stages of developing and editing a literary publication. Students will solicit, read, and select poems and stories for an online supplement to the Ninth Letter literary journal. At the end of the semester, the supplement will be published on the Ninth Letter website (www.ninthletter.com). Students will gain experience in professional communications, copyediting, and marketing. 3 undergraduate hours. No graduate credit. May be repeated in separate semesters to a maximum of 6 hours. Prerequisite: CW 104 or CW 106.

CW 463  Adv Topics in Creative Writing  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CW/463/)
Advanced topics course in Creative Writing. Students study selected topic through a workshop model, pursuing advanced development in one or more approaches to writing in a specialized field or genre. 3 undergraduate hours. 4 graduate hours. May be repeated, if topics vary. Prerequisite: Junior standing required.

CW 500  The Craft of Fiction  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CW/500/)
Examination of the creative process of fiction from the perspectives of aesthetics and techniques, illustrated from the work of selected authors. Prerequisite: Graduate standing in English.

CW 502  Problems in Poetry Writing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CW/502/)
Examination of the creative process of poetry from the perspective of aesthetics and techniques, illustrated from the work of selected authors. Prerequisite: Graduate standing in English.

CW 504  Writing Workshop in Fiction  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CW/504/)
Directed individual projects, with group discussion in fiction. May be repeated to a maximum of 16 hours. Prerequisite: Admission to the MFA program, or graduate standing in English with advanced submission of creative work and consent of instructor.

CW 506  Writing Workshop in Poetry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CW/506/)
Directed individual projects, with group discussion in poetry. May be repeated to a maximum of 16 hours. Prerequisite: Admission to the MFA program, or graduate standing in English with advanced submission of creative work and consent of instructor.

CW 560  Literary Publishing & Promotion  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CW/560/)
A working practicum designed to teach graduate students the basics of literary journal publishing and to introduce them to career and entrepreneurial opportunities in other types of literary arts organizations. Students will attend weekly editorial meetings, complete weekly reading assignments, and will work 2 hours per week in the 'Ninth Letter' office, reading manuscript submissions and completing various clerical tasks for the journal. Approved for both letter and S/U grading. May be repeated to a maximum of 8 hours. Prerequisite: MFA candidate standing.

CW 563  Special Topics  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CW/563/)
Approved for both letter and S/U grading. May be repeated up to a maximum of 12 hours. Prerequisite: MFA candidate standing or consent of instructor.

CW 591  Independent Study  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CW/591/)
Approved for both letter and S/U grading. May be repeated up to a maximum of 12 hours. Prerequisite: MFA candidate standing.

CW 595  Final Project  credit: 0 to 12 Hours. (https://courses.illinois.edu/schedule/terms/CW/595/)
Guidance in writing final projects. Approved for S/U grading only. May be repeated in separate terms to a maximum of 12 hours. Prerequisite: MFA candidate standing.
CWL - Comparative & World Literature

CWL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/CWL/)

Courses

CWL 111  Bible as Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/111/)
Same as ENGL 114 and REL 101. See REL 101.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 112  Literature of Global Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/112/)
Same as ENGL 112. See ENGL 112.

CWL 114  Global Consciousness and Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/114/)
Exploration of the cultural and historical roots of globalization and the development of global consciousness from ancient Greece to the present, as reflected primarily in literature, but also with reference to historiography, cartography, religion, art, politics, economics, and popular culture. Course materials including literary texts, articles, historical accounts, political tracts, films, and paintings focus on the mutual perception of, and historical relationships among Europe, the Arab world, Africa, Asia, and the Americas.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

CWL 117  Russ & E Euro Science Fiction  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/117/)
Same as SLAV 117. See SLAV 117.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 119  Literature of Fantasy  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/119/)
Same as ENGL 119. See ENGL 119.

CWL 122  Russia and Black America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/122/)
Same as RUSS 122. See RUSS 122.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

CWL 151  Cross-Cultural Thematics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/151/)
Explores a combination of western and non-western literature through the focus on a shared theme, exploring differences in treatment both within and among different cultures. Two such thematic focuses are offered in rotation; one on concepts of love and one on ways of writing about death. Both themes introduce students to a wide array of famous texts from different cultures and also offer some varied perspectives for their own inevitable thoughts on these major topics. May be repeated to a maximum of 6 hours if topics vary. Students may register in more than one section per term.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 189  Literatures of the Islamic World  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/189/)
Comparative, cross-cultural study of major literary and cultural works from the Islamic world, broadly defined, including pre-Islamic cultures and their interactions with Islamic civilization. All readings in English.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

CWL 190  Modern Asian and African Literatures  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/190/)
Comparative, cross-cultural study of major works from the postcolonial world. Topics may include pre-colonial cultures, the impact of colonialism, decolonization, modernization, and/or globalization. All readings in English.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

CWL 191  Freshman Honors Tutorial  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/191/)
Study of selected topics on an individually arranged basis. Open only to honors students or to Cohn Scholars and Associates. May be repeated one time. Prerequisite: Consent of departmental honors advisor.

CWL 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/CWL/199/)
Credit: 1 to 5 hours. Approved for both letter and S/U grading. May be repeated.

Information listed in this catalog is current as of 01/2022
CWL 201  Comparative Lit Studies  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/CWL/201/](https://courses.illinois.edu/schedule/terms/CWL/201/))
Introduction to various methods in comparative literary study, including genres, thematics, literary relations, literary movements, and interdisciplinary approaches.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 202  Literature and Ideas  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/CWL/202/](https://courses.illinois.edu/schedule/terms/CWL/202/))
Analysis of several important world-views in Western civilization (such as classical, Romantic, modern, and so forth), studied comparatively and in relation to selected figures in Western literature.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 204  US Border Literatures and Cultures  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/CWL/204/](https://courses.illinois.edu/schedule/terms/CWL/204/))
Exploration of the cultures, experiences, and conditions of people living on and around the borders of the United States. The syllabus will place particular emphasis on the US-Mexico borderlands, a space of interaction, exchange, and confrontation between diverse communities that traverse national, racial, and linguistic borders. We will examine this dynamic space through a varied array of cultural texts, including literature, film, journalism, and scholarship. Through these texts, students will gain a deepened understanding and appreciation of the Latinx and indigenous communities that live along, around, and across today's US-Mexico border. At the end of the semester, we will turn our attention briefly to the US-Canada border – and, in particular, to the political and cultural life of indigenous peoples living along and across the present-day US-Canada border.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

CWL 205  Islam & West Through Lit  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/CWL/205/](https://courses.illinois.edu/schedule/terms/CWL/205/))
Organized around major cultural/historical/religious topics presented in literature through Western and Islamic eyes, beginning with the Crusades and proceeding into the present. This course will examine stereotypes, fantasies, identifications and political opportunism promoted by the encounter between the West and the Islamic World. Prerequisite:CWL 241 and CWL 242 or one year of college literature.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 206  Classical Allusions in Cinema  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/CWL/206/](https://courses.illinois.edu/schedule/terms/CWL/206/))
Same as CLCV 206. See CLCV 206.

CWL 207  Indian Cinema in Context  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/CWL/207/](https://courses.illinois.edu/schedule/terms/CWL/207/))
Introduction to Indian mainstream (mainly Bollywood) cinema and its evolution through the last seven decades. Topics to be explored include, but not limited to, the relation between Indian society/culture and its cinematic representations, cinema’s resistance to dominant nationalist and patriarchal ideologies, its interactions with the postcolonial nation-state of India, how globalization has changed the industry. All films will be screened with subtitles. No knowledge of Hindi or any other Indian language is required. Same as MACS 207.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 208  Cultures & Literatures of South Asia  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/CWL/208/](https://courses.illinois.edu/schedule/terms/CWL/208/))
Same as ASST 208, REL 208 and SAME 208. See REL 208.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 209  Jewish American and US Minority Literatures in Dialogue  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/CWL/209/](https://courses.illinois.edu/schedule/terms/CWL/209/))
Same as JS 209 and ENGL 222. See JS 209.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 210  Introduction to Modern African Literature  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/CWL/210/](https://courses.illinois.edu/schedule/terms/CWL/210/))
Same as AFST 210 and ENGL 211. See AFST 210.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 211  The Arab-Israeli Conflict  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/CWL/211/](https://courses.illinois.edu/schedule/terms/CWL/211/))
War has been a constant shadow over the lives of Israelis and Palestinians. We will examine the history of attitudes to war and peace in the region as presented through historical documents, memoirs, political statements, poetry, film and short stories. The course explores the plurality of voices and experiences of different political groups, genders, ethnicities, religions and communities. Same as JS 211 and SAME 211.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

Information listed in this catalog is current as of 01/2022
CWL 212  Israeli Cinema and Television  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/212/)
Same as JS 212 and SAME 212. See JS 212.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western

CWL 215  Madness, Myth, and Murder  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/215/)
Same as SCAN 215. See SCAN 215.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

CWL 216  Legends of King Arthur  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/216/)
Same as ENGL 216 and MDVL 216. See ENGL 216.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western

CWL 217  Classical Chinese Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/217/)
Same as EALC 207. See EALC 207.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Non-West

CWL 218  Survey of Ukrainian Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/218/)
Same as UKR 218. See UKR 218.

CWL 220  Origins of Western Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/220/)
Same as CLCV 220. See CLCV 220.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western

CWL 221  Jewish Storytelling  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/221/)
Same as ENGL 223, JS 220, REL 220, and YDSH 220. See YDSH 220.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western

CWL 222  The Qur'an (Koran)  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/222/)
Same as REL 223, SAME 223. See REL 223.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Non-West

CWL 224  German Literature in Trans  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/224/)
Same as GER 200. See GER 200.

CWL 225  Constr Afr and Carib Identity  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/225/)
Same as AFST 209, FR 240, and LAST 240. See FR 240.

CWL 226  Humanist Persp of Afro-Am Exp  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/226/)
Same as AFRO 224. See AFRO 224.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - US Minority

CWL 227  Golden Age of Russian Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/227/)
Same as RUSS 220. See RUSS 220.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

CWL 230  Popular Cultures of Contemporary East Asia  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/230/)
Same as EALC 230. See EALC 230.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Non-West

Information listed in this catalog is current as of 01/2022
CWL 240  Italy Middle Ages & Renaiss  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/240/)
Same as ITAL 240 and MDVL 240. See ITAL 240.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 241  Early Masterpieces of Western Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/241/)
Comparative study of major works of literature, philosophy and culture in the Western tradition from the ancient world to the Renaissance, from Homer and the Bible to Shakespeare and Cervantes. Emphasis on the works as representative of their historical and cultural period, as well as how these works create the cultural world we live in today. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Lit Arts
Cultural Studies - Western

CWL 242  Modern Masterpieces of Western Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/242/)
Comparative study of major works of literature, philosophy and culture in the Western tradition from the Enlightenment to today, from Descartes and Voltaire to Dickinson and Calvino. Emphasis on the works as representative of their historical and cultural period, as well as how these works create the cultural world we live in today.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Lit Arts
Cultural Studies - Western

CWL 245  Survey of Polish Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/245/)
Same as POL 245. See POL 245.

CWL 249  Russian Lit and Revolution  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/249/)
Same as RUSS 225. See RUSS 225.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 250  Grimms' Fairy Tales - ACP  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/250/)
Same as ENGL 267 and GER 250. See GER 250.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Lit Arts
Cultural Studies - Western

CWL 251  Viking Mythology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/251/)
Same as MDVL 251, REL 251, and SCAN 251. See SCAN 251.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

CWL 252  Viking Sagas in Translation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/252/)
Same as MDVL 252 and SCAN 252. See SCAN 252.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

CWL 253  Medieval Literature and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/253/)
Same as ENGL 202 and MDVL 201. See ENGL 202.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

CWL 254  Grimm's Fairy Tales in Context  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/254/)
Same as ENGL 266 and GER 251. See GER 251.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

CWL 255  Renaissance Literature and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/255/)
Same as ENGL 204. See ENGL 204.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western
CWL 257  Enlightenment Literature and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/257/)
Same as ENGL 206. See ENGL 206.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western

CWL 259  Early African American Literature and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/259/)
Same as AFRO 259 and ENGL 259. See ENGL 259.
This course satisfies the General Education Criteria for:
- Cultural Studies - US Minority

CWL 260  Modern African American Literature and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/260/)
Same as AFRO 260 and ENGL 260. See ENGL 260.
This course satisfies the General Education Criteria for:
- Cultural Studies - US Minority

CWL 262  Gender & Sexuality in Greco-Roman Antiquity  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/262/)
Same as CLCV 240 and GWS 240. See CLCV 240.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

CWL 263  Odysseus and Other Heroes  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/263/)
Same as CLCV 221. See CLCV 221.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

CWL 264  Introduction to Greek and Roman Theater  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/264/)
Same as CLCV 222 and THEA 210. See CLCV 222.
This course satisfies the General Education Criteria for:
- Advanced Composition
- Humanities - Lit Arts

CWL 267  The Short Story  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/267/)
Same as ENGL 245. See ENGL 245.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

CWL 269  British, American, and Continental Fiction  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/269/)
Examination of important thematic and structural relationships - influences, parallels, and variations - among selected major works of the nineteenth and twentieth centuries; readings chosen from works of Bronte, Hardy, Lawrence, Woolf, James, Faulkner, Bellow, Oates, Dostoevsky, Tolstoy, Stendhal, Flaubert, Camus, Kafka, Mann, Hesse, Moravia, and Pavese. All works read in English. Same as ENGL 248. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

CWL 271  The Holocaust in Context - ACP  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/271/)
Same as ENGL 268 and GER 260. See GER 260.
This course satisfies the General Education Criteria for:
- Advanced Composition
- Humanities - Lit Arts

CWL 272  Sexuality and Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/272/)
Same as GER 270 and GWS 270. See GER 270.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

CWL 273  The Holocaust in Context  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/273/)
Same as ENGL 269, GER 261, and JS 261. See GER 261.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

Information listed in this catalog is current as of 01/2022
CWL 275  Masterpieces of East Asian Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/275/)
Same as EALC 275. See EALC 275.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

CWL 276  Asian Film Genres  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/276/)
Same as EALC 276 and ENGL 276. See ENGL 276.

Humanities - Lit Arts
Cultural Studies - Non-West

CWL 277  Slavic Literature Survey  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/277/)
Same as SLAV 277. See SLAV 277.

CWL 278  Jewish Sacred Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/278/)
Same as REL 283. See REL 283.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 283  Modern Jewish Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/283/)
Same as ENGL 284, JS 284, and REL 284. See JS 284.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 308  Chinese Popular Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/308/)
Same as EALC 308. See EALC 308.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

CWL 311  Japan Lit in Translation I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/311/)
Same as EALC 305. See EALC 305.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

CWL 312  Japan Lit in Translation II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/312/)
Same as EALC 306. See EALC 306.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

CWL 317  Francophone Worlds  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/317/)
Same as FR 319. See FR 319.

CWL 320  Responses to the Holocaust  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/320/)
Course introduces a variety of Jewish and non-Jewish responses to the Holocaust created during and after the Second World War (from 1939). The discussion of Holocaust films, miniseries, memoirs, diaries, novels, short stories, poems, and other texts will focus on the unique contribution of those works to our understanding of the Holocaust. In addition, the works and their authors will be situated in their cultural and historical context. Taught in English translation. Same as ENGL 359, JS 320, REL 320, and YDSH 320.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

CWL 321  Russian Writers  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/321/)
Same as RUSS 320. See RUSS 320.

CWL 322  The Comic Imagination  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/322/)
Same as CLCV 323 and THEA 323. See CLCV 323.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Lit Arts
Cultural Studies - Western

CWL 323  Tolstoy  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/323/)
Same as ENGL 323 and RUSS 323. See RUSS 323.

CWL 324  Dostoevsky  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/324/)
Same as ENGL 322 and RUSS 322. See RUSS 322.
CWL 325 Chekhov credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/CWL/325/](https://courses.illinois.edu/schedule/terms/CWL/325/))
Same as RUSS 325 and THEA 362. See RUSS 325.

CWL 328 Special Topics German Studies credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/CWL/328/](https://courses.illinois.edu/schedule/terms/CWL/328/))
Same as GER 396. See GER 396.

CWL 335 Nabokov credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/CWL/335/](https://courses.illinois.edu/schedule/terms/CWL/335/))
Same as RUSS 335. See RUSS 335.

CWL 341 Love & Sex in Hebrew Lit credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/CWL/341/](https://courses.illinois.edu/schedule/terms/CWL/341/))
Love and Sex have been literary themes from the bible, through the modern ages and into the present day in Hebrew Literature. This course will examine the treatments of these themes in different historical periods, paying attention to external influences and literary forms such as poems, stories, films and novels. This course will consider treatments of the erotic, devotional, affectionate, romantic and sexual; including heterosexual and homosexual representations, as well as love of God and Israel. Same as JS 341, REL 340 and SAME 341. Prerequisite: Completion of Advanced Composition requirement or a prior college-level literature course is recommended.

Same as RUSS 445. See RUSS 445.

CWL 450 Topics in Bodies and Genders  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/450/)
How do gender, sexuality, and the body emerge through cultural representations and across artistic forms? How do literature, film, and the visual arts construct gender identities in various times and places? Topics and regions vary by semester and instructor. All readings in English. Same as GWS 450. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated up to 6 hours maximum. Prerequisite: Consent of instructor.

CWL 451 International Film Genres and Auteurs  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/451/)
Advanced, in-depth study of either (a) cinematic genres, or (b) major film directors. Genres may include musicals, horror films, Westerns, melodrama, comedies, film noir. Auteurs will include major figures of world cinema whose influence over the medium is widespread, such as Hitchcock, Woody Allen, Vertov, Bergman. No foreign language knowledge required. 3 undergraduate hours. 4 graduate hours. May be repeated in the same or subsequent semesters to a maximum of 6 undergraduate hours or 8 graduate hours if topics vary. Prerequisite: One cinema course or consent of instructor.

CWL 453 Slavic Cultural Studies  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/453/)
Same as SLAV 452. See SLAV 452.

CWL 454 Topics in Israeli Lit &Culture  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/454/)
Seminar covering advanced topics in Israeli literature and culture. Same as JS 454 and SAME 454. 3 undergraduate hours. 4 graduate hours. May be repeated up to 6 undergraduate hours or 8 graduate hours in separate terms if topics vary. Prerequisite: One year of college literature or consent of instructor.

CWL 455 Slavic Cultural Studies  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/455/)
Same as RUSS 455. See RUSS 455.

CWL 457 Russian Modernism  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/457/)
Same as RUSS 424. See RUSS 424.

CWL 461 Lit Genres and Forms  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/461/)
Structure and development of literary genres and forms in historical perspective (for instance, drama, parody and the grotesque, poetry, fables and fabulists, and modern fiction); essential international components and significant national variations of such genres and forms. Emphasis changes from term to term. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated to a maximum of 9 undergraduate hours or 12 graduate hours. Prerequisite: One year of college literature or consent of instructor.

CWL 463 Modern Scandinavian Drama  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/463/)
Same as SCAN 463 and THEA 483. See SCAN 463.

CWL 466 Russia and the Other  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/466/)
Same as RUSS 461. See RUSS 461.

CWL 467 Japanese Cinema  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/467/)
Same as EALC 466 and MACS 466. See MACS 466.

CWL 470 Scandinavian Politics and Society  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/470/)
Same as EURO 470 and SCAN 470. See SCAN 470.

CWL 471 International Lit Relations  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/471/)
Study of specific relations between authors of different countries; influences of certain works, concepts, or tastes on another work, author, or country; and literary interaction between Eastern and Western cultures. Emphasis changes from term to term. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated to a maximum of 9 undergraduate hours or 12 graduate hours. Prerequisite: One year of college literature or consent of instructor.

CWL 472 Kierkegaard and the Self  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/472/)
Same as PHIL 472, REL 472, and SCAN 472. See SCAN 472.

CWL 477 Post-Communist Fiction  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/477/)
Same as SLAV 477 and REES 477. See SLAV 477.

CWL 478 Classical Chinese Thought  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/478/)
Same as EALC 476 and HIST 425. See EALC 476.

CWL 481 Topics in Arabic Literature & Culture  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/481/)
Studies in Arabic literature and culture of various genres, periods, and regions. Graduate students are encouraged to read the texts in the original language. 3 undergraduate hours. 4 graduate hours. May be repeated in the same semester to a maximum of 6 undergraduate hours or 8 graduate hours if topics vary; May be repeated in separate semesters to a maximum of 12 undergraduate hours or 16 graduate hours if topics vary. Prerequisite: One year of college literature or consent of instructor.
CWL 490  Topics in Classical Literature  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/490/)
Same as CLCV 490. See CLCV 490.

CWL 493  Senior Thesis and Honors  credit: 3 to 6 Hours. (https://courses.illinois.edu/schedule/terms/CWL/493/)
Independent research guided by tutor(s), leading to the writing of a comparative thesis. Intended primarily for candidates for honors in comparative literature, but open to other seniors. 3 to 6 undergraduate hours. No graduate credit. May be repeated to a maximum of 12 hours.

CWL 496  Special Topics in Comp Lit II  credit: 3 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/496/)
Selected literary topics of international significance in relation to other cultural expressions. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated to a maximum of 9 undergraduate or 12 graduate hours. Prerequisite: Consent of instructor.

CWL 501  Theory of Literature  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/501/)
Major issues of literary theory, critical approaches, and comparative research.

CWL 502  Methods of Comparative Lit  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/502/)
Problems and methods of cross-cultural literary studies, concentrating on the effects of historical encounters between different civilizations and on theoretical issues in comparing literatures across cultures. Prerequisite: Knowledge of two languages other than English or (with instructor's consent) advanced knowledge of one foreign language.

CWL 503  Historiography of Cinema  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/503/)
Same as ENGL 503 and MACS 503. See MACS 503.

CWL 504  Theories of Cinema  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/504/)
Same as ENGL 504 and MACS 504. See MACS 504.

CWL 511  Applied Literary Translation I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/511/)
Same as EALC 511, GER 511, SLAV 501, and TRST 501. See TRST 501.

CWL 512  Applied Literary Translation II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/512/)
Same as EALC 512, GER 512, SLAV 502, and TRST 502. See TRST 502.

CWL 535  Nabokov  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/535/)
Same as RUSS 535. See RUSS 535.

CWL 551  Seminar Lit Movements  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/551/)
Investigation of the development and mutation of literary movements (classicism, romanticism, symbolism, etc.) through a study of critical texts and their reception in various countries. May be repeated to a maximum of 12 hours if topics vary.

CWL 552  Studies French & Comp Cinema  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/552/)
Same as FR 552. See FR 552.

CWL 553  Seminar in Literary Relations  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/553/)
Investigation of the impact of one literature upon another, or of some specific works upon others (the role of English literature in continental Europe, the influence of Russian novelists on French and German writers, etc.). May be repeated to a maximum of 12 hours if topics vary.

CWL 561  Seminar Genres - Forms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/561/)
Study of a form (the lyric, the novel, the drama, etc.) to discover its essential components in all the literatures studied and the significance of national variations. May be repeated to a maximum of 12 hours if topics vary.

CWL 562  Sem Spanish-American Lit  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/562/)
Same as SPAN 535. See SPAN 535.

CWL 567  Methods in Slavic Grad Study  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/567/)
Same as SLAV 567. See SLAV 567.

CWL 576  Seminar in Literary Relations  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/576/)
Introduction to comparative literature as a discipline, history and philosophy of comparative literature, and training in practical professional skills, including conference presentations, grant writing, and course development. Prerequisite: Graduate standing.

CWL 580  Seminar in Literary Themes  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/580/)
Study of a theme or type (the Faust myth, the romantic hero, etc.) to discover its essential components in all the literatures studied and the influence of Russian novelists on French and German writers, etc.). May be repeated to a maximum of 12 hours if topics vary.

CWL 593  Special Studies  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/593/)

CWL 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/CWL/599/)
Intended for students engaged in writing a thesis as a partial requirement for the M.A. or Ph.D. degree in comparative literature. Approved for S/U grading only. May be repeated to a maximum of 8 graduate hours.
CZCH - Czech

CZCH Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/CZCH/)

Courses

CZCH 101 Elementary Czech I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CZCH/101/)
Develops basic proficiency in Czech in listening, speaking, reading, and writing.

CZCH 102 Elementary Czech II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CZCH/102/)
Continuation of CZCH 101. Prerequisite: CZCH 101.

CZCH 199 Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/CZCH/199/)
May be repeated.

CZCH 201 Second-year Czech I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CZCH/201/)
Develops intermediate-level proficiency in Czech in listening, speaking, reading, and writing. Prerequisite: CZCH 102 or equivalent.

CZCH 202 Second-year Czech II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CZCH/202/)
Continuation of CZCH 201. Prerequisite: CZCH 201 or equivalent.

CZCH 484 Readings in Czech  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CZCH/484/)
Reading and analysis of selected texts. 3 undergraduate hours. 4 graduate hours. Prerequisite: CZCH 202 or consent of instructor.
DANC - Dance

DANC Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/DANC/)

Courses

DANC 100 Intro to Contemporary Dance  
Overview of major works, figures, and trends responsible for shaping dance as an evolving contemporary art form. The course will have lecture, viewing, discussion and experiential (studio participation) components. For non-dance majors.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

DANC 101 Modern Dance I  
Introduction to basic dance technique and movement improvisation; the study of motion as an art, group relationships in improvisation, and discussion of choreographic ideas. For non-dance majors. May be repeated to a maximum of 8 hours.

DANC 102 Modern Dance II  
Intermediate dance technique and improvisation. For non-dance majors. May be repeated to a maximum of 8 hours. Prerequisite: DANC 101 or consent of instructor.

DANC 103 Contact Improvisation  
Introduction to basic elements of Contact Improvisation through learning skills such as weight sharing, falling, rolling, responding to touch, momentum, gravity and disorientations. Course work will include dancing, dance making, viewing dance, in-class discussions and short writing assignments. Concert attendance is required. May be repeated to a maximum of 8 hours. Prerequisite: For Non-dance majors.

DANC 104 Making Dances  
Introduction to basic choreographic elements. Course work will include dancing, dance making, viewing dance, in-class discussions and short writing assignments. Concert attendance is required. May be repeated to a maximum of 8 hours. Prerequisite: For non-dance majors.

DANC 105 Jazz Dance I  
Introduction to basic dance technique and stylistic work in the jazz idiom. May be repeated to a maximum of 8 hours. Prerequisite: For non-dance majors.

DANC 106 Jazz Dance II  
Progressive development of the concepts and skills in DANC 105. May be repeated to a maximum of 8 hours. Prerequisite: DANC 105 or equivalent; or consent of instructor. For non-dance majors.

DANC 107 Ballet I  
Introduction to ballet for nondance majors. May be repeated to a maximum of 8 hours. Prerequisite: For non-dance majors.

DANC 108 Ballet II  
Progressive development of the concepts and skills in DANC 107. May be repeated to a maximum of 8 hours. Prerequisite: Two semesters of DANC 107 or equivalent or consent of instructor. For non-dance majors.

DANC 109 Ballet III  
Intermediate level of Ballet technique for non-dance majors. Course is a continuation and development of the skills in DANC 108. May be repeated to a maximum of 8 hours. Prerequisite: Two semesters of DANC 108 or equivalent or consent of instructor. For non-dance majors.

DANC 111 Dancing Techniques/Non-Majors:  
Dancing Techniques is an umbrella course for courses not regularly taught in the department and provides students with the physical study of various dance techniques. Topics reflect specializations or new forms of dance such as House, Voguing, Clogging, Capoiera, Balinese dance, etc. May be repeated to a maximum of 4 hours in the same term and 8 hours in separate terms. Prerequisite: Restricted to non-dance majors.

DANC 112 Hip Hop  
Hip-Hop dance technique will consist of the study and practice of Urban dance forms grounded in hip-hop culture. Students will explore the multiple dimensions of hip-hop dance as they train in the fundamentals of each form, learn its respective historical context, and access ways of incorporating individual ideas and lived experiences into their dancing. May be repeated in separate terms up to 8 hours.

DANC 120 Tap Dance I  
Introduction to basic tap technique for non-dance majors. Emphasis is on a conceptual understanding of tap style and the development of the specific skills needed for performance. May be repeated to a maximum of 8 hours. Prerequisite: For non-dance majors.

DANC 121 Tap Dance II  
Intermediate level of tap dance technique for non-dance majors. Course is a continuation of DANC 120, emphasizing a progression in movement vocabulary, style, rhythm, and performance quality. May be repeated to a maximum of 8 hours. Prerequisite: DANC 120 or equivalent, or consent of instructor.

Information listed in this catalog is current as of 01/2022
DANC 125  Black Dances of Resistance  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/125/)
The Break Down: Black Dances of Resistance interrogates African American dance for its potential for social resistance. “Break Down” refers to the spirituality of perseverance and the “vital aliveness” of African Diasporic movement that has counteracted the dismal social climate in which Black people have found themselves throughout American history. Concurrent with on-line lectures, students will participate in African-informed dance classes once a week to excavate the “BreakDown” in selected African American dance forms including but not limited to plantation dances, hip hop, Black queer dance styles, and contemporary choreography.
This course satisfies the General Education Criteria for:
- Cultural Studies - US Minority

DANC 131  Production Practicum I  credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/131/)
Practical experience in the production of dance concerts mounted in the Krannert Center for the Performing Arts. May be repeated to a maximum of 6 hours. (1 hour credit per concert up to 2 hours per term).

DANC 150  Orientation to Dance  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/150/)
Survey of the field including dance as a theatre art, careers, injury prevention and nutrition. Also serves to orient incoming students to the faculty, programs, and policies of the Department of Dance, and the production and performing resources in the Krannert Center for the Performing Arts.
Prerequisite: Major standing in Dance or consent of instructor.

DANC 160  Beg Contemp Modern Tech Core  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/160/)
Elementary technique for majors with emphasis on a conceptual understanding of movement principles and the development of technical skill and performance sensitivity. May be repeated to a maximum of 18 hours.
Prerequisite: Major standing in Dance or consent of instructor.

DANC 166  Beginning Ballet Tech Core  credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/166/)
Elementary ballet for dance majors; emphasizes placement, refinement of adagio, pirouette, jumps, and connecting steps. May be repeated to a maximum of 8 hours.
Prerequisite: Major standing in Dance or consent of instructor.

DANC 167  Beginning Ballet Tech Elect  credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/167/)
Elementary ballet for dance majors; emphasizes placement, refinement of adagio, pirouette, jumps, and connecting steps. May be repeated to a maximum of 8 hours.
Prerequisite: Major standing in Dance or consent of instructor.

DANC 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/DANC/199/)
May be repeated to a maximum of 9 hours.

DANC 200  Explore Music through Dance  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/200/)
In-depth study of musical form, history, culture, and styles, taught from a physical learning, i.e., dance, perspective. Musical and dance forms will be studied across cultures and time periods, from both a technical and a cross-cultural perspective. Content will be delivered as a series of video lectures and performances, and online readings. Students will create movement studies that mirror the musical forms being analyzed, produce video documentation of these works, engage in peer review of other students’ performance work, and complete exams that cover the cultural and historical aspects of the examples studied.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

DANC 201  Yoga Practicum  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/201/)
Introduces basic yoga asanas (postures) and overview of the 8-limb system of yoga. Focus will be on physical understanding, correct alignment and inner awareness in the major basic poses. Weekly home practice, ongoing journal, and a research paper about an area of yoga philosophy are required.
May be repeated in separate terms to a maximum of 16 hours.
Prerequisite: Not intended for Dance or Dance major(s).

DANC 209  Lyric Theatre Dance  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/209/)
Designed for Lyric Theatre Students, this course will introduce a broad variety of movement techniques used in the collaborative singing-acting industry. Through integrative cognitive and physical instruction, students will learn to optimize kinesthetic awareness, expressiveness, breath control, and governance of the singing actors’ physical instrument. Classes will include: physical exercises and improvisations, group collaborations, and analysis of movement choices in theatrical performances. Dance styles ranging from Baroque opera and ballroom dance forms to contemporary musical theatre will be covered within this course. May be repeated once in separate semesters.
Prerequisite: For Dance or Lyric Theater majors only or by consent of the instructor.

DANC 210  Int Jazz Technique  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/210/)
Introduction to basic dance techniques and stylistic work in the jazz idiom for experienced dancers. Emphasis on a conceptual understanding of jazz style (as related to America’s own cultural diversity) and the development of the specific skills necessary for performance and teaching. May be repeated to a maximum of 2 hours.
Prerequisite: Major standing in Dance or consent of instructor.

DANC 211  Int Hip Hop Technique  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/211/)
Hip Hop dance technique will consist of the study and practice of Urban dance forms grounded in hip-hop culture. Students will explore the multiple dimensions of hip-hop dance as they train in the fundamentals of each form, learn its respective historical context, and access ways of incorporating individual ideas and lived experiences into their dancing. May be repeated in separate terms for a maximum of 8 hours.
Prerequisite: For majors only.
DANC 212  Musical Theater Dance  credit: 1 Hour. ([link](https://courses.illinois.edu/schedule/terms/DANC/212/))
Introduction to basic dance techniques and stylistic work in the Musical Theater idiom for experienced dancers. Emphasis is on a physical and conceptual understanding of a variety of Musical Theater styles as related to America's own cultural diversity and the development of the specific skills necessary for performance and teaching. May be repeated in separate terms to a maximum of 2 hours. Prerequisite: Audition required. Primarily for Dance and Music Majors with a Concentration in Lyric Theater. Students with sufficient skills from other majors may be accepted with approval from instructor.

DANC 215  Int Tap Dance Technique  credit: 1 Hour. ([link](https://courses.illinois.edu/schedule/terms/DANC/215/))
Introduction to basic tap technique for experienced dancers. Emphasis on a conceptual understanding of tap style and the development of the specific skills necessary for performance and teaching. May be repeated to a maximum of 2 hours. Prerequisite: Major standing in Dance, or consent of instructor.

DANC 220  Perf Pract Student Works I  credit: .5 to 2 Hours. ([link](https://courses.illinois.edu/schedule/terms/DANC/220/))
Performance laboratory involving the rehearsal and performance of student works under faculty supervision. Approved for S/U grading only. May be repeated in the same semester for 4 hours to a maximum of 16 hours in separate semesters. Prerequisite: Consent of instructor. A maximum of 16 hours of performance credit may be counted toward degree requirements.

DANC 221  Performance in Grad Thesis I  credit: .5 to 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/DANC/221/))
Performance laboratory involving the rehearsal and performance of student works under faculty supervision performed in MFA Thesis concert. May be repeated to a maximum of 16 hours, in separate terms. Prerequisite: Consent of instructor. A maximum of 16 hours of performance credit may be counted toward degree requirements.

DANC 222  Perf Pract November I  credit: 1 to 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/DANC/222/))
Performance laboratory involving the rehearsal and performance of works by faculty and visiting artists performed in November Dance. May be repeated to a maximum of 16 hours. Prerequisite: Consent of instructor. A maximum of 16 hours of performance credit may be counted toward degree requirements.

DANC 223  Perf Pract February I  credit: 1 to 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/DANC/223/))
Performance laboratory involving the rehearsal and performance of works by faculty and visiting artists performed in February Dance. May be repeated to a maximum of 16 hours. Prerequisite: Consent of instructor. A maximum of 16 hours of performance credit may be counted toward degree requirements.

DANC 231  Production Practicum II  credit: 1 or 2 Hours. ([link](https://courses.illinois.edu/schedule/terms/DANC/231/))
Practical experience in the production of dance concerts mounted in the Krannert Center for the Performing Arts. May be repeated to a maximum of 6 hours. (1 hour credit per concert up to 2 hours per term).

DANC 232  Repertory Company  credit: 2 Hours. ([link](https://courses.illinois.edu/schedule/terms/DANC/232/))
Provides dance majors with diverse performing experiences in the community. Venues will include area schools, nursing homes, and special populations. Students will participate in the creation of lecture-demonstrations which may include improvisation and choreography. Participation in all performances is a requirement. May be repeated to a maximum of 6 hours. Prerequisite: Major standing in Dance or consent of instructor.

DANC 240  Dance History  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/DANC/240/))
Introduction to major artistic movements in dance history from ancient Greece through the 20th century. Goal of the course is to gain a broad understanding of dance in relation to socio-political ideologies of gender, race, sexuality, and national identities. Prerequisite: Major standing in Dance or consent of instructor.

DANC 245  Introduction to Somatics  credit: 1 Hour. ([link](https://courses.illinois.edu/schedule/terms/DANC/245/))
Introduction to the basic concepts and principles of somatic practices, or body-mind disciplines, as related to dance. Through reading, writing, and experiential work, students will learn basic tenets of a number of somatic practices such as Ideokinesia and Imagery, Body-Mind Centering, The Alexander Technique, Bartenieff Fundamentals, and the Feldenkrais Method. Exploration of the ways in which somatics has helped to shape current dance training practices by looking at common themes and distinguishing features of these modalities.

DANC 256  Choreographic Laboratory Intermediate  credit: 1 to 2 Hours. ([link](https://courses.illinois.edu/schedule/terms/DANC/256/))
Students will work in depth within each professor's choreographic process, learning creative tools for generating dance material, directing performance, crafting choreographic ideas over a full semester and developing performance skills. This is an elective course that may be repeated to a maximum of 4 hours. May be repeated in separate terms to a maximum of 4 credit hours. Prerequisite: Major standing in Dance or consent of instructor.

DANC 259  Contact Improvisation for Actors, Musicians and Dancers  credit: 1 Hour. ([link](https://courses.illinois.edu/schedule/terms/DANC/259/))
In this interdisciplinary course, performing arts students learn physical skills necessary for the practice of the contact improvisation (CI) partnering dance form as well as improvisational and performance skills. Encourages contemplation of the broader philosophical implications inherent in the form: community building and accepting difference. Content includes visits to lectures and events outside the Dance Department.

DANC 260  Int Contemp Modern Tech Core  credit: 1 to 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/DANC/260/))
Progressive development of the concepts in DANC 160 and DANC 161, with emphasis on the qualitative and definite performance of a variety of technical styles. May be repeated to a maximum of 18 hours. Prerequisite: Major standing in Dance and successful completion of two semesters of DANC 160; or consent of instructor.
DANC 261  Int Contemp Modern Tech Elect  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/261/)
Progressive development of the concepts in DANC 160 and DANC 161, with emphasis on the qualitative and definitive performance of a variety of technical styles. May be repeated to a maximum of 18 hours. Prerequisite: Major standing in Dance and successful completion of two semesters of DANC 160; or consent of instructor.

DANC 262  Choreographic Process I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/262/)
Theory and practice in principles of dance composition; emphasis on solo creative work using various approaches to composition. Prerequisite: DANC 259 or consent of instructor. Limited to dance majors.

DANC 266  Intermediate Ballet Tech Core  credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/266/)
Intermediate ballet for dance majors; a progressive development of movement concepts and vocabulary in DANC 166 and DANC 167, with emphasis on technical development and extended movement combinations. May be repeated to a maximum of 8 hours. Prerequisite: Major standing in Dance and successful completion of two semesters of DANC 166 or DANC 167; or consent of instructor.

DANC 267  Intermediate Ballet Tech Elect  credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/267/)
Intermediate ballet for dance majors; a progressive development of movement concepts and vocabulary in DANC 166 and DANC 167, with emphasis on technical development and extended movement combinations. May be repeated to a maximum of 8 hours. Prerequisite: Major standing in Dance and successful completion of two semesters of DANC 166 or DANC 167; or consent of instructor.

DANC 268  Music Theory for Dancers  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/268/)
Introduction to basic music theory with a concentration on rhythm. The first half of the term will concentrate on 1) learning, understanding, and being conversant in basic music parameters; 2) analytical listening; 3) notation; 4) transcripts; 5) reading notation/following a score; 6) performance of simple rhythm patterns. The second half will deal with form and formal analysis as it relates to choreography, as well as more advanced parameters of music theory. Prerequisite: Major standing in Dance or consent of instructor.

DANC 301  Yoga Fundamentals  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/301/)
Introduces basic yoga asanas (postures) and brief overview of the 8-limb system of yoga. Focus will be on understanding correct alignment and developing inner awareness. Weekly home practice, journal, and discussions about yoga philosophy are required. May be repeated in separate terms to a maximum of 8 hours. Prerequisite: Restricted to Dance or Dance major(s).

DANC 302  Intermediate Asana  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/302/)
Continues to develop deep intellectual and physical understanding of the basic yoga asanas learned in DANC 301: Yoga Fundamentals. Begin to practice intermediate-level poses, and develop a remedial understanding of pranayama (energy control achieved through breath). May be repeated in separate terms up to 2 hours. Prerequisite: DANC 301. For dance majors only.

DANC 303  Yoga Teacher Training  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/303/)
This course introduces basic yoga philosophy. Course content also includes discussion of the ethics involved in teaching yoga as well as applying prior experience with teaching and anatomy to teaching yoga asana. Prerequisite: DANC 301 and DANC 302. For dance majors only.

DANC 310  Dancing Techniques/Dance Majors  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/310/)
Dancing Techniques is an umbrella course for courses not regularly taught in the department and provides student with the physical study of various dance techniques. Topics reflect specializations or new forms of dance such as House, Voguing, Clogging, Capoiera, Balinese dance, etc. May be repeated in the same term to a maximum of 2 hours and in separate terms to a maximum of 8 hours. Prerequisite: Restricted to Dance Majors.

DANC 330  Dance Documentation  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/330/)
This is a hands-on course for students interested in exploring the relationship between dance and camera and the fundamentals of dance documentation. Using critical and experiential approach, we will explore the technical and artistic capabilities of mini-DV cameras and film-editing software to create dance performance documentation. Students will learn to execute clear and effective camerawork in relationship to dance performance, and to utilize editing software to most clearly display the artistic intent of the choreographers and directors. May be repeated up to 8 hours in separate terms. Prerequisite: For majors only, or by instructor approval.

DANC 331  Production Practicum III  credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/331/)
Practical experience in all aspects of the production of dance concerts mounted in the Krannert Center for the Performing Arts and within the Department of Dance. May be repeated to a maximum of 6 hours. (1 hour credit per concert up to 2 hours per term). Prerequisite: DANC 131, DANC 231 or equivalent, and consent of instructor.

DANC 340  Dancing Black Popular Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/340/)
Introduces students to black dance aesthetics and its interconnectedness with American popular culture. By exploring its cultural, political and historical roots, coupled with theoretical concepts of "the popular" and ties to the vernacular, the course will be organized around significant markers that have shaped black dance's development. Same as AFRO 340.

This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

DANC 345  Dance Anatomy and Kinesiology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/345/)
The study of human and anatomy and kinesiology, specifically as applied to dance. The human musculoskeletal system, movement analysis, and conditioning principles are covered both theoretically and practically.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences
DANC 300 Creative Dance for Children  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/350/) Through lecture, discussion and practice, students develop skills to teach elements and concepts of dance to children ages 4-10. Course includes strategies for behavior and time management, spatial transitions, and how to organize and communicate creative concepts clearly and effectively. Students will observe master teaching and apply teaching techniques, acquire lesson plans that form the basis for a creative dance curriculum and the skills to implement them, and participate in all phases of a creative dance curriculum, including informal performance. Same as ARTE 350 and HDFS 361. May be repeated to a maximum of 6 hours. Prerequisite: Consent of instructor.

DANC 360 Int/Adv Contemp Mod Tech Core  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/360/) Progressive development of the concepts in DANC 260 and DANC 261, with emphasis on virtuosity and versatility. May be repeated to a maximum of 18 hours. Prerequisite: Major standing in Dance or consent of instructor; departmental placement.

DANC 361 Int/Adv Contemp Mod Tech Elect  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/361/) Progressive development of the concepts in DANC 260 and DANC 261, with emphasis on virtuosity and versatility. May be repeated to a maximum of 18 hours. Prerequisite: Major standing in Dance or consent of instructor; departmental placement.

DANC 362 Choreographic Process II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/362/) Choreography for the experienced student; includes performance of at least one original work. May be repeated in separate terms to a maximum of 10 hours. Prerequisite: DANC 262 or consent of instructor.

DANC 363 Advanced Improvisation  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/363/) Exploration of the physical skills and philosophical concepts at the base of improvisation practice. Students will develop individual and collective approaches to improvisatory structures, systems and performance contexts as well as look at the historical ways that improvisation has been used in contemporary performance. The course will culminate in performance in various public and private contexts. May be repeated in separate terms to a maximum of 4 credit hours.

DANC 364 Int/Adv Ballet Tech Core  credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/364/) Intermediate/Advanced ballet for dance majors; a progressive development of movement concepts and vocabulary in DANC 266 and DANC 267. For dancers of advanced technical level with the ability to execute the ballet vocabulary. May be repeated to a maximum of 8 hours. Prerequisite: Major standing in dance or consent of instructor; or Departmental placement.

DANC 365 Int/Adv Ballet Tech Elect  credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/365/) Intermediate/Advanced ballet for dance majors; a progressive development of movement concepts and vocabulary in DANC 266 and DANC 267. For dancers of advanced technical level with the ability to execute the ballet vocabulary. May be repeated to a maximum of 8 hours. Prerequisite: Major standing in dance or consent of instructor; or Departmental placement.

DANC 366 Production in Dance  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/366/) Overview of contemporary dance from the United States, Canada, and Europe focusing on the current works of significant emerging and established choreographers working in the field today. 1 undergraduate hour. 1 graduate hour. Approved for S/U grading only. May be repeated to a maximum of 4 hours.

DANC 367 Alexander Tech for Dancers  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/367/) Introduces the Alexander Technique: a practical method for changing habitual movement patterns which interfere with coordination, ease, and efficiency of movement. The course focuses on learning the principles through hands-on work, readings, discussions, and application to dance. 1-3 individual lessons outside of class required per term. 1 undergraduate hour. 1 graduate hour. May be repeated for a total of 2 credit hours. Prerequisite: Major standing in Dance or consent of instructor.

DANC 368 Alexander Technique Practicum  credit: 1 or 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/368/) Facilitates conscious and reasoned control of the human organism as a psychophysical whole. Helps students recognize habits that constitute their daily activities and discard, through conscious control, those that impede open-minded enquiry and self-reliance. Through one-on-one work with certified teachers and trainees, students will learn to change habitual patterns of coordination. 1 undergraduate hour. 3 graduate hours. May be repeated in separate terms to a maximum of 8 undergraduate hours or 6 graduate hours.

DANC 369 Continuation of DANC 110, emphasizing the conceptual understanding of the jazz style and development of specific skills necessary for this idiom. No undergraduate credit. 1 graduate hour. May be repeated to a maximum of 4 hours. Prerequisite: Major standing in Dance or DANC 110 or equivalent and consent of instructor.

DANC 370 Advanced Jazz Technique  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/370/) Advanced Level Hip Hop Class. Hip-Hop dance technique will consist of the study and practice of Urban dance forms grounded in hip-hop culture. Students will explore the multiple dimensions of hip-hop dance as they train in the fundamentals of each form, learn its respective historical context, and access ways of incorporating individual ideas and lived experiences into their dancing. No undergraduate credit. 1 graduate credit. May be repeated in separate terms up to 8 hours. Prerequisite: For majors only.

DANC 371 Choreographic Process I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/371/) Choreography for the experienced student; includes performance of at least one original work. May be repeated in separate terms to a maximum of 10 hours. Prerequisite: DANC 262 or consent of instructor.
DANC 421  Performance in Grad Thesis II  credit: .5 to 3 Hours.  Performance laboratory involving the rehearsal and performance of student works under faculty supervision performed in MFA Thesis concert. 0.5 to 3 undergraduate hours. May be repeated.

DANC 422  Perf Pract November II  credit: 1 to 3 Hours.  Performance laboratory involving the rehearsal and performance of works by faculty and visiting artists performed in November Dance. 1 to 3 undergraduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Consent of instructor.

DANC 423  Perf Pract February II  credit: 1 to 3 Hours.  Performance laboratory involving the rehearsal and performance of works by faculty and visiting artists performed in February Dance. 1 to 3 undergraduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Consent of instructor.

DANC 424  Collaborative Performance  credit: 1 or 2 Hours.  COLAB is an interdisciplinary class fusing improvisation, composition and collaborative projects for students in the departments of Music, Dance and Engineering. The class will be run along the lines of a professional performance company. Work in class will include sharing and adapting the principles and elements from each of these disciplines with a focus on producing material that will be presented in numerous public performances throughout the semester. 1 undergraduate hour. 2 graduate hours. May be repeated to a maximum of 3 undergraduate hours or 6 graduate hours in separate terms. Prerequisite: DANC 162 or DANC 259 or consent of instructor.

DANC 425  Dance Internship  credit: 1 to 4 Hours.  Supervised field experience in community and/or professional organizations in a variety of danced-related areas. Provides students with work experience and exposure to professional situations. Written and/or video documentation and department presentation of internship activities required. 1 to 4 undergraduate hours. 1 to 4 graduate hours. Approved for S/U grading only. May be repeated to a maximum of 6 hours. Prerequisite: Major standing in Dance and consent of instructor.

DANC 431  Production Practicum IV  credit: 1 or 2 Hours.  Practical experience in all aspects of the production of dance concerts mounted in the Krannert Center for the Performing Arts and within the Department of Dance. 1 or 2 undergraduate hours. 1 or 2 graduate hours. May be repeated to a maximum of 6 hours. (1 hour credit per concert up to 2 per term). Prerequisite: DANC 131 or DANC 231, or equivalent and consent of instructor.

DANC 441  Dance History Seminar  credit: 3 Hours.  Survey of critical approaches in dance studies including feminist theory, poststructural, and postcolonial theory, historiography, and ethnographic research methods. Course topics will cover a variety of theatrical, popular, and social dance practices. 3 undergraduate hours. 3 graduate hours. Prerequisite: DANC 240 or consent of instructor. This course satisfies the General Education Criteria for: Advanced Composition.

DANC 450  Teaching Workshop  credit: 3 Hours.  Methods and approaches to the teaching of dance technique in the modern, ballet, and jazz idioms. 3 undergraduate hours. 3 graduate hours. Prerequisite: Junior standing in Dance or consent of instructor.

DANC 451  Ind Study and Special Topics  credit: 1 to 4 Hours.  Special projects in research or creative investigation taught on an individual or class basis. 1 to 4 undergraduate hours. 1 to 4 graduate hours. Approved for Letter and S/U grading. May be repeated to a maximum of 8 hours. Prerequisite: Junior standing in Dance and consent of instructor.

DANC 455  Supervised Teaching  credit: 1 to 4 Hours.  Practical teaching experience under the supervision of a faculty member; weekly conference devoted to evaluation and planning. Teaching areas include major and non-major university courses and classes for community adults and children. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated to a maximum of 8 hours with approval.

DANC 456  Choreographic Laboratory Advanced  credit: 1 to 2 Hours.  Students will work in depth within each professor's choreographic process, learning creative tools for generating dance material, directing performance, crafting choreographic ideas over a full semester and developing performance skills. 1 to 2 undergraduate hours. 1 to 2 graduate hours. May be repeated in separate terms to a maximum of 4 credit hours. Prerequisite: Major standing in Dance or consent of instructor.

DANC 459  Contact Improv Act/Mus/Dan II  credit: 1 or 2 Hours.  An interdisciplinary course in which performing arts students learn physical skills necessary for the practice of the contact improvisation (CI) partnering dance form as well as improvisational and performance skills. Encourages contemplation of the broader philosophical implications inherent in the form: community building and accepting difference. Content includes visits to lectures and events outside the dance department. 1 or 2 undergraduate hours. 1 or 2 graduate hours. May be repeated in separate terms to a maximum of 4 undergraduate hours or 6 graduate hours if topics vary.

DANC 460  Adv Contemp Modern Tech Core  credit: 1 to 3 Hours.  Modern technique for advanced graduate students. 1 to 3 undergraduate hours. 1 to 3 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Major standing in dance or consent of instructor; or departmental placement.

DANC 461  Adv Contemp Modern Tech Elect  credit: 1 to 3 Hours.  Modern technique for advanced graduate students. 1 to 3 undergraduate hours. 1 to 3 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Major standing in dance or consent of instructor; or departmental placement.
DANC 462 Composition Workshop  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/462/)
Structured creative utilization of formal choreographic elements in the creation, rehearsal, staging, and performance of original dance works. 2 undergraduate hours. 2 graduate hours. Approved for S/U grading only. Prerequisite: Graduate standing in dance or consent of instructor.

DANC 463 Advanced Improvisation II  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/463/)
Exploration of the physical skills and philosophical concepts at the base of improvisation practice. Students will develop individual and collective approaches to improvisatory structures, systems and performance contexts as well as look at the historical ways that improvisation has been used in contemporary performance. The course will culminate in performance in various public and private contexts. 1 undergraduate hour. 1 graduate hour. May be repeated in separate terms to a maximum of 4 credit hours. Prerequisite: Major standing in Dance or consent of instructor.

DANC 464 Composer-Chor Workshop  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/464/)
For experienced composers and choreographers; explores the many relationships between musical composition and choreography. Same as MUS 471. 2 undergraduate hours. 2 graduate hours. Prerequisite: For dance majors, DANC 263 or consent of instructor; for music majors, MUS 106 or equivalent, other compositional experience, and consent of instructor.

DANC 465 Screendance  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/465/)
This course is an introduction to Screendance and provides a comprehensive approach, from the camera use to editing techniques, leading to a practical ability to develop and produce a Screendance project. The course will also address issues of aesthetics, history, theory and technology as a foundation for the approaches to Screendance composition. Specific population encouraged to take the course are Cinema and Media studies, Theater Design and Technology and Art and Design. 3 graduate hours.

DANC 466 Advanced Ballet Tech Core  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/466/)
Ballet for advanced students. 1 to 3 undergraduate hours. 1 to 3 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Major standing in dance or consent of instructor or departmental placement.

DANC 467 Advanced Ballet Tech Elect  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/467/)
Ballet for advanced students. 1 to 3 undergraduate hours. 1 to 3 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Major standing in dance or consent of instructor or departmental placement.

DANC 495 Senior Career Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/495/)
Addresses survival strategies and the transition from academia to the profession. Course content includes research and discussion of career possibilities in performance, choreography, teaching, community dance work, therapy, and the dance-related fields of health/fitness/recreation. Students will research individualized projects in an area of interest. 1 undergraduate hour. No graduate credit. Prerequisite: Senior standing in Dance.

DANC 496 BA Senior Thesis Research  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/496/)
Within the Bachelor of Arts (BA) Program of Study, the senior thesis is a capstone project that synthesizes a student's study in dance and another focused area of study outside of dance. BA Senior Thesis Research is designed to be a designated 'work-time' for BA Candidates while they are pursuing their research interests via their thesis projects. Much of the BA Curriculum in Dance requires students to work independently as they explore their research interests. BA Senior Thesis Research (DANC 496) supplements this independent work with dialog among other BA candidates, structured guidance from DAI faculty, and opportunities to 'trouble-shoot' research challenges amidst a community of aspiring dance students. Successful completion with a passing grade in DANC 375 Senior Think Tank is required to register for this course. 2 undergraduate hours. No graduate credit. May be repeated in separate terms. Prerequisite: DANC 375 (passing grade required). Senior standing required. For Dance majors only.

DANC 497 BA Capstone Project  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/497/)
The BA Capstone Project is a synthesis of dance studies with the student's selected focused area of study (focused electives, dual major, or minor), which results in a culminating presentation, performance, and/or written project. 1 to 3 undergraduate hours. No graduate credit. May be repeated to a maximum of 3 hours in separate semesters. Prerequisite: BA in Dance majors only, senior standing required.

DANC 498 Senior Thesis Production  credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/498/)
The planning, design, and production of the Senior Capstone Project (DANC 499) for public performance. Students will work as a team to plan the Senior Concerts including designing and producing promotional materials and managing technical rehearsals and performances. 1 or 2 undergraduate hours. No graduate credit. May be repeated in separate terms. Prerequisites: DANC 375. Concurrent enrollment in DANC 499 is required.

DANC 499 Senior Thesis Project  credit: 1 to 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/499/)
The creation of a culminating choreographic/performance project. 1 to 2 undergraduate hours. No graduate credit. Approved for S/U grading only. May be repeated to a maximum of 2 hours. Prerequisite: DANC 362 and senior standing in Dance. Concurrent enrollment in DANC 498 is required.

DANC 510 Grad Seminar/Special Topics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/DANC/510/)
A theory based course that examines current thinking around issues relevant to the field of dance and performance, and brings these concerns into conversation with the practice of various dance forms, the cultures and communities in which they exist and the bodies most (and sometimes least) affected. 4 graduate hours. No professional credit. Prerequisite: Graduate standing in Dance.

DANC 520 Synthesis Laboratory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/DANC/520/)
Required laboratory course focused on the practice of synthesizing expertise in choreography, physical practice, teaching, written and oral communication, and creative career planning. Critical theory and inquiry will be intertwined with rigorous examination of performance and construction of dance-making. Issues of sustaining practice, testing and conveying one's mission and vision, and elaborating on one's individual research in relationship to the field will be emphasized. May be repeated up to 8 hours in separate terms. Spring and Fall terms, even years. Prerequisite: Graduate standing in Dance required.

Information listed in this catalog is current as of 01/2022
DANC 530  Somatics in Dance Training  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/530/)
Addresses current issues and trends in the teaching of dance technique, with a focus on the incorporation of dance science and somatics into dance training. Course includes reading, writing, discussion, teaching observation, and experiential work. Prerequisite: Completion of DANC 445 and DANC 450, or consent of instructor.

DANC 531  MFA Prof Practice Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/531/)
A course examining current field practices and trends including curatorial practices, and interdisciplinary practices. Includes preparation of practical materials for career presentation and examination of resources. Approved for S/U grading only. May be repeated to a maximum of 3 hours. Prerequisite: Graduate standing in dance.

DANC 532  Digital Media for Dancers  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/532/)
Survey of the manipulation of digital images, video, and audio, with an emphasis on how these technologies are valuable to the dancer as both creative and marketing tools. Prerequisite: Graduate standing in Dance or consent of instructor.

DANC 541  Contemporary Directions I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/541/)
A critical approach to 20th century dance with emphasis on the evolution of ideas that have influenced and shaped the dance of today. Prerequisite: Graduate standing in dance or consent of instructor.

DANC 542  Contemporary Directions II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/542/)
Continuation of Dance 541 Contemporary Directions I emphasizing viewing, discussing, analyzing, and writing about the work of current significant contemporary choreographers worldwide with special attention toward contextualizing student research. May be repeated in separate terms up to 4 hours. Prerequisite: DANC 541 or consent of instructor. For graduate students only except by permission of instructor.

DANC 550  Advanced Research in Dance  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/DANC/550/)
Advanced Independent Research in an opportunity for exceptional returning level professional MFA candidates in Dance to design and implement an in-depth examination of a creative, historical, contemporary, philosophical, technological, or educational facet of dance under the guidance of a faculty advisor. May be repeated for a maximum of 12 graduate hours. Prerequisite: Consent of instructor, advisor, and graduate program director.

DANC 560  Advanced Physical Practice  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/DANC/560/)
MFA candidates are required to maintain a demonstrated level of technical proficiency through a consistent graduate level physical practice. The physical practice of each candidate is determined through advisement and may include ballet technique, modern technique, Alexander Technique, yoga, or additional somatic practices offered in the department. Approved for S/U grading only. May be repeated to a maximum of 24 hours. Prerequisite: MFA candidate in dance.

DANC 562  Graduate Composition II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/562/)
Includes reading, writing, and discussion. Students will examine the creative process, the conventions that form choreographers’ works, and the historical situations from which specific dance works spring. Students will produce works in specific contexts outside the standard theatre setting. They will be responsible for all promotional and production aspects of a project that will be presented to the public. Prerequisite: Dance 462.

DANC 581  Aesthetics and Curriculum  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/DANC/581/)
Same as CI 581. See CI 581.

DANC 598  Creative Thesis Project  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/DANC/598/)
The design, implementation, and completion of a culminating creative project in choreography and/or performance. Approved for S/U grading only. May be repeated to a maximum of 8 hours. Prerequisite: 28 hours of graduate work in dance, including 4 hours in choreography.
DTX - Human-Centered Design & Design Thinking

DTX Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/DTX/)

Courses

DTX 210  Introduction to Social Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DTX/210/)
Social design supports and empowers culture by looking at design through the lens of the community as a whole. The overarching goal of social design is to create outcomes that inspire cultural engagement and improve creativity, equity, social justice, and public health. This course provides an introduction to the fundamentals of social design, where students will collaborate on projects across the semester to learn how to bring the course materials together to real-life applications.

DTX 251  Introduction to Design Thinking  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DTX/251/)
Provides a hands-on introduction to the fundamentals of Design Thinking and Human-Centered Design. Students review, analyze, and reflect on completed design challenges employing the human-centered design (HCD) approach. Students experience HCD while working collaboratively on a semester-long project. Students learn methods to perform initial research, project scoping, conduct interviews, create journey maps and wireframes, brainstorm and propose ideas, and plan for prototyping. Students also learn to implement and develop storytelling and critiquing skills.

DTX 252  Introduction to Prototyping  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DTX/252/)
Design Thinking is a problem-solving approach that identifies the unmet needs of a population in order to iteratively develop solutions. Part of this process includes evaluating ideas with audiences in order to elicit feedback. The aim of this course is to introduce you to the purposes of prototyping along with methods of creating, communicating, and evaluating prototypes. During the course, you will be engaged in hands-on activities that facilitate your development of experimental and creative mindsets. Prerequisite: DTX 251, DTX 455, or permission by instructor.

DTX 455  Design for Social Impact  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DTX/455/)
An immersive exploration of design thinking as a method for tackling social needs and issues. Social innovation seeks to impact transformational change in underserved, underrepresented, and disadvantaged local and international communities by addressing problems too complex to be solved by traditional methods. Students in this course will work in collaborative teams to employ the human-centered design process to discover and develop innovative solutions for social problems such as poverty, homelessness, hunger, and violence. 3 undergraduate hours. No graduate credit.

DTX 495  Special Topics in Design Thinking  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DTX/495/)
Subject offerings of new and developing areas of knowledge in design thinking and human-centered design intended to augment the existing curriculum. 2 undergraduate hours. 2 graduate hours. May be repeated, if topics vary, in the same term to a maximum of 4 hours or in separate terms to a maximum of 8 hours.

Information listed in this catalog is current as of 01/2022
EALC - East Asian Languages & Cultures

EALC Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/EALC/)

Courses

EALC 120  East Asian Civilizations  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/120/)
Same as HIST 120. See HIST 120.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

EALC 122  History East Asian Religions  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/122/)
Introduction to East Asian religious traditions; emphasizes the ideas of Confucianism, Taoism, and Buddhism in China and their historical interactions.
Same as REL 122.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

EALC 130  The Chinese Language  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/130/)
An introduction to the scientific study of the Chinese language. We will explore where the Chinese language came from, its similarities to and differences from Japanese and Korean, and how the Chinese character writing system was invented, plus what is it like now. We will explore differences among Chinese dialects (e.g., Cantonese, Mandarin, Taiwanese and Shanghai) and learn where in China these are spoken, and also explore how the Chinese language operates in the brain. Finally, we will investigate how children in China learn to speak, read, and write, how adults learn to speak Chinese as a foreign language, and how Chinese can be used by different social groups in different settings in order to influence social power and distance. Approved for Letter and S/U grading. This course does not fulfill the campus foreign language requirement.
This course satisfies the General Education Criteria for:
Cultural Studies - Non-West
Social Beh Sci - Soc Sci

EALC 132  Zen  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/132/)
Same as REL 132. See REL 132.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

EALC 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/EALC/199/)
May be repeated.

EALC 207  Classical Chinese Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/207/)
Surveys Chinese literary works from the classical tradition (history, philosophy, poetry, literary criticism) with attention to intellectual and artistic values. Same as CWL 217. No knowledge of Chinese is required.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

EALC 214  Art in China  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/214/)
Same as ARTH 214. See ARTH 214.
This course satisfies the General Education Criteria for:
Advanced Composition
Cultural Studies - Non-West

EALC 220  Traditional China  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/220/)
Same as HIST 220. See HIST 220.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

EALC 221  Modern China  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/221/)
Same as HIST 221. See HIST 221.
This course satisfies the General Education Criteria for:
Cultural Studies - Non-West
EALC 222  Chinese Thought and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/222/)
Examination of China's principal philosophical, religious, and political schools of thought - such as Confucianism, Taoism, Zen Buddhism, and Maoism - as ways of understanding one of the world's major civilizations; the period of the classical philosophers, the glory years of empire, and the troubled era of Western contact receive approximately equal attention. Same as HIST 222 and REL 224.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

EALC 226  Premodern Japanese History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/226/)
Same as HIST 226. See HIST 226.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

EALC 227  Modern Japanese History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/227/)
Same as HIST 227. See HIST 227.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

EALC 230  Popular Cultures of Contemporary East Asia  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/230/)
An introduction to the popular cultures and subcultures of China, Korea, and Japan through exposure to popular films, music, anime, games, and everyday practices. Already hugely popular in its home countries, East Asian popular culture has become familiar to American audiences through films, video games, food, toys, and comic books. The course explores the historical, social, cultural, and economic roots of this global appeal, while gauging popular culture's impact on national identity, gender, and lifestyle. No knowledge of East Asian languages is required. Same as CWL 230.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

EALC 240  Chinese Civilization  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/240/)
Introduction to the historical development of Chinese civilization. Emphasis will be on broad themes and the connections among cultural values, women and gender, social institutions, political structures, and contacts with outsiders. Visual and literary evidence will be stressed.
This course satisfies the General Education Criteria for:
Cultural Studies - Non-West

EALC 250  Intro to Japanese Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/250/)
Topical introduction to Japanese cultural and aesthetic life with attention to cultural and aesthetic patterns as they are reflected in literature, language, and the arts.
This course satisfies the General Education Criteria for:
Cultural Studies - Non-West
Social Beh Sci - Soc Sci

EALC 275  Masterpieces of East Asian Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/275/)
Study of major works in the literary traditions of China and Japan, including haiku, noh, Tale of Genji, kabuki, Tang poetry, Ming theater, and the colloquial tale. Same as CWL 275. No knowledge of Chinese or Japanese language required.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

EALC 276  Asian Film Genres  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/276/)
Same as CWL 276 and ENGL 276. See ENGL 276.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

EALC 285  Intro to Korea Through Film  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/285/)
Course uses film, literary, and ethnographic works to explore the impact of Post-Colonial (1945-present) socioeconomic and cultural transformation on the personal and collective South Korean experience. Same as ANTH 285.
This course satisfies the General Education Criteria for:
Cultural Studies - Non-West

EALC 287  Introduction to Buddhism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/287/)
Same as REL 287. See REL 287.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

Information listed in this catalog is current as of 01/2022
EALC 288  Contemporary East Asia  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/288/)
Introduction to aspects of daily life in East Asia in relation to local and extra-local political and economic structures and transformations. Same as ANTH 287.

EALC 305  Japan Lit in Translation I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/305/)
Survey of Japanese literature from earliest times to 1600; readings in prose, poetry, and drama in English translation. Same as CWL 311. This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Non-West

EALC 306  Japan Lit in Translation II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/306/)
Survey of Japanese literature from 1600 to recent times; readings in prose, poetry, and drama in English translation; and lectures and papers. Same as CWL 312.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Non-West

EALC 308  Chinese Popular Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/308/)
Surveys Chinese popular literary works written in the vernacular language (short story, novel, and drama), with attention to cultural and artistic values. Same as CWL 308. No knowledge of Chinese is required.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Non-West

EALC 320  Sacred Sites in Japan  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/320/)
An interdisciplinary study of major sites in Japan that are deemed sacred, and of their visual culture. The art and architecture of sacred sites are examined and positioned within a variety of contexts, such as their cultural, religious, and socio-political significance. It will be explored how these art and architecture have been received and used, and how they and perceptions of the sites have shaped each other. Same as ARTH 320.

EALC 343  Gov & Pol of China  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/343/)
Same as PS 343. See PS 343.

EALC 344  Government and Politics of Japan  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/344/)
Same as PS 344. See PS 344.

EALC 359  Government and Politics of East Asia  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/359/)
Same as PS 359. See PS 359.

EALC 361  Gender and Women in East Asia  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/361/)
Interdisciplinary inquiry into the cultural and social patterns that have shaped women's lives in China, Japan, and Korea. Same as GWS 361.
This course satisfies the General Education Criteria for:
- Advanced Composition

EALC 365  Contemporary Korean Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/365/)
Explores contemporary Korean society through popular culture, including but not limited to advertisements, sports, tourism, film, television, music, internet & new media, fashion, and food.
This course satisfies the General Education Criteria for:
- Social Beh Sci - Beh Sci
- Cultural Studies - Non-West
- Social Beh Sci - Soc Sci

EALC 367  History of Korea  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/367/)
Historical examination of the Korean experience, with introduction from the earliest times to the present day with a focus on modern Korea: basic political, social, economic patterns; examination of the cultural and intellectual tradition; Korea's historical role in Asia; the Korean colonial experience; Korea in the modern world. Same as HIST 325.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Non-West

EALC 390  Individual Study  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/390/)
Directed readings in the languages and literatures of East Asia. The area selected depends on the student's interest. May be repeated to a maximum of 8 hours. Prerequisite: Consent of instructor.

EALC 398  Colloquium in EALC  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/398/)
See online schedule for current topics. May be repeated in the same or separate terms to a maximum of 12 hours if topics vary. Prerequisite: Junior standing.

EALC 402  Ways of Seeing in Edo Japan  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/402/)
Same as ARTH 402. See ARTH 402.
EALC 403  Word and Image in Chinese Art  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/403/)
Same as ARTH 403. See ARTH 403.

EALC 404  China through Film  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/404/)
Same as ARTH 404. See ARTH 404.

EALC 411  The Chinese Novel  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/411/)
Reading and analysis of representative pieces of Chinese fiction from the fourth century B.C. to 1900 with emphasis on the development of Chinese
fiction, its place in the literary tradition, and its role in society. Same as CWL 411. 3 undergraduate hours. 4 graduate hours. No knowledge of Chinese
is required.

EALC 412  Mod Chinese Lit in Translation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/412/)
Reading and analysis of representative selections from Chinese literature since the May 4 Movement (early 20th century), with special attention to the
relationship between literature and ideology in twentieth-century China. Same as CWL 412. 3 undergraduate hours. 4 graduate hours. No knowledge of
Chinese is required.

EALC 415  Mod Japan Lit in Translation  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/415/)
Critical study of selected 20th century writers with an emphasis on cultural background, world view, human relationships, aesthetic theories, Japanese
and Western traditions, and universal literary issues. Same as CWL 415. 3 undergraduate hours. 2 or 4 graduate hours. Requires no knowledge of
Japanese; readings and films. Prerequisite: Junior standing or consent of instructor.

EALC 420  China Under the Qing Dynasty  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/420/)
Same as HIST 420. See HIST 420.

EALC 421  Soc-Econ Hist Modern China  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/421/)
Same as HIST 421. See HIST 422.

EALC 425  Chinese Poetry and Translation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/425/)
A critical introduction to major Chinese poetic genres and an in depth examination of various translation strategies used in the translation of Chinese
poetry. The poetry component acquaints students with essential aspects of Chinese language and poetry and thus enables them to evaluate the
translated texts from the perspectives of both an insider and outsider. The translation component entails both the evaluation of existing translations
and practice by the students. Same as TRST 430. 3 undergraduate hours. 3 graduate hours.

EALC 426  Early Modern Japan  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/426/)
Same as HIST 426. See HIST 426.

EALC 427  Twentieth-Century Japan  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/427/)
Same as HIST 427. See HIST 427.

EALC 430  Intro to East Asian Ling  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/430/)
Same as LING 430. See LING 430.

EALC 466  Japanese Cinema  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/466/)
Same as CWL 467 and MACS 466. See MACS 466.

EALC 476  Classical Chinese Thought  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/476/)
Inquiry into the major schools of Chinese thought in the Classical Period through the Han (206 B.C. - A.D. 220): Confucianism, Taoism and Legalism.
Topics such as the concept of history, military thought and logic will be covered. Readings are in English. Same as CWL 478 and HIST 425. 3
undergraduate hours. 4 graduate hours. Prerequisite: One 200 or 300-level course on Chinese culture or consent of instructor.

EALC 484  Buddhist Meditation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/484/)
Same as REL 484. See REL 484.

EALC 488  History of Chinese Buddhism  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/488/)
Survey of the history of Chinese Buddhism since its introduction; analysis of Buddhological trends and styles; and the sociocultural milieu of Chinese
Buddhism and its place in the total history of ideas and lifestyles. Same as REL 488. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite:
REL 287 or consent of instructor.

EALC 490  Individual Study  credit: 2 to 12 Hours. (https://courses.illinois.edu/schedule/terms/EALC/490/)
Supervised individualized study of a topic not covered by regular course offerings. The topic must be approved by the instructor. 3 to 12 undergraduate
hours. 2 to 12 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Consent of instructor.

EALC 495  Topics in Asian Religions  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/495/)
Same as REL 495. See REL 495.

EALC 500  Proseminar in EALC  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/500/)
Interdisciplinary introduction for first-term East Asian Languages and Cultures graduate students to western-language writings on East Asia that have
been important to modern scholarship on the region. The proseminar will cover the three cultures of the region in an interdisciplinary fashion, focusing
on the methods of various disciplines in their treatment of East Asia. Method refers both to the kinds of materials studies, and the theory and tools
used in research.

EALC 501  Seminar in Chinese Art  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/501/)
Same as ARTH 501. See ARTH 501.

Information listed in this catalog is current as of 01/2022
EALC 511  Applied Literary Translation I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/511/)
Same as CWL 511, GER 511, SLAV 501, and TRST 501. See TRST 501.

EALC 512  Applied Literary Translation II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/512/)
Same as CWL 512, GER 512, SLAV 502, and TRST 502. See TRST 502.

EALC 520  Problems in Chinese History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/520/)
Same as HIST 520. See HIST 520.

EALC 521  Seminar in Chinese Literature  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/521/)
Examination of Chinese literature from a variety of genres and historical periods intended to prepare students for independent work in literary criticism and analysis. Readings include both primary texts and important works of secondary scholarship. Students will produce a term paper based on independent research. May be repeated to a maximum of 8 hours with approval.

EALC 522  Research Seminar: China  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/522/)
Same as HIST 521. See HIST 521.

EALC 526  Problems in Japanese History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/526/)
Same as HIST 526. See HIST 526.

EALC 527  Research Seminar: Japan  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/527/)
Same as HIST 527. See HIST 527.

EALC 550  Seminar in EALC  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/550/)
Seminar on selected topics. Topic varies with instructor. May be repeated to a maximum of 12 hours. Prerequisite: Consent of instructor.

EALC 560  East Asian Language Pedagogy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/560/)
Course is for teachers of Japan, Chinese, or Korean language who wish to improve their teaching skills and learn more about second and foreign language acquisition specific to the East Asian Language context. Besides reviewing research on language teaching methodology and curriculum development, students will observe each other conduct practice classes and analyze videotapes of class sessions. Undergraduates may enroll with consent of instructor and the Graduate College. Prerequisite: Native or near-native fluency in Japan, Chinese, or Korean.

EALC 567  Popular Religion in East Asia  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/567/)
Same as REL 568. See REL 568.

EALC 584  Theories in Second Language Acquisition  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/584/)
Same as CI 584, EPSY 563, FR 584, GER 584, ITAL 584, LING 584, PORT 584, and SPAN 584. See SPAN 584.

EALC 588  Sem Second Lang Learn  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/588/)
Same as FR 588, GER 588, ITAL 588, LING 588, PORT 588, and SPAN 588. See SPAN 588.

EALC 590  Individual Study and Research  credit: 2 to 12 Hours. (https://courses.illinois.edu/schedule/terms/EALC/590/)
Supervised individual investigation or study of a topic not covered by regular course offerings. The topic selected by the student and the proposed plan of study must be approved by the adviser and the instructor. May be repeated. Prerequisite: Consent of instructor.

EALC 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/EALC/599/)
Research and guidance in writing theses for advanced degrees. Approved for S/U grading only. May be repeated to a maximum of 16 hours. Prerequisite: Satisfactory completion of the preliminary examinations.
ECE - Electrical and Computer Engineering

ECE Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ECE/)

Courses

ECE 101 Exploring Digital Info Technol  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/101/)
Principles and processes for the development of information technologies: digital music, digital images, digital logic, data compression, error correction, information security, and communication networks. Laboratory for design of hardware and software, and experiments in audio and image processing. Intended for students outside the College of Engineering. Credit is not given to Computer or Electrical Engineering majors.

ECE 110 Introduction to Electronics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/110/)
Introduction to selected fundamental concepts and principles in electrical engineering. Emphasis on measurement, modeling, and analysis of circuits and electronics while introducing numerous applications. Includes sub-discipline topics of electrical and computer engineering, for example, electromagnetics, control, signal processing, microelectronics, communications, and scientific computing basics. Lab work incorporates sensors and motors into an autonomous moving vehicle, designed and constructed to perform tasks jointly determined by the instructors and students.

ECE 120 Introduction to Computing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/120/)
Introduction to digital logic, computer systems, and computer languages. Topics include representation of information, combinational and sequential logic analysis and design, finite state machines, the von Neumann model, basic computer organization, and machine language programming. Laboratory assignments provide hands-on experience with design, simulation, implementation, and programming of digital systems. Prerequisite: Restricted to Computer Engineering or Electrical Engineering majors or transfer students with ECE Department consent.

ECE 198 Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/198/)
Lectures and discussions relating to new areas of interest. May be repeated in the same or separate terms for unlimited hours if topics vary. See class schedule for topics and prerequisites.

ECE 199 Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/ECE/199/)
Approved for both letter and S/U grading. May be repeated.

ECE 200 Seminar  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ECE/200/)
Discussions of educational programs, career opportunities, and other topics in electrical and computer engineering. Approved for Letter and S/U grading. May be repeated. For Computer Engineering and Electrical Engineering majors only.

ECE 205 Electrical and Electronic Circuits  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/205/)
ECE 205 is an introductory course on circuit analysis and electronics for non-majors in engineering. The course includes bi-weekly electronics lab experiments designed to provide students with hands-on experience. Basic principles of circuit analysis and DC circuits; time-domain analysis of 1st and 2nd order linear circuits; complex numbers, phasors, AC steady-state analysis; frequency response; op-amp, diode, and BJT circuits; logic gates and digital logic circuits. Credit is not given to Computer or Electrical Engineering majors. Credit is not given to Computer or Electrical Engineering majors.

ECE 206 Electrical and Electronic Circuits Lab  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ECE/206/)
Laboratory experiments in digital logic and controllers; transistor amplifier and switching circuits; DC motor control and voltage regulators; sensors and motion control with feedback; wireless communication. Credit is not given to Computer or Electrical Engineering majors. Prerequisite: ECE 205.

ECE 210 Analog Signal Processing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/210/)
Analog signal processing, with an emphasis on underlying concepts from circuit and system analysis: linear systems; review of elementary circuit analysis; differential equation models of linear circuits and systems; Laplace transform; convolution; stability; phasors; frequency response; Fourier series; Fourier transform; active filters; AM radio. Credit is not given for both ECE 210 and ECE 211. Prerequisite: ECE 110 and PHYS 212; credit or concurrent registration in MATH 285 or MATH 286.

ECE 211 Analog Circuits & Systems  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/ECE/211/)
Concepts from circuit and system analysis: linear systems; review of elementary circuit analysis; op amps; transient analysis; differential equation models of linear circuits and systems; Laplace transform. Credit is not given for both ECE 211 and ECE 210. Prerequisite: ECE 110 and PHYS 212; credit or concurrent registration in MATH 285 or MATH 286.

ECE 220 Computer Systems & Programming  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/220/)
Advanced use of LC-3 assembly language for I/O and function calling convention. C programming, covering basic programming concepts, functions, arrays, pointers, I/O, recursion, simple data structures, linked lists, dynamic memory management, and basic algorithms. Information hiding and object-oriented design as commonly implemented in modern software and computer systems programming. Prerequisite: ECE 120. Restricted to Computer Engineering or Electrical Engineering majors or transfer students with ECE Department consent.

ECE 297 Individual Study  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ECE/297/)
Individual projects. Approved written application to department as specified by department or instructors is required. Approved for both letter and S/U grading. May be repeated in separate terms to a maximum of 2 hours. Prerequisite: Consent of instructor.
ECE 205 Electric Circuits credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/205/)  
Prerequisite: ECE 161.  
Basic concepts of electric circuit analysis; Kirchhoff's laws; nodal and mesh analysis; sinusoidal steady state; fundamental frequency domain analysis; network equivalents; power and energy fundamentals; resonance; mutual inductance; three-phase power concepts; forces and torques of electric origin in electromagnetic and electrostatic systems; energy conversion cycles; principles of electric machines; transducers; relays; laboratory demonstration. Prerequisite: ECE 210.

ECE 210 Electric Circuits Lab credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ECE/210/)  
Companion laboratory for ECE 205. Prerequisite: Credit or concurrent registration in ECE 205.

ECE 206 ECE Technology & Management credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/206/)  
Intended for the Business Majors in the Technology and Management program. Credit is not given to Computer or Electrical Engineering Majors.  
Prerequisite: One of MATH 220, MATH 221, MATH 234.  
Microprocessors). Intended for the Business Majors in the Technology and Management program. Credit is not given to Computer or Electrical Engineering Majors.  
Prerequisite: One of MATH 220, MATH 221, MATH 234.

ECE 210 Electric Circuits Lab credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ECE/210/)  
Companion laboratory for ECE 205. Prerequisite: Credit or concurrent registration in ECE 205.

ECE 210 Electric Circuits Lab credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ECE/210/)  
Companion laboratory for ECE 205. Prerequisite: Credit or concurrent registration in ECE 205.

ECE 298 Special Topics credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/298/)  
Lectures and discussions relating to new areas of interest. May be repeated in the same or separate terms for unlimited hours if topics vary. See class schedule for topics and prerequisites.

ECE 304 Photonic Devices credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/304/)  
Introduction to active and passive photonic devices and applications; optical processes in semiconductor and dielectric materials including electrical junctions, light emission and absorption, and waveguide confinement; photonic components such as light emitting diodes, lasers, photodetectors, solar cells, liquid crystals, and optical fiber; optical information distribution networks and display applications. Prerequisite: PHYS 214.

ECE 307 Techniques for Engg Decisions credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/307/)  
Modeling of decisions in engineering work and the analysis of models to develop a systematic approach to making decisions. Fundamental concepts in linear and dynamic programming; probability theory; and statistics. Resource allocation; logistics; scheduling; sequential decision making; siting of facilities; investment decisions; application of financial derivatives; other problems for decision making under uncertainty. Case studies from actual industrial applications illustrate real-world decisions. Prerequisite: ECE 210; credit or concurrent registration in ECE 313.

ECE 310 Digital Signal Processing credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/310/)  
Introduction to discrete-time systems and discrete-time signal processing with an emphasis on causal systems; discrete-time linear systems, difference equations, z-transforms, discrete convolution, stability, discrete-time Fourier transforms, analog-to-digital and digital-to-analog conversion, digital filter design, discrete Fourier transforms, fast Fourier transforms, spectral analysis, and applications of digital signal processing. Prerequisite: ECE 210.

ECE 311 Digital Signal Processing Lab credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ECE/311/)  
Companion laboratory for ECE 310. Prerequisite: Credit or concurrent registration in ECE 310.

ECE 313 Probability with Engrg Applc credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/313/)  
Probability theory with applications to engineering problems such as the reliability of circuits and systems to statistical methods for hypothesis testing, decision making under uncertainty, and parameter estimation. Same as MATH 362. Credit is not given for both ECE 313 and MATH 461. Prerequisite: MATH 257 or MATH 416.

ECE 314 Probability in Engineering Lab credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ECE/314/)  
Designed to be taken concurrently with ECE 313, Probability in Engineering Systems, to strengthen the students' understanding of the concepts in ECE 313 and their applications, through computer simulation and computation using the Python programming language. Topics include sequential hypothesis testing, parameter estimation, confidence intervals, Bloom filters, min hashing, load balancing, inference for Markov chains, PageRank algorithm, vector Gaussian distribution, contagion in networks, principle component method and linear regression for data analysis, investment portfolio analysis. Prerequisite: Concurrent enrollment in ECE 313 or credit in one of: ECE 313, IE 300, STAT 410.

ECE 316 Ethics and Engineering credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/316/)  
Ethical issues in the practice of engineering: safety and liability, professional responsibility to clients and employers, whistle-blowing, codes of ethics, career choice, and legal obligations. Philosophical analysis of normative ethical theories. Case studies. Same as PHIL 316. Credit is not given for both ECE 316 and either CS 210 or CS 211. Junior standing is required. Prerequisite: RHET 105. This course satisfies the General Education Criteria for:  
Advanced Composition  
Humanities - Hist Phil  

ECE 329 Fields and Waves I credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/329/)  
Electromagnetic fields and waves fundamentals and their engineering applications: static electric and magnetic fields; energy storage; Maxwell's equations for time-varying fields; wave solutions in free space, dielectrics and conducting media, transmission line systems; time- and frequency-domain analysis of transmission line circuits and Smith chart applications. Prerequisite: ECE 210.

ECE 330 Power Ckts & Electromechanics credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/330/)  
Network equivalents; power and energy fundamentals, resonance, mutual inductance; three-phase power concepts, forces and torques of electric origin in electromagnetic and electrostatic systems; energy conversion cycles; principles of electric machines; transducers; relays; laboratory demonstration. Prerequisite: ECE 210.

ECE 333 Green Electric Energy credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/333/)  
Electric power grid structure and policy; analysis of wind, solar, and fuels as raw resources; wind turbines and parks; solar cells, modules, arrays and systems; fuel cell power plants; energy and financial performance of green energy projects; integration of green energy into power grid; energy project report and presentation. Prerequisite: ECE 205 or ECE 210.
ECE 340  Semiconductor Electronics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/340/)
Modern device electronics: semiconductor fundamentals including crystals and energy bands, charge carriers (electrons and holes), doping, and transport, (drift and diffusion); unipolar devices with the MOS field effect transistor as a logic device and circuit considerations; basic concepts of generation-recombination and the P-N junction as capacitors and current rectifier with applications in photonics; bipolar transistors as amplifiers and switching three-terminal devices. Prerequisite: ECE 210; PHYS 214; credit or concurrent registration in ECE 329.

ECE 342  Electronic Circuits  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/342/)
Analysis and design of analog and digital electronic circuits using MOS field effect transistors and bipolar junction transistors, with emphasis on amplifiers in integrated circuits. Credit is not given for both ECE 342 and PHYS 404. Prerequisite: ECE 210.

ECE 343  Electronic Circuits Laboratory  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ECE/343/)
Companion laboratory for ECE 342. Credit is not given for both ECE 343 and PHYS 404. Prerequisite: Credit or concurrent registration in ECE 342.

ECE 350  Fields and Waves II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/350/)
Continuation of ECE 329: radiation theory; antennas, radiation fields, radiation resistance and gain; transmitting arrays; plane-wave approximation of radiation fields; plane-wave propagation, reflection, and transmission; Doppler effect, evanescent waves and tunneling, dispersion, phase and group velocities; waveguides and resonant cavities; antenna reception and link budgets. Prerequisite: ECE 329.

ECE 365  Data Science and Engineering  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/365/)
Project-based course focused on exploring and understanding how data are collected, represented and stored, and computed/analyzed upon to arrive at appropriate and meaningful interpretation. Foundations of machine learning are developed and then applied in the context of two specific application areas, such as social network analytics, biological data analysis, and auto and video analytics. Prerequisite: ECE 313.

ECE 374  Introduction to Algorithms & Models of Computation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/374/)
Same as CS 374. See CS 374.

ECE 380  Biomedical Imaging  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/380/)
Physics and engineering principles associated with x-ray, computed tomography, nuclear, ultrasound, magnetic resonance, and optical imaging, including human visualization and perception of image data. Same as BIOE 380. Prerequisite: MATH 285 or MATH 286.

ECE 385  Digital Systems Laboratory  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/385/)
Design, build, and test digital systems using transistor-transistor logic (TTL), SystemVerilog, and field-programmable gate arrays (FPGAs). Topics include combinational and sequential logic, storage elements, input/output and display, timing analysis, design tradeoffs, synchronous and asynchronous design methods, datapath and controller, microprocessor design, software/hardware co-design, and system-on-a-chip. Prerequisite: ECE 110 and ECE 220.

ECE 391  Computer Systems Engineering  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/391/)
Concepts and abstractions central to the development of modern computing systems, with an emphasis on the systems software that controls interaction between devices and other hardware and application programs. Input-output semantics; synchronization; interrupts; multitasking; virtualization of abstractions. Term-based projects. Credit is not given for both ECE 391 and CS 241. Prerequisite: ECE 220 or CS 233.

ECE 395  Advanced Digital Projects Lab  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/395/)
Planning, designing, executing, and documenting a microcomputer-based project. Emphasis on hardware but special projects may require an equal emphasis on software. May be repeated in separate terms. Prerequisite: ECE 385.

ECE 396  Honors Project  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/396/)
Special project or reading course for James Scholars in engineering. May be repeated. Prerequisite: Consent of instructor.

ECE 397  Individual Study in ECE  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/397/)
Individual Projects. Approved for both letter and S/U grading. May be repeated. Prerequisite: Consent of instructor. Approved written application to department as specified by department or instructor is required.

ECE 398  Special Topics in ECE  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/398/)
Subject offerings of new and developing areas of knowledge in electrical and computer engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. Approved for both letter and S/U grading. May be repeated in the same or separate terms if topics vary.

ECE 399  Honors Seminar  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/399/)
Special lecture sequences or discussion groups arranged each term to bring James Scholars in engineering into direct contact with the various aspects of engineering practices and philosophy. For Computer Engineering and Electrical Engineering majors with senior standing. Prerequisite: Consent of instructor.

ECE 401  Signal and Image Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/401/)
An introduction to signal analysis and processing methods for advanced undergraduates or graduate students in the biological, physical, social, engineering and computer sciences. Signal analysis methods and their capabilities, weaknesses, and artifacts with an emphasis on their practical application. Significant hands-on processing and interpretation of real data using MATLAB. 4 undergraduate hours. 4 graduate hours. Credit is not given for both ECE 310 and ECE 401. Prerequisite: MATH 220.
ECE 402  Electronic Music Synthesis  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/402/](https://courses.illinois.edu/schedule/terms/ECE/402/))
Historical survey of electronic and computer music technology; parameters of musical expression and their codification; analysis and synthesis of fixed sound spectra; time-variant spectrum analysis/synthesis of musical sounds; algorithms for dynamic sound synthesis. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 310.

ECE 403  Audio Engineering  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/403/](https://courses.illinois.edu/schedule/terms/ECE/403/))
Resonance and wave phenomena; Acoustics of rooms and transmission lines (e.g., horns); How loudspeakers work: A lab component has been added to measure and model real loudspeakers and enclosures; Topics in digital audio, including AD and DA (Sigma-Delta) audio converters. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 210 and ECE 310.

ECE 407  Cryptography  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/407/](https://courses.illinois.edu/schedule/terms/ECE/407/))
Cryptography is a powerful toolbox for building secure systems — not just for private communication, but also for building fault tolerant protocols, for securely outsourcing computation to untrusted services, and more. The goal of this course is to introduce the concepts of modern cryptography, including a combination of theoretical foundations (how do we precisely state security guarantees and assumptions, and prove that a protocol is designed correctly?) and practical techniques (how do we combine secure primitives to make effective systems?). This course is intended for senior undergraduate students with an interest in applying cryptographic techniques to building secure systems, and for graduate students with an interest in cryptography or systems security. Same as CS 407. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225.

ECE 408  Applied Parallel Programming  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/408/](https://courses.illinois.edu/schedule/terms/ECE/408/))
Parallel programming with emphasis on developing applications for processors with many computation cores. Computational thinking, forms of parallelism, programming models, mapping computations to parallel hardware, efficient data structures, paradigms for efficient parallel algorithms, and application case studies. Same as CS 483 and CSE 408. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 220.

ECE 410  Neural Circuits and Systems  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/410/](https://courses.illinois.edu/schedule/terms/ECE/410/))
Introduction to modeling functions of neurons and systems of neurons in the brain. Topics include Boolean signal processing, nonlinear diffusion equations, delay-and-add synaptic signal processing. Integrates information from the structure and physiology from a single neuron up to the assembly of brain circuits. Examples presented to discuss neural circuit and systems include the auditory, and to a lesser extent, visual system. Course concludes with a look at theories of brain function built up from systems of neurons. Same as NE 410. 3 undergraduate hours. 4 graduate hours. Prerequisite: MATH 285 or equivalent. CS 101 or equivalent.

ECE 411  Computer Organization & Design  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/411/](https://courses.illinois.edu/schedule/terms/ECE/411/))
Basic computer organization and design: integer and floating-point computer arithmetic; control unit design; pipelining; system interconnect; memory organization; I/O design; reliability and performance evaluation. Laboratory for computer design implementation, simulation, and layout. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 391 or CS 241.

ECE 412  Microcomputer Laboratory  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/412/](https://courses.illinois.edu/schedule/terms/ECE/412/))
Design, construction, and use of a small general-purpose computer with a micro-processor CPU; MSI and LSI circuits used extensively; control panel, peripheral controllers, control logic, central processor, and programming experiments. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 385; ECE 391 or CS 233. Recommended: Credit or concurrent registration in ECE 411.

ECE 414  Biomedical Instrumentation Lab  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/414/](https://courses.illinois.edu/schedule/terms/ECE/414/))
Same as BIOE 414. See BIOE 415.

ECE 415  Biomedical Instrumentation  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/415/](https://courses.illinois.edu/schedule/terms/ECE/415/))
Same as BIOE 415. See BIOE 415.

ECE 416  Biosensors  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/416/](https://courses.illinois.edu/schedule/terms/ECE/416/))
Underlying engineering principles used to detect small molecules, DNA, proteins, and cells in the context of applications in diagnostic testing, pharmaceutical research, and environmental monitoring. Biosensor approaches including electrochemistry, fluorescence, acoustics, and optics; aspects of selective surface chemistry including methods for biomolecule attachment to transducer surfaces; characterization of biosensor performance; blood glucose detection; fluorescent DNA microarrays; label-free biochips; bead-based assay methods. Case studies and analysis of commercial biosensor. Same as BIOE 416. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 329.

ECE 417  Multimedia Signal Processing  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/417/](https://courses.illinois.edu/schedule/terms/ECE/417/))
Characteristics of multimedia signal processing including subspace methods, Bayesian networks, hidden Markov models, and factor graphs; applications to biometrics (person identification), human-computer interaction (face and gesture recognition and synthesis), and audio-visual databases (indexing and retrieval). Emphasis on a set of MATLAB machine problems providing hands-on experience. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 310 or ECE 401; one of ECE 313, CS361, or STAT 400.

ECE 418  Image & Video Processing  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/418/](https://courses.illinois.edu/schedule/terms/ECE/418/))
Concepts and applications in image and video processing; introduction to multidimensional signal processing: sampling, Fourier transform, filtering, interpolation, and decimation; human visual perception; scanning and display of images and video; image enhancement, restoration and segmentation; digital image and video compression; image analysis. Laboratory exercises promote experience with topics and development of C and MATLAB programs. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 310; credit or concurrent registration in one of ECE 313, STAT 400, IE 300, MATH 461; MATH 415; experience with C programming language.

ECE 419  Security Laboratory  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/419/](https://courses.illinois.edu/schedule/terms/ECE/419/))
Same as CS 460. See CS 460.
ECE 420 Embedded DSP Laboratory  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/420/](https://courses.illinois.edu/schedule/terms/ECE/420/))
Development of real-time digital signal processing (DSP) systems using a DSP microprocessor; several structured laboratory exercises, such as sampling and digital filtering; followed by an extensive DSP project of the student's choice. 2 undergraduate hours. 2 graduate hours. Prerequisite: ECE 310.

ECE 421 Neural Interface Engineering  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/421/](https://courses.illinois.edu/schedule/terms/ECE/421/))
This course will focus on hardware and software technologies that enable control and readout of neural activity in the brain. Engineering grounded innovation will accelerate our understanding of the brain, impact new therapies for restoring lost neural functions, and lead to neural interfaces to augment our interaction with the world and machines. Focuses on using physical, chemical and biological principles to understand technology design criteria governing ability to observe and alter brain structure and function. Topics include noninvasive and invasive brain mapping and stimulation, neural interfaces and neural prosthetics, data processing problems, decoding/encoding techniques based on machine learning, future brain interfaces based on nanotechnology, optogenetics. Same as NE 420. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECE 210 or BIOE 205 and NE 330, or instructor approval.

ECE 422 Computer Security I  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/422/](https://courses.illinois.edu/schedule/terms/ECE/422/))
Same as CS 461. See CS 461.

ECE 424 Computer Security II  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/424/](https://courses.illinois.edu/schedule/terms/ECE/424/))
Same as CS 463. See CS 463.

ECE 425 Intro to VLSI System Design  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/425/](https://courses.illinois.edu/schedule/terms/ECE/425/))
Complementary Metal-Oxide Semiconductor (CMOS) technology and theory; CMOS circuit and logic design; layout rules and techniques; circuit characterization and performance estimation; CMOS subsystem design; Very-Large-Scale Integrated (VLSI) systems design methods; VLSI Computer Aided Design (CAD) tools; workstation-based custom VLSI chip design using concepts of cell hierarchy, final project involving specification, design, and evaluation of a VLSI chip or VLSI CAD program; written report and oral presentation on the final project. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 385 or CS 233.

ECE 426 Principles of Mobile Robotics  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/426/](https://courses.illinois.edu/schedule/terms/ECE/426/))
Same as ABE 426. See ABE 426.

ECE 428 Distributed Systems  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/428/](https://courses.illinois.edu/schedule/terms/ECE/428/))
Same as CS 425. See CS 425.

ECE 431 Electric Machinery  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/431/](https://courses.illinois.edu/schedule/terms/ECE/431/))
Theory and laboratory experimentation with three-phase power, power-factor correction, single- and three-phase transformers, induction machines, DC machines, and synchronous machines; project work on energy control systems; digital simulation of machine dynamics. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 330.

ECE 432 Advanced Electric Machinery  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/432/](https://courses.illinois.edu/schedule/terms/ECE/432/))
Advanced rotating machine theory and practice: dynamic analysis of machines using reference frame transformations; tests for parameter determination; reduced order modeling of machines; mechanical subsystems including governors, prime movers and excitation systems; digital simulation of inter-connected machines. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 431.

ECE 434 Mobile Computing & Application  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/434/](https://courses.illinois.edu/schedule/terms/ECE/434/))
Introduction to cross-disciplinary ideas and techniques in mobile computing, with an emphasis on how they can be composed to build systems and applications on smartphones, tablets, and wearable devices. Topics of interest include smartphone sensing, energy efficiency, indoor localization, augmented reality, context-awareness, gesture recognition, and data analytics. Various techniques and methods utilized to combine them into functional systems, propose a new system, define the underlying problems, and solve them end to end. Same as CS 434. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECE 391, CS 241, or ECE 310.

ECE 435 Computer Networking Laboratory  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/435/](https://courses.illinois.edu/schedule/terms/ECE/435/))
Same as CS 436. See CS 436.

ECE 437 Sensors and Instrumentation  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/437/](https://courses.illinois.edu/schedule/terms/ECE/437/))
Hands-on exposure to fundamental technology and practical application of sensors. Capacitive, inductive, optical, electromagnetic, and other sensing methods are examined. Instrumentation techniques incorporating computer control, sampling, and data collection and analysis are reviewed in the context of real-world scenarios. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 329.

ECE 438 Communication Networks  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/438/](https://courses.illinois.edu/schedule/terms/ECE/438/))
Same as CS 438. See CS 438.

ECE 439 Wireless Networks  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/439/](https://courses.illinois.edu/schedule/terms/ECE/439/))
Overview of wireless network architectures including cellular networks, local area networks, multi-hop wireless networks such as ad hoc networks, mesh networks, and sensor networks; capacity of wireless networks; medium access control, routing protocols, and transport protocols for wireless networks; mechanisms to improve performance and security in wireless networks; energy-efficient protocols for sensor networks. Same as CS 439. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 241 or ECE 391; one of MATH 461, MATH 463, ECE 313.
ECE 441  Physcs & Modeling Semicond Dev  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/441/)
Advanced concepts including generation-recombination, hot electron effects, and breakdown mechanisms; essential features of small ac
characteristics, switching and transient behavior of p-n junctions, and bipolar and MOS transistors; fundamental issues for device modeling;
perspective and limitations of Si-devices. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 340.

ECE 442  Silicon Photonics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/442/)
Overview of silicon integrated photonics in three sections: (1) fundamentals of waveguide optics and passive silicon photonics devices including
wavelength filters, mode converters, polarization and dispersion management. (2) active silicon photonics devices based on carrier injection/depletion
pn junction, photonic modulators, optical switches, photodetectors. (3) application of integrated silicon photonics in optical communications systems
in short and long haul optical links and datacenters. Emerging applications in quantum computing, neuromorphic computing and biosensing. 3
undergraduate hours. 4 graduate hours. Prerequisite: ECE 350.

ECE 443  LEDs and Solar Cells  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/443/)
This course explores the energy conversion devices from fundamentals to system-levels including electronic structure of semiconductors; quantum
physics; compound semiconductors; semiconductor heterostructures and low dimensional quantum structures; energy transfer between photons
and electron-hole pairs; photon emission and capture processes; radiative and non-radiative processes, light extraction and trapping; emission and
absorption engineering; electrical and optical modelling via numerical and TCAD simulation tools; hands-on characterization of modern light emitting
diodes and solar cells. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 340.

ECE 444  IC Device Theory & Fabrication  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/444/)
Fabrication lab emphasizing physical theory and design of devices suitable for integrated circuitry; electrical properties of semiconductors and
techniques (epitaxial growth, oxidation, photolithography diffusion, ion implantation, metallization, and characterization) for fabricating integrated
circuit devices such as p-n junction diodes, bipolar transistors, and field effect transistors. 4 undergraduate hours. 4 graduate hours. Prerequisite:
ECE 340.

ECE 445  Senior Design Project Lab  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/445/)
Individual design projects in various areas of electrical and computer engineering; projects are chosen by students with approval of instructor. A
professionally kept lab notebook, a written report, prepared to journal publication standards, and an oral presentation required. 4 undergraduate hours.
No graduate credit.
This course satisfies the General Education Criteria for:
Advanced Composition

ECE 446  Principles of Experimental Research in Electrical Engineering  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/446/)
Interdisciplinary approach to learning principles of experimental research. Focuses on: 1) experimental design 2) prevalent experimental techniques 3)
data organization, analysis, and presentation and 4) scientific computing. Presentation methods explored include poster session, conference talk, and
journal paper. Open-ended labs and a project reinforce concepts discussed in class. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 313.

ECE 447  Active Microwave Ckt Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/447/)
Microwave circuit design of amplifiers, oscillators, and mixers. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 350 and ECE 453.

ECE 448  Artificial Intelligence  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/448/)
Same as CS 440. See CS 440.

ECE 449  Machine Learning  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/449/)
Same as CS 446. See CS 446.

ECE 451  Adv Microwave Measurements  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/451/)
Manual- and computer-controlled laboratory analysis of circuits at microwave frequencies. 3 undergraduate hours. 3 graduate hours. Prerequisite:
ECE 350.

ECE 452  Electromagnetic Fields  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/452/)
Plane waves at oblique incidence; wave polarization; anisotropic media; radiation; space communications; waveguides. 3 undergraduate hours. 3
dergraduate hours. Prerequisite: ECE 350.

ECE 453  Wireless Communication Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/453/)
Design of a radio system for transmission of information; modulation, receivers, impedance matching, oscillators, two-port network analysis, receiver
and antenna noise, nonlinear effects, mixers, phase-locked loops. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 329, credit or concurrent
registration in ECE 342.

ECE 454  Antennas  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/454/)
Antenna parameters; polarization of electromagnetic waves; basic antenna types; antenna arrays; broadband antenna design; antenna
measurements. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 350.

ECE 455  Optical Electronics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/455/)
Optical beams and cavities; semiclassical theory of gain; characteristics of typical lasers (gas, solid state, and semiconductor); application of optical
devices. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECE 350 or PHYS 436.
ECE 456  Global Nav Satellite Systems  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/456/](https://courses.illinois.edu/schedule/terms/ECE/456/))
Engineering aspects of space-based navigation systems, such as the Global Positioning System (GPS). Engineering and physical principles on which GPS operates, including orbital dynamics, electromagnetic wave propagation in a plasma, signal encoding, receiver design, error analysis, and numerical methods for obtaining a navigation solution. GPS as a case study for performing an end-to-end analysis of a complex engineering system. Laboratory exercises focus on understanding receiver design and developing a MATLAB-based GPS receiver. Same as AE 456. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 329 and ECE 310 or AE 352 and AE 353.

ECE 457  Microwave Devices & Circuits  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/457/](https://courses.illinois.edu/schedule/terms/ECE/457/))
Electromagnetic wave propagation, microwave transmission systems, passive components, microwave tubes, solid state microwave devices, microwave integrated circuits, S-parameter analysis, and microstrip transmission lines. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 340 and ECE 350.

ECE 458  Applic of Radio Wave Propag  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/458/](https://courses.illinois.edu/schedule/terms/ECE/458/))
Terrestrial atmosphere, radio wave propagation, and applications to radio sensing and radio communication. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 350.

ECE 459  Communications Systems  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/459/](https://courses.illinois.edu/schedule/terms/ECE/459/))
Analog underpinning of analog and digital communication systems: representation of signals and systems in the time and frequency domains; analog modulation schemes; random processes; prediction and noise analysis using random processes; noise sensitivity and bandwidth requirements of modulation schemes. Brief introduction to digital communications. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 313.

ECE 460  Optical Imaging  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/460/](https://courses.illinois.edu/schedule/terms/ECE/460/))
Scalar fields, geometrical optics, wave optics, Gaussian beams, Fourier optics, spatial and temporal coherence, microscopy, interference chromatic and geometric aberrations, Jones matrices, waveplates, electromagnetic fields, and electro-optic and acousto-optic effects. Laboratory covers numerical signal processing, spectroscopy, ray optics, diffraction, Fourier optics, microscopy, spatial coherence, temporal coherence, polarimetry, fiber optics, electro-optic modulation and acousto-optic modulation. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 329; credit or concurrent registration in ECE 313.

ECE 461  Digital Communications  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/461/](https://courses.illinois.edu/schedule/terms/ECE/461/))
Reliable communication of one bit of information over three types of channels: additive Gaussian noise, wireline, and wireless. Emphasis on the impact of bandwidth and power on the data rate and reliability, using discrete-time models. Technological examples used as case studies. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 210 and ECE 313.

ECE 462  Logic Synthesis  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/462/](https://courses.illinois.edu/schedule/terms/ECE/462/))
Unate function theory, unate recursive paradigm, synthesis of two-level logic, synthesis of incompletely specified combinational logic, multi-level logic synthesis, binary decision diagrams, finite state machine synthesis, automatic test pattern generation and design for test, equivalence checking and reachability analysis of finite machines, and technology mapping. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 220 or CS 233.

ECE 463  Digital Communications Lab  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/463/](https://courses.illinois.edu/schedule/terms/ECE/463/))
Hands-on experience in the configuration and performance evaluation of digital communication systems employing both radio and optical signals. 2 undergraduate hours. 2 graduate hours. Prerequisite: ECE 361 or ECE 459.

ECE 464  Power Electronics  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/464/](https://courses.illinois.edu/schedule/terms/ECE/464/))
Switching functions and methods of control such as pulse-width modulation, phase control, and phase modulation; dc-dc, ac-dc, dc-ac, and ac-ac power converters; power components, including magnetic components and power semiconductor switching devices. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 342.

ECE 465  Optical Communications Systems  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/465/](https://courses.illinois.edu/schedule/terms/ECE/465/))
Fundamentals of lightweight systems: characterization of lightweight channels, optical transmitters, receivers, and amplifiers; quantum and thermal noise processes; design of optical receivers; multimode and single-mode link analysis. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 313 and ECE 350. Recommended: credit or concurrent registration in ECE 459 and ECE 466.

ECE 466  Optical Communications Lab  credit: 1 Hour. ([https://courses.illinois.edu/schedule/terms/ECE/466/](https://courses.illinois.edu/schedule/terms/ECE/466/))
Fiber components and measurements, transmitters and detectors, fiber amplifiers, multimode fiber links, and wavelength division multiplexing. 1 undergraduate hour. 1 graduate hour. Prerequisite: Credit or concurrent registration in ECE 465.

ECE 467  Biophotonics  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/467/](https://courses.illinois.edu/schedule/terms/ECE/467/))
Overview of the field of biophotonics, in three segments: (1) fundamental principles of light, optics, lasers, biology, and medicine; (2) diagnostic biophotonics including imaging, spectroscopy, and optical biosensors; (3) therapeutic applications of biophotonics including laser ablation and photodynamic therapies. Reviews and presentations of current scientific literature by students. Tours of microscopy facilities. Same as BIOE 467. 3 undergraduate hours. 3 graduate hours. Prerequisite: One of ECE 455, ECE 460, PHY 402.

ECE 468  Optical Remote Sensing  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/468/](https://courses.illinois.edu/schedule/terms/ECE/468/))
Optical sensors including single element and area arrays (CCDs); optical systems including imagers, spectrometers, interferometers, and lidar; optical principles and light gathering power; electromagnetics of atomic and molecular emission and scattering with applications to the atmosphere the prime example; applications to ground and spacecraft platforms. Four laboratory sessions (4.5 hours each) arranged during term in lieu of four lectures. Same as AE 468. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 329, ECE 313.
ECE 469 Power Electronics Laboratory credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/ECE/469/)
Circuits and devices used for switching power converters, solid-state motor drives, and power controllers; dc-dc, ac-dc, and dc-ac converters and applications; high-power transistors and magnetic components; design considerations including heat transfer. 2 undergraduate hours. 2 graduate hours. Prerequisite: ECE 343; credit or concurrent registration in ECE 464.

ECE 470 Introduction to Robotics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/470/)
Fundamentals of robotics including rigid motions; homogeneous transformations; forward and inverse kinematics; velocity kinematics; motion planning; trajectory generation; sensing, vision; control. Same as AE 482 and ME 445. 4 undergraduate hours. 4 graduate hours. Prerequisite: One of MATH 225, MATH 286, MATH 415, MATH 418.

ECE 472 Biomedical Ultrasound Imaging credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/472/)
Theoretical and engineering foundations of ultrasonic imaging for medical diagnostics. Conventional, Doppler, and advanced ultrasonic imaging techniques; medical applications of different ultrasonic imaging techniques; engineering problems related to characterization of ultrasonic sources and arrays, image production, image quality, the role of contrast agents in ultrasonic imaging, and system design. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 329.

ECE 473 Fund of Engrg Acoustics credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/473/)
Development of the basic theoretical concepts of acoustical systems; mechanical vibration, plane and spherical wave phenomena in fluid media, lumped and distributed resonant systems, and absorption phenomena and hearing. Same as TAM 413. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: MATH 285 or MATH 286.

ECE 476 Power System Analysis credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/476/)
Development of power system equivalents by phase network analysis, load flow, symmetrical components, sequence networks, fault analysis, and digital simulation. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 330.

ECE 478 Formal Software Development Methods credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/478/)
Same as CS 477. See CS 477.

ECE 479 IoT and Cognitive Computing credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/479/)
Offers in-depth coverage on existing and emerging IoT and cognitive computing topics. Detailed topics include definition and characteristics of IoT; IoT enabling technologies; smart domains and applications; IoT systems; IoT design methodology; machine learning and deep learning; embedded GPU and FPGA for IoT; IoT servers and cloud; data analytics for IoT; cognitive computing; cognitive systems design; cognitive application workloads; IoT security; hands-on learning experience to build IoT systems; and various case studies such as smart city, smart home, and IoT for healthcare. Three lab-based machine problems working with actual IoT computing devices together with homework assignments will be given to reinforce students' understanding and learning of the techniques and topics. 4 undergraduate hours. 4 graduate hours. Prerequisite: CS 225 and ECE 385.

ECE 480 Magnetic Resonance Imaging credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/480/)
Fundamental physical, mathematical, and computational principles governing the data acquisition and image reconstruction of magnetic resonance imaging. Same as BIOE 480. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Recommended: ECE 310.

ECE 481 Nanotechnology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/481/)
Fundamental physical properties of nanoscale systems. Nanofabrication techniques, semiconductor nanotechnology, molecular and biomolecular nanotechnology, carbon nanotechnology (nanotubes and graphene), nanowires, and nanoscale architectures and systems. 4 undergraduate hours. 4 graduate hours. Prerequisite: One of CHEM 442, CHBE 457, ME 485, MSE 401, PHYS 460.

ECE 482 Digital IC Design credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/482/)
Bipolar and MOS field effect transistor characteristics; VLSI fabrication techniques for MOS and bipolar circuits; calculation of circuit parameters from the process parameters; design of VLSI circuits such as logic, memories, charge-coupled devices, and A/D and D/A converters. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 342.

ECE 483 Analog IC Design credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/483/)
Basic linear integrated circuit design techniques using bi-polar, JFET, and MOS technologies; operational amplifiers; wide-band feedback amplifiers; sinusoidal and relaxation oscillators; electric circuit noise; application of linear integrated circuits. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 342.

ECE 484 Principles of Safe Autonomy credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/484/)
Introduces techniques for building autonomous systems such as autonomous cars, delivery drones, and manufacturing robots, and techniques for performing their safety analysis. Covers key algorithms and approaches in perception, modeling, motion planning, control, and safety analysis, with a view towards understanding their basic assumptions and performance guarantees. Also provides exposure to some of the state-of-the-art software tools for control, simulation, and analysis. Students will get experience through labs, programming assignments, and they will perform hands-on laboratory work on the Polaris GEM autonomous vehicle platform. Course material is distilled from recent research papers; thus, there is no required textbook. 4 undergraduate hours. 4 graduate hours. Prerequisite: CS 124, ECE 220 or equivalent; ECE313, IE300, or STAT400. A course on data structures, algorithms, differential equations, and linear algebra is recommended.

ECE 485 MEMS Devices & Systems credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/485/)
Introduction to principles, fabrication techniques, and applications of microelectromechanical systems (MEMS). In-depth analysis of sensors, actuator principles, and integrated microfabrication techniques for MEMS. Comprehensive investigation of state-of-the-art MEMS devices and systems. Same as ME 485. 3 undergraduate hours. 3 graduate hours.
ECE 486  Control Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/486/)
Analysis and design of control systems with emphasis on modeling, state variable representation, computer solutions, modern design principles, and laboratory techniques. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 210.

ECE 487  Intro Quantum Electr for EEs  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/487/)
Application of quantum mechanical concepts to electronics problems; detailed analysis of a calculable two-state laser system; incidental quantum ideas bearing on electronics. 3 undergraduate hours. 3 graduate hours. Prerequisite: PHYS 485.

ECE 488  Compound Semicond & Devices  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/488/)
Advanced semiconductor materials and devices; elementary band theory; heterostructures; transport issues; three-terminal devices; two-terminal devices; including lasers and light modulators. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 340 and ECE 350.

ECE 489  Robot Dynamics and Control  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/489/)
Same as ME 446 and SE 422. See SE 422.

ECE 490  Introduction to Optimization  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/490/)
Basic theory and methods for the solution of optimization problems; iterative techniques for unconstrained minimization; linear and nonlinear programming with engineering applications. Same as CSE 441. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECE 220 and MATH 415.

ECE 491  Numerical Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/491/)
Same as CS 450, CSE 401 and MATH 450. See CS 450.

ECE 492  Parallel Progmmg: Sci & Engrg  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/492/)
Same as CS 420 and CSE 402. See CS 420.

ECE 493  Advanced Engineering Math  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/493/)
Same as MATH 487. See MATH 487.

ECE 495  Photonic Device Laboratory  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/495/)
Active photonic devices and lightwave technology. Hands-on experience with several classes of lasers (HeNe laser, semiconductor edge emitting lasers, vertical cavity surface emitting lasers), photodetectors, and photonic systems. Familiarization with experimental optical characterization techniques and equipment. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 487 recommended.

ECE 496  Senior Research Project  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/ECE/496/)
Individual research project under the guidance of a faculty member. For example, mathematical analysis, laboratory experiments, computer simulations, software development, circuit design, or device fabrication. Preparation of a written research proposal, including preliminary results. 2 undergraduate hours. No graduate credit. May be repeated. ECE 496 and ECE 499 taken in sequence fulfill the Advanced Composition Requirement. Prerequisite: RHET 105, consent of instructor.

This course satisfies the General Education Criteria for:
Advanced Composition

ECE 498  Special Topics in ECE  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/498/)
Subject offerings of new and developing areas of knowledge in electrical and computer engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. 0 to 4 undergraduate hours. 0 to 4 graduate hours. May be repeated in the same or separate terms if topics vary.

ECE 499  Senior Thesis  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/ECE/499/)
Completion of the research project begun under ECE 496. Preparation and oral presentation of a written thesis that reports the results of the project. 2 undergraduate hours. No graduate credit. To fulfill the Advanced Composition Requirement, credit must be earned for both ECE 496 and ECE 499. Prerequisite: ECE 496 and consent of instructor.

This course satisfies the General Education Criteria for:
Advanced Composition

ECE 500  ECE Colloquium  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ECE/500/)
Required of all graduate students. Approved for S/U grading only.

ECE 508  Manycore Parallel Algorithms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/508/)
Algorithm techniques for enhancing the scalability of parallel software: scatter vs. gather, problem decomposition, spatial sorting and binning, privatization for reduced conflicts, tiling for data locality, regularization for improved load balance, compaction to conserve memory bandwidth, double-buffering to overlap latencies, and data layout for improved efficiency of DRAM accesses. Same as CS 508. 4 graduate hours. No professional credit. Prerequisite: ECE 408 or CS 420.

ECE 511  Computer Architecture  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/511/)
Advanced concepts in computer architecture: design, management, and modeling of memory hierarchies; stack-oriented processors; associative processors; pipelined computers; and multiple processor systems. Emphasis on hardware alternatives in detail and their relation to system performance and cost. Same as CSE 521. Prerequisite: ECE 411 or CS 433.
ECE 512  Computer Microarchitecture credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/512/)
Design of high performance computer systems; instruction level concurrency; memory system implementation; pipelining, superscalar, and vector processing; compiler back-end code optimization; profile assisted code transformations; code generation and machine dependent code optimization; cache memory design for multiprocessors; synchronization implementation in multiprocessors; compatibility issues; technology factors; state-of-the-art commercial systems. Prerequisite: ECE 511 and CS 426.

ECE 513  Vector Space Signal Processing credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/513/)
Mathematical tools in a vector space framework, including: finite and infinite dimensional vector spaces, Hilbert spaces, orthogonal projections, subspace techniques, least-squares methods, matrix decomposition, conditioning and regularizations, bases and frames, the Hilbert space of random variables, random processes, iterative methods; applications in signal processing, including inverse problems, filter design, sampling, interpolation, sensor array processing, and signal and spectral estimation. Prerequisite: ECE 310, ECE 313, and MATH 415.

ECE 515  Control System Theory & Design credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/515/)
Feedback control systems emphasizing state space techniques. Basic principles, modeling, analysis, stability, structural properties, optimization, and design to meet specifications. Same as ME 540. Prerequisite: ECE 486.

ECE 517  Nonlinear & Adaptive Control credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/517/)
Design of nonlinear control systems based on stability considerations; Lyapunov and hyperstability approaches to analysis and design of model reference adaptive systems; identifiers, observers, and controllers for unknown plants. Prerequisite: ECE 515.

ECE 518  Adv Semiconductor Nanotech credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/518/)
Semiconductor nanotechnology from the formation and characterization of low-dimensional structures to device applications. Compound semiconductors, epitaxial growth, quantum dots, nanowires, membranes, strain effect, quantum confinement, surface states, 3D transistors, nanolasers, multijunction tandem solar cells, and nanowire thermoelectrics. Handouts are supplemented with papers from the research literature. Critical literature review assignments, research proposals in National Science Foundation format, and oral presentations are required. Prerequisites: ECE 340, ECE 444, and ECE 481.

ECE 519  Hardware Verification credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/519/)
This course teaches algorithms for verification that are applied to very large scale hardware in the chip design industry. The course teaches symbolic model checking, Binary decision diagrams (BDDs), satisfiability (SAT) based algorithms, symbolic simulation, coverage metrics for simulation, automatic assertion generation, analog circuit verification and post Silicon validation algorithms. The course teaches scalable search algorithms that can be applied to discrete and continuous space models. Same as CS 585. 4 graduate hours. No professional credit.

ECE 520  EM Waves & Radiating Systems credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/520/)
Fundamental electromagnetic theory with applications to plane waves, waveguides, cavities, antennas, and scattering; electromagnetic principles and theorems; and solution of electromagnetic boundary-value problems.

ECE 522  Emerging Memory and Storage Systems credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/522/)
We will discuss advanced techniques for building memory and storage systems. It will cover a variety of recent research topics centered around memory and storage systems, including the new and emerging hardware architecture, systems software, memory-centric applications, near-data computing, rack-scale storage, storage security and reliability, mobile/wearable/IoT storage, and storage at rack scale. Through this course, students will learn not only the fundamental concepts of memory and storage systems via the lecture materials, but also the hands-on experience of building and evaluating a memory/storage-centric system via projects. 4 graduate hours. No professional credit. Prerequisite: ECE 391, ECE 411/CS 433 or equivalent courses.

ECE 523  Plasma Technology of Gaseous Electronics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/523/)
Same as NPRE 527. See NPRE 527.

ECE 524  Advanced Computer Security credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/524/)
Same as CS 563. See CS 563.

ECE 526  Distributed Algorithms credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/526/)
Theoretical aspects of distributed algorithms, with an emphasis on formal proofs of correctness and theoretical performance analysis. Algorithms for consensus, clock synchronization, mutual exclusion, debugging of parallel programs, peer-to-peer networks, and distributed function computation; fault-tolerant distributed algorithms; distributed algorithms for wireless networks. Same as CS 539. 4 graduate hours. No professional credit. Prerequisite: One of CS 473, ECE 428, ECE 438.

ECE 527  System-On-Chip Design credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/527/)
System-on-chip (SOC) design methodology and IP (intellectual property) reuse, system modeling and analysis, hardware/software co-design, behavioral synthesis, embedded software, reconfigurable computing, design verification and test, and design space exploration. Class projects focusing on current SOC design and research. Platform FPGA boards and digital cameras are provided to prototype, test, and evaluate SOC designs. Prerequisite: ECE 391 and ECE 425.

ECE 528  Analysis of Nonlinear Systems credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/528/)
Nonlinear dynamics, vector fields and flows, Lyapunov stability theory, regular and singular perturbations, averaging, integral manifolds, input-output and input-to-state stability, and various design applications in control systems and robotics. Same as ME 546 and SE 520. 4 graduate hours. No professional credit. Prerequisite: ECE 515 and MATH 444 or MATH 447.

Information listed in this catalog is current as of 01/2022
ECE 530 Large-Scale System Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/530/)
Fundamental techniques for the analysis of large-scale electrical systems, including methods for nonlinear and switched systems. Emphasis on the importance of the structural characteristics of such systems. Key aspects of static and dynamic analysis methods. Prerequisite: ECE 464 and ECE 476.

ECE 531 Theory of Guided Waves  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/531/)
Propagation of electromagnetic waves in general cylindrical waveguides; stationary principles; non-uniform inhomogeneously filled waveguides; mode and power orthogonality, losses in waveguides; analytical and numerical techniques; microwave integrated circuits waveguides; optical waveguides. Prerequisite: ECE 520. Recommended: MATH 556.

ECE 532 Compnd Semicond & Diode Lasers  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/532/)
Compound semiconductor materials and their optical properties. Diode lasers including quantum well heterostructure lasers, strained layer lasers, and quantum wire and quantum dot lasers. Current topics in diode laser development. Prerequisite: ECE 340 and PHYS 486. Recommended: ECE 455; credit or concurrent registration in ECE 536.

ECE 534 Random Processes  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/534/)
Basic concepts of random processes; linear systems with random inputs; Markov processes; spectral analysis; Wiener and Kalman filtering; applications to systems engineering. Prerequisite: One of ECE 313, MATH 461, STAT 400.

ECE 535 Theory of Semicond & Devices  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/535/)
Introductory quantum mechanics of semiconductors; energy bands; dynamics of Bloch electrons in static and high-frequency electric and magnetic fields; equilibrium statistics; transport theory, diffusion, drift, and thermoelectric effects; characteristics of p-n junctions, heterojunctions, and transistor devices. Same as PHYS 556. Prerequisite: Senior-level course in quantum mechanics or atomic physics.

ECE 536 Integ Optics & Optoelectronics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/536/)
Integrated optical and optoelectronic devices; theory of optical devices including laser sources, waveguides, photodetectors, and modulations of these devices. Prerequisite: One of ECE 455, ECE 487, PHYS 486. Recommended: ECE 488.

ECE 537 Speech Processing Fundamentals  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/537/)
Development of an intuitive understanding of speech processing by the auditory system, in three parts. I): The theory of acoustics of speech production, introductory acoustic phonetics, inhomogeneous transmission line theory (and reflectance), room acoustics, the short-time Fourier Transform (and its inverse), and signal processing of speech (LPC, CELP, VQ). II): Psychoacoustics of speech perception, critical bands, masking (JNDS), and the physiology of the auditory pathway (cochlear modeling). III): Information theory entropy, channel capacity, the confusion matrix, state models, EM algorithms, and Bayesian networks. Presentation of classic papers on speech processing and speech perception by student groups. MATLAB (or equivalent) programming in majority of assignments. Prerequisite: ECE 310.

ECE 538 2D Material Electronics and Photonics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/538/)
Explores the electronic and photonic devices based on two-dimensional (2D) materials. More specifically, this course will discuss the synthesis and characterization of a variety of 2D materials. This course will also introduce the design, fabrication and physics of various nanoscale devices, including logic transistors, radio frequency devices, tunneling devices, photodetectors, plasmonic devices, lasers and valleytronic devices. The lab sessions will provide the students hands-on experience on the fabrication and characterization of 2D electronic/photonic devices. The lab sessions will be carried out in the nanofabrication laboratory in ECEB. 4 graduate hours. No professional credit. Prerequisite: ECE 340 or equivalent.

ECE 539 Adv Theory Semicond & Devices  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/539/)
Advanced topics of current interest in the physics of semiconductors and solid-state devices. Prerequisite: ECE 535.

ECE 540 Computational Electromagnetics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/540/)
Basic computational techniques for numerical analysis of electromagnetics problems, including the finite difference, finite element, and moment methods. Emphasis on the formulation of physical problems into mathematical boundary-value problems, numerical discretization of continuous problems into discrete problems, and development of rudimentary computer codes for simulation of electromagnetic fields in engineering problems using each of these techniques. Same as CSE 530. Prerequisite: CS 357; credit or concurrent registration in ECE 520.

ECE 541 Computer Systems Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/541/)
Development of analytical models of computer systems and application of such models to performance evaluation: scheduling policies, paging algorithms, multiprogrammed resource management, and queuing theory. Same as CS 541. Prerequisite: One of ECE 313, MATH 461, MATH 463.

ECE 542 Fault-Tolerant Dig Syst Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/542/)
Advanced concepts in hardware and software fault tolerance: fault models, coding in computer systems, module and system level fault detection mechanism, reconfiguration techniques in multiprocessor systems and VLSI processor arrays, and software fault tolerance techniques such as recovery blocks, N-version programming, checkpointing, and recovery; survey of practical fault-tolerant systems. Same as CS 536. Prerequisite: ECE 411.

ECE 543 Statistical Learning Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/543/)
Advanced graduate course on modern probabilistic theory of adaptive and learning systems. The following topics will be covered; basics of statistical decision theory; concentration inequalities; supervised and unsupervised learning; empirical risk minimization; complexity-regularized estimation; generalization bounds for learning algorithms; VC dimension and Rademacher complexities; minimax lower bounds; online learning and optimization. Along with the general theory, the course will discuss applications of statistical learning theory to signal processing, information theory, and adaptive control. Basic prerequisites include probability and random processes, calculus, and linear algebra. Other necessary material and background will be introduced as needed. 4 graduate hours. No professional credit. Prerequisite: ECE 534 or equivalent.
ECE 544 Topics in Signal Processing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/544/)
Lectures and discussions related to advanced topics and new areas of interest in signal processing: speech, image, and multidimensional processing. May be repeated 8 hours in a term to a total of 20 hours. Credit towards a degree from multiple offerings of this course is not given if those offerings have significant overlap, as determined by the ECE department. Prerequisite: As specified each term. It is expected that each offering will have a 500-level course as prerequisite or co-requisite.

ECE 545 Advanced Physical Acoustics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/545/)
Advanced topics in acoustics including physical properties of a fluid; linear propagation phenomena; nonlinear phenomena such as radiation force, streaming, and harmonic generation; cavitation; absorption and dispersion. Prerequisite: One of ECE 473, ECE 520, TAM 518.

ECE 546 Advanced Signal Integrity  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/546/)
Signal integrity aspects involved in the design of high-speed computers and high-frequency circuits; addressing the functions of limitations of interconnects for system-level integration. Topics explored include packaging structures, power and signal distribution, power level fluctuations, skin effect, parasites, noise, packaging hierarchy, multilayer wiring structures as well as the modeling and simulation of interconnects through the use of computer-aided design (CAD) and computational electromagnetics. Prerequisite: ECE 520.

ECE 547 Topics in Image Processing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/547/)
Fundamental concepts, techniques, and directions of research in image processing: two-dimensional Fourier transform and filtering, image digitization, coding, restoration, reconstruction, analysis, and recognition. Same as MSE 547. Prerequisite: ECE 448 or CS 225.

ECE 548 Models of Cognitive Processes  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/548/)
Same as PSY 548. See CS 548.

ECE 549 Computer Vision  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/549/)
Information processing approaches to computer vision, algorithms, and architectures for artificial intelligence and robotics systems capable of vision: inference of three-dimensional properties of a scene from its images, such as distance, orientation, motion, size and shape, acquisition, and representation of spatial information for navigation and manipulation in robotics. Same as CS 548. Prerequisite: ECE 448 or CS 225.

ECE 550 Advanced Robotic Planning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/550/)
Computational approaches to robot motion planning, configuration space, algebraic decompositions, artificial potential fields, retraction, approximate decompositions, planning under uncertainty, grasp planning, and task-level planning. Same as AE 583. Prerequisite: ECE 470.

ECE 551 Digital Signal Processing II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/551/)
Basic concept review of digital signals and systems; computer-aided digital filter design, quantization effects, decimation and interpolation, and fast algorithms for convolution and the DFT; introduction to adaptive signal processing. Prerequisite: ECE 310 and ECE 313.

ECE 552 Numerical Circuit Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/552/)
Formulation of circuit equations; sparse matrix algorithms for the solution of large systems, AC, DC, and transient analysis of electrical circuits; sensitivity analysis; decomposition methods. Same as CSE 532. Prerequisite: MATH 415 and ECE 210.

ECE 553 Optimum Control Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/553/)
Theoretical and algorithmic foundations of deterministic optimal control theory, including calculus of variations, maximum principle, and principle of optimality; the Linear-Quadratic-Gaussian design; differential games and H-infinity optimal control design. Prerequisite: ECE 313 and ECE 515.

ECE 554 Dynamic System Reliability  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/554/)
Reliability and dynamic performance evaluation for large-scale and complex systems; building on system-theoretic modeling, analysis, and design techniques. Design methods for reliability including architecture design and filter-based fault detection and isolation. Analytical methods for optimal redundancy allocation, sensitivity analysis methods for iterative system design, and other techniques for design optimization. Mechatronic systems used in aircraft and automotive, power electronic systems, and electrical power systems are examples of applications discussed. Same as ME 544. Prerequisite: ECE 313 and ECE 515, or permission of instructor.

ECE 555 Control of Stochastic Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/555/)
Stochastic control models; development of control laws by dynamic programming; separation of estimation and control; Kalman filtering; self-tuning regulators; dual controllers; decentralized control. Prerequisite: ECE 515 and ECE 534.

ECE 556 Coding Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/556/)
Coding theory with emphasis on the algebraic theory of cyclic codes using finite field arithmetic, decoding of BCH and RS codes, finite field Fourier transform and algebraic geometry codes, convolutional codes, and trellis decoding algorithms. Prerequisite: MATH 417.

ECE 557 Geometric Control Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/557/)
Graduate course on mathematical theory of control and optimization, with a focus on geometric and topological methods. The following topics will be covered: introduction to the basics of differential geometric, Riemannian geometry, algebraic topology and Lie group theory. Control systems on manifolds. Controllability and observability of nonlinear systems. Optimization on manifolds and Lie groups and their applications in signal processing and learning. Control of non-holonomic systems and mechanical systems, rigid body dynamics. Optimal control on manifolds and Lie groups. Feedback linearization and feedback invariants. Introduction to quantum control. 4 graduate hours. No professional credit. Prerequisite: ECE 515 or equivalent is required. A course on state-space control theory, multivariable calculus, linear algebra and overall mathematical maturity are recommended.
ECE 558 Digital Imaging  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/558/)
Multidimensional signals, convolution, transforms, sampling, and interpolation; design of two-dimensional digital filters; sensor array processing and
range-doppler imaging; applications to synthetic aperture radar, optics, tomography, radio astronomy, and beam-forming sonar; image estimation from
partial data. Prerequisite: ECE 310 and ECE 313.

ECE 559 Topics in Communications  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/559/)
Lectures and discussion related to advanced topics and new areas of interest in the theory of communication systems: information theory, coding
theory, and communication network theory. May be repeated in the same term, if topics vary, to a maximum of 12 graduate hours; may be repeated in
separate terms, if topics vary, to a maximum of 16 graduate hours. Credit toward a degree from multiple offerings of this course is not given if those
offerings have significant overlap, as determined by the ECE department. Prerequisite: As specified each term. (It is expected that each offering will
have a 500-level course as a prerequisite or co-requisite.).

ECE 560 VLSI in DSP & Communication  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/560/)
Basic concepts in digital signal processing, VLSI design methodologies, VLSI DSP building blocks; algorithm transformation and mapping
techniques, high-speed, low-power transformations, applications to digital filtering; basics of finite-field arithmetic, forward-error correction algorithms, and
architectures; DSP implementation platforms, programmable DSPs, media processors, FPGAs, ASICs, case studies of multimedia communications
systems, video codecs, xDSL, and cable modems. Homework and a term project apply these concepts in the design of VLSI architectures for digital
signal processing and communication systems. Prerequisite: ECE 310.

ECE 561 Statistical Inference for Engineers and Data Scientists  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/561/)
Fundamental principles of statistical decision theory and their application to hypothesis testing and estimation; classical optimality criteria for
decision rules; computationally efficient implementations; sequential decision-making; performance analysis; asymptotic properties and performance
of decision rules. 4 graduate hours. No professional credit. Prerequisite: ECE 534.

ECE 562 Advanced Digital Communication  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/562/)
Digital communication systems modulation, demodulation, signal space methods, channel models, bit error rate, spectral occupancy, synchronization,
equalization, trellis-coded modulation, wireless channels, multiantenna systems, spread spectrum, and orthogonal frequency modulation. 4 graduate
hours. No professional credit. Prerequisite: ECE 461 or ECE 459.

ECE 563 Information Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/563/)
Mathematical models for channels and sources; entropy, information, data compression, channel capacity, Shannon's theorems, and rate-distortion
theory. Prerequisite: One of ECE 534, MATH 464, MATH 564.

ECE 564 Modern Light Microscopy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/564/)
Current research topics in modern light microscopy: optics principles (statistical optics, Gaussian optics, elastic light scattering, dynamic light
scattering); traditional microscopy (bright field, dark field, DIC, phase contract, confocal, epi-fluorescence, confocal fluorescence); current research
topics (multiphoton, CARS, STED, FRET, FIONA, STORM, PALM, quantitative phase). Prerequisite: One of ECE 460, MSE 405, PHYS 402.

ECE 566 Computational Inference and Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/566/)
Computational inference and machine learning have seen a surge of interest in the last 15 years, motivated by applications as diverse as computer
vision, speech recognition, analysis of networks and distributed systems, big-data analytics, large-scale computer simulations, and indexing and
searching of very large databases. This course introduces the mathematical and computational methods that enable such applications. Topics
include computational methods for statistical inference, sparsity analysis, approximate inference and search, and fast optimization. 4 graduate hours.
No professional credit. Prerequisite: ECE 490, ECE 534.

ECE 567 Communication Network Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/567/)
Performance analysis and design of multiple-user communication systems; emphasis on rigorous formulation and analytical and computational
methods; includes queuing networks, decentralized minimum delay routing, and dynamic network flow control. Prerequisite: CS 438; one of ECE 534,
MATH 464, MATH 564.

ECE 568 Model & Ctrl Electromech Syst  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/568/)
Fundamental electrical and mechanical laws for derivation of machine models; simplifying transformations of variables in electrical machines;
power electronics for motor control; time-scale separation; feedback linearization and nonlinear control as applied to electrical machines. Typical
electromechanical applications in actuators, robotics, and variable speed drives. Prerequisite: ECE 431 and ECE 515.

ECE 569 Inverse Problems in Optics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/569/)
Physical optics, solution of linear inverse problems, and computed imaging. Forward problems in diffraction, asymptotics, ray propagation, x-ray
projections, scattering, sources, optical coherence tomography, and near-field optics. Solution of associated inverse problems including back-
propagation, back-projection, Radon transforms (x-ray CT), inverse scattering, source localization, interferometric synthetic aperture microscopy, and
near-field tomography. Special topics as time permits. Prerequisite: ECE 460.

ECE 570 Nonlinear Optics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/570/)
Light propagation in anisotropic crystals; second- and third-order nonlinear susceptibility and electro-optic effect; discussion of the relationship of
these effects along with such applications as light modulation, harmonic generation, and optical parametric amplification and oscillation. Prerequisite:
ECE 520.
ECE 571  EM Waves in Inhomogen Media  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/571/)
Electromagnetic waves in layered media; plane wave expansion of electromagnetic point source field; Sommerfeld integrals; transient response; WKB method with asymptotic matching; scattering by junction discontinuity; surface integral equation; volume integral equation; inverse problems. Prerequisite: MATH 446 or PHYS 505.

ECE 572  Quantum Opto-Electronics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/572/)
Theoretical approach to quantum mechanics and atomic physics, with many applications in spin resonance and modern maser theory. Prerequisite: PHYS 485 recommended.

ECE 573  Power System Control  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/573/)
Energy control center functions, state estimation and steady state security assessment techniques, economic dispatch, optimal power flow, automatic generation control, and dynamic equivalents. Prerequisite: ECE 476; credit or concurrent registration in ECE 530.

ECE 574  Nanophotonics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/574/)
Nanoscale interaction between light and semiconductors, metals, or composites; plasmonics, cavity electrodynamics, polarization cavity condensation, sub-wavelength structures, metamaterials, and applications. Prerequisite: ECE 455 or ECE 572; ECE 487 or PHYS 486.

ECE 576  Power System Dynm & Stability  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/576/)
Detailed modeling of the synchronous machine and its controls, such as excitation system and turbine-governor dynamics; time-scales and reduced order models; non-linear and linear multi-machine models; stability analysis using energy functions; power system stabilizers. Prerequisite: ECE 476; credit or concurrent registration in ECE 530.

ECE 577  Advanced Antenna Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/577/)
Selected topics from recent engineering literature on antennas supplemented by advanced topics in electromagnetic theory needed for comprehension; current techniques for analysis of wire, slot, horn, frequency independent, quasi-optical, and array antennas. Prerequisite: ECE 520.

ECE 579  Computational Complexity  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/579/)
Same as CS 579. See CS 579.

ECE 580  Optimiz by Vector Space Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/580/)
Normed, Banach, and Hilbert spaces; applications of the projection theorem and the Hahn-Banach Theorem to problems of minimum norm, least squares estimation, mathematical programming, and optimal control; the Kuhn-Tucker Theorem and Pontryagin’s maximum principle; iterative methods. Prerequisite: MATH 415 or MATH 482; MATH 447.

ECE 581  Advanced Analog IC Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/581/)
Advanced topics in modern analog IC design. Emphasis on CMOS building blocks and circuit techniques as a result of fabrication technology advancement. Noise in linear analog circuits; linear feedback theory and stability; harmonic distortion in weakly nonlinear circuits; switched-capacitor circuit technique and realization; Nyquist-rate and oversampled data converters. Extensive computer simulations required in both homework and final project. Prerequisite: ECE 310 and ECE 483.

ECE 582  Physical VLSI Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/582/)
Basic physical design requirements for VLSI; performance-oriented formulation and optimization of chip partitioning, module placement and interconnection; optimized design and layout of on-chip modules; circuit extraction; high-speed VLSI circuits; yield and reliability analysis; advanced VLSI packaging and parametric testing. Prerequisite: ECE 425 or ECE 482.

ECE 584  Embedded System Verification  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/584/)
Examines formal analysis and synthesis approaches for discrete, continuous, and hybrid models of computing systems and their physical environment. Introduces timed and hybrid automata models. Analysis techniques including model checking, Hoare-style deduction, and abstractions for safety and stability, and controller synthesis strategies with applications in distributed robotics, automobile system, traffic control, and real-time systems. Same as CS 584. 4 graduate hours. No professional credit. Prerequisite: MATH 257 or equivalent.

ECE 585  MOS Device Modeling & Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/585/)
Techniques for characterizing gate oxide and interface properties and reliability, I-V models for circuit simulation, design for control of short channel effects, silicon-on-insulator, and new device structures. Prerequisite: ECE 441.

ECE 586  Topics in Decision and Control  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/586/)
Lectures and discussions related to advanced topics and new areas of interest in decision and control theory; hybrid, sampled-data, and fault tolerant systems; control over networks; vision-based control; system estimation and identification; dynamic games. May be repeated up to 12 hours within a term, and up to 20 hours total for the course. Credit towards a degree from multiple offerings of this course is not given if those offerings have significant overlap, as determined by the ECE department. Prerequisite: As specified each term. It is expected that each offering will have a 500-level course as prerequisite or corequisite.

ECE 588  Electricity Resource Planning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/588/)
Techniques in electricity resource planning including methodologies for reliability evaluation and assessment, production costing, marginal costing, supply-side and demand-side planning, integrated planning, and planning under competition. Prerequisite: MATH 415, ECE 313, and ECE 476.

ECE 590  Graduate Seminar in Special Topics  credit: 0 to 1 Hours. (https://courses.illinois.edu/schedule/terms/ECE/590/)
Lectures and discussions on current research and literature on advanced topics in electrical engineering. 0 to 1 graduate hours. No professional credit. Approved for S/U grading only. May be repeated to a maximum of 1 hour in the same semester to a maximum of 4 credit hours in separate semesters, if topics vary. Prerequisite: Consent of instructor.
ECE 594  Math Models of Language  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/594/](https://courses.illinois.edu/schedule/terms/ECE/594/))
Mathematical models of linguistic structure and their implementation in computational algorithms used in automatic speech understanding and speech synthesis. Statistical and automata-theoretic techniques are studied allowing a quantitative description of acoustic-phonetics, phonology, phonotactics, lexicons, syntax, and semantics. The methods are used to build components of a speech understanding system. For 4 hours credit, an extended project is required. Prerequisite: ECE 537.

ECE 596  Master's Project  credit: 1 to 8 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/596/](https://courses.illinois.edu/schedule/terms/ECE/596/))
Individual or team projects in electrical and computer engineering emphasizing advanced engineering analysis and design. May be repeated to a maximum of 16 hours.

ECE 597  Individual Study in ECE  credit: 1 to 8 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/597/](https://courses.illinois.edu/schedule/terms/ECE/597/))
Individual projects. Approved written application to department as specified by department or instructor is required. May be repeated. Prerequisite: Consent of instructor.

ECE 598  Special Topics in ECE  credit: 0 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/598/](https://courses.illinois.edu/schedule/terms/ECE/598/))
Subject offerings of new and developing areas of knowledge in electrical and computer engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. May be repeated in the same or separate terms if topics vary.

ECE 599  Thesis Research  credit: 0 to 16 Hours. ([https://courses.illinois.edu/schedule/terms/ECE/599/](https://courses.illinois.edu/schedule/terms/ECE/599/))
Approved for S/U grading only. May be repeated.
ECON - Economics

ECON Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ECON/)

Courses

ECON 101  Introduction to Economics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/101/)
General survey of the operation of the economic system; emphasizes the determination of the level of national income, the pricing and allocation of products, and factors of production under existing conditions in the United States. This is an honors course limited to students currently enrolled in the Chancellor's Scholar Program. Credit is not given for ECON 101 if credit has been earned in both ECON 102 and ECON 103.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

ECON 102  Microeconomic Principles  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECON/102/)
Introduction to the functions of individual decision-makers, both consumers and producers, within the larger economic system. Primary emphasis on the nature and functions of product markets, the theory of the firm under varying conditions of competition and monopoly, and the role of government in prompting efficiency in the economy. Credit is not given for ECON 102 and ACE 100.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

ECON 103  Macroeconomic Principles  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECON/103/)
Introduction to the theory of determination of total or aggregate income, employment, output, price levels, and the role of money in the economy. Primary emphasis on monetary and fiscal policy, inflation, unemployment, economic growth, and international economics.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

ECON 198  Economics at Illinois  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ECON/198/)
An introductory course intended to help students explore the various fields of economics. Presents brief introductions to various faculty members within the Department of Economics at Illinois and an overview of their respective fields. Enrollment limited to undergraduate Economics majors only. Approved for S/U grading only.

ECON 199  Undergraduate Open Seminar  credit: 0 to 5 Hours. (https://courses.illinois.edu/schedule/terms/ECON/199/)
Approved for both letter and S/U grading. May be repeated.

ECON 202  Economic Statistics I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECON/202/)
Introduction of basic concepts in statistics including the presentation of data, descriptive statistics, probability theory, discrete and continuous distributions, sampling distributions, estimation, and hypothesis testing. The approach of the class includes both learning the concepts behind basic statistics and also how to apply these concepts in "real-life" situations. Utilizes a practical project format. To complete the Business Statistics sequence, students must also complete ECON 203. Credit is not given for ECON 202 if credit for a college-level introductory statistics course such as PSYC 235, SOC 280, or STAT 100 has been earned. Prerequisite: Credit or registration in one of MATH 220, MATH 221, MATH 234.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

ECON 203  Economic Statistics II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECON/203/)
Continuation of ECON 202. Builds upon point and interval estimation as well as hypothesis testing skills first introduced in ECON 202. Utilizes a practical project format to extend the student skill set to include simple and multiple linear regression and time series techniques. Students will: Understand the relevance of statistics in their future course-work and professions; Be trained to identify the proper statistical technique to apply to a problem; Be adept at finding the answers to statistical queries using excel; Be able to properly interpret the results of their analysis. Students must have completed a course on probability and statistical analysis before taking ECON 203. The best course to meet this requirement is ECON 202 at the University of Illinois. Prerequisite: ECON 202; one of MATH 220, MATH 221, or MATH 234.

ECON 210  Environmental Economics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECON/210/)
Same as ACE 210, ENVS 210, NRES 210, and UP 210. See ACE 210.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

ECON 220  Int'l Economic Principles  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECON/220/)
Principles-level course in international economics for non-majors. The first half of course, international trade, covers such topics as comparative advantage, protectionism (tariuff and nontariff), impact on income distribution, and industrial policies. The second half, international finance, covers topics such as balance of payments, exchange-rate determination, currency crises, dollarization, and macroeconomic policy in an open economy. Issues relating to globalization will be covered in both halves. Prerequisite: ECON 101; or ECON 102 (or ACE 100) and ECON 103. Credit in ECON 220 is not applicable toward graduation in the Economics Major.

ECON 302  Inter Microeconomic Theory  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECON/302/)
Microeconomic analysis including value and distribution theory; analysis of the pricing of the factors of production integrated in a micro-general equilibrium context which builds towards explaining the resource allocation process. Prerequisite: ECON 102 or equivalent. MATH 220, MATH 221, MATH 234 or equivalent.
ECON 303  Inter Macroeconomic Theory  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECON/303/)
The modern theory of the determination of the level and rate of growth of income, employment, output, and the price level; discusses alternate fiscal and monetary policies to facilitate full employment and economic growth. Prerequisite: ECON 102; ECON 103; and one of MATH 220, MATH 221, MATH 234.

ECON 397  Senior Research I  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/397/)
Research and readings course for students majoring in economics; may be taken by students in the college honors program in partial fulfillment of the honors requirements. Prerequisite: Cumulative grade-point average of 3.0 or honors in the junior year, or consent of instructor; senior standing.

ECON 398  Senior Research II  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/398/)
Research and readings course for students majoring in economics; may be taken by students in the college honors program in partial fulfillment of the honors requirements. Prerequisite: Cumulative grade-point average of 3.0 or honors in the junior year; senior standing.

ECON 399  Advanced Undergraduate Open Seminar  credit: 0 to 8 Hours. (https://courses.illinois.edu/schedule/terms/ECON/399/)
Independent study course covering topics not treated by regular course offerings. This class does not satisfy departmental graduation requirements. Approved for Letter and S/U grading. May be repeated to a maximum of 8 hours. Prerequisite: Junior or senior standing; ECON 302; ECON 202.

ECON 402  American Economic History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECON/402/)
Survey of the history of the American economy from the colonial era to the present. Studies the features and development of the American economy and examines the watershed events that have transformed it over its history. 3 undergraduate hours. No graduate credit. Prerequisite: ECON 202; ECON 302; MATH 220/221 or other Calculus course are required.

ECON 411  Public Sector Economics  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/411/)
Economic analysis of government tax and expenditure policies; topics include public good and externality theory, public choice theory, income distribution, cost-benefit analysis, principles of taxation, tax incidence, economic effects and optimal structures of major taxes, and taxation in developing economies. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 302 or consent of instructor.

ECON 413  The Nonprofit Economy  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/413/)
Many economic activities do not appear to maximize profits. Many businesses engage in corporate social responsibility, and governments and individuals give away resources. Nonprofit organizations make up a large and growing share of the economy. This course uses economics to understand these activities and evaluate policies that influence them. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220/MATH 221 or other Calculus course are required.

ECON 414  Urban Economics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/414/)
Analyzes the urban economy. Topics include: economic reasons for the existence of cities; the theory of urban spatial structure; the effects of taxation on housing decisions; the economics of freeway congestion; economics analysis of local public goods and services; economic analysis of rent control, slum policies and land-use controls. Same as FIN 414. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ECON 302.

ECON 415  Environmental Economics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/415/)
Application of economic theory to topical issues such as pollution, climate change, and the environmental impacts of overpopulation. Both market-based and regulatory solutions to these problems are discussed. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220/MATH 221 or other Calculus course.

ECON 417  Cost-Benefit Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/417/)
Analyzes changes in welfare in various market settings such as monopolistic and perfectly competitive markets. Students will develop the skills to account for uncertainty when weighing the costs and benefits of a project or policy, as well as its potential distributional effects. Also examines the strategies used by governments to select from alternative policies, and how assets are purchased or sold in order to implement the policy. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220 or MATH 221 or other Calculus course are required. ECON 203 is recommended.

ECON 418  Health Economics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/418/)
Introduction to the economics of the U.S. health care system. Analyzes the supply of and demand for health care, building upon models of consumer, producer, and insurer behavior. Covers public policy, including regulation and provision of services to the poor and elderly. Emphasizes empirical evidence on these topics. 3 undergraduate hours. 4 graduate hours. Credit is not given for ECON 482 and ECON 418. Prerequisite: ECON 202; ECON 302; MATH 220 or MATH 221 or other calculus course are required.

ECON 420  International Economics  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/420/)
Introduction to the theory of international trade and finance with selected application to current problems of trade policy, balance of payments adjustment, the international monetary system, and globalization issues. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 302 or equivalent, or consent of instructor; ECON 303 is recommended.

ECON 425  Macroeconomic Policy  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/425/)
Analyzes current macroeconomic policy issues, problems, and techniques; discusses various policy techniques including monetary, fiscal, incomes, and exchange rate policies, and their effectiveness for treating inflation, unemployment, productivity, resource and exchange rate problems. May emphasize current issues in developed economies or in emerging market economies. 3 undergraduate hours. 4 graduate hours. Credit is not given for ECON 462 and ECON 425. Prerequisite: ECON 203; ECON 302; ECON 303; MATH 220 or MATH 221 are required. MATH 231 is recommended. Prior exposure to financial markets is encouraged.
ECON 426  Monetary Economics and Policy  credit: 3 or 4 Hours.
(https://courses.illinois.edu/schedule/terms/ECON/426/)
Study of a variety of topics on money, banking, and financial markets. In particular, provides an introduction to money and its role in the economy, the bond market and interest rates, the stock market and other financial assets, exchange rates, banks and regulation of the banking industry, the money supply process and monetary policy. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 303; MATH 231 are required. ECON 302 is recommended; Prior exposure to financial markets is also encouraged.

ECON 436  Economics of Coordination  credit: 3 or 4 Hours.
(https://courses.illinois.edu/schedule/terms/ECON/436/)
Builds on theories and applications of intermediate microeconomics. Topics covered include: the importance of models, the basic principles and concepts of economics, game theory and evolutionary game theory, the role of markets and government and the role of other institutions in general, the role of information, competition, the problems of collective action, and coordination problems. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 302; MATH 220/ MATH 221 or Calculus I equivalent.

ECON 437  Game Theory  credit: 3 or 4 Hours.
(https://courses.illinois.edu/schedule/terms/ECON/437/)
Explores game theory and strategic decision making. Game theory is the study of strategic interaction where one person's actions affect the actions of others. Introduces students to the tools for modeling and solving problems with strategic interaction. Will cover topics such as Nash equilibrium, dominance, voting, bargaining, auction, adverse selection, each of which have broad applications in economics, politics, psychology, and everyday life. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220/MATH 221 are required. ECON 203; MATH 231 are recommended.

ECON 440  Economics of Labor Markets  credit: 2 to 4 Hours.
(https://courses.illinois.edu/schedule/terms/ECON/440/)
Studies the microeconomic determinants of labor demand and supply, economic effects of unions, and macroeconomic labor market problems. Same as LER 440. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 302 or equivalent.

ECON 442  Women in the Economy  credit: 3 Hours.
(https://courses.illinois.edu/schedule/terms/ECON/442/)
Applies economic models of the labor market and household organization to a wide range of important topics, including marriage, fertility, discrimination, and family policies to better understand both personal life choices and public policy problems. 3 undergraduate hours. No graduate credit. Prerequisite: ECON 203; ECON 302; MATH 220 or 221 or other Calculus I equivalent; completion of campus Composition I general education requirement. This course satisfies the General Education Criteria for:
Advanced Composition

ECON 447  Economics of the Workplace  credit: 3 or 4 Hours.
(https://courses.illinois.edu/schedule/terms/ECON/447/)
Application of economic theory to the relationship between workers and firms in the workplace. We will apply important economic concepts and models to issues including recruitment, personnel selection, employee training, managing turnover, job design, performance evaluation, and incentive compensation. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220/MATH 221 or other Calculus course.

ECON 448  Employee Compensation and Incentives  credit: 3 or 4 Hours.
(https://courses.illinois.edu/schedule/terms/ECON/448/)
Employee compensation is a critical tool for organizations to attract, retain, and motivate its employees. Students will be introduced to major principles in compensation design and will examine the incentives embedded in various compensation systems. The topics include forms of pay, incentive theory, pay structure, pay-for-performance, and employee benefits. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220/MATH 221 or other Calculus course.

ECON 450  Development Economics  credit: 2 to 4 Hours.
(https://courses.illinois.edu/schedule/terms/ECON/450/)
Analyses the economic problems associated with newly developing nations; emphasizes their economic structures, their factor scarcities, and their programs for development. Not open for graduate credit to graduate candidates in economics. 3 undergraduate hours. 2 or 4 graduate hours. Graduate credit is not given for both ECON 450 and ECON 550 or ECON 551. Prerequisite: ECON 102 and ECON 103 or equivalent. ECON 302 strongly recommended.

ECON 451  Program Evaluation in Developing Economies  credit: 3 or 4 Hours.
(https://courses.illinois.edu/schedule/terms/ECON/451/)
Advanced economics course on microeconomic issues in developing countries with particular attention to empirical analyses and methodologies to address fundamental theoretical and policy relevant questions. Focus is on topics within health and education, although papers may cover other topics. An original empirical research paper is required, applying ideas and concepts covered in class. Class alternates between lectures (discussing new ideas or concepts and assigned readings) and lab (applying concepts to actual data using Stata). 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 203 and ECON 302 or equivalents; for undergraduate students only. Completion of campus Composition I general education requirement. Junior Standing Required. Priority registration provided to Economics Majors. This course satisfies the General Education Criteria for:
Advanced Composition

ECON 452  The Latin American Economies  credit: 2 to 4 Hours.
(https://courses.illinois.edu/schedule/terms/ECON/452/)
Focuses on the economic history of the region, the recent industrialization process and its impact, the role of the state and foreign capital, the impact of the recent privatization processes, inflation and stabilization policies, and issues surrounding the distribution of income. Same as ACE 452. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 102 or ECON 103. ECON 302 or ECON 303 strongly recommended.

ECON 453  Economies of the Middle East and North Africa  credit: 3 or 4 Hours.
(https://courses.illinois.edu/schedule/terms/ECON/453/)
Study of the business and economic conditions in the Middle East and North Africa (MENA). Students are expected to expand their knowledge of microeconomic, macroeconomics, and economic development theories and to apply them to concrete cases in the MENA region. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220/MATH 221 or other Calculus course.
ECON 455 Economics of Poverty Alleviation in Developing Countries  credit: 3 or 4 Hours.
This course examines which policies are effective for alleviating poverty, which are not, and why. The course will have a strong methodological and analytical component, focusing on why interventions and policies work, and how to establish evidence on the effectiveness of specific interventions and policies. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220/MATH 221 or other Calculus course are required.

ECON 456 Migration and Economic Development  credit: 3 or 4 Hours.
Covers topics regarding the inter-relationships between economic development and migration. After introducing the basic concepts of poverty and inequality - between as well as within countries - this course focuses on the role that migration and population growth play in the process of economic development. The causes of migration and its consequences are examined at national and international levels together with their policy implications, including those related to urbanization, brain drain, and labor market impacts of immigration. A range of migration forms is discussed, including international and internal migration, permanent and temporary migration, legal and illegal migration, as well as forced migration and refugees. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220/MATH 221 or other Calculus course.

ECON 460 Financial Economics  credit: 3 or 4 Hours.
Study of a variety of financial economics topics. Introduces basic financial products (stocks, bonds, futures, options, and other derivatives), asset pricing theory including capital asset pricing model (CAPM), arbitrage pricing theory (AP), financial institutions and the organization of financial markets, and some topics on financial crisis and monetary policy. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220/MATH 221 or other Calculus course.

ECON 469 Economics of Risk  credit: 3 or 4 Hours.
Exploration of economic decisions under uncertainty. Includes expected utility theory and non-expected utility theory; applications to individual decision problems in investment and insurance; general equilibrium in markets under uncertainty, including problems generated by asymmetric information; measurement of risk; the value of information obtained before a decision. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ECON 302 or equivalent; one of MATH 220 or MATH 221 or equivalent.

ECON 471 Intro to Applied Econometrics  credit: 2 to 4 Hours.
Introduction to specification, estimation, prediction and evaluation of econometric models, emphasizing the interplay between statistical theory and economic applications. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 203 or equivalent; ECON 302 or ECON 303.

ECON 472 Financial Econometrics  credit: 3 or 4 Hours.
Examines the econometric modeling applied to empirical and computational finance. Explains the empirical properties of financial data as well as the statistical models behind these stylized facts from the data. Explains the statistics and time series concepts that will be useful to understand financial market dynamics, and investigates some popular econometric models and estimation methods. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 203; ECON 302; MATH 220/MATH 221 are required. MATH 213; ECON 471 are recommended.

ECON 474 Econometrics of Policy Evaluation  credit: 3 or 4 Hours.
Develops the basic tools to understand and use modern econometric methods for estimating and making inference of causal effects. The topics include randomized experiments, natural experiments, matching methods, instrumental variables, and regression discontinuity. Focuses on topics which are relevant for policy problems. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 203; ECON 302; MATH 220/MATH 221 are required. MATH 231; ECON 471 are recommended.

ECON 475 Economic Forecasting  credit: 3 or 4 Hours.
Overview of modern, quantitative, statistical and econometric methods for forecasting and evaluating forecasts. Topics include linear regressions; modeling and forecasting trends and seasonality; characterizing and forecasting cycles; MA, AR, and ARMA models; forecasting with regressions; evaluating and combining forecasts. Advanced topics include unit roots, stochastic trends, ARIMA models, and smoothing will be covered as time permits. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 203; ECON 302; MATH 220/MATH 221 are required. MATH 231 is recommended.

ECON 480 Industrial Comp and Monopoly  credit: 2 to 4 Hours.
Analyzes the ways firms and markets are organized, how they interact, outcomes of various types of firm behavior and performance of markets, and causes and types of market failure. Particular emphasis on the contribution of game theory as the equilibrium concept in oligopoly settings. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 302.

ECON 481 Govt Reg of Economic Activity  credit: 2 to 4 Hours.
Analysis of economic bases, policies, and consequences of government regulation of economic activity. Reasons for government intervention in market behavior, methods of government intervention, and outcomes are studied. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 302 or consent of instructor.

ECON 482 Economics of the Digital Economy  credit: 3 or 4 Hours.
Analysis of firm strategies and public policy issues surrounding the digital economy and related industries. Applies economic tools and principles, including game theory, industrial organization, and information economics. Topics include: differentiation of prices and products; search cost and price dispersion; network effects and system competition; economics of platforms; intellectual property; antitrust regulations. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 302; MATH 220/MATH 221 or Calculus I equivalent.

ECON 483 Econ of Innovation and Tech  credit: 2 to 4 Hours.
Examines the economic factors shaping innovation and technical change since the industrial revolution with emphasis on the economic relationship between science and technology and the role of government in technical change. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 102 or equivalent; ECON 302 or consent of instructor.
ECON 484  Law and Economics  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/484/)
Applications of economic theory to problems and issues in both civil and criminal law and the effect of legal rules on the allocation of resources; includes property rights, liability and negligence assignment, the use of administrative and common law to mitigate market failure, and the logic of private versus public law enforcement. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 302 or equivalent.

ECON 490  Topics in Economics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/490/)
Special topics in advanced economics within a variety of areas. See course schedule for topics. 3 undergraduate hours. 4 graduate hours. May be repeated in the same or separate terms to a maximum of 9 undergraduate hours or 8 graduate hours if topics vary. Prerequisite: ECON 202; ECON 302 or ECON 303; MATH 220 or MATH 221 or other Calculus course. Some topics may require additional prerequisites, read the section text for each topic.

ECON 500  Microeconomics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/500/)
Emphasizes microeconomic theory; principal topics include a review of value and distribution theory, the theory of choice by households and firms, general microeconomic theory, and theoretical developments of current interest. 4 graduate hours. No professional credit. Credit is not given for both ECON 500 and ECON 528. Graduate credit for both ECON 302 and ECON 500 is given only upon recommendation of the student's adviser and approval by the Department of Economics. Prerequisite: ECON 102 or equivalent.

ECON 501  Macroeconomics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/501/)
Emphasis on macroeconomic theory; principal topics include a review of Keynesian macroeconomic theory, formal growth theory, and selected business cycle theory. 4 graduate hours. No professional credit. Credit is not given for both ECON 501 and ECON 529. Graduate credit for both ECON 303 and ECON 501 is given only upon recommendation of the student's adviser and approval by the Department of Economics. Prerequisite: ECON 102 and ECON 103 or equivalent.

ECON 502  Economic Statistics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/502/)
Classical statistics and regression analysis; descriptive statistics, probability and point and interval estimation; decision theory; variance analysis; and linear regression and least-squares estimates. 4 graduate hours. No professional credit. Prerequisite: A course in statistics or consent of instructor.

ECON 503  Econometrics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/503/)
Develops a general methodological basis for searching for quantitative economic knowledge; integrates and gives operational content to the topics of economic, statistical, and econometric theory. 4 graduate hours. No professional credit. Prerequisite: ECON 502, or equivalent.

ECON 504  Time Series Analysis in Econ  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/504/)
Modern time series analysis techniques for handling economic data which arises in a happenstance fashion through time and their application to specific economic problems. Prerequisite: ECON 503 or STAT 578, or equivalent. MSPE Graduate Student Standing.

ECON 505  Introduction to Game Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/505/)
Applications of game theory. Introduction to basic static games and dynamic games with particular attention to applying these games to real world situations. Prerequisite: MATH 415; ECON 500 and ECON 501, or equivalent. MSPE Graduate Student Standing.

ECON 507  Computable General Equilibrium Modeling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/507/)
Discusses problems and methods of building social accounting matrices and computable general equilibrium (CGE) models; provides hands-on experience with CGE models with a series of PC-based exercises. The exercises demonstrate a number of techniques for constructing CGE models and show applications of these models to a variety of economic policy problems in developing countries such as food subsidies, international trade restrictions, foreign debt, and sectoral investment priorities. Prerequisite: ECON 500 and ECON 501 or equivalent; MATH 220 or MATH 221, or equivalent. MSPE Graduate Student Standing.

ECON 510  Economics of Taxation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/510/)
Theoretical and empirical analysis of the impact of taxation on the economic system; topics include tax equity and excess burden, incentive effects of taxation, tax incidence, structure of major types of taxes (income, consumption, and wealth), normative tax analysis, and taxation in developing economies. Prerequisite: ECON 302 or equivalent. MSPE Graduate Student Standing.

ECON 511  Public Goods Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/511/)
In-depth analysis of the theory of public goods; includes public goods and externality theory, public choice, theory of cost-benefit analysis, optimal income redistribution, and fiscal federalism. Prerequisite: ECON 302 or equivalent. MSPE Graduate Student Standing.

ECON 513  International Trade  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/513/)
The pure theory of international trade, general equilibrium income and welfare, tariffs, the theory of policy ranking, strategic trade policy, customs unions, international trade law and the WTO. Prerequisite: ECON 302 and ECON 303, or equivalent. MSPE Graduate Student Standing.

ECON 514  International Financial Economics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/514/)
Examines the balance of payments, exchange rate, capital flows and international monetary system; fiscal and monetary policy in open economies. Prerequisite: ECON 302 and ECON 303, or equivalent. MSPE Graduate Student Standing.

ECON 515  Monetary Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/515/)
Micro- and macroeconomic theories of the supply of and demand for money; money substitutes and their significance; review of current empirical research; money in closed economy, macroeconomic, and static general equilibrium models; and analysis of inflation and unemployment. Prerequisite: Consent of instructor. MSPE Graduate Student Standing.

ECON 517  Monetary Policy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/517/)
Theories of money; money in dynamic models; money in open economy macroeconomic models; stabilization policy; and international aspects of monetary theory. Prerequisite: Consent of instructor. MSPE Graduate Student Standing.

Information listed in this catalog is current as of 01/2022
ECON 519  Development and Growth Policy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/519/)
Review and analysis of the theories and patterns of growth in developed and underdeveloped economies; the process and impact of import substitution industrialization; trade and economic development; the role of the state and privatization in the development process; agricultural stagnation and modernization. Prerequisite: ECON 500 and ECON 501 or consent of instructor. MSPE Graduate Student Standing.

ECON 527  Business International Econ  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/527/)
Provides the business student with a working knowledge of the principles of international economics, issues in the current international business environment, U.S. and international trade law, and current policy issues and debates. Considers the basic causes and consequences of international trade, the foreign exchange market and theory of exchange rate determination, the U.S. trade deficit, the international monetary system, and antidumping and countervailing duty law, copyright and patent infringement law, the General Agreement on Tariffs and Trade, the rudiments of strategic trade theory, and selected policy issues varying by year. Prerequisite: Familiarity with intermediate microeconomics at the level of ECON 302.

ECON 528  Microeconomics for Business  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/528/)
Microeconomics for professional business students. Shows relevance of value and distribution theories for business managers. Includes demand and supply theory, consumer choice, production and cost theory, industrial structure, and wage and capital theory. Intended for students in the Master of Business Administration program. Credit is not given for both ECON 528 and either ECON 302 or ECON 500. Prerequisite: Enrollment is often restricted to students in specialized programs.

ECON 529  Macroeconomics for Business  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/529/)
Development of short run macroeconomic models. Analysis of private sector behavior functions, and government policy alternatives. Extensions for open economy models and growth models. Intended for students in the Master of Business Administration program. Credit is not given for both ECON 529 and either ECON 303 or ECON 501. Prerequisite: Enrollment is often restricted to students in specialized programs.

ECON 530  Microeconomic Theory I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/530/)
Emphasizes microeconomic theory particularly theory of the consumer, theory of the firm, general equilibrium analysis and welfare analysis. Also, covers uncertainty in general equilibrium and informational economics. Prerequisite: ECON 302 and ECON 303 or equivalent.

ECON 531  Macroeconomic Theory I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/531/)
Introduces students to a variety of dynamic general equilibrium models that currently dominate the study of growth and economic fluctuations. These models include: neoclassical growth models, overlapping generations models, CAPM models, search models, and endogenous growth models. In covering these models, the course also seeks to develop a set of techniques for students to use. These techniques include discrete time optimization, continuous time optimization, dynamic programming and model calibration. Prerequisite: ECON 302 and ECON 303, or equivalent; calculus.

ECON 532  Econometric Analysis I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/532/)
Theoretical treatment of economic statistics. Covers probability theory, set theory, asymptotic theory, estimation and hypothesis testing. Prerequisite: A course in statistics or consent of instructor.

ECON 533  Microeconomic Theory II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/533/)
Focuses on information and incentives in economic problems. Topics include non-cooperative games, dynamic games, mechanism design, auctions, matching and networks. Prerequisite: ECON 530, or equivalent; calculus.

ECON 534  Macroeconomic Theory II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/534/)
Development of modern macroeconomic theory, including disequilibrium theory, optimal short-term stabilization measures, and monetary, fiscal, incomes, and exchange rate policies; large-scale econometric models; linear and neoclassical growth models; aggregate distribution theory; money, capital movements, trade, and growth; optimal growth models; and exhaustible resources and growth. Prerequisite: ECON 531.

ECON 535  Econometric Analysis II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/535/)
Part 1: The construction of econometric models; characteristics of models and choice of estimating methods; and estimates of parameters by various methods. Part 2: Bayesian statistics and decision theory. Prerequisite: ECON 532 or equivalent.

ECON 536  Applied Econometrics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/536/)
Focus on specification, estimation, prediction and evaluation of econometric models. Covers instrumental variable estimation, simultaneous equation models, non-linear models, discrete choice models and quantile regression methods. Prerequisite: ECON 532 and ECON 535.

ECON 540  Labor Economics I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/540/)
Survey of recent trends in the labor force, of real and money earnings, and of the distribution of national income used as the basis for a critical economic analysis of contemporary English and American wage theory. Same as LER 540. Prerequisite: ECON 302 and ECON 303.

ECON 541  Labor Economics II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/541/)
Economic issues and implications involved in hours of work, employment and unemployment, and trade union institutionalism (the impact of the trade union upon the basic institution of a free enterprise economy); emphasis in all cases on the development of appropriate public policy. Same as LER 541. Prerequisite: ECON 302 and ECON 303.

ECON 542  Collective Bargaining  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/542/)
Same as LER 542. See LER 542.

ECON 543  Workplace Dispute Resolution  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/543/)
Same as LAW 665 and LER 543. See LER 543.

ECON 546  Gen Equ Env Tax Policy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/546/)
Same as FIN 519. See FIN 519.
ECON 547  Urban Economics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/547/)
Examines the microeconomic theory of urban land-use and spatial structure (static and dynamic models); analyzes externalities caused by traffic congestion; normative and positive analysis of the provision of local public goods; and public policy issues (i.e., slums and urban decline, pollution). Prerequisite: ECON 530 and ECON 533.

ECON 548  Adv Natural Resource Economics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/548/)
Same as ACE 510, ENVS 510, and NRES 510. See ACE 510.

ECON 549  Environmental Economics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/549/)
Examines both theory and policy applications in the environmental area; selectively reviews the literature to provide a framework for understanding the relevant economic relationships and the criteria appropriate for policy assessment; emphasizes the characteristics of major environmental problems and policy choices; and considers the valuation of environmental amenities and the conflict between environmental quality and growth. Same as ACE 516. Prerequisite: ECON 302 or consent of instructor.

ECON 550  Econ of Development and Growth  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/550/)
Theories of economic development and growth. Covers the role of agriculture, trade, manufacturing, human capital, genetics, geography and culture in growth. Prerequisite: ECON 533 and ECON 534, or equivalent.

ECON 551  Topics in Development Econ  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/551/)
Analyzes the newly developing economies, with emphasis on institutional factors affecting development and economic policy relating to development. Prerequisite: ECON 535 or equivalent.

ECON 553  Demand/Supply/Firms/Households  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/553/)
Same as ACE 502. See ACE 502.

ECON 555  Topics in Microeconomics I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/555/)
Study at an advanced level of one or more of the following possible topics: economics of externalities, advanced aggregate economic theory, theory of central planning, investment theory, consumer behavior theory, capital theory, welfare economics, inflation theory, income distribution theory, or other topics. May be repeated. Prerequisite: ECON 533 and ECON 534, or consent of instructor.

ECON 556  Topics in Microeconomics II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/556/)
Studies quantitative techniques useful in economic analysis and decision making; single and systems of difference and differential equations; dynamic programming; Pontryagin maximum principle; interaction of multiplier and accelerator; von Neumann model; Turnpike theorem; growth models; and control systems. Prerequisite: MATH 415; ECON 533 and ECON 534, or equivalent.

ECON 557  Topics in Microeconomics III  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/557/)
Studies bounded rationality and learning in economics. Topics include evolutionary learning in models. Prerequisite: MATH 415, ECON 533 and ECON 534 or equivalent.

ECON 558  Topics in Microeconomics IV  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/558/)
Study at an advanced level of one or more of the following topics: economics of externalities, advanced aggregate economic theory, theory of central planning, investment theory, consumer behavior theory, capital theory, welfare economics, inflation theory, income distribution theory, or other topics. May be repeated. Prerequisite: ECON 533 and ECON 534, or consent of instructor.

ECON 559  Topics in Macroeconomics I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/562/)
Study at an advanced level of one or more of the following possible topics: economics of externalities, advanced aggregate economic theory, theory of central planning, investment theory, consumer behavior theory, capital theory, welfare economics, inflation theory, income distribution theory, or other topics. May be repeated. Prerequisite: ECON 533 and ECON 534, or consent of instructor.

ECON 560  Political Economy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/560/)
Microeconomic analysis of political decision making processes. Includes social choice, models of political competition, game-theoretic analysis of political institutions and lobbying. Same as PS 548. Prerequisite: ECON 530 or equivalent, or instructor's consent.

ECON 564  Econometrics I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/574/)
Estimation of parameters for single-equation models; tests of hypotheses and confidence regions for regression models; large-sample theory in single-equation models; and Bayesian statistics in regression models. Prerequisite: MATH 415 and STAT 400.

ECON 565  Econometrics II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/575/)
Considers the specification of models with systems of simultaneous equations; identification problem, distributed lag models, K-class estimators, maximum likelihood estimators, three-stage least-squares, and effects of specification errors. Prerequisite: ECON 574.

ECON 566  Time Series  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/576/)
Models and techniques used in the analysis of time series data. Covers univariate and multivariate time series, non-stationary time series, cointegration and error correction, structural breaks and non-linear time series models. Prerequisite: ECON 535 or STAT 578, or equivalent.

ECON 567  Topics in Econometrics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/577/)
Examines some standard econometric problems from the Bayesian perspective and compares Bayesian and classical inference. Prerequisite: ECON 574.

ECON 578  Large Sample Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/578/)
Same as STAT 575. See STAT 575.

ECON 580  Industrial Organization  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/580/)
Theory of the organization of markets and firms, behavior of firms, functioning of competitive systems, and performance of markets.
ECON 581  Govt Regulation of Industry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/581/)
Microeconomic and econometric analyses of market failure and government response in selected industries; topics include economic effect of regulation, bureaucratic behavior, optimal policy, and strategies for regulatory reform. Prerequisite: ECON 530, ECON 580; or consent of Instructor.

ECON 582  Empirical Ind Organization  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/582/)
Empirical Methods in Industrial Organization. Topics include: detection of anticompetitive behavior; estimation techniques that allow for product differentiation, endogenous entry and intertemporal decision-making; estimation and testing of auctions and other asymmetric information models.

ECON 585  Topics in International Econ  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/585/)
Frontier advanced topics in international economics; subject matter varies. May not be repeated for credit. Prerequisite: ECON 533 and ECON 534, or consent of instructor.

ECON 590  Individual Study and Research  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/590/)
Directed reading and research. Approved for both letter and S/U grading. May be repeated.

ECON 598  Workshop and Research Seminar  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/ECON/598/)
Workshops are offered in all areas of specialization in which graduate students are writing Ph.D. dissertations. The specific format varies, but in general workshop sessions include presentations by graduate students of thesis research, by faculty members of their current research, and by occasional outside speakers. Approved for S/U grading only. May be repeated. A minimum of 4 hours of ECON 598 is required of all students in the Ph.D. program. Prerequisite: Admission to the Department of Economics Ph.D. program.

ECON 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/ECON/599/)
Preparation of thesis required of all students writing master’s or doctoral theses in economics. Approved for S/U grading only. May be repeated.
EDPR - Educational Practice

EDPR Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/EDPR/)

Courses

EDPR 199   Undergraduate Open Seminar   credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/EDPR/199/)
Approved for S/U grading only. May be repeated.

EDPR 250   School & Community Experiences   credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EDPR/250/)
Early field experiences in teacher education, including observation and laboratory experiences in public schools: designed to provide opportunities for career exploration, professional orientation, the development of insight into the interrelationship of theory and practice, and the place of the student in the educational process. Approved for S/U grading only. May be repeated. Prerequisite: Consent of instructor.

EDPR 420   School Access & Supports   credit: 2 to 12 Hours. (https://courses.illinois.edu/schedule/terms/EDPR/420/)
Field experience providing supports and services to students with or at risk for disabilities. 2 to 12 undergraduate hours. 2 to 12 graduate hours. Approved for S/U grading only. May be repeated for up to a total of 18 hours, 12 of which may be taken in the same term. 2 to 12 undergraduate hours. 2 to 12 graduate hours. Approved for S/U grading only. May be repeated in the same term for up to 12 hours, to a maximum of 18 hours in separate terms. Prerequisite: Satisfactory completion of all requirements of the Council on Teacher Education Transition Points leading to initial licensure. (http://www.cote.uiuc.edu).

EDPR 432   Ed Prac in EC & ELED   credit: 2 to 12 Hours. (https://courses.illinois.edu/schedule/terms/EDPR/432/)
Course in practice teaching to meet licensure requirements for teaching in the elementary school. 2 to 12 undergraduate hours. 2 to 12 graduate hours. Approved for S/U grading only. Prerequisite: CI 420 or CI 406 as required by the student's curriculum; Satisfactory completion of all requirements of the Council on Teacher Education Undergraduate or Graduate Common Assessment Plan for Initial Certification (http://cote.illinois.edu/).

EDPR 438   Educational Practice in Special Fields   credit: 2 to 12 Hours. (https://courses.illinois.edu/schedule/terms/EDPR/438/)
Course in student teaching to meet requirements for licensure in special fields. 2 to 12 undergraduate hours. 2 to 12 graduate hours. Approved for S/U grading only. Prerequisite: All professional education coursework, except those requiring concurrent enrollment with student teaching, must be completed prior to student teaching. Satisfactory completion of all requirements of the Council on Teacher Education Undergraduate or Graduate Common Assessment Plan for Initial Licensure (www.cote.illinois.edu).

EDPR 442   Educational Practice in Secondary Education   credit: 2 to 12 Hours. (https://courses.illinois.edu/schedule/terms/EDPR/442/)
Course in practice teaching to meet licensure requirements for teaching in the secondary schools. 2 to 12 undergraduate hours. 2 to 12 graduate hours. Approved for S/U grading only. Prerequisite: All professional education coursework, except those requiring concurrent enrollment with student teaching, must be completed prior to student teaching. Satisfactory completion of all requirements of the Council on Teacher Education Undergraduate or Graduate Common Assessment Plan for Initial Licensure (www.cote.illinois.edu).

EDPR 550   School and Community Experience   credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EDPR/550/)
Early field experiences in teacher education, including observation and laboratory experiences in schools: Designed to provide opportunities for career exploration, professional orientation, the development of insight into the relationships of theory and practice, and the place of the student in the educational process. 0 to 4 graduate hours. No professional credit. Approved for S/U grading only. May be repeated. Prerequisite: Must be admitted to an educator preparation program.

Information listed in this catalog is current as of 01/2022
EDUC - Education

EDUC Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/EDUC/)

Courses

EDUC 101  Education Orientation Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/EDUC/101/)
Informational orientation seminar for Education majors to enhance their understanding of college life and the field of education as a profession.

EDUC 102  Freshman Honors Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/EDUC/102/)
Provides an introduction to critical issues in education with focus on selected contemporary issues in the field; emphasis is on critical analysis and reflection on relationships between teachers, schools, and society.

EDUC 199  Undergraduate Open Seminar  credit: 0 to 6 Hours. (https://courses.illinois.edu/schedule/terms/EDUC/199/)
See class schedule for topics. Approved for Letter and S/U grading. May be repeated in the same and separate semesters to a maximum of 6 hours, if topics vary.

EDUC 201  Identity and Difference in Education  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EDUC/201/)
Focuses on the role of identity in schooling and the way in which identity is socially constructed. Examine how power and privilege impact equity and opportunities based on socially constructed identities such as race, social class, gender, sexual identity, language, (dis)ability, and nationalism. Explore asset-based frameworks that are identity affirming and counter deficit-based perspectives. This course is designed for students interested in reflecting on their own experiences as learners by critically examining their socially constructed identities and "ways of knowing" and the societal implications of these experiences. It is also for those considering careers in teaching, and anyone interested in reflecting on how issues of inclusion, exclusion, power, and privilege play out in education.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

EDUC 202  Social Justice, School and Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EDUC/202/)
Examines the nature of justice and the dynamics of a pluralistic society to derive a conception of social justice. Working with this conception, it asks how schools function to perpetuate and/or remediate social injustice. The course will consider the history and nature of schooling, issues of access and tracking, and notions of the public and the common. The course is designed for students interested in reflecting on their own educational histories, for those considering careers in teaching, and for all future parents and citizens needing to be able to reflect critically on justice, school, and society.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Hist Phil

EDUC 299  Education Study Abroad  credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/EDUC/299/)
Provides credit toward the undergraduate degree for study at approved, accredited foreign institutions or approved overseas programs. Final determination of credit is made upon the student's completion of the work. College of Education students studying abroad on a Campus or College of Education program should enroll in 299 as a placeholder course for a semester length study abroad and in 499 for short term study abroad programs. Approved for letter and S/U grading. May be repeated to a maximum of 36 term hours per academic year or to a total of 44 term hours, all of which must be earned in a calendar year. Prerequisite: One year of residence at UIUC, good academic standing, and a prior approval of the College of Education. (Summer session, 0 to 8 hours).

EDUC 499  Education Abroad  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EDUC/499/)
This course will serve as a foundation for your education abroad experience. The class will center on the experience of travel as it relates to education - your own education, the education systems and policies you encounter, as well as your prospective role as a future educator. This course will introduce comparative education inquiry and provide space to consider the cultural, political, and ethical implications of engaging in education travel and research in cross-cultural, global contexts. 0 to 3 undergraduate hours. 0 to 4 graduate hours. Approved for Letter and S/U grading. May be repeated if topics vary.

Information listed in this catalog is current as of 01/2022
EIL - English as an Intl Language

Courses

EIL 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. ([https://courses.illinois.edu/schedule/terms/EIL/199/](https://courses.illinois.edu/schedule/terms/EIL/199/))
May be repeated.

EIL 214  TESL in the Elementary School  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/EIL/214/](https://courses.illinois.edu/schedule/terms/EIL/214/))
On-site practical experience in an elementary school, involving at least 100 hours of classroom observations, consultations, teaching, tutoring, and assisting, to acquaint students with the many facets of ESL/bilingual education in a public school setting. Hours to be arranged with the cooperating teacher. Satisfies one requirement for those who wish to obtain an Illinois ESL endorsement on an Illinois teaching certificate.

EIL 215  TESL in the Secondary School  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/EIL/215/](https://courses.illinois.edu/schedule/terms/EIL/215/))
On-site practical experience in a secondary school, involving at least 100 hours of classroom observations, consultations, teaching, tutoring, and assisting, to acquaint students with the many facets of ESL/bilingual education in a public school setting. Hours to be arranged with the cooperating teacher. Satisfies one requirement for those who wish to obtain an Illinois ESL endorsement on an Illinois teaching certificate.

EIL 411  Intro to TESL Methodology  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/EIL/411/](https://courses.illinois.edu/schedule/terms/EIL/411/))
Introduction to TESL/TEFL, including the concept of "communicative competence" and its components; teaching contexts; current research on teaching second language skills; syllabus, lesson, and materials design; and classroom techniques. 3 undergraduate hours. 4 graduate hours.

EIL 413  ESL Field Experience (EJP)  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/EIL/413/](https://courses.illinois.edu/schedule/terms/EIL/413/))
Practical guided experience teaching ESL. Students will review theory associated with second language acquisition with a focus on taking a critical look at communicative language teaching and other principles commonly associated with adult ESL education. Students will teach multiple lessons, developing their own lessons and materials based on principles of communicative language teaching. Additionally, students will participate in peer-observation and feedback with their peer student teachers. 3 undergraduate hours. No graduate credit. May be repeated in separate terms if topics vary. Prerequisite: EIL 411 or permission of the instructor. Restricted to Education Justice Project students located at Danville Correctional Center.

EIL 422  Engl Grammar for ESL Teachers  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/EIL/422/](https://courses.illinois.edu/schedule/terms/EIL/422/))
Adaptation of modern English grammar to meet the needs of the ESL/EFL teacher, with special emphasis on the development of knowledge and skills that can be used in the analysis of the syntax, lexis and pragmatics of English. Same as ENGL 404. 3 undergraduate hours. 4 graduate hours.

EIL 445  Second Lang Reading & Writing  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/EIL/445/](https://courses.illinois.edu/schedule/terms/EIL/445/))
Introduces students to second language reading and writing, including theory, research, and practical application. 3 undergraduate hours. 4 graduate hours. May be taken concurrently with EIL 489 with consent of instructor. Prerequisite: Consent of instructor.

EIL 456  Lang and Social Interaction I  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/EIL/456/](https://courses.illinois.edu/schedule/terms/EIL/456/))
The course goals are to develop an understanding of the characteristics of naturally-occurring talk; several methodologies for collecting and studying it; the relationship of talk to human conduct, society and culture, including cross-cultural (mis)understanding; and to relate these insights to language learning, language teaching methodologies, and materials design. 3 undergraduate hours. 4 graduate hours. Prerequisite: Consent of instructor.

EIL 460  Principles of Language Testing  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/EIL/460/](https://courses.illinois.edu/schedule/terms/EIL/460/))
Studies theoretical and practical aspects of language testing. Examines purposes and types of language tests in relation to theories of language use and language teaching goals; discusses testing practices and procedures related to language teaching and language research; and includes the planning, writing, and administration of tests, basic descriptive statistics, and test analysis. A project is required. Same as EPSY 487, FR 460, GER 460, ITAL 460, PORT 460, and SPAN 460. 3 undergraduate hours. 4 graduate hours. Prerequisite: EIL 489 or consent of instructor.

EIL 465  TESL in the Community  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/EIL/465/](https://courses.illinois.edu/schedule/terms/EIL/465/))
Focused classroom-based support for observation of teachers of English to multilingual learners, practice in teaching such learners, an opportunity to view and evaluate yourself as a TESL professional, and an opportunity to provide a service to the TESL profession, as well as to a specific community of learners. 3 undergraduate hours. No graduate credit. Prerequisite: At least two of the TESL core courses (EIL 422, EIL 445, EIL 456, and EIL 460) and two of the LING core courses (LING 111, LING 301, LING 302, and LING 307). For LING+TESL majors only; junior standing required.

EIL 486  Ling for Language Teachers  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/EIL/486/](https://courses.illinois.edu/schedule/terms/EIL/486/))
Introduction to linguistics for language teachers. Examines history and scope of linguistics, and introduces key elements of linguistic analysis with accompanying theoretical analyses of syntax, morphology, phonology, the lexicon, and pragmatics. Also covers the role of non-linguistic factors in communication and prioritizes the application of linguistics to instructed language learning settings. 3 undergraduate hours. 4 graduate hours.

EIL 487  Topics in Second Lang Studies  credit: 2 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/EIL/487/](https://courses.illinois.edu/schedule/terms/EIL/487/))
Topics on practical applications of second language studies for classroom practice. 2 or 4 undergraduate hours. 2 or 4 graduate hours. May be repeated to a maximum of 8 hours if topics vary. Prerequisite: Consent of instructor.

EIL 488  Phonology for Second Language Teachers  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/EIL/488/](https://courses.illinois.edu/schedule/terms/EIL/488/))
Applications of linguistics to language learning with special emphasis on learning the sound system of English. The course involves face-to-face and online instruction. 3 undergraduate hours. 4 graduate hours. Prerequisite: Consent of instructor. A linguistics introductory course.
EIL 511  Task Based Language Teaching  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EIL/511/)
Introduces students to current issues in the theory and practice of communicative language teaching. Discusses the notion that communication is a social event from three perspectives: theoretical linguistics; applied linguistics; and classroom teaching. Specific questions addressed range from a consideration of the nature of applied linguistics to issues related to student autonomy. Prerequisite: EIL 411 and consent of instructor.

EIL 512  Practicum in Teaching ESL  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EIL/512/)
Practical guided experience teaching ESL. Students will recruit, test, and teach an ESL class of adults from the community, developing their own lessons and materials based on principles of communicative language teaching. Students will also observe their peer student teachers and provide them with feedback. Prerequisite: EIL 411 and permission of instructor.

EIL 580  Classroom Language Acquisition  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EIL/580/)
Same as FR 580, GER 580, ITAL 580, PORT 580, and SPAN 580. See SPAN 580.

EIL 587  Seminar in Second Lang Studies  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EIL/587/)
May be repeated if topics vary. Prerequisite: Consent of instructor.

EIL 591  Research in Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EIL/591/)
Independent study under guidance of a member of the graduate faculty. May be repeated to a maximum of 8 hours. Prerequisite: Consent of instructor.

EIL 599  Thesis Research  credit: 0 to 8 Hours. (https://courses.illinois.edu/schedule/terms/EIL/599/)
Individual direction of research and thesis writing. Approved for S/U grading only. May be repeated to a maximum of 8 hours. Prerequisite: Consent of thesis supervisor.

Information listed in this catalog is current as of 01/2022
ENG - Engineering

ENG Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ENG/)

Courses

ENG 100 Engineering Orientation credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ENG/100/)
Orientation required of new freshmen in the College of Engineering. Approved for S/U grading only.

ENG 101 Engineering at Illinois credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ENG/101/)
Introduction to undergraduate programs of study available in The Grainger College of Engineering and the potential careers of graduates of those programs. Intended for Division of General Studies students who may be interested in becoming an engineering major or other students who wish to explore engineering careers.

ENG 110 Communicating and Presenting in Engineering credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/ENG/110/)
Technical communications skills for engineering students. Emphasis on identifying content for audience for a given presentation setting, critiquing presentations on the basis of content, delivery, and visual aids, designing slides that increase effectiveness of communication and delivery of content, and interactions in teams to design slides and present topics. Same as TE 110.

ENG 111 MEP Mentoring credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ENG/111/)
Prepares traditionally underrepresented minority engineering students towards a successful campus experience. Students will build their academic and professional understanding through the development of a working academic success final report. This final report will help students identify, understand, and prepare to exceed expectations of them on campus, in the engineering curriculum, and in professional interactions with faculty and industry. Prerequisite: Instructor Approval Required. Restricted to First time Freshmen.

ENG 177 Engineering First-Year Experience Seminars credit: 1 to 2 Hours. (https://courses.illinois.edu/schedule/terms/ENG/177/)
Provides first-year students with opportunities to participate in interdisciplinary courses designed to help explore what is means to be an engineer and develop skills required in the engineering workplace, be it team dynamics, leadership skills, intercultural competency, or communication techniques. Students will explore topic areas offered as separate sections under the course heading. Each section uses a hands-on, interactive, discussion/team-based approach. The courses use active learning exercises in addition to reflections, readings, and project work. May be repeated in the same or separate terms for a maximum of 4 hours.

ENG 191 International Dimens of Engrg credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ENG/191/)
Global views of the engineering profession presented by guest speakers. Key factors for success in global engineering practice, including industrial values, economics, politics, language, cultural values, and social trends. Development of individual plans to engage in international education to enhance career preparation.

ENG 198 Special Topics credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ENG/198/)
Subject offerings of new and developing areas of knowledge in engineering intended to augment the existing curriculum. See Class Schedule or college course information for topics and prerequisites. Approved for both letter and S/U grading. May be repeated in the same or separate terms if topics vary.

ENG 199 Undergraduate Open Seminar credit: 0 to 5 Hours. (https://courses.illinois.edu/schedule/terms/ENG/199/)
Topics will vary. See class schedule. Approved for Letter and S/U grading. May be repeated in the same or separate semesters, if topics vary.

ENG 210 Engineering Apprenticeship credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ENG/210/)
Part-time practice of engineering science in an on-campus research laboratory environment; summary report required. Approved for both letter and S/U grading. May be repeated.

ENG 261 Technology & Mgmt Seminar credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ENG/261/)
Same as BADM 261. See BADM 261.

ENG 298 Special Topics credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ENG/298/)
Subject offerings of new and developing areas of knowledge in engineering intended to augment the existing curriculum. See Class Schedule or college course information for topics and prerequisites. Approved for both letter and S/U grading. May be repeated in the same or separate terms if topics vary.

ENG 299 Engineering Study Abroad credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/ENG/299/)
Illinois credit placeholder for foreign study and mechanism to maintain continuous Illinois enrollment while studying abroad. A detailed proposal must be submitted by the student for approval by the student's department and the college office prior to such study abroad. Final determination of credit and its application toward the degree is made by the college office after a review of the student's work abroad. (Summer Session, 0 to 6 hours). Approved for Letter and S/U grading. May be repeated.

ENG 300 Engineering Transfer Orientation credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ENG/300/)
Orientation required of off-campus transfer students in the College of Engineering. Prerequisite: Restricted to first time Transfer Engineering students.

ENG 310 Engineering Internship credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ENG/310/)
Engineering Internship is for engineering undergraduate students who are completing full-time or part-time internship or co-op that is related to their major field of study and an integral or important part of their program of study. Students participating in research-based projects should contact the Office of Undergraduate Research in Engineering to identify an appropriate course. Approved for S/U grading only. May be repeated in separate terms.

Information listed in this catalog is current as of 01/2022
ENG 315  Learning in Community  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENG/315/](https://courses.illinois.edu/schedule/terms/ENG/315/))
Service-learning dedicated to benefiting nonprofit organizations. Learning through inquiry, acquisition of skills and knowledge to address projects, and development of project and team skills. Student teams work on a project of importance proposed by and in partnership with each organization. Projects vary by term. See Class Schedule. May be repeated in the same term to a maximum of 6 hours. May be repeated in separate terms to a maximum of 12 hours.

ENG 377  Pedagogy and Mentoring for Engineering Learning Assistants  credit: 1 Hour. ([https://courses.illinois.edu/schedule/terms/ENG/377/](https://courses.illinois.edu/schedule/terms/ENG/377/))
Designed to support new Engineering Learning Assistants (ELAs). The purpose of the course is to provide pedagogical and mentorship training for ELAs to successfully teach. May be repeated if topics vary, in separate terms to a maximum of 2 undergraduate hours. Prerequisite: Instructor Approval Required.

ENG 397  Undergraduate Research Abroad  credit: 1 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/ENG/397/](https://courses.illinois.edu/schedule/terms/ENG/397/))
Research completed under faculty supervision at a location outside of the United States. Topics and type of assistance vary. No graduate credit. May be repeated in separate terms up to 6 hours. Prerequisite: Consent of instructor; Department and college approval of research plan submitted prior to enrollment. Not available to freshman.

ENG 398  Special Topics  credit: 1 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/ENG/398/](https://courses.illinois.edu/schedule/terms/ENG/398/))
Subject offerings of new and developing areas of knowledge in engineering intended to augment the existing curriculum. See Class Schedule or college course information for topics and prerequisites. Approved for both letter and S/U grading. May be repeated in the same or separate terms if topics vary.

ENG 411  Engineering Ambassadors Leadership Training  credit: 1 Hour. ([https://courses.illinois.edu/schedule/terms/ENG/411/](https://courses.illinois.edu/schedule/terms/ENG/411/))
Serves as a weekly meeting and professional development for current Engineering Ambassadors members. The course provides instruction in preparing for and managing classroom visits as well as practice for presentation skills. In addition, guest speakers are brought in from campus to help with professional development of the members. Graduate members have additional responsibility to be team leaders and complete a project for the society. 1 undergraduate hour. 1 graduate hour. May be repeated. This course is repeatable for as long as a student is active in Engineering Ambassadors. As students progress through the program, they are still growing and developing as ambassadors. Students will benefit from hearing from the guest lectures, which vary each offering, and also act as mentors for younger members during classroom visits and in group activities during class. It is a benefit to both the older and younger members to have a variety of experiences in the class. Prerequisite: ENG 110 or instructor permission.

ENG 451  Success in the Workplace  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/ENG/451/](https://courses.illinois.edu/schedule/terms/ENG/451/))
Guided experiential learning that facilitates the development of professional skills for students participating in career-related internships. Basic business skills such as reading a financial statement and annual report, understanding contracts, and understanding corporate strategy. Interpersonal skills necessary to succeed in industry such as networking, leadership, and communication. 2 undergraduate hours. No graduate credit.

ENG 471  Seminar Energy & Sustain Engrg  credit: 1 Hour. ([https://courses.illinois.edu/schedule/terms/ENG/471/](https://courses.illinois.edu/schedule/terms/ENG/471/))
Challenges of developing energy systems and civil infrastructure that are sustainable in terms of resource availability, security, and environmental impact. Guest lecturers focus on: (i) global challenges – future energy demand, geologic sources of energy, climate change, energy-water nexus, energy and security; (ii) markets, policies and systems – economic incentives, policy and law, life cycle analyses; (iii) opportunities for change – CO2 sequestration, renewable power, bioenergy feedstocks, biofuels for transportation, energy use in buildings, advanced power conversion, the smart grid. 1 undergraduate hour. 1 graduate hour. Prerequisite: MATH 220 or MATH 221; one of CHEM 104, CHEM 204, PHYS 101, PHYS 211. Recommended: NPRE 201.

ENG 491  Interdisciplinary Design Proj  credit: 1 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/ENG/491/](https://courses.illinois.edu/schedule/terms/ENG/491/))
Disciplined, multi-department, team-structured project design experience with an overall (or major phase) end-of-term completion date. Projects involve design specification through a proposal, analyses of cost and other tradeoffs among alternative designs, design review, fabrication and assembly, functional and environmental testing, and demonstrations (as applicable). Reports and presentations at the end of each term. Individual engineering activities as well as team responsibilities. 1 to 4 undergraduate hours. No graduate credit. Senior standing required. May be repeated. Credit toward the degree is determined by the student's major department. Prerequisite: Consent of instructor.

ENG 498  Special Topics  credit: 1 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/ENG/498/](https://courses.illinois.edu/schedule/terms/ENG/498/))
Subject offerings of new and developing areas of knowledge in engineering intended to augment the existing curriculum. See Class Schedule or college course information for topics and prerequisites. 1 to 4 undergraduate hours. 1 to 4 graduate hours. Approved for Letter and S/U grading. May be repeated in the same or separate terms if topics vary.

ENG 510  Engineering Practice  credit: 0 Hours. ([https://courses.illinois.edu/schedule/terms/ENG/510/](https://courses.illinois.edu/schedule/terms/ENG/510/))
Engineering Practice is for engineering graduate students who are completing curricular practical training, either full-time or part-time, that is related to their major field of study and an integral or important part of their program of study. 0 graduate hours. No professional credit. Approved for S/U grading only. May be repeated.

ENG 571  Theory Energy & Sustain Engrg  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ENG/571/](https://courses.illinois.edu/schedule/terms/ENG/571/))
Mathematical, scientific, engineering, and economic bases needed to analyze sustainable energy systems and civil infrastructure. Evaluation of current practice and future development of (i) energy extraction and conversion processes from geological, biological, and non-biological resources; (ii) energy usage for transportation, in residential and commercial buildings, and by industry. 3 or 4 graduate hours. No professional credit. Prerequisite: Credit or concurrent registration in ENG 471.
ENG 572  Professional Practicum  credit: 1 to 8 Hours. ([https://courses.illinois.edu/schedule/terms/ENG/572/](https://courses.illinois.edu/schedule/terms/ENG/572/))
Internship or equivalent experience as it relates to the student's field of study. Student will complete a comprehensive written report, develop a website, and/or give an oral presentation that relates to his/her internship experience. 1 to 8 graduate hours. No professional credit. May be repeated in separate terms to a maximum of 8 hours.

ENG 573  Capstone Project  credit: 1 to 8 Hours. ([https://courses.illinois.edu/schedule/terms/ENG/573/](https://courses.illinois.edu/schedule/terms/ENG/573/))
Design project pertinent to student's field of study. Student will complete a comprehensive written report, develop a website, and/or give an oral presentation that relates to his/her project. 1 to 8 graduate hours. No professional credit. May be repeated in separate terms to a maximum of 8 hours.

ENG 591  Engineering Advanced Seminar  credit: 0 or 1 Hours. ([https://courses.illinois.edu/schedule/terms/ENG/591/](https://courses.illinois.edu/schedule/terms/ENG/591/))
Seminar on topics of current interest as announced in the Class Schedule. 0 or 1 graduate hours. No professional credit. Approved for S/U grading only. May be repeated if topics vary. Prerequisite: As specified for each topic offering, see Class Schedule for course description.

ENG 598  Special Topics  credit: 1 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/ENG/598/](https://courses.illinois.edu/schedule/terms/ENG/598/))
Subject offerings of new and developing areas of knowledge in engineering intended to augment the existing curriculum. See Class Schedule or college course information for topics and prerequisites. May be repeated in the same or separate terms if topics vary.
ENGL - English

ENGL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ENGL/)

Courses

ENGL 101 Intro to Poetry  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/101/)
Close reading and analysis of poetry and other literary texts. Introduction to argumentative strategies for writing about poetry. Addresses prosody, poetic language (diction, metaphor, image, tone), and major verse forms (the sonnet, elegy, ode, ballad, dramatic monologue, free verse). Students also study poems from a range of literary periods and movements to learn how formal qualities change and develop over time and are relevant to everyday life.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

ENGL 102 Intro to Drama  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/102/)
Explores such topics as the history of dramatic form, the major dramatic genres, the dramatic traditions of various cultures, and key terms used in the analysis of dramatic works. Reading plays from the ancient Greeks to the contemporary theatre, students will be taught skills in close reading and literary interpretation. Students will consider the importance of performance, considering how meanings might be represented through visual and aural means.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

ENGL 103 Intro to Fiction  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/103/)
An introduction to the study of literature and literary history at the university level. Explores such topics as: the historical role and place of fictional narratives, the idea of genre, relationships between context and meaning in fictional works. Students will develop a critical vocabulary for interpreting and analyzing narrative strategies. Credit is not given for both ENGL 103 and ENGL 109.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

ENGL 104 Introduction to Film  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/104/)
Thoughtful viewing of diverse films (in required weekly screenings), along with ample discussion and critical reading and writing, to gain understanding of cinematic expression and of film's capacity to entertain and to exert artistic and social influence. Same as MACS 104.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

ENGL 109 Intro to Fiction-ACP  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/109/)
Introduction to critical analysis of prose fiction. Explores a wide range of short and long fiction across historical periods; examines narrative strategies such as plot, character, and point of view. Special emphasis placed on good literary critical writing. Course is similar to ENGL 103 except for the additional writing component. Credit is not given for both ENGL 109 and ENGL 103. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
- Advanced Composition
- Humanities - Lit Arts

ENGL 112 Literature of Global Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/112/)
Through literature and films, studies the impact of historical change on individuals and on cultures, the breakdown of borders, the building of new hierarchies of domination and exploitation, the contact and collision between the local and the global, and the transnational and problematic processes of cultural globalization. Same as CWL 112.

ENGL 114 Bible as Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/114/)
Same as CWL 111 and REL 101. See REL 101.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

ENGL 115 Intro to British Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/115/)
Acquaints students with the rich diversity of British prose, poetry, and drama. As a basic introduction to English literature, the course explores a series of literary texts, often thematically related, which appeal to modern readers and at the same time provide interesting insights into the cultural attitudes and values of the periods which produced them.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western

Information listed in this catalog is current as of 01/2022
ENGL 116  Introduction to American Literature  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/116/](https://courses.illinois.edu/schedule/terms/ENGL/116/)) American literature speaks in distinctive dialects that pre-date the arrival of European explorers in the Renaissance, range across centuries and continents, and intermingle a rich variety of racial, ethnic, and gendered perspectives. Genres examined in this course might include lyric poems, dystopian novels, horror stories, seduction narratives, slave narratives, political speeches, or postmodern plays. Writers studied might include Walt Whitman, Columbus, Jane Johnston Schoolcraft, Herman Melville, Edgar Allan Poe, Junot Díaz, Harriet Beecher Stowe, David Foster Wallace, Martin Luther King, and Lin-Manuel Miranda.

This course satisfies the General Education Criteria for:

**Humanities - Lit Arts**

**Cultural Studies - Western**

ENGL 117  Shakespeare on Film  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/117/](https://courses.illinois.edu/schedule/terms/ENGL/117/)) Explores the ongoing reinterpretation and appropriation of Shakespeare plays in twentieth- and twenty-first century film. Expect to read around five plays and analyze two productions of each play, and to consider how Shakespeare can be transformed to meet different cultural and contextual demands of the screen. Lecture and discussion. Same as MACS 117.

This course satisfies the General Education Criteria for:

**Humanities - Lit Arts**

ENGL 119  Literature of Fantasy  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/119/](https://courses.illinois.edu/schedule/terms/ENGL/119/)) Introduction to the rich traditions of fantasy writing in world literature. While the commercial category of fantasy post-Tolkien will often be the focal point, individual instructors may choose to focus on alternate definitions of the genre: literatures of the fantastic, the uncanny, and the weird; fantasy before the Enlightenment and the advent of realism; fantasy for young adult or child readers; and so on. Same as CWL 119.

ENGL 120  Science Fiction  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/120/](https://courses.illinois.edu/schedule/terms/ENGL/120/)) Introduction to the study of science fiction, the genre that has both contributed to scientific knowledge and attempted to make sense of the changes that have taken place in the world since the Enlightenment, the onset of industrialization, and the acceleration of technology. Texts are taken from a variety of literary and pop culture sources: pulps and magazines, novels and films, comics and TV shows.

ENGL 121  Introduction to Comics  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/121/](https://courses.illinois.edu/schedule/terms/ENGL/121/)) Introduction to graphic narratives—comic books, comic strips, graphic novels, manga, webcomics, and so on—from a diverse panoply of cultural, formal, and historical traditions.

ENGL 122  The Middle Ages in Popular Culture  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/122/](https://courses.illinois.edu/schedule/terms/ENGL/122/)) Explores the use of medievalism in contemporary popular culture. Instructors may draw from film, television, music, fiction, graphic novels, gaming, and other sources, and they approach the material from a variety of cultural, historical, and aesthetic traditions. The goal of the course will be to understand how the medieval periods of world cultures have been reinvented in modern times, and how modernity has been constructed in relation and in opposition to the medieval imaginary. Same as MDVL 122.

This course satisfies the General Education Criteria for:

**Humanities - Lit Arts**

ENGL 150  Black Literature in America  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/150/](https://courses.illinois.edu/schedule/terms/ENGL/150/)) Same as AFRO 105. See AFRO 105.

This course satisfies the General Education Criteria for:

**Humanities - Lit Arts**

**Cultural Studies - US Minority**

ENGL 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/199/](https://courses.illinois.edu/schedule/terms/ENGL/199/)) Topics course that varies each semester and by section. The topics offered each semester will be listed in the Class Schedule. Approved for letter and S/U grading. May be repeated.

ENGL 200  Introduction to the Study of Literature and Culture  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/200/](https://courses.illinois.edu/schedule/terms/ENGL/200/)) Introduction to the study of literature in the twenty-first century. This course will expand your sense of what literature is and where it happens, including discussion of old and new literary forms (from novels, poems, and plays to comic books, video games, and films). Along the way, students will explore some of the literary and cultural opportunities (such as author readings, scholarly talks, and performances) available to them on a large public university campus, with two goals in mind: to develop your critical interpretive skills and to acquaint you with the discipline of literary studies as it is being practiced all around us today, both inside and outside the conventional classroom.

This course satisfies the General Education Criteria for:

**Humanities - Lit Arts**

**Cultural Studies - Western**

ENGL 202  Medieval Literature and Culture  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/202/](https://courses.illinois.edu/schedule/terms/ENGL/202/)) Introduction to the diverse literatures and cultures of the global Middle Ages (approximately 500-1500 CE). Students will read works by medieval authors in Modern English translation, with particular attention to placing works in their historical and material contexts. Same as CWL 253 and MDVL 201. Prerequisite: Completion of the Composition I requirement.

This course satisfies the General Education Criteria for:

**Humanities - Lit Arts**

**Cultural Studies - Western**
ENGL 204  Renaissance Literature and Culture  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/204/](https://courses.illinois.edu/schedule/terms/ENGL/204/))
Readings in English and continental literary masterpieces with attention to significant cultural influences. Same as CWL 255. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

ENGL 206  Enlightenment Literature and Culture  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/206/](https://courses.illinois.edu/schedule/terms/ENGL/206/))
Study in Anglophone and global texts from the period 1600 to 1800, with attention to cultural and historical contexts. Same as CWL 257. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

ENGL 207  Romantic Literature and Culture  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/207/](https://courses.illinois.edu/schedule/terms/ENGL/207/))
An introduction to the literature, philosophy, fine arts, and social criticism of the Romantic era, with attention to broader cultural and historical issues. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

ENGL 208  Victorian Literature and Culture  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/208/](https://courses.illinois.edu/schedule/terms/ENGL/208/))
While Queen Victoria was on the throne (1837-1901), Britain became a world power, but often looked backwards to the lovely worlds of the past. Many of the era's great literary works reflect this tension between realism and romance: between the realism of being a poor governess and the romance of finding true love in Jane Eyre; the tragedy of losing your best friend and the hope of emotional survival in In Memoriam; the practical work of building a useful device and the fantasy of visiting the dystopian future in The Time Machine. Literature studied in this class will include poetry, prose, drama, and fiction, possibly including works by Charlotte Brontë, Charles Dickens, Elizabeth Gaskell, Mary Seacole, Thomas Carlyle, Alfred Tennyson, Robert Browning, Christina Rossetti, William Morris, Oscar Wilde, H.G. Wells, Olive Schreiner, or George Bernard Shaw. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

ENGL 209  Early British Literature and Culture  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/209/](https://courses.illinois.edu/schedule/terms/ENGL/209/))
This course surveys more than a thousand years of British literature from the early Middle Ages through the Renaissance and well into the eighteenth century. But what does "British literature" really mean, especially in the context of an island archipelago populated by multiple nations (England, Ireland, Scotland, and Wales) and repeatedly subjected to foreign rule (either by violent invasion or dynastic succession)? The range of texts we thus characterize as "early British literature" is staggering, and part of our goal in this course will simply be to appreciate the sheer volume and breadth of written work created in Britain and Ireland between the sixth and eighteenth centuries. We will do this through a necessarily selective sampling of historical periods, languages, and genres. Our authors will range from the famous (e.g., Chaucer, Shakespeare, and Milton) to the lesser-known (e.g., Marie de France, Lady Mary Wroth, and Eliza Haywood) to the unknown (e.g., the anonymous Beowulf-poet). Prerequisite: Completion of the Composition I requirement and ENGL 200.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

ENGL 210  Modern British Literature and Culture  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/210/](https://courses.illinois.edu/schedule/terms/ENGL/210/))
This course covers literature written during a tumultuous time in British history: first the Industrial Revolution, which created new forms of wealth from iron and steam; then the rise of the British Empire to global power; then the twentieth-century shocks of World War and decolonization. British writers responded to these transformations with passionate romantic novels, with thoughtful poems meditating on war and empire, and with visions of a more inclusive post-imperial society. Writers covered in this survey course may include Jane Austen, William Wordsworth, Mary Shelley, Charlotte Brontë, Charles Dickens, Robert Browning, Oscar Wilde, H.G. Wells, Virginia Woolf, T.S. Eliot, Philip Larkin, Hanif Kureishi, Zadie Smith, or Kazuo Ishiguro. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

ENGL 211  Introduction to Modern African Literature  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/211/](https://courses.illinois.edu/schedule/terms/ENGL/211/))
Same as AFST 210 and CWL 210. See AFST 210.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

Information listed in this catalog is current as of 01/2022
ENGL 213  Modernist Literature and Culture  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/213/](https://courses.illinois.edu/schedule/terms/ENGL/213/))  
Study of literature, philosophy, visual and performing arts, social criticism, and popular sciences of the Anglo-American Modern period (1880-1920), with attention to broad cultural issues. Prerequisite: Completion of the Composition I requirement.  
This course satisfies the General Education Criteria for:  
Humanities - Lit Arts  
Cultural Studies - Western  

ENGL 216  Legends of King Arthur  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/216/](https://courses.illinois.edu/schedule/terms/ENGL/216/))  
Arthurian myth and legend is one of the most enduring literary traditions of Western Europe, and the characters of Arthur, Merlin, Guinevere, Lancelot, Gawain and Mordred were as popular in the Middle Ages as they are today. Originating in early medieval Wales, the legends traveled through England to France and Germany and throughout the modern world. Students will study the development of the Arthurian tradition in chronicles, poetry, romances, lais, and fabliaux, comparing variations across cultural and historical boundaries. Same as CWL 216 and MDVL 216. Prerequisite: Completion of the Composition I requirement.  
This course satisfies the General Education Criteria for:  
Humanities - Lit Arts  
Cultural Studies - Western  

ENGL 218  Introduction to Shakespeare  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/218/](https://courses.illinois.edu/schedule/terms/ENGL/218/))  
Representative readings of Shakespeare's drama and poetry in the context of his age, with emphasis on major plays; selections vary from section to section. Prerequisite: Completion of the Composition I requirement.  
This course satisfies the General Education Criteria for:  
Humanities - Lit Arts  

ENGL 219  Literature and Medicine  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/219/](https://courses.illinois.edu/schedule/terms/ENGL/219/))  
Introduction to the interchange between the medical and literary imaginations – how diseases, bodies, and minds get written about and represented culturally. The premise of the course is that ideas and experiences concerning our health are always mediated through the literature we read, the films we watch, and the stories we tell our doctors and that they tell us. Our focus will be on how literature and film have played and continue to play a crucial role in understanding health on local, national, and global scales.  
This course satisfies the General Education Criteria for:  
Humanities - Lit Arts  

ENGL 220  Literature and Science  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/220/](https://courses.illinois.edu/schedule/terms/ENGL/220/))  
Explores the mutual influences of science and literature in some key literary and non-literary texts. Covers scientific texts, literary works, and cultural theory to explore how and why scientific knowledge is intimately linked to literature.  
This course satisfies the General Education Criteria for:  
Humanities - Lit Arts  

ENGL 221  Speculative Futures  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/221/](https://courses.illinois.edu/schedule/terms/ENGL/221/))  
Introduces majors and non-majors to several important conversations arising from the expansive genre of speculative fiction. In this course students will explore some of the most profound, disturbing, and downright bizarre imaginings of the future that human beings have generated. Climate change, ageing, fascist regimes, reproductive rights, technological failures, scientific advancements, and apocalypse are just a few of the possible topics for this class. Course materials will be drawn from literary works, contemporary and historical scientific developments, and cultural theory to explore how and why speculative futures are linked to specific cultural contexts, technologies, and social schemes.  
This course satisfies the General Education Criteria for:  
Humanities - Lit Arts  

ENGL 222  Jewish American and US Minority Literatures in Dialogue  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/222/](https://courses.illinois.edu/schedule/terms/ENGL/222/))  
Same as CWL 209 and JS 209. See JS 209.  
This course satisfies the General Education Criteria for:  
Humanities - Lit Arts  
Cultural Studies - US Minority  

ENGL 223  Jewish Storytelling  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/223/](https://courses.illinois.edu/schedule/terms/ENGL/223/))  
Same as CWL 221, JS 220, REL 220, and YDSH 220. See YDSH 220.  
This course satisfies the General Education Criteria for:  
Humanities - Lit Arts  
Cultural Studies - US Minority  

ENGL 224  Latina/o Popular Culture  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/224/](https://courses.illinois.edu/schedule/terms/ENGL/224/))  
Same as LLS 240 and SPAN 240. See LLS 240.  
This course satisfies the General Education Criteria for:  
Cultural Studies - US Minority  

ENGL 225  Intro to Latina/o Literature  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ENGL/225/](https://courses.illinois.edu/schedule/terms/ENGL/225/))  
Same as LLS 242 and SPAN 242. See LLS 242.  
This course satisfies the General Education Criteria for:  
Humanities - Lit Arts  
Cultural Studies - US Minority
ENGL 241 Modern Poetry  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/241/)
Studies poetry in English during the first half of the twentieth century, including Modernist experimentalism and its aftermath. Class time focuses on close readings of poems by major figures such as W. B. Yeats, T. S. Eliot, Ezra Pound, H.D., Hart Crane, Claude McKay, Robert Lowell, Elizabeth Bishop, W. H. Auden, and Langston Hughes. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for:
Cultural Studies - Western

ENGL 242 Contemporary Poetry  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/242/)
Explores the diversity of poetry in English from 1960 to the present, focusing on various poetic movements (the Beats, confessionalists, New York school, ecopoetics, postcolonial poetry, poetry of witness, and spoken word). Poets for consideration include Allen Ginsberg, Sylvia Plath, Adrienne Rich, Frank O’Hara, Gary Snyder, Derek Walcott, Carolyn Forché, Sharon Olds, Rita Dove, and Mark Doty. Prerequisite: Completion of the Composition I requirement.

ENGL 245 The Short Story  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/245/)
Historical and critical study of the short story (American and European) from the early nineteenth century to the present. Same as CWL 267. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for:
Humanities - Lit Arts

ENGL 247 The British Novel  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/247/)
A study of some of the more noteworthy and influential writers of the last two hundred and fifty years. The course traces the development of the novel as a genre that both celebrated and critiqued Britain and British nationalism. Examines how the novel has been important culturally over time. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for:
Humanities - Lit Arts

ENGL 248 British, American, and Continental Fiction  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/248/)
Same as CWL 269. See CWL 269. This course satisfies the General Education Criteria for:
Humanities - Lit Arts

ENGL 250 Nineteenth-Century American Fiction  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/250/)
Nineteenth-century fiction gave us some of the most iconic images in American culture--the scarlet letter, the white whale--and some of the most captivating works about American life and society. This course will explore how fictional texts articulated the problems of nineteenth-century democracy, including the crises over slavery leading to the Civil War, and the rise of large-scale capitalism and urban modernity later in the century. We will look at such literary movements as sentimentalism, sensationalism, realism, and naturalism, among others. Writers studied might include Herman Melville, Edith Wharton, Nathaniel Hawthorne, Harriet Beecher Stowe, Henry James, Charles Chesnutt, Mark Twain, Pauline Hopkins, Catharine Maria Sedgwick, and many others. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for:
Humanities - Lit Arts

ENGL 251 The Twentieth-Century American Novel  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/251/)
Critical study of selected American novels from the twentieth century. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for:
Humanities - Lit Arts

ENGL 253 Topics in Literature and New Media  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/253/)
Introduction to the role technological invention has played in history of print media and how literary aesthetics are changing with the advent of new media, such as software, video games, and graphic novels. We will consider material formats, genres, and modes of production along with the cultural, political, and societal implications of different forms and formats. May be repeated in separate terms up to 6 hours. This course satisfies the General Education Criteria for:
Humanities - Lit Arts

ENGL 255 Early American Literature and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/255/)
This large-scale survey course offers students background in a wide range of genres, authors, and texts, focusing on "early American literature," which ranges from pre-Columbian indigenous narratives to nineteenth century novels, poems, and plays. The material studied ranges across multiple centuries and continents, and includes a wide variety of racial, ethnic, and gendered perspectives. Writers may include Christopher Colombus, Anne Bradstreet, Benjamin Franklin, Phillips Wheatley, William Apess, Nathaniel Hawthorne, Edgar Allan Poe, Frederick Douglass, Henry David Thoreau, Herman Melville, Harriet Jacobs, Walt Whitman, and Emily Dickinson. Prerequisite: Completion of the Composition I requirement and ENGL 200. This course satisfies the General Education Criteria for:
Humanities - Lit Arts

Cultural Studies - Western
ENGL 256  Survey of American Lit II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/256/)
American literature and its cultural backgrounds after 1870. Prerequisite: Completion of the Composition I requirement and ENGL 200.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

ENGL 259  Early African American Literature and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/259/)
An introduction to the study of early African American literary and cultural production, ranging from the earliest writings by African descended people in British North America in the eighteenth century to the end of World War I. At each turn, we will situate texts in their cultural and historical contexts, attending not only to the specificity of a particular text’s moment, but also to the forces of contingency and tradition at play in the construction of literary, cultural, and political communities. Throughout our discussions we will think about both the "African-ness" and "American-ness" of African American literature as collective and imaginative processes. Early African Americans wrote for a variety of reasons—philosophical, political, pleasurable, instrumental—and protesting slavery and racism was just one (albeit an important one) among many of those reasons. We will read letters, poems, sermons, songs, constitutions and bylaws for religious and civic organizations, stories, and texts that defy easy categorization. Writers may include Phillis Wheatley, David Walker, Maria Stewart, Frederick Douglass, Harriet Jacobs, Frances E.W. Harper, William Wells Brown, W.E.B. Du Bois, Pauline Hopkins, Charles Chesnutt, Paul Lawrence Dunbar, Alice Dunbar Nelson, and Ida B. Wells. Same as AFRO 259 and CWL 259. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

ENGL 260  Modern African American Literature and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/260/)
Historical and critical study of African American literature in its social and cultural context between 1915 and 1980. Same as AFRO 260 and CWL 260. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

ENGL 261  Topics in Literature and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/261/)
Introductory study of variety of topics in literature and culture, including those that bridge traditional historical periods, focus on themes or movements, and cross disciplinary boundaries. May be repeated up to 6 hours, if topics vary. Prerequisite: Completion of the Composition I requirement.

ENGL 265  Intro to American Indian Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/265/)
Same as AIS 265. See AIS 265.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - US Minority

ENGL 266  Grimm’s Fairy Tales in Context  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/266/)
Same as CWL 254 and GER 251. See GER 251.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

ENGL 267  Grimm’s Fairy Tales - ACP  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/267/)
Same as CWL 250 and GER 250. See GER 250.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Lit Arts
Cultural Studies - Western

ENGL 268  The Holocaust in Context - ACP  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/268/)
Same as CWL 271 and GER 260. See GER 260.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Lit Arts
Cultural Studies - Western

ENGL 269  The Holocaust in Context  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/269/)
Same as CWL 273, GER 261, and JS 261. See GER 261.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western
ENGL 270  American Film Genres  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/270/)
Introduction to the study of the dominant genres or types U.S. cinema. Examines the elements that constitute genres (such as visual and narrative patterns), the formation and reshaping of genres by filmmakers and the entertainment industry, the social and cultural factors that influence the genre cycles and subgenres, and the landmark works of each genre. The course treats several genres in historical perspective or focus on a single genre. May be repeated in separate terms up to 6 hours if topics vary. This course satisfies the General Education Criteria for: Humanities - Lit Arts

ENGL 272  Minority Images in Amer Film  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/272/)
Addresses how a range of films made in the United States have represented diverse ethnicities and cultures in relation to each other and to dominant American media conventions and social ideas. A comparative, case study approach examines racial and gender stereotyping, historical and economic factors, and reactions of various audiences to the films. Same as AFRO 272. Prerequisite: Fulfillment of the Composition I English requirement; sophomore standing or above.

ENGL 273  American Cinema, 1950-2000  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/273/)
Explores key issues in America cinema during the second half of the twentieth century, connecting central problems of film studies (e.g., authorship, genre, narratology, style, gender analysis, and the spectacle of violence) to moments of major transition in the American film industry (e.g., the Red Scare and the end of the Production Code in the 1950s; the emergence of the New Hollywood and the breakdown of the studio system in the 1960s; and the rise of the mega-blockbuster in the 1970s). Same as MACS 273. Prerequisite: Completion of the Composition I requirement.

ENGL 275  Am Indian and Indigenous Film  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/275/)
Same as AIS 275 and MACS 275. See AIS 275. This course satisfies the General Education Criteria for: Humanities - Lit Arts

Cultural Studies - US Minority

ENGL 276  Asian Film Genres  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/276/)
Studies a variable selection of popular film genres produced and circulated in Asia (e.g., martial arts, horror, musicals, anime, melodramas, science fiction, monster movies, comedy) that have an impact across the region, with emphasis on East and Southeast Asia, and beyond. Takes a historical and transnational comparative approach to analyzing shifting narrative and visual and other cinematic realizations of each genre across different contexts, including Western reception and cross-cultural adaptations. Same as CWL 276 and EALC 276. This course satisfies the General Education Criteria for: Humanities - Lit Arts

Cultural Studies - Non-West

ENGL 277  Gender in Gaming  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/277/)
Same as GWS 204 and MACS 204. See GWS 204.

ENGL 280  Women Writers  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/280/)
Study of British and American women authors. Same as GWS 280. May be repeated with permission of English advising office to a maximum of 6 hours if topics vary. Prerequisite: Completion of the Composition I requirement.

ENGL 281  Women in the Literary Imagination  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/281/)
Study of the way writers of all genders have portrayed women's images, social roles, and psychologies in British, American, or Anglophone literatures. Same as GWS 281. May be repeated in separate semesters to a maximum of 6 hours if topics vary; with permission from English advising office. Prerequisite: Completion of the Composition I requirement.

ENGL 284  Modern Jewish Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/284/)
Same as CWL 284, JS 284, and REL 284. See JS 284. This course satisfies the General Education Criteria for: Humanities - Lit Arts

ENGL 285  Postcolonial Literature in English  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/285/)
Examination of selected postcolonial literature, theory, and film as texts that "write back" to dominant European representations of power, identity, gender and the Other. Postcolonial writers, critics and filmmakers studied may include Franz Fanon, Edward Said, Aime Cesaire, Ousmane Sembene, Chinua Achebe, Michelle Cliff, Mahesweta Devi, Buchi Emecheta, Derek Walcott and Marlene Nourbese-Philip. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for: Humanities - Lit Arts

Cultural Studies - Non-West

ENGL 286  Asian American Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/286/)
Introduction to Asian American literary studies and culture through the reading of major works of literature selected from but not limited to the following American ethnic subgroups: Chinese, Filipino, Japanese, Korean, Indian, Pakistani, and Vietnamese. Same as AAS 286. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for: Humanities - Lit Arts

Cultural Studies - US Minority
ENGL 290  Individual Study  credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/290/)
Study of selected topics. Approved for both letter and S/U grading. May be repeated to a maximum of 6 hours. Students may register in more than one section per term. Prerequisite: Consent of instructor.

ENGL 293  The Anthropocene  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/293/)
Focuses on the current historical period of humans’ relative dominance over major Earth systems. Introduces students to debates surrounding the scientific basis for the Anthropocene, followed by a survey of its major historical periodizations, from the so-called “Paleo-Anthropocene” of human agriculture, to industrialization, to the post-1950 ”Great Acceleration” in economic development and resource consumption whose consequences we now face in crisis phenomena such as climate change, water scarcity, resource wars, and environmental refugeeism. Same as ESE 293.

ENGL 301  Introduction to Critical Theory  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/301/)
Introduction to the critical frameworks and methods that have had the greatest impact on the field of literary studies. Students will read, discuss, and write about numerous theoretical approaches, including (but not limited to) critical race studies, ecocriticism, feminism, Marxism, postcolonialism, poststructuralism, psychoanalysis, queer theory, and structuralism. No previous background with theory is required. Prerequisite: Completion of the Composition I requirement; one year of college literature or consent of instructor. For majors only.

ENGL 310  Introduction to the Study of the English Language  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/310/)
Topics in the study of the English language, with emphasis on one or more of the following: the social, political, historical, technological, legal, and economic aspects of language use. Credit is not given for both ENGL 311 and ENGL 310.

ENGL 311  History of the English Language  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/311/)
Language variation and change from the earliest forms of English to the present day, with emphasis on the rise of Standard English and the social, geographic, and cultural aspects of linguistic change in English. Credit is not given for both ENGL 310 and ENGL 311.

ENGL 322  Dostoevsky  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/322/)
Same as CWL 324 and RUSS 322. See RUSS 322.

ENGL 323  Tolstoy  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/323/)
Same as CWL 323 and RUSS 323. See RUSS 323.

ENGL 325  Topics in LGBT Literature and Film  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/325/)
Explores topics on representations of non-heteronormative sexuality in canonical and recovered historical texts and in contemporary literature, on literature by LGBT authors, and on theories of sexuality that pertain to systems of textual and cultural meaning. May be repeated in separate terms to a maximum of 6 hours, if topics vary.

ENGL 330  Slavery and Identity  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/330/)
Explores slavery in the Americas through its representation in literature over time. Using a variety of disciplinary approaches, we will look at the enslaved, the enslavers, and the middle merchants who facilitated the slave trade, and will examine the experience of slavery and the economic, political, religious, and scientific justifications used to maintain it. We will also examine the African cultural traditions from which the slaves emerged and the aspects of it that lent to creation of the new U.S. culture.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - US Minority

ENGL 333  Memoir & Autobiography  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/333/)
Same as GWS 333. See GWS 333.

ENGL 350  Writing about Literature, Text, and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/350/)
Writing-intensive, variable-topic course designed to improve English majors’ ability to produce clear, well-organized, analytically sound and persuasively argued essays relevant to English studies. Introduces students to research techniques through the examination of critical texts appropriate to the course topic. Credit is not given for ENGL 300 and ENGL 350. Prerequisite: Completion of the Composition I requirement; one year of college literature or consent of instructor. For majors only.
This course satisfies the General Education Criteria for:
Advanced Composition

ENGL 357  Literatures of the Displaced  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/357/)
Same as AAS 357, AIS 357, GWS 357, and LLS 357. See LLS 357.

ENGL 359  Responses to the Holocaust  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/359/)
Same as CWL 320, JS 320, REL 320, and YDSH 320. See CWL 320.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

ENGL 360  Environmental Writing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/360/)
Same as ESE 360. See ESE 360.
This course satisfies the General Education Criteria for:
Advanced Composition
ENGL 373  Special Topics in Film Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/373/)
Extended investigation of major subjects and issues in cinema and other media; topics vary and typically include studies of author/directors, genres, historical movements, critical approaches, and themes. Same as MACS 373. May be repeated with permission of English advising office to a maximum of 6 hours if topics vary. Prerequisite: One college-level course in film studies or literature.

ENGL 374  World Cinema in English  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/374/)
Course systematically addresses cinema movements and films of different periods, genres, themes and styles produced in one or two Anglophone countries other than the U.S. (e.g., Great Britain, Ireland, Australia, New Zealand, Canada, South Africa, and regions with Anglophone film movements or strands like South Asia and the Caribbean). Topics could include cinema in relation to relevant distinctive national and cultural histories, local audiences and production circumstances, and the challenges of international distribution in light of Hollywood’s global dominance. Meets for 110 minutes twice a week, with some class time devoted to film screenings (not always on same day) and some longer feature films scheduled in required out-of-class screenings announced well in advance. May be repeated to a maximum of 6 credit hours in separate terms if topics vary.

ENGL 378  Fairy Tales & Gender Formation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/378/)
Same as GWS 378. See GWS 378.

ENGL 380  Topics in Writing Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/380/)
Advanced-level work in the field of Writing Studies. Building upon a traditional disciplinary understanding of writing as rhetoric, this course invites students to call upon sociological, anthropological, and/or ideological approaches to the study of writing in order to understand the myriad ways that writing makes meaning(s). See Class Schedule for topics. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Completion of the Composition I requirement.

ENGL 390  Advanced Individual Study  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/390/)
Advanced study of selected topics. Approved for both letter and S/U grading. May be repeated in the same or separate terms to a maximum of 6 hours. Prerequisite: Consent of instructor.

ENGL 391  Honors Individual Study  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/391/)
Study of selected topics. Restricted to English and English education majors with a 3.33 average who are working towards the degree with distinction in English or in English education. May be repeated to a maximum of 6 hours. Prerequisite: Enroll in undergraduate advising office.

ENGL 396  English Honors Seminar  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/396/)
An open-topic, discussion-oriented seminar aimed at majors who have shown high skill and intensive interest in the area of English studies. May be repeated up to 6 hours in the same term to a maximum of 12 hours. Prerequisite: A 3.33 grade point average or consent of the English Department's Director of Undergraduate Studies. Restricted to English majors.

ENGL 400  Senior Capstone Seminar  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/400/)
In this senior-year capstone required for students in the Topics in English concentration of the English major (and optional for those in English and English Teaching concentrations), students will work in dialogue with their classmates and professor to develop a major project of their own design: a single thesis-like paper, an electronic project, or a connected portfolio of smaller projects. Capstone projects will consolidate students’ previous study of English and help each student assess what they have learned, bringing their studies to a sense of completion and providing a direction for their future interests. 3 undergraduate hours. No graduate credit. Prerequisite: Restricted to senior English majors.

ENGL 402  Descriptive English Grammar  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/402/)
An introduction to English linguistics with emphasis on the phonetic, syntactic, and semantic structures of English; language variation, standardization, and change; language legislation and linguistic rights; English as a world language; and the study of language in American schools. Same as BTW 402. 3 undergraduate hours. 4 graduate hours.

ENGL 404  Engl Grammar for ESL Teachers  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/404/)
Same as EIL 422. See EIL 422.

ENGL 407  Introduction to Old English  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/407/)
Introduction to the form of English spoken and written prior to about AD 1100. Exploring concepts of cultural, historical, and linguistic change, students will learn to read Old English texts in the original. Readings include examples from the prose tradition (e.g., Bede’s story of the poet Caedmon and Ælfric’s Lives of Saints) as well as poetic texts (e.g., The Dream of the Rood and The Wanderer). Same as MDVL 407. 3 undergraduate hours. 4 graduate hours.

ENGL 411  Chaucer  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/411/)
A selection of Chaucer’s major works read in Middle English. Instructors will usually emphasize either the Canterbury Tales or Troilus and Criseyde and the dream visions, but alternate combinations of texts are possible. Students will also be introduced to Chaucer’s fourteenth-century context. Same as MDVL 411. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 412  Topics in Medieval British and Irish Literature  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/412/)
Advanced topics course exploring the literatures of medieval Britain and Ireland, concentrating on texts in Old and/or Middle English but with some attention to Celtic, French, Latin, and Norse texts in translation. Same as CWL 417 and MDVL 410. 3 undergraduate hours. 4 graduate hours. May be repeated with permission of English advising office to a maximum of 6 undergraduate hours if topics vary; Graduate students may repeat if topics vary. Prerequisite: One year of college literature or consent of instructor.

Information listed in this catalog is current as of 01/2022
ENGL 416   Topics in British Drama to 1660  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/416/)
Advanced topics course devoted to dramatic practice in the medieval and/or early modern British Isles. 3 undergraduate hours. 4 graduate hours. May be repeated with permission of English advising office to a maximum of 6 undergraduate hours if topics vary; Graduate students may repeat if topics vary. Prerequisite: One year of college literature or consent of instructor.

ENGL 418   Shakespeare  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/418/)
Survey of the plays and poems of William Shakespeare. Reading assignments will reflect the generic diversity and historical breadth of Shakespeare's work. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 421   Renaissance Poetry and Prose  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/421/)
Advanced study of poetry and prose written between the reign of Elizabeth I and the late seventeenth century. Authors may include Philip Sidney, Edmund Spenser, Ben Jonson, Mary Wroth, John Donne, Katherine Philips, Andrew Marvell, Margaret Cavendish, and others. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 423   Milton  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/423/)
Focused study of the major male and female playwrights who wrote between 1660 (the reopening of the theaters after the Interregnum) and roughly 1800. Particular attention will be devoted to the social, cultural, political, and economic contexts of theatrical performance, and to the major issues dealt with on the London stage: sexual morality, the role of women in a patriarcal society, and the problems of empire, trade, and colonialism. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 427   Eighteenth-Century Literature  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/427/)
Advanced study of British literature between 1660 (the restoration of Charles II to the throne) and 1800. The course focuses on poems, plays, novels, and nonfiction works from the period, paying particular attention to issues of gender relations, colonialism, imperial expansion, the slave trade, and class tensions. Writers covered may include Aphra Behn, Mary Astell, Joseph Addison, Bernard Mandeville, Alexander Pope, Daniel Defoe, Lady Mary Wortley Montagu, Eliza Heywood, Jonathan Swift, Samuel Richardson, Henry Fielding, Charlotte Lennox, Samuel Johnson, Laurence Sterne, Olaudah Equiano, Charlotte Smith, Mary Wollstonecraft, and others. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 428   British Drama, 1660-1800  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/428/)
Focused study of the major male and female playwrights who wrote between 1660 (the reopening of the theaters after the Interregnum) and roughly 1800. Particular attention will be devoted to the social, cultural, political, and economic contexts of theatrical performance, and to the major issues dealt with on the London stage: sexual morality, the role of women in a patriarcal society, and the problems of empire, trade, and colonialism. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 429   Eighteenth-Century Fiction  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/429/)
Focused study of British and Anglophone fiction in the eighteenth century. Authors may include Defoe, Swift, Haywood, Fielding, Richardson, Sterne, Burney, Walpole, Radcliffe, and others. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 431   Topics in British Romantic Literature  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/431/)
Focused study of British literature between roughly 1785 and 1832. Authors may include Wollstonecraft, Wordsworth, Coleridge, Keats, Byron, Austen and others. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 435   Nineteenth-Century British Fiction  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/435/)
From Jane Austen's witty couples to Charles Dickens's haunted reformers and Bram Stoker's aristocratic vampires, the characters, stories, and novels created by British writers in the nineteenth century still fascinate us today. This research class gives students a chance to read deeply in the prose fiction of this period; texts may include William Thackeray's Vanity Fair, Emily Brontë's Wuthering Heights, Oscar Wilde's The Picture of Dorian Gray, Wilkie Collins's The Moonstone, and Joseph Conrad's Heart of Darkness. 3 undergraduate hours. 4 graduate hours. May be repeated with permission of English advising office to a maximum of 6 undergraduate hours if topics vary; Graduate students may repeat if topics vary. Prerequisite: One year of college literature or consent of instructor.

ENGL 441   Innovation and Conflict in British and Irish Modernism  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/441/)
This course will examine British and Irish modernism, one of the most dynamic, provocative, and experimental periods in literary history. The early decades of the twentieth century witnessed the rapid introduction of new technologies, the upheaval of global politics, the radical transformation of gender roles, and the traumatic fallout from two world wars. The period's literature and art processed these turbulent cultural experiences through extreme formal experimentation, and this course will consider many of the key works emerging from the modernist and avant-garde movements. Among the authors we'll study are Joseph Conrad, W. B. Yeats, James Joyce, Virginia Woolf, T.S. Eliot, Charlie Chaplin, and Samuel Beckett. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 442   Contemporary British and Irish Literature  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/442/)
This course considers how the unresolved problems of the past continue to haunt the literature of contemporary Britain, Ireland, and the postcolonial Anglophone world. These "returns of the repressed" range from personal traumas and difficult truths that have not been fully processed to groups of people who have suffered systematic inequality and violence. The texts we will read in ENGL 442 address the traumatic collapse of the post-war British empire, focusing not only on Britain's uneasy relationship to immigrants and postcolonial subjects but also on shifting gender roles, changing conceptions of sexual identity, and anxieties about literature's continued relevance in the context of new media. Readings may include works by Pat Barker, Kazuo Ishiguro, Ian McEwan, Hanif Kureishi, Zadie Smith, Tom McCarthy, Angela Carter, and Jeanette Winterson. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.
ENGL 449 American Romanticism credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/449/)

Inspired by waves of radical thought and experimental writing that swept across Europe around 1800, Romanticism came late to America and stayed longer than it did across the Atlantic. This class examines the period known as "American Romanticism" (1820-1865), which saw the rise of a rich national literature even as the nation itself teetered on the edge of collapse, tested by economic panics, westward expansion, brawling electoral politics, and fierce debates over the future of slavery. Writers appearing in this course might include Washington Irving, Frederick Douglass, Edgar Allan Poe, Ralph Waldo Emerson, Harriet Jacobs, Henry David Thoreau, Herman Melville, Fanny Fern, Harriet Beecher Stowe, Walt Whitman, and Emily Dickinson. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 450 Becoming Modern: American Literature, 1865-1914 credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/450/)

After the Civil War the United States entered a period of accelerating modernization and change. This course addresses how the nation's writers helped build modern America in response to a host of exciting and daunting developments in economics, science, and politics, including the enfranchisement of African Americans, Jim Crow segregation laws, growing income inequality, the rise of unions and anarchist movements, the invention of the automobile and the department store, new sciences such as including Darwinism and psychoanalysis, and American empire-building in places like Hawai'i and the Philippines. Writers studied might include Emily Dickinson, Mark Twain, Henry James, Booker T. Washington, W.E.B. DuBois, Zitkala-Sa, Stephen Crane, William Dean Howells, and Edith Wharton. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 451 American Literature in the Age of Modernism credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/451/)

American literature in the age of Modernism includes some of the most influential and provocative writing in the nation's history. American writers responded to a series of upheavals including changing gender and race relations, World War I, the "Roaring Twenties," and the Great Depression by pursuing both boundary-breaking themes and revolutionary experiments in form. Readings will include a generous selection from such writers as Ernest Hemingway, F. Scott Fitzgerald, Robert Frost, Willa Cather, Gertrude Stein, Wallace Stevens, William Carlos Williams, T. S. Eliot, Langston Hughes, Dorothy Parker, Anita Loos, William Faulkner, Nella Larsen, Zora Neale Hurston, Dashiell Hammett, D'Arcy McNickle, Carson McCullers, and many others. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 452 The Postwar Era and Contemporary American Literature credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/452/)

Examines American literature from the end of WWII to today, an era when U.S. society, politics, and culture came under pressure from such upheavals as the feminist movement, the Civil Rights movement, the Cold War, Vietnam, and the rise of neoliberalism—all of them occurring under the ever-present threat of nuclear annihilation. While writers struggled with the changes and dangers of a nation and world in such unprecedented flux, the poetry, plays, fiction, memoirs, and films they produced in response to this new precariousness forged a fertile artistic moment in popular literature that sustained previous traditions (in realism, science fiction, children's literature, and romance) and in an avant-garde opposed to all forms of social and literary conformity. Writers studied might include Gwendolyn Brooks, Thomas Pynchon, Amiri Baraka, David Foster Wallace, Toni Morrison, Tony Kushner, Ursula K. Le Guin, and Alice Walker. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 455 Major Authors credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/455/)

Intensive study of the work of one or two major authors. 3 undergraduate hours. 4 graduate hours. May be repeated with permission of English advising office to a maximum of 6 undergraduate hours if topics vary. May be repeated for graduate credit if topics vary. Prerequisite: One year of college literature or consent of instructor.

ENGL 458 Latina/o Performance credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/458/)

Same as LLS 458. See LLS 458.

ENGL 459 Topics in American Indian Lit credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/459/)

Same as AIS 459. See AIS 459.

ENGL 460 Literature of American Minorities credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/460/)

Advanced topics seminar exploring literary expressions of minority experience in America. 3 undergraduate hours. 4 graduate hours. May be repeated with permission of English advising office to a maximum of 6 undergraduate hours if topics vary; Graduate students may repeat if topics vary. Graduate students may repeat as topics vary. Prerequisite: One year of college literature or consent of instructor.

ENGL 461 Advanced Topics in Literature and Culture credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/461/)

Advanced seminar on any of a variety of topics in literature and culture, including those that bridge traditional historical periods, focus on themes or movements, and cross disciplinary boundaries. 3 undergraduate hours. 4 graduate hours. May be repeated with permission of English advising office to a maximum of 6 undergraduate hours if topics vary; Graduate students may repeat if topics vary. Prerequisite: One year of college literature or consent of instructor.

ENGL 462 Topics in Modern Fiction credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/462/)

Advanced seminar devoted to topics in British, American, and Anglophone fiction from approximately 1800 to the present day. Continental fiction in English translation may occasionally be considered. 3 undergraduate hours. 4 graduate hours. May be repeated with permission of English advising office to a maximum of 6 undergraduate hours if topics vary. May be repeated for graduate credit if topics vary. Prerequisite: One year of college literature or consent of instructor.

ENGL 467 Multimedia Environmental Communications credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/467/)

Same as ESE 467. See ESE 467.

ENGL 470 Modern African Fiction credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/470/)

Same as AFST 410, and CWL 410. See AFST 410.
ENGL 481 Composition Theory and Practice credit: 3 or 4 Hours.
Study of the history and theory of written composition. This course explores basic rhetorical principles, various theoretical perspectives in the field of composition/rhetoric, and helps students form practical approaches to the guidance of, response to, and structuring of student writing. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 482 Writing Technologies credit: 3 or 4 Hours.
Examines the relationship of computer technology to the larger field of writing studies. Topics include a historical overview of computers and other writing technologies; current instructional practices and their relation to various writing theories; research on word processing, computer-mediated communication, and hypermedia; and the computer as a research tool. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 485 Literature for the High School credit: 3 or 4 Hours.
Study of the history and theory of written composition. This course explores basic rhetorical principles, various theoretical perspectives in the field of composition/rhetoric, and helps students form practical approaches to the guidance of, response to, and structuring of student writing. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 486 History of Translation credit: 3 or 4 Hours.
Same as CLCV 430, CWL 430, GER 405, SLAV 430, SPAN 436, and TRST 431. See SLAV 430.

ENGL 498 Environmental Writing for Publication credit: 3 Hours.
Same as ESE 498. See ESE 498.

ENGL 500 Intro to Criticism & Research credit: 4 Hours.
Introductory course in methods and techniques in research and literary criticism.

ENGL 503 Historiography of Cinema credit: 4 Hours.
Same as CWL 503 and MACS 503. See MACS 503.

ENGL 504 Theories of Cinema credit: 4 Hours.
Same as CWL 504 and MACS 504. See MACS 504.

ENGL 505 Writing Studies credit: 4 Hours.
Reviews theory and research on the social and historical development of writing systems, including consideration of the relationship between oral and written language, writing and other graphic representation systems, alternative technologies, the evolution of writing systems, and the social functions of literacy. Same as CI 563. Prerequisite: Admission to the graduate programs of a unit offering the graduate specialization in Writing Studies, or consent of instructor.

ENGL 514 Seminar in Medieval Literature credit: 4 Hours.
Intensive study of selected texts, genres, themes, or theoretical issues in medieval British literature (usually focusing on either Old English or Middle English texts), or of scholarly methods in medieval studies (such as editing, paleography, or bibliography and methods of historical research). Same as MDVL 514. May be repeated if topics vary. Prerequisite: A college course devoted entirely to an aspect of medieval studies or consent of instructor.

ENGL 519 Seminar in Shakespeare credit: 4 Hours.
May be repeated if topics vary. Prerequisite: A college course devoted entirely to an aspect of Shakespeare's work or consent of instructor.

ENGL 524 Seminar in Early Modern Literature credit: 4 Hours.
Seminar dedicated to the study of texts, genres, themes, and/or theoretical issues from the non-Shakespearean literature of the early modern period (approximately 1500-1700). 4 graduate hours. No professional credit. May be repeated in separate terms to a maximum of 16 hours, if topics vary. Prerequisite: A college course devoted entirely to an aspect of Renaissance studies or consent of instructor.

ENGL 527 Seminar in 18th C Literature credit: 4 Hours.
May be repeated if topics vary. Prerequisite: A college course devoted entirely to an aspect of eighteenth-century studies or consent of instructor.
ENGL 533  Seminar Romantic Lit  credit: 4 Hours.  
May be repeated if topics vary. Prerequisite: A college course devoted entirely to an aspect of Romantic studies or consent of instructor.

ENGL 537  Seminar Victorian Lit  credit: 4 Hours.  
May be repeated if topics vary. Prerequisite: A college course devoted entirely to an aspect of Victorian studies or consent of instructor.

ENGL 543  Seminar Mod British Lit  credit: 4 Hours.  
May be repeated if topics vary. Prerequisite: One college course devoted entirely to an aspect of modern British studies or consent of instructor.

ENGL 547  Seminar Earlier American Lit  credit: 4 Hours.  
May be repeated if topics vary. Prerequisite: One college course devoted entirely to an aspect of American studies or consent of instructor.

ENGL 553  Seminar Later American Lit  credit: 4 Hours.  
May be repeated if topics vary. Prerequisite: One college course devoted entirely to an aspect of American studies or consent of instructor.

ENGL 559  Seminar Afro-American Lit  credit: 4 Hours.  
May be repeated if topics vary. Prerequisite: One college course devoted entirely to an aspect of American literature or consent of instructor.

ENGL 563  Seminar Themes and Movements  credit: 4 Hours.  
May be repeated if topics vary. Prerequisite: One year of graduate study of literature or consent of instructor.

ENGL 564  Seminar Lit Modes and Genres  credit: 4 Hours.  
May be repeated if topics vary. Prerequisite: One year of graduate study of literature or consent of instructor.

ENGL 578  Seminar Lit & Other Disciplines  credit: 4 Hours.  
May be repeated if topics vary. Prerequisite: One year of graduate study of literature or consent of instructor.

ENGL 581  Seminar Literary Theory  credit: 4 Hours.  
May be repeated if topics vary. Prerequisite: A college course devoted entirely to criticism or consent of instructor.

ENGL 582  Topics Research and Writing  credit: 4 Hours.  
Focuses on the diverse research paradigms that are often employed in the study of writing processes. Topics will vary each term. Examines past and current writing research in the topic area with an emphasis on the critical examination of research designs and the influence of epistemologies on the interpretation of data. Same as CI 565. May be repeated to a maximum of 8 hours. Prerequisite: Graduate standing in writing studies or consent of instructor.

ENGL 583  Topics Writ Pedagogy & Design  credit: 4 Hours.  
Examines the relationships among writing studies, theories of pedagogy, and the practice of the writing teacher and administrator. Also focuses on particular problems or particular schools of thought. Typical topics include Writing Program Design and Administration; Writing, Thinking, and Problem Solving; The Classroom as a Research Site; Collaborative Learning; and Writing Across the Curriculum and Discourse Communities. Requirements will vary with instructors and topics. Same as CI 566. May be repeated to a maximum of 8 hours. Prerequisite: Graduate standing in writing studies or consent of instructor.

ENGL 584  Topics Discourse and Writing  credit: 4 Hours.  
Focuses on the modes of inquiry central to writing research. The course topic will vary each term and may address such issues as cognitive research and writing, ethnographic research and writing, and discourse analysis and writing. Same as CI 569. May be repeated to a maximum of 8 hours. Prerequisite: Graduate standing in writing studies or consent of instructor.

ENGL 586  Topics in Digital Studies  credit: 4 Hours.  
Inquiry into theory and research in one or more areas of digital scholarship, including new media studies, digital humanities, social media studies, and/or critical code studies. Same as CI 586. 4 graduate hours. No professional credit. May be repeated in separate terms up to 8 hours, if topics vary.

ENGL 591  Research in Special Topics  credit: 1 to 4 Hours.  
Independent study under the guidance of a member of the graduate faculty. May be repeated to a maximum of 8 hours.

ENGL 593  Professional Seminar in College Teaching  credit: 0 to 4 Hours.  
Seminar on undergraduate pedagogy for new graduate instructors. Individual sections will focus on the teaching of film, literature, or rhetoric. 0 to 4 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated by PhD students to a maximum of 8 hours as topics vary. Credit is not given for more than 8 hours, but course may be repeated for no credit. Prerequisite: Graduate standing in the Department of English or consent of instructor. Students needing the proseminar for their programs will be given priority enrollment.

ENGL 599  Thesis Research  credit: 0 to 16 Hours.  
Guidance in writing theses for doctoral degrees. Approved for S/U grading only. May be repeated up to a maximum of 16 hours. Prerequisite: Doctoral candidate standing.
ENSU - Environmental Sustainability

ENSU Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ENSU/)

Courses

ENSU 300  Environmental Sustainability  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENSU/300/)
Same as LA 370 and NRES 370. See LA 370.

ENSU 301  Soc Impacts Weather & Climate  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENSU/301/)
Examines the interconnectedness of weather, climate and society. Focus is on the complex relationship between weather, climate and society from both a physical and social perspective with an examination of the role of sustainability in both impacts and future mitigation. Discussions focused on the physical principles driving the weather and climate and how they interact with all aspects of society. Same as ATMS 322.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

ENSU 302  Air Pollution to Global Change  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENSU/302/)
Develops the science of air pollution across spatial scales with an Earth-systems approach. Considers how fossil fuel combustion, agriculture development, waste generation, synthetic chemicals production, biomass burning, and changes in land use are significantly altering levels of radiatively and chemically active gases and aerosols in the atmosphere, and how these pollutants interact at local, regional, and global scales. The systems nature of the processes through which air pollution is linked to global change will be examined via integrated science assessment modeling that includes feedbacks from societal policies, industrial practices, and human populations. Same as ATMS 323.

ENSU 303  Sustainable Business I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENSU/303/)
At the dawn of the 21st century, business and society is confronted with a confluence of factors, including environmental degradation, widespread poverty, and the need for renewable sources of energy. The diverse sources of information that point to an uncertain future suggests that a 'business as usual' approach has to be replaced with more proactive alternatives that address the needs of the environment, consumer welfare and community development. This course on sustainable marketing management begins to address these issues and engender an appreciation among our students for the challenges that lie ahead for businesses. Looks at the relationship between sustainable business practices, societal welfare, and ecological systems. Student projects will apply marketing and business concepts to create a sustainable business plan for organizations.

ENSU 310  Renewable & Alternative Energy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENSU/310/)
Fossil fuel supplies are finite and growing energy demands of an ever increasing population will quickly deplete these reservoirs. Focuses on the use and availability of renewable and alternative energy sources such as wind, solar, bio-fuels, ethanol, geothermal and nuclear power as well as the impacts of using these alternative energy sources on climate, society and the global economy. Students will develop the student's perspective on human energy consumption at all scales through a complete scale analysis of energy production and consumption – from the individual to the national government to the world economy.

ENSU 410  Sustainable Organizations  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENSU/410/)
Explores the notion of sustainability as a core business tenant, and how entrepreneurs and their companies are working to create and capture financial, social, and environmental value. The focus is on large, for profit companies, but lessons will extend to smaller, non-profit, and governmental organizations. The aim is to prepare participants for the green challenge of adopting and implementing socially responsible practices in the workplace. 4 undergraduate hours. 4 graduate hours.

Information listed in this catalog is current as of 01/2022
ENT - Entomology

ENT Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ENT/)

Courses

ENT 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/ENT/599/)
Work may be taken in the following subjects: insect genetics; insect behavior; applied entomology; systematic entomology; biology and ecology of insects; and insect physiology. Approved for S/U grading only. May be repeated.
ENVS - Environmental Studies

ENVS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ENVS/)

Courses

ENVS 101 Introduction to Energy Sources  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/101/)
Same as NPRE 101. See NPRE 101.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences
Quantitative Reasoning II

ENVS 210 Environmental Economics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/210/)
Same as ACE 210, ECON 210, NRES 210, and UP 210. See ACE 210.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

ENVS 220 Communicating Agriculture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/220/)
Same as AGCM 220 and NRES 220. See AGCM 220.
This course satisfies the General Education Criteria for:
Advanced Composition

ENVS 299 Ind Studies of Env. Topics  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/299/)
Approved for letter and S/U grading. Prerequisite: Consent of instructor.

ENVS 301 Tools for Sustainability  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/301/)
Develops systems-thinking skills needed to make connections between different disciplines to better understand problems and trade-offs related to sustainability. Students will gain competence in conducting cost-benefit and life-cycle analyses and learn about sustainability metrics while improving their ability to communicate about the integrated dimensions of sustainability within an interdisciplinary setting. Prerequisite: For students enrolled in the Sustainability, Energy and Environment Fellows Program.

ENVS 310 Natural Resource Economics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/310/)
Same as ACE 310, and NRES 310. See ACE 310.

ENVS 330 Environmental Communications  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/330/)
Same as AGCM 330 and NRES 330. See AGCM 330.

ENVS 336 Tomorrow's Environment  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/336/)
Same as CHLH 336 and CPSC 336. See CPSC 336.

ENVS 380 Environmental Geology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/380/)
Same as GEOL 380. See GEOL 380.

ENVS 406 Urban Ecology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/406/)
Same as UP 406. See UP 406.

ENVS 420 Conservation Biology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/420/)
Same as CPSC 436 and IB 451. See IB 451.

ENVS 430 Comm in Env Social Movements  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/430/)
Same as AGCM 430 and NRES 430. See AGCM 430.

ENVS 431 Environ Toxicology & Health  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/431/)
Same as CHLH 461 and IB 485. See IB 485.

ENVS 433 Pesticide Toxicology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/433/)
Same as CB 434 and IB 486. See IB 486.

ENVS 447 Environmental Sociology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/447/)
Same as RSOC 447 and SOC 447. See SOC 447.

ENVS 469 Environmental Health  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/469/)
Same as CHLH 469. See CHLH 469.

ENVS 474 Principles of Epidemiology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/474/)
Same as CHLH 474 and PATH 474. See CHLH 474.

ENVS 480 Basic Toxicology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/480/)
Same as CB 449, CPSC 433 and FSHN 480. See FSHN 480.
ENVS 491  Sustainability Experience  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/491/)
Students will work with faculty, staff, and/or the Student Sustainability Committee to advance campus sustainability goals and the Illinois Climate Action Plan. This course is designed to enable students to apply their disciplinary knowledge to tackle inherently interdisciplinary problems, while also developing and enhancing their critical analysis, leadership, organizational, and project management/evaluation skills and preparing them for addressing sustainability issues in their careers. 1 to 4 undergraduate hours. 1 to 4 graduate hours. Approved for letter and S/U grading. May be repeated, if topics vary. Prerequisite: Consent of instructor.

ENVS 492  Sustainability, Energy and Environment Capstone  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/492/)
Problem-focused learning and a holistic and interdisciplinary perspective to address critical sustainability-related challenges facing society. Students will gain critical thinking skills to examine the sustainability of various decisions, analyze the trade-offs between the economic, environmental and social dimensions of sustainability of alternative solutions, learn techniques to operationalize the concept of sustainability and develop practical skills in sustainability assessment. Team projects will develop team building skills, communication skills and project management skills. 4 undergraduate hours. No graduate credit. Prerequisite: ENVS 301. For students enrolled in the Sustainability, Energy and Environment Fellows Program.

ENVS 510  Adv Natural Resource Economics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/510/)
Same as ACE 510, ECON 548, and NRES 510. See ACE 510.

ENVS 514  Neurotoxicology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/514/)
Same as CB 514 and PSYC 515. See CB 514.

ENVS 516  Reprod & Dev Toxicology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/516/)
Same as CB 516. See CB 516.

ENVS 527  Statistics in Epidemiology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENVS/527/)
Same as CHLH 527 and PATH 525. See CHLH 527.

ENVS 596  Interdisciplinary Tox Sem  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ENVS/596/)
Same as PATH 596 and CB 596. See CB 596.

EPOL - Ed Policy, Org & Ldership

Courses

EPOL 199 Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/199/)
Various special topics. See class schedule for offerings. Approved for Letter and S/U grading. May be repeated in the same or separate terms as topics vary.

EPOL 201 Foundations of Education  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/201/)
Studies some of the problems of formulating and justifying aims and policies in American education, of designing and systematizing the curriculum, of organization and social context of the public school system, and of the teaching-learning process; examined in terms of perspectives provided by social philosophy, history, sociology, and philosophy of education. Same as EPS 201.

EPOL 202 Foundations of Education-ACP  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/202/)
Course is identical to EPS 201 except for the additional writing component. Same as EPS 202. Credit is not given for both EPS 202 and EPS 201. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition

EPOL 250 Experiences of US Minorities in Public Schools  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/250/)
This course provides a foundational approach to examining the diverse experiences of minority groups in the United States from the Colonial Era to the present. Particular attention is paid to how social constructions of race in US history dictated parameters around citizenship, immigration and the right to attend public schools. Racial and cultural identities are not examined in isolation, but in critical ways that gender, class, sexual identity and abilities have also informed processes of (mis)understandings in the classroom. Students are encouraged to reflect deeply on the topics as well as consider possibilities of addressing structural inequality in education as we enter a new demographic era where racial diversity will be the mainstay.

EPOL 310 Race and Cultural Diversity  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/310/)
Study of race and cultural diversity from Colonial era to present; the evolution of racial ideology in an ethnically heterogeneous society; the impact of race on the structures and operations of fundamental social institutions; the role of race in contemporary politics and popular culture. Same as AAS 310, AFRO 310, EPS 310, and LLS 310. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition
Cultural Studies - US Minority

EPOL 325 Social Media and Global Change  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/325/)
Social media is a new frontier of politics, religion, commerce, courtship, and education. It has altered an array of social relations from statecraft to sex. The course draws on case studies from across the globe to explore the wide-ranging transformation taking place, from how people organize mass uprisings, to ways they manage the most intimate details of their lives. Examples will be taken from the Middle East, East Asia, Africa, Latin America, the US and Europe. Same as AFST 325, ASST 325, EPS 325, EURO 325, INFO 325, LAST 325, REES 325, and SAME 325.

EPOL 350 Social Learning and Knowledge  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/350/)
This course explores how we access and generate knowledge. In formal education, the legacy classroom is also being augmented with technology or replaced entirely with online learning. Across a wide range of domains of knowledge, the traditional separations between knowledge producers (experts or teachers) and knowledge consumers (everyday citizens or students) are undergoing transformation. In this course you will be exposed to the changing landscape of knowledge and learning through a hands-on experience of collaborative knowledge production and learning. Issues and concepts to be addressed include Web 2.0, participatory media, peer-to-peer knowledge networks, ‘the commons’, informal online learning, and the dynamics of formal e-learning ecologies.
This course satisfies the General Education Criteria for:
Advanced Composition
Social Beh Sci - Soc Sci

EPOL 370 Effective Workplace Relations  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/370/)
Introduces the knowledge and skills required to be successful in today’s globalized workplace through the study of human interactions, also known as human relations. Students learn about the various issues in contemporary society that affect human behavior, and theories and strategies to improve interactions with others. The course uses a variety of activities to facilitate student’s ability to understand the theories and apply strategies and techniques to ensure more effective human functioning in the workplace.

EPOL 380 Education and Social Justice  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/380/)
Introduces students to key definitions, theories, and practices of justice in education. Using a combination of philosophical and political theory-based analyses of the features of justice: fairness, equity, representation, responsibility, and difference, among others, readings invite students to consider how education and schooling can help to nurture democratic ties and equity. Same as EPS 380.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

Information listed in this catalog is current as of 01/2022
EPOL 390  Undergraduate Advanced Seminar  credit: 0 to 9 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/390/)
Advanced undergraduate seminar that includes historical, philosophical, legal, and social science perspectives on education.Same as EPS 390.
Approved for Letter and S/U grading. May be repeated to a maximum of 9 hours.

EPOL 395  Independent Study  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/395/)
Designed for students who wish to do advanced readings and research in greater depth and to investigate further ideas and themes that have been explored in EPOL 199 and EPOL 201. Same as EPS 395. Prerequisite: EPOL 201; and consent of adviser and staff member who supervises the work.

EPOL 401  History of American Education  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/401/)
Development of American education in relation to political, social, and cultural developments; attention to the influence of movements in the cultural environment upon evolving conceptions of educational theory and practice. Same as EPS 400. 3 undergraduate hours. 2 or 4 graduate hours.

EPOL 402  Asian American Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/402/)
Examination and analysis of Asian American education from the late 1800's to the present. Same as AAS 402 and EPS 402. 4 undergraduate hours. 4 graduate hours.

This course satisfies the General Education Criteria for:
Advanced Composition
Cultural Studies - US Minority

EPOL 403  Historical and Social Barriers  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/403/)
Examines the relationship between ability, race, class, and gender to citizenship and schooling. Particular emphasis is placed on how the construction of "citizenship" has been used as a tool to further deny equal participation in the public sphere such as schools. To that end, an application of historical understanding of social barriers to educational access is analyzed from the Colonial period to the present. Same as EPS 405. 3 undergraduate hours. 4 graduate hours.

EPOL 404  History of American Indian Education  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/404/)
Same as AIS 481 and EPS 481. See AIS 481.

EPOL 405  School and Society  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/405/)
Analyzes normative and conceptual aspects of the interrelationship of school and society, and of reciprocal influences between schools and major social trends and forces. Same as EPS 411. 3 undergraduate hours. 4 graduate hours.

EPOL 406  Professional Ethics in Education  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/406/)
Philosophical examination of selected educational issues; conveys a grasp of the complexities of the issues and some philosophical methods for dealing with them. Same as EPS 410. 3 undergraduate hours. 4 graduate hours.

EPOL 407  Critical Thinking in Education  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/407/)
Examination of critical thinking dispositions and abilities as an approach to the foundations of knowledge and structure of thinking in subject-matter areas. Same as EPS 412. 3 undergraduate hours. 4 graduate hours.

EPOL 408  Aesthetic Education  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/408/)
Theoretical introduction to the problems involved in teaching critical appreciation of the arts; examines materials from aesthetics, art history, and criticism for their relevance to the problems of aims, curriculum, organization, and teaching-learning. Same as EPS 413. 3 graduate hours. 4 graduate hours.

EPOL 409  Sociology of Education  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/409/)
Education as a social process in various cultures and historical periods, emphasizing current systems in Westernized countries. Same as EPS 420. 3 undergraduate hours. 2 or 4 graduate hours. Differential credit will be based on additional assignments and requirements as specified by instructor.

EPOL 410  Racial and Ethnic Families  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/410/)
Sociological examination of how gender, race, ethnicity, cultural diversity and class function in the development of diverse American families, which are important foundations of education. Primary attention will be given to African American and Hispanic families. Secondary attention will be given to Asian American, Native American and other racial and ethnic family groups. Same as AFRO 421, EPS 421, and HDFS 424. 3 undergraduate hours. 2 or 4 graduate hours.

EPOL 411  Race, Educational Policy, and Sociology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/411/)
Same as EPS 422 and SOC 426. See SOC 426.

EPOL 412  Politics of Education  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/412/)
Overview of the political structure and processes through which many of the major issues in education are treated; analyzes nature of the policymaking process in education and discusses the roles of principal participants in the process of educational decision making, but focuses on fundamental recurring issues in education and the ways these issues have been resolved or not resolved by the overall system. Particular attention to the role that both the federal and state judiciary as well as legislative authority have had in shaping educational policy. Same as EPS 423. 3 undergraduate hours. 4 graduate hours.

EPOL 413  Economics of Education  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/413/)
Introduction to economic concepts and their application to education, including investment and consumption theories of education and the role of human capital in economic growth and development; cost-benefit analyses in education, education and the distribution of income, and manpower and educational planning. Same as EPS 424. 3 undergraduate hours. 2 or 4 graduate hours.
EPOL 414  Anthropology of Education  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/414/)
Same as ANTH 425, EPS 425, and EPSY 466. See EPSY 466.

EPOL 420  Global Migration and Education  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/420/)
This course will integrate contemporary global and comparative perspectives on the study of migration and formal education at the preschool, primary and secondary (P-12) levels. Students will critically examine how institutions of education around the world are shaped by migration, as well as how migrant students and their families interface with educational institutions in resettlement contexts. Specific topics will include: policy responses, curricular approaches, language(s) of instruction, teacher and learner identities, and community-school dynamics. 3 undergraduate hours. 4 graduate hours.

EPOL 440  Professional Issues for Teachers  credit: 1 or 3 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/440/)
Provides the basic common understanding of schools as social organizations and the professional role of teachers in public schools; analyzes selected legal issues relating to student rights, employment and teacher rights, and collective bargaining in schools; and serves as an introduction to instructional supervision, teacher evaluation, and continuing professional development of teachers. Same as EOL 440. 3 undergraduate hours. 1 graduate hour. Prerequisite: Admission into a teacher preparation program. 1 hour section requires concurrent enrollment in EDPR 432 or EDPR 442.

EPOL 470  Principles of Human Resource Education  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/470/)
Study of the basic concepts and practices of education for and about work: its philosophical foundations and historical development, mission and goals, structure and function, curricular areas of emphasis, learner audiences served and settings in which programs are conducted, and issues and trends affecting program change. Same as HRD 400. 3 undergraduate hours. 4 graduate hours.

EPOL 471  Business Principles for Human Resource Development  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/471/)
Study of essential business understandings, knowledge, and skills required for HRD professionals to interact effectively with others in the business community. Same as HRD 402. 3 undergraduate hours. 4 graduate hours.

EPOL 472  Instructional and Training System Design  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/472/)
Provides instruction and practice in the selection, organization, and preparation of content for instructional programs in business and technical settings. Provides students with a theoretical orientation to instructional design as well as the opportunity to experience the instructional design process as it applies to business and technical settings through the development of instructional materials. Same as HRD 411. 3 undergraduate hours. 4 graduate hours.

EPOL 473  Facilitation Skills  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/473/)
Provides an in-depth examination into the body of knowledge of effectively facilitating groups, including the nature of groups, the dynamics of individuals within groups, effective planning, role clarification, identification of intervention points in groups, and effective use of tools and techniques. The theoretical foundations for the course reside in theories of human values, group dynamics, decision-making, communication, managing conflicts, and effective group intervention. Course emphasis is on experiential learning, with students practicing self-reflection and self-directed facilitations. Same as HRD 414. 3 undergraduate hours. 4 graduate hours.

EPOL 474  Diversity in the Workplace  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/474/)
Examines the ways in which "diversity" is conceived, defined and enacted within a range of workplace environments. This course provides a foundation to help students understand and develop the cross-cultural competence necessary to work and lead effectively in today's global workforce. This course is designed to provide evidence-based insights, as well as proven individual, interpersonal, organization-level strategies to harness the power of diversity and inclusion in teams, organizations, markets, and societies. Same as HRD 415. 3 undergraduate hours. 4 graduate hours.

EPOL 475  Work Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/475/)
The ability to analyze work is a fundamental skill for individuals interested in human resource development. Work analysis is necessary for identifying job standards, designing training programs, performance support systems, evaluating work performance, and perhaps most importantly improving performance. This course will provide students with the opportunity to learn and use range of work analysis techniques and to apply this information in service to an organization. Same as HRD 440. 3 undergraduate hours. 4 graduate hours. Prerequisite: HRD 400 or consent of instructor.

EPOL 476  Project Management Principles and Applications  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/476/)
Effective project management skills are essential for successful professional development. This course, in particular, studies the basic principles, techniques, and best practices related to managing personnel, time, and resources in education and training projects. Through a variety of learning activities, including case study review and project simulation, students will apply project management concepts and tools in various training and education-related project development. Same as HRD 475. 3 undergraduate hours. 4 graduate hours.

EPOL 477  Issues and Developments in Human Resource Development  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/477/)
Special course for experimentation or for seminar on topics not treated by regularly scheduled courses. Topics vary; consult Class Schedule for specific section offerings. Same as HRD 490. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 8 hours.

EPOL 480  Technology and Educational Reform  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/480/)
Examines the normative and policy issues raised by the use of new information and communication technologies in education. The course is interdisciplinary, drawing from social and historical as well as philosophical perspectives on these issues. Same as EPS 415. 3 undergraduate hours. 4 graduate hours.
EPOL 481 New Learning credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/481/)
Education is in a state of flux - transitioning from traditional architectures and practices to new ecologies of teaching and learning influenced by the tremendous social and technological change of our times. What changes are afoot today in workplaces, civic life and everyday community life? What are their implications for education? What are the possible impacts of contemporary social transformations on teaching and learning - including in the areas of technology, media, globalization, diversity, changing forms of work in the "knowledge society", and, in these contexts, changing learner needs and sensibilities? This course explores three pedagogical paradigms: "didactic", "authentic" and "transformative" learning. It takes a historical perspective in order to define the contemporary dimensions of what we term "new learning". It prepares participants to make purposeful choices and link particular theories/instructional approaches to individual and group learning goals. Same as EPS 431. 3 undergraduate hours. 4 graduate hours.

EPOL 482 Designing and Evaluating eLearning Systems credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/482/)
Surveys and examines models and theories for designing eLearning systems across disciplines and organizations. Particular emphasis is given to topics on designing instructor-led and/or autonomous learning systems for individual learners and for organizations in contemporary technology-enabled environments. In addition, this course covers introductory methodologies for evaluating the efficacy of various eLearning systems. The guiding philosophy of the course is that intended learning outcomes by any eLearning system should be achieved through systematic and pedagogically grounded design and evaluation processes while considering various individuals' and organizations' needs. Same as CI 484 and HRD 472. 3 undergraduate hours. 4 graduate hours.

EPOL 483 Learning Technologies credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/483/)
Addresses two important needs of educators. First, educators should be aware of recent developments in the area of instructional technology. Second, educators must be able to select, develop, and effectively use appropriate instructional technologies to enhance learning and communication. To meet these needs, this course covers a wide range of instructional technologies that are used for instructional and administrative purposes. Traditional instructional media are considered in the course although significant emphasis is placed on more recent developments that involve the use of the computer and its applications in education. Instructional technologies such as computer-based instruction, computer-based testing, distance learning, interactive video, and intelligent instructional technologies are covered. Through course readings, discussions, and projects, students in the course are expected to gain skills in choosing appropriate instructional technologies, designing effective presentations that rely on those technologies, and properly using instructional technologies to enhance communication with an audience. Same as CI 484 and HRD 472. 3 undergraduate hours. 4 graduate hours.

EPOL 484 Evaluating Learning Technology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/484/)
Same as EPSY 474 and HRD 474. See EPSY 474.

EPOL 485 Introduction to eLearning credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/485/)
Seeks to build foundational knowledge in areas associated with online teaching and learning and distance education in both higher education and workplace learning settings. Major areas of interest include the overview of online teaching and learning strategies, digital learning system design, digital media for learning, and evaluation online teaching and learning. Same as HRD 480. 3 undergraduate hours. 4 graduate hours.

EPOL 486 New Media & Learner Differences credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/486/)
An investigation of the dimensions of learner diversity: material (class, locale), corporeal (age, race, sex and sexuality, and ability) and symbolic (culture, language, gender, family, affinity and persona). Examines social-cultural theories of difference, as well as considering alternative responses to these differences in educational settings - ranging from broad, institutional responses to specific pedagogical responses within classes of students. 4 undergraduate hours. 4 graduate hours.

EPOL 490 Special Study and Investigation credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/490/)
Offers opportunity for an individual to study, on or off campus, selected problems, trends, and new developments in education or to conduct specialized investigations for the improvement of instructional programs. 2 to 4 undergraduate hours. 2 or 4 graduate hours. Approved for Letter and S/U grading. May be repeated to a maximum of 12 hours.

EPOL 491 Supervised Internship credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/491/)
While employed in approved cooperating organizations, students observe the relationship between reform or innovations and organizational performance. Same as HRD 492. 2 or 4 undergraduate hours. 2 or 4 graduate hours.

EPOL 500 Proseminar in EPOL credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/500/)
Introduces new doctoral students in EPOL to the variety of educational research traditions in order to foster reflective inquiry and critical research literacy. 4 graduate hours. No professional credit. Prerequisite: Admission to a doctorate program in EPOL.

EPOL 501 History of U.S. Educational Thought credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/501/)
Studies the evolution of educational theories and philosophies since the eighteenth century; particular reference to their impact upon educational developments in the United States; a broad view of the general growth of American educational thought; and attention to selected major educational theorists, or schools of thought, exploration of their fundamental ideas, and the relation of these ideas to significant intellectual currents in American culture. Same as EPS 501. 4 graduate hours. No professional credit. Prerequisite: Consent of instructor.

EPOL 502 Education in the 20th Century credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/502/)
Historical study of significant educational trends during the past sixty years, with special reference to their influence on American education; an analytical examination of the principal transition movements in the last decade of the nineteenth century and of efforts to solve the problems since 1900. Same as EPS 502. 4 graduate hours. No professional credit.

Information listed in this catalog is current as of 01/2022
EPOL 503  Seminar in the History of Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/503/)
Intensive group study of a small number of selected problems to assist individual students to develop an understanding of and the ability to use the techniques of historical research in furthering such study; problems studied are selected in the light of the interests and previous training of the group of students enrolled. Same as EPS 503. 4 graduate hours. No professional credit. Prerequisite: Two courses in the history of education or consent of instructor.

EPOL 505  Traditions in Philosophy of Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/505/)
Analyzes major trends and primary sources in philosophy of education, drawing mainly from the 20th century. Movements covered will include pragmatism, concept analysis, phenomenology, feminism, and Marxism/Critical theory. Same as EPS 510. 4 graduate hours. No professional credit. Prerequisite: An appropriate 300- and 400-level coursework in philosophy, philosophy of education, or consent of the instructor.

EPOL 506  Contemporary Philosophy of Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/506/)
Analyzes exemplary current work in the field, covering a range of contrasting philosophical issues and approaches. The course goal is to provide familiarity with notable contemporary authors from a variety of perspectives. Same as EPS 511. 4 graduate hours. No professional credit.

EPOL 507  Philosophy and Educational Research  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/507/)
Examines some crucial assumptions and concepts of contemporary research in education from the point of view both of the consumer and the practitioner of educational research. Topics include paradigm conflicts, causal attributions in social science, assessment, ethical problems in the conduct of research, and the assumptions of quantitative research. Same as EPS 515. 4 graduate hours. No professional credit.

EPOL 508  Social Theories and Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/508/)
Examines philosophical issues in social and political theory as they pertain to educational problems. The course includes topics such as autonomy, democratic education, educational reform, and social change. Same as EPS 516. 4 graduate hours. No professional credit.

EPOL 509  Case Studies Professional Ethics and Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/509/)
Examines issues in moral philosophy as they pertain to education. Topics include current theories of moral education, ethical problems in teaching, or topics of moral dispute in educational policy. Same as EPS 517. 4 graduate hours. No professional credit. Prerequisite: Consent of instructor.

EPOL 510  Foundations of Aesthetic Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/510/)
Philosophical approach to the problems of teaching for appreciation in formal education; appraisal of the status of aesthetic education, its nature and function, and its relation to other types of education. Same as EPS 520. 4 graduate hours. No professional credit.

EPOL 515  Introduction to Diversity & Equity  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/515/)
Designed to broaden and deepen students' reflective understanding of diversity and equity and promote a critical and analytical approach to research on relevant topics, as well as support the development of scholar-practitioners. While diversity is inclusive of social and economic status, gender, race, religion, sexuality, ethnicity, ability, and culture, the course is organized around intersectional identity formations as they continue to inform educational and workforce policies and practices. Throughout this course, students will examine the definitions, role, function and effects of diversity and equity in broadly defined educational structures. The dynamics of power and privilege impact the ways in which diversity and equity manifest, particularly via educational and social policies. Same as EPS 576. 4 graduate hours. No professional credit.

EPOL 516  Critical Race Theory and Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/516/)
Focuses on critical race theory as a critique of racism and the law in U.S. society and discusses its current applications to education policy and research in K-12 schooling and higher education. Also looks at how critical race theory can be used as a methodological lens for policy analysis and educational research. Same as EPS 531. 4 graduate hours. No professional credit.

EPOL 517  Race, Gender and Sexuality Issues  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/517/)
Examines contemporary theories of race, gender, class, and sexuality, as well as analyzing how their dynamics play out in U.S. public schooling and history. In an attempt to discuss a range of disciplinary and theoretical approaches to diversity, we will shift among historical, sociological, political, theoretical and pedagogical issues. Traces the place of diversity in forming notions of citizenship, community, identity, and political affiliation/alliance. While two extended examples will focus on the interplay of race, class, and gender in the school-based issues of drop out rates and gendered interactions in the classroom and playground, we will also consider contemporary theories of diversity in local and global contexts. Same as EPS 536. 4 graduate hours. No professional credit.

EPOL 518  Youth, Culture and Society  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/518/)
Same as AAS 539, EPS 539, and HDFS 539. See HDFS 539.

EPOL 520  Education and Globalization  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/520/)
Analyses of the role and functions of education in social, political, and economic development, with particular reference to the new and the developing countries. Same as EPS 530. 4 graduate hours. No professional credit.

EPOL 521  Globalizing Educational Policy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/521/)
Dynamics associated with globalization are now fully articulated to modern schooling and the social and cultural environments in which both school youth and educators operate. This course will reconsider the boundaries of educational policy and practice beyond the mainstream emphasis on subject matter specialization, as educators more fully engage with the complex range of experiences, images, and practices that now compel modern school youth and affect their articulation of needs, interests and desires. Same as EPS 537. 4 graduate hours. No professional credit.
EPOL 522  Globalization of Higher Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/522/)
Focuses on the rapid changes happening in the Higher Education around the world. Using case studies, we will examine a variety of issues that have come about as the Higher Education system responds to rapid changes in the global economy. These include issues of access and equity, accountability, finance, privatization and for-profit institutions; curricular responses to the changing realities of knowledge and knowledge production; and issues of internationalization within these changing contexts. We will also look at future trends in higher education within the US and internationally. Same as EPS 538. 4 graduate hours. No professional credit.

EPOL 523  Global Issues in Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/523/)
Investigates how culture has been taken up in theories that try to explain differences in educational outcomes between nations, within classrooms, and across schools. Through readings drawn from cultural psychology, but also including sociology, anthropology, and education, students will examine how globalization has shaped the discourse about the relationships between culture, learning, and academic achievement. Same as EPS 553 and EPSY 553. 4 graduate hours. No professional credit. Prerequisite: For majors only.

EPOL 524  Education and Human Rights  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/524/)
Introduces students to varieties of definitions of citizenship - ranging from nation-specific practices and obligations to human rights-based global citizenship - and their relationship to globalized education and public problem solving. Readings include canonical texts on political organization and responsibilities as well as contemporary theories discussing transnational, global, and cosmopolitan citizenship. Also covers the challenges and promises of diversity, statelessness and non-citizenship participation, particularly in educational concerns but also more broadly. Same as EPS 529. 4 graduate hours. No professional credit.

EPOL 525  Global Youth and Citizenship  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/525/)
Discusses youth and citizenship in a global context. Covers the social construction of children and youth, the sociology of global generations, education and social media, and new youth movements in the digital age. Draws on a diversity of case studies from North America, the Middle East and North Africa, sub-Saharan Africa, Europe and Latin America. Same as EPS 533. 4 graduate hours. No professional credit.

EPOL 526  Education and Power in Middle East  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/526/)
Survey of education in Middle East and North Africa from the nineteenth century to the present. Course deals with education in relation to colonialism, nationalism, economic development, imperialism, war and geopolitics, youth politics, Islam, and Arab uprisings. Takes a multidisciplinary perspective that draws on social history, anthropology, sociology, political economy, gender studies and international development. Same as EPS 534. 4 graduate hours. No professional credit.

EPOL 527  Postcolonial Theory and Methodology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/527/)
Since the 1990s, scholarship focusing on center-periphery relations has grown considerably. This scholarship is often identified with postcolonial theories of education and society. The purpose of this course is to acquaint students with this body of literature that addresses the way in which post-independent states are currently engaged in massive institutional transformations in light of globalization. Ultimately, we will explore the theoretical and methodological traditions foregrounded in postcolonial research and their implications for educational policy. Same as EPS 570. 4 graduate hours. No professional credit.

EPOL 528  Researching Global Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/528/)
Introduces education research methodology and consider the cultural, political and ethical implications of engaging in education research in cross-cultural, global contexts. Students will learn to select an appropriate topic for research, effectively navigate and use an academic research library, conduct a literature review, and craft a literature review portion of a larger research project. Same as EPS 580. 4 graduate hours. No professional credit.

EPOL 529  Cultural Studies and Critical Interpretation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/529/)
Explores the history, applications and limitations of various theoretical and methodological approaches to the study of contemporary culture and popular media. Examines debates and issues within cultural studies and with other schools of thought. The impact of cultural studies across the disciplines. Same as EPS 575 and MDIA 575. 4 graduate hours. No professional credit.

EPOL 530  Educational Politics and Policies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/530/)
Examines the legislative and political processes in the formulation of current federal and state educational policies, together with the evaluation of policy and the formulation of policy alternatives. Same as EOL 561. 4 graduate hours. No professional credit.

EPOL 531  Diversity, Leadership & Policy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/531/)
Intended to provide students with an opportunity to study both historical and contemporary perspectives on leadership and policy in diverse contexts and to prompt reflection on their own practice. As students read, discuss, reflect on, and critique a variety of perspectives and topics such as race, class, power, cultural leadership, policy, change, diversity, and building community, they will consider how the literature informs the development of a personal philosophy of education leadership, takes into consideration moral and ethical issues, the implementation of educational policy, the purposes and nature of the task, and the complexity and diversity of educational contexts. Same as EOL 568. 4 graduate hours. No professional credit.

EPOL 532  Researching Race in Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/532/)
This course focuses on the methods and methodology that education researchers engage to research educational equity as it relates to race, racism and racial equity in education. Drawing on the research methods literature in the social sciences, humanities and education, this course is appropriate for graduate students in education, sociology, anthropology, and others who have an interest in research methods, methodology and educational issues. 4 graduate hours. No professional credit.

*Information listed in this catalog is current as of 01/2022*
EPOL 533  The School Superintendency  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/533/)
Course examines the legal and fiscal responsibilities of school superintendents, the relationship of superintendents with school boards and employee groups, the importance of public relations and partnerships with community stakeholders, the process for selecting superintendents, and the effect of the position on individuals. Same as EOL 563. 4 graduate hours. No professional credit. Prerequisite: Students must be admitted to the Superintendent Endorsement program or consent of instructor.

EPOL 534  Assessment for Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/534/)
For several decades now, assessment has become an increasingly pressing education priority. Teacher and school accountability systems have come to be based on an analysis of large-scale, standardized summative assessments. As a consequence, assessment now dominates most conversations about reform, particularly as a measure of teacher and school accountability for learner performance. Behind the often heated and at times ideologically gridlocked debates is a genuine challenge to address gaps in achievement between different demographically identifiable groups of students. There is an urgent need to lift whole communities and cohorts of students out of cycles of underachievement. For better or for worse, testing and public reporting of achievement is seen to be one of the few tools capable of clearly informing public policy makers and communities alike about how their resources are being used to expand the life opportunities for their children. This course is an overview of current debates about testing, and analyzes the strengths and weaknesses of a variety of approaches to assessment. The course also focuses on the use of assessment technologies in learning. It will explore recent advances in computer adaptive and diagnostic testing, the use of natural language processing technologies in assessments, and embedded formative assessments in digital and online curricula. Same as EPS 535. 4 graduate hours. No professional credit.

EPOL 535  Introduction to Educational Leadership  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/535/)
Multiple perspectives for understanding theory and practice in the governance and operation of complex organizations in P-12 school systems. Focusses on leadership development and the changing role of the school leader in leading learning-focused schools dedicated to significant and continuous growth for every student. Same as EOL 540. 4 graduate hours. No professional credit.

EPOL 536  Leading School Improvement  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/536/)
Study of major ideas on school improvement, past and present, and of emerging research on the condition of public education in the United States. In-depth examination of reform proposals for changing the organization of schools, the instructional program, and the roles of students, teachers, and school administrators. Same as EOL 543. 4 graduate hours. No professional credit.

EPOL 537  Education Law  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/537/)
Examines the range of federal and state constitutional and statutory sources that apply to the constituents (pupils, parents, teachers, administrators, and board members) engaged in public schools. Emphasizes development of legal analytical skills. Same as EOL 547. 4 graduate hours. No professional credit.

EPOL 538  Supervision of Learning Environments  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/538/)
Methods, theories, and research applying to the supervision and evaluation of classroom practices in learning-centered schools; includes analysis and application of research in effective teaching practices, formative assessment and summative evaluation, data collection techniques, and professional development. Same as EOL 541. 4 graduate hours. No professional credit.

EPOL 540  Leading Learning-Centered Schools  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/540/)
Provides an overview and analysis of the administrative, supervisory, and leadership functions of building-level administrators; emphasizes the design and implementation of effective educational programs on a school-wide basis; analyzes administrative tasks and processes that focus on learning-centered schools. Same as EOL 542. 4 graduate hours. No professional credit. Prerequisite: Priority will be given to department majors.

EPOL 541  Leading Improvement and Innovation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/541/)
In-depth examination of leadership competencies and skills required for the public school superintendent to successfully lead, innovate, and manage complex educational organizations. Analysis of research and evidenced-based practices that focus on learning, building organizational capacity, strategic design, and ensuring equity and excellence for all learners. Emphasis placed on preparing individuals to effectively lead socially just organizations that ensure high quality learning. Same as EOL 544. 4 graduate hours. No professional credit.

EPOL 542  Public School Finance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/542/)
Study of financing public education systems in the United States; focuses on the social, economic, political, legal, and technical dimensions of developing school finance policy for federal, state, and local governments; relates theory and research in public school finance to administrative practice in budgeting and financial administration. Same as EOL 546. 4 graduate hours. No professional credit.

EPOL 543  Educational Leadership and Professional Development  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/543/)
Study of major issues on educational leadership and professional development. Examination of research, theories, and practices pertaining to: professional development purposes, content, context, policies, and processes; fostering and sustaining quality professional development; and the roles of teachers, school administrators and policy analysts. Same as EOL 550. 4 graduate hours. No professional credit.

EPOL 544  Organizational Theory for Educational Leaders  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/544/)
Study of theoretical perspectives and empirical research drawn from the social sciences relating to educational organizations and administrative leadership with an emphasis on application of theory to practice. Same as EOL 549. 4 graduate hours. No professional credit.

EPOL 545  Ethical Dimensions in Educational Leadership  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/545/)
Designed to prepare students to analyze ethical issues involved in educational policy making, policy administration, and policy evaluation; includes topics such as educational equity, privacy, due process, and compliance; draws upon multiple disciplines to analyze issues developed out of practice. Same as EPS 522. 4 graduate hours. No professional credit.
EPOL 546 Law and School District Leader  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/EPOL/546/](https://courses.illinois.edu/schedule/terms/EPOL/546/))
Advanced study of public school law, addressing legal and fiscal policy issues related to effective management of public school districts. In-depth analysis of federal and state statutes, with an emphasis on recent court decisions and legal trends; emphasizes development of legal analytical skills. Same as EOL 562. 4 graduate hours. No professional credit.

EPOL 547 District Change for Equity and Social Justice  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/EPOL/547/](https://courses.illinois.edu/schedule/terms/EPOL/547/))
Critical examination of democratic principles of education, especially as it pertains to equity and social justice. Addresses the fundamental question of "Who gets access to the fundamental right of education and how?" Application of theories and concepts to the role of district leaders in implementing socially just educational settings. Same as EOL 564. 4 graduate hours. No professional credit.

EPOL 548 Human Resource Management at the School District Level  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/EPOL/548/](https://courses.illinois.edu/schedule/terms/EPOL/548/))
Principles, problems, and trends in the administration of professional public school personnel; organization of personnel; the legal framework of the personnel function; selection, evaluation and development of staff; collective bargaining, contract administration and personnel policy; and the personnel administrator's role as a catalyst for school improvement. Same as EOL 565. 4 graduate hours. No professional credit.

EPOL 549 School District Financial Management  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/EPOL/549/](https://courses.illinois.edu/schedule/terms/EPOL/549/))
Analysis of how public schools are managed, including the theory and managerial practices necessary to oversee the functioning of a school district; study of the integration of managerial issues with attendant conditions of school board functioning, priority and educational goal-setting, taxation, capital outlay, debt management, and contractual implementation. Emphasis placed on principles and practices relating to public school financial management, including budgeting and accounting systems. Same as EOL 566. 4 graduate hours. No professional credit.

EPOL 550 Methods of Educational Inquiry  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/EPOL/550/](https://courses.illinois.edu/schedule/terms/EPOL/550/))
Same as CI 550, EPSY 550, and SPED 550. See CI 550.

EPOL 551 Organization of Higher Education  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/EPOL/551/](https://courses.illinois.edu/schedule/terms/EPOL/551/))
Examination of American higher education both as a system and as a field of study. Includes consideration of organizational patterns, stakeholders, governance, and the purposes of higher education. Same as EOL 570. 4 graduate hours. No professional credit.

EPOL 552 Foundation of Higher Education  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/EPOL/552/](https://courses.illinois.edu/schedule/terms/EPOL/552/))
Examination of the development of American higher education, including the evolution of its forms, purposes, practices, leadership, and constituents. Same as EOL 571. 4 graduate hours. No professional credit.

EPOL 553 Administration in Higher Education  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/EPOL/553/](https://courses.illinois.edu/schedule/terms/EPOL/553/))
Designed for students to gain a greater understanding of administrative leadership in higher education. Provides current and future administrators an opportunity to explore foundational theories of academic organization and leadership; investigate contemporary leadership issues within various contexts; and develop analytical skills which connect theoretical frameworks to leadership practice and research. Same as EOL 584. 4 graduate hours. No professional credit.

EPOL 554 College Teaching  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/EPOL/554/](https://courses.illinois.edu/schedule/terms/EPOL/554/))
Scholarly approach to curriculum and pedagogy at the college level. Instructional methods, active and cooperative learning, technology-enhanced teaching, evaluation and assessment, faculty roles and responsibilities. Same as EOL 585. 4 graduate hours. No professional credit.

EPOL 555 Higher Education Finance  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/EPOL/555/](https://courses.illinois.edu/schedule/terms/EPOL/555/))
Explores the foundations of higher education finance by analyzing key theories, structures, and challenges of college and university financing. Students will examine readings, present papers and actively participate in class discussions, so as to better comprehend the financial complexities dictating current institutional policies and practices. Same as EOL 576. 4 graduate hours. No professional credit.

EPOL 556 Access to Higher Education  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/EPOL/556/](https://courses.illinois.edu/schedule/terms/EPOL/556/))
Explores current practices, conditions, and policies shaping access to college at the undergraduate level. The course is based in a sociological approach to understanding conditions of access to higher education. Provides an opportunity to examine and discuss current research on class, race, gender, institutional policy, and individual factors that are known to impact participation in higher education. Particular attention is given to stratification in higher education including but not limited to: the historical and legal context of access; points of access; pathways to higher education; and the effects of various policies and programs. Same as EOL 579 and EPS 579. 4 graduate hours. No professional credit.

EPOL 557 Education and Stratification  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/EPOL/557/](https://courses.illinois.edu/schedule/terms/EPOL/557/))
Examines the varied and complex interplay between social stratification and education. Through readings covering the theoretical work on stratification and education, students will examine a variety of social inequalities, focusing mainly on educational inequalities. With an emphasis on substantive and methodological critique of empirical works on education and stratification, this course is appropriate for any graduate student interested in the topic of educational inequalities and methodological issues relevant to research on this topic. Same as EPS 581. 4 graduate hours. No professional credit.

EPOL 558 The Community College  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/EPOL/558/](https://courses.illinois.edu/schedule/terms/EPOL/558/))
Community and technical colleges; their purposes, function, and objectives; social forces related to their development and evaluation; characteristics and needs of students; educational programs and teaching strategies; and organization, control, and financing. Same as EOL 573 and HRD 501. 4 graduate hours. No professional credit.
EPOL 559  Higher Education Law  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/559/)
Provides graduate students with core knowledge of the law affecting the administration of colleges and universities. Students become versed in legal issues to enhance administrative effectiveness and to address legal issues that confront the administrator in the operation of an institution of higher education. Importantly, the course does not aspire to invest the student with legal knowledge sufficient to operate without advice of professional legal counsel. Same as EOL 578. 4 graduate hours. No professional credit.

EPOL 560  Student Affairs Administration credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/560/)
Theory, research, and practice of student affairs administration, including philosophical foundations, management, professional development and organizational issues. Same as EOL 583. 4 graduate hours. No professional credit.

EPOL 561  Changing College Curriculum credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/561/)
Examines the historical roots, contemporary controversies, current trends, and possible futures of the curriculum in American postsecondary education. It is a graduate seminar built on small group discussions and conversations about important literature on the changing college curriculum. Increases student understanding of historical and contemporary curricular issues in higher education with the additional goal of fostering the consideration of the possibilities of change in curricular response. Same as EOL 586. 4 graduate hours. No professional credit.

EPOL 562  Diversity in Higher Education credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/562/)
Explores critical topics and issues related to diversity in higher education, including race/ethnicity, class, and gender. Covers current research that explores diversity in higher education, institutional diversity policies and organizational behaviors, campus constituents, and the role of external groups. The course consists of reading, in-class discussion, group exercise, and completing a research project that is of interest to the student. Same as EOL 574. 4 graduate hours. No professional credit.

EPOL 563  The College Student credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/563/)
Study of the characteristics and development of college students, the institutional contexts in which they operate, and the interaction of students with the college environment. Same as EOL 572. 4 graduate hours. No professional credit.

EPOL 564  College Student Development credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/564/)
Provides students with an understanding of theories and research involving the cognitive, intrapersonal and interpersonal development of college students. Special attention is paid to the application of student development research in educational settings and the intentional creation of educational environments along developmental principles. Same as EOL 582. 4 graduate hours. No professional credit.

EPOL 565  Critical Issues in Higher Education credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/565/)
The examination of critical trends that impact higher education from various perspectives, including legal, organizational, and political. Same as EOL 580. 4 graduate hours. No professional credit. May be repeated in separate terms to a maximum of 8 hours.

EPOL 566  Public Policy in Higher Education credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/566/)
Intended primarily for doctoral students in higher education, this course will enable students to analyze contemporary public policy issues confronting American higher education. Selected policy issues will be probed in depth, drawing upon scholarly sources and public reports. Students will comprehend the interaction and tension among higher education leaders, and local, state, and federal policymakers. Same as EOL 577. 4 graduate hours. No professional credit.

EPOL 567  Program Planning & Evaluation credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/567/)
Introduces students to school district leadership expectations in program planning and evaluation, highlighting leaders' responsibilities to utilize the program evaluation cycle to improve teaching and learning, and assuring that schools and districts meet state and national accountability standards. Topics include planning educational programs, monitoring and evaluating program effectiveness, and reaching decisions related to continuing, restructuring, or terminating programs based upon empirical evidence collected through the program evaluation process. Same as EOL 567. 4 graduate hours. No professional credit.

EPOL 569  Quality Process Improvement credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/569/)
Examines quality and process improvement philosophies, theories, and strategies as they apply to the practice of professionals in human resource education. Based on a critical analysis of the historical antecedents, theoretical foundations, and empirical research results of Total Quality Management (TQM) and Continuous Process Improvement (CPI), students will be able to apply improvement strategies and evaluate the merits and limitations in public and private settings. Same as EOL 587 and HRD 531. 4 graduate hours. No professional credit.

EPOL 570  Organization Development credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/570/)
Addresses the history, concepts, theories, and techniques of Organization Development as applied in Human Resource Education; emphasis on creating, managing, and sustaining system-wide change in public and private organizations; organized around diagnosis, implementation, and evaluation of individual, team, and organization-wide interventions. Same as HRD 530. 4 graduate hours. No professional credit.

EPOL 571  Advanced Theories in Human Resource Development credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/571/)
Provides a reading of advanced texts related to Human Resource Development from a variety of applied social science disciplines. Targeted towards doctoral students in the later stage of their course work who are interested in HRE theory and social science foundations. Same as HRD 509. 4 graduate hours. No professional credit. Prerequisite: HRD 400, HRD 411, HRD 530.

EPOL 572  Strategic Human Resource Development credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/572/)
Study of the theories, research, and applications of strategic human resource development in a variety of organizational settings. Same as HRD 532. 2 or 4 graduate hours. No professional credit.
EPOL 574  Management of Human Resource Development  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/EPOL/574/)
Study of management fundamentals related to planning, organizing, staffing, leading, and controlling the HRD function in organizations. Same as HRD 533. 4 graduate hours. No professional credit.

EPOL 575  Economics of Human Resources  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/EPOL/575/)
Same as HRD 534 and LER 545. See LER 545.

EPOL 576  Consulting in Human Resource Development  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/EPOL/576/)
Analysis of key elements of consulting in the human resource development profession. Emphasis is placed on subject matter expertise, consulting skills, marketing, organization, business management, communication, and life/work balance. The course examines both the internal and external consulting practices. Issues of education and training of consultants for work in industry, business, government, and non-profit sectors are covered in detail. Same as HRD 535. 4 graduate hours. No professional credit.

EPOL 577  International Human Resource Development  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/EPOL/577/)
Course is designed to provide insights into international HRD at macro and micro levels. Course will cover: cross-cultural issues in international HRD; design and delivery of international HRD programs; HRD practices and programs in different regions of the world; national HRD programs; expatriate training and training in multinational corporations. Same as HRD 536. 4 graduate hours. No professional credit.

EPOL 578  Learning on the Job  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/EPOL/578/)
Research and practice suggest that individuals learn most of what they know and can do while on-the-job, not in a corporate classroom or some other formal learning setting. This seminar will provide opportunity to examine the literature on this topic and consider how they also might contribute to the literature through their own research. The seminar will also provide the opportunity to experience how to design a workplace learning system, such as structured-on-the-job training. Same as HRD 540. 4 graduate hours. No professional credit.

EPOL 579  Adult and Professional Education  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/EPOL/579/)
Same as HRD 550. See HRD 550.

EPOL 580  Ubiquitous Learning  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/EPOL/580/)
Explores the dynamics of learning using mobile computing devices, broadly defined to range from mobile phones, tablets and laptops to interesting new possibilities raised by emerging technologies such as wearable devices and a potentially pervasive "internet of things". Our journey will take us through museums, galleries and parks - real and virtual. We will visit new media and gaming spaces in which either incidental or explicit learning is taking place. We will look at sites of informal as well as formal learning - extraordinary classrooms offering blended learning opportunities, as well as new forms and modes of out-of-school and self-directed learning. Same as EPS 506. 4 graduate hours. No professional credit.

EPOL 581  Knowledge, Learning and Pedagogy  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/EPOL/581/)
Investigates a variety of pedagogical paradigms, including didactic, authentic and critical pedagogies. Develops the concept of a pedagogical repertoire, as a way of interpreting the ways in which learners engage in a variety of "knowledge processes" or task types. The course focuses on approaches to literacy teaching and learning, but course participants can address parallel examples from other discipline areas and across all levels of education. As a counterpoint, it also reflects on the practicalities of learning knowledge-making in informal as well as consciously designed learning environments. Same as EPS 532. 4 graduate hours. No professional credit.

EPOL 582  New Media and Literacies  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/EPOL/582/)
Designed to address issues of language and literacy, not only for language arts teachers, but all educators in all disciplines and at all levels, where students are required to read and represent their knowledge in writing as well as other media. It will introduce the 'Multiliteracies' theory of literacy learning which recognizes that the contemporary communications environment is increasingly multimodal. Written language today is more closely connected with oral, visual, gestural, tactile and spatial modes. To remain relevant, effective pedagogy needs to connect with the new communications media, and to explore their underlying processes. The course will focus on current trends in literacy instruction, not only in language arts or composition classes, but academic literacies across all curriculum areas. The course will also investigate the implications of new media of language and literacy and explore the implications of developments in the contemporary media, particularly the new, digital media. This reflects an expansive view of literacy in which reading and writing includes media objects such as embedded video, datasets, infographics, digital story boards. The course investigates the implications of new media and technology-mediated learning for teaching methods and pedagogical designs. Same as EPS 554. 4 graduate hours. No professional credit.

EPOL 583  eLearning Ecologies  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/EPOL/583/)
An examination of emerging environments of eLearning, some setting out to emulate the heritage social relationships and discourses of the classroom, others attempting to create new forms of learning. Aims to push the imaginative boundaries of what might be possible in eLearning environments. Explores the ways in which assessments can be constructed and implemented which are integral to the learning process, with the assistance of today's new media, 'big data' and other information technologies. Same as HRD 572. 4 graduate hours. No professional credit.

EPOL 584  Innovation in eLearning  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/EPOL/584/)
Designed to provide an in-depth look at ongoing innovations in Web-based electronic technologies that can be used to deliver eLearning content and to enhance learning experiences in eLearning environments. Students will acquire and synthesize advanced content knowledge and critically review research on ongoing innovations that are integrated with targeted content in today's eCommunication and eLearning environments. Same as HRD 575. 4 graduate hours. No professional credit.

Information listed in this catalog is current as of 01/2022
EPOL 585  Ethnographic Methods in Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/585/)
This course focuses on goals, nature, and methodological means of ethnographic research in educational settings broadly defined. Such research aims to describe and, moreover, to understand the ways of living of teachers, students, administrators, parents, and other participants in relevant social spaces. The class will be grounded in the disciplinary perspectives of cultural anthropology, linguistic anthropology, and cultural studies. We will have an ongoing discussion of how one conducts ethnographic research, and all members of the class will conduct their own mini-study. 4 graduate hours. No professional credit.

EPOL 586  General Field Research Seminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/586/)
This course will guide doctoral students as they develop a broad and critical understanding of their general field of doctoral study. Students will conduct a synthesized and critical review of the general field literature, which will become part of their dissertation. This course may meet the doctoral requirement of the General Field Qualifying Examination. 4 graduate hours. No professional credit. Approved for S/U grading only. May be repeated in separate terms for up to 8 hours. Prerequisite: To be taken by EPOL doctoral students upon completion of graduate course work. See advisor for guidance.

EPOL 587  Special Field Research Seminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/587/)
This course will guide doctoral students as they develop a broad and critical understanding of their special field of doctoral study. Students will conduct a synthesized and critical review of the special field literature, which will become part of their dissertation. This course may meet the doctoral requirement of the Special Field Qualifying Examination. 4 graduate hours. No professional credit. Approved for S/U grading only. May be repeated in separate terms up to 8 hours. Prerequisite: To be taken by doctoral students upon completion of graduate course work. See advisor for guidance.

EPOL 588  Methodology Research Seminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/588/)
This course will guide EDD doctoral students as they develop a broad and critical understanding of the methodological approaches in their doctoral field. Students will critique methodologies used in educational research and develop a thorough methodological proposal for their research, which will become part of their dissertation. This course may meet the doctoral requirement of the Research Methodology Qualifying Examination. 4 graduate hours. No professional credit. Approved for S/U grading only. May be repeated in separate terms up to 8 hours. Prerequisite: To be taken by Ed.D. doctoral students upon completion of graduate course work. See advisor for guidance. For Ed.D. students only.

EPOL 589  Uses and Abuses of Educational Research  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/589/)
Aims at comprehensive research literacy by considering educational research in historical, philosophical, policy and political context. Through close reading and quantitative, qualitative, and humanistic studies, the discussion of interdisciplinary perspectives on the research process, students learn to engage intelligently with multiple modes of research and deal critically with policies claiming an evidentiary warrant. Specific topics include: the relationship between research, policy, and practice; the nature of theory and method, argument and evidence in the humanities and social sciences; the tensions between advocacy and research. Same as EPS 508. 4 graduate hours. No professional credit.

EPOL 590  Advanced Graduate Seminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/590/)
Seminar in educational policy studies; sections offered in the following fields: (a) history of education; (b) philosophy of education; (c) comparative education; (d) social foundations of education; (e) philosophy of educational research; and (f) historical methods in education. 4 graduate hours. No professional credit. May be repeated in the same and separate semesters to a maximum of 12 hours, if topics vary.

EPOL 591  Thesis Seminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/591/)
Designed to take students through the entire process of proposal development, this course is intended for masters or doctoral students who are ready to prepare a thesis or dissertation proposal. Students will learn to use a systematic and comprehensive approach to develop the research proposal and how each step in the research process is related. 4 graduate hours. No professional credit. Approved for Letter and S/U grading.

EPOL 592  Special Topics in EPOL  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/592/)
Introduction to significant problems, points of view, and trends in the field; explores significant research relating to organization, content, and techniques. Topics vary; consult Class Schedule for specific section offerings. Same as HRD 592. 4 graduate hours. No professional credit. May be repeated if topics vary. Prerequisite: Instructor approval required.

EPOL 593  The Role of Theory in Educational Research  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/593/)
All research is guided by theory. Theory provides a vocabulary, a set of laws or generalizations, a background literature, and a conceptual framework for any effort to plan, design, and execute a research study. There is no theory-free inquiry. This is true in the social sciences as well as the natural sciences. All research seeks to explain phenomena: a theory provides an explanation for those explanations. However, these theoretical assumptions are often implicit and unreflective. Researchers may think they have no theory, or have a theory that is so taken for granted that they don't recognize it as an assumed theory. Much of educational research suffers from this lack of theoretical self-awareness. Like any other aspect of research, theories are falsifiable. They must stand the test of evidence -- which may go against them. The goal of the class is not to identify the "right" or "best" theory, but to make the identification and selection of a theory more critical and reflective. Any major theory has insights, and each has limitations. 4 graduate hours. No professional credit.

EPOL 594  Program Evaluation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/594/)
This course examines models and methods of evaluating programs, processes, and products in broadly-defined organizations situated in various operational contexts (e.g., education, business, government, NGO). Particular emphasis is given to topics of formative and summative evaluation, frameworks for program evaluation, quantitative and qualitative methods of data collection and analysis, communicating and reporting evaluation findings, and the ethics and standards of evaluation practice. The underlying philosophy of the course is that evaluation can be the catalyst for organizational learning to facilitate intended changes, especially when initiated by those in training and organization development positions. Same as HRD 585. 4 graduate hours. No professional credit.
EPOL 595  Independent Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/595/)
Offers opportunity and challenge of self-directive, independent study; develops the individual’s ability as an independent student and enables the student to pursue needed study in a field in which appropriate courses are not being offered during a given term. 1 to 4 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated with approval.

EPOL 596  Capstone Experience I & II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/596/)
Part 1 is the design of a research study (capstone project) that integrates literature covered in the degree program leading to a research question to be explored empirically. It includes literature review, problem statement, research design, methodology, identifying participants, IRB review and a final proposal paper. Students are expected to collect data for their study (project) between Parts I and II. Part II topics include data analysis, interpretation, discussion, implications, dissemination of findings, and future research. Leads to a final research (capstone) paper that synthesizes work from Part I and adds to it through data analysis, discussion of findings, implications, and ways to disseminate findings to relevant audiences. Same as EOL 588. 2 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 4 hours.

EPOL 597  Clinical Experience Administration  credit: 0 to 12 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/597/)
Direct experience in the study of educational problems of concern to administrators; features an action component whereby the student is provided with opportunities for assuming responsibility for decision making in a live or simulated setting; each student works under the supervision of a professor, and where possible and appropriate, a practicing administrator. Same as EOL 560. 0 to 12 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated to a maximum of 12 hours; no more than 4 hours earned at the master’s level. Prerequisite: Students must be admitted to the General Administrative or Superintendent Endorsement program and must have completed at least 16 hours of EAL required courses, or consent of instructor.

EPOL 598  Internship in Education Policy, Organization and Leadership  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/598/)
Supervised direct experience in the administration of higher education. With the aid of the faculty, students select the internship relevant to their career goals. Same as EOL 589. 2 or 4 graduate hours. No professional credit. Approved for S/U grading only. May be repeated to a maximum of 8 hours; no more than 8 hours may be earned toward an advanced degree. Prerequisite: Consent of instructor.

EPOL 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/EPOL/599/)
Individual direction of research and thesis writing. 0 to 16 graduate hours. No professional credit. Approved for S/U grading only. May be repeated with approval.

EPS - Educational Policy Studies

EPS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/EPS/)

Courses

EPS 201  Foundations of Education  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPS/201/)
Same as EPOL 201. See EPOL 201.

EPS 202  Foundations of Education-ACP  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/202/)
Same as EPOL 202. See EPOL 202.
This course satisfies the General Education Criteria for:
Advanced Composition

EPS 310  Race and Cultural Diversity  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/310/)
Same as AAS 310, AFRO 310, EPOL 310, and LLS 310. See EPOL 310.
This course satisfies the General Education Criteria for:
Advanced Composition
Cultural Studies - US Minority

EPS 325  Social Media and Global Change  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPS/325/)
Same as AFST 325, ASST 325, EPOL 325, EURO 325, INFO 325, LAST 325, REES 325, and SAME 325. See EPOL 325.

EPS 380  Education and Social Justice  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPS/380/)
Same as EPOL 380. See EPOL 380.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

EPS 390  Undergraduate Advanced Seminar  credit: 0 to 9 Hours. (https://courses.illinois.edu/schedule/terms/EPS/390/)
Same as EPOL 390. See EPOL 390.

EPS 395  Independent Study  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/EPS/395/)
Same as EPOL 395. See EPOL 395.

EPS 400  History of American Education  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/400/)
Same as EPOL 401. See EPOL 401.

EPS 402  Asian American Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/402/)
Same as AAS 402 and EPOL 402. See EPOL 402.
This course satisfies the General Education Criteria for:
Advanced Composition
Cultural Studies - US Minority

EPS 405  Historical and Social Barriers  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/405/)
Same as EPOL 403. See EPOL 403.

EPS 410  Professional Ethics in Education  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/410/)
Same as EPOL 406. See EPOL 406.

EPS 411  School and Society  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/411/)
Same as EPOL 405. See EPOL 405.

EPS 412  Critical Thinking in Education  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/412/)
Same as EPOL 407. See EPOL 407.

EPS 413  Aesthetic Education  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/413/)
Same as EPOL 408. See EPOL 408.

EPS 415  Technology and Educational Reform  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/415/)
Same as EPOL 480. See EPOL 480.

EPS 420  Sociology of Education  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/420/)
Same as EPOL 409. See EPOL 409.

EPS 421  Racial and Ethnic Families  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/421/)
Same as AFRO 421, EPOL 410, and HDFS 424. See EPOL 410.

EPS 422  Race, Educational Policy, and Sociology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/422/)
Same as EPOL 411 and SOC 426. See SOC 426.

EPS 423  Politics of Education  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/423/)
Same as EPOL 412. See EPOL 412.

Information listed in this catalog is current as of 01/2022
EPS 424  Economics of Education  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/424/)
Same as EPOL 413. See EPOL 413.

EPS 425  Anthropology of Education  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/425/)
This seminar considers how sociocultural anthropology has approached the study of education. Readings include ethnographies of schooling as well as works which consider how schooling is implicated in modernist projects of social improvement, the politics of cultural pluralism in nation states, and the spread of neoliberalism. Same as ANTH 425, EPOL 414, and EPSY 466. 2 or 4 undergraduate hours. 2 or 4 graduate hours.

EPS 431  New Learning  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/431/)
Same as EPOL 481. See EPOL 481.

EPS 481  History of American Indian Education  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/481/)
Same as AIS 481 and EPOL 404. See AIS 481.

EPS 501  History of U.S. Educational Thought  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/501/)
Same as EPOL 501. See EPOL 501.

EPS 502  Education in the 20th Century  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/502/)
Same as EPOL 502. See EPOL 502.

EPS 503  Seminar in the History of Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/503/)
Same as ERAM 570. See ERAM 570.

EPS 506  Ubiquitous Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/506/)
Same as EPOL 580. See EPOL 580.

EPS 508  Uses and Abuses of Educational Research  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/508/)
Same as ERAM 510. See ERAM 510.

EPS 510  Traditions in Philosophy of Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/510/)
Same as ERAM 571. See ERAM 571.

EPS 511  Contemporary Philosophy of Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/511/)
Same as EPOL 506. See EPOL 506.

EPS 515  Philosophy and History of Educational Research  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/515/)
Same as ERAM 551. See ERAM 551.

EPS 516  Social Theories and Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/516/)
Same as ERAM 515. See ERAM 515.

EPS 517  Case Studies Professional Ethics and Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/517/)
Same as ERAM 572. See ERAM 572.

EPS 520  Foundations of Aesthetic Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/520/)
Same as EPOL 510. See EPOL 510.

EPS 522  Ethical Dimensions in Educational Leadership  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/522/)
Same as EPOL 545. See EPOL 545.

EPS 529  Education and Human Rights  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/529/)
Same as EPOL 524. See EPOL 524.

EPS 530  Education and Globalization  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/530/)
Same as EPOL 520. See EPOL 520.

EPS 531  Critical Race Theory and Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/531/)
Same as EPOL 516. See EPOL 516.

EPS 532  Knowledge, Learning and Pedagogy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/532/)
Same as EPOL 581. See EPOL 581.

EPS 533  Global Youth and Citizenship  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/533/)
Same as EPOL 525. See EPOL 525.

EPS 534  Education and Power in Middle East  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/534/)
Same as EPOL 526. See EPOL 526.

EPS 535  Assessment for Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/535/)
Same as EPOL 534. See EPOL 534.

EPS 536  Race, Gender and Sexuality Issues  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/536/)
Same as EPOL 517. See EPOL 517.

EPS 537  Globalizing Educational Policy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/537/)
Same as EPOL 521. See EPOL 521.

Information listed in this catalog is current as of 01/2022
EPS 538  Globalization of Higher Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/538/)
Same as EPOL 522. See EPOL 522.

EPS 539  Youth, Culture and Society  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/539/)
Same as AAS 539, EPOL 518, and HDFS 539. See HDFS 539.

EPS 553  Global Issues in Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/553/)
Same as EPOL 523 and EPSY 553. See EPOL 523.

EPS 554  New Media and Literacies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/554/)
Same as EPOL 582. See EPOL 582.

EPS 570  Postcolonial Theory and Methodology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/570/)
Same as ERAM 554. See ERAM 554.

EPS 575  Cultural Studies and Critical Interpretation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/575/)
Same as ERAM 573 and MDIA 575. See ERAM 573.

EPS 576  Introduction to Diversity & Equity  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/576/)
Same as EPOL 515. See EPOL 515.

EPS 579  Access to Higher Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/579/)
Same as EOL 579 and EPOL 556. See EPOL 556.

EPS 580  Researching Global Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/580/)
Same as EPOL 528. See EPOL 528.

EPS 581  Education and Stratification  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/581/)
Same as EPOL 557. See EPOL 557.
EPSY - Educational Psychology

EPSY Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/EPSY/)

Courses

EPSY 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/199/)
Approved for both letter and S/U grading. May be repeated.

EPSY 200  Honors Symposium in Education  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/EPSY/200/)
Course affords students an opportunity to consider important topics impacting current educational practices. Students select six scholarly presentations from an approved list. The presentations are delivered by outstanding visiting and resident scholars in education and related disciplines. Three times during the term, students gather to consider the issues raised by the presentations. Course expectations include: attending six presentations, attending the three course discussion meetings, reading the course text and selected publications, and developing written reflections based on presentations attended. May be repeated to a maximum of 8 hours.

EPSY 201  Educational Psychology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/201/)
Explores fundamental issues of development, learning, instruction, and assessment. This course articulates how people learn, how they are influenced by cultural and social contexts, how to assess learning and its outcomes, and how best to teach and motivate people to achieve. Educational psychologists improve learning in a broad range of settings: homes, classrooms, work environments, and communities. Prerequisite: PSYC 100.
This course satisfies the General Education Criteria for:
Social Beh Sci - Beh Sci

EPSY 202  Exploring Cultural Diversity  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/202/)
Introduction to cultural diversity and social justice issues through interdisciplinary readings, discussion, and experiential activities. The course involves a 1-hour lecture and 2-hour lab/discussion section each week. The lecture focus is on raising awareness of key issues, concerns and concepts, providing accurate information on diverse groups, and relating theories and models to critical incidents of social oppression in everyday life. The lab/discussion sections follow a group dialogue and experiential activity format, and focus on relating the readings and lecture material to personal experiences and active learning activities.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

EPSY 203  Social Issues Group Dialogues  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/EPSY/203/)
Provides students with opportunities to converse on specific diversity and social justice topic areas offered as separate sections under the course heading. Each section uses a structured dialogue format to explore intergroup and intragroup differences and similarities within historical and contemporary contexts. Specific focus will be on participants sharing their experiences and perspectives related to the specific dialogue topic. The dialogue format uses active learning exercises in addition to weekly readings, journal assignments, and topic based dialogues. May be repeated in the same term to a maximum of 2 hours. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Consent of the instructor.

EPSY 204  Learning in a Digital World  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/204/)
Addresses the fundamental use of information and information technology in knowledge creation and learning, with a specific focus on the use of computers, new media, and related digital technologies within formal and informal learning environments. The paramount goal is the reconceptualization of learning practices and environments and how these will impact students, teachers, schools, and society at large. Major areas of interest covered include new learning theories, educational informatics, ubiquitous learning, collective intelligence and social networking, creativity, and universal design for knowledge creation. Applicable to any student interested in the principles of learning, knowledge, and education. Students will need access to a laptop computer.

EPSY 220  Career Theory and Practice  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/220/)
Various behavioral science theories will be covered (e.g., person-environment interaction, decision-making, group dynamics, stereotype threat, personality traits). Discussions of research findings to applied career practices will also be included. Students will develop a working-knowledge of these theories through interactive lectures, guided class discussions, case-based readings, and group activities that require them to think critically and flexibly about theory in order to generate solutions for real-world problems. Additional fees may apply. See Class Schedule. On request, students will be required to participate in a total of 6 hours of experiments outside of class.
This course satisfies the General Education Criteria for:
Social Beh Sci - Beh Sci

EPSY 222  Language & Culture of Deaf Communities  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/222/)
Same as SHS 222. See SHS 222.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci
Cultural Studies - US Minority

EPSY 236  Child Development in Education  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/236/)
Study of child growth and development designed particularly for those preparing to teach in the elementary school; special emphasis on the significance of the developmental process for educational programs and procedures; and systematic experience in studying and evaluating children's behavior and in supporting their learning and development. Includes limited voluntary participation as a subject in experiments. Credit is not given for both EPSY 236 and PSYC 216. Prerequisite: PSYC 100.
EPSY 280  Elements of Statistics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/280/)
Course content includes descriptive statistics, correlation, regression, the normal curve, statistical interference, and the presentation of statistics. The course does not require calculus, and makes use of examples drawn from education, medicine, social science, business, and the popular media. Designed for professional training of students whose major interests are not in math or science. Credit is not given for both EPSY 280 and any of ACE 261, CPSC 440, ECON 202, ECON 203, EPSY 480, PSYC 235, SOC 280, STAT 100. Prerequisite: MATH 112.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

EPSY 330  Development and Relationships  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/330/)
Same as PSYC 326. See PSYC 326.

EPSY 395  Independent Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/395/)
Study of problems not considered in other courses; designed for students who excel in self-direction and intellectual curiosity. May be repeated. Prerequisite: Minimum GPA of 3.5; demonstrated writing and research potential as evaluated by advisor, and consent of advisor and consent of staff member who supervises the work.

EPSY 398  Thesis  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/398/)
Prerequisite: Senior standing.

EPSY 399  Thesis  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/399/)
Prerequisite: Senior standing.

EPSY 400  Psychology of Learning in Education  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/400/)
Study of the psychology of human learning as it applies to instruction, educational issues, and educational problems. 3 undergraduate hours. 2 or 4 graduate hours. Taking 4 credit hours requires consent of the instructor and the completion of a substantive scholarly project. Undergraduate and graduate work load will be commensurate with the requirements. 2 hours for Latin and Spanish Certification, Elementary Ed Music and GSLIS. Prerequisite: EPSY 201 or equivalent.

EPSY 401  Child Language and Education  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/401/)
Provides an overview of current knowledge about children's acquisition of linguistic and communicative competence together with a consideration of the educational import of this developmental process. 3 undergraduate hours. 2 or 4 graduate hours. Taking 4 hours of credit requires consent of the instructor and completion of a substantive scholarly project. Undergraduate and graduate work load will be commensurate with the requirements. 3 hours of ECE Undergraduate certification and 2 hours for ECE graduate certification, Elementary Ed, Music certification and GSLIS. Prerequisite: EPSY 201 or EPSY 236; or equivalent.

EPSY 402  Sociocultural Influence on Learning  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/402/)
Provides a general overview of the relationship of language, culture, and society to the teaching-learning process; gives broad exposure to research and theory concerned with the effects of sociocultural factors on cognition, perception, and motivation; also considers the effects of such factors on classroom interaction. 3 undergraduate hours. 2 or 4 graduate hours. Taking 4 hours of credit requires consent of the instructor and the completion of a substantive scholarly project. 2 hours for Elementary Education and Music certification. Prerequisite: EPSY 201 or EPSY 236; or equivalent.

EPSY 403  Research Methods in Learning Sciences  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/403/)
This course is an introduction to conducting research in the learning sciences, including how to use theory as a guide to conducting literature reviews and formulating research questions. The course introduces quantitative and qualitative research design, data collection and analysis, and other aspects of research relevant to learning, teaching, and other topics relevant to education. A secondary goal is to better understand research reported in the primary literature as well as in the news media. Assignments will include evaluating research papers and writing a research proposal. 3 undergraduate hours. 4 graduate hours. Prerequisite: EPSY 280 or EPSY 480 or PSYC 235 or PSYC 301.

EPSY 404  Adjustment in School Settings  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/404/)
Examines theories of adjustment, factors that influence adjustment, and common adjustment problems of children and adolescents in school context. 3 undergraduate hours. 4 graduate hours. Prerequisite: EPSY 201 or equivalent.

EPSY 405  Personality and Soc Dev  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/405/)
Same as PSYC 465. See PSYC 465.

EPSY 406  Psychology of Classroom Management  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/406/)
General overview of theories related to analyzing student behaviors in the classroom; the incidence and etiology of conduct problems and behavior disorders in the classroom, with emphasis upon preventive strategies and guiding principles for maintaining classroom discipline. 3 undergraduate hours. 2 or 4 graduate hours. Taking 4 hours of credit requires consent of the instructor and the completion of a substantive scholarly project. Undergraduate and Graduate work load will be commensurate with the requirements. 2 hours for Elementary Education and Music certification and GSLIS. Prerequisite: EPSY 201 or EPSY 236, or equivalent.

EPSY 407  Adult Learning and Development  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/407/)
Theory of and research on adult learning and development; includes societal context, performance, physiology and health, personality, and learning; and considers stability and change during young adulthood, middle age, and old age. Meets both foundational requirements for EPSY. 3 undergraduate hours. 4 graduate hours. Assignments and work load will commensurate with credit. Prerequisite: EPSY 201, or equivalent, or consent of instructor.

Information listed in this catalog is current as of 01/2022
EDPS 408  Learning and Human Development with Educational Technology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EDPS/408/)
Sets out to provide an understanding of theories of learning and development and how these theories relate to educational technology. It has two components. The first is theoretical, in which we attempt to develop an overall frame of reference, locating approaches to the psychology of learning in terms of large paradigm shifts, from 'behaviorism' to 'brain developmentalism' to 'social cognitivism'. The second component is practical, in which we use these theoretical concepts to 'parse' a technology-mediated learning environment for its underlying presuppositions. 3 undergraduate hours. 4 graduate hours.

EDPS 413  Intelligence Assessment and Theory  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EDPS/413/)
Study of fundamental concepts relevant to the general problem of the individual testing of learning aptitude; acquisition of psychometric competence in the use of the Binet and the Wechsler tests; acquaintance and limited practice in the administration, scoring, and interpretation of results obtained by performance scales and other devices appropriate for use with individuals having sensory, associative, and/or motor impairments. 3 undergraduate hours. 4 graduate hours. Prerequisite: Consent of instructor and 6 hours of psychology courses, including SPED 424 or PSYC 490.

EDPS 419  Counseling Psychology Pre-Practicum  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EDPS/419/)
Study of basic helping skills and professional ethics in professional psychology. The course links theory with practice, as students engage in the exploration of new helping skills and learn to analyze their developing counseling style and performance; includes an examination of relevant ethical standards and counseling theories, and their application in a multicultural context. Discussion and experiential activities are supplemented by films, videotapes, and case studies. Primarily for counseling psychology graduate students, though other students in programs with a mental health focus may be admitted with the consent of the instructor if space is available. Same as REHB 419. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 8 hours. Prerequisite: Junior standing.

EDPS 420  Theories of Psychotherapy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EDPS/420/)
Study of counseling and psychotherapeutic processes and theories in relation to social and cultural developments. Coverage of major models and theories as well as current and historical trends and a review of counseling skills will be included. Same as PSYC 420. 4 undergraduate hours. 4 graduate hours. Prerequisite: PSYC 238 or equivalent.

EDPS 421  Sex Role Theory in Counseling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EDPS/421/)
Reviews research on sex role socialization related to career, family, and personal roles for both sexes; discusses counseling strategies aimed at freeing persons from attitudes and behaviors that limit their freedom to choose; and reviews strategies for change at policy, agency and individual levels. Same as GWS 421. 4 undergraduate hours. 4 graduate hours.

EDPS 427  Learning from Text  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EDPS/427/)
This course will survey the range of topics related to how we learn from text, i.e., from reading. The course will focus on reading in education settings and approaches to improving reading comprehension. Students will read secondary and primary literature and have opportunities to critique, discuss, and present the findings of this research. Topics discussed will include: eye movements during reading, grammatical structures and discourse conventions of texts that support comprehension, and how comprehension and memory for text can be measured. Assignments will include written reviews of texts and topics. Students taking the course for 4 graduate hours will also plan and present a proposed empirical study related to some topic within the course. 3 undergraduate hours. 2 or 4 graduate hours. Credit is not given for EDPS 427 if credit has been received for either PSYC 425 or LING 425.

EDPS 430  Early Adolescent Development  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EDPS/430/)
Examines early adolescent development, covering biological, cognitive, and social transitions. Topics include identity, autonomy, peer and family relationships and the role of schooling and the media. 3 undergraduate hours. 3 or 4 graduate hours.

EDPS 431  Cognitive Development in Educational Context  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EDPS/431/)
The purpose of this course is to cover basic issues in cognitive development, review relevant research findings, and to situate these and understand these in educational contexts. Most of our attention will focus on child and adolescent development. We will address questions such as: How do children learn new concepts? How do changes in children's thinking occur? How can we use what we know to produce positive impacts on children's learning and well-being? 3 undergraduate hours. 4 graduate hours.

EDPS 456  Human Performance and Cognition in Context  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EDPS/456/)
Theories and findings from cognitive science and related disciplines concerning human information processing mechanisms and capacities are covered, with an emphasis on how understanding people's perceptual and cognitive strengths and limitations can inform decisions about teaching/training strategies and designing technological environments to suit people's needs and abilities. Same as IE 445 and PSYC 456. 3 undergraduate hours. 4 graduate hours. Prerequisite: PSYC 100 or PSYC 103 or consent of instructor.

EDPS 457  Teachers and Technology Integration  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EDPS/457/)
Designed to help enhance the understanding of computers in the schools. This course looks at computers in the broadest sense and considers a variety of aspects of technologies and digital media that impact pedagogy, curriculum, and student learning. The course considers the context of computing by exploring the history of computing, what is currently occurring in the schools, and how technologies and student expectations are encouraging teachers to redefine the classroom experience. The main goal of this course is to enable students to develop a flexible and working knowledge of computers as educational resources in order to better reach students - students of the 21st century. 3 undergraduate hours. 4 graduate hours. Prerequisite: EDPS 480 or equivalent, or consent of instructor.

EDPS 466  Anthropology of Education  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EDPS/466/)
Same as ANTH 425, EPOL 414, and EPS 425. See EPS 425.
EPSY 470  Introduction to Evaluation Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/470/)
Introduction to the major conceptual constructs and theories of evaluation; emphasis on the critical defining components of evaluation, particularly its role in program and policy development, and on critical distinctions among evaluation theories; provides grounding for further study of both evaluation theory and methods. 4 undergraduate hours. 4 graduate hours.

EPSY 471  Introduction to Evaluation Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/471/)
Introduces the methodology of educational and social program evaluation, including the design of an evaluation, the data collection and analysis, and reporting; emphasis on negotiating the unique facets of evaluative practice, notably evaluator role, working with clients and other stakeholders, the political dynamics of evaluation contexts, and utilization of evaluative results. Students collectively conduct a field-based evaluation project. 4 undergraduate hours. 4 graduate hours. Prerequisite: EPSY 480.

EPSY 474  Evaluating Learning Technology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/474/)
In this course, students will learn to conduct a variety of evaluations related to learning technologies including needs assessments, consumer-driven evaluations, outcome or impact assessments, comparative or quasi-experimental studies and case studies. As one means of measuring need, growth, or impact, students will also create assessment instruments and strategies related to particular learning technologies. These might include electronic portfolios, web-based surveys, computer adapted tests or performance rubrics. Course requirements include a final evaluation project in which students (individuals or pre-approved small groups) plan and conduct actual evaluations of learning technologies. The course includes both face-to-face and asynchronous and synchronous on-line meetings. Same as EPOL 484 and HRD 474. 4 undergraduate hours. 4 graduate hours.

EPSY 480  Educational Statistics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/480/)
Designed for terminal value for professional training of students not intending to pursue advanced graduate work, and for introductory value for students continuing graduate study in education; descriptive statistics, introduction to correlation and regression, the normal curve, statistical inference, and the presentation and interpretation of statistical data in educational literature. 4 undergraduate hours. 4 graduate hours.

EPSY 485  Assessing Student Performance  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/485/)
Designed especially for secondary education students, this course introduces basic concepts and practices of assessment, measurement, and evaluation as they are used in school settings. The course covers current trends and issues in assessment including large scale standardized testing practices and cultural issues in assessment. Students become familiar with using assessment and evaluation data to inform instructional decisions. Same as CI 485. 3 undergraduate hours. 4 graduate hours. Prerequisite: Students should be concurrently enrolled in CI 403. Admission to the secondary teacher education program.

EPSY 486  Principles of Measurement  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/486/)
Study of the selection, preparation, administration, and interpretation of psychological and educational tests and diagnostic devices; emphasis on theory at a beginning level, with application to hypothetical school situations as a teaching device; and consideration of the sources of standard tests, criteria for their evaluation, methods of scoring, interpretation, and general and special areas. 3 undergraduate hours. 4 graduate hours. Prerequisite: EPSY 201 or EPSY 236.

EPSY 487  Principles of Language Testing  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/487/)
Same as EIL 460, FR 460, GER 460, ITAL 460, PORT 460, and SPAN 460. See EIL 460.

EPSY 490  Development in Educational Psychology  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/490/)
Foundational theories and practices of educational psychology, including learning and development. 2 or 3 undergraduate hours. 2 or 4 graduate hours. Approved for letter and S/U grading. May be repeated to a maximum of 8 hours. Undergraduate and graduate work load will be commensurate with the requirements.

EPSY 491  Educational Psychology Field Instruction  credit: 4 to 16 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/491/)
Individual instruction designed to help the advanced student apply basic principles of education or psychology in institutional settings. Each student is assigned to a school, community agency, or other applied settings for a supervised field experience in some aspect of educational psychology. 4 to 16 undergraduate hours. 4 to 16 graduate hours. Approved for letter and S/U grading. May be repeated to a maximum of 16 hours if topics vary; no more than 8 hours may be taken in any given term. Prerequisite: Master’s degree in educational psychology or equivalent, and consent of instructor.

EPSY 492  History and Systems of Psychology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/492/)
A seminar on the history of psychology within a social and cultural context and its theoretical systems, and their relations to contemporary psychology. An awareness of the roots and context of one’s own views as well as understanding and appreciation of others’ views will be fostered. There will be some focus on encouraging self-study of the history of one’s own theoretical orientation. 4 undergraduate hours. 4 graduate hours. Prerequisite: EPSY 420, or equivalent.

EPSY 501  Evaluation in Society  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/501/)
Examines evaluation as a social practice, explains various approaches to evaluation both nationally and internationally, and explores how evaluation is linked to policy and decision making. Students will read about and discuss both foundational and contemporary issues in evaluation practice and theory as they relate to the use of evaluation in improving both practice and policy decisions. For graduate students in education, public policy, social work, community health, and other related fields.
EPSY 505  Data, Evidence, & Decisions  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/505/)
Examines how practitioners and policy makers come to interpret sources of evidence; how the use of data, information, and evidence are shaped by organizational structures, routines, and cultures; how technical infrastructures have emerged to enable the collection, distribution, consolidation, and use of data, information, and evidence; the political economy of generated and using evidence (e.g., university research, think tanks, advocacy organizations, etc.). This multidisciplinary course is situated against the broad backdrop of the social science literature on social scientific knowledge production and use, and the relationship between science and society.

EPSY 507  Economic Analysis and Education Policy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/507/)
Introduces key economic principles and applies them to the analysis of current education policy issues. Concepts covered include supply and demand, competitive markets, human capital acquisition, efficiency, equity and the role of government intervention, among others. Focuses on applications within the context of policy making in education. Designed for students without prior coursework in economics, but with a working basic knowledge of statistics (e.g., regression). Prerequisite: EPSY 480.

EPSY 508  Display/Interpretation of Data  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/508/)
Provides instruction in representing and communicating data accurately and clearly using visual displays (e.g., graphs, tables and figures). Examines the most appropriate ways to visually display the results of data analyses so that they are clear, accurate and unambiguous. Drawing on both contemporary techniques and publication standards, it will address topics including audience, context, precision, visual metaphor, data display tools and best practices.

EPSY 510  Counseling Psych/Ethics ProSem  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/510/)
Introduction to and critical examination of applied issues within the discipline of counseling psychology. A review of (a) the historical development of counseling psychology, (b) psychologists' professional code of ethics, and (c) major psychotherapy theories and interventions. Issues of race, class, gender, and diversity more broadly are integrated throughout the course.

EPSY 511  Vocational Psychology Theories and Assessment  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/511/)
Study of vocational psychology theories, assessment, decision-making, and the job search process; includes an historical overview of the development field. The course links theory with practice, as students engage in the interpretation of vocational assessments, examine relevant ethical standards, and discuss their application. 2 hours credit is for work on either the vocational theories or vocational assessment parts of the course (this must be negotiated). For 4 hours credit, a student must do both aspects. Prerequisite: Admission to the graduate program in counseling psychology or consent of instructor.

EPSY 513  Research Methods in Counseling Psychology II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/513/)
This course is the second course sequence for Counseling Psychology graduate students. This course builds on the previous course (EPSY 512) in that students continue work on refining their thesis proposal in the area of Counseling Psychology. They also explore advanced research designs as applied to Counseling Psychology literature. This course may not be repeated for credit. Prerequisite: EPSY 512 or consent of instructor.

EPSY 515  Multicultural Counseling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/515/)
Overview of multicultural counseling theory, empirical research, and practice; includes didactic as well as experiential learning components. The goal of the course is to enhance students' multicultural counseling competencies, with regard to developing: (a) appropriate knowledge of specific cultural groups and sociopolitical issues, (b) cultural self-awareness, and (c) multiculturally relevant intervention skills. May not be repeated for credit.

EPSY 520  Counseling Psychology Practicum  credit: 2 to 8 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/520/)
Intensive supervised experiences in applied educational psychology; use of a wide variety of diagnostic and observational techniques and treatment. Students may take more than one section. Approved for letter and S/U grading. Prerequisite: Master's degree in educational psychology or equivalent; consent of instructor.

EPSY 521  Group Counseling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/521/)
Study of the principles of group process and their application in institutional and other settings; includes a review of the historical development of group processes and study of pertinent research; discussion and experiential activities are supplemented by films, videotapes, and case studies. Prerequisite: EPSY 510 or consent of instructor.

EPSY 530  Social Development  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/530/)
This seminar is an advanced, doctoral-level survey of social development from infancy to adolescence. The range of topics includes attachment, temperament, genes and developmental process, social contexts of cognitive development gender development, moral reasoning and prosocial behavior, aggressive behavior, and the development of ethnic identity and discrimination. Family, peer, community, and cultural ecologies of children and adolescents receive extensive consideration. Developmental theory, methodology, and relations to social policy and intervention are continuing concerns. Same as PSYC 540.

EPSY 531  Cognitive Development and Socialization  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/531/)
Addresses basic issues in cognitive development, with special attention to how social interactions impact cognitive development. Two major foci: theories, especially in terms of the role that socialization plays in these theories; and effects of domains of socialization (e.g., peers, school) on cognitive development. Primary age span: preschool thru adolescence. Prerequisite: Consent of instructor.
EPSY 535 Capstone: Issues in Professional Preparation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/535/)
This course is recommended for doctoral students as they are completing their degrees (typically while working on the dissertation) and preparing for postdoctoral or faculty positions. Students will receive guidance on preparing their portfolios for job applications and on anticipating and understanding expectations for their careers. 3 graduate hours. No professional credit. Prerequisite: This course is recommended for doctoral students in their final or penultimate year of graduate study, to prepare them for completing their doctoral studies and applying for positions after degree completion.

EPSY 540 Networks for Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/540/)
In this course students engage in hands on activities through which they come to understand the intricacies of building substantial and sustainable networks for learning environments, in particular network planning for school districts. Studies read and discuss literature that relates to the building of network systems. Students will explore various tools and techniques that best serve the network environment. Students will complete a major project in which they design (or modify) their own network and discuss the means by which they come to understand critical factors associated with maintaining and growing such an environment. Prerequisite: Enrollment in the Educational Technology for Teaching, Learning, and Leadership concentration in the Educational Psychology on-line CTER Program.

EPSY 546 Human Factors in Health Care Engineering Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/546/)
Provides an overview of research that applies theories and methods from human factors and cognitive science to analyze the sources of these problems and to develop and evaluate design and training interventions to help providers and patients successfully navigate health care systems. An introduction to problems and accidents in health care related to human factors is followed by an overview of concepts and methods from the fields of human factors and cognitive science. Same as IE 546. 4 graduate hours. No professional credit. Prerequisite: Priority will be given to students enrolled in the Healthcare Engineering Systems Concentration of M.Eng. degree program.

EPSY 550 Methods of Educational Inquiry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/550/)
Same as CI 550, ERAM 550, and SPED 550. See CI 550.

EPSY 551 Seminar in Cognitive Science  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/551/)
Same as PSYC 514, ANTH 514, CS 549, LING 570, and PHIL 514. See PSYC 514.

EPSY 552 Classroom Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/552/)
Provides a broad picture of the nature and conditions of classroom learning. Considers analysis of knowledge; institutional constraints on teachers; characteristics of instruction and instructional materials for reading, social studies, and science; social context of learning; motivation and interest; questioning and discussion; and learning strategies and study skills. Intended for doctoral students with a special interest in research leading to the improvement of classroom teaching and learning. Same as PSYC 554. Prerequisite: Consent of instructor required.

EPSY 553 Global Issues in Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/553/)
Same as EPOL 523 and EPS 553. See EPOL 523.

EPSY 554 Virtual Worlds in Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/554/)
Examines the history, theory, and practice of pedagogy in virtual environments. Students will read research literature, participate in online discussions through the Moodle course management system, and engage in real-time activities in several types of virtual worlds. The project component requires students to develop educational artifacts in virtual worlds and perform peer review of artifacts developed by other students. Projects will support some aspect of learning or teaching in the students' own workplace, and will incorporate multimedia, web, and other network-based resources. Students are expected to have access to computers that meet the hardware and networking requirements. Same as CI 545. Prerequisite: Students must be enrolled in the Educational Technology for Teaching, Learning, and Leadership concentration in the Educational Psychology on-line CTER Program.

EPSY 555 Advanced Educational Technologies for Engagement and Interactive Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/555/)
This course examines technologies that seek to promote and sustain engagement in learning, both in formal and informal settings. Topics covered include educational games, artificial intelligence, virtual environments, mobile devices, affective computing, pedagogical agents, narrative learning environments, and more. A highly interdisciplinary approach is taken by blending theory and evidence from psychology and education with discussions of technological advances. Students in the class will be expected to work in teams to design and implement a prototype for a problem of their own choosing. Same as CI 555 and INFO 555. 4 graduate hours. No professional credit.

EPSY 556 Analysis of Educational Technologies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/556/)
This course will analyze currently available technologies for learning. Areas addressed include: learning management systems, intelligent tutors, computer adaptive testing, gamification, simulations, learning in and through social media and peer interaction, universal design for learning, differentiated instruction systems, big data and learning analytics, attention monitoring, and affect-aware systems. Participants will explore the processes for selection and implementation of suitable technologies, the design of electronic learning resources, design and application of digital media in teaching and learning, familiarization with web usually and accessibility, and critical analysis of the benefits of technologies in education. 4 graduate hours. No professional credit.
EPSY 559 Advanced Learning Technologies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/559/)
In this course participants identify and justify the implementation of advanced learning technologies in the overall environment of learning. They investigate the ways in which advanced technologies influence the design process and how the design process may be enhanced. Areas addressed include: learning management systems, intelligent tutors, computer adaptive testing, gamification, simulations, learning in and through social media and peer interaction, universal design for learning, differentiated instruction systems, big data and learning analytics, attention monitoring, and affect-aware systems. Participants will explore the processes for selection and implementation of suitable technologies, the design of electronic learning resources, design and application of digital media in teaching and learning, familiarization with web usability and accessibility, and critical analysis of the benefits of technologies in education. 4 graduate hours. No professional credit.

EPSY 560 Technology and Educational Change  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/560/)
Today's wave of educational technologies foreshadow what may be a second great education revolution, after the rise of mass-institutional education in the nineteenth century. This has the potential to transform the characteristic communication artifacts of classrooms, teacher lecture, classroom discourse and textbooks. This course explores the possibilities for educational technologies to influence educational change. However, with a critical eye, we also raise the concerns - we can use digital media to prolong the life of old ways of learning, for instance, where the video-lecturing teacher, the monovocal e-textbook or the bullet-pointed PowerPoint presentation transmit facts and concepts. How can we use the affordances of networked digital media to do something different? Can we imagine learning where the knowledge that learners bring to the table is valued, where learners' knowledge repertoires are extended as they actively make new knowledge, and which build collaborative knowledge cultures? 4 graduate hours. No professional credit.

EPSY 563 Theories in Second Language Acquisition  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/563/)
Same as CI 584, EALC 584, FR 584, GER 584, ITAL 584, LING 584, PORT 584, and SPAN 584. See SPAN 584.

EPSY 566 Adv Psycholinguistics  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/566/)
Same as PSYC 526. See PSYC 526.

EPSY 567 Personality Assessment  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/567/)
Same as PSYC 567. See PSYC 567.

EPSY 569 Mixed Method Inquiry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/569/)
This advanced course addresses the theory and practice of mixing inquiry methodologies in program evaluation and applied research. Topics include selected roots of mixed inquiry, various stances on mixing philosophical traditions while mixing methods, conceptualizations of mixed method design and analysis, and challenges of mixed method practice. Students should have basic familiarity with experimental or survey (quantitative) with and constructivist or interpretivist (qualitative) social science. Familiarity with other social science frameworks (e.g., critical theory, feminism, action science) is also highly desirable. Same as SPED 575. 4 graduate hours. No professional credit. Approved for Letter and S/U grading. Prerequisite: EPSY 574 or EPSY 578; or equivalents; or consent of instructor.

EPSY 570 Advanced Theories of Educational Evaluation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/570/)
This topical seminar is designed for advanced graduate students with a significant interest in the evaluation of educational and social policies and programs. The seminar will engage in some depth an issue of contemporary currency and controversy in evaluation theory and practice. Readings, discussions, and peer interaction, as well as a field trip will frame the seminar. Each student in this seminar will be expected to develop a scholarly paper for conference presentation and/or publication. Prerequisite: EPSY 470, EPSY 471, and coursework in research methods.

EPSY 571 Evaluation of Educational Programs  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/571/)
Same as CI 518. See CI 518.

EPSY 572 Quasi-Experimental Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/572/)
Intermediate course for graduate students in education and related fields. Goal is to prepare students to design and conduct quasi-experimental studies and critique the work of others in an informed, systematic way. Students will read and discuss foundational and contemporary issues in design, validity, sampling and loss, regression artifacts, analysis and causal inferences. Prerequisite: EPSY 550 or equivalent.

EPSY 574 Foundations of Qualitative Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/574/)
Introduction to epistemological, methodological, ethical, and political issues characterizing the broad field of qualitative inquiry. Topics covered include: learning management systems, intelligent tutors, computer adaptive testing, gamification, simulations, learning in and through social media and peer interaction, universal design for learning, differentiated instruction systems, big data and learning analytics, attention monitoring, and affect-aware systems. Participants will explore the processes for selection and implementation of suitable technologies, the design of electronic learning resources, design and application of digital media in teaching and learning, familiarization with web usability and accessibility, and critical analysis of the benefits of technologies in education. 4 graduate hours. No professional credit. Prerequisite: EPSY 580 and EPSY 581; or Equivalents.

Information listed in this catalog is current as of 01/2022
EPSY 580  Statistical Inference in Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/580/)
Intermediate statistical methods in education; includes probability theory, distribution theory, interval estimation, hypothesis testing, regression and
correlational analysis, and analysis of variance. Prerequisite: EPSY 480 or equivalent.

EPSY 581  Applied Regression Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/581/)
Emphasis on educational research applications of regression with special emphasis placed on application and interpretation of techniques. Topics
covered include rudimentary linear algebra, the general linear model, different coding schemes, regression diagnostics, and extensions to binary data
and nested data structures. Same as PSYC 581. Prerequisite: EPSY 580 or equivalent; consent of instructor.

EPSY 582  Advanced Statistical Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/582/)
Advanced topics in analyses of variance and covariance, and principles of experimental design; brief introduction to multivariate analysis, including
rudiments of matrix algebra. Prerequisite: EPSY 580, PSYC 407, or equivalent.

EPSY 583  Single Case Experimental Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/583/)
Same as SPED 583. See SPED 583.

EPSY 584  Multivar Anlys in Psych and Ed  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/584/)
Same as PSYC 594 and SOC 584. See PSYC 594.

EPSY 585  Theories of Measurement I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/585/)
Provides a conceptual framework of classical test theory (e.g., true scores, error of measurement, composite measures) and alternatives to the
classical model (e.g., generalizability theory, latent trait theory). Students will learn the techniques and theory of classical test theory and apply the
methods to educational and psychological assessments. Topics covered include reliability, validity, generalizability, dichotomous Item Response
Theory (IRT), test construction and design, item bias and fairness, Differential Item Functioning (DIF), scaling, linking, and equating. Same as
PSYC 595. Prerequisite: EPSY 581 and EPSY 582; PSYC 406 and PSYC 407; or equivalents.

EPSY 586  Theories of Measurement II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/586/)
Provides a conceptual framework of Item Response Theory (IRT) and its applications. Students will learn the techniques and theory of IRT and apply the
methods to educational and psychological assessments. Topics covered include both dichotomous and polytomous IRT modelling, item structure
and latent traits estimation, modeling and detecting Differential Item Functioning, linking and equating, computer adaptive testing, dimensionality
testing, and cognitive diagnosis. Same as PSYC 596. Prerequisite: EPSY 585 or PSYC 490.

EPSY 587  Hierarchical Linear Models  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/587/)
This course provides an overview of the use of multilevel models. Students will learn the techniques and theory of hierarchical linear models and apply the
methods to data from studies in education, psychology and social sciences. Topics covered include multilevel analyses, random intercept and
slope models, 2- and 3-level models, hypothesis testing, model assessment, longitudinal (repeated measures) data, and generalized hierarchical
models for categorical variables. Same as PSYC 587 and STAT 587. Approved for letter and S/U grading. Prerequisite: EPSY 581 and EPSY 582, or
PSYC 406 and PSYC 407.

EPSY 588  Covar Struct and Factor Models  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/588/)
Same as PSYC 588, SOC 588, and STAT 588. See PSYC 588.

EPSY 589  Categorical Data Analysis in Educational Psychology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/589/)
Concepts and methods for analyzing categorical data with an emphasis placed on building and applying models in education, sociology and
psychology. Generalized linear models covered including logistic and Poisson regression models, loglinear, logit, and probit models, and models for
ordinal data. Same as PSYC 589 and SOC 579. Approved for letter and S/U grading. Credit is not given for EPSY 589 and STAT 426. Prerequisite:
EPSY 581 or PSYC 507.

EPSY 590  Advanced Seminar in Educational Psychology  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/590/)
Seminar in educational psychology; topics relate to the areas of specialization represented by the various divisions within the department. 0 to 4
graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated to a maximum of 8 hours in the same or separate
semesters, if topics vary. Prerequisite: Consent of instructor required.

EPSY 591  Field Study and Thesis Seminar  credit: 4 to 8 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/591/)
Assists doctoral candidates in planning field studies and thesis problems. Students are expected to present their studies at each of four stages: (1)
the inception, delimitation, tentative design stage; (2) the proposed design stage; (3) the revised design stage; and (4) the final design stage. Students
are expected to analyze critically all presentations. Prerequisite: Limited to students who have been admitted for doctoral study.

EPSY 595  Independent Study  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/595/)
Offers opportunity and challenge of self-directive, independent study; develops the individual's ability as an independent student; and enables the
student to pursue needed study in a field in which appropriate courses are not being offered during a given term. Approved for both letter and S/U
grading. May be repeated with approval. Prerequisite: Approval of study outline by adviser and the department chairperson prior to enrollment.

EPSY 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/599/)
Individual direction of research and thesis writing. Approved for S/U grading only. May be repeated.
ERAM - Education Research and Methods

Courses

ERAM 510 Uses and Abuses of Educational Research  credit: 4 Hours.  Examines philosophical issues in social and political theory as they pertain to educational problems. The course includes topics such as autonomy, democratic education, educational reform, and social change. Same as EPS 516. 4 graduate hours. No professional credit.

ERAM 515 Social Theories and Education  credit: 4 Hours.  Addresses the historical context of educational research as well as philosophical issues in the foundations of research. Themes include: the efforts of educational research to be respected as a "science"; the rise of educational psychology as a dominant model of educational research; the checkered history of IQ testing; the role of theory in educational research, and how we choose a theory; the debate over qualitative vs quantitative research, and why that is the wrong debate. The readings for the course do not assume any previous background with philosophy. Same as EPS 515. 4 graduate hours. No professional credit.

ERAM 550 Methods of Educational Inquiry  credit: 4 Hours.  Aims at comprehensive research literacy by considering educational research in historical, philosophical, policy and political context. Through close reading and quantitative, qualitative, and humanistic studies, the discussion of interdisciplinary perspectives on the research process, students learn to engage intelligently with multiple modes of research and deal critically with policies claiming an evidentiary warrant. Specific topics include: the relationship between research, policy, and practice; the nature of theory and method, argument and evidence in the humanities and social sciences; the tensions between advocacy and research. Same as EPS 508. 4 graduate hours. No professional credit.

ERAM 551 Philosophy and History of Educational Research  credit: 4 Hours.  Focuses on the methods and methodology that education researchers engage to research educational equity as it relates to race, racism and racial equity in education. Drawing on the research methods literature in the social sciences, humanities and education, this course is appropriate for graduate students in education, sociology, anthropology, and others who have an interest in research methods, methodology and educational issues. 4 graduate hours. No professional credit.

ERAM 552 The Role of Theory in Educational Research  credit: 4 Hours.  All research is guided by theory. Theory provides a vocabulary, a set of laws or generalizations, a background literature, and a conceptual framework for any effort to plan, design, and execute a research study. There is no theory-free inquiry. This is true in the social sciences as well as the natural sciences. All research seeks to explain phenomena: a theory provides an explanation for those explanations. However, these theoretical assumptions are often implicit and unreflective. Researchers may think they have no theory, or have a theory that is so taken for granted that they don't recognize it as an assumed theory. Much of educational research suffers from this lack of theoretical self-awareness. Like any other aspect of research, theories are falsifiable. They must stand the test of evidence – which may go against them. The goal of the class is not to identify the "right" or "best" theory, but to make the identification and selection of a theory more critical and reflective. Any major theory has insights, and each has limitations. 4 graduate hours. No professional credit.

ERAM 554 Postcolonial Theory and Methodology  credit: 4 Hours.  Since the 1990s, scholarship focusing on center-periphery relations has grown considerably. This scholarship is often identified with postcolonial theories of education and society. The purpose of this course is to acquaint students with this body of literature that addresses the way in which post-independent states are currently engaged in massive institutional transformations in light of globalization. Ultimately, we will explore the theoretical and methodological traditions foregrounded in postcolonial research and their implications for educational policy. Same as EPS 570. 4 graduate hours. No professional credit.

ERAM 555 Ethnographic Methods in Education  credit: 4 Hours.  Focuses on goals, nature, and methodological means of ethnographic research in educational settings broadly defined. Such research aims to describe and, moreover, to understand the ways of living of teachers, students, administrators, parents, and other participants in relevant social spaces. The class will be grounded in the disciplinary perspectives of cultural anthropology, linguistic anthropology, and cultural studies. We will have an ongoing discussion of how one conducts ethnographic research, and all members of the class will conduct their own mini-study. 4 graduate hours. No professional credit.

ERAM 556 Program Evaluation  credit: 4 Hours.  Examines models and methods of evaluating programs, processes, and products in broadly-defined organizations situated in various operational contexts (eg., education, business, government, NGO). Particular emphasis is given to topics of formative and summative evaluation, frameworks for program evaluation, quantitative and qualitative methods of data collection and analysis, communicating and reporting evaluation findings, and the ethics and standards of evaluation practice. The underlying philosophy of the course is that evaluation can be the catalyst for organizational learning to facilitate intended changes, especially when initiated by those in training and organization development positions. Same as HRD 585. 4 graduate hours. No professional credit.

Information listed in this catalog is current as of 01/2022
ERAM 557  Meaning Patterns: Semiotics and the Interpretation of Meanings in Education and the Social Sciences  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ERAM/557/)  
Addresses the ways in which knowledge is represented, with special reference to the knowledge representations of teachers and learners. Its interdisciplinary bases are functional linguistics, semiotics, philosophy, history of ideas, media/communication studies, and ontology in computer science. The focal point of the course is the five questions about meaning posed by Cope and Kalantzis in their transpositional grammar: "what is this about?" (reference); "who or what is doing this?" (agency); "what holds this together?" (structure); "how does this fit with its surroundings?" (context); and "what is this for?" (interest). Along these lines of inquiry, a transpositional grammar addresses language, image, embodied action, object and space. "Transposition" refers to the movement across these various forms of meaning, intensified in the era of pervasively multimodal, digitally-mediated communications. Applied to education, not only does this provide a valuable heuristic to reframe literacy teaching and learning (the original impulse for the development of this grammar). It also offers an integrated account of meaning-to-learn across all subject areas, including pedagogical content knowledge and learner knowledge representations. Conceived in the broader terms of social-scientific research methods, transpositional grammar is an attempt to overcome the narrowness and logocentrism of "the language turn" which dominated social sciences in the twentieth century. In a practical sense, semiotics of the kind explored in this course also provides tools for reading and interpreting multimodal texts and research data. 4 graduate hours. No professional credit.

ERAM 570  Seminar in the History of Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ERAM/570/)  
Intensive group study of a small number of selected problems to assist individual students to develop an understanding of and the ability to use the techniques of historical research in furthering such study; problems studied are selected in the light of the interests and previous training of the group of students enrolled. Same as EPS 503. 4 graduate hours. No professional credit. Prerequisite: Two courses in the history of education or consent of instructor.

ERAM 571  Traditions in Philosophy of Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ERAM/571/)  
Analyzes major trends and primary sources in philosophy of education, drawing mainly from the 20th century. Movements covered will include pragmatism, concept analysis, phenomenology, feminism, and Marxism/Critical theory. Same as EPS 510. 4 graduate hours. No professional credit. Prerequisite: An appropriate 300- and 400-level coursework in philosophy, philosophy of education, or consent of the instructor.

ERAM 572  Case Studies Professional Ethics and Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ERAM/572/)  
Examines issues in moral philosophy as they pertain to education. Topics include current theories of moral education, ethical problems in teaching, or topics of moral dispute in educational policy. Same as EPS 517. 4 graduate hours. No professional credit. Prerequisite: Consent of instructor.

ERAM 573  Cultural Studies and Critical Interpretation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ERAM/573/)  
Explores the history, applications and limitations of various theoretical and methodological approaches to the study of contemporary culture and popular media. Examines debates and issues within cultural studies and with other schools of thought. The impact of cultural studies across the disciplines. Same as EPS 575 and MDIA 575. 4 graduate hours. No professional credit.

ERAM 574  Education Law  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ERAM/574/)  
Examines the range of federal and state constitutional and statutory sources that apply to the constituents (pupils, parents, teachers, administrators, and board members) engaged in public schools. Emphasizes development of legal analytical skills. Same as EOL 547. 4 graduate hours. No professional credit.

ERAM 575  Action Research and Educational Leadership  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ERAM/575/)  
Encourages the development of an inquiry stance by enabling students to design action research projects grounded in practical, evidence-based questions. The course examines action research as a vehicle for teacher and administrator growth and instructional reform. Practitioner inquiry is characterized by the careful documentation and systematic analysis of practice over time. In this class, students will ask critical questions about teaching and learning, curriculum, school management, student development, and educational change, while applying various methods of data collection and analysis, in the design of action research projects based within practitioners' school sites. This course introduces students to the foundations, purposes, and practices of action research and practitioner inquiry. 4 graduate hours. No professional credit. Prerequisite: EPOL 550. Advanced doctoral students.

ERAM 576  Discourse Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ERAM/576/)  
Students will gain an understanding of major theoretical and methodological approaches to doing discourse analysis in educational research (e.g., through analysis of face-to-face or online classroom talk and interaction, or published policy documents). Course assignments will provide students with opportunities to develop and apply tools for conducting research using discourse analytic methods. 4 graduate hours. No professional credit. Prerequisite: Successful completion of a minimum of one graduate-level introductory qualitative research methods course.

ERAM 581  Evaluation with Applied Survey Design I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ERAM/581/)  
The initial course in a three-part course sequence that introduces the theories, methods, and applications of surveys for educational and social programs through student projects. The survey is an essential tool for researchers in the social sciences and in many applied professional fields, such as education, public health, and marketing. In the context of student projects, we will examine the major planning tasks necessary for conducting surveys, including problem formulation, study design, questionnaire and interview design, pretesting, sampling, interviewer training and field management, and code development. We will focus throughout on issues of design, refinement, and ethics in research that crosses boundaries of nationality, class, gender, language, and ethnicity. 4 graduate hours. No professional credit.
ERAM 582  Evaluation with Applied Survey Design II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ERAM/582/)
Further explores the theories, methods, and applications of surveys for educational and social programs through student projects. The survey is an essential tool for researchers in the social sciences and in many applied professional fields, such as education, public health, and marketing. This course focuses on data collection, interviews, training manuals and planning for field work, instrument pilots, and coding and data management. 4 graduate hours. No professional credit. Prerequisite: Successful completion of ERAM 581 and/or related experience with an original survey dataset.

ERAM 583  Evaluation with Applied Survey Design III  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ERAM/583/)
Intended for students who have completed ERAM 581 & ERAM 582, and/or have completed independent data collection using survey instruments. Previous knowledge of survey data collection methods and an original data set is a prerequisite for taking this course. This module will focus on applied data processing and analysis including data editing, imputation, weighting, and considerations for reporting data from complex sample surveys. Emphasis will be on the practical application of data analysis procedures in Stata, a statistical software application with the capability to account for survey design, to applied research problems. This online course will be open to both on-campus and online students. This course will make use of the STATA statistical platform which can either be purchased individually or used freely in campus computer labs, where available. 4 graduate hours. No professional credit. Prerequisite: Successful completion of ERAM 581 and ERAM 582 and/or related experience with an original survey dataset.

Information listed in this catalog is current as of 01/2022
ESE - Earth, Society, & Environment

ESE Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ESE/)

Courses

ESE 100 Sustainable Earth  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/100/)
Provides an introduction to sustainability that explores how today's human societies can endure in the face of global change, ecosystem degradation, and limited resources. Emphasizes the fundamentals of the physical sciences and the scientific method while also exploring the special impact of sustainability challenges on minority cultures in the U.S. Prerequisite: This course is intended for first and second year students. This course satisfies the General Education Criteria for:
- Grand Challenge-Sustainability
- Nat Sci Tech - Phys Sciences

ESE 103 Earth’s Physical Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ESE/103/)
Same as GEOG 103. See GEOG 103.
This course satisfies the General Education Criteria for:
- Nat Sci Tech - Phys Sciences

ESE 104 Geology of the National Parks  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/104/)
Same as GEOL 104. See GEOL 104.
This course satisfies the General Education Criteria for:
- Nat Sci Tech - Phys Sciences

ESE 106 Geographies of Globalization  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/106/)
Same as GEOG 106. See GEOG 106.
This course satisfies the General Education Criteria for:
- Cultural Studies - Non-West
- Social Beh Sci - Soc Sci

ESE 111 Emergence of Life  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/111/)
Same as GEOL 111. See GEOL 111.
This course satisfies the General Education Criteria for:
- Nat Sci Tech - Life Sciences

ESE 117 The Oceans  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/117/)
Same as GEOL 117. See GEOL 117.
This course satisfies the General Education Criteria for:
- Nat Sci Tech - Phys Sciences

ESE 118 Natural Disasters  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/118/)
Same as GEOL 118 and GLBL 118. See GEOL 118.
This course satisfies the General Education Criteria for:
- Nat Sci Tech - Phys Sciences

ESE 120 Severe and Hazardous Weather  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/120/)
Same as ATMS 120. See ATMS 120.
This course satisfies the General Education Criteria for:
- Nat Sci Tech - Phys Sciences
- Quantitative Reasoning II

ESE 140 Climate and Global Change  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/140/)
Same as ATMS 140. See ATMS 140.
This course satisfies the General Education Criteria for:
- Nat Sci Tech - Phys Sciences

ESE 143 History of Life  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/143/)
Same as GEOL 143. See GEOL 143.
This course satisfies the General Education Criteria for:
- Nat Sci Tech - Life Sciences

ESE 170 Nature Religion  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/170/)
Same as REL 170. See REL 170.

ESE 199 Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/ESE/199/)
Special topics in Earth, Society, and the Environment; content is variable. May be repeated if topics vary.

ESE 200 Earth Systems  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/200/)
Interdisciplinary lecture class intended to introduce Earth Systems studies, which focuses on integrating social and natural science approaches to studying the Earth and its environments.

Information listed in this catalog is current as of 01/2022
ESE 202  American Environmental History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/202/)
This course satisfies the General Education Criteria for:
  Humanities - Hist Phil
  Cultural Studies - Western

ESE 208  History of the Earth System  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ESE/208/)
Same as GEOL 208. See GEOL 208.
This course satisfies the General Education Criteria for:
  Nat Sci Tech - Phys Sciences

ESE 210  Social & Environmental Issues  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/210/)
Same as GEOG 210. See GEOG 210.
This course satisfies the General Education Criteria for:
  Social Beh Sci - Soc Sci

ESE 222  Big Rivers of the World  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/222/)
Same as GEOG 222. See GEOG 222.

ESE 254  American People, Places, & Environments  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/254/)
Same as GEOG 254. See GEOG 254.
This course satisfies the General Education Criteria for:
  Social Beh Sci - Soc Sci
  Cultural Studies - US Minority

ESE 287  Environment and Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/287/)
Same as GGIS 287, NRES 287 and PS 273. See NRES 287.
This course satisfies the General Education Criteria for:
  Social Beh Sci - Soc Sci
  Cultural Studies - Western

ESE 289  Environment & Sustainability Field Study  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ESE/289/)
Group expedition to study environment and sustainability issues at a nearby field site. Includes in-class meetings, student-led presentation, and a field trip that may be short as part of a day or as long as several days. Field trip and field trip fee required. Additional fees may apply. See Class Schedule. Approved for letter and S/U grading. May be repeated in separate terms if topics vary. Prerequisite: For ESE majors, minors, and Sustainability Living Learning Community students. Non majors can apply to the waitlist.

ESE 293  The Anthropocene  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/293/)
Same as ENGL 293. See ENGL 293.

ESE 311  Environmental Issues Today  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/311/)
Seminar exposing students to different disciplinary perspectives on specific environmental issues, as revealed in the scholarly literature. Specific problems will vary from term to term. This seminar helps students make the transition from disciplinary to interdisciplinary thinking.

ESE 320  Water Planet, Water Crisis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/320/)
Study of the science of water on planet earth, the developing water crisis, and some possible solutions to it. Topics include water’s unique physical and chemical properties; how it profoundly shapes the earth/ocean/atmosphere system; dynamics of oceans, atmosphere, lakes, rivers, groundwater, and ice masses; current fresh water supplies and their distribution on earth relative to population; current and future water crises and the compounding effects of droughts, floods, and global change; and prospects for some technological and economic approaches to easing the crisis. Same as GEOG 370 and GEOL 370.

ESE 333  Earth Materials and the Env  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ESE/333/)
Same as GEOL 333. See GEOL 333.

ESE 350  Sustainability and the City  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/350/)
Same as GEOG 350. See GEOG 350.

ESE 360  Environmental Writing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/360/)
Equips students to write about the environment for various audiences, with a focus on specific current efforts to promote sustainability on the Urbana-Champaign campus. We will practice effective techniques for each stage of the writing process—from defining topics, to gathering information, to crafting active, engaging prose. Readings will include models of effective environmental writing and “how to” pieces by experts. Research will include visits to campus sites and student-conducted interviews with subjects. Same as ENGL 360. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
  Advanced Composition

ESE 379  Intro to GIS Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ESE/379/)
Same as GEOG 379. See GEOG 379.

Information listed in this catalog is current as of 01/2022
ESE 380 GIS II: Spatial Prob Solving  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ESE/380/)
Same as GGIS 380. See GGIS 380.
This course satisfies the General Education Criteria for:
Quantitative Reasoning II

ESE 389 Environment and Sustainability Field Expedition  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/389/)
Group expedition to study environment and sustainability issues at a field site. Includes in-class meetings, student-led presentation, and field trip; expeditions run during spring break, winter break, in mid-May or in intercession; dates depend on location. Field Trip and field trip fee required. Additional fees may apply. See Class Schedule. May be repeated up to 12 hours in separate terms if topics vary.

ESE 401 ESE Capstone  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/401/)
Capstone experience for majors in Earth, Society, and Environment Sustainability. 3 undergraduate hours. No graduate credit. Approved for Letter and S/U grading. May be repeated once.

ESE 410 Green Development  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ESE/410/)
Same as GEOG 410. See GEOG 410.

ESE 411 Geomorphology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ESE/411/)
Same as GEOL 401. See GEOL 401.

ESE 421 Earth Systems Modeling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ESE/421/)
Same as ATMS 421, GEOG 421, GEOL 481 and NRES 422. See ATMS 421.

ESE 439 Biogeography  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/439/)
Same as ANTH 436, GEOG 436, IB 439, and NRES 441. See IB 439.

ESE 445 Earth Resources Sustainability  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/445/)
Introduces the physical (energy, mineral, and soil) resources of the Earth, the environmental consequences of producing and using resources, the controls on resource supplies, and the alternatives to traditional supplies. Focuses on the geological origin and context of resources, the means of exploration and production, the history of production, and sustainability issues related to consumption and depletion. Provides an understanding of why resources can be scarce and expensive, why many are not renewable, and why their use impacts the Earth System. May include field trips. 3 undergraduate hours. 3 graduate hours. Credit is not given for both ESE 445 and GEOL 380. Prerequisite: Junior standing or higher.

ESE 452 Ecosystem Ecology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/452/)
Same as IB 452 and NRES 462. See IB 452.

ESE 465 Transportation & Sustainability  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ESE/465/)
Same as GEOG 465. See GEOG 465.
This course satisfies the General Education Criteria for:
Advanced Composition

ESE 466 Environmental Policy  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ESE/466/)
Same as GGIS 466. See GGIS 466.

ESE 470 Introduction to Hydrogeology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ESE/470/)
Same as GEOL 470. See GEOL 470.

ESE 477 Advanced Environmental Writing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/477/)
Same as ENGL 477. See ENGL 477.
This course satisfies the General Education Criteria for:
Advanced Composition

ESE 482 Challenges of Sustainability  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/482/)
An interdisciplinary approach to investigating the meaning and practice of sustainability in the contemporary Earth system. As a consequence, students explore the sustainability of crucial resources - water, soil, energy, mineral and the biota - in the context of the social and environmental systems in which these resources are used, including the moral, physical, ecological, political and economic. Same as GEOG 482 and GEOL 483. 3 undergraduate hours. 3 graduate hours. Prerequisite: Junior or senior standing, or consent of instructor.

ESE 486 Environmental Consulting  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/486/)
Same as GEOL 486. See GEOL 486.
ESE 497  Special Topics in ESE  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ESE/497/)
Advanced topics course, consisting of seminar or lectures in subjects not covered by regular course offerings; for advanced undergraduates and graduate students. Possible field study in a prominent geological locality; includes in-class meetings, student-led presentations, and field trip; trips run during spring break, winter break, in mid-end May; dates depend on location. Additional fees may apply. See Class Schedule. 1 to 4 undergraduate hours. 1 to 4 graduate hours. Approved for letter and S/U grading. May be repeated in the same or separate terms to a maximum of 12 undergraduate hours or 8 graduate hours. Prerequisite: Consent of instructor.

ESE 498  Environmental Writing for Publication  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/498/)
Provides students with both the experience of the real-world editorial process and with a research product (the published essay) that showcases their professional development as well-informed and persuasive writers on environmental issues. Same as ENGL 498. 3 undergraduate hours. No graduate credit. Prerequisite: Consent of instructor.
ESL - English as a Second Language

ESL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ESL/)

Courses

ESL 110  English Pronunciation & Oral Fluency  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/110/)
Designed to improve the international student's ability to speak and understand English at normal conversational speed and to give the student the ability to continue improving pronunciation and oral fluency skills after the course is finished. Focus on the rhythm, stress, intonation, and sounds of natural speech and on fluency building strategies. Approved for S/U grading only. May be repeated in separate terms. Credit is not given toward an undergraduate degree. Prerequisite: Placement based on the speaking section score on the TOEFL or Placement based on English as a Second Language Placement Test (EPT) for undergraduate students without TOEFL or IELTS scores.

ESL 111  Intro to Academic Writing I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESL/111/)
Introduction to the process of writing: fundamentals of paragraph development: analysis of rhetorical patterns: development of oral skills. This course is the first term of a two-term sequence (ESL 111-ESL 112) that fulfills the campus Composition I general education requirement. Credit is not given for both ESL 111 and ESL 115. Prerequisites: 111 placement result on the English Placement Test. This course satisfies the General Education Criteria for:
Composition I

ESL 112  Intro to Academic Writing II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESL/112/)
Continued instruction of the fundamentals of the multi-paragraph essay and introduction to research writing; instruction on basics of library research, synthesizing sources, and elements of style. This is the second term of a two-term sequence (ESL 111-ESL 112) that satisfies the campus Composition I general education requirement. Credit is not given for both ESL 112 and ESL 115. Prerequisite: Completion of ESL 111. This course satisfies the General Education Criteria for:
Composition I

ESL 115  Principles of Academic Writing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ESL/115/)
Introduction to the research paper, including the writing process: pre-research, academic style and organization, and a variety of writing and skill-building tasks; development of peer and self-editing skills. ESL 115 fulfills the campus Composition I requirement for non-native speakers of English. Credit is not given for both ESL 115 and any other Comp I courses: RHET 101, RHET 102, RHET 103, RHET 104, RHET 105, CMN 111, CMN 112, ESL 111, ESL 112. Prerequisite: 115 placement result on the English Placement Test. This course satisfies the General Education Criteria for:
Composition I

ESL 504  English Pronunciation for ITAs  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/504/)
Sounds, rhythm, and melody of spoken English for current and potential international teaching assistants who are required to teach in English. Includes word and phrase level study; special emphasis on the pronunciation of English vocabulary in students' own academic disciplines. Approved for S/U grading. Prerequisite: Placement based on SPEAK. This course satisfies the General Education Criteria for:
UIUC:ESL CR/SSP

ESL 506  Oral Communication for ITAs  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/506/)
Focuses on use of English at the discourse level, with videotaping and critique of student presentation and development of teaching strategies related to university classroom and laboratory contexts. Approved S/U grading only. Prerequisite: Consent of instructor. This course satisfies the General Education Criteria for:
UIUC:ESL CR/SSP

ESL 507  Adv Academic writing MATSEL  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/507/)
Focus on advanced academic writing in the field of Teaching English as a Second Language at the graduate level. Introduces rhetorical modes of writing in TESL, critical reading in the field and includes source-based writing, including critical reviews, proposals, and research reports. Approved for S/U grading only. Credit is not given for both ESL 507 and any of ESL 500, ESL 501, and ESL 502. Credit is not given toward a graduate degree. This course satisfies the General Education Criteria for:
UIUC:ESL CR/SSP

ESL 508  Seminar for Intl TAs  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/508/)
Provides students with knowledge, resources and strategies to guide their ongoing development as international teaching assistants. Students analyze model teaching, receive feedback about their own strengths and weaknesses as a teaching assistant, and address key language or pedagogical concerns through a focused and customized term project. Approved for S/U grading only. This course satisfies the General Education Criteria for:
UIUC:ESL CR/SSP

Information listed in this catalog is current as of 01/2022
ESL 510 English Pronunciation & Oral Fluency  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/510/)
Designed to improve the international student's ability to speak and understand English at normal conversational speed and to give the student the ability to continue improving pronunciation and oral fluency skills after the course is finished. Focus on the rhythm, stress, intonation, and sounds of natural speech and on fluency building strategies. 0 graduate hours. No professional credit. Approved for S/U grading only. May be repeated in separate terms. Credit is not given toward a graduate degree. Prerequisite: Placement based on English as a Second Language Placement Test (EPT) or the speaking section score on TOEFL or IELTS.
This course satisfies the General Education Criteria for:
UIUC:ESL CR/SSP

ESL 511 Written and Oral Communication  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/511/)
Instruction in foundational skills for academic communication; skills covered include summarizing and synthesizing sources, reading and evaluating scholarly articles, and delivering oral presentations for an academic audience. This course is the first term of a two-term sequence (ESL 511-ESL 512). 0 graduate hours. No professional credit. Approved for S/U grading only. Credit is not given toward a graduate degree. Prerequisite: Level 1 course placement result on the English Placement Test. ESL students only.
This course satisfies the General Education Criteria for:
UIUC:ESL CR/SSP

ESL 512 Introduction to Academic Writing  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/512/)
Instruction in writing secondary and primary research papers; skills covered include developing research questions and design, evaluating and synthesizing scholarly sources, producing well-reasoned and substantiated arguments, and writing research/project proposal. This course is the second term of a two-term course sequence (ESL 511-ESL 512). 0 graduate hours. No professional credit. Approved for S/U grading only. Credit is not given toward a graduate degree. Prerequisite: ESL 511. ESL students only.
This course satisfies the General Education Criteria for:
UIUC:ESL CR/SSP

ESL 515 Introduction to Academic Writing  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/515/)
Instruction in essential skills in academic writing; skills for writing secondary and primary research papers, including developing research questions and design, evaluating and synthesizing scholarly sources, and producing well-reasoned and substantiated arguments. 0 graduate hours. No professional credit. Approved for S/U grading only. May be repeated in separate terms. Credit is not given toward the graduate degree. Prerequisite: Level 2 course placement result on the English Placement Test. ESL students only.
This course satisfies the General Education Criteria for:
UIUC:ESL CR/SSP

ESL 521 Written and Oral Business Communication  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/521/)
Instruction for essential skills in business communication both in academic and professional settings; skills covered include writing professional correspondence, summarizing and analyzing sources, designing attractive documents, case-based writing, and delivering oral presentations. 0 graduate hours. No professional credit. Approved for S/U grading only. May be repeated in separate terms. Credit is not given toward the graduate degree. Prerequisite: Level 1 course placement result on the English Placement Test. ESL students only.
This course satisfies the General Education Criteria for:
UIUC:ESL CR/SSP

ESL 522 Introduction to Business Writing  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/522/)
Continued instruction in essential skills in business communication both in academic and professional settings; Skills covered include writing professional correspondence and business proposals, synthesizing sources, and participating in group discussions. This course is the second term of a two-term course sequence (ESL 521 - ESL 522). 0 graduate hours. No professional credit. Approved for S/U grading only. Credit is not given toward a graduate degree. Prerequisite: ESL 521. ESL students only.
This course satisfies the General Education Criteria for:
UIUC:ESL CR/SSP

ESL 525 Elements of Business Writing  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/525/)
Instruction in essential skills in business communication both in academic and professional settings; skills covered include business proposals, synthesizing sources, and participating in group discussions. 0 graduate hours. No professional credit. Approved for S/U grading only. May be repeated in separate terms. Prerequisite: Level 2 course placement results on the English Placement Test. ESL students only.
This course satisfies the General Education Criteria for:
UIUC:ESL CR/SSP

ESL 592 Advanced Academic Writing  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/592/)
Provides advanced international students additional support in the conventions of professional academic writing in their own fields. Through the use of Contract Learning, students define and pursue individualized writing goals for their own major programs with the support of the instructor. Lessons in genre analysis enable students to derive field-specific models for research articles, theses, and dissertations. 0 graduate hours. No professional credit. Approved for S/U grading only. Credit is not given toward a graduate degree. Prerequisite: ESL 515 or equivalent; OR recommendation from UIUC English Placement Test; OR "full status" English proficiency admission.
This course satisfies the General Education Criteria for:
UIUC:ESL CR/SSP
ESL 593   Academic Presentation Skills   credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/593/)
Provides international students with opportunities to improve skills in effectively presenting research in both oral and written formats in preparation for the professional conference presentation process. Students will practice orally explaining their research, asking and answering questions, giving and receiving feedback, and writing a conference proposal with the aim of creating and delivering compelling, professional presentations. 0 graduate hours. No professional credit. Approved for S/U grading only. Credit is not given toward a graduate degree.
This course satisfies the General Education Criteria for:
UIUC:ESL CR/SSP
ETMA- Engineering Technology & Management for Agricultural Systems

ETMA Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ETMA/)

Information listed in this catalog is current as of 01/2022
EURO - European Union Studies

Courses

EURO 199 Undergraduate Open Seminar credit: 1 to 5 Hours. Approved for letter and S/U grading. May be repeated in separate terms to a maximum of 3 hours.

EURO 325 Social Media and Global Change credit: 3 Hours. Same as AFST 325, ASST 325, EPOL 325, EPS 325, INFO 325, LAST 325, REES 325, and SAME 325. See EPOL 325.

EURO 376 Children and Youth Literature credit: 3 Hours. Same as CWL 376, GWS 376, and SCAN 376. See SCAN 376.

EURO 385 Politics of the European Union credit: 3 Hours. Same as FR 385, GER 385, and PS 385. See PS 385.

EURO 410 Labor and the European Union credit: 4 Hours. Same as LER 410. See LER 410.

EURO 415 Europe and the Mediterranean credit: 3 or 4 Hours. Examines the governments, societies, and cultures on the shores of the Mediterranean. Examines ideas associated with the Mediterranean and practices followed by its people and governments from the perspectives of a variety of disciplines, paying special attention to the region's relationship with the European Union. Same as ITAL 415 and PS 415. 3 undergraduate hours. 4 graduate hours. Prerequisite: Minimum of junior standing, or consent of instructor.

EURO 418 Language & Minorities in Europe credit: 3 or 4 Hours. Same as GER 418, FR 418, ITAL 418, LING 418, PS 418, SLAV 418, and SPAN 418. See FR 418.

EURO 470 Scandinavian Politics and Society credit: 3 or 4 Hours. Same as CWL 470 and SCAN 470. See SCAN 470.

EURO 489 Green Screen: Film and Nature credit: 3 or 4 Hours. Same as MACS 490 and SCAN 490. See SCAN 490.

EURO 490 Special Topics in EU Studies credit: 1 to 4 Hours. Selected reading and research in European Studies. See schedule for current topics. 1 to 4 undergraduate hours. 1 to 4 graduate hours. Approved for letter and S/U grading. May be repeated to a maximum of 8 hours in same or separate terms if topics vary. Prerequisite: Junior or senior standing, or consent of the instructor.

EURO 500 Dialogue on Europe credit: 2 Hours. Exploration of a variety of subjects about the European Union and EU-US relations and comparative perspectives. This transatlantic relationship will be studied via a series of expert lectures offered by University of Illinois faculty and visiting scholars. 2 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated to a maximum of 4 hours in separate terms if topics vary. Prerequisite: Priority given to students in the MAEUS and EUC FLAS Fellowship programs, other graduate students welcome by permission of the instructors.

EURO 501 EU Institutions and Governance credit: 4 Hours. A graduate-level introduction to the European Union, its history, decision-making processes, legal framework and economic effects.

EURO 502 The EU in a Global Context credit: 4 Hours. Introduces students to the role of the EU in international affairs. May be repeated in separate terms to a maximum of 8 hours.

EURO 576 Children and Youth Literature credit: 4 Hours. Same as CWL 576, GWS 576, and SCAN 576. See SCAN 576.

EURO 580 Research Design & Techniques credit: 1 Hour. Introduction for students in the master's in European Union Studies degree program to the processes involved in developing and completing an MA thesis project. Topics covered may include departmental and Graduate College thesis requirements; research methodologies; conducting effective field research; resources for thesis writing; and practical advice on managing a thesis project. Approved for S/U grading only.

EURO 590 Directed Ind Study credit: 1 to 6 Hours. May be repeated in the same term to a maximum of 6 hours. May be repeated in separate terms to a maximum of 12 hours. Prerequisite: Consent of instructor.

EURO 596 Special Topics in EU Studies credit: 1 to 4 Hours. Instruction on topics of current interest about the European Union. May be repeated in the same or separate terms if topics vary. See Class Schedule for current topics.

EURO 599 Thesis Research credit: 0 to 8 Hours. To carry out work on the MA in European Union Studies. Approved for S/U grading only. May be repeated in separate terms to a maximum of 8 graduate hours. Prerequisite: EURO 501 and EURO 502.
FAA - Fine and Applied Arts

Courses

FAA 101 Arts at Illinois credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FAA/101/)
Common Arts experience for FAA freshmen that explores contemporary issues in the arts, cross-disciplinary ingenuity navigating a comprehensive research intensive university, professional practices and exposures to FAA faculty and guest artists through lectures, discussion groups, and online components.

FAA 102 Design Beyond Boundaries credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FAA/102/)
This class surveys core issues and methods across a host of design disciplines, including industrial design, graphic design, interaction design, exhibition design, theatrical design, choreography, landscape architecture, and architecture. It explores the mindsets and methods with which designers develop innovative, user-oriented solutions to complex and persistent problems. Working individually and in diverse teams, students will deploy design process and design thinking to identify existing needs, frame and reframe problems, and ideate, iterate, and test original design solutions that defy conventional categories.
This course satisfies the General Education Criteria for: Humanities - Lit Arts

FAA 110 Exploring Arts and Creativity credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FAA/110/)
High and street art, tradition and experimentation, the familiar and unfamiliar, international and American creativity provide this course's foundation. Students will attend performances and exhibitions, interact with artists, and examine core issues associated with the creative process in our increasingly complex global society. Faculty from the arts, sciences, humanities, and other domains will lead students through visual arts, music, dance, and theatre experiences at Krannert Center and Krannert Art Museum to spark investigation and dialogue.
This course satisfies the General Education Criteria for: Humanities - Lit Arts

FAA 199 Undergraduate Open Seminar credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/FAA/199/)
Various special topics in Fine and Applied Arts. See class schedule for offerings. Additional fees may apply. See Class Schedule. Approved for Letter and S/U grading. May be repeated in the same or separate semesters to a maximum of 6 hours if topics vary; some restrictions may apply.

FAA 202 Artsful Teaching through Integ credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FAA/202/)
Designed to provide elementary education majors with a philosophical and practical basis for integrating the arts [including visual art, music, & dance] in public schools. Lecture, discussion, arts practices and class activities will focus on the ever expanding role of the arts in children's lives and the role of the teacher in nurturing artistic expressions through the development of skills, processes, and the various knowledges of the multi-modalities of the arts. Additional fees may apply. See Class Schedule. Prerequisite: Completion of applicable Teacher Licensure Gateway requirements. Contact College of Education for further information. Admission to the Elementary Teacher Education Program.

FAA 220 Introduction to Fashion credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FAA/220/)
Same as ARTS 220. See ARTS 220.
This course satisfies the General Education Criteria for: Humanities - Lit Arts

FAA 230 Sustainable Design of the Built Environment credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FAA/230/)
This seminar introduces fundamental readings in sustainability and resilient design. Presents diverse perspectives on sustainability, encouraging students to understand and critique different meanings of sustainability over time and geography. Approved for Letter and S/U grading. Prerequisite: Priority given for majors.

FAA 291 Civic Engagement Seminar credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FAA/291/)
Designed to introduce students to community development practices and the participatory approach followed by Action Research.Illinois. Detailed information about the course is available at www.actionresearch.illinois.edu. Enrollment in this class requires attendance in two in-class sessions (one lecture, one discussion) and a two-day outreach event in Central Illinois, dates to be determined. Outreach event begins at 9 am Friday and ends by 9 pm Saturday. Lecture, discussion and outreach event will be offered with the one-week course period to be determined. Approved for S/U grading only. May be repeated in separate terms to a maximum of 2 hours.

FAA 299 FAA Study Abroad credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/FAA/299/)
Provides campus credit for foreign study and/or travel. A detailed proposal for study abroad must be submitted for approval by the appropriate committee of the department in which the student is studying and the college dean's office prior to such study abroad. Final determination of credit and its application toward the degree is made after a review of the student's work abroad by the above committee and college office. (summer session, 0 to 6 undergraduate hours). Approved for Letter and S/U grading. May be repeated to a maximum of 36 hours. Prerequisite: Approval of the student's proposal by the departmental committee and the college office.

FAA 310 FAA Professional Development credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FAA/310/)
Focuses on tailoring written, verbal, and online presentations to targeted audiences. Students will develop an application package including resume, letter, LinkedIn profile, elevator pitch, interview skills, and website. Course information: Prerequisite: Sophomore, junior or senior standing in FAA is required.

Information listed in this catalog is current as of 01/2022
FAA 330  Making Sustainable Design  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/FAA/330/)
Introduction to techniques and tools for representing and realizing sustainable design ideas. Using a case study method, students are introduced to
digital and analog means of representing concepts, data, and spatial forms. Through hands-on assignments, tutorials, and workshops, students learn
basic skills to express ideas graphically and in three dimensions. Prerequisite: ARCH 171 and ARTD 225. Limited to majors.

FAA 391  Action Research Seminar  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FAA/391/)
Introduction to applied action research within the social sciences and humanities with the subject of research selected from partner organizations
in Champaign-Urbana, Illinois, and surrounding communities. Students establish a research question, conduct fieldwork using qualitative and/or
quantitative methods, and complete a project of sufficient quality for publication or presentation. May be repeated to a maximum of 12 hours in
subsequent terms. Prerequisite: Junior standing or consent of instructor.

FAA 398  Sustainable Design Internship  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/FAA/398/)
Supervised field experience in a full-time or part-time internship position related to the field of Sustainable Design. Designed to introduce students
to professional employment and actual practice. Full documentation and approval of internship activities required. Approved for S/U grading only.
May be repeated in separate terms to a maximum of three times. Prerequisite: For Sustainable Design majors only. Registration only with instructor
permission (sustaindesign@illinois.edu).

FAA 399  Special Topics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FAA/399/)
Various special topics in Fine and Applied Arts. See class schedule for offerings. Approved for Letter and S/U grading. May be repeated in the same or
separate semesters to a maximum of 6 hours if topics vary; with permission of the unit advisor.

FAA 430  Capstone Seminar  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FAA/430/)
Introduces advanced research themes, methods, and techniques for seniors in the Bachelor of Science in Sustainable Design. Emphasis is placed
on students developing their own research topics, using multiple representational forms, including writing, drawing, mapping, and modeling. 3
undergraduate hours. No graduate credit. Prerequisite: FAA 230 and FAA 330. Majors only. Senior standing required.

FAA 431  Capstone Studio  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/FAA/431/)
In design studio format, students work on capstone projects for the Bachelor of Science in Sustainable Design degree. Students receive regular
feedback and critique throughout the semester in the form of desk critiques, pin-ups, and formal reviews with Illinois Faculty and guests from other
institutions. 5 undergraduate hours. No graduate credit. Prerequisite: FAA 430. Limited to undergraduate majors.

FAA 491  Special Problems in Sustainable Design  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FAA/491/)
Directed independent creative activity or research. 1 to 4 undergraduate hours. No graduate credit. May be repeated to a maximum of 6 hours.
Prerequisite: 3.3 GPA minimum required to enroll. A contract must be completed & approved. Consent of instructor and faculty administrator for

FAA 499  Special Topics  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FAA/499/)
Special topics in subject areas within the College of Fine and Applied Arts intended to augment the existing curriculum. 0 to 4 undergraduate hours. 0
to 4 graduate hours. Approved for letter and S/U grading. May be repeated for a maximum of 8 credit hours in separate terms if topics vary.
FIN - Finance

Courses

FIN 199  Undergraduate Open Seminar  credit: 0 to 5 Hours. [https://courses.illinois.edu/schedule/terms/FIN/199/]
Approved for letter and S/U grading. Course may be repeated for credit.

FIN 221  Corporate Finance  credit: 3 Hours. [https://courses.illinois.edu/schedule/terms/FIN/221/]
Introductory study of corporate financial management, in particular how the financial manager’s choices add value to shareholder wealth through investment financing and operating decisions. Prerequisite: Completion of ECON 102 or ECON 103.

FIN 230  Introduction to Insurance  credit: 3 Hours. [https://courses.illinois.edu/schedule/terms/FIN/230/]
Introductory course on the role of insurance in society; covers insurance terminology, common personal insurance policies (auto, health, life and homeowners) and current issues.

FIN 232  Intro to Wealth Management  credit: 3 Hours. [https://courses.illinois.edu/schedule/terms/FIN/232/]
Creating a sound personal financial plan and issues related to becoming a financial planner. Course enrollment is limited to non-College of Business students and College of Business students with freshman or sophomore standing. Credit will not satisfy Finance major requirements. Credit is not given for both FIN 232 and ACE 240.

FIN 241  Fundamentals of Real Estate  credit: 3 Hours. [https://courses.illinois.edu/schedule/terms/FIN/241/]
A survey of real estate finance, appraisal, investment, law, brokerage, management, development and economics. Special attention is given to the analysis of aggregate real estate and mortgage markets, to the individual transactions within these markets, and to the legal and institutional factors which affect these markets. Prerequisite: ECON 102.

FIN 300  Financial Markets  credit: 3 Hours. [https://courses.illinois.edu/schedule/terms/FIN/300/]
Theory and applications associated with the functioning of financial markets to include the conceptual foundations of portfolio theory, risk management, and asset valuation. The stock, money, bond, mortgage, and futures and options markets are examined. Prerequisite: FIN 221.

FIN 321  Advanced Corporate Finance  credit: 3 Hours. [https://courses.illinois.edu/schedule/terms/FIN/321/]
Theories of firms’ investment and financing decisions are covered. Topics include dividend policy, capital budgeting, capital structure, bankruptcy, long-term debt and leasing decisions. Prerequisite: FIN 300.

FIN 390  Finance Academy  credit: 1 Hour. [https://courses.illinois.edu/schedule/terms/FIN/390/]
The Finance Academy is an enrichment program for outstanding undergraduate Finance majors. A select program that focuses on developing future business leaders via enhanced academic and career opportunities. Students are normally invited to participate by the faculty during their junior year, when they are enrolled in FIN 300. If inducted, students participate throughout their junior and senior years. Approved for letter and S/U grading. May be repeated in separate terms. Course will not satisfy Finance major requirements. Prerequisite: Induction into the Finance Academy.

FIN 391  Investment Banking Academy  credit: 1 Hour. [https://courses.illinois.edu/schedule/terms/FIN/391/]
A diversified curriculum designed to prepare students for a successful career in investment banking; course incorporates peer mentorship, guest lectures (from bankers, accountants, private equity associates and hedge fund analysts), a case competition and a field trip. Course will not satisfy Finance major requirements. May be repeated for a maximum of 6 hours in separate terms. Prerequisite: Admission by application only.

FIN 392  Investment Management Academy  credit: 1 Hour. [https://courses.illinois.edu/schedule/terms/FIN/392/]
Overview of security analysis with the objective of how to value an investment proposition for inclusion in a portfolio of securities managed by students in the class. Focus will be in areas of fundamental securities analysis with the emphasis on equity valuation. Course will not satisfy Finance major requirements. May be repeated to a maximum of 6 hours in separate terms. Prerequisite: Admission by application only. Primarily for Finance majors with sophomore standing or above who show interest in pursuing their CFA credential.

FIN 393  Risk Management Academy  credit: 1 Hour. [https://courses.illinois.edu/schedule/terms/FIN/393/]
The Risk Management Academy is an enrichment program for outstanding undergraduates from across campus. The nature of risk management requires a knowledge base that includes majors from a number of colleges and departments including Finance, Actuarial Science, Atmospheric Sciences, Financial Planning, Engineering, Math and Statistics. RMA provides a select program that focuses on developing future business leaders in risk management via enhanced academic and career opportunities. Students are normally invited to participate by the faculty during their freshman or sophomore year, when they are enrolled in FIN 230 and other basic RM courses. If inducted/accepted, students participate throughout their sophomore, junior and senior years. Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 8 hours. Prerequisite: Acceptance into the Risk Management Academy. Restricted to students accepted in the Risk Management Academy.

FIN 394  Women in Finance Academy  credit: 1 Hour. [https://courses.illinois.edu/schedule/terms/FIN/394/]
Given the unique challenges women face in the business world, this course provides the tools for women to thrive in careers in finance. The course includes a mentoring program, soft and technical skills development, panel discussions with women leaders, and networking opportunities. Admission by application process in the prior semester. May be repeated in separate terms. Prerequisite: Instructor approval required. Students accepted into the Academy will be allowed to participate in their Freshman, Sophomore, Junior, and Senior years.

Information listed in this catalog is current as of 01/2022
FIN 411 Investment & Portfolio Mngt credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/411/)
Current theories of portfolio management are covered in considerable detail to provide a conceptual framework for the evaluation of investment
strategies. Applications and implementation are covered in depth, including performance evaluation and international diversification. 3 undergraduate
hours. No graduate credit. Prerequisite: FIN 300.

FIN 412 Options and Futures Markets credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/412/)
Introduction of options and futures markets for financial assets; examination of institutional aspects of the markets; theories of pricing; discussion of
simple as well as complicated trading strategies (arbitrage, hedging and spread); applications for asset and risk management. 3 undergraduate hours.
No graduate credit. Prerequisite: FIN 300 or consent of instructor.

FIN 413 Financial Engineering credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/413/)
This course will present and analyze modern tools for identification, measurement, and management of financial risk faced by corporations and
institutional investors; in particular as related to the application of futures, forwards, options, swaps, and other derivatives. The focus will be
evenly split between theoretical models and practical applications, and will include careful consideration of parameter estimation and numerical
implementation. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300 or consent of instructor.

FIN 414 Urban Economics credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/414/)
Same as ECON 414. See ECON 414.

FIN 415 Fixed Income Portfolios credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/415/)
Conceptual foundations and implementation of strategies for the selection, evaluation, and revision of portfolios of fixed-income financial assets
(bonds). 3 undergraduate hours. No graduate credit. Prerequisite: FIN 321.

FIN 418 Financial Modeling credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/418/)
The objective is to learn the fundamentals and practice building financial models using Microsoft Excel. By the end of the term, each student should
be able to develop an understanding of any financial relationship and build that financial relationship into a model using the built-in functions of Excel.
Financial modeling, by definition, requires significant work outside of the classroom. Models are introduced, demonstrated, and reviewed in class,
but each student is expected to research and collect data, and to construct the models, prior to each week's class meeting. 3 undergraduate hours. 3
graduate hours. Prerequisite: FIN 300 and FIN 321, or consent of instructor.

FIN 419 Real Client Managed Portfolios credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/419/)
Applies academic topics on financial markets, security analysis/valuation and portfolio management to hands-on investment management. Students
will form and review objectives, constraints, and investment policy as it relates to the client's money under management. They will purchase securities,
monitor performance of the portfolio, and make recommendations for any adjustments to the holdings. They will be fully educated and responsible
to the fiduciary and ethical standards of professional money management as guided by the CFA Institute. 3 undergraduate hours. No graduate credit.
May be repeated to a maximum of 9 hours. Prerequisite: FIN 321 or consent of instructor.

FIN 422 Cases in Corporate Finance credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/422/)
Course totally devoted to the study of financial management cases, provides students a hands-on learning experience. The case work helps students
develop their analytical and interpretative skills in solving unstructured real world problems. The theoretical concepts and tools learned in the
introductory finance courses provide the foundation for the case studies. Topics discussed include financial forecasting and working capital
management; capital budgeting and cost of capital; and capital structure, dividend policy, corporate financing, financial restructuring, financial
distress, mergers, acquisitions and firm valuation. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300 and FIN 321.

FIN 423 Financing Emerging Businesses credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/423/)
The study of the business environment, alternative methods of organization and financing, use of financial statements as a management tool,
valuation methods and approaches to ethical dilemmas from the perspective of an owner-manager. 3 undergraduate hours. 3 or 4 graduate hours.
Prerequisite: FIN 300 or consent of instructor.

FIN 424 Mergers and Acquisition credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/424/)
Focuses on identifying ways to increase firm value through mergers and acquisitions (M&A) and corporate restructurings. Surveys the drivers of
success (failure) in M&A transactions and develop your skills in the design and evaluation of transactions. 3 undergraduate hours. No graduate credit.
Prerequisite: FIN 321.

FIN 425 Private Equity/Venture Capital credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/425/)
Provides students with an understanding of the nature of the private equity market, the principal participants in this market, and how they function. 3
undergraduate hours. No graduate credit. Prerequisite: FIN 321.

FIN 428 Cases in Financial Derivatives credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/428/)
This advanced elective course on financial derivatives explores the economic, legal, and regulatory concepts underlying these markets. It uses
case studies to examine market weaknesses, design flaws, and regulatory breakdowns, many of which have resulted in major disasters. 3
undergraduate hours. No graduate credit. Credit is not given for FIN 428 and FIN 490 (66772) Section ADF. Prerequisite: FIN 300 or consent of
instructor. Undergraduate only.

FIN 431 Property-Liability Insurance credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/431/)
Examines in detail the functions of property-liability insurers, including marketing, underwriting, claims, ratemaking and administration, and the major
current issues facing this industry. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: FIN 230.
FIN 432 Managing Fin Risk for Insurers credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/432/)
Introduces basic concepts in financial economics used in the analysis and management of financial risks, with an emphasis on the applications by insurers and pension plans; topics include decision making under uncertainty, economic statistics, deterministic and stochastic interest rate models, derivative securities, valuation, binomial models and option pricing models. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: FIN 300; either FIN 230 or FIN 435.

FIN 433 Corporate Risk Management credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/433/)
Case study course examining how corporations deal with pure risk. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: FIN 221, FIN 431, and FIN 434.

FIN 434 Employee Benefit Plans credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/434/)
Studies the purpose, structure, and financial aspects of employee benefit plans, including pensions, health insurance, life insurance, and disability plans. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300 or consent of instructor.

FIN 435 Personal Wealth Management credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/435/)
Studies personal wealth management techniques with an emphasis on life insurance products; covers life insurance policies, annuities, trusts, buy-sell arrangements, investing in stocks, bonds and mutual funds, banking and borrowing, purchasing residential and commercial real estate, income and estate taxation and management of personal financial portfolio. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300.

FIN 443 Legal Issues in Real Estate credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/443/)
Overview of legal concepts, issues, and principles involving real estate. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Junior standing or consent of instructor.

FIN 444 Urban Real Estate Valuation credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/444/)
The terminology, theory and techniques of real estate valuation (appraisal); a modern view of the three approaches to estimating value - sales comparison, cost and income. Special requirements include local field trips to appraise at least one single-family property and one income property. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300 or consent of the instructor, FIN 241 is recommended but not required.

FIN 445 Real Estate Investment credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/445/)
An approach to the evaluation of real estate investment opportunities. Begins with the identification of the investor's goals and ends with an investment decision. Considers legal, physical, locational, and financial constraint, aggregate real estate and financial markets, tax considerations and investment criteria. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300 or consent of the instructor, FIN 241 is recommended but not required.

FIN 446 Real Estate Financial Markets credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/446/)
Discusses real estate financing techniques and the secondary market for real estate financial assets including residential and commercial mortgage-backed securities (RMBS and CMBS). 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300 or consent of instructor, FIN 241 is recommended but not required.

FIN 447 Real Estate Development credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/447/)
Provides students with an exposure to the real world of real estate through a series of lectures by real estate professionals focused primarily on retail real estate development. A side benefit of the class will be to provide graduating seniors some insights into different career paths to help improve the career choices that they make. 3 undergraduate hours. 4 graduate hours. Prerequisite: FIN 221 or FIN 241.

FIN 451 Intl Financial Markets credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/451/)
This course covers the three major international financial markets; the foreign exchange market, the eurocurrency market, and the international equity and bond market. The course looks at international financial decisions including operations, structure and valuation. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300 and FIN 321.

FIN 461 Banking and Financial Regulation credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/461/)
Survey of the structure, functions, regulation, and risk management activities of banks and nonbank financial institutions; central banking and monetary policy effects on financial institutions. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300 or consent of instructor.

FIN 463 Investment Banking credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/463/)
The mechanics of financial statement analysis and ratio analysis; development of investment banking/corporate finance valuation models (including DCF, leveraged buyout and merger models) in order to determine the intrinsic value of companies and price investment banking deals. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300 (FIN 300 is waived if student is admitted to FIN 391 IBA). Priority to finance majors.

FIN 464 Applied Financial Analysis credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/464/)
Provides key building blocks necessary for many careers in finance. Designed to provide a practical approach to analyzing and interpreting complex financial statements to make decisions from a range of user perspectives, including investment banks, equity investors and commercial banks. Advanced financial analysis and forecasting will be applied through assignments and casework. There will be an emphasis on business writing skills commonly applied by finance professionals. 3 undergraduate hours. 4 graduate hours. Credit is not given for FIN 464 and FIN 490 CRNs 57268 and 57353. Prerequisite: ACCY 201. Priority given to finance majors.

FIN 490 Special Topics in Finance credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/490/)
Lectures and discussions relating to new areas of interest. See class schedule for topics and prerequisites. 1 to 3 undergraduate hours. No graduate credit. May be repeated in the same term or subsequent terms to a maximum of 3 undergraduate hours or 4 graduate hours. Credit is not given for FIN 490 CRNs 57268 and 57353 and FIN 464. Course will not satisfy Finance major requirements. Prerequisite: FIN 300 or consent of instructor.
FIN 494  Senior Research  credit: 2 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/FIN/494/](https://courses.illinois.edu/schedule/terms/FIN/494/)) Research and reading course for students concentrating in finance, insurance, urban land economics, or related areas who meet one of the following requirements: (1) have a cumulative grade-point average of 3.0 or better; (2) have attained Honors Day recognition in the junior year; or (3) have consent of instructor. May be taken by students in the college honors program in partial fulfillment of the honors requirements. 2 to 4 undergraduate hours. No graduate credit. May be repeated as topics vary. Prerequisite: Senior standing.

FIN 495  Senior Research  credit: 2 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/FIN/495/](https://courses.illinois.edu/schedule/terms/FIN/495/)) Research and reading course for students concentrating in finance, insurance, urban land economics, or related areas. May be taken by students in the college honors program in partial fulfillment of the honors requirements. 2 to 4 undergraduate hours. No graduate credit. Prerequisite: Senior standing; and cumulative grade-point average of 3.0 or better, Honors Day recognition in the junior year, or consent of instructor.

FIN 500  Introduction to Finance  credit: 2 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/FIN/500/](https://courses.illinois.edu/schedule/terms/FIN/500/)) Introduction to financial management and decision making. A customized course, designed to provide a survey of finance for graduate students who do not necessarily have previous training in the disciplines. Different sections of the course will cover different sets of topics. Prerequisite: Graduate standing or consent of department.

FIN 501  Economics of Stock Market Fundamentals  credit: 2 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/FIN/501/](https://courses.illinois.edu/schedule/terms/FIN/501/)) A firm's long-run value ultimately depends on its business fundamentals. This course covers micro- and macro-economic drivers of such fundamentals, such as consumer demand, market competitiveness, government regulation, interest rates, business cycles, and monetary policy. Also includes topics in risk and intertemporal decision-making. 2 or 4 graduate hours. No professional credit.

FIN 502  Quantitative Finance I  credit: 2 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/FIN/502/](https://courses.illinois.edu/schedule/terms/FIN/502/)) Quantitative techniques used for financial decision making. Topics include elements of statistics, mathematics, and specific analytical tools used in the study and practice of finance. Approved for letter or S/U grading. May be repeated in the same or separate terms to a maximum of 4 hours. Material may be split into two 8-week 2-hour modules, either across semesters or within the same semester; if so, credit is not given for taking the same half twice. Prerequisite: Graduate standing.

FIN 503  Quantitative Finance II  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/FIN/503/](https://courses.illinois.edu/schedule/terms/FIN/503/)) This course covers topics in time series analysis with an emphasis on applications. It is intended to prepare MSF students for more advanced courses in finance. This course provides some basic knowledge of financial time series data. It also introduces models and methods widely used by academics and practitioners. The purpose of this course is to understand proper use and limitations of econometric methods in applied time series analysis. 2 graduate hours. No professional credit. Credit is not given for FIN 503 and FIN 580: Section QM2, (68387). This course covers topics in time series analysis with an emphasis on applications. It is intended to prepare MSF students for more advanced courses in finance. This course provides some basic knowledge of financial time series data. It also introduces models and methods widely used by academics and practitioners. The purpose of this course is to understand proper use and limitations of econometric methods in applied time series analysis. Prerequisite: FIN 580 Section QTM.

FIN 504  Accounting for Financial Analysis  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/FIN/504/](https://courses.illinois.edu/schedule/terms/FIN/504/)) This course will develop an understanding of the most fundamental accounting concepts and provide key building blocks necessary for intermediate and advanced financial statement analysis. It is designed to provide a basic but practical application of financial analyses commonly performed by industry professionals. 2 graduate hours. No professional credit. Credit is not given for FIN 504 and FIN 580 (58811), Section FS.

FIN 510  Big Data Analytics in Finance for Predictive and Causal Analysis  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/FIN/510/](https://courses.illinois.edu/schedule/terms/FIN/510/)) Recent trends in "big data" present both enormous challenges and opportunities for businesses. This course introduces concepts and techniques of data analytics and shows how they can be used for making predictions, and to distinguish between correlation and causation, in the context of financial and economic analysis. Covered tools include data visualization, machine learning, regression analysis, randomized trials, A/B testing, and quasi-experiments. Students will apply these tools using R programming within the Amazon Web Services cloud computing environment. 4 graduate hours. No professional credit. Credit is not given for FIN 510 and these sections of FIN 580: Section BD1, (50081); Section BD2, (48173); and Section BD3, (70398). Prerequisite: Consent of Instructor.

FIN 511  Investments  credit: 2 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/FIN/511/](https://courses.illinois.edu/schedule/terms/FIN/511/)) Introduction to investment analysis, including the theory and implementation of portfolio theory; empirical evidence on the performance of financial assets; evaluation of portfolio investment strategies; and the extension of diversification to international markets. Prerequisite: FIN 520; or MBA 505 - Section G (Finance II); or consent of instructor.

FIN 512  Financial Derivatives  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/FIN/512/](https://courses.illinois.edu/schedule/terms/FIN/512/)) Introduction to options, futures, swaps and other derivative securities; examination of institutional aspects of the markets; theories of pricing; discussion of simple as well as complicated trading strategies (arbitrage, hedging, and spread); applications for asset and risk management. Prerequisite: FIN 520; or MBA 505 - Section G (Finance II); or consent of instructor.

FIN 513  Applications of Financial Engineering  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/FIN/513/](https://courses.illinois.edu/schedule/terms/FIN/513/)) Provides an introduction to modern techniques for pricing options, swaps, and related financial instruments; the use of such instruments in managing financial risk; and the measurement and management of their risks. Prerequisite: FIN 520; or MBA 505 - Section G (Finance II); or consent of instructor.

FIN 514  Valuation of Complex Derivative Securities  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/FIN/514/](https://courses.illinois.edu/schedule/terms/FIN/514/)) Presents the main ideas and techniques of modern option pricing theory, including; the Black-Scholes-Merton analysis; risk-neutral probabilities and the probabilistic solution; numerical techniques for computing option prices; an introduction to term structure modeling; and perhaps other topics, at the discretion of the instructor. Prerequisite: Prior or concurrent registration in FIN 513 or consent of instructor.
FIN 515 Fixed Income Portfolios credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/515/)
Conceptual foundations and implementation of strategies for the selection, evaluation, and revision of portfolios of fixed-income financial assets (bonds); examination of related research. Prerequisite: FIN 520; or MBA 505 - Section G (Finance II); or consent of instructor.

FIN 516 Term Structure Models credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/516/)
Coverage of the fundamental models models of the term structure of interest rates, including their implementation, calibration, and use in valuing interest rate derivatives. Focus will be on the Black model and short rate models such as Black-Derman-Toy and Hull-White. 2 graduate hours. No professional credit. Approved for Letter and S/U grading. Prerequisite: FIN 512; IE 525 OR FIN 514 OR FIN 513.

FIN 517 Advanced Term Structure Models credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/517/)
This class is a continuation of FIN 516 Term Structure Models. Coverage of advanced term structure models with a focus on the LIBOR Market Model (LMM). Students will learn the theory behind the model, how to calibrate the model to data and how to to develop numerical algorithms in order to implement the model to price a variety of real world interest rate products. 2 graduate hours. No professional credit. Approved for Letter and S/U grading. Prerequisite: FIN 516.

FIN 518 Financial Modeling credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/518/)
The objective is to learn the fundamentals and practice building financial models using Microsoft Excel. By the end of the term, each student should be able to develop an understanding of any financial relationship and build that financial relationship into a model using the built-in function of Excel. Financial modeling, by definition, requires significant work outside of the classroom. Models are introduced, demonstrated, and reviewed in class, but each student is expected to research and collect data, and to construct the models, prior to each week’s class meeting. Prerequisite: MSF students only.

FIN 519 Gen Equ Env Tax Policy credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/519/)
Focuses on how to build and use analytical general equilibrium models to do research. Students will replicate and extend existing G.E. models with general production and demand functions that are differentiated to find closed-form solutions for the incidence of the tax, including changes in all factor prices, input quantities, outputs, prices, and welfare of each group. The primary examples are drawn from environmental tax policy, but the method is equally useful for analysis of non-tax policies and other economic problems. Same as ECON 546. Prerequisite: Microeconomics and Econometrics at graduate level.

FIN 520 Financial Management credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/520/)
Introduction to financial management and decision making. Course topics: financial statement analysis, time value of money, project analysis and investment criteria, discounted cash-flow analysis for investment decisions, capital budgeting and planning (short-term and long-term), working capital management, and risk management. The course target audience is assumed to be mid-level managers. Other corporate finance topics appropriate for the C-suite will be covered as time allows. 4 graduate hours. No professional credit. Prerequisite: Enrollment in the Executive MBA, MSBA, or MS program.

FIN 521 Advanced Corporate Finance credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/521/)
Addresses both the theoretical and applied aspects of firms’ financing decisions; topics include capital structure and cost of capital theories; mergers, acquisitions and leveraged buyouts; options, warrants, and convertibles; venture capital and initial public offerings; and pensions. Prerequisite: FIN 520, plus either ECON 506 or BADM 572 or concurrent registration in either course; or MBA 505 - Section G (Finance II); or consent of instructor.

FIN 522 Cases in Financial Strategy credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/522/)
Course focuses on financial management cases. Provides students with an active learning experience. Case work is based on concepts learned in introductory corporate finance. Topics discussed include measuring and interpreting cash flow performance, financial forecasting and turnaround management; capital investment and cost of capital; and capital structure, dividend policy; and firm valuation. Prerequisite: FIN 520, plus either ECON 506 or BADM 572 or concurrent registration in either course; or MBA 505 - Section G (Finance II); or consent of instructor.

FIN 524 Mergers and Acquisitions credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/524/)
The primary objective of this course is to give students experience in valuing firms. While the primary focus of the course is on mergers and acquisitions, the course will also cover topics such as initial public offerings, leveraged buyouts, spin-offs, and divestitures. Prerequisite: FIN 520; or MBA 505 - Section G (Finance II); or consent of instructor.

FIN 526 Enterprise Risk Management credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/526/)
The application of basic risk management principles to all risks facing the organization. Integrates hazard, financial, strategic and operational risks under a single framework. Provides a conceptual framework for making risk management decisions to increase business value. The course will includes a review of the legal and regulatory environment that sets the stage for Enterprise Risk Management, cover the tools used for risk analysis, examine data integration processes and show how risk measurement relates to strategic and tactical business decisions.

FIN 527 Mergers & Acquisitions Topics credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/527/)
Focusing on identifying ways to increase firm value through mergers and acquisitions (M&A) and corporate restructurings. We will develop your skills in the design and evaluation of transactions. Specific topics addressed in the course are the valuation of companies, structuring of transactions, deal tactics and strategy, valuation of leveraged buyouts, and spin-offs/carve-outs. We will also delve into issues of law, accounting and taxation and how they affect the structuring and outcome of merger transactions. Knowledge about M&A is an important component of any corporate finance professional and is the foundation for effective work in a wide range of fields including corporate development, investment banking, consulting, and advising senior management. 2 or 4 graduate hours. No professional credit.
FIN 528 Cases in Financial Derivatives credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/528/)
This advanced elective course on financial derivatives explores the economic, legal, and regulatory concepts underlying these markets. It uses case studies to examine market weaknesses, design flaws, and regulatory breakdowns, many of which have resulted in major disasters. 4 graduate hours. No professional credit. Credit is not given for FIN 528 and FIN 580 (66393), Section ADF. Prerequisite: Graduate students only.

FIN 530 Foundations in Risk Management credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/530/)
This course introduces risk management including basic concepts and techniques of pure risk and financial risk management. Corporate hazard risk management including insurance and securitization of pure risks will be covered in detail. Insurer risk management will be examined including reinsurance, loss reserving, underwriting of risks, and catastrophic risk management. Students will also be introduced to Enterprise Risk Management (ERM). 2 graduate hours. No professional credit. Prerequisite: MSF and MBA students only.

FIN 535 Wealth Management credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/535/)
This course studies personal wealth management techniques with an emphasis on life insurance products; covers life insurance policies, annuities, trusts, buy-sell arrangements, investing in stocks, bonds and mutual funds, banking and borrowing, purchasing residential and commercial real estate, income and estate taxation and management of personal financial portfolio. The course also allows students to build a wealth management plan based on a case scenario. 2 or 4 graduate hours. No professional credit.

FIN 536 Government Insurance Programs credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/536/)
Government insurance programs -- including Social Security, Medicare and Medicaid, unemployment and disability insurance, terrorism insurance, and disaster relief -- currently account for more than half of U.S. federal spending. These programs, which for decades have collectively been growing more quickly than the U.S. economy, represent a significant share of an employer's compensation expenses and significantly impact household budgets. This course will examine how the design of these programs affects economic efficiency, growth, business competitiveness, and social well-being. An important theme of the course will be the role of imperfect information and aggregate or long-term risks of insurance market failures, and conditions under which the government can or cannot remedy these failures. Prerequisite: MAS BPP Concentration.

FIN 541 Real Estate Fundamentals credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/541/)
Discusses the theory and practice of real estate and urban land economics; emphasizes real estate market analysis, finance, appraisal, and investment. 4 graduate hours. No professional credit. Prerequisite: FIN 520, plus ECON 302, ECON 500, or equivalent; or MBA 505 - Section G (Finance II); or consent of instructor.

FIN 543 Legal Issues in Real Estate credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/543/)
This course examines the fundamentals of real estate from a legal perspective. Students develop skills in using legal concepts in a real estate transactional setting that incorporates traditional course materials, case studies, real life transactions, and guest lectures designed to provide a practical "hands-on" approach to real estate law. We explore a broad range of current sophisticated real estate transactions relating to residential and commercial purchases, sales, leasehold interests, common interest communities, ownership, financing, brokerage, land use and development. We discuss the legal implications that contractual private and legislative public restrictions have on individuals' real property rights and discuss public policy arguments related to private owners' legal rights. 4 graduate hours. No professional credit. Prerequisite: Restricted to graduate students.

FIN 544 Urban Real Estate Valuation credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/544/)
The terminology, theory and techniques of real estate valuation (appraisal); a modern view of the three approaches to estimating value - sales comparison, cost and income. Special requirements include local field trips to appraise at least one single-family property and one income property. 4 graduate hours. No professional credit. Prerequisite: FIN 541 is recommended but not required.

FIN 545 Real Estate Investment credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/545/)
Real estate accounts for one-third of the world's capital assets. This course provides students with a comprehensive understanding of real estate valuation, cycles, markets, investments, and decision-making. The bulk of the course covers income-producing commercial property, although we will also discuss residential housing. This course provides a unified finance based framework to answer real estate investment decision making problems in the real world. 4 graduate hours. No professional credit. Prerequisite: FIN 541 is recommended but not required. Graduate students only.

FIN 546 Real Estate Financial Markets credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/546/)
This is an applied course in real estate investment that focuses on the U.S. mortgage and asset-backed securities markets. The course will review the multi-trillion dollar mortgage and asset-backed bond markets. We will discuss the fundamentals of securitization, and strategies to structure deals. We will also consider real estate investment trusts (REITs), collateralized debt obligations (CDOs) and credit default swaps (CDS). The course will develop analytical skills in deal structuring and pricing, and offer all students an opportunity to develop their business skills through case discussions. 4 graduate hours. No professional credit. Prerequisite: FIN 541 recommended but not required. Graduate students only.

FIN 547 Real Estate Development credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/547/)
Discusses key steps in the real estate development process, from market feasibility analysis to financing, legal issues, construction and asset management. Current issues in real estate development will also be presented by guest lecturers who are senior industry executives. 4 graduate hours. No professional credit. Prerequisite: FIN 541 recommended but not required. Restricted to graduate students only.

FIN 551 International Finance credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/551/)
Explores the characteristics of the international financial market and examines various aspects of corporate financial management. Topics may include international parity conditions, exchange rate risk management, country risk, cross-border investment analysis, multi national firm budgeting, hedging in foreign currency markets, accessing international financial markets for financing, and competitive strategy in a global marketplace. Prerequisite: FIN 520; or MBA 505 - Section G (Finance II); or consent of instructor.

Information listed in this catalog is current as of 01/2022
FIN 552  Applied Financial Econometrics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/552/)
The aim of this course is to equip students with a working knowledge of important econometric techniques necessary to understand and interpret financial market data. The course covers time-series and cross-sectional properties of asset returns, predictability of equity returns, empirical tests of asset pricing models, modelling time-varying volatility. The interplay between asset pricing theories, statistical assumptions and relevant econometric techniques is explored in the context of published empirical work, including classical papers as well as a more recent research. 4 graduate hours. No professional credit. Credit is not given for FIN 552 and FIN 580 Section DK2 (72033) or FIN 580 Section DK (70390). Prerequisite: FIN 511.

FIN 553  Machine Learning in Finance  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/553/)
Machine Learning includes the design and the study of algorithms that can learn from experience, improve their performance and make predictions. In this course, students will learn the foundations of Machine Learning and explore state of the art algorithms and tools. Topics include supervised learning (neural networks, support vector machines), unsupervised learning (clustering, dimensionality reduction) and reinforcement learning (dynamic programming, Q-learning, SARSA, policy gradient methods). Applications include option pricing, portfolio selection and credit card fraud detection. Students will gain practical experience implementing these models in Python with frequently used packages such as TensorFlow. 2 or 4 graduate hours. No professional credit. Credit is not given for FIN 553 and FIN 580: Section V2, (72206); or FIN 580: Section V1 (72205).

FIN 554  Algorithmic Trading Systems Design and Testing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/554/)
Provides a detailed research process and tools for replicating, assessing, conceptualizing, and developing systematic trading strategies. Students will apply their knowledge in hands-on projects to replicate and evaluate existing research and to create and evaluate a new strategy model. Students will use the R Language for Statistical Computing and Graphics to replicate academic research and evaluate the claims made in papers. Students will also construct a non-trivial strategy from scratch, evaluate the power of each of its components, and examine the likelihood of overfitting. Projects are designed to mimic as closely as possible the day-to-day research activities of working strategy quants, so that students will have practical experience building, testing, and evaluating quantitative models. 4 graduate hours. No professional credit. Credit is not given if student received credit in FIN 580 FIN 580 Basics of Trading Algorithm Design CRN 46818 and/or FIN 580 Analysis and Testing of Trading Algorithms CRN 46819. Prerequisite: Restricted to students in the MSFE Program.

FIN 555  Financial Innovation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/555/)
Recent years have seen the rapid development of the fintech sector, bringing together technology and data, startups and established firms in ways that are likely to shape and disrupt financial markets going forward. This course will involve a mix of lectures, guest speakers, and class discussion of breaking developments and new ventures. Some of the fintech sectors we will discuss include consumer finance, payments, investing and trading, cryptocurrencies and blockchain, and privacy and regulatory concerns. Because of the innovative and rapidly evolving nature of the fintech sector, this class will depend heavily on student engagement and class discussion. Students should be prepared to participate actively, and not just sit and listen to lectures. Each student will participate in two group presentations on the fintech sector, at the middle and end of the semester. A group project is due at the end of the semester, detailing a fintech startup idea, an analysis of an existing fintech business, or an analysis of a fintech sector. 4 graduate hours. No professional credit. Credit is not given for FIN 555 and FIN 580: Section FT2 (72037).

FIN 561  Banking and Financial Regulation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/561/)
Survey of the structure, functions, regulation, and risk management activities of banks and nonbank financial institutions; central banking and monetary policy effects on financial institutions. 4 graduate hours. No professional credit. Prerequisite: FIN 520 or consent of instructor.

FIN 562  Macrofinance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/562/)
Overview of the workings of the financial sector of the macro economy; includes the roles of financial institutions, financial markets, macroeconomic policies, interest rates, and the flows of funds. Prerequisite: FIN 520; or MBA 505 - Section G (Finance II); or consent of instructor.

FIN 563  Investment Banking  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/563/)
This course will provide key building blocks necessary for a career in investment banking, valuation and other related fields. It is designed to provide a practical application of financial statement analysis, modeling, valuation, and presentation skills commonly performed by industry professionals. The course has three major parts. The first focuses on the mechanics of financial statement analysis, ratio analysis, and financial model building. The second applies the financial statements and forecasts within the context of company valuation, utilizing common industry techniques. In the third part of the course, we will employ these valuation techniques in common investment-banking deliverables such as pitch books and fairness opinions. 4 graduate hours. No professional credit. Prerequisite: Previous introductory accounting and finance coursework recommended. Graduate students only.

FIN 564  Applied Financial Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/564/)
Provides key building blocks necessary for many careers in finance. Designed to provide a practical approach to analyzing and interpreting complex financial statements to make decisions from a range of user perspectives, including investment banks, equity investors and commercial banks. Advanced financial analysis and forecasting will be applied through assignments and casework. There will be an emphasis on business writing skills commonly applied by finance professionals. 4 graduate hours. No professional credit. Prerequisite: ACCY 501 or equivalent. A baseline understanding of financial accounting is expected of all students coming into this course.

FIN 566  Algorithmic Market Microstructure  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/566/)
This course introduces the modern theoretical, empirical and institutional foundations of market microstructure and trading activity, with an emphasis on applications to algorithmic and high-frequency trading. The first part of the course addresses market microstructure and the algorithmic implementation of traditional microstructure-inspired tasks such as minimizing execution costs. The second part of the course proceeds to examine actual algorithmic strategies, and ultimately high-frequency trading. Recurrent themes throughout the course will be the use of economic theory to simplify computationally challenging problems, and the use of theory-driven structural models to construct more robust trading algorithms. 4 graduate hours. No professional credit. Prerequisite: Restricted to students in the MS in Financial Engineering program.
FIN 567 Financial Risk Management  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/567/)
This course covers selected topics in financial risk management. The focus is on statistical techniques used in financial risk management rather than risk management practice, cases, or valuation issues. The course will cover the value-at-risk (VaR) measure and expected shortfall, statistical techniques useful to model financial market returns, and techniques used to model the joint distribution of defaults on fixed income instruments. The course will also cover additional topics such as retail credit risk, risk budgeting, and economic capital modelling. 4 graduate hours. No professional credit. Prerequisite: FIN 500 or 511; IE 522 or FIN 502; FIN 512 (concurrent enrollment allowed); or consent of instructor.

FIN 568 Behavioral Finance  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/568/)
There is increasing evidence that the financial decisions of at least some investors are affected by various behavioral biases that do not follow from traditional portfolio choice models. This course will highlight and analyze key findings from this research and consider implications of this observed behavior for individual investors and money managers. The results are also of interest for managers of firms and human resource departments. 2 graduate hours. No professional credit. Prerequisite: Restricted to MSF and MBA Students.

FIN 570 Business and Public Policy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/570/)
The role of government and its effects on business in a market economy; critical examination of tax rules, public spending and insurance programs, social security, health policy, environmental policy, and other regulations on businesses.

FIN 571 Money and Banking  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/571/)
This online course will provide you with a framework that can be used to understand the connections between money, banking, and financial markets, as well as the implementation and impacts of modern monetary policy. Upon completion of this course, you will be able to apply this framework to assess how new developments in finance and public policy may influence the macroeconomic and business environment. 4 graduate hours. No professional credit. Prerequisite: Enrollment limited to students in iMBA program, subject to discretion of the program's academic director.

FIN 572 The Finance of Mergers and Acquisitions  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/572/)
Focuses on the theory and practice of mergers and acquisitions (M&A), with a focus on the Finance. The Finance of M&A uses tools from different areas of Finance to help managers and investment bankers design successful M&A deals. In particular, we will learn to value and price M&A deals and how to choose the optimal financing mix for an M&A deal. The course focuses on all the major types of M&A deals including strategic M&A, private equity leveraged buyouts (LBOs), and restructuring deals such spinoffs and asset transfers. The course will benefit any student who desires to increase their ability to understand and execute M&A deals, including (but not limited to), entrepreneurs, consultants, bankers, investors, analysts, corporate managers, marketers, strategists, and deal-makers of all types. The course will also deepen students' understanding of financial modeling and capital structure, both in theory and practice. 4 graduate hours. No professional credit. Prerequisite: Requires that students have a grasp of core accounting principles and have a basic knowledge of concepts in finance (time value of money, net present value, cost of capital and a basic notion of capital structure). Students should also be comfortable with work that is quantitatively focused, and have a basic notion of Statistics (means, medians, standard deviation, and regression tools).

FIN 573 Competition Policy  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/573/)
While perfect competition is a useful model, it often fails to capture much of what is observed in the real world. This course examines interaction of firms and consumers in markets that are not perfectly competitive and reviews policies that aim to increase efficiency in these markets. Topics covered will include oligopoly, anti-competitive practices, price discrimination, and antitrust regulation. Prerequisite: MAS BPP Concentration.

FIN 574 Individual Tax Policy  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/574/)
Contentious public debate surrounds how to tax individuals fairly and efficiently. This course will provide the tools to design and evaluate tax policies. Topics will include measuring how taxes affect individual behavior including labor supply, savings, and portfolio decisions; the efficiency cost of taxation; understanding who bears the true economic burden of taxes; measuring the progressivity of a tax system; and the pros and cons of alternative approaches to taxation. Prerequisite: MAS BPP Concentration.

FIN 575 Business Tax Policy  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/575/)
Government needs revenue and taxes people, but why also tax business? We review the pros and cons of a separate corporate taxes system, the interaction of corporate and personal taxes, the inefficiencies of capital misallocations, and economic incidence (who really bears the burden of a corporate income tax). We also review pros and cons of other taxes on capital income such as interest, dividends, capital gains, rental income, and foreign source-income. Prerequisite: MAS BPP Concentration.

FIN 576 Domestic Environmental Policy  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/576/)
Environmental regulation has become ubiquitous; Modern business leaders need to be aware of how it affects their businesses and how to operate within its constraints. The focus of this course is the design and critique of domestic environmental policies such as liability law, taxation, command-and-control regulations, and permit markets. We compare their effectiveness and distributional impacts, including effects on regulated firms, and discuss the differential effects these policies can have on technological process. Prerequisite: MAS BPP Concentration.

FIN 577 International Environmental Policy  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/577/)
As the business landscape becomes more and more global, international environmental policy is increasingly more relevant for the success of modern firms. In this course, we demonstrate how one country's policies can affect other countries and firms in those countries, the typical difficulties that arise in negotiating international environmental agreements and how these can be ameliorated, and the interaction between trade and the environment. Prerequisite: MAS BPP Concentration.
FIN 578  Govt Market Economy  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/578/)
Given the presumed efficiency of competitive markets, when might it be appropriate for government to intervene? This course reviews possible “market failures” like externalities, public goods, taxes, monopoly power, adverse selection, and moral hazard. We show how each can reduce efficiency of private markets. We then discuss whether, when and how government can improve economic welfare using well-designed tax policy, social insurance, environmental regulation, or health policy. Prerequisite: MAS BPP Concentration.

FIN 579  Applied Portfolio Management  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/579/)
Applies academic topics on financial markets, security analysis/valuation and portfolio management to hands-on investment management. Students will form and review objectives, constraints, and investment policy as it relates to the client’s money under management. They will purchase securities, monitor performance of the portfolio, and make recommendations for any adjustments to the holdings. They will be fully educated and responsible for the fiduciary and ethical standards of professional money management as guided by the CFA Institute. May be repeated to a maximum of 8 hours. Prerequisite: Credit or concurrent enrollment in FIN 511.

FIN 580  Special Topics in Finance  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/580/)
Lectures and discussions relating to new areas of interest. See class schedule for topics and prerequisites. 0 to 4 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated to a maximum of 18 hours in a semester; may be repeated to a maximum of 32 hours in subsequent semesters. Credit is not given for FIN 528 and FIN 580 (66393), Section ADF. Prerequisite: Varies by section.

FIN 581  Professional Development  credit: 0 to 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/581/)
Effective communication skills are one of the most sought-after traits of business leaders across industries and throughout the world. Understanding the world around you, as well as communicating clearly and persuasively is critical to your success as a student, as an employee and as a leader in the business world. These skills will help establish your own credibility and lead you to become an effective leader among your peers and colleagues. This course will introduce successful strategies for structuring both written and verbal communication in the business world, with an eye toward the specific outcomes listed below. 0 to 2 graduate hours. No professional credit. Approved for S/U grading only. Prerequisite: Restricted to MSF and MSFE students.

FIN 582  Project Management  credit: 1 to 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/582/)
This course is all about learning by doing. It is designed to assist you in your real-world experience as you work in a team with a real organization to help solve a problem the organization is facing. In class, we will help you gain the skills you will need to successfully complete the project. If you work hard in this class, you will have a compelling story to tell as you interview for internships and jobs and you will gain skills that will help you succeed in your career. 1 to 2 graduate hours. No professional credit. Approved for S/U grading only. Prerequisite: Concurrent enrollment in FIN 583 is required. Restricted to MSF students.

FIN 583  Practicum  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/583/)
A semester-long, typically corporate-sponsored, team project for MSFE and MSF students that is usually completed by the end of the third semester of study. The goals of the Practicum are: a) to use learned or new tools on real world projects of interest to the corporate sponsor; b) to replicate as closely as possible the environment of the working world where students will soon find themselves employed; c) to work cohesively with other members of a team so as to efficiently produce the desired project results; and d) to be able to communicate effectively with technical and non-technical audiences, which may include the sponsor and/or co-workers. 1 to 4 graduate hours. No professional credit. Prerequisite: Restricted to MSF and MSFE students.

FIN 584  Corporate Finance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/584/)
In this course, you will learn how to use key finance principles to understand and measure business success as well as identify and promote true value creation. You will also learn financial management tools that allow us to determine the optimal financing and risk management strategies for corporations. In the first part of the course, you will learn how to use accounting information to form key financial ratios to measure a company’s financial health and to manage a company’s short-term and long-term liquidity needs. You will also learn how to use valuation techniques to make sound business investment and acquisition decisions. Finally, you will learn how to incorporate risk and uncertainty into investment decisions and evaluate the performance of existing investments. In the second part of the course, you will learn how companies choose how much debt to have and which type of debt to issue. You will also learn how payout decisions (dividends and share repurchases) affect firm value and how to determine a company’s optimal payout policy. Finally, you will learn how to use risk management tools, such as derivatives, and liquidity to mitigate specific risks, such as currency risk. You will apply these tools to develop a financial management framework for M&A decisions, and R&D investments. 4 graduate hours. No professional credit. Credit is not given for FIN 584 and FIN 580 (CRNs 69355 or 69356). Prerequisite: Enrollment is often restricted to students in specialized programs.

FIN 590  Individual Study and Research  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/590/)
Directed reading and research. 0 to 4 graduate hours. No professional credit. Approved for Letter and S/U grading. Course may be repeated up to 16 hours.

FIN 591  Theory of Finance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/591/)
Examines theoretical frameworks for financial decision making under certainty and uncertainty, as well as perfect and imperfect capital markets; discusses state preference, mean-variability, and continuous time models; emphasizes the structure of individual utility functions. Prerequisite: ECON 502; STAT 400; and admission to doctoral program or consent of instructor.

FIN 592  Empirical Analysis in Finance  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/592/)
Designed to train the student in the conduct of empirical work in Finance. Covers the major tools and databases needed to replicate the results of published academic papers and to conduct original research. Prerequisite: Enrollment in the doctoral program in Finance or consent of instructor.
FIN 593  Seminar in Investments  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/593/)
Investigates portfolio theory, CAPM, OPM, and arbitrage pricing theory theoretically and empirically; uses both mathematical statistics and modern econometric models to empirically analyze investment decisions and portfolio management. Prerequisite: FIN 591 and ECON 507.

FIN 594  Seminar in Corporate Finance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/594/)
Theories, paradigms, and models of nonfinancial corporations; investigates the theoretical foundations and empirical evidence regarding corporate resource allocation, capital structure decisions, and dividend policies; covers in detail contingent claim analysis, signaling theory, and agency theory. Prerequisite: FIN 591 and ECON 507.

FIN 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/FIN/599/)
Required for those writing master's and doctoral theses in finance. 0 to 16 graduate hours. No professional credit. Approved for S/U grading only. May be repeated to a maximum of 16 hours.
**FLTE - Foreign Language Teacher Education**

FLTE Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/FLTE/)

**Courses**

FLTE 471  Introduction to Second Language Teaching  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FLTE/471/)
Introduction to contemporary approaches to language teaching, teaching as a profession, and second language acquisition theory. Includes two teaching components and 45 hours of early field experience. 4 undergraduate hours. No graduate credit. Prerequisite: Admission to a qualifying teacher education curriculum. Early field experiences require Illinois State criminal background check and other training.

FLTE 475  Learning to Teach World Language  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FLTE/475/)
Course focuses on pedagogy, teacher knowledge and efficacy, and the development of professional dispositions for use in K-12 teaching. Emphasis is on preparing for the edPTA through lesson planning and assessment development. Includes multiple teaching components and 55 hours of early field experience. 4 undergraduate hours. No graduate credit. Prerequisite: Successful completion of FLTE 471.

**FR - French**

FR Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/FR/)

**Courses**

FR 101  Elementary French I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/101/)
Four-skill course leading toward elementary proficiency in oral expression, listening comprehension, reading, writing, and cultural understanding. Online language laboratory and internet assignments required.

FR 102  Elementary French II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/102/)
Continuation of FR 101. Introduces cultural and supplementary enrichment materials; requires online laboratory sessions as in FR 101. Prerequisite: FR 101 or one year of high school French.

FR 103  Intermediate French I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/103/)
Continuation of FR 102. Introduces students to a full range of structures to complete their initial study of the grammatical system; emphasizes the development of all four skills and cultural understanding through readings and audiovisual enrichment materials. Online language laboratory and internet assignments required. Students planning to major or minor in French should take FR 133 in lieu of FR 103. Prerequisite: FR 102 or equivalent, or a placement score showing high school achievement equivalent to FR 102.

FR 104  Intermediate French II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/104/)
Continuation of FR 103. Comprehensive grammar review with emphasis on oral expression and the continued development of reading and written skills. Completion satisfies graduation requirement in the College of Liberal Arts and Sciences. Students planning to take advanced French courses should take FR 134 in lieu of FR 104. Prerequisite: FR 103 or equivalent, or a placement score showing high school achievement equivalent to FR 102.

FR 133  Accel Intermediate French I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/133/)
Similar to FR 103, but accelerated for those interested in pursuing French in advanced courses; includes comprehensive grammar review and readings in literature and culture. Prerequisite: FR 102, or two semesters of college French, or a placement score showing high school achievement equivalent to FR 102. Normally for students with a "B" average in French or with consent of instructor.

FR 134  Accel Intermediate French II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/134/)
Continuation of FR 133. Comprehensive grammar review and readings in French literature and culture preparatory for continued work at the advanced level; emphasizes all four skills and culture. Prerequisite: FR 133, or FR 103 with department approval, or three semesters of college French, or a placement score showing high school achievement equivalent to FR 103.

Information listed in this catalog is current as of 01/2022
FR 156  Exploring Paris  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/156/)
Examines the role of Paris in French culture through literature, art, and film. We will consider the city of Paris from its earliest beginnings to the modern era, as a physical, social, and symbolic reality. Through literature, art, and film we will explore the ways in which Paris is at the center of French political and intellectual life. Additionally, close attention will be paid to historical and political developments and their representation. All readings are in English and the course is conducted in English.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

FR 165  French in US Minority Cultures  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/165/)
Introduction to the sociolinguistic and cultural history of French as a heritage language in African-American, Native American, and Cajun American communities from early colonial to late modern times. It focuses on the lived experiences and lasting heritage of contact and segregation between colonizers, farmers, refugees, and free and enslaved populations in the American Midwest and South. It features readings, music, heritage sites, and discussions of prejudice and discrimination, language shift and language loss, and the linguistic outcomes of slavery and settler colonialism.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

FR 179  Migration & Fr Nat ID  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/179/)
Studies books and films that emphasize cultural difference and the complexities of the post-colonial world, focusing on the impact of migration and cultural interaction on contemporary France. Stresses themes of immigration and exile, tensions between relations of domination and exploitation and between colonizing and colonized peoples, and the cultural pluralities of community and nation.

FR 195  French Intellectual Tradition  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/195/)
Close reading and in-depth discussion of texts by major French intellectuals from the sixteenth to the mid-twentieth century. Aims to explore the centrality of epistemology (How can we know? Can we know that which we know is true? How can we reason in the face of evil?) in selected texts that will be discussed within their historical contexts, investigating why these issues were raised then and how their contemporaries might have responded to them, as well as their relationship to issues still debated in the twenty-first century. Taught in English.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil

FR 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/FR/199/)
Credit: 1 to 5 hours. May be repeated.

FR 205  Oral French  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FR/205/)
Developing oral facility and aural comprehension, focusing on everyday events. Prerequisite: FR 104 or FR 134 or equivalent.

FR 207  Writing and Grammar Workshop  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/207/)
Practice-intensive grammar review and vocabulary-building, with an emphasis on strategies to improve accuracy of, and expressivity in, speaking and writing in French. Grammar textbook supplemented with readings and materials from French and Francophone culture (articles, social media, literary works, films). Prerequisite: Four years of high school French or equivalent, or FR 134 or, with departmental approval, FR 104.

FR 211  Introduction to Literary Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/211/)
Introduction to concepts of modernity and questions of representation, through French texts from the nineteenth through the twenty-first centuries. Analysis of diverse literary forms (poems, plays, narratives), and use of resources for literary, historical and cultural research. Strengthening of reading, writing and speaking skills in French through research projects, writing assignments and revisions, and oral presentations. Prerequisite: FR 207 or equivalent.

FR 212  Introduction to Cultural Analysis: French Identities  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/212/)
Introduction to concepts of and debates on French national identity. Materials are drawn from a multiplicity of media and from many spheres of modern life in France: political, artistic, the everyday, etc. Identification of major resources for the study of culture and analysis of diverse cultural texts. Strengthening of reading, writing and speaking skills in French through a wide range of exercises and projects. Prerequisite: FR 207.

FR 213  French Phonetics  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FR/213/)
Practical introduction to French phonetics, stressing pronunciation. Prerequisite: FR 104 or FR 134 or equivalent.

FR 240  Constr Afr and Carib Identity  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/240/)
Introduces students to cultural pluralism by comparing and contrasting African and Caribbean identities, as they are represented in literature and film. Taught in English. Same as AFST 209, CWL 225, and LAST 240. Credit is not given towards the major or minor in French.

FR 299  Study Abroad  credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/FR/299/)
Lectures, seminars, and practical work in French language, literature, civilization, and in other academic areas appropriate to the student's course of study. Approved for Letter and S/U grading. May be repeated in the same term to a maximum of 18 hours; may be repeated in separate terms to a maximum of 36 hours; may be repeated in a summer session to a maximum of 8 hours; maximum of 34 hours per academic year. Prerequisite: FR 205; 2.75 overall average; 3.0 average in French courses.

FR 301  Medieval and Early Modern Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/301/)
Overview of French literature from the Middle Ages to the Revolution in its historical context. Taught in French. Credit is not given for FR 209 and FR 301. Prerequisite: FR 211 and FR 212.

Information listed in this catalog is current as of 01/2022
FR 309  Poetry  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/309/)
The study of major movements and figures in French poetry. Traditions and innovations. Poetic genres. Introduction to versification and metrics. Close readings of individual poems. Topics will vary. May be repeated to a maximum of 6 hours. Prerequisite: FR 207, FR 211, and FR 212; or equivalents.

FR 311  Narrative Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/311/)
Reading and interpretation of selected French novels and short narratives from all periods. History and analysis of narrative literature as a genre. Topics will vary. May be repeated to a maximum of 6 hours. Prerequisite: FR 207, FR 211, and FR 212; or equivalents.

FR 312  Theater and Performance  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/312/)
Reading and interpretation of plays and other performative genres, with attention to historical development and critical analysis. Topics will vary. May be repeated to a maximum of 6 hours. Prerequisite: FR 207, FR 211, and FR 212; or equivalents.

FR 314  Advanced Grammar in Context  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/314/)
Advanced practical study of present-day French, with an emphasis on grammar, free composition and a consideration of various cultural contexts of language use. Prerequisite: FR 207.

FR 319  Francophone Worlds  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/319/)
Study of one or several Francophone countries and cultures around the world through language, texts, images, film, and/or other media. Same as CWL 317. May be repeated to a maximum of 6 hours if topics vary. Prerequisite: FR 207, FR 211, and FR 212; or equivalents.

FR 322  Movements and Perspectives  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/322/)
Focused study and discussion of a major literary movement or critical perspective. Topics will vary. May be repeated to a maximum of 6 hours. Prerequisite: FR 207, FR 211, and FR 212; or equivalents.

FR 323  Major Literary Figures  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/323/)
Prepresents the works of one or several major figures of French or francophone literary traditions in their cultural contexts. Topics will vary. May be repeated to a maximum of 6 hours. Prerequisite: FR 207, FR 211, and FR 212; or equivalents.

FR 324  Literature and the Other Arts  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/324/)
Explores relationships between French literature and such fields as art, architecture, and music. Topics will vary. May be repeated to a maximum of 6 hours. Prerequisite: FR 207, FR 211, and FR 212; or equivalents.

FR 335  French Cultural History to 1789  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/335/)
Survey of French cultural history from the Middle Ages to the French Revolution. Taught in French. Prerequisite: FR 211 and FR 212.

FR 336  French Cultural History 1789-1968  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/336/)
Survey of French cultural history from the French Revolution to 1968. Taught in French. Prerequisite: FR 211 and FR 212.

FR 337  Contemporary France  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/337/)
Overview of major cultural, social, and political issues and debates in late 20th- and 21st-century France. Topics may include: political life; definitions of the French Republic; the government and social policies; evolving views on sexuality, gender and the family; France and the European Union; professional life and labor laws; immigration; the cultural identity of France; new media. Some readings in English. Class discussion and written work in French. Prerequisite: FR 207, FR 211, and FR 212.

FR 385  Politics of the European Union  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/385/)
Same as EURO 385, GER 385, and PS 385. See PS 385.

FR 387  French & Comparative Cinema I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/387/)
The art, techniques, sociology, politics of French cinema in the context of French culture, world history, and general film development from 1895 to approximately 1950. Selected trends studied through films from several countries with stress on major French filmmakers including Lumiere, Melies, Gance, Clair, Vigo, Renoir, Carne, Cocteau, Prevert, Clouzot. Knowledge of French not required. Same as CWL 387 and MACS 382.

FR 389  French & Comparative Cinema II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/389/)
The art, techniques, sociology, politics of French cinema in the context of French culture, world history, and general film development from approximately 1950 to the present. Selected trends studied through films from several countries with stress on major French filmmakers such as Clouzot, Bresson, Chabrol, Resnais, Godard, Truffaut, Varda, Marker, Rohmer, Beineix, Kassovitz, and Assayas. Knowledge of French not required. Same as CWL 389 and MACS 383. Prerequisite: One college-level Media or Media and Cinema Studies course or consent of instructor.

FR 390  Indiv Study Major Tutorial  credit: 1 to 12 Hours. (https://courses.illinois.edu/schedule/terms/FR/390/)
Tutorial taken by students during two of their last four terms of undergraduate study. Students read on a departmental reading list with the guidance of a tutor. Approved for Letter and S/U grading. May be repeated to a maximum of 12 hours. Prerequisite: FR 205, FR 207, or equivalent; a declared major in French; junior standing.

FR 411  French Phonetics and Phonology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/411/)
Introduction to theoretical aspects of French phonetics and phonology, research methods, and pronunciation exercises on speaking styles in French. 3 undergraduate hours. 3 graduate hours. Prerequisite: FR 213 or equivalent.

FR 416  Structure of French Language  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/416/)
General survey of the linguistic structure of modern standard French, including phonology, morphology, and syntax; emphasis on the differences between its spoken and written forms. Same as LING 416. 3 undergraduate hours. 3 graduate hours. Prerequisite: FR 413 or equivalent training in phonetics.
FR 417  Topics in the History of Romance Languages  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/417/)
Introduction to the analysis of primary sources on the historical development of individual Romance languages from their Latin origins to the present.
Examination of a variety of genres and media and the social role of the languages in the definition of national identities. Same as MDVL 417 and RMLG 417. 3 undergraduate hours. 4 graduate hours. May be repeated in the same or separate terms to a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: Approval by instructor.

FR 418  Language & Minorities in Europe  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/418/)
Introduction to political, judicial, linguistic, and cultural issues concerning indigenous and migrant/immigrant languages in the countries of the European Union. Focuses on political and judicial issues, such as legal aspects of bilingual education and minority language use, as well as linguistic and cultural aspects, such as assimilation, language-mixing, and language change. Taught in English. Same as EURO 418, GER 418, ITAL 418, LING 418, PS 418, SLAV 418, and SPAN 418. 3 undergraduate hours. 4 graduate hours.

FR 419  Techniques in Translation I  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/419/)
Practical course in the techniques of translating technical, commercial, scientific, and literary texts from English into French and vice versa. Same as TRST 419. 3 undergraduate hours. 4 graduate hours. Prerequisite: FR 314 or consent of instructor.

FR 421  Techniques in Translation II  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/421/)
Continuation of FR 419. Practical exercises in translating from French to English and vice versa in a variety of texts, along with an introduction to theoretical aspects of translation. 3 undergraduate hours. 2 graduate hours. Prerequisite: FR 419 or consent of instructor.

FR 443  Studies in French  credit: 3 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/443/)
See Schedule for current topics. 3 undergraduate hours. 3 to 4 graduate hours. May be repeated in the same or separate terms to a maximum of 12 undergraduate hours or 16 graduate hours. Prerequisite: FR 314 or consent of instructor.

FR 460  Principles of Language Testing  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/460/)
Same as EIL 460, EPSY 487, GER 460, ITAL 460, PORT 460, and SPAN 460. See EIL 460.

FR 462  Introduction to Romance Linguistics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/462/)
Same as ITAL 435, LING 462, PORT 435, RMLG 435, and SPAN 435. See SPAN 435.

FR 479  Studies in Francophonie  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/479/)
Study of various topics in French language, literature, and culture outside of France. Regions may include francophone Africa, the Americas, Europe, and the Middle East. Same as CWL 434. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated to a maximum of 12 undergraduate hours or 16 graduate hours if topics vary. Prerequisite: FR 314 or consent of instructor.

FR 481  Theoretical Foundations of SLA  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/481/)
Same as GER 489, ITAL 489, LING 489, PORT 489, and SPAN 489. See LING 489.

FR 485  Commercial & Econ French I  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/485/)
Studies French business practices: company structures, selling and buying techniques, banking, import/export and other commercial negotiations, employment, formalities, and conveniences of letter-writing; involves both theory and practice. 3 undergraduate hours. 2 graduate hours. Prerequisite: FR 314 or equivalent, or consent of instructor.

FR 486  Commercial & Econ French II  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/486/)
Emphasizes business correspondence and simulation of business practices in the areas introduced in FR 485; also focuses on geographic and economic topics pertaining to France within the European community and Europe in general. 3 undergraduate hours. 2 graduate hours. Prerequisite: FR 485 or equivalent, or consent of instructor.

FR 492  Senior Thesis  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FR/492/)
For candidates for honors in French and for other seniors. 3 undergraduate hours. No graduate credit. May be repeated to a maximum of 4 hours. Prerequisite: Senior standing.

FR 500  Beginning French Grads  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/500/)
Basic grammar, vocabulary, and reading practice; designed for graduate students desiring help in preparing for the French reading requirements for the Ph.D. Credit is not given toward a graduate degree.

FR 501  Reading French Grads  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/501/)
Grammar, vocabulary, and general and special reading; designed for graduate students desiring help in preparing for the French reading requirements for the Ph.D. Credit is not given toward a graduate degree. Prerequisite: FR 500, or FR 101 and FR 102, or equivalent.

FR 503  The Study of Culture I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/503/)
Study of major artistic, historical, political, and literary aspects of France up to the French Revolution with emphasis on the relationship between literature and other aspects of French culture.

FR 504  The Study of Culture II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/504/)
Study of major artistic, historical, political, and literary aspects of France from the French Revolution to the present with emphasis on the relationship between literature and other aspects of French culture.

FR 505  Teaching College and Secondary Foreign Language  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/505/)
Examination and discussion of classroom goals, procedures and techniques in teaching a foreign language (French, Italian) at the college and secondary level, associated with a demonstration class and supervision of teaching practice. Required of new teaching assistants in the Department of French and Italian. Same as ITAL 505. 4 graduate hours. No professional credit.
FR 529 Studies in French Linguistics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/529/)
Variable topics course dealing with both synchronic and diachronic aspects of the French language. May be repeated if topics vary.

FR 530 Introduction to Research and Text Criticism credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/530/)
Proseminar in literary studies: research and methods; approaches to the literary text. Required of all M.A. and Ph.D. candidates. Same as ITAL 530. 4 graduate hours. No professional credit.

FR 543 French Studies credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/543/)
Flexible course limited only by the concentration of its material in French; may be activated by faculty proposal. May be repeated to a maximum of 16 hours if topics vary.

FR 552 Studies French & Comp Cinema credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/552/)
Historical, aesthetic, social, and technical studies of the French cinema; its development and relation to world cinema and to literature. Same as CWL 552. May be repeated to a maximum of 12 hours.

FR 559 Sem Romance Ling credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/559/)
Same as ITAL 559, LING 559, PORT 559, RMLG 559, and SPAN 557. See SPAN 557.

FR 570 Seminar Old French Literature credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/570/)
Discussion and research on a specialized topic in Old French literature. See Schedule for current topic. Same as MDVL 570. 4 graduate hours. No professional credit. May be repeated. Prerequisite: Consent of instructor.

FR 571 Seminar 16thC French Lit credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/571/)
Discussion and research on a specialized topic in sixteenth-century French literature. See Schedule for current topic. May be repeated.

FR 572 Seminar 17thC French Lit credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/572/)
Discussion and research on a specialized topic in seventeenth-century French literature. See Schedule for current topic. May be repeated.

FR 573 Seminar 18thC French Lit credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/573/)
Discussion and research on a specialized topic in eighteenth-century French literature. See Schedule for current topic. May be repeated.

FR 574 Seminar 19thC French Lit credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/574/)
Discussion and research on a specialized topic in nineteenth-century French literature. See Schedule for current topic. May be repeated.

FR 576 Seminar in Francophonie credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/576/)
Discussion and research on a specialized topic in literature in French outside of France. See Schedule for current topic. 4 graduate hours. No professional credit. May be repeated in separate terms if topics vary.

FR 578 Seminar 20thC French Lit credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/578/)
Discussion and research on a specialized topic in twentieth-century French literature. See Schedule for current topic. Same as CWL 578. May be repeated.

FR 579 Seminar in French Literature credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/579/)
Discussion and research on a specialized area in French literature. See Schedule for current topic. May be repeated.

FR 580 Classroom Language Acquisition credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/580/)
Same as EIL 580, GER 580, ITAL 580, PORT 580, and SPAN 580. See SPAN 580.

FR 584 Theories in Second Language Acquisition credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/584/)
Same as CI 584, EALC 584, EPSY 563, GER 584, ITAL 584, LING 584, and SPAN 584. See SPAN 584.

FR 588 Sem Second Lang Learn credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/588/)
Same as EALC 588, GER 588, ITAL 588, LING 588, PORT 588, and SPAN 588. See SPAN 588.

FR 591 Individual Topics credit: 1 to 8 Hours. (https://courses.illinois.edu/schedule/terms/FR/591/)
Prerequisite: Graduate standing with a major or minor in French.

FR 599 Thesis Research credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/FR/599/)
Approved for S/U grading only. May be repeated.

Information listed in this catalog is current as of 01/2022
**FSHN - Food Science & Human Nutrition**

**Courses**

**FSHN 101**  The Science of Food and How it Relates to You  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/101/)
Discusses the evolution of the food system to meet the needs and desires of a complex, heterogeneous society. Provides an overview of food in relation to nutrition and health, composition and chemistry, microbiology, safety, processing, preservation, laws and regulations, quality, and the consumer.

This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

**FSHN 120**  Contemporary Nutrition  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/120/)
Fundamental principles of human nutrition and their application to the selection of an adequate diet for health and wellness; current nutrition topics of importance. Credit is not given for FSHN 120 if credit has been given for FSHN 220.

This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

**FSHN 125**  Intro to Human Nutrition  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/125/)
Introductory course for students in Human Nutrition. Explore department, college and campus resources. Learn about current issues, opportunities, and careers in the nutrition field. Prerequisite: FSHN major with a concentration in Human Nutrition only.

**FSHN 130**  Introduction to Food Science  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/130/)
Introductory course for students in Food Science (FS) focused on student learning and success, current issues, and opportunities and careers in the field of food science. In addition, students will learn about how to enhance their learning strategies. Approved for S/U grading only. Prerequisite: For freshman majoring in FSHN with a concentration in Food Science only.

**FSHN 140**  Introduction to Hospitality  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/140/)
Overview of the hospitality industry with emphasis on organizational and operational structures of the major segments of the industry and career opportunities within each. Field trips required.

**FSHN 145**  Intro Hospitality Management  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/145/)
Explore the foodservice aspect of the hospitality industry by assisting Hospitality Management seniors taking FSHN 443 in the operation of the Spice Box. Course covers the planning, production, and service of meals in specialized settings.

**FSHN 150**  Introduction to Dietetics  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/150/)
Introductory course for students in dietetics. Addresses current issues, opportunities and careers in the dietetics profession. Freshmen or transfer student into dietetics given priority.

**FSHN 175**  Science of Fermented Foods  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/175/)
Discusses the evolution and commercialization of fermented foods. Provides insight into the microbial processing, manufacturing, history, nutrition, safety, and chemistry of different fermented products such as beer, bread, wine, and cheese.

**FSHN 195**  Intro to Undergrad Research  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/195/)
Introduce students to research and provide skill-building focused on the scientific process and nature of discovery. Help students define research topics, formulate research questions, prepare experimental plans, develop research proposals, and develop research communication skills. Approved for S/U grading only. Prerequisite: Restricted to FSHN majors only.

**FSHN 199**  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/199/)
Experimental course on a special topic in food science and human nutrition. Topic may not be repeated except in accordance with the Code. Approved for letter and S/U grading. May be repeated in the same or subsequent terms. No more than 12 hours may be counted toward graduation.

**FSHN 201**  Math for Food Science  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/201/)
Teaches mathematical concepts by solving the problems in food science related applications. Develops basic understanding of mathematical equations and simple models for solving real world food science problems. Provides instruction for writing simple computer codes using a numerical software package to solve the mathematical problem. Builds a foundation in critically analyzing physical food science problems and solving those using mathematics and coding. Prerequisite: MATH 220 and PHYS 101 or equivalent. Limited to the undergraduate students in the Food Science concentration.

**FSHN 220**  Principles of Nutrition  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/220/)
Course focuses on the nutritive value of foods and metabolism of essential nutrients, as well as the application of principles of nutrition to the requirements of normal individuals throughout the life cycle.

**FSHN 230**  Food Sci Professional Issues  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/230/)
Discussion of current topics in food science and professional issues, including ethics, undergraduate research, study abroad, graduate school options and internships. Approved for S/U grading only. Prerequisite: Sophomore and Junior transfer students with a Food Science concentration only.
FSHN 231  Food Systems: Cacao & Chocolate  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/231/)
Focused on the entire food chain from growth of cacao through processing, production and marketing of chocolate, including the nutritional aspects/
health benefits of consumption of chocolate and issues surrounding cacao farmers and fair trade. The focus of this course will be a mixture of hands-
on activities with lectures based on student interaction and learning. Study Abroad optional. Prerequisite: Restricted to undergrad students.

FSHN 232  Science of Food Preparation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/232/)
Application of food preparation principles and techniques in the preparation of standard food products; principles of food management and their
application in the planning and preparation of meals. Additional fees may apply. See Class Schedule. Prerequisite: FSHN 101.

FSHN 249  Food Service Sanitation  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/249/)
Examines the dangers, costs and prevention of foodborne illness as well as the training and motivation of food service employees in sanitary food
handling and quality assurance practices. Upon completion of this course, student will be eligible to apply for the food service sanitation certificate
issued by the State of Illinois. Credit is not given for FSHN 249 and FSHN 349.

FSHN 250  Nutritional Physiology I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/250/)
Anatomy and physiology of the digestive, circulatory, integumentary, skeletal, and muscular system. Special focus on the absorption, distribution,
storage, and mobilization of macronutrients and micronutrients. Learn the necessary concepts on cell biology and biochemistry required to
understand human physiology. The manifestation of disease as a result of nutritional imbalances in body systems. Evaluation of the effectiveness
and potential toxicity of nutritional supplements commonly used in the US. Pharmacological interventions and current therapeutics against diseases
related to nutritional disorders. Prerequisite: Credit or concurrent enrollment in FSHN 220.

FSHN 251  Nutritional Physiology II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/251/)
Anatomy and physiology of the respiratory, nervous, endocrine, immune, reproductive, and excretory systems. Special focus on the absorption,
distribution, storage and mobilization of macronutrients and micronutrients. Learn the necessary concepts on cell biology and biochemistry required to
understand human physiology. Manifestation of disease as a result of nutritional imbalances in body systems. Evaluation of the effectiveness
and potential toxicity of nutritional supplements commonly used in the US. Pharmacological interventions and current therapeutics against diseases
related to nutritional disorders. Prerequisite: FSHN 220.

FSHN 260  Raw Materials for Processing  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/260/)
Current food products use materials sourced from various types of agricultural products. The origin of the raw materials and the processing needs
to transform the raw materials into consumable food products is important to understand the entire food systems. This course focuses on the
agricultural products/materials and the principles and technologies applied to turn the raw materials into foods. Foods included in this course are
fruits and vegetables, cereals and grains, dairy products, and meats. The focus of this course is on post-harvest technologies to ensure food safety
and quality. Prerequisite: CHEM 104 and CHEM 105 and credit or concurrent enrollment in CHEM 232.

FSHN 274  NonMajors Food Microbiology  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/274/)
Introduction to food microbiology and the role of microorganisms in foodborne illness and food manufacture. Credit is not given for both FSHN 274
and FSHN 101. Prerequisite: Sophomore standing or higher.

FSHN 292  Hospitality Management: Professional Issues  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/292/)
Explores career opportunities in the hospitality industry and prepares students for internship and job searches. Assists in developing professional
skills and understanding best practices needed to be successful in the hospitality industry. Prerequisite: Hospitality Management majors only. Not
intended for Freshman.

FSHN 293  Off Campus Internship  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/293/)
Supervised, off-campus experience in a field directly pertaining to the subject matter. Approved for Letter and S/U grading. May be repeated to a
maximum of 10 hours.

FSHN 294  On Campus Internship  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/294/)
Supervised, on-campus, learning experience with faculty engaged in research. Approved for both letter and S/U grading. May be repeated in the same
or subsequent terms to a maximum of 10 hours. Prerequisite: Sophomore standing, 2.0 GPA, consent of the advisor, and consent of the Department
Teaching Coordinator.

FSHN 295  UG Research or Thesis  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/295/)
Individual research, special problems, thesis, development and/or design work under the supervision of an appropriate member of the faculty.
Approved for letter and S/U grading. May be repeated in the same or subsequent terms. No more than 12 hours of special problems, research, thesis
and/or individual studies may be counted toward degree. Prerequisites: Cumulative GPA of 2.5 or above at the time the activity is arranged and
consent of instructor.

FSHN 302  Sensory Evaluation of Foods  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/302/)
This course is devoted to learning the 1) physiological and psychological basis of human subjects, 2) chemistry of aroma and taste, 3) basic sensory
methodologies in food evaluation, and 4) analysis and interpretation of sensory data. Additional fees may apply. See Class Schedule. Prerequisite:
Recommended to students in junior and senior levels. Recommended to have taken foundational statistics course, i.e., STAT 100, STAT 200 or
FSHN 440.
FShN 320 Food Security: Service Learning in the Community credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/320/)
Food security is a major concern globally, as well as nationally, and in the local community. Students will explore social and health issues related to food security and gain an understanding of the collaborative efforts for managing food security issues in the Urbana-Champaign and campus communities. Students will learn about food security-related organizations, feeding programs, educational programs, and health initiatives to combat food insecurity in the community. Students will learn via classroom instruction, online instruction, and community-based education and service learning. Prerequisite: FSHN 101 or FSHN 120 or FSHN 220 or consent of instructor.

FShN 322 Nutrition and the Life Cycle credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/322/)
Examines physiological changes that occur during gestation, postnatal growth, and aging and the influence of these changes on nutritional requirements. Prerequisite: FSHN 220 or consent of instructor.

FShN 329 Communication in Nutrition credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/329/)
Application and integration of the principles of nutrition and their transmission to groups and individuals. Students will learn individual counseling techniques as well as how to present nutrition information to groups. Open to Dietetics and Human Nutrition juniors and seniors only. Prerequisite: RHET 105, CMN 101, and FSHN 220 or equivalents.

FShN 340 Food Production and Service credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/340/)
Introduction to the management of commercial and noncommercial foodservice systems through the operation of Bevier Cafe. Students experience managing the procurement, production and service of food, as well as the sanitation and maintenance of equipment and facilities. Prerequisite: FSHN 232 and credit or concurrent registration in FSHN 249 and FSHN 345.

FShN 343 Foundations in Beverage Management: Introduction to Wine, Beer and Spirits credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/343/)
The course will focus on the application of principles and practices related to preparation and service of alcohol and specialty beverages in the hospitality industry. The course includes a study of management principles, study of bar operations, human resources and liability protection. Intrinsic to excellent service is having an understanding of proper tasting skills and knowledge to be able to verbalize nuances within the wine or spirit. Structured tastings will be utilized to discover, identify and describe attributes of the beverage. Successful completion of alcohol handler training required to maintain course enrollment. Additional fees may apply. See Class Schedule. Prerequisite: All registrants must be 21 years of age or older.

FShN 344 Business Etiquette credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/344/)
The fundamentals of business etiquette as they are applied to the modern multicultural and global business environments. Content includes the importance of the first impression, polite conversation, personal appearance, office politics, diplomacy, telephone and cell phone etiquette, high-tech etiquette, proper oral and written communication, and the protocol of meetings both in the United States and abroad. Students will also participate in a formal dining experience. Offered every other year. Prerequisite: Junior standing.

FShN 345 Strategic Operations Management credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/345/)
Intended to promote an understanding of the managerial aspects of strategic operations. Strategic operations management examines facilities, capacity, process/workforce planning, organization, people, systems integration, and coordination between operations. An introduction to the principles and procedures for the purchasing, selection and procurement of food and non-food items in the hospitality industry is also included. Provides students with the management information needed to make operational decisions based on sound criteria.

FShN 346 Foundations of Hotel Management credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/346/)
Provides a comprehensive examination of key areas in hotel operations and management, including, revenue management, accounting, housekeeping, engineering, front desk, food and beverage and marketing. The concepts and principles will be applied in interactive online hotel case simulations designed for an immersive and applied learning experience.

FShN 396 UG Honors Research or Thesis credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/396/)
Individual research, special problems, thesis, development and/or design work under the direction of the Honors advisor. May be repeated in the same or subsequent terms. No more than 12 hours of special problems, research, thesis and/or individual studies may be counted toward the degree. Prerequisite: Junior standing, admission to the ACES Honors Program, and consent of instructor.

FShN 398 Undergraduate Seminar credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/398/)
Group discussion on a special topic in a field of study directly pertaining to subject matter in food science and human nutrition. Approved for Letter and S/U grading. May be repeated if topics vary. Prerequisite: Sophomore standing.

FShN 414 Food Chemistry credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/414/)
Examines the chemical aspects of major food components; water, carbohydrates, proteins, and lipids; properties of pigments, salts, and food dispersions. Undergraduate Food Science majors must enroll concurrently in FSHN 416. 3 undergraduate hours. 3 graduate hours. Prerequisite: CHEM 232.

FShN 416 Food Chemistry Laboratory credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/416/)
Chemical and physical properties of water, proteins, lipids, carbohydrates, and other food components/additives are discovered in the context of their interactions and functional roles in foods. 3 undergraduate hours. 3 graduate hours. Prerequisite: CHEM 232 and credit or concurrent enrollment in FSHN 414.

FShN 417 Neuroscience of Eating & Drinking credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/417/)
Same as NEUR 417 and PSYC 417. See PSYC 417.
FSHN 418  Food Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/418/)
Principles and application of the chemical, physical, and instrumental methods used to determine the constituents of foods; special considerations applicable to the analysis of certain foods. Lecture and lab. 4 undergraduate hours. 4 graduate hours. Prerequisite: CHEM 232; FSHN 414; FSHN 416 or consent of instructor.

FSHN 419  Food Ingredient Technology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/419/)
Explores the research, science and technology of the production of safe, high quality food ingredients through the application of food chemistry, food microbiology, and food processing principles. 3 undergraduate hours. 3 graduate hours. Prerequisite: FSHN 414 or consent of the instructor. FSHN majors only, junior standing required.

FSHN 420  Nutritional Aspects of Disease  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/420/)
Examines nutritional, biochemical, and physiological aspects of disease processes and studies the role of nutrition in prevention, management, and treatment of disease. Same as NUTR 420. 3 undergraduate hours. 3 graduate hours. Prerequisite: FSHN 220 or comparable course with a physiology prerequisite; MCB 450 or equivalent.

FSHN 421  Pediatric Clinical Nutrition  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/421/)
Examines physiological, biochemical and nutritional aspects of disease processes relevant to infants, children and adolescents. Topics covered include prematurity, developmental disabilities, inborn errors of metabolism, food allergy, obesity and eating disorders. The role of nutrition in prevention, management and treatment of disease is also covered. Offered every other year. 3 undergraduate hours. 3 graduate hours. Prerequisite: FSHN 420; FSHN 322 is highly recommended.

FSHN 422  Introduction to Personalized Nutrition  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/422/)
Explores the role of genetics and epigenetics in nutrition as a basis for differential responses of individuals to diet. Students will learn about how epigenetics and genetic variation affects individualistic responses to food and nutrients, and they will also learn about how food affects gene expression. Topics include genetics, epigenetics, and nutrigenetics; variation in taste, food selection, and eating behaviors; personalized nutrition; food intolerance and metabolic disorders; genetic variation in gut microbiota. This course is appropriate for students who wish to learn how to develop of better food products, optimize nutritional counseling, improve individualize diets, and better understand how to apply nutritional advice for the public generally. 3 undergraduate hours. 3 graduate hours. Prerequisite: FSHN 120 or FSHN 220 and CHEM 101; or consent of instructor.

FSHN 423  Advances in Foods & Nutrition  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/423/)
New developments in foods and nutrition; readings, lectures, and discussions. 2 undergraduate hours. 2 graduate hours. Prerequisite: FSHN 220 and FSHN 332, or equivalent.

FSHN 424  Biopsychology of Ingestive Behavior  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/424/)
Why do we eat what we eat? This course provides a taste of the science including both biological and psychological basis of ingestive behavior and the adoption of both healthy and maladaptive behaviors concerning eating and drinking. We will review and integrate historical theories with recent research on how we perceive flavor, the development of food preferences, and the biological basis of hunger, thirst, and satiety. Students will also have the opportunity to strengthen their critical thinking skills by participating on two debates in which equal number of arguments will be formulated to support or refute important issues in the field of food science and human nutrition. 3 undergraduate hours. 3 graduate hours.

FSHN 425  Food Marketing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/425/)
Same as ACE 430. See ACE 430.

FSHN 426  Biochemical Nutrition I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/426/)
The dietary and hormonal regulation of carbohydrate, lipid and amino acid metabolism. Emphasizes the regulation of enzyme activity and the different roles the major organs have in whole animal energy balance. Same as NUTR 426. 3 undergraduate hours. 3 graduate hours. Prerequisite: FSHN 220; or FSHN 120 and FSHN 414.

FSHN 427  Biochemical Nutrition II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/427/)
Biochemistry and metabolism of the water and fat soluble vitamins and minerals. Emphasizes the digestion, transport, metabolism and intercellular functions of these nutrients and how diet/food intake and physiological states affect these processes. Same as NUTR 427. 3 undergraduate hours. 3 graduate hours. Prerequisite: FSHN 220 or FSHN 120 and FSHN 414.

FSHN 428  Community Nutrition  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/428/)
Application of nutrition principles to needs assessments, program planning, delivery and evaluation in local, national, and international settings using behavioral theory frameworks. Same as NUTR 428. 3 undergraduate hours. 3 graduate hours. Prerequisite: FSHN 220 or equivalent, one introductory statistics course, and one course in the social or behavioral sciences.

FSHN 429  Nutrition Assessment & Therapy  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/429/)
Problem-based learning application (via cases) of the nutrition care process with emphasis on nutrition assessment, diagnosis, intervention, monitoring and evaluation, as related to the management and treatment of disease states. This course is the clinical capstone course for the dietetics curriculum. 3 undergraduate hours. 3 graduate hours. Prerequisite: FSHN 420, or concurrent enrollment required.

FSHN 440  Applied Statistical Methods I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/440/)
Same as ABE 440, ANSC 440, CPSC 440, NRES 440, and NUTR 440. See CPSC 440.
FSHN 441 Services Management credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/441/)
Focuses on a distinctive approach to communication, design, and operation that is required by service organizations (e.g., hotels, restaurants, professional services, banks, hospitals, etc.). Students will explore ways that firms can observe, measure, improve, and utilize service as a primary source of competitive advantage. Students will learn about the unique challenges of services and the different roles both employees and customers have in the creation and delivery of services. They will also practice how to develop and manage the service encounter in order to deliver service quality to the customer. 2 undergraduate hours. 2 graduate hours. Prerequisite: Previous exposure to marketing principles, management principles, and customer service scenarios is recommended. Restricted to Junior, Senior, or Graduate class standing.

FSHN 442 Hospitality Management & Leadership Skills credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/442/)
Application of behavioral science and management techniques, methods and strategies to the hospitality industry. Applied management techniques will focus on those managerial behaviors needed to develop and maintain positive and productive relationships with subordinates, peers, supervisors and individuals external to the hospitality organization. 3 undergraduate hours. 3 graduate hours.

FSHN 443 Management of Fine Dining credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/443/)
Advanced application of food production and management principles to specific food service demands; emphasis on artistry in preparation, serving, and merchandising high quality food in quantity. 4 undergraduate hours. 4 graduate hours. Prerequisite: FSHN 340 and credit or concurrent registration in FSHN 442.

FSHN 450 Dietetics: Professional Issues credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/450/)
Discussion of current topics in dietetics, professional issues (ethics, outcomes research, marketing, legislation, registered dietitian exam) and preparing for dietetic internships. Required of all dietetics students. 2 undergraduate hours. 2 graduate hours. Prerequisite: Senior standing in dietetics.

FSHN 453 Nutrition for Performance credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/453/)
Same as KIN 453. See KIN 453.

FSHN 459 Nutrition Focused Physical Assessment credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/459/)
Collect appropriate subjective and objective data associated with obtaining a health and diet history. An introduction to physical and diagnostic assessment of health status. The emphasis is on knowing normal findings and normal variations in the healthy adult, well child, and the well elder person. 2 undergraduate hours. 2 graduate hours. Prerequisite: FSHN 329 and FSHN 420 and credit or concurrent enrollment in FSHN 429.

FSHN 460 Food Processing Engineering credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/460/)
Examines application of process engineering principles to the conversion of raw agricultural materials into finished food products. Topics include basics of engineering analysis, units and dimensions, materials balances, energy balances, thermodynamics, heat transfer, psychrometry, refrigeration and mechanical separations. 3 undergraduate hours. 3 graduate hours. Prerequisite: PHYS 101 and MATH 220; or consent of instructor.

FSHN 464 Beverage Science & Technology credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/464/)
Explores the research, science and technology of the production of safe, high quality beverages through the application of food chemistry, food microbiology, and food processing principles. 2 undergraduate hours. 2 graduate hours. Prerequisite: FSHN 414 or consent of instructor. FSHN juniors, seniors and grad students only.

FSHN 465 Principles of Food Technology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/465/)
Overview of processing techniques in the food industry, including thermal/non-thermal processing, refrigeration, freezing, moisture removal, and separation. Presentations cover basic principles of each technology with examples of processing equipment. The changes of food components and nutrients caused by processing is also discussed. Lecture and field trips. 3 undergraduate hours. 3 graduate hours. Credit is not given for both FSHN 465 and the FSHN 461 - FSHN 462 sequence. Prerequisite: Food chemistry or biochemistry equivalent recommended. Undergraduate food science majors or graduate students specializing in food processing/engineering may not enroll in FSHN 465.

FSHN 466 Food Product Development credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/466/)
Principles of food product development: target market evaluation, concept development and presentation, formulation, manufacturing, packaging, product costs, pricing, safety, and marketing. May include a product in accordance with Institute of Food Technologists national competition guidelines. Products will be unveiled and presented for faculty evaluation. Additional fees may apply. See Class Schedule. 4 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 8 hours in separate terms if topics vary. Prerequisite: FSHN 332 or FSHN 414; FSHN 471 or FSHN 472; concurrent registration or completion of FSHN 461 and FSHN 462, or FSHN 465. This capstone course is limited to seniors in the Food Science or Foods Industry and Business options in FSHN. Graduate students will be allowed to register pending sufficient space in the class.

FSHN 469 Package Engineering credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/469/)
Cross-disciplinary study of the materials, machinery, research, design, techniques, environmental considerations, ethics and economics used in the global packaging industry with emphasis on the implementation of improved technologies for the problems unique to food packaging. An emphasis on the broad, systems-based nature of packaging will be maintained throughout the course. Same as ABE 482. 3 undergraduate hours. 3 graduate hours. Prerequisite: MATH 220; one each of 100-level Chemistry and Physics courses or their equivalent; junior-senior standing or higher, or consent of instructor.

FSHN 471 Food & Industrial Microbiology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/471/)
Relationship of microorganisms to food manufacture and preservation, to food and industrial fermentation and processing, and to food-borne illness. Same as MCB 434. 3 undergraduate hours. 3 graduate hours. Credit is not given for FSHN 471 and FSHN 175. Prerequisite: Previous microbiology course such as MCB 100, MCB 250, or MCB 300.
FSHN 472  Applied Food Microbiology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/472/)
Explores experimental methods for studying microbial food safety, quality, and fermentation. Introduces basic microbiology techniques and uses them to study how to detect and control spoilage microorganisms and potential foodborne pathogens. Conduct and experimentally track the progress of classic food fermentations. 3 undergraduate hours. 3 graduate hours. Credit is not given for both FSHN 472 and FSHN 312. Prerequisite: MCB 100 and credit or concurrent enrollment in FSHN 471.

FSHN 480  Basic Toxicology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/480/)
Emphasizes basic toxicology principles and the pharmacokinetics, absorption, distribution, metabolism and excretion of drugs, non-nutrient dietary supplements and other compounds foreign to the body. Toxic effects on major target organ systems are discussed, including an introduction to how foreign compounds can initiate, enhance or prevent the carcinogenic process. Briefly surveys diverse areas of toxicology such as eco-, nano-, forensic, genetic, nutritional, clinical and reproductive toxicology; review the federal regulatory aspects of safety assessment and consumer protection. Same as CB 449, CPSC 433, and ENVS 480. 3 undergraduate hours. 3 graduate hours.

FSHN 481  Food Processing Unit Operations I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/481/)
Study the engineering principles that govern food processing and preservation unit operations, including evaporation, freeze-concentration, membrane separation, dehydration, centrifugation, and extrusion, and understand the effect of the process conditions of various unit operations on product characteristics and product quality. 2 undergraduate hours. 2 graduate hours. Prerequisite: FSHN 414 or equivalent; FSHN 460 or equivalent; FSHN 312 or FSHN 471 or equivalent. FSHN 260 is recommended.

FSHN 482  Food Processing Unit Operations I Lab  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/482/)
Focus on topics discussed in Food Processing Unit Operations I (FSHN 481) in a food grade environment. Students will have opportunities to operate pilot scale food processing equipment for each unit operation. Additional fees may apply. See Class Schedule. 1 undergraduate hour. 1 graduate hour. Prerequisite: FSHN 481.

FSHN 483  Food Processing Unit Operations II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/483/)
Study the engineering principles that govern food processing and preservation unit operations, including evaporation, freeze-concentration, membrane separation, dehydration, centrifugation, and extrusion, and understand the effect of the process conditions of various unit operations on product characteristics and product quality. 2 undergraduate hours. 2 graduate hours. Prerequisite: FSHN 414 or equivalent; FSHN 460 or equivalent; FSHN 312 or FSHN 471 or equivalent. FSHN 260 is recommended.

FSHN 484  Food Processing Unit Operations II Lab  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/484/)
Focus on topics discussed in Food Processing Unit Operations II (FSHN 483) in food grade environment. Students will have opportunities to operate pilot scale food processing equipment for each unit operation. Additional fees may apply. See Class Schedule. 1 undergraduate hour. 1 graduate hour. Prerequisite: FSHN 483.

FSHN 499  Cur Topics in FS & Human Nutr  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/499/)
Group discussion or an experimental course on a special topic in food science and human nutrition. 1 to 3 undergraduate hours. 1 to 3 graduate hours. Approved for Letter and S/U grading. May be repeated in the same or subsequent terms to a maximum of 12 hours as topics vary.

FSHN 502  Advanced Sensory Science  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/502/)
In-depth and current topics in sensory science beyond the scope of undergraduate sensory course, FSHN 302. The main course objectives are to 1) discuss the physiological and psychological basis for sensory evaluation, 2) discuss Thurstonian Modeling in Difference Tests, 3) utilize multivariate statistical methods in sensory studies, 4) critique current research papers and articles in the sensory science discipline, and 5) develop a proposal for research utilizing sensory methods. Prerequisite: Undergraduate sensory science course, such as FSHN 302. Graduate students only.

FSHN 510  Topics in Nutrition Research  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/510/)
Same as ANSC 525 and NUTR 510. See NUTR 510.

FSHN 511  Regulation of Metabolism  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/511/)
Same as ANSC 521 and NUTR 511. See NUTR 511.

FSHN 514  Advanced Food Chemistry  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/514/)
Emerging issues related to the chemistry of water, carbohydrates, lipids and proteins, as well as postharvest physiology and impact of processing on chemical reactions in foods. Prerequisite: Organic CHEM 232, or equivalent.

FSHN 517  Fermented &Distilled Beverages  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/517/)
The production technology, microbiology and chemistry (including the compositional chemistry, flavor chemistry, and chemistry of aging) of fermented and distilled beverages. Additional fees may apply. See Class Schedule. Prerequisite: Graduate student status, or a food microbiology course and a food chemistry or biochemistry course.

FSHN 518  Chemistry of Lipids in Foods  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/518/)
Detailed examination of the chemical and physical properties of lipids in foods. Offered every other year. Prerequisite: A food chemistry or biochemistry course is highly recommended.

FSHN 519  Flavor Chemistry and Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/519/)
Provides graduate students with the tools and understanding necessary for the study of complex food flavor systems. Students will learn: 1) modern techniques of analysis used in the chemical evaluation of food flavor systems, 2) accepted techniques for the sensory evaluation of food flavor, 3) approaches for combined sensory-analytical evaluation of food flavor and 4) principles of food flavor chemistry with emphasis placed on some well-understood flavor systems. Offered every other year. Prerequisite: FSHN 414 and FSHN 418 or equivalent.
FSHN 520  Advanced Clinical Nutrition  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/520/)
Same as NUTR 561. See NUTR 561.

FSHN 521  Molecular Basis of Metabolic Syndrome and Weight Management  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/521/)
The objective of the course is to help nutritionists and dietitians build a strong biochemical, physiological, clinical and epidemiological foundation in the areas of: 1. Metabolic adaptation to positive and negative energy balance 2. Progression and regression of metabolic syndrome 3. Principles of running a cost-effective dietary weight loss/maintenance program. Same as NUTR 521. 2 graduate hours. No professional credit. Prerequisite: MCB 450, MCB 244, MCB 246, and FSHN 420; or consent of instructor. May enroll in prerequisite courses concurrently. Priority is given to graduate students in FSHN and DNS programs.

FSHN 522  Function and Metabolism of Essential Fatty Acids and Cholesterol  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/522/)
The goals of the course are to learn a biochemical and molecular basis of functions and metabolism of essential fatty acids and cholesterol, and the implications to chronic disease prevention and dietary recommendations. Same as NUTR 522. 1 graduate hour. No professional credit. Prerequisite: MCB 450, MCB 244, MCB 246, and FSHN 420; or consent of instructor. May enroll in prerequisite courses concurrently. Priority given to graduate students in FSHN and DNS programs.

FSHN 527  Advanced Vitamins and Minerals: Regulations of Metabolism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/527/)
Combined lectures and in-class case studies of vitamins and minerals as the regulators of nutrition, metabolism, and overall human health. Lectures include genetic, biochemical background information and basic epigenetic mechanisms. In-class case studies will involve body physiology, human development, and specific diseases. Same as NUTR 527. 3 graduate hours. No professional credit. Prerequisite: One biochemical course, such as FSHN 426, FSHN 427, MCB 450, or equivalent.

FSHN 530  Childhood Obesity I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/530/)
Same as CHLH 530, HDF 551, KIN 530, NUTR 530, SOCW 570. See NUTR 530.

FSHN 531  Childhood Obesity II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/531/)
Same as CHLH 531, HDF 552, KIN 531, NUTR 531, SOCW 571. See NUTR 531.

FSHN 550  Grantsmanship and Ethics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/550/)
Same as NUTR 550. See NUTR 550.

FSHN 552  Advanced Diabetes Management  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/552/)
Discuss current topics in advanced diabetes management for nutrition professionals who plan to work directly in patient care, research, and administrative roles with patients with diabetes. 3 graduate hours. No professional credit. Prerequisite: FSHN 420.

FSHN 563  Food Materials Science  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/563/)
Study of the structure of foods that confer attributes such as soft, crunchy, juicy, creamy, and many others. Foods will be probed at the micro and nano scales. The goal is to better understand, predict, and design food properties and functionalities. 2 graduate hours. No professional credit. Prerequisite: FSHN 414 (Food Chemistry) or equivalent.

FSHN 573  Advanced Food Microbiology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/573/)
Detailed examination of food microbiology topics including food-borne pathogens, food fermentation and microbial spoilage. Prerequisite: Graduate student standing or consent of instructor.

FSHN 574  Value Added Biotransformation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/574/)
Crop residues, renewable biomass, and agricultural wastes as sustainable and inexpensive substrates for producing value added products through enzymatic and microbial conversion processes. Concepts and applications of metabolic engineering. 3 graduate hours. No professional credit. Prerequisite: FSHN 471.

FSHN 575  Issues in Food Safety  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/575/)
Current issues affecting the safety of the food supply including emerging pathogens, food additives and pesticides, genetically modified organisms and new technologies will be evaluated in the context of current scientific knowledge, United States food law, and consumer opinions. Offered every other year. Prerequisite: Graduate standing.

FSHN 580  Ethics in Research, IRB and IACUC  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/580/)
The goals of this course are twofold. First, to provide graduate students with an introduction to knowledge and skills that will facilitate ethical behavior in research. Second, to increase their sensitivity to ethical issues. We will review rules, issues, options and resources to meet regulatory and institutional expectations (including Institutional Review Board (IRB) and Institutional Animal Care and Use Committee (IACUC). We will foster their ethical decision-making skills by discussing and analyzing real (or realistic) ethical cases. We will identify failures, justify decisions, and generate potential solutions to those errors. Same as NUTR 580. 3 graduate hours. No professional credit.

FSHN 590  Dietetic Internship I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/590/)
Supervised learning experience in a variety of settings and locations related to clinical nutrition, community nutrition and health promotion, and food service management within Urbana/Champaign and surrounding areas. Additional fees may apply. See Class Schedule. Approved for letter and S/U grading. Prerequisite: Enrollment in dietetic internship program.

Information listed in this catalog is current as of 01/2022
FSHN 591  Dietetic Internship II  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/591/)
Supervised learning experience in a variety of settings and locations related to clinical nutrition, community nutrition and health promotion, and food
service management within Urbana/Champaign and surrounding areas. Additional fees may apply. See Class Schedule. Approved for letter and S/U
grading. Prerequisite: FSHN 590.

FSHN 592  Graduate Internship Experience  credit: 0 to 12 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/592/)
Supervised, off-campus experience in a field related to a students’ option/concentration. Approved for letter and S/U grading. May be repeated in
separate terms to a maximum of 12 hours.

FSHN 593  Seminar in Foods and Nutrition  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/593/)
Communication-based course that focuses on enhancing professional oral presentation skills, particularly with regard to communicating current food
science and/or human nutrition topics. 2 graduate hours. No professional credit. Prerequisite: Undergraduate degree in foods, nutrition, or comparable
background in chemistry, microbiology, physiology, or other biological science; consent of instructor.

FSHN 595  Advanced Topics in Food Science and Human Nutrition  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/595/)
Studies of selected topics in Food Science. Study may be on specialized topics in any one of the following fields: food chemistry, food microbiology,
nutrition, food processing/engineering. Lectures and/or laboratory. 1 to 4 graduate hours. No professional credit. May be repeated if topics vary.
Students may register only once for a given topic. Prerequisite: Graduate level status or consent of instructor.

FSHN 597  Graduate Seminar  credit: 0 to 1 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/597/)
Discussions on specialized research topics and current literature relating to food science and human nutrition. Required of all graduate students. 0 to
1 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated in separate terms.

FSHN 598  Advanced Special Problems  credit: 1 to 8 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/598/)
Supervised individual study on advanced special problems in food science and human nutrition. Approved for letter and S/U grading. May be repeated
in the same or subsequent semesters. (Summer session: 1 to 4 graduate hours). Prerequisite: Written consent of instructor must be obtained prior to
enrollment.

FSHN 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/599/)
Original research designed and conducted under graduate faculty supervisor. Approved for S/U grading only. May be repeated.

Information listed in this catalog is current as of 01/2022
**GC - Graduate College**

GC Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GC/)

**Courses**

**GC 295**  
URAP Research Apprenticeship  
credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GC/295/)  
The Office of Undergraduate Research and the Graduate College offer the opportunity for freshmen, sophomore, and transfer students with little to no research experience to assist advanced graduate students with their research projects. Through an application, selection, and matching process, undergraduate students are provided a research experience with their graduate student mentor. In addition, regular class meetings will offer a comprehensive introduction to research methods and practices. Approved for S/U grading only. Prerequisite: Consent of instructor. Freshmen, Sophomores, and first-year transfer students by application only.

**GC 298**  
Special Topics: Graduate School Exploration  
credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GC/298/)  
Offers the opportunity for students with limited research experience to explore the fundamentals of graduate education across various disciplinary fields. Course content provides an introduction for processes of knowledge generation across the humanities, social sciences, and natural sciences. Case studies will be used to contextualize the scientific processes. In addition, students learn how to plan for an advanced degree. Approved for S/U grading only. Prerequisite: Consent of instructor. Restricted to students enrolled in Graduate School Exploration Program. Juniors and first-year transfer students by application only.

**GC 498**  
Graduate Domestic Study Away  
credit: 0 to 12 Hours. (https://courses.illinois.edu/schedule/terms/GC/498/)  
Provides campus credit for study at accredited domestics institutions outside the CIC. 0 to 12 graduate hours. Approved for both letter and S/U grading. May be repeated to a maximum of 12 graduate hours in separate terms. Credit received will depend on transfer approved from visited institution. Prerequisite: Registration will be controlled by Graduate Records.

**GC 499**  
Graduate College Study Abroad  
credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/GC/499/)  
Provides campus credit for study at accredited foreign institutions or approved overseas programs. Final determination of credit granted is made after the student’s successful completion of work. Credit will not count toward residence requirements. No undergraduate credit. 0 to 18 graduate hours. Approved for Letter and S/U grading. Prerequisite: Full academic standing in the Graduate College and consent of major department and Graduate College.

**GC 500**  
URAP Graduate Mentor Practicum  
credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/GC/500/)  
The Office of Undergraduate Research (OUR) and the Graduate College offer the opportunity for first and second-year undergraduate students to assist advanced graduate students with their research projects. Through a one-on-one research experience with their graduate student mentor, undergraduate students will have the opportunity to learn what it means to do research, create knowledge, and produce scholarship. This course will serve as a formal record of the graduate mentoring side of the apprenticeship (i.e., “practicum”). 0 graduate hours. No professional credit. Approved for S/U grading only. May be repeated.

**GC 599**  
Thesis Research  
credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/GC/599/)  
For doctoral students who have a guaranteed student loan that needs deferral, have completed the credit requirements for the doctorate, have passed the preliminary examination, do not have any financial assistance that would cover tuition and fees, and are eligible to register for 599 in their own academic units. Approved for S/U grading only. May be repeated.
GEOG - Geography

GEOG Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GEOG/)

Courses

GEOG 100 Introduction to Meteorology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/100/)
Same as ATMS 100. See ATMS 100.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

GEOG 101 Global Development & Environment credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/101/)
Introduces geographical perspectives on environment and development studies with case studies drawn from Africa, Asia, and Latin America.
Investigates the origins of the global South in relation to the global North, especially the historical and contemporary processes driving environmental, economic, and cultural change.
This course satisfies the General Education Criteria for:
Cultural Studies - Non-West
Social Beh Sci - Soc Sci

GEOG 103 Earth's Physical Systems credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/103/)
A basic introduction to the environmental systems of the Earth's surface, including landforms, soils, and ecosystems and how these systems are affected by global change. Emphasizes the importance of human-Earth relations and a holistic view of environmental systems. Same as ESE 103.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

GEOG 104 Social and Cultural Geography credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/104/)
Introduces the basic concepts of social and cultural geography, and the application of these concepts to a variety of topics; mental maps, territoriality, cultural regions, cultural elements and their diffusion, population movement and migration, settlement patterns, environmental hazards, and spatial patterns of social problems.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

GEOG 105 The Digital Earth credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/105/)
Geospatial technologies such as global positioning systems (GPS) and geographic information systems (GIS) are becoming increasingly important tools in research and policy arenas and in everyday life. This course will provide an introduction to these emerging technologies and to the principles of mapping science that underpin them. At the same time, the course will explore how these innovative technologies are changing the spaces and places around us, including how we interact with the environment and each other. Lab exercises provide hands-on experience in collecting and mapping geospatial information, interpreting digital imagery and the Earth's environments, and critically thinking about the social implications of the digital Earth.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

GEOG 106 Geographies of Globalization credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/106/)
A survey of major world regions by systematically considering five themes: environment, population and settlement patterns, cultural coherence and diversity, geopolitical fragmentation and unity, and economic and social development. While examining the persistence of unique regions, the course will both scale up to global linkages and scale down to place-specific impacts of globalization processes. Same as ESE 106.
This course satisfies the General Education Criteria for:
Cultural Studies - Non-West
Social Beh Sci - Soc Sci

GEOG 199 Undergraduate Open Seminar credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/199/)
May be repeated.

GEOG 204 Cities of the World credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/204/)
In-depth exploration of global urbanization. Using a comparative regional approach, discuss the recent history of global urbanization, dissect its problems, and offer possible solutions. Approximately ten major regions of the world will be examined, exploring the significant urban patterns and processes, built and natural environments, and social, economic, and cultural landscapes of each.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci
Cultural Studies - Western

GEOG 205 Business Location Decisions credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/205/)
Analyzes location decision-making emphasizing industrial and commercial location patterns; identifies important institutional factors and their changing roles over the recent past; and focuses on plant closings, economic disruptions, and problems of structural change. Same as BADM 205.
Prerequisite: ECON 102 or ECON 103, or equivalent.

Information listed in this catalog is current as of 01/2022
GEOG 210  Social & Environmental Issues  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/210/)
Introduction to the complex relationship between people and the natural environment from a social science perspective. Explores different approaches to environmental issues, and examines the role of population change, political economy, technologies, environmental policymaking, and social institutions in causing and resolving contemporary social and environmental global issues. Same as ESE 210.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

GEOG 220  Landscapes, Ecosystems and Environmental Change: Science and Management  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/220/)
Addresses the fundamental question of how science can guide sustainable management of landscapes and the associated ecosystems in the era of rapid global environmental change. To achieve this goal, we will integrate basic concepts and methods from a range of disciplines, including earth sciences, ecology, environmental management, and environmental studies.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

GEOG 221  Geographies of Global Conflict  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/221/)
Focuses on contemporary cultural conflicts, competition among nations for economic and mineral resources; treats territorial disputes from a cultural and geographic perspective. Case studies vary to illustrate types of contemporary conflicts. Same as GLBL 221. Credit is not given for GEOG 221 and GEOG 110.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

GEOG 222  Big Rivers of the World  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/222/)
An interdisciplinary approach to the study of big rivers, encompassing geomorphology, engineering, ecology, risk assessment and planning. Commencing with an assessment of the nature of big rivers; their hydrology and geomorphic setting; hazards associated with large rivers, and issues of river impoundment and management, then proceed to examine the geography, geomorphology, and ecology and management of a range of the World's greatest rivers, focusing on how a geomorphological understanding of such large rivers can aid study of riverine ecohabitats and inform decisions regarding water usage and engineering management. If the weather permits, a one day field-trip will be organized in the second half of the course to view aspects of a local river in Illinois/Indiana. Same as ESE 222.

GEOG 224  Environmental Data Science  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/224/)
Systematic analysis of the environmental and human processes shaping rural and urban Illinois through a data science lens.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

GEOG 227  Environment and Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/227/)
Same as ESE 287, NRES 287 and PS 273. See NRES 287.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

GEOG 250  American People, Places, & Environments  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/250/)
Students will broaden their understanding of how the United States' physical and human geography interact to produce unique cultural landscapes. Covers a dozen different regions of the U.S., exploring the significant spatial patterns and processes, built and natural environments, and social, economic, and cultural landscapes of each. Focuses on the experiences of minority cultures in the U.S. through specific themes that vary by semester, including: environmental justice, memory and memorials, music, and food. Same as ESE 254.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

GEOG 252  Geographical Analysis of Regions  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/252/)
Covers a dozen different regions of the U.S., exploring the significant spatial patterns and processes, built and natural environments, and social, economic, and cultural landscapes of each. Focuses on the experiences of minority cultures in the U.S. through specific themes that vary by semester, including: environmental justice, memory and memorials, music, and food. Same as ESE 254.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

GEOG 254  American People, Places, & Environments  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/254/)
Students will broaden their understanding of how the United States' physical and human geography interact to produce unique cultural landscapes. Covers a dozen different regions of the U.S., exploring the significant spatial patterns and processes, built and natural environments, and social, economic, and cultural landscapes of each. Focuses on the experiences of minority cultures in the U.S. through specific themes that vary by semester, including: environmental justice, memory and memorials, music, and food. Same as ESE 254.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

GEOG 256  Sustainable Development in South Asia  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/256/)
Examination of sustainable development in the region of South Asia (India, Nepal, Pakistan, Afghanistan, Bangladesh, Sri Lanka). Geographic analysis of development processes since the colonial period, with particular emphasis on the interrelated processes of environment, society, and politics as related to sustainability. Prerequisite: Sophomore standing or consent of instructor.

GEOG 260  Intro to Social Statistics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/260/)
Same as SOC 280. See SOC 280.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

GEOG 270  Water Planet, Water Crisis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/270/)
Same as ESE 320 and GEOL 370. See ESE 320.
GEOG 371  Spatial Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/371/)
Overview of the spatial analysis (nomothetic) approach to geographic research, both physical and human; includes discussion of the scientific
method, with explanations and uses of analytic geographic concepts in studying real world problems. Prerequisite: A course in geography.
This course satisfies the General Education Criteria for:
Quantitative Reasoning II

GEOG 379  Intro to GIS Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/379/)
Investigates the fundamentals of geographic information science as well as the basic skills in the execution of that theoretical knowledge with
industry standard software packages. Student will learn the basics of projections and coordinate systems, how geographic information is stored and
manipulated, and the theory and practice behind the production of thematic maps. Includes lecture and hands-on laboratory components. Same as
ESE 379.

GEOG 380  GIS II: Spatial Prob Solving  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/380/)
Study of the analytical capabilities of geographic information systems with an emphasis on learning to solve spatial problems in both the vector
and raster data formats. Students will develop the skills necessary to answer questions or solve problems in their areas of interest, with particular
emphasis on problems and questions that require multiple steps to resolve. Students will learn the fundamental theory behind spatial problem solving,
but also learn to execute these procedures with industry-standard software packages. Thus, this class contains both lecture/discussion elements and
hands-on laboratory work. Same as ESE 380. Prerequisite: GEOG 379
This course satisfies the General Education Criteria for:
Quantitative Reasoning II

GEOG 384  Population Geography  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/384/)
Problems and issues surrounding the geographic distribution of populations at the world, regional, and local levels; emphasizes problems associated
with population growth and decline, recent population redistribution, births and deaths, and elderly and minority populations.

GEOG 390  Individual Study  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/390/)
Supervised independent study of special topics or regions. May be repeated once. Prerequisite: Junior standing; at least one formal course in the topic
or region of interest; consent of instructor.

GEOG 391  Honors Individual Study  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/391/)
Individual study and research projects for students who are working toward the degree with distinction in geography. May be repeated to a maximum
of 8 hours. Prerequisite: Junior standing; consent of honors adviser.

GEOG 392  Geography & GIS Internship  credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/392/)
Supervised, off-campus experience in a field directly pertaining to Geography and/or GIS. A written report is required at the end of the internship
relating work accomplishments to the student’s program of study. Approved for Letter and S/U grading. May be repeated in separate terms up to 6
hours. Prerequisite: Consent of faculty sponsor and Director of Undergraduate Studies; at least two courses taken within Geography & GIS.

GEOG 401  Watershed Hydrology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/401/)
Same as NRES 401. See NRES 401.

GEOG 403  Geographic Information Science and Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/403/)
Introduces the conceptual and technical fundamentals of geographic information science as a gateway to advanced study in geographic information
science, and cover geographic information science as an interdisciplinary scientific field and geographic information systems as a tool in many
application domains. Students will be introduced to unique characteristics of geospatial data in the capture, processing, storage, analysis,
communication, and interpretation of geospatial information, which will prepare them to utilize information science techniques and critical spatial-
thinking skills to address geospatially-related challenges. 4 undergraduate hours. 4 graduate hours. Prerequisite: There are no prerequisites for
this course, although familiarity with basic descriptive and inferential statistics as well as some experience with at least one computer scripting/
programming language will be helpful.

GEOG 405  Geography Field Course  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/405/)
Field observation and mapping of human and/or physical phenomena using basic geographic field techniques, including pre- and post-trip meetings.
Required field trip. Additional fees may apply. See Class Schedule. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated if topics vary.
Prerequisite: Major or minor in Geography & GIS, or consent of instructor.

GEOG 406  Fluvial Geomorphology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/406/)
Systematic overview of the forms and processes associated with rivers and drainage basins; topics include basin hydrology, drainage networks, river
hydraulics, sediment transport processes, channel morphology, channel change, and human impacts on fluvial systems. Same as GEOL 406, and
NRES 406. 4 undergraduate hours. 4 graduate hours. Prerequisite: PHYS 101, and GEOG 103 or GEOL 107, or consent of instructor.

GEOG 407  Foundations of CyberGIS & Geospatial Data Science  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/407/)
Intended to introduce students to CyberGIS – Geospatial Information Science and Systems (GIS) based on advanced cyberinfrastructure as well as the
state of the art in high-performance computing, big data, and cloud computing in the context of geospatial data science. Students will use CyberGISX,
which is an innovative cyberGIS framework for conducting data-intensive, reproducible, and scalable geospatial analytics with Jupyter Notebook as its
primary user environment. Students are expected to learn how to develop Jupyter notebooks to analyze and visualize geospatial data using leading-edge
cyberGIS software and python libraries. Emphasis is placed on learning the cutting-edge advances of cyberGIS and its underlying geospatial data
science principles. Same as GEOL 407. 4 undergraduate hours. 4 graduate hours.
GEOG 408  Humans and River Systems  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/GEOG/408/](https://courses.illinois.edu/schedule/terms/GEOG/408/))
Systematic analysis of the biophysical processes operating in rivers and watersheds and the interaction of humans on these processes. The course will emphasize the importance of biophysical processes and human interaction with these processes in river and watershed management. Class discussion and a class project will focus on analysis of practical river and watershed problems. 4 undergraduate hours. 4 graduate hours. Prerequisite: GEOG 103 or an introductory course in earth or environmental science.

GEOG 410  Green Development  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/GEOG/410/](https://courses.illinois.edu/schedule/terms/GEOG/410/))
Theory and practice of sustainable development. Course materials draw upon theoretical and case study material from the social and natural sciences to analyze environment and development relations with emphasis on the Global South. Same as ESE 410. 4 undergraduate hours. 4 graduate hours.

GEOG 412  Geospatial Tech & Society  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/GEOG/412/](https://courses.illinois.edu/schedule/terms/GEOG/412/))
Examines the use of geographic information systems (GIS), geographical positioning systems (GPS), and other geospatial technologies in everyday life with emphasis on their implications for social, economic, and environmental change. Topics include critical cartography, GIS, and social theory, crime and health, environmental justice, feminism, economic development and environmental change. 3 undergraduate hours. 3 graduate hours. Prerequisite: GEOG 105 or consent of instructor.

GEOG 421  Earth Systems Modeling  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/GEOG/421/](https://courses.illinois.edu/schedule/terms/GEOG/421/))
Same as ATMS 421, ESE 421, GEOL 481 and NRES 422. See ATMS 421.

GEOG 423  Politics of International Conservation and Development  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/GEOG/423/](https://courses.illinois.edu/schedule/terms/GEOG/423/))
Same as NRES 423. See NRES 423.

GEOG 436  Biogeography  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/GEOG/436/](https://courses.illinois.edu/schedule/terms/GEOG/436/))
Same as ANTH 436, ESE 439, IB 439 and NRES 441. See IB 439.

GEOG 438  Geography of Health Care  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/GEOG/438/](https://courses.illinois.edu/schedule/terms/GEOG/438/))
Methods and perspectives of health care. Emphasizing the spatial analysis of health and health care. The organization, provision and competition of health care will be highlighted. Same as SOC 478. 3 undergraduate hours. 4 graduate hours. Prerequisite: GEOG 384 or SOC 274 or consent of instructor.

GEOG 439  Health Applications of GIS  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/GEOG/439/](https://courses.illinois.edu/schedule/terms/GEOG/439/))
Same as CHLH 439 and PATH 439. See PATH 439.

GEOG 440  Business Applications of GIS  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/GEOG/440/](https://courses.illinois.edu/schedule/terms/GEOG/440/))
Design and implementation of GIS for business and strategic planning applications. Course goals include: (1) provide students with an understanding of Geographic Information Systems; (2) provide students with an understanding of how GIS can be applied in various business applications; (3) familiarize students with GIS and modeling techniques; (4) provide students with opportunities to work with various data sources through a project related to their own interest in business. Same as BADM 440. 3 undergraduate hours. 4 graduate hours.

GEOG 446  Sustainable Planning Seminar  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/GEOG/446/](https://courses.illinois.edu/schedule/terms/GEOG/446/))
Same as LA 446, NRES 446, and UP 446. See LA 446.

GEOG 455  Geog of Sub-Saharn Africa  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/GEOG/455/](https://courses.illinois.edu/schedule/terms/GEOG/455/))
Regional geography of Africa south of the Sahara. Geographic analysis of Africa which includes topics in both physical and human geography and provides a general overview of the processes and interactions between human and environmental factors that shape Africa's physical and human geography. 3 undergraduate hours. 3 graduate hours.

GEOG 459  Ecohydraulics  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/GEOG/459/](https://courses.illinois.edu/schedule/terms/GEOG/459/))
Interactions between hydraulic, ecological, and geomorphic processes in river environments at a wide range of both spatial and temporal scales. Draws upon and synthesizes fundamental concepts from biology, ecology, fluid mechanics and morphodynamics, to apply them to truly interdisciplinary problems. Such an approach, coupled with hands-on experience involving planning, conducting and analyzing hands-on experiments at the Ven Te Chow Hydrosystems Laboratory and field surveys on local natural waters will provide the students with a broad perspective on the interconnections between physical and ecological systems. Students will apply their knowledge of fundamental processes to assess complex problems involving monitoring, management, conservation and restoration of ecosystems. 4 undergraduate hours. 4 graduate hours.

GEOG 460  Aerial Photo Analysis  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/GEOG/460/](https://courses.illinois.edu/schedule/terms/GEOG/460/))
Review of methods for extracting quantitative and qualitative information from aerial photographs using computer-based techniques and visual interpretation. The first part of the course will cover basic photogrammetry and mapping. The second part will focus on interpretation of physical, biological, and cultural features. Same as NRES 460. 3 undergraduate hours. 4 graduate hours. Prerequisite: Knowledge of trigonometry (MATH 014 or equivalent) and basic physical geography (GEOG 103 or equivalent).

GEOG 465  Transportation & Sustainability  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/GEOG/465/](https://courses.illinois.edu/schedule/terms/GEOG/465/))
Descriptors of transportation systems; transportation as an industrial activity and public good; and transportation and spatial development, including the role of transportation in urban and regional development. Emphasis on the economic, environmental, and social aspects of sustainability as they apply to transportation systems and the activities they enable at local, regional, national and global levels. Field trip required. Same as ESE 465. Additional fees may apply. See Class Schedule. 3 undergraduate hours. 4 graduate hours.
This course satisfies the General Education Criteria for:
Advanced Composition
GEOS 466 Environmental Policy  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOS/466/)
Examination of the geographical and political aspects of human-environmental relations; focusing on how environmental problems are defined, negotiated, and addressed through policy formulation. Specific approaches to environmental policy will be considered at different geographical scales. Same as ESE 466. 3 undergraduate hours. 4 graduate hours. Prerequisite: One course in Geography or Political Science or consent of instructor.

GEOS 468 Biological Modeling  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOS/468/)
Interdisciplinary modeling course for students interested in dynamic system modeling of living processes; each student will build a model by the end of the course. No special mathematical background required. Same as ANSC 449, CPSC 448, and IB 491. 3 undergraduate hours. 4 graduate hours. Prerequisite: IB 444 or equivalent, depending on curriculum.

GEOS 471 Recent Trends in Geog Thought  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOS/471/)
Examination of recent trends in human and physical geography. Themes include empiricism, logical positivism, regionalism, Marxism, realism, phenomenology, and post-modernism as applied to geographic research. Emerging geographic literature is explored to identify the latest conceptual developments. 4 undergraduate hours. 4 graduate hours.

GEOS 473 Digital Cartography & Map Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOS/473/)
Instruction and practice in the basic techniques of map making followed by a consideration of problems involved in the construction of maps for presentation in a reproduced form (i.e., printed, photographed); the selection of proper source materials for the base and body of the map, the compilation and correlation of these materials, and methods of mechanical and photographic reproduction. 4 undergraduate hours. 4 graduate hours.

GEOS 476 Applied GIS to Environ Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOS/476/)
Demonstrates how geographic information systems (GIS) have become a major technology ubiquitously applied to solve important problems encountered in geospatial and environmental applications. Same as IB 476. 3 undergraduate hours. 3 graduate hours. Prerequisite: GEOS 103 or GEOS 104, consent of instructor.

GEOS 477 Introduction to Remote Sensing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOS/477/)
Fundamentals of energy-matter interaction mechanisms, and the manifestation of reflected and emitted radiation on photographs and images; introduces characteristics of aerial films and filters, electro-optical scanners, and digital processing; and emphasizes applications in environmental problems. Same as NRES 477. 3 undergraduate hours. 3 graduate hours. Prerequisite: GEOS 280 (beginning statistics) or equivalent, or consent of instructor.

GEOS 478 Techniques of Remote Sensing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOS/478/)
Introduce remote sensing techniques to identify features and phenomena at the surface of Earth with aircraft and satellite platforms. The covered topics include remotely sensed data and major sensor systems, optical, thermal, LiDAR, and hyperspectral remote sensing, techniques for image enhancement and image classification, and applications of remote sensing in various domain fields. 3 undergraduate hours. 3 graduate hours. Prerequisite: GEOS 477 or equivalent.

GEOS 479 Advanced Topics in GIS  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOS/479/)
Introduces advanced concepts in Geographic Information Science. Course topics may vary. 3 undergraduate hours. 3 graduate hours. May be repeated, if topics vary, in separate terms to a maximum of 9 hours, but not more than 6 hours in any one term. Prerequisite: GEOS 379 or equivalent.

GEOS 480 Principles of GIS  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOS/480/)
Focuses on Geographic Information Science (GIScience) principles that underlie the development of Geographic Information Systems (GIS) software and its intelligent use. Helps students adapt to rapidly changing geospatial technologies. Knowledge gained in this course will be general and, thus, not be limited to any specific software product that may be revised in the future. 3 undergraduate hours. 3 graduate hours. Prerequisite: GEOS 379 and GEOS 380 or equivalent, or consent of instructor.

GEOS 482 Challenges of Sustainability  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOS/482/)
Same as ESE 482 and GEOL 483. See ESE 482.

GEOS 483 Urban Geography  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOS/483/)
Broad background of theories, concepts, and methods of research for understanding how and why our cities have reached their current status. Focus on examining the internal structure of the North American city, including analysis of the commercial, industrial, and residential sectors of the urban environment. Particular emphasis is placed on the range of urban theories developed to explain both urban structure and contemporary urban ills. 3 undergraduate hours. 3 graduate hours.

GEOS 484 Cities, Crime, and Space  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOS/484/)
Focusing on US cities, this theory-intensive course surveys traditional and critical perspectives on relations between crime, space, and place. We will explore this interplay within broader contexts of industrial and post-industrial urbanization, concentrating on dynamics including governances, economic processes, and social transformations. Emphasis will be placed on the extent to which these interwoven processes generate, classify, organize, and react to crime across cityscapes. 3 undergraduate hours. 4 graduate hours.

GEOS 489 Programming for GIS  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOS/489/)
Introduction to programming to customize and extend the capabilities of geographic information systems. Topics include the principles of programming, advanced function and tools coding, visualization, fundamental spatial data structures, and spatial algorithms. 4 undergraduate hours. 4 graduate hours. Prerequisite: GEOS 379 and GEOS 380 or equivalents, or consent of instructor.
GEOG 491  Research in Geography  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/491/)
Detailed examination and discussion of the methods of initiating and executing research projects in human or physical geography (taught in separate sections); requires students to write a research proposal of a quality suitable for a graduate thesis. 2 undergraduate hours. 2 graduate hours. Prerequisite: GEOG 471; either graduate standing in geography or senior standing as a geography major and consent of department.

GEOG 495  Advanced Topics in Geography  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/495/)
Explores special topics not covered in regularly scheduled Geography courses. 3 or 4 undergraduate hours. 3 or 4 graduate hours. May be repeated if topics vary in the same term to a maximum of 9 undergraduate hours or 12 graduate hours or in separate terms to a maximum of 12 undergraduate hours or 12 graduate hours.

GEOG 496  Climate & Social Vulnerability  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/496/)
Existing climate variability and likely climate change call for policies to protect vulnerable people who make their livelihoods in a changing environment. Students will explore: 1) causes of climate related stress and disaster; 2) theories of vulnerability and adaptation; 3) practices and policies designed to reduce economic loss, hunger, famine and dislocation in the face of climate trends and events. Focus on multiple policy scales affecting poor and marginal populations, who are disproportionately vulnerable when facing climate stress, drawing on case examples primarily from the developing world. Same as ATMS 446 and SOC 451. 3 undergraduate hours. 4 graduate hours. Prerequisite: GEOG 410, GEOG 466, GEOG 471, GEOG 520, or consent of instructor.

GEOG 507  High-Performance Geospatial Computing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/507/)
Intended to introduce students to high-performance geospatial computing using python to resolve computational bottlenecks and produce faster and scalable solutions. Students will learn how to use Python on high-performance and parallel computing architecture. Specifically, NumPy, SciPy, Numba, and Cython will be covered to optimize and speed up geospatial computation. Students will use CyberGISX as the primary learning environment, and be expected to learn how to develop such notebooks to address computational challenges in solving geospatial problems. By the end, students will have gained solid knowledge of common Python tools for developing high-performance geospatial computing solutions that can be applied to many applications. 4 graduate hours. No professional credit. Prerequisite: GEOG 407 or equivalent.

GEOG 517  Geospatial Visualization & Visual Analytics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/517/)
Intended to introduce students to geospatial visualization and visual analytics as well as the state-of-the-art of cartographic mapping and visualization technologies in the context of cyberGIS (cyber geospatial information science and systems) and geospatial data science. Students will learn open source mapping and visualization libraries such as Leaflet, D3 and Plotly and how to mash up these libraries to create interactive and dynamic visualization tools and GIS applications. Students are expected to learn how to visualize not only geospatial data but also results of spatial analysis. Emphasis is placed on learning the cutting-edge advances of geospatial visualization and visual analytics and practical skills to create geospatial applications based on such advances. 4 graduate hours. No professional credit.

GEOG 520  Political Ecology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/520/)
Political ecology integrates social and biophysical processes in the study of nature-society relations. Examination of the conceptual origins of the field of political ecology and identification of influential bodies of research and promising research directions. Readings focus on recent advances, debates, and the ongoing evolution of political ecology as an integrative approach to Geography and environment-development studies. 4 graduate hours. No professional credit. Prerequisite: One of the following courses, or consent of the instructor: GEOG 410, GEOG 466, SOC 447, HIST 460, or equivalent.

GEOG 527  Geospatial Artificial Intelligence and Machine Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/527/)
The field of Artificial Intelligence (AI) has made significant progress in recent years, and a number of AI algorithms have even surpassed human ability at tasks such as computer vision, natural language processing and machine translation. The intersection of AI and geospatial analysis is creating massive and unprecedented opportunities for knowledge discovery and innovative applications. A growing number of Geospatial AI and machine learning applications have emerged in a diverse set of disciplines such as geography and geographic information science, agriculture, business, economics, sustainable development, and urban planning. In this course, students will learn a variety of Geospatial AI and Machine Learning (ML) algorithms (e.g., decision trees, and support vector machine) and tools that allow us to investigate and identify patterns, clusters, classes, and anomalies based on various types of geospatial data. The course will include extensive hands-on interactions with geospatial data and applications based on cutting-edge AI and ML techniques. 4 graduate hours. No professional credit. Prerequisite: GEOG 407 or equivalent.

GEOG 560  Spatial Epidemiology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/560/)
Same as PATH 560. See PATH 560.

GEOG 561  Landscapes and Human Health  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/561/)
Same as CHLH 580 and LA 570. See LA 570.

GEOG 570  Advanced Spatial Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/570/)
Advanced techniques of spatial analysis, including spatial autocorrelation, trend surface analysis, grouping and regionalization procedures, and point pattern analysis.

GEOG 575  Alluvial Boundary Layer Dynamics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/575/)
Examination of the structure of turbulent boundary layers in rivers and how turbulent flow, sediment transport and channel forms interact over a wide range of spatial and temporal scales. Explores these interactions through critical analysis of contemporary research in fluvial geomorphology, fluid mechanics, hydraulics and sedimentology. Same as GEOL 575. Prerequisite: Consent of instructor.

GEOG 587  Qualitative Research Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/587/)
Same as UP 587. See UP 587.
GEOG 594  Seminar in Social Geography  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/594/)
Advanced study of a current research topic in social geography. Topic varies from term to term; prepares students for dissertation and thesis research through study of advanced literature and the completion of a research paper. Prerequisite: GEOG 471 or equivalent; graduate coursework in social geography or in one of the social sciences.

GEOG 595  Advanced Studies in Geography  credit: 0 to 8 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/595/)
Seminar and directed individual investigation of selected problems or regions; designed to develop ability to conduct independent investigation. Scheduled seminars are detailed in each term's Class Schedule. Approved for both letter and S/U grading. May be repeated.

GEOG 598  Graduate Capstone Project  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/598/)
Major individual project that demonstrates a PSM in GIS student's ability to solve an advanced geospatial problem or develop a GIS-based application. Student will work closely with a faculty capstone adviser to determine the project focus and expected outcome(s). 4 graduate hours. No professional credit. Prerequisite: Restricted to second-year PSM in GIS students.

GEOG 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/599/)
Approved for S/U grading only. May be repeated.

Information listed in this catalog is current as of 01/2022
GEOL - Geology

GEOL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GEOL/)

Courses

GEOL 100  Planet Earth  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/100/)
Introduces non-science majors to physical aspects (earthquakes, volcanoes, floods, tsunamis, mountains, plate tectonics) and historical aspects (formation of earth and life, dinosaurs, ice age, evolution of climate) in earth science. Presents information on earth resources, natural hazards, and development of natural landscapes. Focuses on humanistic issues; provides context for understanding environmental change. Optional lab demonstrations and field trips with co-registration in GEOL 110. Credit is not given for both GEOL 100 and GEOL 101, GEOL 103 or GEOL 107. This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

GEOL 104  Geology of the National Parks  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/104/)
Develops geologic background, concepts, and principles through study of selected national parks and monuments. Examines the geologic framework and history, modern geologic processes, and factors influencing the present day landscape for each park area. Same as ESE 104. This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

GEOL 107  Physical Geology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/107/)
Introduces Earth phenomena and processes. Includes minerals and rocks, continental drift, plate tectonics, rock deformation, igneous and sedimentary processes, geologic time, landscape evolution, internal structure and composition of the earth, groundwater, seismology and earthquakes, and formation of natural resources. Emphasizes the chemical and physical aspects of the Earth, and the basis for geological inference. Field trip required. Additional fees may apply. See Class Schedule. Credit is not given for both GEOL 107 and GEOL 100, GEOL 101 or GEOL 103. Prerequisite: Intended for science and science-oriented students. This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

GEOL 110  Exploring Geology in the Field  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/GEOL/110/)
Introduces practical techniques for identification of rocks, minerals, and fossils; interpretation of geologic maps and cross-sections; appreciation of Midwestern geologic history and geologic features and landforms in the field. Additional fees may apply. See Class Schedule.

GEOL 111  Emergence of Life  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/111/)
Examines important theoretical and practical questions regarding the origin and evolution of life, as well as the search for life elsewhere in the universe. Uses the pioneering work of Carl Woese, whose "Tree of Life" revolutionized our understanding of the fundamental structure and evolutionary relatedness of all living entities on Earth. Same as ESE 111. Additional fees may apply. See Class Schedule. This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

GEOL 117  The Oceans  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/117/)
Integrated introduction to oceanography and marine geology and geophysics. Topics include ocean-basin formation and evolution (in the context of plate tectonics), ocean ecology, the hydrologic cycle, water chemistry, currents and waves, the interaction of oceans with climate, coastal hazards, resources, pollution, and the Law of the Sea. Course is oriented toward students not majoring in science. Same as ESE 117. This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

GEOL 118  Natural Disasters  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/118/)
Introduces the nature, causes, risks, effects, and prediction of natural disasters including earthquakes, volcanoes, landslides, subsidence, global climate change, severe weather, coastal erosion, floods, mass extinctions, and meteorite impacts; covers scientific principles and case histories of natural disasters as well as human responses (societal impact, mitigation strategies, and public policy). Same as ESE 118 and GLBL 118. This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

GEOL 143  History of Life  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/143/)
Evolution of life from its beginning, illustrating changing faunas and floras through time; the invasion of land and of the skies; the effects of a changing atmosphere, changing climates, and continental drift. Emphasis on dinosaur evolution, ecology, and extinction; also other vertebrates, including mammal-like reptiles, mammals, and the emergence of humans, as well as plants and invertebrates. Same as ESE 143. This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

GEOL 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/199/)
May be repeated.
GEOL 201  History of Geology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/201/)
Traces the development of key ideas in the science, beginning with musings of the ancient Greek and Roman philosophers and early observations of the Earth by European and Arab scholars. Considers advances in mapmaking that span thousands of years and examines the origins of the Geologic Time Scale, including determinations of the ages of rocks. Looks at early geologists from around the world, in the US, in Illinois, and at the U of I. Reads some classic papers establishing the grand unifying theory of geology: plate tectonics. Prerequisite: A 100-level geology course (excluding GEOL 110 and GEOL 143). Intended for both non-science students and geology majors.
This course satisfies the General Education Criteria for:
- Advanced Composition
- Humanities - Hist Phil

GEOL 208  History of the Earth System  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/208/)
Presents systematic analysis of formation and evolution of the Earth and its dynamic systems (lithosphere, hydrosphere, atmosphere, and biosphere). Also introduces methods of reconstructing Earth's history through use of geochronology, paleontology, and the stratigraphic records. Introduces the geological history of life evolution, mountain belts and continents, geochemical systems, climate, sea level, and the Earth's interior. Field trip required. Same as ESE 208. Additional fees may apply. See Class Schedule. Prerequisite: One of GEOL 100, GEOL 101, GEOL 103, GEOL 104 or GEOL 107; or consent of instructor.
This course satisfies the General Education Criteria for:
- Nat Sci Tech - Phys Sciences

GEOL 333  Earth Materials and the Env  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/333/)
Studies the origin, identification, and environmental significance of earth materials (minerals, rocks, and soil). Environmental topics include: mineral resources; acid mine drainage; volcanic hazards; swelling soils; engineering strength, porosity/permeability, and architectural uses of earth materials; and asbestos. One day field trip is required. Same as ESE 333. Additional fees may apply. See Class Schedule. Credit is not given for both GEOL 333 and GEOL 432. Prerequisite: CHEM 102 and CHEM 103; GEOL 100 and GEOL 110, or one of GEOL 101, GEOL 103, GEOL 104 or GEOL 107; or consent of instructor.

GEOL 350  Volcanoes  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/350/)
Explores volcanoes from a hazards standpoint by investigating case studies of volcanic disaster, evaluating important controls of volcanism such as magma viscosity and behavior of bubbles, and introducing the monitoring of active volcanoes with cutting edge methods such as seismicity, gravity, and remote sensing. Understanding the interactions among these complex parameters plays a critical role in assessing the evolution of shallow magma systems and investigating their potential for remaining stable or developing into hazardous eruptive systems, which can threaten nearby populations. Prerequisite: Any 100-level Geology course (excluding GEOL 106, GEOL 111, and GEOL 143).
This course satisfies the General Education Criteria for:
- Quantitative Reasoning II

GEOL 370  Water Planet, Water Crisis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/370/)
Same as ESE 320 and GEOG 370. See ESE 320.

GEOL 380  Environmental Geology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/380/)
Increases student understanding of environmental issues of water supply and pollution, waste disposal, energy, environmental health, global change, and land evaluation and use by emphasizing the role of geology and its relationships to human activities. Course requires a one-day field trip. Same as ENVS 380. Additional fees may apply. See Class Schedule. Credit is not given for both GEOL 380 and ESE 445. Prerequisite: CHEM 102 and CHEM 103; and GEOL 100 and GEOL 110, or one of GEOL 101, GEOL 103, GEOL 104 or GEOL 107; or consent of instructor.

GEOL 390  Individual Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/390/)
Research and individual study in geology. May be repeated. A maximum of 8 hours of GEOL 390 plus GEOL 391 may be counted toward graduation. Prerequisite: GEOL 208 or equivalent; consent of supervising faculty member; advance approval by Department of Geology.

GEOL 391  Individual Honors Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/391/)
Research and individual study in geology for honors credit. May be repeated. A maximum of 8 hours of GEOL 390 plus GEOL 391 may be counted toward graduation. Prerequisite: GEOL 208 or equivalent; consent of supervising faculty member and of departmental honors advisor; advance approval by Department of Geology.

GEOL 401  Geomorphology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/401/)
History, origin, and characteristics of land forms produced by weathering, fluvial, glacial, wind, and wave processes or by a combination of these acting upon the major kinds of geologic materials and structures. Lectures, laboratory, and field trips. Same as ESE 411. Additional fees may apply. See Class Schedule. 4 undergraduate hours. 4 graduate hours. Prerequisite: GEOL 208 or consent of instructor.

GEOL 406  Fluvial Geomorphology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/406/)
Same as GEOG 406 and NRES 406. See GEOG 406.

GEOL 407  Foundations of CyberGIS & Geospatial Data Science  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/407/)
Same as GEOG 407. See GEOG 407.

GEOL 411  Structural Geol and Tectonics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/411/)
Introduction to principles of rock deformation, stress, and strain; description and interpretation of geologic structures; study of methods for structural analysis; outline of geotectonic processes; three hours of lecture and a three-hour lab per week. Required four-day field trip. Additional fees may apply. See Class Schedule. 4 undergraduate hours. 4 graduate hours. Prerequisite: GEOL 107 or consent of instructor.
GEOL 415  Field Geology  credit: 2 to 8 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/415/)
Group field study in a prominent geologic locality; includes in-class meetings, student-led presentation, and field trip; trips run during spring break, winter break, in mid-end May or intercession; dates depend on location. Additional fees may apply. See Class Schedule. 2 to 8 undergraduate hours. 2 to 8 graduate hours. May be repeated. Prerequisite: Consent of instructor.

GEOL 416  Applied Digital Geosciences  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/416/)
Applied digital field methods. Students develop research strategies, collect remote field observations, compile unit descriptions, measure stratigraphic sections, evaluate and interpret uncertainty in data, construct geologic maps and cross sections, and interpret natural hazard maps. Uses digital topographic overlays in Google Earth and remote data imported into GIS. Designed to prepare students for successful careers in the geosciences. 3 undergraduate hours. 3 graduate hours. May be repeated up to 6 hours, in separate terms if topics vary. Prerequisite: GEOL 411, GEOL 208 or GEOL 440, and one additional 400-level geology course, or permission of the instructor.

GEOL 417  Geol Field Methods, Western US  credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/417/)
Field course based in the mountains of the western United States. Provides intensive practical experience in geologic mapping, as well as instruction in field structural, stratigraphic, geomorphologic, and petrologic analysis. Offered during summer session only. Additional fees may apply. See Class Schedule. 6 undergraduate hours. 6 graduate hours. Prerequisite: Eight hours of 400-level credit in geology, or consent of instructor; GEOL 411, GEOL 432, and GEOL 440 are recommended.

GEOL 432  Mineralogy and Mineral Optics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/432/)
Introduction to crystallography; crystal optics; structure, composition, properties, stability and geological occurrences of minerals; and mineral identification. Additional fees may apply. See Class Schedule. 4 undergraduate hours. 4 graduate hours. Credit is not given for both GEOL 333 and GEOL 432. Prerequisite: GEOL 208 and CHEM 104 and CHEM 105.

GEOL 436  Petrology and Petrography  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/436/)
Study of the minerals, compositions, textures, structures, classifications, and origins of igneous and metamorphic rocks; lectures emphasize rock forming processes (petrology), and laboratories emphasize use of the petrographic microscope (petrography). Additional fees may apply. See Class Schedule. 4 undergraduate hours. 4 graduate hours. Prerequisite: GEOL 432.

GEOL 440  Sedimentology and Stratigraphy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/440/)
Introduces dynamics of sedimentation, geology of sedimentary basins, the distribution of geologic processes through time, definition and correlation of stratigraphic units, principles of paleogeography, stratigraphy and tectonics. Additional fees may apply. See Class Schedule. 4 undergraduate hours. 4 graduate hours. Prerequisite: GEOL 208 or consent of instructor.

GEOL 450  Investigating the Earth's Interior  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/450/)
Overview of how seismology, magnetics, gravity, geodesy, and surface geology can help us understand the Earth from its surface to its core as well as its temporal evolution. Topics include the internal composition and dynamics of Earth, generation of Earth's gravitational and geomagnetic fields, driving mechanisms for tectonic plate motion, continental deformation, and surface topography. Students wanting a more quantitative treatment of geophysics should enroll in GEOL 452. 3 undergraduate hours. 3 graduate hours. Credit is not given for both GEOL 450 and GEOL 452. Prerequisite: PHYS 102 or 212, GEOL 107 or 101, or consent of instructor.

GEOL 451  Environmental Geophysics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/451/)
Discusses geophysical methods to reveal subsurface structures. Topics include seismic methods, gravity, magnetic, electrical methods, ground penetrating radar, borehole geophysics, and their applications to hydrocarbon and mineral exploration as well as engineering and environmental investigations. 4 undergraduate hours. 4 graduate hours. Several required local trips for field experiments. Prerequisite: MATH 241 and PHYS 212; or consent of instructor.

GEOL 452  Introduction to Geophysics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/452/)
Provides a broad overview of basic concepts and fundamental knowledge of the physics of the Earth. Topics include seismology, gravity, geomagnetism, Earth's thermal state, and geodynamics. Intended for undergraduates in the geophysics concentration and other students who want a more quantitative treatment of the subject than GEOL 450. 4 undergraduate hours. 4 graduate hours. Credit is not given for both GEOL 452 and GEOL 450. Prerequisite: MATH 241 and PHYS 211; or consent of instructor.

GEOL 454  Introduction to Seismology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/454/)
Introducing the basic theory of seismic wave generation and propagation and its application to Earth structure and earthquakes, including body waves, surface waves, inference of Earth structure, seismic prospecting, earthquake mechanisms, and strong ground motions. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Students participating in optional class projects receive an additional hour of credit. Prerequisite: MATH 285 or consent of instructor.

GEOL 460  Geochemistry  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/460/)
Fundamental chemical and physical concepts applied to geological processes; topics include: origin, distribution, and geochemical behavior of elements; chemical evolution of the Earth; geochemistry of natural waters and sedimentary rocks; isotope geochemistry, crystal chemistry, trace element geochemistry and organic geochemistry. 3 undergraduate hours. 3 graduate hours. Prerequisite: GEOL 101 or GEOL 107; CHEM 104; CHEM 105; MATH 220 or MATH 221; or consent of instructor.

GEOL 470  Introduction to Hydrogeology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/470/)
Introduction to the occurrence and movement of groundwater through the earth's crust; topics include aquifers and porous media, fluid flow and solute transport, well installation, groundwater contamination, recharge/discharge, irrigation and hydrocarbon resources. Same as ESE 470. 4 undergraduate hours. 4 graduate hours. Prerequisite: MATH 220 or MATH 221; senior standing is recommended; or consent of instructor.
**GEOL - Geology**

**GEOL 481**  
Earth Systems Modeling  
credit: 4 Hours.  
Same as ATMS 421, ESE 421, GEOG/GEOL 421 and NRES 422. See ATMS 421.

**GEOL 483**  
Challenges of Sustainability  
credit: 3 Hours.  
Same as ESE 482 and GEG 482. See ESE 482.

**GEOL 484**  
Paleoclimatology  
credit: 4 Hours.  
Survey of Earth's past climate variability, ranging from million-year to interannual time scales. Introduction to paleoclimate proxies including tree rings, marine and lake sediment cores, ice cores, corals, and speleothems. Focus on the drivers of climate change, major modes of climate variability, and how paleoclimate data can inform projections of future climate change. Same as IB 484. 4 undergraduate hours. 4 graduate hours. Prerequisite: Junior standing required.

**GEOL 485**  
Risk Analysis in Earth Science  
credit: 3 or 4 Hours.  
Same as ESE 486. 3 undergraduate hours. 3 graduate hours.

**GEOL 486**  
Environmental Consulting  
credit: 3 Hours.  
Survey of the fundamental science and US policy underpinning the practices of environmental consultancy. Environmental consulting is an interdisciplinary field drawing together engineers, geologists, environmental scientists, biologists, chemists, lawyers, social workers, social scientists, lobbyists and analysts. This course describes the myriad of pathways into environmental consulting and prepares students with the fundamental policy and science concepts. Subjects covered are the framework of environmental policy, chemicals of concern and their properties, environmental site assessment, site remediation, land use and ecosystem restoration as well as indoor environmental concerns. Same as ESE 486. 3 undergraduate hours. 3 graduate hours.

**GEOL 490**  
Undergraduate Research  
credit: 1 to 3 Hours.  
Students will conduct research under the direct supervision of a geology faculty member. Research topics will vary, and either a summary paper or a poster presentation at a regional or national science conference is required. 1 to 3 undergraduate hours. No graduate credit. Approved for Letter and S/U grading. May be repeated up to six hours. A maximum of 6 credit hours of GEOL 490 and GEOL 491 may be counted toward graduation. Prerequisite: GEOL 208 or equivalent; Consent of supervising faculty member; advance approval by Department of Geology. Intended primarily for sophomores and juniors; not available to freshman students.

**GEOL 491**  
Honors Undergraduate Research  
credit: 1 to 3 Hours.  
Students will conduct research for honors credit under the direct supervision of a geology faculty member. Research topics will vary, and either a summary paper or a poster presentation at a regional or national science conference is required. 1 to 3 undergraduate hours. No graduate credit. May be repeated up to 6 hours. A maximum of 6 credit hours of GEOL 490 and GEOL 491 may be counted toward graduation. Prerequisite: GEOL 208 or equivalent; Consent of supervising faculty member and of departmental honors advisor; advance approval by Dept. of Geology. Intended primarily for sophomores and juniors who are James Scholars or Chancellor's Scholars; not available to freshman students.

**GEOL 492**  
Senior Thesis  
credit: 2 to 8 Hours.  
Research in geology, with thesis; a thesis must be submitted for credit to be received. 2 to 8 undergraduate hours. No graduate credit. May be repeated. A maximum of 10 hours of GEOL 492 plus GEOL 493 may be counted toward graduation. Prerequisite: Consent of supervising faculty member.

**GEOL 493**  
Honors Senior Thesis  
credit: 2 to 8 Hours.  
Research in geology with honors thesis; a thesis must be submitted for credit to be received. 2 to 8 undergraduate hours. No graduate credit. May be repeated. A maximum of 10 hours of GEOL 492 plus GEOL 493 may be counted toward graduation. Prerequisite: Consent of supervising faculty member and of departmental honors advisor.

**GEOL 497**  
Special Topics in Geology  
credit: 1 to 4 Hours.  
Seminar or lectures in subjects not covered by regular course offerings; for advanced undergraduates and graduate students. Additional fees may apply. See Class Schedule. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated if topics vary. Prerequisite: Consent of instructor.

**GEOL 506**  
Landscape Evolution Models  
credit: 4 Hours.  
History and significance of conceptual, analog and numerical models of landscape evolution with discussion of philosophical and practical considerations for numerical modeling of coupled geomorphic, geodynamic, ecological and climatic processes. Students will develop and test numerical models of geomorphic settings of their choosing and critique recent publications presenting landscape evolution models. 4 graduate hours. No professional credit. Prerequisite: GEOL 401 and MATH 285.

**GEOL 507**  
GIS for Geology  
credit: 4 Hours.  
Common applications of geographic information science in geology including examples involving environmental geology, geomorphology, water quality, natural hazards, and structural geology. Develops practical skills using industry-standard GIS software. Case studies requiring GIS analyses will be completed to produce written reports, maps and oral presentations for a range of audiences. 4 graduate hours. No professional credit. Prerequisite: GEOL 401, GEOL 411, and GEOL 470, or consent of the instructor. Restricted to undergraduate majors with permission of instructor and M.S. and Ph.D. students in SESE (Geology, GGIS, and Atmospheric Science) only.

**GEOL 510**  
Integrated Graduate Geology  
credit: 3 Hours.  
Study of broad range of disciplines in geology including geochemistry, geophysics, and geobiology relating to the deep Earth, the crust/lithosphere and hydrosphere through readings of classic papers and presentations by current department faculty. Prerequisite: Consent of Instructor.
GEOL 511  Advanced Structural Geology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/511/)
Study of selected topics concerning rock deformation processes and products. Introduces current research literature and methods, and the
techniques of structural analysis. May include an optional field trip. Additional fees may apply. See Class Schedule. Prerequisite: GEOL 411 or
equivalent; consent of instructor.

GEOL 512  Geotectonics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/512/)
Discussion of plate tectonics theory, and nature and distribution of regional-scale earth structures, such as mountain belts; includes study of
geological and geophysical evidence that led to modern interpretations of evolution of earth's lithosphere. Field trip required. Additional fees may apply. See Class Schedule. Prerequisite: GEOL 411 or consent of instructor.

GEOL 515  Advanced Field Geology  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/515/)
Group field study in a prominent geologic locality; includes in-class meetings, student-led presentation, and field trip; trips run during spring break, winter break, mid-end May or intercession; dates depend on location. Additional fees may apply. See Class Schedule. May be repeated. Prerequisite: Consent of instructor.

GEOL 517  Data Science for the Geosciences  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/517/)
Same as ATMS 517. See ATMS 517.

GEOL 540  Petroleum Geology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/540/)
Application of geoscience to understanding the nature and occurrence of hydrocarbon resources. Emphasizes: source-rock geology and geochemistry, process of petroleum migration, nature of reservoirs and traps, exploration and drilling procedures, interpretation of seismic-reflection profiles, cross-section and sub-surface map construction, classification and tectonics of petroleum-bearing sedimentary basins, application of sequence stratigraphy to exploration, and petroleum-related environmental issues. Prerequisite: GEOL 411 and GEOL 440, or equivalent.

GEOL 552  Geodynamics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/552/)
Explores dynamic characteristics of the solid earth. Covers physical and mathematical theories of deformation occurring on the surface and within the lithosphere and mantle. Discusses observations that can help us understand past and ongoing earth dynamics; these observation include topography, gravity, heat flow, geology, mineral physics, and seismic and magnetotelluric images, as well as plate tectonics theory. Includes regular lectures and tutorials on geodynamic modeling. Prerequisite: MATH 285, PHYS 211, GEOL 452, or consent of instructor.

GEOL 553  Chemistry of Earth's Interior  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/553/)
The state of Earth's interior, emphasizing its chemical composition and mineralogy. Focuses on the interpretation of geochemical, petrologic, and laboratory geophysical data related to deep Earth composition, thermal state, structure, and evolution. Prerequisite: GEOL 450, GEOL 452, or consent of instructor.

GEOL 560  Aqueous Geochemistry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/560/)
Introduction to geochemical processes occurring in natural waters, with emphasis on the thermodynamic and kinetic controls governing chemical speciation, surface complexation, redox cycling and mineral formation and stability. Applications to a variety of soil and groundwater systems will be presented. 4 graduate hours. No professional credit. Prerequisite: CHEM 104; CHEM 105; MATH 220 or 221; GEOL 460; or equivalents; or consent of instructor.

GEOL 561  Geomicrobiology & Geochemistry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/561/)
Covers geomicrobiology as it relates to geochemistry with a primary focus on groundwater environments. Topics include energetics of microbial metabolism, influence of microorganisms on geochemistry, geochemical influences on microbial ecology, biogeochemical cycles and molecular biology tools in groundwater. Prerequisite: One year of college-level chemistry or consent of instructor required; one semester of college level biology recommended.

GEOL 562  Isotope Geology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/562/)
Introduction to the theoretical basis for isotopic fractionation in nature; survey of isotopic variations in natural materials; and application of isotopic variations to problems of geological and environmental significance. Prerequisite: Consent of instructor.

GEOL 563  Analytical Geochemistry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/563/)
Introduces principles and applications of chemical and isotopic analysis of geological materials, including x-ray spectroscopy, mass spectrometry and atomic spectroscopy. Lectures cover theory of analysis while practical laboratory based exercises focus on how instruments work and instrument operation. Individually tailored analysis project constitutes a major part of assessment. Prerequisite: Consent of instructor.

GEOL 564  Geochronology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/564/)
Geochronology encompasses study of the dates and rates of geologic processes, and development of geochemical clocks used to time these events. Covers important geochronologic methods and discusses prominent geochronology-related questions. Focus on three areas: geochronology of the crust, mantle, and core; thermochronology; Quaternary geochronology, or study of dates and rates of geologic processes affecting Earth's surface and atmosphere in recent geologic past. 4 graduate hours. No professional credit. Prerequisite: Familiarity with differential equations, introductory-level geochemistry.

Information listed in this catalog is current as of 01/2022
GEOL 565 Water Chemistry & Bioremediation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/565/)
Introduces surface water and groundwater remediation in the context of chemistry and microbiology using real-world problems and geochemical modeling software. Provides a foundational understanding of microbial metabolism as it relates to bioremediation including specific chemical reactions that are critical to contaminated water clean-up. Emphasis is placed on the integral roles of both abiotic and biotic chemical reactions that are critical to remediation of inorganic and organic contaminants. Uses geochemical modeling to apply chemical and biological principles to the analysis of remediation case-studies. 4 graduate hours. No professional credit. Prerequisite: One year of college-level chemistry or consent of instructor.

GEOL 571 Contaminant Fate and Transport  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/571/)
Quantitative study of the chemical, physical, and microbiological processes controlling the mobility, reaction, and transformation of pollutants in flowing groundwater. Prerequisite: GEOL 460 or GEOL 560 or CEE 443 or CEE 534; and GEOL 470 or GEOL 570 or CEE 457 or CEE 557; or consent of instructor.

GEOL 572 Hydrogeology with Python  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/572/)
Hydrogeologic concepts and real-world datasets are explored using the coding language Python and associated packages (SciPy, NumPy, Pandas, Matplotlib, FloPy). Data will be imported from a variety of sources, then analyzed to develop scientific models, and finally visualized. There will be hands-on experience with: 1) evaluating well tests to determine aquifer properties, 2) developing geologic and potentiometric surfaces from observed data, and 3) understanding implications of boundary conditions (surface waters, faults) on regional groundwater flow. 4 graduate hours. No professional credit. Prerequisite: GEOL 470, CEE 457, or consent of instructor.

GEOL 573 River Morphodynamics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/575/)
Same as GEOG 553. See CEE 553.

GEOL 575 Alluvial Boundary Layer Dynam  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/575/)
Application of isotope measurements in hydrogeology. Groundwater age dating, stable isotope ratios and anthropogenic radionuclides will be considered in the context of studying a broad range of hydrologic problems, from siting of nuclear waste disposal to understanding the migration of groundwater in sedimentary basins. Prerequisite: GEOL 470 or GEOL 562; CEE 457; or consent of instructor.

GEOL 579 Isotope Hydrogeology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/579/)
Application of isotope measurements in hydrogeology. Groundwater age dating, stable isotope ratios and anthropogenic radionuclides will be considered in the context of studying a broad range of hydrologic problems, from siting of nuclear waste disposal to understanding the migration of groundwater in sedimentary basins. Prerequisite: GEOL 470 or GEOL 562; CEE 457; or consent of instructor.

GEOL 591 Current Research in Geoscience  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/GEOL/591/)
Brings students up-to-date with current research over a broad spectrum of geoscience; improves students’ oral presentation skills by practice and example. Required for all graduate students in Geology. Approved for S/U grading only. May be repeated to a maximum of 12 hours. Prerequisite: Graduate standing in Department of Geology or consent of instructor.

GEOL 593 Advanced Studies in Geology  credit: 1 to 8 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/593/)
Work may be taken in the following fields: (a) general geology; Field trip fee may be required for this section. (b) engineering geology; (c) geomorphology and glacial geology; (d) clay mineralogy; (e) ground-water geology; (f) geomicrobiology; (g) geological fluid dynamics; (h) mineralogy and crystallography; (i) paleontology; (j) geochemistry; (k) geophysics; (l) petrography and petrology; (m) sedimentology; (n) stratigraphy; (o) oceanography; (p) submarine geology; (q) structural geology and geotectonics; (r) mathematical geology; (s) sedimentary petrography; (t) petroleum geology; (u) coal geology; (v) isotope geology and geochronology; (w) electron beam analysis; (x) vulcanology; (y) environmental geology; and (z) planetology. Additional fees may apply. See Class Schedule. Approved for both letter and S/U grading. May be repeated.

GEOL 598 Capstone Research Project  credit: 4 to 8 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/598/)
Supervised individual research project in applied geology as a final requirement for non-thesis master’s degree in Geology. Applies theory and knowledge from program course work in applied Geology to a project in their profession through planning, research, and the collection, analysis, modeling, assimilation, and presentation of data. Student work closely with faculty capstone advisor to determine project focus and expected outcome(s). 4 to 8 graduate hours. No professional credit. May be repeated in separate terms to a maximum of 8 graduate hours. Prerequisite: Consent of academic advisor and research advisor and acceptance of the GEOL 598 Application, prior to enrollment. Restricted to students in the non-thesis M.S. in Geology program.

GEOL 599 Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/599/)
Individual research under supervision of members of the faculty in their respective fields. Approved for S/U grading only. May be repeated.
GER - German

GER Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GER/)

Courses

GER 101  Beginning German I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/101/)
Introductory course focusing on listening comprehension, oral skills, reading, writing, and culture.

GER 102  Beginning German II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/102/)
Continuation of GER 101. Continued focus on listening comprehension, oral skills, reading, writing, and culture at an introductory level. Prerequisite: One semester of college German or equivalent.

GER 103  Intermediate German I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/103/)
Continuation of GER 102. Intermediate course focusing on listening comprehension, oral skills, reading, writing, and culture. Prerequisite: Two semesters of college German or equivalent.

GER 104  Intermediate German II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/104/)
Continuation of GER 103. Continued focus on listening comprehension, oral skills, reading, writing, and culture at an intermediate level. Prerequisite: Three semesters of college German or equivalent.

GER 191  Freshman Honors Tutorial  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/191/)
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars and Associates. May be repeated once. Prerequisite: Consent of departmental honors advisor.

GER 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/GER/199/)
Credit: 1 to 5 hours. May be repeated.

GER 200  German Literature in Trans  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/200/)
Introduction to German literature for students with no knowledge of German. Same as CWL 224. May be repeated if topics vary.

GER 201  German Popular Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/201/)
Introduction to the study of modern and contemporary German culture through examining examples of popular culture from the late-eighteenth century to the present. Looks at texts and films as a mirror and critique of modern German society. Topics to be discussed: nationalism, gender, ethnicity, minority cultures, Jewish life in Germany, German images of other cultures, etc. Course taught in English.

This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western

GER 205  Germany and Europe  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/205/)
Introduction into major issues in contemporary German society with a special focus on Germany's functioning within Europe and the European Union through novels, films, essays, interviews etc. Course taught in English.

This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

GER 211  Conversation and Writing I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/211/)
Prerequisite: GER 104 or equivalent, or consent of instructor.

GER 212  Conversation and Writing II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/212/)
Continuation of GER 211. Prerequisite: GER 211 or equivalent, or consent of instructor.

GER 250  Grimms' Fairy Tales - ACP  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/250/)
Special attention is paid to the Grimms' tales in terms of traditional narrative genres, elements of life in early modern Europe, and versions from Italy and France as well as Germany. Course is conducted in English. Same as CWL 250 and ENGL 267. Credit is not given for both GER 250 and GER 251.

Prerequisite: Completion of the Campus Composition I requirement.

This course satisfies the General Education Criteria for:
- Advanced Composition
- Humanities - Lit Arts
- Cultural Studies - Western

GER 251  Grimm's Fairy Tales in Context  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/251/)
Special attention is paid to the Grimms' tales in terms of traditional narrative genres, elements of life in early modern Europe, and versions from Italy and France as well as Germany. Course is conducted in English. Same as CWL 254 and ENGL 266. Credit is not given for both GER 251 and GER 250.

This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western

Information listed in this catalog is current as of 01/2022
GER 260  The Holocaust in Context - ACP credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/260/)
Jewish contributions to German Literature from 1200 to the present day. Includes trips to the University Library's Rare Book Room. Same as CWL 271 and ENGL 268. Credit is not given for both GER 260 and GER 261. Prerequisite: Completion of the Campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Lit Arts
Cultural Studies - Western

GER 261  The Holocaust in Context credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/261/)
Examines cultural representations of the Holocaust in literature, film, and critical essays. Same as CWL 273, ENGL 269, and JS 261. Credit is not given for both GER 261 and GER 260.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

GER 270  Sexuality and Literature credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/270/)
Examination of the historical contexts in which sexuality has been debated during the past three centuries, and to what extent sexuality is perceived differently in diverse cultures. Part one will look at the Western tradition, especially Germany. Part two will shift focus to the non-Western world, especially to the colonial history of Indonesia. Same as CWL 272 and GWS 270.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

GER 299  Study Abroad credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/GER/299/)
Lectures, seminars, and practical work in German language, literature, civilization, and in other academic areas appropriate to the student's course of study. Approved for letter and S/U grading. May be repeated in the same term to a maximum of 18 hours; may be repeated in separate terms to a maximum of 36 hours. Prerequisite: GER 104 or equivalent; 2.75 overall average; 3.0 average in German courses.

GER 320  German for Business credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/320/)
Introduces German business language as used in basic operations in retail/wholesale, export/import, banking transactions. Prerequisite: GER 211 or consent of instructor.

GER 321  German for Economics credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/321/)
German language as used in professional contexts involving economic matters: texts and documents relating to forms of enterprises and their financing, to macroeconomic structures of domestic and foreign trade, and to reports on the economies of German-speaking countries. Prerequisite: GER 320 or consent of instructor.

GER 331  Intro to German Literature credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/331/)
Introductory study of representative works (prose, drama, lyric) by outstanding German, Austrian, and Swiss writers of the modern period. Prerequisite: Two years of college German or equivalent.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

GER 332  German Literature and Culture credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/332/)
In German. Seminar in the literature and culture of German-speaking countries since 1750. Topic varies. Format: lecture; discussion; film screenings. Prerequisite: GER 331 or equivalent.

GER 385  Politics of the European Union credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/385/)
Same as EURO 385, FR 385, and PS 385. See PS 385.

GER 396  Special Topics German Studies credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/396/)
Introductory study in such topics as individual authors, selected literary movements or periods, modes of inquiry in literary study, minor genres, subgenres, extraliterary influences, etc. Same as CWL 328. May be repeated to a maximum of 6 hours if topics vary. Prerequisite: Reading fluency in German beyond the fourth-semester college level.

GER 401  Global Issues in German credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/401/)
Introduction to global issues in German media. Taught in German. 3 undergraduate hours. 3 graduate hours. Prerequisite: GER 212 or equivalent.

GER 403  German-English Translation: Theory & Practice credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/403/)
Theory and practice of translating technical, commercial, scientific, and literary texts from German into English and vice versa. Same as TRST 403. 3 undergraduate hours. 3 graduate hours. Prerequisite: GER 401 or consent of instructor.

GER 405  History of Translation credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/405/)
Same as CLCV 430, CWL 430, ENGL 486, SLAV 430, SPAN 436, and TRST 431. See SLAV 430.

GER 418  Language & Minorities in Europe credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/418/)
Same as EURO 418, FR 418, ITAL 418, LING 418, PS 418, SLAV 418, and SPAN 418. See FR 418.

Information listed in this catalog is current as of 01/2022
GER 420 German Cultural History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/420/)
A general introduction to German culture from the pre-Christian period to the twenty-first century, focusing on the tension between forces of history and modernization in German culture. Course materials include literary and philosophical texts, film, painting, and music. Particular attention will be paid to the role of art in society. 4 undergraduate hours. 4 graduate hours. Prerequisite: One 200-level German course and GER 331; or consent of instructor.

GER 460 Principles of Language Testing  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/460/)
Same as EIL 460, EPSY 487, FR 460, ITAL 460, PORT 460, and SPAN 460. See EIL 460.

GER 465 German Linguistics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/465/)
Linguistic analysis of Germanic languages in historical, geographic, and social context. Taught in German or English, depending on topic. 3 undergraduate hours. 3 graduate hours. May be repeated in separate terms, as topics vary, to a maximum of 6 hours. Prerequisite: When the course is taught in English, there are no prerequisites. When the course is taught in German, the recommendation is GER 212 or consent of the instructor.

GER 470 Middle Ages to Baroque  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/470/)
Literary, thematic, cultural, and bibliographical analysis of the major authors, works, genres, and movements in German literature from 750-1720. Same as MDVL 470. 3 undergraduate hours. 3 graduate hours. May be repeated in separate terms to a maximum of 6 hours if topics vary.

GER 471 Enlightenment to Romanticism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/471/)
Literary, thematic, cultural, and bibliographical analysis of the major authors, works, genres, and movements in German literature from 1720 to 1830. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 6 graduate hours if topic varies.

GER 472 Realism to Expressionism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/472/)
Literary, thematic, cultural, and bibliographical analysis of the major authors, works, genres, and movements in German literature from 1830 to 1920. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 6 graduate hours if topic varies.

GER 473 1920s to Today  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/473/)
Literary, thematic, cultural, and bibliographical analysis of the major authors, works, genres, and movements in German literature from 1920 to the present. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 6 graduate hours if topic varies.

GER 489 Theoretical Foundations of SLA  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/489/)
Same as FR 481, ITAL 489, LING 489, PORT 489, and SPAN 489. See LING 489.

GER 491 Honors Senior Thesis  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/491/)
Intended primarily for candidates for honors in German, but open to other seniors. 1 to 4 undergraduate hours. No graduate credit. May be repeated to a maximum of 4 hours. Prerequisite: Senior standing; consent of instructor.

GER 493 German Cinema I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/493/)
Focus on the rise of German film from its earliest beginnings until 1945. Same as MACS 493. 3 undergraduate hours. 3 graduate hours.

GER 494 German Cinema II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/494/)
Study of German film from 1945 until the present. Same as MACS 494. 3 undergraduate hours. 3 graduate hours.

GER 496 Special Topics German Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/496/)
Intensive study of restricted topics in German language, literature, and culture. 3 undergraduate hours. 3 graduate hours. May be repeated as topics vary to a maximum of 9 undergraduate hours or 8 graduate hours. Prerequisite: Three years of college German or equivalent.

GER 500 Readings in German Grads I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/500/)
Introduction to the reading of German texts in the sciences and the humanities. Credit is not given towards a graduate degree.

GER 501 Readings in German Grads II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/501/)
Designed for graduate students preparing for the German reading requirements for the Ph.D. Credit is not given towards a graduate degree. Prerequisite: GER 500 or equivalent.

GER 510 Introduction to Graduate Study  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/510/)
Bibliography and methodology of the study of the Germanic languages and literatures, with particular regard to German literature and Germanic linguistics; introduction to scholarship in general and the German profession in particular, including the modes and methods of scholarly endeavor.

GER 511 Applied Literary Translation I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/511/)
Same as CWL 511, EALC 511, SLAV 501, and TRST 501. See TRST 501.

GER 512 Applied LiteraryTranslation II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/512/)
Same as CWL 512, EALC 512, SLAV 502, and TRST 502. See TRST 502.

GER 515 Middle High German  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/515/)
Same as MDVL 515.

GER 520 History of the German Language  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/520/)
Internal and external history of German from prehistoric times to the present. Prerequisite: GER 465 or equivalent.

GER 530 Old High German  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/530/)
Grammar and interpretation of the oldest literary documents. Same as MDVL 530. Prerequisite: GER 465.
GER 570  Modern Critical Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/570/)
Comprehensive introduction to the foundational thinkers, texts, and schools that orient contemporary work in the humanities, from German Idealism to Cultural Studies, Queer Theory, and Postcolonial Theory, among others. The course is intended primarily for beginning graduate students, but also for those who feel they have not covered the development of critical theory in a systematic way. The course will include significant discussion of figures including: Kant, Hegel, Marx, Nietzsche, Freud, Adorno, Lacan, Derrida, Foucault, Said, Spivak. Among the topics we will address are: history, the subject, aesthetics, value, power, language, ideology, materiality, gender, sexuality, race, and technology/media studies. 4 graduate hours. No professional credit.

GER 571  Medieval German Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/571/)
Seminar in selected genres, themes, or authors of the Middle Ages. Epic, lyric, and didactic works in prose and verse are read in the original language. Same as MDVL 571. 4 graduate hours. No professional credit. May be repeated to a maximum of 12 hours if topics vary.

GER 572  Early Modern German Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/572/)
Seminar in selected genres, themes, or authors of the early modern period (1500-1700). 4 graduate hours. No professional credit. May be repeated to a maximum of 12 hours if topics vary.

GER 573  18thC German Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/573/)
Seminar in selected genres, themes, or authors of the eighteenth century. 4 graduate hours. No professional credit. May be repeated in separate semesters to a maximum of 12 hours if topics vary.

GER 574  19thC German Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/574/)
Seminar in selected genres, themes, or authors of the nineteenth century. 4 graduate hours. No professional credit. May be repeated in separate semesters to a maximum of 12 hours if topics vary.

GER 575  20thC German Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/575/)
Seminar in selected genres, themes, or authors of the twentieth century. 4 graduate hours. No professional credit. May be repeated in separate semesters to a maximum of 12 hours if topics vary.

GER 576  Open Seminar in German Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/576/)
Seminar in literary phenomena (such as movements, genres and forms, relations, themes and types, interdisciplinary studies, women's studies) that go beyond the confines of a particular century. 4 graduate hours. No professional credit. May be repeated in separate semesters to a maximum of 12 hours if topics vary.

GER 580  Classroom Language Acquisition  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/580/)
Same as EIL 580, FR 580, ITAL 580, PORT 580, and SPAN 580. See SPAN 580.

GER 582  German Language Teaching  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/582/)
In-depth exploration of fundamental concepts of teaching German at the college level; designed for Teaching Assistants. Topics include teaching approaches, lesson planning, vocabulary, grammar, listening, speaking, reading, writing, culture, assessment, instructional technology, and curriculum design. 4 graduate hours. No professional credit.

GER 584  Theories in Second Language Acquisition  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/584/)
Same as CI 584, EALC 584, EPSY 563, FR 584, ITAL 584, LING 584, PORT 584, and SPAN 584. See SPAN 584.

GER 588  Sem Second Lang Learn  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/588/)
Same as EALC 588, FR 588, ITAL 588, LING 588, PORT 588, and SPAN 588. See SPAN 588.

GER 593  Research in Special Topics  credit: 1 to 8 Hours. (https://courses.illinois.edu/schedule/terms/GER/593/)
May be repeated to a maximum of 8 hours.

GER 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/GER/599/)
Approved for S/U grading only. May be repeated.
GLBL - Global Studies

GLBL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GLBL/)

Courses

GLBL 100 Intro to Global Studies credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/100/)
Foundation course for understanding a range of contemporary issues and learning to analyze them from multiple disciplinary perspectives. Students consider globalizing trends within themes of wealth and poverty; population, cultures, and human rights; environment and sustainability; and governance, conflict, and cooperation. Course objectives are to enhance knowledge of human cultures, their interactions and impacts on the world; develop skills for successfully negotiating realities of contemporary societies; and promote values for global learning, diversity, and sustainable futures.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci
Cultural Studies - Western

GLBL 118 Natural Disasters credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/118/)
Same as ESE 118 and GEOL 118. See GEOL 118.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

GLBL 130 Resistance Movements credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/130/)
Is it possible for a group of people to have secure human rights when the same rights are being denied to large groups of people based on their identity? This course takes a comparative survey approach to social movements of U.S. groups seeking to overcome discrimination across political, economic, and social spheres. The cases covered take place over the course of centuries and represent a wide range of racial, ethnic, and gender groups, but they also contain many similar ideological features rooted in social movement literature. A close study of these movements demonstrates that human rights are not freely recognized or bestowed, but must be achieved by struggle.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

GLBL 199 Undergraduate Open Seminar credit: 0 to 6 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/199/)
See Class Schedule for topics. Approved for Letter and S/U grading. May be repeated in the same or separate terms to a maximum of 6 hours.

GLBL 200 Foundations of Research credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/200/)
Introduction to the foundations of interdisciplinary social science research. Topic include understanding the purpose for research, identifying researchable issues, finding evaluating and using sources effectively, recognizing methods associated with different types of data and disciplines, and writing a literature review. Prepares students for course-based research papers and advanced research methods courses. Guest faculty present their Global Studies-relevant research as students (b)log their own research interests.
This course satisfies the General Education Criteria for:
Quantitative Reasoning II
Social Beh Sci - Soc Sci

GLBL 201 Energy Systems credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/201/)
Same as NPRE 201. See NPRE 201.

GLBL 220 Governance credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/220/)
Gateway course into the Governance thematic area for Global Studies majors providing an introduction to important themes, problems and approaches to global governance in a series of issue areas, including security, economics, migration, and the environment. Covers the historical development of the international system as well as contemporary controversies. Case studies are used to explore the strength and weaknesses of current governance approaches, and students will conduct independent research into existing structures. Prerequisite: GLBL 100.

GLBL 221 Geographies of Global Conflict credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/221/)
Same as G 221. See GEOG 221.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

GLBL 225 Career Development: Internships credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/GLBL/225/)
Teaches students with global studies academic interests how to identify internships and service-learning learning opportunities relevant to their major. Students prepare application materials, conduct informational interviews, participate in mock job interviews, explore networking strategies, and create a career narrative that represents their academic interests and skills. Prepares students on what to expect from their internships and how to develop and apply leadership skills.

GLBL 228 Terrorism, Past and Present credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/228/)
Same as HIST 257. See HIST 257.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
GLBL 270  Introduction to Global Markets and Society  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/GLBL/270/)
Introduction to global markets and economic systems and their evolving relationship with societies in the global North and South. Presents interdisciplinary perspectives on business structures and conduct with emphasis on (1) the philosophical foundations of economic systems; (2) international business networks and technological innovation; (3) business environments in non-Western settings; (4) global workforce composition and divisions of labor; (5) the relationships between business, development and the environment; and (6) international organizations that support the spread of global business.

GLBL 272  Language and Culture in Turkey  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/GLBL/272/)
Same as ANTH 272, SAME 272, and TURK 270. See TURK 270.
This course satisfies the General Education Criteria for:
Cultural Studies - Non-West

GLBL 280  Nuclear Weapons & Arms Control  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/GLBL/280/)
Same as PHYS 280. See PHYS 280.
This course satisfies the General Education Criteria for:
Advanced Composition

GLBL 296  Global St Foundation Seminar  credit: 1 Hour.  (https://courses.illinois.edu/schedule/terms/GLBL/296/)
Examination of current controversies and larger ethical issues in today's global society. Topics could include: immigration, global environmental debates, and population issues. May be repeated in the same or separate terms to a maximum of 3 hours if topics vary.

GLBL 298  Global Studies Seminar Abroad  credit: 3 or 6 Hours.  (https://courses.illinois.edu/schedule/terms/GLBL/298/)
Seminars introduce students to aspects of globalization through a case study of a particular location abroad. On campus, students explore historical and contemporary aspects of the location abroad to prepare for their field visit. Abroad, students engage with local resources and people to better understand how the local site contributes to and is impacted by relevant global processes under focus. Course activities will include a field site visit abroad, discussions, lectures, short essays, student presentation, and final projects. Topics vary according to site location and instructor expertise. May be repeated in separate terms to a maximum of 6 hours.

GLBL 328  First Person Global  credit: 1 Hour.  (https://courses.illinois.edu/schedule/terms/GLBL/328/)
A writing workshop for students who have studied abroad and want to deepen their understanding of globalization and improve their nonfiction prose by writing about their own experiences. Writing in the first person raises fundamental questions about identity, power, cultural understanding, and representation. Students will read and discuss first person literary nonfiction by contemporary writers and chronicle their own global encounters in ethical, insightful, and creative ways. Prerequisite: A study abroad experience.

GLBL 340  Global Health: Policy & Governance  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/GLBL/340/)
Identifies central and emerging global health issues and analyzes them through the lenses of governance, policy and gender. Focuses on structural, policy, and institutional perspectives on global health, with emphasis on how decisions are influenced and made. Prerequisite: GLBL 240.

GLBL 350  Poverty in a Global Context  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/GLBL/350/)
Examines global poverty in the context of international development debates an practice. Despite global commitments (for example, the Millennium Development Goals), decades of research, and new and innovative policies, the "solution" to widespread and lasting poverty alleviation remains elusive. Class will define poverty and how it is measured, considered who is poor and why some people are more vulnerable to the negative effects of poverty than others, and examine what causes some countries to remain poor. Prerequisite: GLBL 250 or consent of instructor.

GLBL 356  Comparative Political Economy  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/GLBL/356/)
Same as PS 356. See PS 356.
GLBL 357  Ethnic Conflict  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/357/)
Same as PS 357. See PS 357.
This course satisfies the General Education Criteria for:
Advanced Composition

GLBL 392  Int Diplomacy and Negotiation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/392/)
Examines the complexities of international diplomacy and negotiations among states and other actors. Focuses on three main subject areas: negotiation analysis, applied negotiation, and the interaction of practical considerations that affect negotiations. Utilizes theoretical, case-based, and active-learning approaches during the semester as topics are explored in detail. Issues and topics include security, public health, economic development, human rights, and the environment.
This course satisfies the General Education Criteria for:
Advanced Composition

GLBL 403  Women in Muslim Societies  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/403/)
Same as ANTH 403, GWS 403, HIST 434, REL 403, and SAME 403. See REL 403.

GLBL 440  Global Health: Interventions & Evaluations  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/440/)
Focuses on the process of crafting a solution and evaluation plan related to a specific global health problem identified by students. Requires students to work in teams to integrate content learning on global health with applied project design skills developed in this course. 3 undergraduate hours. No graduate credit. Prerequisite: GLBL 340. Junior standing or higher required.

GLBL 450  Poverty Interventions and Evaluation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/450/)
Over the last few decades a wide range of strategies and initiatives have been applied to alleviate poverty in developing countries. The record of these initiatives is mixed. While millions of people may have moved out of poverty, over a billion remain persistently impoverished. We will examine a range of anti-poverty approaches that have been implemented and evaluate their effectiveness. Students will gain a familiarity with the interventions and an understanding of the techniques used to evaluate them. 3 undergraduate hours. No graduate credit. Prerequisite: GLBL 250 and 350 or consent of instructor.

GLBL 480  Energy and Security  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/480/)
Same as NPRE 480 and PS 480. See NPRE 480.

GLBL 481  Writing on Technol & Security  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/481/)
Same as NPRE 481. See NPRE 481.
This course satisfies the General Education Criteria for:
Advanced Composition

GLBL 483  Seminar on Security  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/GLBL/483/)
Same as NPRE 483. See NPRE 483.

GLBL 492  UG Research Assistance  credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/492/)
Assist Global Studies and program-affiliated faculty in ongoing research. Topics and nature of assistance vary. Capstone paper required. 0 to 3 undergraduate hours. No graduate credit. May be repeated in separate terms up to 6 hours. No more than 6 hours may be counted toward completion of the Global Studies major from any combination of GLBL 492 and other independent study, internship, or research assistance coursework. This includes coursework from other departments on campus or during study abroad. Prerequisite: GLBL 200; evidence of adequate preparation for such study; consent of faculty member supervising the work; and approval of Global Studies program. Global Studies majors only. Not available to freshman. Instructor approval required.

GLBL 494  Research Methods I  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/GLBL/494/)
Optional Capstone experience for Global Studies students. Students will develop research, communication and presentation skills and develop a proposal for an independent research project, goals and timeline. The proposal will include a literature review and methods section for their final project. Topics include: research approaches, design and implementation, as well as methods, analysis and ethics of data collection. 1 undergraduate hour. No graduate credit. Prerequisite: GLBL 200.

GLBL 495  Research Methods II  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/GLBL/495/)
Second semester of the optional Capstone experience for International/Global Studies students. Designed to guide the interpretation of the data, development of conclusions and implications. In addition to the final project, students will learn how to write a paper abstract and conference proposal, as well as acquire presentation skills. 1 undergraduate hour. No graduate credit. Prerequisite: GLBL 494.

GLBL 499  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/499/)
Selected reading and research in Global Studies. See schedule for current topics. 3 undergraduate hours. 1 to 4 graduate hours. May be repeated, if topics vary, in the same or separate terms to a maximum of 6 undergraduate or 8 graduate hours. Prerequisite: GLBL 100 or six hours of global studies, anthropology, social geography, political science, sociology, or economics; consent of instructor.

GLBL 500  Global Society  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/500/)
Students will examine three propositions: (1) the existence of a global society; (2) the flaws of its principal, global institutions -- the state, markets, and democracy; and (3) absent their reform, whether the global society is at risk. Prerequisite: Instructor Approval Required.

GLBL 501  Perspectives on Global Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/501/)
Provides graduate students in a variety of fields with an understanding of key global concepts and methods, and introduces them to different perspectives on globalization and transnational social relations. 4 graduate hours. No professional credit. Prerequisite: Graduate Standing.
GLBL 520  Institutions of Global Governance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/520/)
Provides students with a conceptual and practical understanding of the scholarly and societal debates that relate to the interdisciplinary study of
global governance and the challenges faced in achieving fair and sustainable outcomes. Required for students in the Global Governance concentration
of the Master’s of Global Studies. 4 graduate hours. No professional credit. Prerequisite: GLBL 500 or consent of instructor.

GLBL 570  Methodologies of Global Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/570/)
Explores research methodologies within the social sciences and humanities that are often used for research concerning global and globalized
problems. Examines both qualitative and quantitative methods with the aim of introducing students to tools and techniques that can be used in
professional settings. Focuses on modeling, GIS, statistics, and other quantitative methods and also examines qualitative research methods. Rather
than mastery of any one technology or method, this course seeks to build conversance with a variety of methods. 4 graduate hours. No professional
credit.

GLBL 572  Global Studies Practicum  credit: 1 to 8 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/572/)
Open to students in each of the concentrations for the MS in Global Studies degree. Awards credit for professional field experience combined with
faculty-driven inquiry and reflection. Designed to provide students with experience of professional-level duties in an approved organization, in the form
of internship, work, or volunteer service. This opportunity allows students to integrate the theory and knowledge of course content with the application
of principles and practices in a work environment. 1 to 8 graduate hours. No professional credit. May be repeated in separate terms up to a maximum
8 graduate hours. Prerequisite: GLBL 500 or consent of instructor.

GLBL 573  Global Studies Project  credit: 1 to 8 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/573/)
Available to students in each of the concentrations for the MS in Global Studies. Students will consult with a Global Studies faculty member approved
by their program advisor to select and develop a project on a topic of their interest. Students and their faculty advisors will agree on the topic and
scope of the project, which take the form of a policy analysis and proposal, system-level or conceptual design studies, feasibility studies, experimental
work, detailed numerical simulations, or detailed theoretical analyses. 1 to 8 graduate hours. No professional credit. May be repeated in separate
terms up to a maximum 8 graduate hours. Prerequisite: GLBL 500 or consent of instructor.

Information listed in this catalog is current as of 01/2022
GMC - Germanic

GMC Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GMC/)

Courses

GMC 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/GMC/199/)
May be repeated.

GMC 562  Germanic Linguistics  credit: 4 to 8 Hours. (https://courses.illinois.edu/schedule/terms/GMC/562/)
Varying topics dealing with problems in diachronic and synchronic Germanic linguistics. May be repeated if topics vary. Prerequisite: Consent of instructor.
GRK - Greek

GRK Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GRK/)

Courses

GRK 101 Elementary Greek I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/101/)
Introduces ancient Greek (both classical and koine), including the reading of simple prose. Same as REL 111.

GRK 102 Elementary Greek II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/102/)
Continuation of GRK 101. Grammar and reading in classical and koine Greek. Same as REL 112. Prerequisite: GRK 101.

GRK 199 Undergraduate Open Seminar credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/GRK/199/)
May be repeated.

GRK 201 Classical & Koine Greek I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/201/)
Readings in classical Greek prose, and narrative and epistolary New Testament texts. Same as REL 200. Prerequisite: GRK 102.

GRK 202 Classical & Koine Greek II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/202/)
Continuation of GRK 201. Further readings in classical Greek prose, and narrative and epistolary New Testament texts. Same as REL 204. Prerequisite: GRK 201 or equivalent.

GRK 251 Elementary Modern Greek I credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/GRK/251/)
Same as GRKM 201. See GRKM 201.

GRK 252 Elementary Modern Greek II credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/GRK/252/)
Same as GRKM 202. See GRKM 202.

GRK 401 Survey of Greek Literature credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/401/)
Advanced level readings in Ancient Greek literature. 3 undergraduate hours. 4 graduate hours. May be repeated if topics vary. Prerequisite: GRK 202 or equivalent.

GRK 403 Intermediate Modern Greek I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/403/)
Same as GRKM 403. See GRKM 403.

GRK 404 Intermediate Modern Greek II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/404/)
Same as GRKM 404. See GRKM 404.

GRK 411 Greek Prose Composition credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GRK/411/)
Practice in the writing of Greek prose. 3 undergraduate hours. 3 graduate hours. Prerequisite: GRK 201 or equivalent.

GRK 491 Readings in Greek Literature credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/491/)
Readings in authors or special topics chosen by the instructor from the entire extant literature in Greek. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated. Prerequisite: GRK 401 or equivalent.

GRK 492 Senior Thesis credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/492/)
Thesis and honors. Open to candidates for distinction in Greek. 2 to 4 undergraduate hours. No graduate credit. Prerequisite: Senior standing and consent of Classics Honors Program.

GRK 493 Independent Reading credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/493/)
1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated to a maximum of 8 undergraduate hours or 12 graduate hours. Prerequisite: GRK 401 and consent of instructor.

GRK 511 Advanced Composition credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/GRK/511/)
Practice in writing continuous Greek prose, with special attention to stylistic problems.

GRK 520 Proseminar credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/520/)
Alternating poetry and prose, concentrates on a major author from one of the following areas: epic, history, lyric poetry, oratory, drama, or philosophy. Areas normally follow this sequence in successive years. May be repeated to a maximum of 20 hours if topics vary. Prerequisite: GRK 491 or equivalent.

GRK 531 Special Disciplines credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/531/)
Variable content course concentrating on an area such as comparative grammar, epigraphy, metrics, palaeography, or papyrology. Same as LAT 531. May be repeated if topics vary. Prerequisite: GRK 491 and LAT 491, or equivalent.

GRK 580 Greek Seminar credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/580/)
Research on special problems of Greek literature; required of all majors in classical philology. May be repeated if topics vary. Prerequisite: A Greek proseminar.

GRK 595 Intro to Classical Studies credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/595/)
Introductory survey for graduate students in classics; prepares students for work at the graduate level and surveys basic bibliography and methodology. Same as LAT 595. Prerequisite: Graduate standing in classics.

Information listed in this catalog is current as of 01/2022
GRK 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/GRK/599/)
Guidance in writing theses for advanced degrees. Approved for S/U grading only. May be repeated.
GRKM - Modern Greek

GRKM Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GRKM/)

Courses

GRKM 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/GRKM/199/)
May be repeated in separate terms.

GRKM 201  Elementary Modern Greek I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/GRKM/201/)
Develops elementary proficiency in spoken and written Modern Greek, and introduces elements of cultural knowledge. Familiarizes beginning students with the Greek alphabet and modern Greek pronunciation rules, and introduces Modern Greek morphology and syntax. Emphasizes listening comprehension, reading skills, and basic conversational skills. Online language laboratory and internet assignments required. Same as GRK 251.

GRKM 202  Elementary Modern Greek II  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/GRKM/202/)
Develops elementary proficiency in spoken and written Modern Greek, including familiarity with elements of cultural knowledge and Modern Greek morphology and syntax. Emphasizes listening comprehension, reading skills, writing and conversational abilities. Online language laboratory and internet assignments required. Same as GRK 252. Prerequisite: GRKM 201.

GRKM 403  Intermediate Modern Greek I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRKM/403/)
Advances students’ knowledge of Modern Greek grammar and vocabulary and enables them to converse in Modern Greek by exposing them to different uses of Modern Greek in day-to-day communication, and to expand their knowledge of Modern Greek culture. Online language laboratory and internet assignments required. Same as GRK 403. 4 undergraduate hours. 4 graduate hours. Prerequisite: GRKM 202 or consent of the instructor.

GRKM 404  Intermediate Modern Greek II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRKM/404/)
Consolidates students’ knowledge of Modern Greek grammar and vocabulary and enables them to converse in Modern Greek by exposing them to different uses of Modern Greek in day-to-day communication. Also offers an introduction to aspects of Modern Greek literature. In addition to listening comprehension and reading skills, the course emphasizes writing and conversational abilities. Online language laboratory and internet assignments required. Same as GRK 404. 4 undergraduate hours. 4 graduate hours. Prerequisite: GRKM 403 or consent of instructor.

GRKM 453  Advanced Modern Greek I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GRKM/453/)
Practice to enable students to attain conversational fluency and to become independent users of the language who deal effectively and with a good deal of accuracy with familiar communication situations. 3 undergraduate hours. 3 graduate hours. Prerequisite: GRKM 404 or consent of instructor.

GRKM 454  Advanced Modern Greek II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRKM/454/)
Continued practice to enable students to improve their fluency and use Modern Greek effectively in a variety of contexts. 4 undergraduate hours. 4 graduate hours. Offered Spring terms only. Prerequisite: GRKM 453 or consent of instructor.

Information listed in this catalog is current as of 01/2022
GS - General Studies

GS Class Schedule (https://courses.illinois.edu/schedule(DEFAULT/DEFAULT/GS/)

Courses

GS 101 Exploring General Studies  credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/GS/101/)
An introduction to the opportunities and resources available to the "undeclared" students enrolled in the Division of General Studies at Illinois. Introduces students to the breadth of diverse fields of study available, prepares DGS students for myriad potential careers, and helps foster a sense of collaboration and engagement through campus orientation, study, and project-based assignments. May not be repeated.

GS 102 Preparation for 21st Century Challenges  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/GS/102/)
In this seminar, first-year students in the DGS Enrichment Experience Program will learn to develop their strengths, interests, and transferable skills while investigating current and evolving societal challenges. Through class discussion, readings, and a semester-long project, students will explore a variety of topics, including leadership, creativity, research and service. Students will also learn how to craft their own college experience by understanding the many opportunities available at Illinois. Prerequisite: Restricted to first-year students in the DGS Enrichment Experience Program with an 1DEE attribute.

GS 198 DGS Honors Seminar  credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/GS/198/)
Approved for both letter and S/U grading.

GS 199 Undergraduate Open Seminar  credit: 0 to 5 Hours. (https://courses.illinois.edu/schedule/terms/GS/199/)
Approved for both letter and S/U grading. May be repeated for a maximum of 6 hours if topics vary.

GS 299 DGS Study Abroad  credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/GS/299/)
Provides credit toward the undergraduate degree for study at accredited foreign institutions or approved for overseas programs. Final determination of credit is made upon the student’s completion of the work. (Summer session, 0 to 8 hours). Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 44 hours, all of which must be earned within one calendar year. Prerequisite: One year of residence at UIUC, good academic standing, and prior approval of the Division of General Studies.
GSD - Game Studies and Design

GSD Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GSD/)

Courses

GSD 101 Introduction to Game Studies and Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GSD/101/)
This broad survey course will provide students across campus an introduction to interdisciplinary game studies, covering both historical/social perspectives and game design. It will explore humanities, social science understandings of play, and the social contexts from which our games and gaming practices arise, as well as the development and consequences of gaming cultures. This course will serve as a broad introduction to issues covered in greater depth in upper-level courses available for students pursuing an Undergraduate Minor in Game Studies & Design.

GSD 102 Introduction to the Videogame Industry  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GSD/102/)
Designed to introduce individuals to the Video Game Industry, its history, current status, processes and future. It includes a survey of the positions and information about how to prepare to enter the industry.

GSD 103 The Basics of Game Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GSD/103/)
Will introduce you to the tools and principles of game design, as well as the history of game studies and the maker movement. You will learn some of the introductory tools and techniques for rapid prototyping along with exploring games, their history, impacts, and design.

GSD 199 Individual Study  credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/GSD/199/)
Individual study in a subject related to game studies & design not covered in normal course offerings. Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Consent of Instructor. Restricted to Freshmen and Sophomores.

GSD 399 Advanced Individual Study  credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/GSD/399/)
Advanced individual study in a subject related to game studies & design not covered in normal course offerings. Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Consent of Instructor. Restricted to Juniors and Seniors.

GSD 405 Introduction to the Video Game Development Process  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GSD/405/)
The emphasis of this course is understanding the video game development process as seen in current Game Studios. The course will focus on key elements of the process including the development timeline, scheduling, prototyping, iteration, QA, game builds and player research. The goal will be to take a design document from a catalog of designs that have already been created and implement one or more of them using the game development process. 3 undergraduate hours. 3 graduate hours. Credit is not given for GSD 405 and INFO 490 DC "The Video Game Dev Process" sections.

GSD 409 Design & Programming of Narrative Games & Simulations  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GSD/409/)
Introduction to the narrative design process for the authoring of text-based digital games and simulations. You will become proficient in Inform 7, a programming language and design system for parser-based interactive fiction (IF). By the end of the semester you will have developed a game or literary work of IF and made a substantive contribution to a collaborative project. No prior programming knowledge is required for students to be successful in the course. Students will be expected to bring a laptop to class. Please note that this course teaches design and programming techniques for "parser-based" interactive fiction, and does not cover Twine, or other hyper-text based interactive narrative systems. 3 undergraduate hours. 4 graduate hours. Credit is not given for GSD 409 and INFO 490 JP, JPU or JPG "Design & Prog Text Based Games" sections.

GSD 500 Colloquium in Game Studies  credit: 0 to 1 Hours. (https://courses.illinois.edu/schedule/terms/GSD/500/)
This course is designed to spark interdisciplinary discussion on a range of methodological issues in academic game studies research. Once weekly sessions will be led by invited guests drawn from a variety of disciplinary units, offering students insight into the theoretical and methodological approaches of Game Studies. Students are required to take this course once for credit. Graduate students enrolled in the Graduate Minor will be expected to return to the seminar as a guest speaker near the end of their program, to share their work. 0 to 1 graduate hours. No professional credit. Approved for S/U grading only. Can be taken for 1 credit only once.

Information listed in this catalog is current as of 01/2022
GWS - Gender and Women's Studies

GWS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GWS/)

Courses

GWS 100  Intro Gender & Women's Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/100/)
Interdisciplinary introduction to the study of gender, women, and sexuality. Addresses issues such as social experience, representation and popular culture, femininities and masculinities, family structure, education, employment, economics, literature and the arts, religion, history, and technology. Explores interrelationships of race, ethnicity, sexuality, gender, ability, and age from a transnational perspective. Same as HDFS 140 and SOC 130. This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

GWS 103  Black Women in the Diaspora  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/103/)
Same as AFRO 103 and AFST 103. See AFRO 103.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

GWS 150  Contemp Women's Issues  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/150/)
Explores the most recent debate and research related to contemporary issues which affect primarily women. Reviews issues related to sexual and domestic violence, gender socialization, feminization of poverty, women's health, sexual harassment, work and family, politics, and media influences from a multi-discipline and multi-cultural perspective.

GWS 199  Undergraduate Open Seminar  credit: 0 to 5 Hours. (https://courses.illinois.edu/schedule/terms/GWS/199/)
Approved for letter and S/U grading. May be repeated.

GWS 201  Race, Gender & Power  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/201/)
Presents multiple windows into perceptions and perspectives upon gender, sexuality, power, identity and culture, and their multiple intersections. The concept of race in its many manifestations is used to examine relationships of self to society, state institutions and cultures. By paying greater attention to race and power, nuanced understandings of the way the gender systems are maintained, patrolled and formed will be examined. Topics may include: film, media, technology, culture, religion, identities, sexualities. Same as SOC 201.
This course satisfies the General Education Criteria for:
Cultural Studies - Western

GWS 202  Sexualities  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/202/)
Surveys sexualities from multiple perspectives, standpoints, disciplines, and theories. How have different cultures, different people, and different viewpoints understood, shaped, and interpreted sex, sexualities and genders? Course places the concept of sexuality at its core to examine citizenship, education, reproduction, science, tourism, urban/rural space, and politics. Topics may include: gender, race, identities, power, transformation, reproduction. Same as SOC 202.
This course satisfies the General Education Criteria for:
Cultural Studies - Western

GWS 204  Gender in Gaming  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/204/)
Examines the history of gender in videogames, focusing on how movements like #GamerGate, #RaceFail09, internet bullying, doxing and trolling emerged as the coordinated effort to consolidate and maintain videogames and geek culture as the domain of masculinity and whiteness. We also consider how the embodied elements of play as well as the spatial logics of games function to promote and resist representation, and we will end by looking at how games designed by women and people of color are transforming how and why we play games. Same as ENGL 277 and MACS 204.

GWS 215  US Citizenship Comparatively  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/215/)
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

GWS 218  Intro to Social Issues Theatre  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/218/)
Same as THEA 218. See THEA 218.

GWS 225  Women in Prehistory  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/225/)
Same as ANTH 225. See ANTH 225.

GWS 226  Black Women Contemp US Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/226/)
Same as AFRO 226 and SOC 223. See AFRO 226.

GWS 230  Latina/o Genders & Sexualities  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/230/)
Same as LLS 230. See LLS 230.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

GWS 235  Race and the Politics of Reproduction  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/235/)
Same as LLS 235. See LLS 235.
GWS 240 Gender & Sexuality in Greco-Roman Antiquity credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/240/)
Same as CLCV 240 and CWL 262. See CLCV 240.
This course satisfies the General Education Criteria for:
     Humanities - Lit Arts
     Cultural Studies - Western

GWS 245 Wives, Workers and Witches in Pre-Modern Europe credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/245/)
Same as HIST 245 and MDVL 245. See HIST 245.
This course satisfies the General Education Criteria for:
     Humanities - Hist Phil
     Cultural Studies - Western

GWS 250 Gender and Representation credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/250/)
Focusing primarily on gender, race, sexuality, and their intersections, this introductory course analyzes the politics of representation drawn from popular culture, painting, television and film, literature, music, religion, and new media.
This course satisfies the General Education Criteria for:
     Social Beh Sci - Soc Sci

GWS 255 Queer Lives, Queer Politics credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/255/)
Investigates queer lives in relation to dominant ideas about "deviance" and "equal rights." Drawing on case studies, the course investigates questions related to nation, race, economy, bodies, drugs, health, identities, agency and action as they intersect with contemporary queer politics. Students will learn conceptual and qualitative methods to investigate issues related to queer lives. Same as SOC 255.

GWS 258 Sex in Nature and Culture credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/258/)
Same as ANTH 258. See ANTH 258.

GWS 262 Women's Lives credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/262/)
Same as ANTH 262. See ANTH 262.
This course satisfies the General Education Criteria for:
     Social Beh Sci - Soc Sci

GWS 263 History of Medicine in the United States credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/263/)
Same as HIST 263. See HIST 263.
This course satisfies the General Education Criteria for:
     Humanities - Hist Phil
     Cultural Studies - US Minority

GWS 270 Sexuality and Literature credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/270/)
Same as GER 270 and CWL 272. See CWL 272.
This course satisfies the General Education Criteria for:
     Humanities - Lit Arts

GWS 272 Women and Politics credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/272/)
Same as PS 272. See PS 272.

GWS 275 The Politics of Fashion credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/275/)
Clothing is a medium for fashioning identities from commodities, and it is hardly surprising that political and social tensions are embodied in its fabrications. The politics of dress indicates inseparable links between cultures, aesthetics, and politics, as demonstrated in debates about Muslim practices of veiling, the role of clothing in colonialism's "civilizing" mission, immigrant and "third world" sweatshop labor, fashion policing and subcultural style, and the fashion and modeling industries. Clearly manifest throughout these politics is the role of gender, race, nation, and sexuality, as relations of power and as critical factors for social life and creative imagination. This course requires weekly written reflections on the required readings; a written midterm; and a final project, which can be either a research paper or a creative project. The course also requires in-class participation (which will include pop quizzes, group discussion, and other exercises) and one individual or group presentation. The course thus provides students an opportunity to develop their critical skills in both oral and written form. Same as AAS 275.
This course satisfies the General Education Criteria for:
     Cultural Studies - US Minority

GWS 280 Women Writers credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/280/)
Same as ENGL 280. See ENGL 280.

GWS 281 Women in the Literary Imagination credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/281/)
Same as ENGL 281. See ENGL 281.

GWS 282 Feminist and Queer Activisms credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/282/)
From anti-lynching campaigns to Black Lives Matter, Wages for Housework to domestic worker organizing, ACT UP to queer migration politics, this course examines the history of feminist, queer, and anti-racist movements. We will pay particular attention to women of color theorists and activists, and the ways in which they develop interdisciplinary and intersectional approaches to activism and advocacy. Same as AAS 282 and LLS 282.
This course satisfies the General Education Criteria for:
     Cultural Studies - US Minority

Information listed in this catalog is current as of 01/2022
GWS 285  US Gender History to 1877  credit: 3 Hours.  
Same as HIST 285. See HIST 285.
This course satisfies the General Education Criteria for:  
Humanities - Hist Phil  
Cultural Studies - US Minority

GWS 286  US Gender History Since 1877  credit: 3 Hours.  
Same as HIST 286. See HIST 286.
This course satisfies the General Education Criteria for:  
Humanities - Hist Phil  
Cultural Studies - US Minority

GWS 287  African-American Women  credit: 3 Hours.  
Same as AFRO 287 and HIST 287. See HIST 287.
This course satisfies the General Education Criteria for:  
Humanities - Hist Phil  
Cultural Studies - US Minority

GWS 288  Global Islam and Feminisms  credit: 3 Hours.  
Examines gender and sexuality in Muslim-majority societies and diasporas. Introduces students to transnational feminist theories and methodologies in order to examine key issues and debates. Topics include constructions of femininity and masculinity, imperialism and neo-imperialism, Islamic feminisms and exegesis, nationalisms, war and violence, sexuality, diaspora and transnationalism, and race and racialization. Same as AAS 288.
This course satisfies the General Education Criteria for:  
Cultural Studies - Non-West

GWS 295  Beginning Topics GWS  credit: 3 Hours.  
Approved for letter and S/U grading. May be repeated in the same term to a maximum of 9 hours; may be repeated in separate terms to a maximum of 12 hours.

GWS 305  Theories of Race, Gender, and Sexuality  credit: 3 Hours.  
Same as AAS 300 and LLS 305. See AAS 300.
This course satisfies the General Education Criteria for:  
Advanced Composition

GWS 315  War, Memory, and Cinema  credit: 3 Hours.  
Same as AAS 315. See AAS 315.

GWS 320  Gender & Latina/o Migration  credit: 3 Hours.  
Same as LLS 320 and SOC 321. See LLS 320.

GWS 325  Lesbian/Queer Media Cultures  credit: 3 Hours.  
Discusses how various LGBT/Q communities were consolidated or drawn together by print and invented in the very acts of writing, distributing, purchasing, and reading print artifacts. Students examine early homophile publications, the rise of presses dedicated to LGBT/Q literature, independent bookstores and distribution networks, as well as the contemporary world of zines, blogs, chatrooms, fanfiction, and online journals, to see the intersection of sexuality, community, identity, and the print sphere. Students will learn how to historicize the rise of various LGBT/Q subcultures through a long history of print and how to navigate and understand the gregarious contemporary world of online publishing and social networking. Prerequisite: Previous course in GWS recommended.

GWS 333  Memoir & Autobiography  credit: 3 Hours.  
Explores the phenomenon of autobiography in the contemporary world. Students will read theories of autobiography, and ask questions about how writing about the self is gendered, and how representations of the self fare in the outside world. An important aspect of the course will be examinations of how changing media such as film, television talk shows and the Internet shape these representations. Students will be assigned to read and make a presentation on one of the supplementary texts of autobiographies chosen from authors in the First and Third worlds. Same as ENGL 333.

GWS 335  Film, TV, and Gender  credit: 3 Hours.  
Examines the history and theory of film, television, and their interrelationship through one or more specific case studies. Topics may include: film and feminist movements; girl films; queer TV; gender, sport and TV. Focuses attention on gender and related issues such as race, ethnicity, sexuality, age, ability and disability, class, and nationality. Addresses issues of representation, narrative, genre, industry, audience, exhibition, media convergence, new and mobile media, and social space. Same as MACS 335.

GWS 337  Interrogating Masculinities  credit: 3 Hours.  
Explores the social construction of gender as it pertains to masculinities in conjunction with analyses of race, class, gender, ability, and sexuality. Masculinities, in its various forms, shapes and lives of both women and men and this course will examine the construction, reproduction, and impact of masculinities on the institutions of politics, education, work, religion, sports, family, media, and the military to name a few. Paying careful attention to the conjunctions between materiality and culture, this course will interrogate how masculinities shape individual lives, groups, nationalisms, organizations, and institutions and will analyze the ways in which power functions within local transnational contexts. Above all, this course offers a road map for forging new, progressive models of masculinity.
GWS 340 Gender, Relationships & Society credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/340/)
Same as HDFS 340 and SOC 322. See HDFS 340.

GWS 343 Criminalization and Punishment credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/343/)
Same as AAS 343, AFRO 343, AIS 343, and LLS 343. See LLS 343.

GWS 345 Digital & Gender Cultures credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/345/)
This interdisciplinary course uses the lens of gender critique and pairs it with social activism to provide students analytical tools to engage with, reshape, and create digital cultures. Examines recent research and public policies related to the gendered, raced, and classes dimensions of digital cultures and inequality; the broad range of labor issues embedded in the growing income disparity related to digital cultures; the various ways that digital inequality has been defined by public policy, sociologists, and activists, and real examples of collective activism and social change related to emerging technologies. Same as INFO 345, MACS 345, and SOC 345.

GWS 350 Feminist & Gender Theory credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/350/)
Interdisciplinary survey of feminist and gender theory. Traces developments in feminist theory and LGBT/Q approaches and explores contemporary debates.

GWS 355 Beauty and Culture credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/355/)
Examines beauty and culture, in particular how tropes, ideologies, and politics bolster the construction of beauty as an aesthetic value. Looks at the ways in which beauty is imagined, visualized, narrated, naturalized, reproduced, privileged, and contested through various venues such as art, performance, philosophy, media, history, and popular culture. Attention will be given to race, class, gender, sexuality, and the implications thereof.

GWS 356 Sex & Gender in Popular Media credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/356/)
Same as MACS 356. See MACS 356.
This course satisfies the General Education Criteria for:
Cultural Studies - Western

GWS 357 Literatures of the Displaced credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/357/)
Same as AAS 357, AIS 357, ENGL 357, and LLS 357. See LLS 357.

GWS 360 Women and the Visual Arts credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/360/)
Same as ARTH 360. See ARTH 360.

GWS 361 Gender and Women in East Asia credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/361/)
Same as EALC 361. See EALC 361.
This course satisfies the General Education Criteria for:
Advanced Composition

GWS 363 Gender, Health & Pop Culture credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/363/)
Aspects of popular culture, including television, magazines, newspapers, social networking sites, and internet sources to name a few, are ways that health information is disseminated. Students will examine how we define health and understand disease as related to popular culture. Discusses how people resist or reinforce these messages about health, well being, fitness, and diet. Also discusses how understandings of race, sexuality and class affect the ways that we think about sickness, health and constructions of gender.

GWS 366 Feminist Disability Studies credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/366/)
Explores the complex relationship between gender and disability. Approaching disability as a social and political category rather than a strictly medical one, we will ask: how is the language of disability used to produce and police a variety of gender, sexual, and racial identities as non-normative? How might debates over medicine, technology, and the concept of "natural" pit gender and disability against one another? How have feminist, queer, and transgender scholarship and activism engaged disability? Prerequisite: One of the following: GWS 100, GWS 201, GWS 202.

GWS 370 Queer Theory credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/370/)
Traces the development of queer theory as a mode for understanding queer studies methodologies and the changing intellectual landscape of key issues in the field. As part of the course, students will review key concepts and theoretical schools of thought, navigating important debates guiding the field. Theories will engage questions of the social and cultural through topics including race, gender, nation, family, history, identity formation, sexuality, the state, and capital. Same as SOC 320. Prerequisite: GWS 100, GWS 201, GWS 202, or consent of instructor.

GWS 376 Children and Youth Literature credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/376/)
Same as CWL 376, EURO 376, and SCAN 376. See SCAN 376.

GWS 378 Fairy Tales & Gender Formation credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/378/)
Discusses how femininity and gender formation are related through fairy tales. As children grow they are taught the difference between male and female roles. One of the main ways this instruction takes place is through the pleasurable media of fairy tales in books, poems, and more recently, films. Sleeping Beauty, Snow White, Beauty and the Best, and the Little Mermaid, among others, will be examined to understand how sexual identity is constructed differently in different cultures, and how issues such as rape and incest are addressed within the narratives. The readings explore the ways that fairy tales work to express psychological reactions to maturation while conditioning both characters and readers to adopt specific social roles in adulthood. Same as ENGL 378.

Information listed in this catalog is current as of 01/2022
GWS 380  Black Women Hist & Cultures  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/380/)
Interdisciplinary study of black women's multiple histories and varied cultures including black women from North America, Africa, and the Caribbean.
Same as AFRO 380. Prerequisite: AFRO 100 or GWS 100 or GWS 250 or consent of instructor.
This course satisfies the General Education Criteria for:
Cultural Studies - Non-West

GWS 382  Black Women & Popular Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/382/)
Explores how Black women have been and are currently portrayed in popular media, such as television, internet, movies, and popular mediums such as magazines, popular fiction, newspapers, and other cultural phenomenon. Examines what these portrayals reveal about Black women's role in society and how black women as consumer and participants respond to these stereotypes, and create alternative oppositional images.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

GWS 383  Hist of Blk Women's Activism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/383/)
Same as AFRO 383 and HIST 383. See AFRO 383.

GWS 385  Transnational Sexualities  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/385/)
Investigates the ways in which sexual identities change as national contexts change, as borders are imagined, valued, and crossed, and as definitions of race, gender, and religion shift. Interrogates how national and transnational identities (at home and abroad), modernities, histories, and colonial and global narratives are built on ideas of racialized sexualities, and as such, is particularly interested in the study of queer diaspora. Importantly, this course utilizes transnational feminist frameworks for re-thinking issues related to sexuality, immigration, nation-building, race and gender. Areas of inquiry include imperialism, immigration, war, tourism and globalization. Same as HIST 385. Prerequisite: GWS 100, GWS 201 or GWS 202 or consent of instructor.

GWS 387  History of Sexuality in U.S.  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/387/)
Explores a wide variety of sources to understand how notions of sexuality have emerged and been contested at key moments in U.S. history. Our guiding questions include: How have "official" or governing discourses of sexuality (in law, medicine, religions, science) been formulated? In turn, how have "ordinary" people understood and practiced their sexuality? How has the meaning of particular sexual practices changed over time? How have ideas about race, gender, and/or class been embedded within the discourse of sexuality at different moments in U.S. history? What methods of reading and interpretation are most useful for the historical study of sexuality? Also emphasizes skills such as critically analyzing primary sources within their historical context; interpreting different types of primary sources; locating, understanding, and evaluating scholarly secondary sources; and presenting historical arguments, based on both primary and secondary sources. Same as HIST 387.

GWS 390  Individual Study  credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/390/)
Special topics not treated in regularly scheduled classes. Approved for letter and S/U grading. May be repeated to a maximum of 6 hours if topics vary.
Prerequisite: One course in Gender and Women's Studies; consent of instructor.

GWS 392  Chicanas&Latinas: Self&Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/392/)
Same as LLS 392 and SOC 392. See LLS 392.
This course satisfies the General Education Criteria for:
Advanced Composition

GWS 395  Intermediate Topics GWS  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/395/)
Approved for letter and S/U grading. May be repeated in the same term to a maximum of 9 hours; may be repeated in separate terms to a maximum of 12 hours.

GWS 397  Sexuality in Modern Europe  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/397/)
Course Information: Same as HIST 397. See HIST 397.

GWS 399  GWS Internship  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/399/)
Directed internship experience for GWS students. Students will complete course requirements in addition to holding a semester long internship. Students must have consent of the Internship Coordinator. Approved for Letter and S/U grading. Prerequisite: GWS major or minor; junior or senior standing and completion of six hours of coursework in GWS, or consent of the instructor.

GWS 403  Women in Muslim Societies  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/403/)
Same as ANTH 403, GLBL 403, HIST 434, REL 403 and SAME 403. See REL 403.

GWS 409  Women's Health  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/409/)
Same as CHLH 409. See CHLH 409.

GWS 415  Africana Feminisms  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/415/)
Same as AFRO 415 and AFST 420. See AFRO 415.

GWS 417  Leading Post-Perform Dialog  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/417/)
Same as THEA 417. See THEA 417.

GWS 418  Devising Social Issues Theatre  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/418/)
Same as THEA 418. See THEA 418.

GWS 421  Sex Role Theory in Counseling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/421/)
Same as EPSY 421. See EPSY 421.
GWS 424  Gender & Race in Contemp Arch  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/424/)
Same as ARCH 424. See ARCH 424.

GWS 432  Gender Communication  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/432/)
Same as CMN 432. See CMN 432.

GWS 435  Commoditying Difference  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/435/)
Same as AAS 435, AFRO 435, LLS 435, and MACS 432. See LLS 435.

GWS 442  Body, Culture & Society  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/442/)
Same as KIN 442. See KIN 442.

GWS 445  Latina Literature  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/445/)
Same as LLS 442 and SPAN 442. See LLS 442.

GWS 450  Topics in Bodies and Genders  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/450/)
Same as CWL 450. See CWL 450.

GWS 453  Sex and Science  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/453/)
Same as HIST 453. See HIST 453.

GWS 454  Social Work with Women  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/454/)
Same as SOCW 455. See SOCW 455.

GWS 459  Gender, Sex, & Postcoloniality  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/459/)
Explores the relationship of imperialism, sexuality, and race through the lens of postcolonial theory. Same as HIST 459. 3 undergraduate hours. 4 graduate hours. Prerequisite: GWS 100 or GWS 250 and GWS 350 or GWS 370; or consent of instructor.

GWS 462  Hip Hop Feminism  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/462/)
Explores how hip hop has shaped the culture, aesthetics, experiences, and perspectives of an emergent generation of artists, scholars, and writers with several aims: 1) To challenge systemic social inequalities. 2) To articulate new visions of justice that depend on the power young people possess. To better understand how and why the relationship between hip hop and feminism is coherent, meaningful, and compelling, students will become familiar with artists working within and beyond various elements of hip hop (rap, graffiti, emceeing, deejaying, etc.), social critics concerned with documenting hip hop's cultural practices, and critical educator (broadly defined). 3 undergraduate hours. 4 graduate hours.

GWS 464  Theories & Theologies of Liberation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/464/)
Examination of theories and theologies of liberation, from American liberation theologians and Islamic feminisms and anticolonial movements to Third World liberation struggles, the Gay Liberation Front, and the Black Freedom movement. Uses an expansive feminist lens to discuss these histories, theories, and theologies in relation to issues of violence/nonviolence; religion/secularity; art and aesthetics; gender, sex, and sexuality; and power. Same as AAS 464, ANTH 464, and REL 464. 3 undergraduate hours. 4 graduate hours. Prerequisite: GWS 100 or GWS 250 and GWS 350 or GWS 370; or consent of instructor.

GWS 465  Race, Sex, and Deviance  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/465/)
Same as AAS 465, AFRO 465, and LLS 465. See LLS 465.

GWS 467  Locating Queer Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/467/)
Our goal is to learn different methods for researching "queer culture," with a special focus on the local context. Explores two research methods in depth: history and ethnography. Students will produce their own original research based on genuine gaps in existing knowledge. Provides an opportunity to learn both received knowledge about queer culture, as well as that which we do not yet know. By the end of this course, the class will collectively produce new knowledge about queer culture using local stories. Same as HIST 468. 3 undergraduate hours. No graduate credit.

GWS 470  Transgender Studies  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/470/)
What are the issues and politics related to transgender and transsexual identities? Students will examine and critically evaluate historical and contemporary debates that contest normative male/female binaries and traditional categorizations of sexuality. The course moves beyond these initial inquiries into gender theory to consider the effects of institutional discourses produced through stage and civil society. Taught with particular attention given to questions of race, national formations, medical, and legal discourses. Areas of inquiry may include gender theory, transnational identities, gendered and racial performances, medical and psychological diagnoses, violence, the law, and the Prison Industrial Complex. Through these topics, students will be asked to consider important questions over political and legal representation, autonomy, the rights of citizenship, and the practice of everyday life. 3 undergraduate hours. 4 graduate hours. Prerequisite: One course in Gender and Women's Studies at the 200- or 300-level, or consent of instructor.

GWS 475  Queering Legal Cultures  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/475/)
Exploration of the many forms of address that legal language can take, and how these legal forms affect subjects who are barely legible before the law. We will look at state laws, supreme-court decisions, policy publications, literature and social commentaries, fictional texts - as mobbed through social media platforms - to try to understand how queer (as verb, noun, adjective) emerges as a way in and out of legal spaces. Topics will include historical formations, current debates, and landmark cases in both national and transnational contexts. 3 undergraduate hours. 4 graduate hours.

GWS 478  Sex, Power and Politics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/478/)
Examines representations of the relationship between sex, power, and subjectivity and how they have shaped feminism. Explores critical approaches to feminist analyses of women's oppression and debates about sexuality, including issues such as consent, rape and prostitution. Same as PS 413. 3 undergraduate hours. 4 graduate hours. Prerequisite: One course in Gender and Women's Studies at the 200- and 300-level or consent of instructor.
GWS 490  Individual Study  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/490/)
Supervised reading and research in Gender and Women's Studies chosen by the student with instructor approval. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 6 hours. Prerequisite: Two courses in Gender and Women's Studies at the 200-400 levels; or junior standing; or consent of instructor.

GWS 495  Advanced Topics GWS  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/495/)
3 undergraduate hours. 4 graduate hours. Approved for letter and S/U grading. May be repeated in the same term to a maximum of 9 undergraduate hours or 12 graduate hours; may be repeated in separate terms to a maximum of 12 undergraduate or 12 graduate hours.

GWS 498  Senior Seminar  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/498/)
Considers the relationship between theory and research in Women's Studies. Reviews and examines the key issues of feminist scholarship. Provides students with the methodological knowledge and opportunity to carry out a research project. 3 undergraduate hours. No graduate credit. Prerequisite: Senior standing and enrollment as a major in Gender and Women's Studies, or consent of instructor.
This course satisfies the General Education Criteria for:
Advanced Composition

GWS 501  Prob in Comp Women's Hist  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/501/)
Same as HIST 503. See HIST 503.

GWS 508  Feminism, Gender and Sexuality  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/508/)
Same as ANTH 508. See ANTH 508.

GWS 512  Gender Relations & Intl Dev  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/512/)
Same as SOCW 581 and WGPP 581. See WGPP 581.

GWS 540  Intersectional Pedagogies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/540/)
Examines the link between political movements and pedagogies, including feminist, critical, critical multicultural, critical race, and queer pedagogies. Students will analyze pedagogical theories and implement practical techniques and strategies. 4 graduate hours. No professional credit. Prerequisite: Graduate standing and previous coursework in Gender and Women's Studies; or consent of instructor.

GWS 550  Feminist Theories & Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/550/)
Interdisciplinary study in diverse feminist theories and methods produced in and across various disciplines. Contemporary philosophical and theoretical developments in the study of gender to specific histories of class, race, ethnicity, nation and sexuality. Prerequisite: At least one graduate-level humanities course or consent of instructor.

GWS 560  Feminist Media Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/560/)
Same as MDIA 560. See MDIA 560.

GWS 561  Race and Cultural Critique  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/561/)
Same as AAS 561, AFRO 531, ANTH 565, and LLS 561. See AAS 561.

GWS 575  Transnational Feminisms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/575/)
Study of the terms, methodologies and theoretical interventions of transnational feminist studies. Transnational is a term that calls attention to circuits of political, economic, and social phenomena across the boundaries of nation-states. Emerging as a response to the shortcomings of overarching, economic theorizations of globalization as well as Western versions of "global feminism," transnational feminist studies is an interdisciplinary critical field that draws from the vocabularies of postcolonial studies, poststructuralism, Third World feminisms, race and ethnic studies feminism in self-reflexive and context-specific ways. Examines recent reconceptualizations of relations between woman and nation; gender and globalization; feminist theory and practice.

GWS 576  Children and Youth Literature  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/576/)
Same as CWL 586, EURO 576, and SCAN 576. See SCAN 576.

GWS 580  Queer Theories & Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/580/)
Interdisciplinary study in queer theories and methods produced in and across various disciplines. Contemporary philosophical and theoretical developments in queer studies specific to histories of class, race, ethnicity, nation and sexuality. Prerequisite: Graduate standing.

GWS 581  Topics in Queer Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/581/)
Interdisciplinary graduate seminar on a current topic in the field of queer studies. May be repeated in separate terms to a maximum of 8 hours if topics vary. Prerequisite: Graduate standing and previous coursework in women's or gender studies, or consent of instructor. GWS 580 or previous coursework in queer studies is recommended.

GWS 590  Topics in GWS  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/590/)
May be repeated. Prerequisite: Graduate standing and previous coursework in women's or gender studies, or consent of instructor.
HDES - Human Dimensions of Env Sys

HDES Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HDES/)

Courses

HDES 595  Res Sem Human Enviro  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HDES/595/)
Trains students to propose, conduct, communicate, and evaluate research in the human dimensions of environmental systems. Participants present and receive feedback on work in progress in formal seminars and in small multidisciplinary groups. May be repeated to a maximum of 20 hours.
Prerequisite: HDES Scholar status or consent of instructor.

HDES 598  Special Topics in HDES  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDES/598/)
Special topics in the human dimensions of environmental systems (HDES), with a focus on contemporary environmental and sustainability issues. An introduction course for graduate students who wish to explore the interdisciplinary studies offered through the Program in HDES. Approved for both letter and S/U grading. May be repeated in the same term to a maximum of 8 hours as topics vary. May be repeated in separate terms to a maximum of 12 hours as topics vary.

Information listed in this catalog is current as of 01/2022
# HDFS - Human Dev and Family Studies

</table>

Information listed in this catalog is current as of 01/2022
HDFS 225  Close Relationships  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/225/)
Initiation, development, and dissolution of committed relationships with same- or opposite-sex partners within familial, cultural, and societal contexts. 
Prerequisite: Sophomore standing.
This course satisfies the General Education Criteria for: 
Social Beh Sci - Soc Sci

HDFS 259  Motor Development and Control  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/259/)
Same as KIN 259. See KIN 259.
This course satisfies the General Education Criteria for: 
Social Beh Sci - Beh Sci

HDFS 261  Self-Help Group Dev & Process  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/261/)
Defines nature and use of self-help groups in different contexts. Includes role of professionals in group formation and maintenance and develops group planning and management skills. Includes practice in group formation and visits to working groups in the community.

HDFS 262  Motor Develop, Growth & Form  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/262/)
Same as KIN 262. See KIN 262.
This course satisfies the General Education Criteria for: 
Social Beh Sci - Beh Sci

HDFS 263  Diversity in Recreation, Sport, and Tourism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/263/)
Same as KIN 230 and RST 230. See RST 230.
This course satisfies the General Education Criteria for: 
Cultural Studies - US Minority

HDFS 290  Intro to Research Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/290/)
Introduction to quantitative and qualitative research methods used to study human development and families. Provides experience conducting observations and survey interviews, evaluating research results, and writing research reports. Prerequisite: HDFS 105.
This course satisfies the General Education Criteria for: 
Advanced Composition

HDFS 294  Research Internship  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/294/)
Students work one-on-one or in a small group with a faculty member engaged in research. Students must arrange this research experience with a professor prior to registering for the course. A list of possible research projects can be found at: http://hdfs.illinois.edu/undergraduate/research-opportunities. Once you have found a project that interests you, email the professor and ask to participate in his or her research opportunity. Approved for Letter and S/U grading. May be repeated in the same or separate terms to a maximum of 12 hours. Prerequisite: Consent of instructor; not open to students on probation.

HDFS 295  Independent Study or Research  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/295/)
Individual research, special problems, thesis, development and/or design work under the supervision of an appropriate member of the faculty. May be repeated in the same or separate terms to a maximum of 12 hours. Credit is not given for more than a total of 12 hours of Independent Study (IND) courses applying to a degree in ACES.

HDFS 301  Infancy & Early Childhood  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/301/)
Reviews development during the first five years of life, including cognitive, social, and biological aspects of early development; includes first-hand observation of young children to supplement and extend lecture material. Prerequisite: HDFS 105 or PSYC 216.

HDFS 305  Middle Childhood  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/305/)
Systematic overview of the normative changes that occur in the physical, cognitive, social, emotional, and moral domains during the middle childhood period as well as current social issues that confront many of today's children (such as school violence or poverty). Prerequisite: HDFS 105.

HDFS 310  Adult Development  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/310/)
Focuses on adult development as a means for understanding the quality of family relationships and community functioning. Uses current theoretical approaches to understand adult development and evaluate each approach's usefulness for adults in the contexts of family, health, work, leisure and challenges over the life course. Prerequisite: HDFS 105 or equivalent.

HDFS 314  Introduction to Aging  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/314/)
Same as CHLH 314, RST 314, PSYC 314, and REHB 314. See CHLH 314.
HDFS 322  US Latina and Latino Families  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/322/)
Explores a variety of topics and provides a basic overview of issues relevant to the understanding of Latina/Latino families and children in the United States. Examines recent demographic changes in the U.S. population and their implications for the socialization and education of Latina/Latino children and their families. Course content looks at such areas as who are Latina/Latino families; how are those families different from others; what are the similarities and differences within Latinas/Latinos; how does acculturation and language fit into our understanding of these families; and what are the implications for the education success of current and future Latina/Latino children. Same as LLS 322.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

HDFS 324  African Amer Families in Film  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/324/)
Same as AFRO 382. See AFRO 382.

HDFS 340  Gender, Relationships & Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/340/)
Explores the production of gender through social interaction within families and other specific interpersonal and institutional relationships that change over time. Gender is also linked to race, class, ability, and sexuality. Same as GWS 340 and SOC 322. Prerequisite: HDFS 105 or SOC 100.

HDFS 341  Asian American Youth  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/341/)
Same as AAS 346. See AAS 346.

HDFS 361  Creative Dance for Children  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/361/)
Same as ARTE 350 and DANC 350. See DANC 350.

HDFS 379  HDFS Study Abroad Experience  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/379/)
International experience in areas related to human development and family studies involving foreign travel and study without enrollment in another institution. Experience must be planned and approved in advance via consultation with an HDFS faculty member. May be repeated in separate terms to a maximum of 8 hours if topics vary.

HDFS 396  Honors Research or Thesis  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/396/)
Individual research, special problems, thesis, development and/or design work under the direction of the Honors advisor. May be repeated in separate terms. Independent Study courses are limited to 12 hours total applying to a degree in ACES. Prerequisite: Junior standing, admission to the ACES Honors Program.

HDFS 398  Undergraduate Seminar  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/398/)
Special topics in a field of study directly pertaining to subject matter in human development and family studies. May be repeated in separate terms to a maximum of 12 hours. Prerequisite: Junior standing.

HDFS 401  Socialization and Development  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/401/)
Presents and uses theories of socialization to evaluate and analyze current issues and socialization practices; delineates historical and philosophical trends in socialization, and discusses the implications of these trends for generating social policy affecting the developing individual. 4 graduate hours. Prerequisite: HDFS 301 and HDFS 290.

HDFS 404  Gerontology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/404/)
Same as CHLH 404. See CHLH 404.

HDFS 405  Adolescent Development  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/405/)
Examines paths of experience and individual development within the family, the peer group, and other domains through this socially-defined stage of life. 3 undergraduate hours. 3 graduate hours. Prerequisite: HDFS 105 or PSYC 100.

HDFS 406  Child Dev Class Supervision  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/406/)
Examines the relationships between child development theories and developmentally appropriate and individualized instruction techniques, discipline and guidance strategies, and the role of the family in child development programs. Emphasizes program supervision. Includes direct experience with children and families in a laboratory setting. 5 undergraduate hours. 5 graduate hours. Prerequisite: HDFS 206, HDFS 220, and junior standing.

HDFS 408  Hospitalized Children  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/408/)
Examines the developmental needs and stress reactions of children and families in a hospital/medical setting; examines responses of family and staff facing terminal illness and the death of a family member; familiarizes students with general hospital procedures, medical terms, and illnesses; introduces the role of Child Life programs and the Child Life Specialist. 3 undergraduate hours. 4 graduate hours. Prerequisite: HDFS 105 or consent of instructor.

HDFS 420  Inequality, Public Policy, and U.S. Families  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/420/)
Examines influence of economic, demographic and social changes on families in the U.S. and on the opportunities of individual families. Explores interactions of social class, poverty, race and gender and their effects on family life and on child and adolescent development. Includes critical analysis of health care, employment, immigration, family leave, welfare and other social policy options that affect family life and well-being. 3 undergraduate hours. 4 graduate hours. Prerequisite: HDFS 120.

HDFS 424  Racial and Ethnic Families  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/424/)
Same as AFRO 421, EPOL 410, and EPS 421. See EPOL 410.
HDFS 425  Family Stress and Change  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/425/)
Applies family theories (e.g. family systems, family stress, multigenerational developmental perspectives) to understand how families change and adapt to stress across time and diverse contexts. Attention is given to assessing intergenerational family dynamics and working with individuals and families to reduce negative patterns. 4 undergraduate hours. 4 graduate hours. Prerequisite: HDFS 120 and HDFS 290.

HDFS 426  Family Conflict Management  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/426/)
Examines processes of conflict management in family and community disputes; emphasizes negotiation and mediation as modes of dispute settlement. 3 undergraduate hours. 4 graduate hours. Prerequisite: HDFS 120.

HDFS 444  LGBT Indiv, Fam & Community  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/444/)
Examines contemporary sexual and gender minority experiences in the context of societal inequality. Of particular interest to students pursuing educational, human service, legal, and/or health profession careers. Same as CHLH 444. 3 undergraduate hours. 4 graduate hours. Prerequisite: SOC 100 or an introductory course on gender issues.

HDFS 450  Practicum in HDFS  credit: 1 to 12 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/450/)
Supervised on- or off-campus learning experience related to human development or family studies, supervised in cooperation with an appropriate agency or institution. Not available to students on probation. 1 to 12 undergraduate hours. 1 to 12 graduate hours. May be repeated for up to 12 hours in separate semesters. Only 6 hours of the course may be applied to the total required for a graduate or undergraduate degree in Human Development and Family Studies. Prerequisite: Human Development and Family Studies major; junior standing.

HDFS 459  Physical Activity & Aging  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/459/)
Same as KIN 459. See KIN 459.

HDFS 461  Family Life Education  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/461/)
Examines the theory and practice of designing family life education programs for children, youth, and/or families. Introduces strategies for translating science-based information into learning experiences. Family life education topics such as parenting (including managing difficult children and children with special needs), relationships (dating, marriage), family transitions (becoming new parents, divorce, & stepfamilies), and health and well-being (obesity, stress) will be reviewed. Principles of effective program design will be explored along with online program delivery skills. 3 undergraduate hours. No graduate credit. Credit is not given for both HDFS 461 and HDFS 561. Prerequisite: HDFS 120 or consent of instructor.

HDFS 494  Applied Research Methods  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/494/)
Participation in faculty-supervised research as a member of a transdisciplinary team investigating questions related to the health and well-being of children and families. Students propose their own research questions and present findings developed from data gathered by the team. 1 to 4 undergraduate hours. No graduate credit. May be repeated to a maximum of 6 hours in the same term or to a maximum of 12 hours in separate terms. Prerequisite: Consent of instructor.

HDFS 499  Seminar  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/499/)
Special topics in human development, family studies, or community development. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated in separate terms to a maximum of 12 hours.

HDFS 500  Professional Development  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/HDFS/500/)
Overview of issues in professional development in the field of human development and family studies; focuses on both academic and applied career paths. Approved for S/U grading only. May be repeated to a maximum of 4 hours.

HDFS 501  Human Development Theories  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/501/)
Overview of basic theories and theoretical perspectives on human development; focuses on major concepts, issues, and questions in the field.

HDFS 503  Social-Emotional Development  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/503/)
Theory and research related to social and emotional development from infancy through middle childhood. Key topics include emotional regulation and social-emotional understanding, with special attention to the interpersonal contexts of social-emotional development, including parent-child, sibling and peer relationships. Prerequisite: HDFS 501.

HDFS 505  Advanced Adolescence  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/505/)
Advanced interdisciplinary examination of current research on adolescence as a life course stage and developmental period; focuses on principal contexts of adolescents’ lives, such as family, peers and school, and examines how experience in these contexts relates to preparation for adulthood. Designed for students with prior course work on adolescence or related topics who plan to do research, teaching, or policy work pertinent to this age period. Prerequisite: Prior course work in human development, developmental psychology or life course sociology.

HDFS 521  Family Theories  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/521/)
Contemporary family theories and their application in family research.

HDFS 523  Ethnic Families  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/523/)
Historical, social, economic, contextual (neighborhood), and subcultural factors that influence the organization and dynamics of ethnic-racial family life in the United States: family and group immigration and migration histories, acculturation, identity development, family organization, gender roles, parent-child relations, family rituals, neighborhood influences on family life and child-adolescent development, and the relationship between social class and ethnicity-race. Particular emphasis is given to qualitative studies that detail the first-hand experiences of families.

HDFS 525  Family Interaction  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/525/)
Observation and qualitative analysis of the family as a system; how family organization emerges, is maintained, and changes through social interaction.

Information listed in this catalog is current as of 01/2022
HDFS 526  Intimate Partner Violence  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/526/)
Extant, nature, causes, and consequences of intimate partner violence in the United States. Examines the complexities of intimate partner violence, including individual, societal, and historical factors that contribute to violence, the implications of making distinctions in types of violence and perpetrators, and the relationship between institutional responses and individual decision-making. Also examines theoretical methodological and ethical issues related to violence research.

HDFS 527  Family Resiliency  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/527/)
Examines complex factors, including culture, economy, and values conflicts, that challenge families and the range of adaptive strategies that families deploy amid various challenges and stressors. Activities include developing a research or action proposal related to developing family resiliency. Credit is not given for both HDFS 527 and HDFS 427. Prerequisite: HDFS 521 or HDFS 525 or equivalent.

HDFS 528  Parenting  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/528/)
Explores how parenthood has been conceptualized and investigated in human development, family studies, and related disciplines. Major theoretical perspectives and emerging line of research will be reviewed including parental style, beliefs and cognition, identity, fathering and diverse parenting contexts. Prerequisite: HDFS 501 or HDFS 521.

HDFS 529  Youth and Family Acculturation  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/529/)
Examines acculturation in youth and families related to immigration and globalization (e.g., via media, trade). Covers theory regarding individual acculturation styles such as assimilation or integration/biculturalism, and explores societal influences. Also examines how youth and families adapt, including psychological and social adjustment, parent-child acculturation gaps, and risk/protective factors for family resilience. Films and discussions cover different types of acculturating individuals (e.g., immigrants, refugees, non-migrants) and span several world regions. Prerequisite: Prior coursework in family studies, child/adolescent development or related topics, or consent of instructor.

HDFS 533  Community In American Society  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/533/)
Classic U. S. community studies are paired with current journal articles to examine how people in rural, suburban, and urban places go about making, maintaining or losing “community” in the context of societal change. The community studies provide a window on change at the local level including: urbanization, suburbanization, ethnic group interactions, inner-city poverty concentration, household structure variation, economic restructuring, and environmental impacts. Community studies are also critically evaluated both theoretically and as a research strategy. Same as SOC 572 and UP 533. 4 graduate hours. No professional credit.

HDFS 534  Neighborhoods and Human Dev  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/534/)
Theories, methodological issues, and current empirical research on the impact of neighborhoods on human development and family welfare across the life course including how neighborhoods characteristics, e.g., poverty, racial and ethnic composition, and geographic space, influence child and adolescent development, health, and employment opportunities and success in adulthood. Key mechanisms include: family conditions, local environment, social networks, and spatial mismatch. 4 graduate hours. No professional credit.

HDFS 539  Youth, Culture and Society  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/539/)
Examines youth as a historically and culturally specific social formation; examines discursive and material positioning of youth within broader intersecting racial, cultural, socio-economic, gender and political contexts to situate youth and youth cultural practices within global and local processes. Specific topics include youth cultures, juvenile justice, education, labor, consumerism, politics, sexuality and activism, as well as methodological considerations of conducting research on youth. Same as AAS 539, EPOL 518, and EPS 539. 4 graduate hours. No professional credit.

HDFS 540  Gender & Sexuality  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/540/)
Highlights key approaches to gender and sexuality within the multidisciplinary field of family studies; examines how gender and sexuality organize the accomplishment of family life through both social structure and social performance, and their attendant historical, economic and political contexts.

HDFS 541  Inequalities In A Diverse Society  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/541/)
Same as LLS 554 and SOCW 554. See SOCW 554.

HDFS 543  Ethnography Urban Communities  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/543/)
Same as AFRO 552, SOC 578, and UP 578. See AFRO 552.

HDFS 550  Advanced Practicum in HDFS  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/550/)
Practicum providing graduate students with supervised experience in the design, implementation, and/or evaluation of outreach programs, policy development, or consultation models designed to meet the needs of children, families and/or communities. Prerequisite: HDFS 450.

HDFS 551  Childhood Obesity I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/551/)
Same as CHLH 530, FSHN 530, KIN 530, NUTR 530, SOCW 570. See NUTR 530.

HDFS 552  Childhood Obesity II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/552/)
Same as CHLH 531, FSHN 531, KIN 531, NUTR 531, SOCW 571. See NUTR 531.

HDFS 561  Child and Family Program Dev  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/561/)
Theoretical and practical aspects of planned efforts to influence the development of children, youth, and families in the context of communities, particularly efforts to promote competence and well-being of children and youth, positive parenting, and well-being and adjustment of adults. Examines literature from four approaches: family life education, youth development, prevention/applied developmental science, as well as health promotion and community health.
HDFS 562  Child & Family Program Eval  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/562/)
Introduces practical skills for evaluating service, intervention, and educational programs, including needs assessment, program monitoring and impact assessment, with emphasis on outcome measure selection, randomized and quasi-experimental designs, statistical power analysis, and ethical issues.

HDFS 586  Health and Leisure in Recreation, Sport and Tourism  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/586/)
Same as RST 586. See RST 586.

HDFS 590  Advanced Research Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/590/)
Overview of positivist, interpretive, and critical research paradigms and their quantitative and qualitative methodologies; critical evaluation of current social science literature; students develop their own research proposals. 4 graduate hours. No professional credit.

HDFS 591  Qualitative Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/591/)
Qualitative methods in the social sciences: epistemological context; data collection and relationships with participants; data management, analysis and evaluation; writing strategies. Specific content emphasis alternates annually between field research and grounded theory. 4 graduate hours. No professional credit. May be repeated to a maximum of 8 hours.

HDFS 594  Intermed Statistical Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/594/)
Overview of common quantitative research methods and statistical analyses used in human development, family, and community research; covers sampling, data management, bivariate analyses, multivariate regression. Students frame a research question and use a common data set and statistical analysis software to prepare methods and results sections of a manuscript suitable for publication. 4 graduate hours. No professional credit. Prerequisite: HDFS 590 or equivalent.

HDFS 595  Seminar  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/595/)
Discussion and evaluation of current literature on selected topics in human and community development. 1 to 4 graduate hours. No professional credit. May be repeated in the same or subsequent terms.

HDFS 596  Advanced Studies in HDFS  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/596/)
Library or experimental research on specific problems of limited scope. May be taken in addition to 32 hours required for a master's degree by students who do not write a thesis. For non-thesis students only. May be repeated to a maximum of 4 hours.

HDFS 597  Advanced Statistical Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/597/)
Introduction to the conceptual bases and uses of advanced statistical techniques in human development and family research, including factor analysis, cluster analysis, multilevel modeling, and logistic regression. Special attention given to the longitudinal and dyadic analyses and to techniques for handling missing data. Students use common statistical packages and their own data set to produce a journal-style manuscript. 4 graduate hours. No professional credit. Credit is not given for both HDFS 592 and HDFS 597. Prerequisite: HDFS 594 or a graduate-level course in multivariate statistical analysis.

HDFS 598  Special Problems in HDFS  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/598/)
Research or independent study on a special problem that is not part of thesis work. 1 to 4 graduate hours. No professional credit. May be repeated in the same or separate terms to a maximum of 8 hours.

HDFS 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/599/)
Individual thesis research under supervision of faculty in specialized fields of human and community development. 0 to 16 graduate hours. No professional credit. Approved for S/U grading only. May be repeated.

Information listed in this catalog is current as of 01/2022
HEBR - Hebrew, Modern and Classical

HEBR Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HEBR/)

Courses

HEBR 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/199/)
May be repeated.

HEBR 201  Elementary Modern Hebrew I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/201/)
Acquaints students with the fundamental principles of the Hebrew language. Develops all four language skills; reading, writing, listening and speaking. Grammar and comprehension are exercised through the textbook, the audio-visual materials and the computer. Easy stories will be used during the term to strengthen reading comprehension. Participation in the language laboratory is required.

HEBR 202  Elementary Modern Hebrew II  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/202/)
Continuation of HEBR 201, with introduction of more advanced grammar, and with emphasis on more fluency in speaking and reading. Participation in the language laboratory is required. Prerequisite: HEBR 201 or equivalent.

HEBR 205  Intensive Biblical Hebrew  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/205/)
Same as REL 205. See REL 205.

HEBR 403  Intermediate Modern Hebrew I  credit: 4 or 5 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/403/)
Advanced examination of the fundamental principles of the Hebrew language. Develops all four language skills: reading, writing, listening and speaking. Grammar and comprehension are exercised through the textbooks, the audio-visual materials and the computer. Examples of Hebrew fiction, largely easy stories, will be used during the term to strengthen reading comprehension. Participation in the language laboratory is required. 5 undergraduate hours. 4 graduate hours. Prerequisite: HEBR 202 or equivalent.

HEBR 404  Intermediate Modern Hebrew II  credit: 4 or 5 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/404/)
Continuation of HEBR 403. Concentration on ability to engage in reasonable fluent discourse in Hebrew, comprehensive knowledge of formal grammar, and an ability to read easy Hebrew texts. Israeli television programs and movies are used to develop communicative skills and cultural knowledge. Participation in the language laboratory is required. 5 undergraduate hours. 4 graduate hours. Prerequisite: HEBR 403 or equivalent.

HEBR 405  Advanced Modern Hebrew I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/405/)
For students who have mastered the fundamental principles of the Hebrew language. Develops competence through reading Hebrew fiction and studying Israeli newspapers and television programs. Communication skills are exercised by means of class discussions, oral presentations, compositions and written reports on stories. 3 undergraduate hours. 3 graduate hours. Prerequisite: HEBR 404 or equivalent.

HEBR 406  Advanced Modern Hebrew II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/406/)
Course for advanced knowledge of spoken and written standard Modern Hebrew with emphasis on Modern Hebrew literature and language, Israeli newspapers and Israeli television programs. Communication skills are exercised by means of class discussions, oral presentations, compositions and written reports on stories. 3 undergraduate hours. 3 graduate hours. Prerequisite: HEBR 405 or equivalent.

HEBR 407  Topics Hebrew Lang & Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/407/)
Study of advanced topics in the Hebrew language, based upon a selection of Hebrew literature from either the Bible or the modern period. Historical and cultural background of the material will be stressed, together with literary analysis. In certain years, the course will be offered as a course using English translation of texts, with separate discussion section for students who want to read texts in the original. 3 undergraduate hours. 3 graduate hours. May be repeated in the same or subsequent semesters to a maximum of 9 hours, if topics vary. Prerequisite: HEBR 205 or HEBR 406 or consent of instructor.

HEBR 414  Advanced Biblical Hebrew  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/414/)
Same as REL 414. See REL 414.

Information listed in this catalog is current as of 01/2022
HIST - History

HIST Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HIST/)

Courses

HIST 100  Global History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/100/)
Broad introduction to global history, by exploring the global structures and transnational forces that have shaped human history, from the emergence of agriculture and urban centers to our contemporary global village.
This course satisfies the General Education Criteria for:
  Humanities - Hist Phil
  Cultural Studies - Non-West

HIST 101  History Now!  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/101/)
Teaches students how to apply historical thinking to present day problems. Each version starts with contemporary headlines about a current issue, moves to an investigation of its historical roots and legacies, and pivots back to the present to assess the impact of past history on present reality and to capture those relationships in a collaborative student project. It aims to show, in short, how and why history matters NOW.
This course satisfies the General Education Criteria for:
  Humanities - Hist Phil

HIST 103  A History of Everything: The Big Bang to Big Data  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/103/)
This introductory survey in "Big History" explores different scales of time as it places human history in larger geological, ecological, and cosmic contexts. Topics include the big bang, planet formation, the origin and development of life, mass extinctions, the emergence of Homo sapiens, the development of agriculture and cities, wars, plagues, and natural disasters, the advent of religion and science, political revolutions, industrialization and globalization, and human impact on the environment.
This course satisfies the General Education Criteria for:
  Humanities - Hist Phil
  Cultural Studies - Western

HIST 104  Black Music  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/104/)
What is black music, and how do we know what we think we know about it? Together, we will examine musical creations pioneered by Africans and individuals of African descent over several centuries and across hemispheres. Doing so will allow us to consider the unity of the African Diaspora and its music, and also examine internal differences and diversity. Special focus is given to Latin America and the U.S., but, depending on the semester, we will also read about, listen to, and talk about music and musicians in Asia, Africa, and Europe.
This course satisfies the General Education Criteria for:
  Humanities - Hist Phil
  Cultural Studies - US Minority

HIST 105  Latin America to Independence  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/105/)
Survey of Latin American history from the discovery of America to 1824.
This course satisfies the General Education Criteria for:
  Humanities - Hist Phil
  Cultural Studies - Non-West

HIST 106  Modern Latin America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/106/)
History of the Latin American republics from their independence to the present; emphasis on Argentina, Brazil, Chile, Colombia, Cuba, and Mexico.
This course satisfies the General Education Criteria for:
  Humanities - Hist Phil
  Cultural Studies - Non-West

HIST 111  History of Africa to 1800  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/111/)
Survey of African history to 1800, or rather African "histories." Along with historical knowledge, it seeks to give students a basic familiarity with the geography of the continent, as well as to provide an overview of African languages. Through the analysis of secondary as well as of primary sources, students will be introduced to and further examine the development of pre-colonial African societies. Same as AFST 111.
This course satisfies the General Education Criteria for:
  Humanities - Hist Phil
  Cultural Studies - Non-West

HIST 112  History of Africa from 1800  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/112/)
Survey of Africa's history from 1800 to the present day. Topics include the Atlantic slave trade, agricultural exchange, growth of Christianity, origins and effects of nineteenth-century European expansion culminating in the "Scramble for Africa," the transformations wrought by European colonial rule during the twentieth century, anticolonial nationalism, decolonization, and postcolonial political, economic, social, and cultural developments. Same as AFST 112.
This course satisfies the General Education Criteria for:
  Humanities - Hist Phil
  Cultural Studies - Non-West

Information listed in this catalog is current as of 01/2022
HIST 120  East Asian Civilizations  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/120/](https://courses.illinois.edu/schedule/terms/HIST/120/))
Surveys the three major East Asian civilizations from ancient and classical times, through the period of Western influence, political revolution, and modernization, to the contemporary age and the emergence of East Asian superpowers. Same as EALC 120. Credit is not given for both HIST 120 and EALC 135.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Non-West

HIST 130  History of South Asia  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/130/](https://courses.illinois.edu/schedule/terms/HIST/130/))
Multidisciplinary introduction to the history of modern South Asia from the consolidation of early modern state formations, the negotiation of religious, cultural and linguistic formations, European colonial interactions, and the rise of the modern nation states of Bangladesh, India, Pakistan and Sri Lanka. Same as ANTH 130.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Non-West

HIST 135  History of Islamic Middle East  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/135/](https://courses.illinois.edu/schedule/terms/HIST/135/))
Introduction to fourteen centuries of Middle East history from the rise of Islam to modern times. Examines the development of Islamic thought, and of religious, social, and political institutions; as well as the transformations of the 19th and 20th centuries in the area consisting of Egypt, the Fertile Crescent, Arabia, Turkey, and Iran.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Non-West

HIST 140  Western Worlds: Ancient and Medieval Societies from the Mediterranean to N. Europe (ACP)  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/140/](https://courses.illinois.edu/schedule/terms/HIST/140/))
Course is identical to HIST 141 except for the additional writing component. See HIST 141. Credit is not given for both HIST 140 and HIST 141.
Prerequisite: Completion of campus Composition I General Education requirement.
This course satisfies the General Education Criteria for:
- Advanced Composition
- Humanities - Hist Phil
- Cultural Studies - Western

HIST 141  Western Worlds: Ancient and Medieval Societies from the Mediterranean to Northern Europe  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/141/](https://courses.illinois.edu/schedule/terms/HIST/141/))
Western societies from antiquity to the early modern age in western Asia, North Africa, and Europe; with an emphasis on cultural exchange, migration, and the transmission of knowledge, ideas, technologies, and arts. Topics include the formation of the earliest civilizations; political and intellectual experiments of the Greek and Roman worlds; emergence of Judaism, Christianity, and Islam; military, commercial, social, and educational revolutions of the Middle Ages; rise of independent cities and territorial monarchies; religious upheavals and violent aftermaths. Credit is not given for both HIST 141 and HIST 140.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

HIST 142  Modern Europe and the World  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/142/](https://courses.illinois.edu/schedule/terms/HIST/142/))
Fundamental developments - social, economic, cultural, intellectual, and political - in the history of mankind and Western society since 1660; includes the rise of modern science, the French and Industrial revolutions, the Romantic movement, the growth of nationalism and socialism, imperialism, urbanization, the Russian Revolution, Nazi Germany, the world wars, and the West and the developing world. Credit is not given for both HIST 142 and HIST 143.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

HIST 143  Modern Europe and the World - ACP  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/143/](https://courses.illinois.edu/schedule/terms/HIST/143/))
Course is identical to HIST 142 except for the additional writing component. Credit is not given for both HIST 143 and HIST 142. Prerequisite: Completion of campus Composition I General Education requirement.
This course satisfies the General Education Criteria for:
- Advanced Composition
- Humanities - Hist Phil
- Cultural Studies - Western
HIST 164  The Automobile  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/164/)
Interdisciplinary examination of the automobile industry, its production systems, its marketing strategies, and the way automobiles reflect the changing landscapes of consumer tastes and value over time.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

HIST 168  A History of Judaism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/168/)
Same as JS 120 and REL 120. See REL 120.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Hist Phil

HIST 170  US History to 1877-ACP  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/170/)
Course is identical to HIST 171 except for the additional writing component. Credit is not given for both HIST 170 and HIST 171. Prerequisite: Completion of campus Composition I General Education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Hist Phil
Cultural Studies - US Minority

HIST 171  US History to 1877  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/171/)
U.S. history survey beginning with the diverse peoples who have populated North America since before the age of contact with Europeans and extending forward through the advent of European colonialism, the movement for independence, the foundation of the republic, the Civil War, and Reconstruction, ending in 1877. The course provides an introduction to historical interpretation, with particular attention to racialized and other forms of social, political, and economic inequality and struggles for freedom and democracy. Credit is not given for both HIST 171 and HIST 170.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

HIST 172  US History Since 1877  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/172/)
Survey of U.S. history from the end of the Civil War to the present, focusing on struggles to achieve a multiracial democracy, the evolution of an industrial, urbanized, and pluralistic society, the intersections between domestic and global affairs, and the practice of historical interpretation. Epoch-making events and elites are considered in light of their relation to the activities and lives of ordinary people, including people of color, immigrants, women, and the working and middle classes. Credit is not given for both HIST 172 and HIST 173.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

HIST 173  US History Since 1877-ACP  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/173/)
Course is identical to HIST 172 except for the additional writing component. Credit is not given for both HIST 173 and HIST 172. Prerequisite: Completion of campus Composition I General Education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Hist Phil
Cultural Studies - US Minority

HIST 174  Black America, 1619-Present  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/174/)
Same as AFRO 101. See AFRO 101.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

HIST 191  Freshman Honors Tutorial  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/191/)
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars and Associates. May be repeated once. Prerequisite: Consent of departmental honors advisor.

HIST 198  Freshman Seminar  credit: 3 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/198/)
Through research, reports, and discussion in a selected field of historical study, the seminar provides a thorough understanding of the problems of that field and of the methods of history as a discipline. May be repeated to a maximum of 6 hours. Prerequisite: James Scholar standing or other designation as a superior student; consent of instructor.

HIST 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/HIST/199/)
May be repeated.

Information listed in this catalog is current as of 01/2022
HIST 200  Intro Hist Interpretation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/200/)
Through the careful examination of a specific topic or theme, this course provides a thorough introduction to historical interpretation. Particular
attention will be devoted to research strategies, writing practices, handling primary and secondary sources, and the analysis of historiography. May be
repeated to a maximum of 6 hours with permission of the Director of Undergraduate Studies.

HIST 202  American Environmental History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/202/)
Introduction to the historical study of Americans’ relationship with the natural world. Examination of the ways that “natural” forces have helped
to shape American history; the ways that human beings have shaped, altered, and interacted with nature over time; and the ways that cultural,
philosophical, scientific, and political attitudes toward the environment have changed from pre-history to the present. Same as ESE 202 and NRES 202.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

HIST 203  Reacting to the Past  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/203/)
An introduction to history through participation in role-playing games set in the past. Topics will vary each time the course is taught. Students will
take on the roles of historical figures (famous or obscure) engaged in difficult and complicated situations, and will be obliged to adhere to the beliefs
and circumstances of those figures while attempting to pursue a course of action that will help them win the game – and possibly alter the course of
history.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil

HIST 205  Lived Experience in Latin America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/205/)
Examining the history through the primary texts written by Latin Americans, this course introduces students to theories, contents and methods of
historical inquiry, as well as the nuances and the complexities of Latin American history. Reading primary texts written by all strata of society, students
will look through the eyes of the diverse populations in Latin America. Students will analyze the traditional narrative of Latin America and gain insight
into the lived experience of Latin Americans. Together we will advance our individual and collective understanding of Latin America’s rich and complex
past.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 207  Digital Documentary Publishing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/207/)
Introduction to the craft of publishing historical materials, with a special focus on how to publish the past in the digital age. Assignments will include
historical and methodological readings, as well as hands-on instruction in digital publishing techniques. Skills taught include historical research,
content development, project management, and copyright analysis.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil

HIST 211  History of Southern Africa  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/211/)
Survey of major themes and events in Southern African history, with emphasis on the period after World War II: the inception and development of
apartheid in South Africa, the growth of contests over African nationalism in the subcontinent, wars of liberation and the demise of white domination.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 212  History of Eastern Africa  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/212/)
Introduction to the history of Eastern Africa from the nineteenth century to the present. Attention to the region’s pre-colonial history and institutions
is stressed, in order to understand both the transformations brought by European colonialism as well as its limits. The final weeks of the course will
examine the differing political, economic, and religious trajectories of the new nation-states since independence in the 1960s.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 213  African Muslim Societies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/213/)
Focuses on the history and historiography of Muslim societies in Africa. Investigates the dynamics of the spread of Islam in Africa, and explores
differences in Islam in Africa from other regions of the Islamic world, with attention to the image in Western scholarship of Islam in Africa. Provides
students with the knowledge and skills they need to understand this central phenomenon in modern world history. Same as AFST 213 and REL 215.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 219  History of the Prison  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/219/)
Same as AFRO 221 and LA 221. See LA 221.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western
HIST 220  Traditional China  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/220/)
Historical background to the modern age, tracing the Chinese state and empire from the earliest times until 1644 A.D. Basic political, social, and
economic patterns; cultural, intellectual, and technological achievements; and China's impact on Asia and the world. Same as EALC 220.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Non-West

HIST 221  Modern China  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/221/)
General introduction to the major themes of the Chinese Revolution from 1840 to the present, emphasizing the interplay between politics, ideas,
and culture. Themes include the tension between cultural integrity and Western ideologies, between democratic participation and the tradition of
centralized control, and the representation of cultural identity in high and mass cultures. Same as EALC 221.
This course satisfies the General Education Criteria for:
- Cultural Studies - Non-West

HIST 222  Chinese Thought and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/222/)
Same as EALC 222 and REL 224. See EALC 222.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Non-West

HIST 226  Premodern Japanese History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/226/)
Introduction to the history of the Japanese people, their social and cultural systems, politics, and economy, from the earliest times to the sixteenth
century. Same as EALC 226.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Non-West

HIST 227  Modern Japanese History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/227/)
Introduction to the history of the Japanese people, their social and cultural systems, politics, and economy, from the mid-sixteenth century to the mid-
twentieth century. Same as EALC 227.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Non-West

HIST 236  Madness and Modern Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/236/)
This course provides a broad overview of the development of the mind sciences in modern Europe from the beginning of state-regulated asylums to
the advent of pharmaceutical treatment and care in the community. Using a combination of primary sources and secondary texts, we will examine
how the diagnosis and treatment of “madness” in its many forms has been shaped through the interaction of social, political, economic, and cultural
factors from roughly 1750 to the 1990s. Same as PSYC 236.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

HIST 240  Ancient Greek Civilization  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/240/)
The history of ancient Greece and neighboring civilizations from the Archaic Period to the conquests of Alexander.

HIST 241  History of Ancient Rome  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/241/)
Survey of the political, social, economic, military, institutional, religious and cultural development of Rome from 753 BCE until 480 CE.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

HIST 245  Wives, Workers and Witches in Pre-Modern Europe  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/245/)
Examines the history of women and the evolution of concepts of gender in western Europe from roughly 400 to 1700. Topics include the interactions
of class and ethnicity with women's experiences, the social construction of sexuality and gender, the misogynist tradition, and women's self-images.
Same as GWS 245 and MDVL 245.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

Information listed in this catalog is current as of 01/2022
HIST 247  Medieval Europe  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/247/)
From the fragmentation of the Roman Empire to the formation of territorial monarchies, this course surveys the events, innovations, crises, and movements that shaped western Europe in a pivotal era known as "the Middle Ages." Topics will include the spread of Christianity, the migration of peoples, fundamental changes in economic and social structures, the development of political institutions, the role of women, and the cultural achievements of different communities (the monastery, the town, the court). Same as MDVL 247.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

HIST 251  Warfare Milit Insts & Soc  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/251/)
History of warfare and its relationship to changing technologies, tactics, and political structures, with an emphasis on the ways that military institutions are integrated with society as a whole. Same as GLBL 251.

HIST 252  The Holocaust  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/252/)
Exploration of the Holocaust in historical perspective by examining European anti-Semitism, political developments in Germany, the rise to power of the Nazis, and the origins of the Holocaust with first-hand accounts, films, and historical texts, concluding with the legacy of the Holocaust in the contemporary world. Same as JS 252.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

HIST 253  Enlightenment to Existentialism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/253/)
Survey of the major authors, ideas, events, and styles in the cultural and intellectual history of Europe from the seventeenth to the mid-twentieth centuries, focusing on the intellectual traditions of France, Germany, and Great Britain.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

HIST 254  Vikings to Volvos: Scandinavia  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/254/)
Same as SCAN 225. See SCAN 225.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western

HIST 255  British Isles to 1688  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/255/)
Survey of the political, social and economic, religious, and cultural history of the British people from the "prehistoric" era through the revolution of 1688. Same as MDVL 255.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

HIST 256  Britain and World Since 1688  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/256/)
Historical survey of the British Isles and the British Empire since the late seventeenth century.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

HIST 257  Terrorism, Past and Present  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/257/)
Explores the history of terrorism, its goals and practices. We recognize that it is not specific to any one ideology, religion, or people. Terrorism is political violence, psychological warfare meant to manipulate a large target audience. Same as GLBL 228.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil

HIST 258  20thC World to Midcentury  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/258/)
Economic, social, political, and cultural developments in twentieth-century world history from late nineteenth-century to Second World War era.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

HIST 259  20thC World from Midcentury  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/259/)
Economic, social, political, and cultural developments in twentieth-century world history from Second World War era to the present.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

Information listed in this catalog is current as of 01/2022
HIST 260  History of Russia  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/260/)
Main themes and problems of Russian history from earliest times to the present.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

HIST 261  Intro Russian-Jewish Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/261/)
Same as RUSS 261. See RUSS 261.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

HIST 262  Zionism: A Global History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/262/)
Examines the history of the Zionist movement. The course is designed for students with no prior knowledge of Jewish, European, or Middle Eastern history. The goal is to survey how Zionism emerged as a widespread political movement and, in the process, helped create an independent state for the Jewish people. In addition to familiarizing students with the backstory of a globally significant movement, this class will teach students historical interpretation skills. Same as JS 262.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

HIST 263  History of Medicine in the United States  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/263/)
Medicine and public health in the United States from the colonial period through the twentieth century. Topics include medical theories, therapeutic practices, and institutions as determined by science, culture, politics, law, and social structures. Additional attention will be paid to illness and epidemics; health care providers, patients, and public policy. Throughout, the course will highlight race, sex, (dis)ability, and other social categories that have affected medical care and been defined in medical terms. Same as GWS 263.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - US Minority

HIST 264  Technology in Western Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/264/)
Explores the role of technology as a transforming social force; examines innovations from the stirrup and heavy plow to the airplane and computer, that restructured economic and political life and realigned values; examines cultural representations of technology.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

HIST 265  Science in Western Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/265/)
Topics in the intellectual and social history of science in the West.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

HIST 266  Biology and Society from Darwin to the Human Genome  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/266/)
The ideas of Charles Darwin initiated a profound transformation in human thought, science, and culture. This course examines the intellectual origins, scientific content, and social, cultural, and religious context and impacts of Darwinian evolutionary theory. Topics include the conflict between science and religion, the eugenics movement and Social Darwinism, the biology of race and gender, and the rise of modern genetics and genomics.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

HIST 269  Jewish History Since 1700  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/269/)
Explores how life was lived by Jewish women and men through the past three centuries. Will also focus on wider place of the Jews in European society, and the achievements and tragedies of the modern Jewish-non-Jewish relationship. Same as JS 269 and REL 269.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

HIST 270  United States History to 1815  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/270/)
Social, economic, and political survey of the region and its relation to the evolving Atlantic community.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

Information listed in this catalog is current as of 01/2022
HIST 271  Nineteenth Century America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/271/)
History of the United States from 1815 to 1900.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

HIST 272  Twentieth Century America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/272/)
One major emphasis on foreign policy, including the emergence of the United States as a great power after 1898; a second emphasis on the
Progressive movement and recurrent attempts at the reform of American society; and racial and urban problems and the conservation of natural
resources included.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

HIST 273  Illinois History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/273/)
History of Chicago and Illinois from prehistoric times to the present, illustrating the jarring conflicts and great achievements of peoples from all over
the world. Politics, economics, popular and high culture, education, mass media, racial problems, and ethnic diversity are especially featured. There is
an emphasis on the relation of city, state, and region to one another.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil

HIST 274  US Foreign Relations Since 1917  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/274/)
Over the course of the twentieth century the United States rose to superpower status, in the process profoundly shaping world affairs. Students will
study the connections between U.S. and global history in this pivotal period. Explores the impact of the United States on world affairs from roughly
1917 through the end of the Cold War. Attention given to the perspectives of people affected by U.S. policies and the limits of U.S. power in the face of
developments such as anticolonial nationalism and great power rivalries.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

HIST 275  Afro-American History to 1877  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/275/)
History of Africans in the Americas, surveying the African slave trade, slavery in the European colonies of the Americas, early United States slavery,
and the Afro-American in the Civil War and Reconstruction. Same as AFRO 275.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil

HIST 276  Afro-American Hist Since 1877  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/276/)
History of Afro-Americans in the age of white supremacy; the rise of modern protest organizations; the era of integration; and the black power
movement. Same as AFRO 276.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

HIST 277  Encounters in Native America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/277/)
An examination of pivotal events in the history of Native peoples in North America. Students will explore the complexity of encounters between
American Indians and others through a focus on key moments. These will include religious encounters, military confrontations, and legal struggles as
well as social and artistic interactions. Same as AIS 277.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

HIST 278  Native American History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/278/)
A survey of the Native American experience in North America from the time of first contact to the present. The course will examine the dynamics
and consequences of Native dispossession as well as the continuities in American Indian life and culture. Course materials will include writing and
testimony by Native people as well as historical narratives, court decisions and government documents. Same as AIS 278.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

HIST 279  Mexican-American History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/279/)
Same as LLS 279. See LLS 279.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority
HIST 280  Caribbean Latina/o Migration  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/280/)
Study of the economic, political, and social forces which shaped migration, settlement, and community formation of Puerto Ricans, Cubans, and Dominicans living in the United States. Same as LLS 280.
This course satisfies the General Education Criteria for:
  Humanities - Hist Phil
  Cultural Studies - US Minority

HIST 281  Constructing Race in America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/281/)
Interdisciplinary examination of the historical, cultural, and social dimensions of race and ethnicity in the United States. Explores the complex and intricate pursuit of multiracial and multicultural democracy. Same as AAS 281, AFRO 281, and LLS 281.
This course satisfies the General Education Criteria for:
  Humanities - Hist Phil
  Cultural Studies - US Minority

HIST 283  Asian American History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/283/)
Exploration of the migrations of peoples from the Asian continent into the United States, their attempts to build family and community, and their subsequent impact on American history. Same as AAS 283.
This course satisfies the General Education Criteria for:
  Humanities - Hist Phil
  Cultural Studies - US Minority

HIST 284  Af Am Urban Hist Since 1917  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/284/)
Same as AFRO 290. See AFRO 290.
This course satisfies the General Education Criteria for:
  Humanities - Hist Phil
  Cultural Studies - US Minority

HIST 285  US Gender History to 1877  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/285/)
This course surveys the history of gender formations in the United States to 1877. Although it pays some attention to manhood and masculinity, it focuses on the history of women from a variety of social groups and on gender ideas pertaining to women. Throughout, it considers the ways gender intersected with categories such as race and class as it placed women of different backgrounds in differential positions. Same as GWS 285.
This course satisfies the General Education Criteria for:
  Humanities - Hist Phil
  Cultural Studies - US Minority

HIST 286  US Gender History Since 1877  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/286/)
This course examines the historical construction of gender in the United States since 1877 with particular attention to women's history. It considers how ideas about proper roles for men and women intersected with social categories such as class, race, (dis)ability, and ethnicity to shape lives, bodies, opportunities, politics, and power. Topics include work, family roles, leisure, political participation, health, sexuality, religion, popular culture, and struggles for influence, equality, self-expression, and rights. Same as GWS 286.
This course satisfies the General Education Criteria for:
  Humanities - Hist Phil
  Cultural Studies - US Minority

HIST 287  African-American Women  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/287/)
Examines the history of African American women, beginning with the West African background during the transatlantic slave trading era, emphasizing the experiences of black women in the United States during slavery and their political, civic, community and reform activities from slavery to the present, analyzed within the context of racism, sexism, and economic deprivation. African women in the diaspora, and the impact of feminism/ womanism, Afrocentrism, and multicultural diversity on the African American woman are considered. Same as AFRO 287 and GWS 287.
This course satisfies the General Education Criteria for:
  Humanities - Hist Phil
  Cultural Studies - US Minority

HIST 288  American Indians of Illinois  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/288/)
Same as ANTH 288 and AIS 288. See ANTH 288.
This course satisfies the General Education Criteria for:
  Humanities - Hist Phil
  Cultural Studies - US Minority

HIST 289  History of Religion in America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/289/)
Same as REL 235. See REL 235.
This course satisfies the General Education Criteria for:
  Humanities - Hist Phil

Information listed in this catalog is current as of 01/2022
HIST 290  Religion, Violence & America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/290/)
Same as REL 236. See REL 236. 
This course satisfies the General Education Criteria for: Cultural Studies - Western

HIST 292  Latina/o Social Movements  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/292/)
Same as LLS 238. See LLS 238.

HIST 295  Honors Colloquium  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/295/)
Topics will vary. May be repeated. Prerequisite: Chancellor's Scholar or consent of department and director of Campus Honors Program.

HIST 300  Topics in Film and History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/300/)
Examines films as a significant medium of commentary on society and history. Explores the motives and careers of moviemakers, the ways in which films are influenced by their audiences, and how audiences’ perception of historical processes are affected by films. Topics will vary. Same as MACS 300. May be repeated to a maximum of 6 hours if topics vary. Students may register in more than one section per term. May be repeated to a maximum of 6 hours.

HIST 305  Andean Countries of S America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/305/)
The history of Colombia, Ecuador, Peru, Bolivia, and Chile; emphasizes common problems and diverse responses, from European conquest in the sixteenth century to the struggles for development in the twentieth.

HIST 307  History of Mexico from 1519  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/307/)
Development of Mexico from the conquest to the postrevolutionary present.

HIST 308  The Caribbean Since 1492: From Columbus to Castro  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/308/)
Conquistadors – Planters – Pirates – Indigenous Peoples – Enslaved Africans – Religious Reformers – Independence Leaders – Radical Revolutionaries – US Marines - canal builders. Together these people built a new world – a world forged at the intersection of imperial ambitions and international contact, where the peoples and cultures of the Americas, Africa, and Europe collided. This class examines how colonialism, plantation slavery, the age of abolition, and the emergence of national independence movements made the modern Caribbean. Same as LAST 308.

HIST 310  Global Capitalism in History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/310/)
Explores the historical relations between multinational corporations and host countries focusing on political and economic issues.

HIST 311  Global History of Intelligence  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/311/)
Examines the role of both diplomatic and military intelligence in the political history of major global events and developments from the nineteenth century to the present day. Studies the histories of several major intelligence organizations, as well as the roles played by smaller and non-institutional actors in the global production of intelligence. Focuses on the interplay between intelligence, state policy, and information environments to understand not only the role intelligence played in major events, but also how intelligence practices shaped and reflected political cultures across the world.

HIST 312  Immigrant America  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/312/)
History of immigration and immigrant groups in the United States from 1830 to 1980. Covers major waves of immigration and focuses on the diverse cultural heritage, social structure, and political activism of immigrants from Europe, the Americas, and Asia.

HIST 313  Cultural Histories of the University of Illinois  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/313/)
This course explores the history of the University of Illinois from its establishment in 1867 to the present day. Developed around a theme chosen by the instructor, for example, the built environment, literary history, disability, sexuality, or crime, it will consider how the university, its student body, and local communities responded to and shaped local attitudes. The course will contextualize these attitudes within larger trends in United States history, specifically the history of race, sexuality, gender, and class. A research component will draw on the university's archives.

HIST 314  Material Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/314/)
Historical and theoretical investigation of everyday objects, artifacts, structures, landscapes, built environments. Students will learn to question existing perceptions of material phenomena, will engage in the work of historicizing and contextualizing them, and will arrive at a more informed understanding of the ways that they influence, shape, and reflect human history.

HIST 317  Birth of US Empire  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/317/)
Examines the early history of U.S. expansion of territory and influence, from the birth of the nation to the end of Reconstruction. These decades saw the formal additions of continental territory, coupled with the annexation of islands in the Pacific and Caribbean. Private and official attempts were also made to invade Central America and the Caribbean to extend slavery. Attention is paid to the intersections of U.S. expansion with race, gender, and sexuality.
HIST 325  History of Korea  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/325/)
Same as EALC 367. See EALC 367.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 334  Modern Palestinian History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/334/)
Examines the main themes of Palestinian history since 1800. The Israeli-Palestinian conflict frames the latter part of this history, but it is not the central issue. The focus of the course is Palestinian political, social, and cultural history.

HIST 335  Middle East 1566-1914  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/335/)
Political, social, cultural, and ideological developments in Egypt, Arabia, the Fertile Crescent, Iran and Turkey from the mid 16th century to the eve of World War I. Premodern society and institutions, the question of "decline" and "awakening", encounters with Europe and self-strengthening reforms, relations between Muslims, Christians, and Jews, the role of women and the family, class formation, and religion and nationalism. Same as JS 335.

HIST 337  Middle East Since World War I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/337/)
Political-economic, social and ideological developments in Egypt, Arabia, and Fertile Crescent (including Israel), Iran and Turkey since 1918 to the present, including U.S. involvement.

HIST 338  Egypt Since World War I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/338/)
Examines the twentieth-century history of Egypt, emphasizing the internal social, political, economic, and ideological developments, with attention to Egypt's role in regional and international politics. Readings include novels and short stories to introduce students to modern Egyptian culture. Same as AFST 338.

HIST 339  The Early Russian Empire  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/339/)
Introduction to one of the most transformative events in early modern world history: the creation of the Russian Empire. We will study how Moscow, a modest medieval kingdom, suddenly expanded into the world's largest state, fated to play an outsized role in world politics and culture. Chronologically, the course extends from 1500-1750, and considers topics ranging from religion and rebellion to material culture and everyday life.

HIST 344  Early Modern British Isles  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/344/)
Social, economic, cultural and political history of the "four Kingdoms" of England, Scotland, Wales, and Ireland between 1450 and 1800. Covers the Tudor and Stuart dynasties, Shakespeare, the English Civil War, the development of British colonial holdings across the globe, and the effects of empire at home.

HIST 345  Medieval Civilization  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/345/)
The architectural, artistic, philosophical, political, and religious components of medieval culture, thought, and patterns of behavior; includes monasticism and society and the individual. Same as MDVL 345 and REL 345.

HIST 346  The Age of the Renaissance  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/346/)
An introduction to the cultural history of Europe in the fifteenth and sixteenth centuries, embracing the Renaissance movements in Italy and in Northern Europe. Same as MDVL 346 and REL 346.

HIST 347  Protestant & Catholic Refs  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/347/)
New sources of secular power and spiritual authority define the age of the Protestant and Catholic Reformations. In this advanced European history course students expand their knowledge of the people, events, and ideas of the fifteenth and sixteenth centuries while deepening their understanding of a wide range of primary sources created by theologians and peasants, nuns and monarchs, and artists and rebels. Key works by Luther, Calvin, and Loyola are placed in their intellectual and social contexts. Same as REL 347.

HIST 348  Early Euro Absolut & Expansion  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/348/)
In the seventeenth and eighteenth centuries Europeans transformed political relations within Europe and their economic relationships with the wider world. This course examines continuities and change from 1600 to 1789, following the themes of authority and power. Topics include the rise of "absolute monarchy" and its alternatives in countries like, England and the Netherlands, as well as European trade and consumption, popular culture, the family, food, clothing, sexuality, and labor.

HIST 349  Age of Revolution, 1775-1815  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/349/)
Comparative survey of domestic upheavals in the North Atlantic world: America, Haiti, England, Prussia, and France; the rise of Napoleon and the response of Europe; and the fate of innovation and reform in the immediate aftermath.

HIST 350  19thC Romanticism & Politics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/350/)
Among the topics of this course will be Romanticism, which is still the basic form of modern culture today, with its emphasis on feeling, imagination, and self-expression; the nation-state, a new form of political organization; and the creation of a globalized world for the first time in human history.

HIST 352  Europe in the World  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/352/)
Colonial encounters between Europe and today's Third World viewed in comparative historical perspective. Equal emphasis placed on (colonizing) Europe and colonial experience of Asia, Africa, and South America.

HIST 353  European History 1918 to 1939  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/353/)
Survey of European society from 1918 to 1939, with emphasis on the impact of World War I, the Russian Revolution, fascism, and the intellectual trends of the twenties and thirties.
HIST 372 America's Republic, 1780-1880  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/372/)
Cultural history of Europe in an age of global warfare and political, social, and economic upheaval.

HIST 355 Soviet Jewish History credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/355/)
An examination of how Jewish life and culture contributed to the creation of the world's first socialist society. Makes use of primary sources, scholarly essays and monographs, archival documents, literature, memoirs, film, and visual culture as a way of introducing students to Soviet Jewish History. From the reign of the last tsar, Nicholas II, to the dissolution of the Soviet Union in 1991. Special topics to be examined include: the breakup of the Pale of Settlement during the Great War; the role of Jews in revolution and revolutionary culture; Soviet nationality policy; shtetl culture; antisemitism; everyday life; the purges of the 1930s; the Jewish experience in World War II; the Holocaust; and mass emigration. Same as JS 355.

HIST 356 The Modern Balkans through Literature and Film credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/356/)
History of the creation and development of the independent Balkan states during the 19th and 20th centuries. Special attention is given to Balkan nationalism, its roots, evolution and various manifestations. Other topics cover the modernization of the rural societies, ethnic conflict and/or accommodation, inter-Balkan relations, and the role of the great powers. Finally, a close look will be taken on contemporary developments in the Balkans, especially the Yugoslav crisis, the fall of communism and post-communist development. By discussing fictional work and films by Balkan authors, students will be introduced to the intellectual production of the region.

HIST 357 Modern France credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/357/)
The development of modern France, with special attention to social and cultural phenomena.

HIST 358 History Harvest: Collaborative Digital Public History credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/358/)
Students work with instructor and community collaborators to host a "History Harvest," an event during which community members share personal stories about and artifacts related to a particular event, historical development, and/or place. The class will catalog the images and recordings gathered and use them to present digital exhibits. Readings include relevant historical works for context and methodological works on public and digital history skills needed for the project. Students will develop hands-on experience with these skills. May be repeated to a maximum of 6 undergraduate hours, if topics vary.

HIST 360 European Culture in a Global Context credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/360/)
Railways, steamships, telegraph, quinine, machine guns: these were some of the European innovations that created a unified world between 1850 and 1914. The transforming force of new technologies, global commerce and Western imperialism also had a profound impact on the arts. We will study this globalization of culture in world spectacles, the visual arts, music, and literature.

HIST 361 Euro Thght & Soc Since 1789 credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/361/)
Examines the reciprocal relationship between thought and society in western Europe from the French Revolution to the present.

HIST 364 The Science of Human Nature credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/364/)
Examines the history of scientific arguments about race, heredity, gender, and human biological difference. We will explore the historical, cultural, and ethical dimensions of biological thought through a discussion of topics including racial typology, eugenics, intelligence testing, modern genetic theory, sex and gender, and the human genome project.

HIST 365 Fict & Historical Imagination credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/365/)
Explores the relationship between history and fiction by focusing on specific cultural locations.

HIST 367 History of Western Medicine credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/367/)
Rise and development of medicine in the West since the sixteenth century; interrelations of physiology, pathology, and social demands with the theory and practice of medicine; pattern of professionalization; social role of the physician; conflict among ideas of medicine as an art, a science, and a social service; and problems of mental illness, medical ethics, and nontraditional forms of practice.

HIST 369 Spain and Portugal from 1808 credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/369/)
A modern history of Spain and Portugal.

HIST 370 Colonial America credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/370/)
An interpretive survey of American colonial history from 1492 through 1763. Themes include encounters between Natives and Europeans in the New World, contests for colonization, settler societies and the development of various colonial social patterns in North America and the Caribbean, the beginnings of slavery, and the gradual emergence of distinctive provincial cultures in the North American colonies of the British Empire. Throughout all of this, there is an examination of colonial American history as part of the larger Atlantic World, understanding early American history as a process of exchange and interaction which included Europe, Africa, the Caribbean, and North America.

HIST 371 The American Revolution credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/371/)
Examines the momentous founding age of United States history. Explores the growing estrangement of the American colonies from Great Britain and the culmination of this process in the Declaration of Independence. It then examines the controversial process of creating a new nation, and the government of the United States. Intense focus on primary source materials from the period.

HIST 372 America's Republic, 1780-1880 credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/372/)
A study of political life in the U.S. during the century following the Revolution. The course covers the appearance and evolution of republican government, the Constitution, the expansion of voting rights, the rise and fall of political parties, and the relationship of all these things to the development of economic and social relationships.
HIST 373 Origins of the Civil War  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/373/)
Examination of changes in economic, social, cultural, and political life in the United State that ultimately plunged the national into the bloodiest and most important war in its history. Particular attention is paid to the way in which diverse segments of the country's population - North and South, urban and rural, rich and poor, slave and free, black and white, male and female - affected and were affected by these changes.

HIST 374 Civil War and Reconstruction  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/374/)
The United States' civil war (1861-1865) and the years of postwar "reconstruction" (conventionally dated as 1865-1877). During this period as a whole, the nation underwent its second revolution -- a revolution more radical in its impact than the one that freed it from the British Empire. Much about U.S. history for the next century and more was decided during these critical years.

HIST 375 Soc History Indus Am to 1918  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/375/)
The impact of industrialization, immigration, and urbanization on American society to the end of World War I.

HIST 376 Soc History Indus Am from 1918  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/376/)
Study of the impact of industrial technology, business enterprise, immigration, and urbanization on American society.

HIST 377 United States since 1932  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/377/)
Discusses the New Deal, the Cold War, Franklin D. Roosevelt and subsequent presidents, the structure of American imperialism, and America's role in world politics.

HIST 379 Latina/os and the City  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/379/)
Same as LLS 379. See LLS 379.

HIST 380 US in an Age of Empire  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/380/)
Study of the imperial dimensions of U.S. history from about 1877 to 1920. This was an era marked by an imperial world system, unprecedented levels of international trade and investments, massive labor migrations, significant missionary endeavors, and consolidation of U.S. power over Native Americans, and growing U.S. political and military assertion in the international arena. Considers how the United States and its peoples positioned themselves in an international context by investigating not only government policies but also commercial endeavors and cultural practices.

HIST 381 Urban History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/381/)
Examines the history of urban centers, paying special attention to the relationship between the city and its surrounding territory, the impact of migration and immigration, the delineation of space and the transformation of the built environment, and the role of a city's inhabitants in creating social networks, political structures, and cultural institutions. May be repeated in separate terms to a maximum of 6 hours if topics vary.

HIST 382 Race and Migration in Chicago  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/382/)
Same as LLS 382. See LLS 382.

HIST 383 Hist of Blk Women's Activism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/383/)
Same as AFRO 383 and GWS 383. See AFRO 383.

HIST 384 Class Politics & Blk Community  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/384/)
Same as AFRO 372. See AFRO 372.

HIST 385 Transnational Sexualities  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/385/)
Same as GWS 385. See GWS 385.

HIST 386 Public History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/386/)
An examination of major genres historians have employed to present history in the public arena, including documentary films, public memorials, legal testimony and museum exhibits. Students will explore both the social dynamics of public commemoration and the techniques historians employ when communicating complex ideas and events to a general audience.

HIST 387 History of Sexuality in U.S.  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/387/)
Same as GWS 387. See GWS 387.

HIST 389 Race and Revolutions  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/389/)
Same as AFRO 378. See AFRO 378.

HIST 390 Sport and Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/390/)
In various societies, organized sport has operated as site of nation-building, the struggle for inclusion, and indicator of societal advancement. Examines the history of the roles that sport has played in society through a series of topical foci, as selected by the professor each semester. Course readings revisit popular and scholarly debates about sport and discuss the different actors and social forces that shaped those discussions. Same as KIN 345. May be repeated in separate terms to a maximum of 6 hours if topics vary.

HIST 391 Oral History Methods  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/391/)
Introduces students to the ethical discourses and practical methods in oral history. Its primary purpose is to prepare students with oral and archival research skills that are crucial for the examination of the history and memory of communities. Among the questions that the class will consider are: what is the connection between the historical record and the remembered past? How reliable are these memories and does reliability matter? How do people mobilize and manipulate accounts of the past for purposes of community building, historic preservation, and political development? Same as LLS 391.
HIST 392  The 1960s in the U.S.  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/392/](https://courses.illinois.edu/schedule/terms/HIST/392/))
A study of the history of the 1960s, a tumultuous decade in the social and political history of the United States. The class has two main goals: 1) Provide a solid knowledge of the history of this period and its social and economic developments. 2) Develop skills as an analytic reader and writer in U.S. history.

HIST 393  The World of Jewish Sephardic  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/393/](https://courses.illinois.edu/schedule/terms/HIST/393/))
Same as ANTH 393 and REL 393. See ANTH 393. This course satisfies the General Education Criteria for: Humanities - Hist Phil Cultural Studies - Western

HIST 394  Hidden Political Figures  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/394/](https://courses.illinois.edu/schedule/terms/HIST/394/))
Examination of recent United States history with an emphasis on the presidential elections, public policy, popular culture, activism, and economic and social trends that helped define American life after 1964. The political contributions of lesser known figures will be highlighted to explore the development of American politics elicited by the civil rights movement and subsequent struggles to influence a newly transformed body politic. The course is designed as a topics course that may revolve around other "hidden figures" in political history. May be repeated once if topics vary.

HIST 395  Topics in Law and Society  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/395/](https://courses.illinois.edu/schedule/terms/HIST/395/))
Topics and problems in the history of laws, legal institutions, jurisprudence, concepts of justice, and their role(s) in shaping societies over time. Specific readings and foci will vary. May be repeated in the same or separate terms for a maximum of 6 hours if topics vary.

HIST 396  Special Topics  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/396/](https://courses.illinois.edu/schedule/terms/HIST/396/))
Topics are given on an experimental one-time-only basis. May be repeated if topics vary.

HIST 397  Sexuality in Modern Europe  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/397/](https://courses.illinois.edu/schedule/terms/HIST/397/))
What is sexuality? How is it practiced, policed, represented, liberated and controlled? How do religion, the state, the law and the media influence sexual identities and practices? Focusing on modern Europe, we will examine the history of sexuality from the late eighteenth century to the present in order to explore how historians have answered these questions. We will investigate topics from pornography, prostitution, sex and totalitarianism, queer sexualities, sex and colonialism, and masturbation, to sex education, sexual revolutions, hermaphroditism, sex surveys and AIDS. Same as GWS 397.

HIST 398  Internship in Public History  credit: 1 to 3 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/398/](https://courses.illinois.edu/schedule/terms/HIST/398/))
With a faculty sponsor, a qualified student will develop a program of study or research related to an internship or other relevant employment opportunity. Consult departmental undergraduate advisor or Director of Undergraduate Studies. Approved for letter and S/U grading. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Consent of faculty sponsor and Director of Undergraduate Studies required.

HIST 399  Independent Study  credit: 1 to 3 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/399/](https://courses.illinois.edu/schedule/terms/HIST/399/))
Readings in selected fields in consultation with the instructor resulting in a 20-30 page paper. May be repeated with permission of the Director of Undergraduate Studies. Prerequisite: Junior or senior standing pursuing a History major; written consent of instructor and History undergraduate advisor required.

HIST 400  War, Soc, Politics, & Culture  credit: 2 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/400/](https://courses.illinois.edu/schedule/terms/HIST/400/))
Topics will be listed in the department's course guide at http://www.history.illinois.edu. 3 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours in the same or subsequent terms if topics vary.

HIST 401  History of Terrorism  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/401/](https://courses.illinois.edu/schedule/terms/HIST/401/))
Historical examination of strategies of terror, their relationship to conventional warfare, and their political, social, cultural, and religious contexts. 3 undergraduate hours. 4 graduate hours.

HIST 405  History of Brazil from 1808  credit: 2 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/405/](https://courses.illinois.edu/schedule/terms/HIST/405/))
Problems of a neocolonial society; themes include family structure, slavery, imperialism, modernization, and the crisis of traditional institutions. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 407  Slavery & Race in Latin Am  credit: 2 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/407/](https://courses.illinois.edu/schedule/terms/HIST/407/))
Selected topics on Indians and Spaniards, whites and blacks, emphasizing Mexico, the Caribbean, and Brazil. Same as AFRO 407. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 410  Decolonization in Africa  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/410/](https://courses.illinois.edu/schedule/terms/HIST/410/))
Almost all African countries fell under European colonial rule by the beginning of the 20th century, but formal colonialism did not last the century. Surveys the crucial ideological, political, social, and military strategies enlisted by African people and movements to shed colonial rule. Also examines the paradox of the coupling of “flag independence” with continuing economic dependence on Europe. 3 undergraduate hours. 4 graduate hours.

HIST 411  20thC Africa Intellectual Hist  credit: 2 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/411/](https://courses.illinois.edu/schedule/terms/HIST/411/))
The development of influential political and cultural ideas on the African continent over the course of the long 20th century, highlighting the interactions of individuals (as members of educated elites and of rural societies) and institutions (such as universities) in developing trademark African intellectualism. These concepts include: Pan-Africanism, the need for political independence, Negritude, feminism/womanism, calls for the promotion of indigenous languages and ubuntu; as well as the contested justifications for one-party rule. Students will gain an appreciation of the breadth, depth and creativity of African thought and activism. 3 undergraduate hours. 2 or 4 graduate hours.
HIST 412  Southern Africa Race & Power  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/412/)
Interdisciplinary survey of both the internal and international dimensions of the changing situation in Africa south of the Zambezi; focuses on the historical background - and a political, economic, and social analysis of - current events in the Republic of South Africa, Mozambique, Namibia, and Zimbabwe, emphasizing the central significance of race and power in this region. Same as AFST 425. 3 undergraduate hours. 4 graduate hours.

HIST 420  China Under the Qing Dynasty  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/420/)
The period of Manchu domination in China (1644-1912); emphasis on Chinese reactions to Western influences during the nineteenth century. Same as EALC 420. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 422  Soc-Econ Hist Modern China  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/422/)
Disintegration of traditional social and economic systems during the nineteenth and twentieth centuries, and the political effects of that disintegration; examines changes in the agricultural economy, changing rural elites, urbanization, and emergence of new social classes. It is recommended that students take HIST 420 before registration in HIST 422. Same as EALC 421. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 425  Classical Chinese Thought  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/425/)
Same as CWL 478 and EALC 476. See EALC 476.

HIST 426  Early Modern Japan  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/426/)
Study of the people, culture, and society from 1600 to 1868. Traces the rise of Japan's first truly national culture. Same as EALC 426. 3 undergraduate hours. 4 graduate hours.

HIST 427  Twentieth-Century Japan  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/427/)
Study of the people, culture, and society of Japan from 1868 to the present. Traces Japan's transformation from an insular bastion of "centralized feudalism" into a cross-cultural crucible of post-industrial democracy. Same as EALC 427. 3 undergraduate hours. 4 graduate hours.

HIST 430  India from Colony to Nation  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/430/)
Mughal Empire and British Raj, Indian national awakening, and struggle for independence under Gandhi and Nehru. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 432  History of Early Judaism  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/432/)
Same as JS 442 and REL 442. See REL 442.

HIST 433  History of Jews in Diaspora  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/433/)
Deals with the history of the Jewish people from the destruction of the Jewish state by Rome to the reestablishment of a Jewish state in 1948. The emphasis is on the interaction between the Jewish and non-Jewish worlds as well as changes internal to the Jewish communities. Same as REL 434. 3 undergraduate hours. 4 graduate hours.

HIST 434  Women in Muslim Societies  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/434/)
Same as ANTH 403, GLBL 403, GWS 403, REL 403, and SAME 403. See REL 403.

HIST 436  Jewish Life-Writing  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/436/)
Same as CWL 421, REL 420, SLAV 420, and YDSH 420. See YDSH 420.

HIST 439  The Ottoman Empire  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/439/)
Economy, society, law, and government; the Ottomans and Mediterranean society; Ottoman culture and Islamic tradition; minorities; trade, diplomacy, and capitulations; "decline" and dismemberment; and traditional and westernizing attempts at revival. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 440  Roman Republic to 44 B C  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/440/)
Examination of the political, social, economic, military, institutional, religious and cultural development of Rome from 753 BCE until 14 CE. Same as CLCV 440. 3 undergraduate hours. 4 graduate hours.

HIST 441  The Roman Empire  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/441/)
Examination of the political, social, economic, military, institutional, religious and cultural development of the Roman Empire from the reign of Augustus (27 BCE - 14 CE) through the fall of the Western Roman Empire ca. 480 CE. 3 undergraduate hours. 4 graduate hours.

HIST 442  Roman Law and Legal Trad  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/442/)
Examines Roman law and legal tradition in the context of historical, political, and social developments; origins of law in primitive and ancient classical societies; surveys development of precedent, codification, and preservation of Roman law, and the impact of Roman law on western legal traditions. 3 undergraduate hours. 4 graduate hours.

HIST 443  Byzantine Empire AD 284-717  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/443/)
Examination of the political, social, economic, military, institutional, religious and cultural development of the early Byzantine Empire from the reign of Diocletian (AD 284-305) through the Heraclian Dynasty (AD 610-717). Same as MDVL 443. 3 undergraduate hours. 4 graduate hours.

HIST 445  Medieval England  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/445/)
Key sources and topics of English history, from the end of Roman rule in Britain (c. 410) to the fifteenth century. Recurrent themes include the development of law, the role of women, the status of commoners, intellectual trends, and the importance of public media for the dissemination of ideas (writing, performance). Same as MDVL 444. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 448  Modern Britain  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/448/)
History of modern Britain's social, economic, cultural and political life with a special emphasis on the role of empire in shaping its career as a global power and its "domestic" national culture at home. 3 undergraduate hours. 2 or 4 graduate hours.
HIST 449  British Imperialism  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/449/)
Thematic approach to Britain's role as an imperial power, its impact on global issues and affairs, and the effect of colonies and colonial peoples on the history of its development as a Western "nation". 3 undergraduate hours. 2 or 4 graduate hours.

HIST 450  European Working Class History  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/450/)
Comparative study of the rise of the working class in European countries; formation, culture, and daily life; stratification within the working class; workers in organized labor and revolutionary movements. Same as LER 450 and SOC 422. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 453  Sex and Science  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/453/)
Examines how modern scientific knowledge has shaped understandings and experiences of bodily sex difference, gender, and sexuality over time. It also focuses on understanding the ways in which social, cultural, and political expressions and issues of gender and sexuality have influenced biomedical and public health knowledge and practices. Thematic areas for discussion will include homosexuality, hysteria, eugenics, sex education, gender reassignment, and the AIDS crisis. Same as GWS 453. 3 undergraduate hours. 4 graduate hours.

HIST 456  Twentieth-Century Germany  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/456/)
Political upheavals of twentieth-century Germany; topics include the First World War's impact on German society, the war's revolutionary aftermath, the political struggles and cultural achievements of the Weimar Republic, the rise of Hitler, the Third Reich, the Holocaust, the Second World War, and the divided postwar Germanies; novels and films complement readings. 3 undergraduate hours. 4 graduate hours.

HIST 459  Postcolonial/Queer  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/459/)
Same as GWS 459. See GWS 459.

HIST 461  Russia- Peter the Great to Rev  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/461/)
Culture, society, and politics in Imperial Russia, focusing on power and resistance, the lives and culture of ordinary Russians, and competing ideas about the state, the individual, community, nation, religion, and morality. 3 undergraduate hours. 2 or 4 graduate hours. For higher credit, graduate students will be required to do more reading and to write an additional paper.

HIST 462  Soviet Union Since 1917  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/462/)
Political, social, and economic development of the USSR since the 1917 revolutions that brought the Bolsheviks to power; social change and social engineering; political struggles among Stalin and his rivals; the "Stalin revolution" from above and economic modernization; the USSR's emergence through World War II and the Cold War as a world power; "developed socialist" society. 3 undergraduate hours. 2 or 4 graduate hours. Graduate students will write an additional substantial paper and engage in special discussion sections.

HIST 466  The Balkans  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/466/)
The political, economic, and cultural history of this region's peoples, including the Rumanians, South Slavs, Greeks, and Albanians; the impact of Ottoman rule; the rise of nationalism and the formation of national states; and the Orthodox Church. 3 undergraduate hours. 4 graduate hours.

HIST 467  Eastern Europe  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/467/)
The political, economic, and cultural history of Poland, Czechoslovakia, Hungary, Rumania, Yugoslavia, Bulgaria, Greece, and Albania; particular emphasis upon the post-World War II era. 3 undergraduate hours. 4 graduate hours.

HIST 468  Locating Queer Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/468/)
Same as GWS 467. See GWS 467.

HIST 470  Plantation Soc in Americas  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/470/)
Same as AFRO 453. See AFRO 453.

HIST 473  Crises of Political Tolerance  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/473/)
Investigates the character of American political tolerance and freedom in times of crisis, through a series of case studies: images of the American "enemy"; the Red Scare after World War I; the internment of Japanese-Americans in World War II; McCarthyism; and the resentments generated by protest movements in the late 1960's. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 475  Formation of US Public Health  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/475/)
Introduction to the history of American public health and health policy. Emergence of modern public-health institutions in America; relation of public health to conceptions of disease, social order, and the role of government; emergence and development of public policy issues in public health and medical care, of the environment for the formulation of policy, and the relation of policy to broader issues of social development, incidence of disease, and assumptions about the proper distribution of public and private responsibility. 3 undergraduate hours. 4 graduate hours.

HIST 476  History of the American West  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/476/)
Examines the changing image of the American West by focusing on the process of conquest and resistance present within the region's history. Same as LLS 475. 3 undergraduate hours. 4 graduate hours.

HIST 478  Black Freed Move, 1955-Present  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/478/)
Same as AFRO 474. See AFRO 474.

This course satisfies the General Education Criteria for: Advanced Composition
HIST 479  19thC US Intel & Cultr Hist  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/479/)
Examines diverse strains of cultural and intellectual life in the US from the early Republic through the 1890s. Emphasizes popular culture, religious
revivalism, educational institutions, reform movements, art, science, and literature and the roles of cultural elites, women, working-classes, African
Americans, Native Americans and immigrants in shaping national, regional and local cultures. Same as REL 478. 3 undergraduate hours. 2 or 4
graduate hours.

HIST 480  US Work Class Hist Since 1780  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/480/)
Focuses on working class formation, culture, ideas, and organization; examines daily experience of work and community life; special emphasis on
race, ethnicity, and gender in the process of class formation; labor relations and the changing patterns of working class protest and accommodation.
Same as LER 480. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 481  20th Century US Culture Wars  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/481/)
What ideas does “American Culture” include? How does it incorporate diverse religious traditions as well as new scientific perspectives? How are
ethnicity, gender and race important? Topics of current “cultural wars”, these and other questions about cultural conflict in the US have been hotly
debated for over a century. This course explores such culture wars in the 20th century US and helps students evaluate contested cultural concepts
they have produced, including pragmatism, pluralism, religious diversity, scientific objectivity, economic equality, as well as “popular,” “high” and
“democratic” culture. Same as REL 479. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 482  Slavery in the United States  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/482/)
Same as AFRO 460. See AFRO 460.
This course satisfies the General Education Criteria for:
Advanced Composition

HIST 483  Race, Science, and Medicine  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/483/)
Same as AFRO 466. See AFRO 466.

HIST 486  Revivalism and Evangelicalism  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/486/)
Same as REL 435. See REL 435.

HIST 487  Great Books in History  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/487/)
An approach to History through a selection of prize-winning, influential, and lasting books, the point being to consider the role of the book in History
and its relation to other forms of historical interpretation, including essays, web sites, films, lectures, and exhibits. It will hone students' composition
abilities through careful attention to writing, craft, and genre. Each iteration of this course will focus on a particular theme. 3 undergraduate hours. 4
graduate hours. May be repeated as topics vary to a maximum of 6 undergraduate hours or 8 graduate hours.

HIST 488  The American Political Divide  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/488/)
Examines the diversity of political thought in the twentieth century by exploring the ways that Americans from diverse backgrounds have talked
about, made sense of, and sought to influence change in modern American government. Throughout the course, students will examine the enduring
debate about the proper role of the federal government, which has been central to some of the fiercest ideological divides in American history. 3
undergraduate hours. 4 graduate hours.

HIST 490  Honors Independent Study  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/490/)
Independent reading, research, and writing under the supervision of an individual instructor. Seniors in the History Honors Program taking this course
in place of the Honors Senior Thesis must complete a substantive research paper (25-30 pages). No graduate credit. May be repeated to a maximum
of 6 hours. Each 3-hour class must be taken with a different instructor. Prerequisite: Admission to the History Honors Program; or junior or senior of
high standing with the consent of the Director of Undergraduate Studies.

HIST 491  Directed Research in Digital History  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/491/)
Advanced projects in Digital History undertaken with a faculty supervisor. 1 to 3 undergraduate hours. 1 to 4 graduate hours. Approved for Letter and
S/U grading. May be repeated in separate terms to a maximum of 6 undergraduate hours or 4 graduate hours. Prerequisite: Consent of sponsoring
faculty supervisor and Director of Undergraduate Studies or Director of Graduate Studies required for all students.

HIST 492  Historiography and Methodology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/492/)
This is a seminar for all students in the History Honors Program and other advanced students interested in honors level study of historiography and
methodology. Students intending to write a senior honors thesis should take it no later than the spring of the Junior year. Students will study the
development of the historian's craft and will be exposed to new research methods and techniques. The course will culminate in the preparation of a
research proposal, developed in consultation with an individual faculty advisor. The instructor of HIST 492 and the Director of Undergraduate Studies
will assist students intending to write a thesis in the selection of an appropriate mentor. 3 undergraduate hours. No graduate credit. Prerequisite:
Admission to the History Honors Program or consent of the Director of Undergraduate Studies.

HIST 493  Honors Senior Thesis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/493/)
Two-term independent research and writing project under the supervision of a faculty advisor. Students enrolled in this course must submit a
completed Honors Senior Thesis at the end of the second term, for evaluation by the faculty advisor and a second reader. 3 undergraduate hours. No
graduate credit. Must be repeated for a total of 6 hours. Students will receive separate grades for each semester's work. Prerequisite: Admission to the
History Honors Program and consent of supervising professor; HIST 492 and HIST 495; concurrent enrollment in HIST 499 is required.

HIST 497  History of Historiography  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/497/)
An exploration of the different approaches to the conceptualization and narration of history in various times and places, with special emphasis on the
social, cultural, and political role(s) of the historian. 3 undergraduate hours. 2 or 4 graduate hours.
HIST 498 Research and Writing Seminar credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/498/)
Capstone course required of all majors. Students will make history by researching and writing a work of original scholarship. Several of these seminars are offered each term and each focuses on a special topic, thus allowing students with similar interests to work through the process of gathering, interpreting, and organizing historical evidence under the direction of an expert in the field. The topics on offer each semester will be listed in the Class Schedule and described in the department's course guide at http://www.history.illinois.edu. 3 undergraduate hours. No graduate credit. May be repeated to a maximum of 6 hours.
This course satisfies the General Education Criteria for: Advanced Composition

HIST 499 Thesis Seminar credit: 1 to 2 Hours. (https://courses.illinois.edu/schedule/terms/HIST/499/)
A required seminar for all seniors writing Honor Theses in history, this course will meet throughout the year and will supplement individual students' meetings with their primary advisors. Provides an intellectually supportive environment in which students work together on common methodological problems, share the results of their research, and critique developing projects. 1 to 2 undergraduate hours. 1 to 2 graduate hours. Approved for S/U grading only. May be repeated in separate terms to a maximum of 3 hours. Prerequisite: Admission to the History Honors Program; HIST 492; and HIST 495. Concurrent enrollment in HIST 493 is required.

HIST 502 Prob in Comparative History credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/502/)
Intensive comparative examinations of particular issues in the histories of multiple countries, cultures or periods; emphasizes methodology, the discipline of comparative history, and the nature of historiography in a cross-cultural and interdisciplinary context. May be repeated to a maximum of 12 hours.

HIST 503 Prob in Comp Women's Hist credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/503/)
Examines major works in global women's history from about 1700 to 1950. Introduces students to major themes in women's history as well as major historiographical debates. Topics will be listed in the department's course guide at http://www.history.illinois.edu. Same as GWS 501. May be repeated to a maximum of 12 hours if topics vary.

HIST 504 Problems in the History of Science and Medicine credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/504/)
Topics will be listed in the department's course guide at https://www.history.illinois.edu. 4 graduate hours. No professional credit. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: Consent of instructor.

HIST 505 Research Seminar: Science and Medicine credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/505/)
Topics will be listed in the department's course guide at https://www.history.illinois.edu. 4 graduate hours. No professional credit. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: Consent of instructor.

HIST 507 Prob in Latin American Hist credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/507/)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 508 Research Seminar: Latin America credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/508/)
Topics will be listed in the department's course guide at https://www.history.illinois.edu. 4 graduate hours. No professional credit. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: Consent of instructor.

HIST 510 Problems in African History credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/510/)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. Same as AFST 510. May be repeated to a maximum of 12 hours if topics vary.

HIST 511 Research Seminar: Africa credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/511/)
Topics will be listed in the department's course guide at https://www.history.illinois.edu. Same as AFST 511. 4 graduate hours. No professional credit. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: One upper-level African history course or consent of instructor.

HIST 519 Colonialism & Postcolonialism credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/519/)
Same as ANTH 504. See ANTH 504.

HIST 520 Problems in Chinese History credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/520/)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. Same as EALC 520. May be repeated to a maximum of 12 hours if topics vary.

HIST 521 Research Seminar: China credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/521/)
Research Seminar in Chinese history designed to provide training to graduate students in research skills with an emphasis on the use of source materials in Chinese language. Same as EALC 522. 4 graduate hours. No professional credit. May be repeated to a maximum of 8 graduate hours in separate terms. Prerequisite: Proficiency in written Classical or Modern Chinese, EALC 500 for EALC graduate students, and HIST 520 for History graduate students, or the consent of instructor.

HIST 526 Problems in Japanese History credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/526/)
Period covered will alternate between the Early Modern (1550 - 1850) and Modern (1850 - present) eras. Same as EALC 526. May be repeated to a maximum of 8 hours.
HIST 527  Research Seminar: Japan  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/527/)
Period covered will alternate between the Early Modern (1550 - 1850) and Modern (1850 - present) eras. Same as EALC 527. May be repeated to a maximum of 8 hours if topics vary. Prerequisite: Graduate standing in HIST, EALC, or other related discipline and reading knowledge of Japanese, or consent of instructor. By permission of instructor. Same as EALC 527. 4 graduate hours. No professional credit. May be repeated to a maximum of 8 hours if topics vary. Prerequisite: Graduate standing in HIST, EALC, or other related discipline and reading knowledge of Japanese, or consent of instructor.

HIST 535  Prob Middle Eastern History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/535/)
Covers, in depth, major problems of specific periods and areas and the relevant literature of Near and Middle Eastern History, which will vary from term to term. May be repeated to a maximum of 8 hours if topics vary.

HIST 536  Research Seminar: Middle East  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/536/)
Investigates research topics in Near and Middle Eastern history in accordance with students' needs. Topics may vary from term to term. Students will prepare oral and written reports. 4 graduate hours. No professional credit. May be repeated to a maximum of 8 hours. Prerequisite: Consent of instructor.

HIST 542  Problems in Medieval History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/542/)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. Same as MDVL 542. May be repeated to a maximum of 12 hours if topics vary.

HIST 543  Research Seminar: Medieval  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/543/)
Topics will be listed in the department's course guide at https://www.history.illinois.edu. Same as MDVL 543. 4 graduate hours. No professional credit. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: Consent of instructor.

HIST 545  Research Seminar: Early Modern Europe  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/545/)
Topics will be listed in the department's course guide at https://www.history.illinois.edu. 4 graduate hours. No professional credit. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: Consent of instructor.

HIST 549  Research Seminar: England & the British Empire  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/549/)
Topics will be listed in the department's course guide at https://www.history.illinois.edu. 4 graduate hours. No professional credit. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: Consent of instructor.

HIST 550  Prob Early Mod European Hist  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/550/)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 551  Prob European Hist Since 1789  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/551/)
Topics will be listed in the department's course guide at http://history.illinois.edu. May be repeated in the same or subsequent terms as topics vary.

HIST 552  Research Seminar: Europe Since 1789  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/552/)
Topics will be listed in the department's course guide at https://www.history.illinois.edu. 4 graduate hours. No professional credit. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: Consent of instructor.

HIST 555  Prob in American Hist to 1830  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/555/)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 557  Prob in US Hist Since 1815  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/557/)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated in the same or subsequent terms as topics vary.

HIST 560  Problems in Russian History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/560/)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 561  Research Seminar: Russia  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/561/)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. 4 graduate hours. No professional credit. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: Consent of instructor.

HIST 562  Prob in American History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/562/)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated in the same or subsequent terms as topics vary.

HIST 564  Prob English Hist Since 1688  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/564/)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 569  Research Seminar: England & the British Empire  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/569/)
Topics will be listed in the department's course guide at https://www.history.illinois.edu. 4 graduate hours. No professional credit. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: Consent of instructor.

HIST 570  Research Seminar: America to 1830  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/570/)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated in the same or subsequent terms as topics vary.

HIST 571  Research Seminar: America to 1839  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/571/)
Topics will be listed in the department's course guide at https://www.history.illinois.edu. 4 graduate hours. No professional credit. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: Consent of instructor.

HIST 572  Prob in US History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/572/)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated in the same or subsequent terms as topics vary.

HIST 573  Research Seminar: America Since 1789  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/573/)
Topics will be listed in the department's course guide at https://www.history.illinois.edu. 4 graduate hours. No professional credit. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: Consent of instructor.

HIST 574  Historiography of Religion in America  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/574/)
Same as REL 535. See REL 535.

HIST 575  Problems African American History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/575/)
Covers in depth, major problems in the African American experience and in the historiography of that experience, including historical periods, themes and paradigms. Same as AFRO 501. Approved for letter and S/U grading. May be repeated to a maximum of 8 hours.
HIST 591  History and Social Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/591/)
Introduces recent historical work drawing upon theories and concepts from the social sciences; considers fields of inquiry which include family
history, demographic history, labor history, prosopographical and entrepreneurial studies, local and regional studies, and others.

HIST 593  Approaches to History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/593/)
Required course for entering history graduate students offering an initial foray into historiography, methods, and conceptual approaches for students in
all fields. Provides experience dealing with three challenges that face all practitioners of the discipline: identifying the historical problem to be tackled,
deciding what methodologies are best suited to that problem, and locating and then making use of the primary sources necessary for analyzing the
subject at hand. Assigned materials, class discussions, and assignments will prepare students for the second semester required research seminar.
Restricted to first-year graduate students in history.

HIST 594  Intro Historical Writing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/594/)
Seminar for first-year graduate students and is the second half of the introductory graduate sequence. Focuses on the process of writing an original
piece of historical scholarship. Topics to be discussed include: developing an argument, exploring sources, arriving at a research strategy, planning
and structuring an article, presenting complex data, and producing scholarship that is a coherent representation of an author's perspective on the
past. Over the course of the semester, each seminar participant will develop and write an original, article length research paper. Students will work with
the assistance of the instructors and an advisor from her or his own research field. Prerequisite: HIST 593.

HIST 596  Individual Research Project  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/596/)
Directed research in special fields; may be taken in lieu of seminars in fields in which seminars are seldom offered. Topics will be listed in the
department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 597  Reading Course  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/597/)
Directed readings in special fields. Primarily, but not exclusively, for students with a master's degree or equivalent, who are preparing for the
preliminary examination in history and who need instruction in areas not provided by current course offerings. Approved for letter and S/U grading.
May be repeated in the same or subsequent terms as topics vary. Prerequisite: Consent of instructor.

HIST 598  Teaching of College History  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HIST/598/)
Approved for S/U grading only. May be repeated. Prerequisite: Candidate for Ph.D. degree in history.

HIST 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/HIST/599/)
Individual direction in research and guidance in writing theses for advanced degrees. Approved for S/U grading only. May be repeated.

Information listed in this catalog is current as of 01/2022
HNDI - Hindi

HNDI Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HNDI/)

Courses

HNDI 115 Language and Culture in India credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/115/)
Same as LING 115 and REL 115. See LING 115.
This course satisfies the General Education Criteria for:
Cultural Studies - Non-West

HNDI 199 Undergraduate Open Seminar credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/199/)
May be repeated.

HNDI 201 Elementary Hindi-Urdu I credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/201/)
Introduction to the Hindi/Urdu language; includes conversation with a native Hindi/Urdu-speaking tutor under the direction of a linguist instructor, and a minimum of formal grammar and Devanagari writing; introduction to Arabic-Persian script by arrangement. Participation in the language laboratory is required.

HNDI 202 Elementary Hindi-Urdu II credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/202/)
Second term of spoken Hindi/Urdu; includes conversation with a native Hindi/Urdu-speaking tutor under the direction of a linguist instructor, formal grammar based on conversational materials, and work on written Hindi; concentration on written Urdu by arrangement. Participation in the language laboratory is required. Prerequisite: HNDI 201.

HNDI 403 Intermediate Hindi I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/403/)
First term of second year of the Hindi language, including drill for more advanced conversational fluency; introduction to a greater variety of styles and levels of discourse and usage; and increasing study of the written language and more formal grammar. 4 undergraduate hours. 4 graduate hours. Prerequisite: HNDI 202 or equivalent.

HNDI 404 Intermediate Hindi II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/404/)
Concentration on ability to engage in reasonably fluent discourse in Hindi, on comprehensive knowledge of formal grammar, and on ability to read ordinary texts in Hindi. 4 undergraduate hours. 4 graduate hours. Prerequisite: HNDI 403 or equivalent.

HNDI 405 Advanced Hindi I credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/405/)
Course for advanced knowledge of spoken and written Hindi. Participation in the language laboratory is required. 3 undergraduate hours. 3 graduate hours. Prerequisite: HNDI 404 or consent of instructor.

HNDI 406 Advanced Hindi II credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/406/)
Course for advanced knowledge of spoken and written Hindi with emphasis on modern Hindi literature and language. Participation in the language laboratory is required. 3 undergraduate hours. 3 graduate hours. Prerequisite: HNDI 405 or consent of instructor.

HNDI 408 Intro to South Asian Lit credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/408/)
Introduces selected literatures of South Asia in a cross-cultural and comparative perspective: emphasizes relating literary texts and trends to the historical, sociocultural, political, and literary contexts of the subcontinent. Texts for South Asian languages are offered in English translation; in addition, there will be texts by South Asian authors written in English. Knowledge of a South Asian language not required. 3 undergraduate hours. 3 graduate hours. Prerequisite: Consent of course coordinator.

HNDI 412 Business Hindi credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/412/)
Study and analysis of Business Hindi in a wide variety of contexts and settings (from Metropolitan to rural). 3 undergraduate hours. 3 graduate hours. Prerequisite: HNDI 403 or higher or consent of instructor.

Information listed in this catalog is current as of 01/2022
HORT - Horticulture

HORT Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HORT/)

Courses

HORT 100  Introduction to Horticulture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HORT/100/)
Basic principles of plant growth and development as they apply to the production, marketing, and utilization of fruits, vegetables, and ornamental plants. Additional fees may apply. See Class Schedule. Credit is not given for both HORT 100 and HORT 106.

HORT 105  Vegetable Gardening  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HORT/105/)
The science and art of growing vegetables and the connection between gardening and food. Topics include nutrient and pest management, history, folklore, growing requirements, and quality characteristics of vegetables. Lecture and laboratory. Additional fees may apply. See Class Schedule.

HORT 106  The Sustainable Home Garden  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HORT/106/)
Create inviting and sustainable indoor and outdoor living spaces with plants, whether your landscape is several acres or a few containers on an urban balcony. This blended-format class meets 1 hour per week for lecture and discussion with additional instruction presented through independent learning activities including virtual field trips, on-line lectures, and instructional videos. Learn the fundamentals of environmentally sound resource use when designing with and maintaining flowering, fruit and vegetable plants, lawns, trees and shrubs around your home. Become a savvy horticultural consumer and develop a healthy lifestyle that supports positive physical and mental well-being by including greenspace activities in your daily life. Additional fees may apply. See Class Schedule. Credit is not given for both HORT 106 and HORT 100.

HORT 199  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HORT/199/)
Experimental course on a special topic in horticulture. Approved for Letter and S/U grading. May be repeated as topics vary.

HORT 205  Local Food Systems  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HORT/205/)
Prepares students to be leaders and facilitators in local food systems. The focus is on providing the knowledge and skills to initiate and manage community food gardens, school gardens and curricula, institutional buying programs, farmers markets, community supported agriculture, and urban farm networks. Requires participation in on-farm labs at the Sustainable Student Farm, as well as a group food system project and an experience with a local food organization. Prerequisite: An introductory course in HORT or CPSC or consent of instructor.

HORT 223  The Intelligent Behavior of Plants  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HORT/223/)
This course provides students with an introduction into the study of plant behavior, which focuses on how plants interact with and respond to the world around them. Topics include a basic overview of plant anatomy and physiology, a comparative examination of behavioral and communication mechanisms used by plants and animals, and an analysis of the controversial arguments regarding plant intelligence. This course satisfies the General Education Criteria for:
Advanced Composition
Nat Sci Tech - Life Sciences

HORT 240  Plant Propagation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HORT/240/)
Examines theories and methods employed in propagation of plants, emphasizing anatomical, physiological, and ecological principles involved in sexual propagation (seeds) and asexual propagation (division, cuttings, budding, grafting, tissue culture, etc.) Additional fees may apply. See Class Schedule. Prerequisite: IB 103.

HORT 341  Greenhouse Mgmt and Production  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HORT/341/)
Focuses on how controlled environments can be managed to obtain optimal plant growth. Lectures cover greenhouse operations, management, and production, including: greenhouse design, location, glazing, heating, cooling, environmental control, irrigation systems, light control, root media, fertilization, watering, integrated pest management, and automation. The course also has a large laboratory component, in which students conduct experiments in the greenhouse. A required all-day field trip to nearby greenhouse operations rounds out the course experience. Additional fees may apply. See Class Schedule. Prerequisite: IB 103 and HORT 100.

HORT 344  Planting for Biodiversity and Aesthetics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HORT/344/)
As the demand for food increases, plants in ornamental landscapes will need to provide not only beauty but also species biodiversity critical for supporting sustainable food production. Course emphasizes species identification (predominantly herbaceous perennials), management, and planting design principles. Designing for multiple contexts, such as residential and community gardens, and large scale production sites, to provide multiple ecosystem services, especially supporting human aesthetic preferences, and habitat for pollinators. Additional fees may apply. See Class Schedule. Prerequisite: IB 103.

HORT 360  Vegetable Crop Production  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HORT/360/)
Instruction on the commercial production of vegetable crops. The first part of the class focuses on broad issues important to all crops including methods of vegetable production, basic soil and nutritional management, irrigation, and weed, insect, and disease management. Both organic and conventional production are discussed with a focus on sustainability. Basic farm and business management topics, including postharvest handling, food safety, crop and farm budgets, business structures, marketing, insurance, and regulations are also discussed. The second part of the class focuses on specific crops, emphasizing their origin, production, growth and development, insects, and diseases as well as harvesting and postharvest handling. Prerequisite: HORT 100 or equivalent.
HORT 361 Small Fruit Production  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HORT/361/)
Technological application of biological principles to the culture of strawberry, grape, blueberry, raspberry, blackberry, currant, gooseberry, and miscellaneous small fruits. Prerequisite: HORT 100 or IB 103.

HORT 362 Tree Fruit Production  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HORT/362/)
Examines biological principles and cultural practices involved in the growth and production of apple, pear, peach, cherry, plum, apricot, almond, and miscellaneous citrus and nut crops. Offered every fall semester. Prerequisite: HORT 100 or IB 103.

HORT 363 Postharvest Handling Hort Crop  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HORT/363/)
Provides theoretical and practical experience in the principles and practices of postharvest handling of cut flowers, ornamentals, fruits, and vegetables, emphasizing factors that impact quality, shelf-life, and safety. Requires two field trips, one to a local produce warehouse and the other to local supermarkets. Offered every fall semester. Prerequisite: HORT 100, CHEM 102, CHEM 103, IB 103.

HORT 393 Horticulture Internship  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/HORT/393/)
Supervised experience in a field directly pertaining to a subject matter in horticulture. Approved for S/U grading only. May be repeated in separate terms. Independent Study courses are limited to 12 hours total applying to a degree in ACES. For registration in this course students should contact the Department Undergraduate Program Coordinator. Prerequisite: Sophomore standing, cumulative GPA of 2.0 or above at the time the internship is arranged, and consent of instructor.

HORT 395 Undergrad Research or Thesis  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HORT/395/)
Independent research, special problems, thesis, development and/or design work under the supervision of an appropriate member of the faculty. May be repeated. Independent Study courses are limited to 12 hours total applying to a degree in ACES. Prerequisite: Cumulative GPA of 2.5 or above at the time the activity is arranged and consent of instructor.

HORT 396 Ug Honors Research or Thesis  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HORT/396/)
Individual research, special problems, thesis, development and/or design work under the direction of the Honors advisor. May be repeated. Independent Study courses are limited to 12 hours total applying to a degree in ACES. Prerequisite: Junior standing, admission to the ACES Honors Program, and consent of instructor.

HORT 421 Horticultural Physiology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HORT/421/)
Horticultural crop growth is examined in relation to plant structure, environment, and cultural practices. Emphasizes environmental control of whole plant growth as influenced by the supply of the raw materials required for growth: water, carbon dioxide, radiant energy, including the influence of temperature and photoperiod on plant growth and development. The shoot and root interactions with the environment are characterized relative to cultural practices. 4 undergraduate hours. 4 graduate hours. Prerequisite: HORT 100 or IB 103 and junior standing.

HORT 430 Children and Nature  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HORT/430/)
Study of research theory and evidence suggesting the importance of children's contact with natural environments including, designed urban greenspaces, managed sustainable landscapes, and wilderness, for healthy child development, ecological literacy, and pro-environmental behavior as adults. Discussion of research implications and applications for redesigning our communities' outdoor spaces, societal values, public policies and education systems to foster children's access to, and bonding with, nature. Same as LA 430. 2 undergraduate hours. 2 graduate hours.

HORT 435 Urban Food Production  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HORT/435/)
Explore opportunities and challenges for maximizing the productivity and sustainability of urban food production systems, considering agricultural, environmental, energy, social, and economic issues. Students will examine the science and practice of urban agriculture through scientific and popular literature, case studies, online discussion, and service-learning opportunities. Production systems covered will include both outdoor (e.g., vacant lot urban farms) and controlled environment (e.g., hydroponics and aquaponics) agriculture. 3 undergraduate hours. 3 graduate hours. Prerequisite: HORT 100 or CPSC 112 or equivalent introductory course in plant science.

HORT 442 Plant Nutrition  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HORT/442/)
Mechanisms and factors affecting the absorption, transport, distribution, and functions of the essential elements required by higher plants. 4 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: NRES 201 and IB 420.

HORT 447 Horticultural Plant Breeding  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HORT/447/)
Methodology, objectives, and constraints of breeding for improved cultivars of flowers, woody ornamentals, turfgrasses, fruits, and vegetables. Emphasis on breeding objectives unique to horticultural commodities such as color, appearance, flavor, shelf-life, nutritional value, and other characteristics that determine product quality. 3 undergraduate hours. 3 graduate hours. Offered in alternate years. Prerequisite: CPSC 352.

HORT 499 Advanced Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HORT/499/)
Advanced experimental course on a special topic in horticulture. 1 to 4 undergraduate hours. 1 to 4 graduate hours. Approved for Letter and S/U grading. May be repeated if topics vary.
HRD - Human Resource Development

HRD Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HRD/)

Courses

HRD 400 Principles of Human Resource Education credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/400/)
Same as EPOL 470. See EPOL 470.

HRD 402 Business Principles for Human Resource Development credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/402/)
Same as EPOL 471. See EPOL 471.

HRD 411 Instructional and Training System Design credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/411/)
Same as EPOL 472. See EPOL 472.

HRD 414 Facilitation Skills credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/414/)
Same as EPOL 473. See EPOL 473.

HRD 415 Diversity in the Workplace credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/415/)
Same as EPOL 474. See EPOL 474.

HRD 440 Work Analysis credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/440/)
Same as EPOL 475. See EPOL 475.

HRD 470 Designing and Evaluating eLearning Systems credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/470/)
Same as EPOL 482. See EPOL 482.

HRD 472 Learning Technologies credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/472/)
Same as CI 484 and EPOL 483. See EPOL 483.

HRD 474 Evaluating Learning Technology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/474/)
Same as EPOL 484 and EPSY 474. See EPSY 474.

HRD 475 Project Management Principles and Applications credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/475/)
Same as EPOL 476. See EPOL 476.

HRD 480 Introduction to eLearning credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/480/)
Same as EPOL 485. See EPOL 485.

HRD 490 Issues and Developments in Human Resource Development credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/490/)
Same as EPOL 477. See EPOL 477.

HRD 492 Supervised Internship credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/492/)
Same as EPOL 491. See EPOL 491.

HRD 495 Special Study and Investigation credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/495/)
Same as EPOL 490. See EPOL 490.

HRD 501 The Community College credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/501/)
Same as EOL 573 and EPOL 558. See EPOL 558.

HRD 509 Advanced Theories in Human Resource Development credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/509/)
Same as EPOL 571. See EPOL 571.

HRD 530 Organization Development credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/530/)
Same as EPOL 570. See EPOL 570.

HRD 531 Quality Process Improvement credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/531/)
Same as EOL 587 and EPOL 572. See EPOL 572.

HRD 532 Strategic Human Resource Development credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/532/)
Same as EPOL 573. See EPOL 573.

HRD 533 Management of Human Resource Development credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/533/)
Same as EPOL 574. See EPOL 574.

HRD 534 Economics of Human Resources credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/534/)
Same as EPOL 575 and LER 545. See LER 545.

HRD 535 Consulting in Human Resource Development credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/535/)
Same as EPOL 576. See EPOL 576.

HRD 536 International Human Resource Development credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/536/)
Same as EPOL 577. See EPOL 577.

HRD 540 Learning on the Job credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/540/)
Same as EPOL 578. See EPOL 578.

Information listed in this catalog is current as of 01/2022
HRD 550  Adult and Professional Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/550/)
This course takes a broad look at the philosophy, theory, research, and practice of adult education, along with additional considerations for the
development of professionals. The broad perspective includes the social, cultural, and political factors that affect the research, planning, development,
and implementation of adult education. You may explore the major adult learning theories, the practice of adult education, and the aims and
challenges of professional education that match you scholarly and practical interests. Same as EPOL 579. 4 graduate hours. No professional credit.

HRD 572  eLearning Ecologies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/572/)
Same as EPOL 583. EPOL 583.

HRD 575  Innovation in eLearning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/575/)
Same as EPOL 584. See EPOL 584.

HRD 585  Program Evaluation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/585/)
Same as ERAM 556. See ERAM 556.

HRD 592  Special Topics in EPOL  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/592/)
Same as EPOL 592. See EPOL 592.
HT - Health Technology

HT Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HT/)

Courses

HT 501  Understanding Users of Health Technology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HT/501/)
The purpose of this course is to provide a broad overview of human characteristics related to health technology. Topics will include physical (e.g., anthropometry, biomechanics); sensory (e.g., vision, hearing), cognitive (e.g., learning capabilities, memory limitations); attitudinal (e.g., technology acceptance, behavior change), socioemotional (e.g., personality, motivation), and organizational (e.g., workplace policies, culture) characteristics. Students will learn to apply theories of human behavior related to health technology use such as behavior change, reasoned action, self-determination, person-environment fit to guide design and deployment of health technology. 4 graduate hours. No professional credit. Prerequisite: Priority will be given to Health Technology graduate students. Other students please contact the instructor.

HT 502  Human Factors Methods for Health Technology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HT/502/)
The purpose of this course is to introduce students to the basic tenets of human factors methods to enable successful user-centered design of healthcare technologies. Students will learn about socio-technical systems and develop an understanding of interactions among humans and other elements of a system. Students will acquire skills to apply theory, principles, data, and methods to design that will optimize human well-being and overall system performance. Students will learn how to find information to guide design through literature review, standards evaluation, and comparative assessments. 4 graduate hours. No professional credit. Prerequisite: Priority will be given to Health Technology graduate students. Other students please contact the instructor.

HT 503  Hardware Engineering for Health Technology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HT/503/)
In this course, students will explore the role of hardware in developing health technologies. Students will understand how various health technologies are developed and how they operate. HT 503 surveys hardware-engineering topics for health technology and will include exposure to and initial examination of topics. Topics may include: Sensors and Actuators in Healthcare; Common Prototyping platforms (Arduino, Raspberry Pi, Jetson Nano); Robot Operating System (ROS) Platforms; Cameras, LIDARs, Motion-Detection Systems (Microsoft Kinect, etc); Haptic Sensors; Dynamics of Wheeled Personal Transport Systems (Wheelchairs, etc.); Integrative Final Course-Project. Although there is not a traditional lab associated with this class, the course will include lectures, discussion, and hands-on activity based projects. 4 graduate hours. No professional credit. Prerequisite: Priority will be given to Health Technology graduate students. Other students please contact the instructor.

HT 504  Software Engineering for Health Technology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HT/504/)
In this course, students will be introduced to aspects of software engineering to become familiar with rapid prototyping software, programming languages, and app development tools. HT 504 surveys software engineering topics for health technology and will include exposure to and initial examination of topics. Topics may include: Integrated Development Environments (IDEs) for Android/iPhone applications; Virtual Reality (VR) Environments; Basics of AWS-Lambda functions for voice-applications; Software for Analytics and Data-analytics overview; Software for Machine-Learning; MATLAB, SIMULINK and associated packages; User Interface Compilers (UIC); JAVA; PYTHON; MATLAB; ROS; Integrative Final Course-Project. Although there is not a traditional lab associated with this class, the course will include lectures, discussion, and hands-on activity based projects. 4 graduate hours. No professional credit. Registration priority will be given to Health Technology graduate students. Other students please contact the instructor.

HT 510  Health Technology Capstone Orientation  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/HT/510/)
In this course, students will be exposed to a variety of industry, community organization, government, and academic environments with health technology projects/challenges needing solutions. Guest speakers will acquaint students with their unique needs to match students with community/industry/government/academic partners. Students will explore possible Capstone Project topics and will decide on their capstone project by the end of the semester. HT 510 prepares students and is a prerequisite of HT 511. 1 graduate hour. No professional credit. Prerequisite: Restricted to majors only.

HT 511  Health Technology Capstone Development  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HT/511/)
In this course students will be introduced to topics critical to their success in developing their Capstone Project in the area of health technology. These topics include: ethics and IRB, government regulations and policies in devices, and design thinking. Students will finalize the details of their Capstone Project topic, connect with community/industry/government/academia, and identify a faculty mentor for their project. HT 511 prepares students and is a prerequisite for HT 512. 3 graduate hours. No professional credit. Prerequisite: HT 510. Restricted to majors only.

HT 512  Health Technology Capstone Implementation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HT/512/)
In this course, students will engage in health technology design activities to develop solutions to projects provided by industry, government, or community partners. Students will incorporate human factors, design thinking, and engineering principles to develop their projects. The course is designed to provide students with capstone project design experiences and professional insights to prepare them for work in the broad field of health technology. Students are encouraged to share their experiences with fellow students and learn from each other. Prerequisites: HT 511 and completion of Affiliation Agreement. 4 graduate hours. No professional credit. Prerequisite: HT 511 and completion of an affiliation agreement. Restricted to majors only.

HT 594  Special Topics in Health Technology  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HT/594/)
Lecture course in topics of current interest in Health Technology; specific subject/topic will be announced in the Class Schedule. 1 to 4 graduate hours. No professional credit. May be repeated up to 8 hours in the same semester to a maximum of 12 hours in subsequent semesters, if topics vary.
HUM - Humanities Courses

HUM Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HUM/)

Courses

HUM 110  Introduction to the Humanities I: Philosophy & Art History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HUM/110/)
A foundation course in the humanities for adult learners in the Odyssey program. Team-taught by faculty in Philosophy and Art History, it focuses on close, attentive, and critical readings of key texts and images drawn from the history of the Western tradition, presented in chronological order. The course engages beginning students in the distinctive disciplinary forms of philosophical and art historical inquiry, and provides academic skill building, critical thinking, and writing. Approved for Letter and S/U grading. Prerequisite: Restricted to adult students in the Odyssey program.

HUM 111  Introduction to the Humanities II: Literature & US History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HUM/111/)
A foundation course in the humanities for adult learners in the Odyssey program. Team-taught by faculty in Literature and History, the course focuses on fiction, poetry, drama, and autobiography, as well as primary sources that make up the building blocks of historical interpretation. The course engages beginning students in the distinctive disciplinary forms of literary and historical inquiry, and provides academic skill building, critical thinking, and writing. Approved for Letter and S/U grading. Prerequisite: Restricted to adult students in the Odyssey program.

HUM 191  Freshman Honors Tutorial  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/HUM/191/)
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars. May be repeated one time. Prerequisite: Consent of departmental honors adviser.

HUM 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/HUM/199/)
May be repeated.

HUM 275  Careers for Humanities Majors  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HUM/275/)
Humanities majors will prepare for their professional lives while they explore the many forms those might take. Field trips to local organizations and businesses, networking opportunities, and invited speakers will expose students to the pathways between humanities fields and the postgraduate world. This course will prepare students to translate the skills they gain in their major to a wide range of careers. Students may not receive credit for both SLAV 300 and HUM 275. Prerequisite: Restricted to students with junior or senior standing in the following majors: African-American Studies, Art History, Asian American Studies, Classics, Comparative and World Lit, Creative Writing, East Asian Languages and Cultures, English, Gender and Women's Studies, German, History, French, Italian, Jewish Studies, Latino/Latina Studies, Linguistics, Philosophy, Portuguese, Religion, Russian Language and Literature, Slavic Studies, Spanish.

HUM 390  Individual Study  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HUM/390/)
Supervised reading and research on interdisciplinary humanities topics chosen by the student in consultation with a faculty member. May be repeated to a maximum of 8 hours. Prerequisite: Consent of humanities adviser (An approved Learning Agreement must be submitted to 2002 Lincoln Hall, 702 S. Wright Street, Urbana, not later than the second week of the semester or the first week of the summer session).

HUM 395  Special Topics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HUM/395/)
Interdisciplinary topics in the humanities; topics vary, but are normally related to one of the options in the humanities major. May be repeated if topics vary. Students may register in more than one section per term.

HUM 397  Special Topics Junior  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HUM/397/)
Interdisciplinary seminar and tutorial in selected topics related to one of the options in the humanities major. May be repeated to a maximum of 6 hours. Prerequisite: Junior standing and consent of humanities adviser (Tutorial students must submit an Approved Learning Agreement to 2002 Lincoln Hall, 702 S. Wright Street, Urbana, not later than the second week of the semester or the first week of the summer session).

HUM 492  Senior Thesis  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HUM/492/)
Individual research for majors in humanities leading to the completion of a thesis. 0 to 4 undergraduate hours. No graduate credit. May be repeated to a maximum of 8 hours. Prerequisite: Senior standing, a declared option in humanities major, and consent of advisor.

HUM 495  Special Advanced Topics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HUM/495/)
Offers interdisciplinary topics in the humanities; topics vary, but normally relate to the interdisciplinary areas of study within the humanities major or to the special humanities facilities (e.g., the Language Learning Laboratory). 3 undergraduate hours. 4 graduate hours. May be repeated as topics vary to a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: Will vary according to topic. See Class Schedule.

HUM 498  Special Topics Senior  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HUM/498/)
Interdisciplinary seminar and tutorial in selected topics related to one of the options in the humanities major. 3 undergraduate hours. No graduate credit. May be repeated to a maximum of 6 hours. Prerequisite: Senior standing and consent of humanities adviser (Tutorial students must submit an approved Learning Agreement to 2002 Lincoln Hall, 702 S. Wright Street, Urbana, not later than the second week of the semester or the first week of the summer session).
IB - Integrative Biology

IB Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/IB/)

Courses

IB 100  Biology in Today's World  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/100/)
Introduction to biology for the non-major. In-depth focus on three contemporary problems—maintaining a livable environment, issues of human health, and evolution.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

IB 103  Introduction to Plant Biology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/103/)
Basic principles of growth and form, physiology, genetics, evolution, and ecology in plant biology. Lecture and laboratory.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

IB 104  Animal Biology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/104/)
Introductory zoological concepts with emphasis on the diversity and comparative anatomy of animals and the fundamentals of physiology, genetics, evolution, and behavior. Lecture and laboratory. The laboratory includes vertebrate dissection.

IB 105  Environmental Biology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/105/)
Introduction to ecological principles in relation to understanding environmental problems; course emphasizes impacts upon ecosystems by human activities such as air and water pollution, usage of pesticides and pest control measures, expansion of agriculture in tropics and arid regions, harvesting the oceans, and development of energy sources.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

IB 108  The Biology of Dinosaurs  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/108/)
The origin, diversity, and extinction of dinosaurs will serve as a conceptual framework to explore fundamental principles of biology. We will consider dinosaurs as animals, examining evidence for their physiology and behavior, and how evolution and speciation produced the diversity of dinosaurs. We will relate the influence of Earth's changing environments on dinosaurs to environmental change on human timescales. We will emphasize how scientists collect and evaluate fossil data through an understanding of living organisms.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

IB 110  Race and Environmental Biology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/110/)
The environment each person experiences is created by cultural, biological, and political factors. We will explore how race and culture shape environment and the underlying biological processes that influence the people and organisms that occur in these environments. We will also explore how politics can further shape environments for various racial and ethnic groups.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences
Cultural Studies - US Minority

IB 150  Organismal & Evolutionary Biol  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/150/)
Introduction to physiology, genetics, and evolution of organisms, and their ecology and diversity.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

IB 151  Organismal & Evol Biol Lab  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IB/151/)
Topics follow lecture topics in IB 150 and include labs in ecology, plant and animal function, and genetics and evolution. Designed for non-majors needing a year of biology with lab. Credit is not given for IB 151 for Integrative Biology or Molecular and Cellular Biology majors. Prerequisite: Credit or concurrent registration in IB 150.

IB 199  Undergraduate Open Seminar  credit: 0 to 5 Hours. (https://courses.illinois.edu/schedule/terms/IB/199/)
Approved for both letter and S/U grading. May be repeated to a maximum of 5 hours.

IB 202  Physiology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/202/)
How animals function in acquiring, processing, and allocating resources in the face of environmental constraints. The inquiry-based laboratory emphasizes testing of hypotheses related to functioning of physiological components of the basic systems of animals. Lecture only, 3 hours; with laboratory, 4 hours. Students must complete the laboratory portion of the course to receive 4 hours of credit. The laboratory includes vertebrate dissection. Prerequisite: IB 150 and MCB 150.
IB 203  Ecology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/203/)
The links between evolution and ecology, population dynamics, community structure and function, and ecosystem function on local and global scales.
Basic ecology needed to understand environmental problems and to conserve biodiversity. Investigations in both field and laboratory included.
Prerequisite: IB 150 and MCB 150.
This course satisfies the General Education Criteria for:
Advanced Composition

IB 204  Genetics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/204/)
The fundamentals of inheritance, with an emphasis on eukaryotes. Major topics include transmission genetics, quantitative genetics, cytogenetics, genomics, genetics of development and behavior, and population genetics. Laboratory emphasizes an experimental, inquiry-based approach to modern and classical genetics. Lecture only, 3 hours; with laboratory, 4 hours. Students must complete the laboratory portion of the course to receive 4 hours of credit. Prerequisite: IB 150 and MCB 150.

IB 210  The Biology of Sex: From Molecules to Societies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/210/)
The biological study of sexual reproduction, through the survey of molecular and physiological processes and with reference to the function, ecology, behavior, and evolution of sexual and asexual reproduction in human societies and other organisms. Using student-driven library-research, and written and verbal team presentations on primary data papers, the course also explores the methods of originating, analyzing, and interpreting sex-focused scientific data.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

IB 220  Applied Entomology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/220/)
Same as CPSC 270 and NRES 270. See CPSC 270.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

IB 230  Pandemics  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IB/230/)
Pandemics (global outbreaks of infectious disease) are among the most impactful events in human history. Through this course, we will study the major historical and modern pandemics from a biological, social, and political perspective. We will compare these past events to the public health crisis caused by COVID-19 and use this knowledge to interpret events and scientific discoveries related to pandemics.

IB 270  Evolution of Molecules & Cells  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/IB/270/)
The major evolutionary transitions of biomolecules and cells including: energy acquisition and metabolism; information inheritance, system regulation, and genomes; the origin of life and of the prokaryotic cell, eukaryotic cell, and multicellularity. Lecture and laboratory. Credit is not given for both IB 270 and IB 204. Prerequisite: Admission to the IB honors biology option; credit or concurrent registration in organic chemistry.

IB 271  Organismal Biology  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/IB/271/)
Integrated study of the diversity and structure and function of plants and animals in evolutionary and environmental contexts. Conceptual themes and techniques of molecular and cellular levels of biological organization will be integrated as well. Lecture and laboratory. The laboratory includes vertebrate dissection. Credit is not given for both IB 271 and IB 202. Prerequisite: IB 270; good standing in the honors biology option.
This course satisfies the General Education Criteria for:
Advanced Composition

IB 290  Introduction to Undergraduate Research in Integrative Biology  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IB/290/)
An introduction to the practice of scientific research through hands-on experience and direct faculty interaction. Through weekly discussions, students are exposed to a variety of research topics, methods and careers in Integrative Biology and practice the steps involved in devising, planning, executing and presenting a scientific research project. Students are also assigned to a faculty advisor and work three hours a week on a laboratory and/or field research project. Prerequisite: Restricted to IB majors only.

IB 292  Translating Your IB Degree Into Career Success  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IB/292/)
An exploration into what career options are available to students interested in biology. Students will develop the skills to stand out as an applicant and how to break into competitive fields, even in a tough or uncertain job market. The resources and connections necessary to be successful in biology will be presented, and over 20 alumni who are professionals in many biology- and health-related fields will provide insight and commentary. All assignments are real-life applications of course material, with every component meant to further career goals. Approved for S/U grading only.
Prerequisite: For students pursuing biology- or health-related careers.

IB 299  Undergraduate Special Course  credit: 0 to 5 Hours. (https://courses.illinois.edu/schedule/terms/IB/299/)
Approved for Letter and S/U grading. May be repeated in the same term; may be repeated in separate terms to a maximum of 6 hours.

IB 302  Evolution  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/302/)
Broad introduction to evolutionary biology, including natural selection and microevolution, phylogeny, speciation, molecular evolution, macroevolution and the fossil records. The laboratory emphasizes a survey of biodiversity and processes and patterns of evolution. Prerequisite: IB 204 or consent of instructor.

Information listed in this catalog is current as of 01/2022
IB 303  Anatomy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/303/)
An overview of the body structure of vertebrate animals, with a special focus on mammals including humans. Body structure will be investigated from evolutionary, developmental, and human health perspectives through lectures, in-class activities, and required laboratory dissections. Through this course, students will develop a better understanding of anatomy vocabulary, the anatomical design of vertebrates, vertebrate development, and how vertebrate anatomy and development are related to each other, to organismal function, and to human health. Prerequisite: IB 150.

IB 329  Animal Behavior  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/329/)
Introductory course emphasizing how patterns of behavior promote survival, change through evolution, and are modified by the environment. Same as ANSC 366, ANTH 342, and PSYC 329.

IB 335  Plant Systematics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/335/)
Introduces the principles and methods of identifying, naming, and classifying flowering plants; provides an introduction to the natural history of flowering plants (pollination biology, dispersal mechanisms, breeding systems) and the use of phylogeny estimation in producing modern classifications; develops skills in using plant identification keys; and includes a survey of 40 of the most important plant families distributed worldwide.

IB 348  Fish and Wildlife Ecology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/348/)
Same as NRES 348. See NRES 348.

IB 360  Evolution and Human Health  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/360/)
Our health is inseparably tied to our evolutionary history. As a result, evolution is an important underpinning discipline for health professionals. This course first provides an overview of evolutionary processes, molecular evolution, human evolution, life history theory, and evolutionary-developmental biology. Second, it illustrates the application of these principles to our understanding of nutrition and metabolism, reproduction, disease and stress, and behavior. Third, it shows in practical terms how the principles of evolutionary medicine can be applied in medical practice and public health. Same as ANTH 360. Prerequisite: IB 302 or MCB 250 or MCB 244, or consent of instructor.

IB 361  Ecology and Human Health  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/361/)
Exploration of the emergence of infectious diseases and other human health issues from an ecological perspective, including vector-borne diseases, diseases spread from wildlife in terrestrial and aquatic ecosystems, and the role of pathogens and parasites in community and population ecology, food webs, and ecosystem functioning. Attention will be placed on how current and future global change and biodiversity loss will contribute to the increasing prevalence of human emerging diseases. Same as ANTH 361.

IB 362  Marine Biology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/362/)
Study of the major marine environments on earth, the huge diversity of organisms that live in them, and the ecological and functional reasons why these organisms live where they do. Also examines the impacts of human and their activities upon the sustainability of marine resources. Designed for students with some background in biology and evolution and interest in marine biodiversity, ecology, and conservation.

IB 364  Genomics and Human Health  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/364/)
Highlights advances in understanding the human genome, by utilizing the latest techniques in bioinformatics, i.e. acquiring, analyzing, storing, and displaying the information from the entire genome and protein sequences. The course describes the theory and practices behind modern sequencing techniques and explores the genome with a particular emphasis on the use of extensive online databases and software. Students will analyze one human disorder using bioinformatics software and databases in order to update older published literature about the genomics underpinning the disorder. Prerequisite: IB 204 or consent of instructor.

IB 368  Vertebrate Natural History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/368/)
Introduction to the classification, life histories, adaptations, and ecology of fishes, amphibians, reptiles, birds, and mammals. Focus is on species of the Midwest region. Laboratory emphasizes identification and distribution of Illinois' vertebrate fauna. Some Saturday field trips are required. Same as NRES 368. Prerequisite: IB 203 or NRES 219 or consent of instructor.

IB 372  Ecology and Evolution  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/IB/372/)
Integrated study of ecology, population genetics, and evolution. Conceptual themes and techniques from the molecular, cellular, and organismal levels of biology will be integrated as well. Lecture, laboratory, and field work. Credit is not given for both IB 372 and either IB 203 or IB 302. Prerequisite: IB 271; good standing in the IB honors biology option.

IB 390  Undergraduate Research Experience  credit: 0 to 5 Hours. (https://courses.illinois.edu/schedule/terms/IB/390/)
Laboratory and/or field research and/or reading supervised by faculty members in the School of Integrative Biology. Approved for S/U grading only. May be repeated to a maximum of 10 hours. Credit is not given for more than a combined maximum of 10 hours of IB 390 or IB 490 towards graduation for IB majors. Prerequisite: Consent of instructor.

IB 401  Introduction to Entomology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/401/)
Integrated studies of the principal morphological, physiological, ecological and behavioral relationships among insects. Lecture and laboratory. 3 or 4 undergraduate hours. 3 or 4 graduate hours. An insect collection will be required for 4 hours credit. Prerequisite: IB 150; or consent of instructor.

IB 405  Evolution of Traits and Genomes  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/405/)
Study of the evolution of phenotypic traits and genetics of natural populations, stressing empirical observations and experiments. Emphasis on recent theories of genotype/environmental interactions and their relationship to evolutionary processes. Offered in alternate years. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 204; or consent of instructor.
IB 411  Bioinspiration credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/411/)
Focuses on how experts in biology and technological fields find inspiration in nature and use it as a model to make technological innovations and solve societal problems. In the future, our day-to-day living, health, and the environment will benefit from interdisciplinary teams using findings in basic biological research for technological innovation. Topics to be explored include human health, efficient architecture, cooperative control, robotics, swarm logic, and advanced biological materials. 3 undergraduate hours. 3 graduate hours.

IB 416  Population Genetics credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/416/)
Same as ANSC 446. See ANSC 446.

IB 420  Plant Physiology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/420/)
General course concerned with plant functions, including water relations, mineral nutrition, metabolism, growth, and reproduction. Same as CPSC 484. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 103 or IB 150 and MCB 150; CHEM 232; or consent of instructor.

IB 421  Photosynthesis credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/421/)
Comprehensive description of photosynthesis. Topics include: the photosynthetic membranes, light absorption, electron and proton transfer, phosphorpyrophosphorylation, water oxidation, RUBP carboxylase/oxygenase, photorespiration, whole plant photosynthesis, gas exchange and atmospheric interactions, and impacts of global environmental change. Same as BIOP 432 and CPSC 489. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 420, MCB 354, MCB 450, BIOP 401; or equivalent; or consent of instructor.

IB 426  Env and Evol Physl of Animals credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/426/)
Physiological adaptations of invertebrate and vertebrate animals to diverse aquatic and terrestrial environments and the extreme habitats embodied therein. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 150; IB 202; CHEM 232; or consent of instructor.

IB 427  Insect Physiology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/427/)
The principal physiological and biochemical functions of insects. Lecture and laboratory. Offered in alternate years. 4 undergraduate hours. 4 graduate hours. Prerequisite: IB 202 and IB 401; or consent of instructor.

IB 430  Animal Behavior Lab credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/430/)
Inquiry-driven laboratory course in animal behavior. Students work in groups to generate hypotheses, design experiments, collect and analyze data, and write up their results. Experiments will be carried out in both the field and lab. Discussions emphasize the scientific process, including hypothesis testing, and experimental design and statistics. 3 undergraduate hours. No graduate credit. Prerequisite: IB 329. For majors only.

IB 431  Behavioral Ecology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/431/)
In-depth examination of areas of current interest at the interface of behavior, ecology, and evolution; focuses on communication, foraging, and social behavior. 3 undergraduate hours. 3 graduate hours. Offered in alternate years. Prerequisite: IB 329; or consent of instructor.

IB 432  Genes and Behavior credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/432/)
Concepts, methods, and problems in the analysis of the relationship between genes and behavior, the complex neurobiological processes that mediate action on behavior, in appropriate ecological and evolutionary contexts. Same as ANTH 432, NEUR 432, and PSYC 432. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 150 and IB 204; or consent of instructor.

IB 434  Physical Principles in Biology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/434/)
Examines the interaction between biological processes and the fundamental laws of mechanics. Covers general topics, such as structural analyses of anatomy, kinematics of movement, the behavior of organisms in fluids, and the importance of scaling, as well as specific topics, such as bird flight, fluid flow in cardio-vascular systems, and high speed predation. Lab culminates in student-designed, group projects to collect novel biomechanical data to answer questions about the organism of the students’ choice. 3 undergraduate hours. No graduate credit. Prerequisite: IB 202 or consent of instructor; Physics 101 is recommended.

IB 435  Critical Evaluation of Herbal Remedies credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/435/)
One-third of Americans use health care products derived from natural sources, particularly plants, but also animals, and fungi. This course examines the biological activity of natural products with respect to their ecological functions and their therapeutic uses. Principles of evidence-based medicine will be reviewed and students will evaluate natural remedies through lectures, in-class activities, discussions, and analyses of scientific papers. Overall, students develop skills useful for evaluating alternative remedies and for communicating their conclusions to the general public. 3 undergraduate hours. No graduate credit. Prerequisite: IB 202 or IB 203 or consent of instructor.

IB 436  Evolutionary Neuroscience credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/436/)
Same as NEUR 432, PHIL 433 and PSYC 433. See PSYC 433.

IB 439  Biogeography credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/439/)
Spatial and temporal patterns of biological diversity and the factors that govern the distribution and abundance of taxa. This course addresses two of its subfields: historical biogeography - the origin, dispersal, and extinction of taxa and biotas; and ecological biogeography - the role physical and biotic environments have played in determining taxonomic distributions. Also explores the ecological, evolutionary, climatological, and paleontological foundations for the distribution of species and biological communities. Includes a review of many of the field's classical papers, the current synthesis of biogeographic theory, and the relevance of biogeography to modern conservation goals. Offered in alternate years. Same as ANTH 436, ESE 439, GEOG 436, and NRES 441. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 150 or other introductory biology course, or consent of instructor.

IB 440  Plants and Global Change credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/440/)
Same as CPSC 431 and NRES 431. See CPSC 431.
IB 442  Evolution of Infectious Disease  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/442/)
Same as MCB 435. See MCB 435.

IB 443  Evolutionary Ecology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/443/)
Emphasizes the evolution of life-history strategies in plants and animals (reproductive rates, life cycles, sex ratios, breeding and mating systems) and
the coevolution of animals and plants (pollination, dispersal, and herbivory). 3 undergraduate hours. 3 graduate hours. Offered in alternate years.
Prerequisite: IB 203 or equivalent; IB 302; or consent of instructor.

IB 444  Insect Ecology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/444/)
Discussion of the practical and theoretical aspects of ecology in relation to insects as individuals, populations, and communities; emphasis on the role
of insects in the environment. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Offered in alternate years. Lecture only, 3 hours; with laboratory, 4
hours. Prerequisite: IB 150 and MCB 150 or consent of instructor.

IB 447  Field Ecology  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IB/447/)
Study of habitats in various sections of North America during spring vacation or intersession. Outdoor cooking and camping; transportation in
University cars. Additional fees may apply. See Class Schedule. 1 undergraduate hour. 1 graduate hour. May be repeated to a maximum of 3 hours.
Prerequisite: IB 203; or consent of instructor.

IB 450  Stream Ecology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/450/)
Same as CEE 432. See CEE 432.

IB 451  Conservation Biology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/451/)
Synthesis of conservation biology with an emphasis on the preservation of biological diversity and its evolutionary potential. Laboratory includes
an introduction to the use of modern molecular techniques in conservation biology, computer simulation modeling, and field conservation problem
solving. Same as CPSC 436 and ENVS 420. 4 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: IB 203 or consent of
instructor.

IB 452  Ecosystem Ecology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/452/)
Distribution and structure of ecosystems on earth; integration of multiple disciplines to gain a holistic view of ecosystem function; ecosystem
concepts as they apply to understand natural and anthropogenic environmental change. Offered in alternate years. Same as ESE 452 and NRES 462. 3
graduate hours. 3 undergraduate hours. Prerequisite: CHEM 102 and CHEM 104; or consent of instructor.

IB 453  Community Ecology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/453/)
The direct and indirect interactions among species that determine the structure and composition of plant and animal communities. Emphasis will
be on the maintenance of species diversity and its consequences at both local and regional scales. Offered in alternate years. Same as NRES 452. 3
graduate hours. 3 undergraduate hours. Prerequisite: IB 203 or consent of instructor.

IB 454  Evolution of Infectious Disease  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/454/)
A discussion of the acquisition and analysis of systematic data. 4 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: IB 302 and IB 335
or consent of instructor.

IB 460  Evolutionary Ecology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/460/)
Emphasizes the evolution of life-history strategies in plants and animals (reproductive rates, life cycles, sex ratios, breeding and mating systems) and
the coevolution of animals and plants (pollination, dispersal, and herbivory). 3 undergraduate hours. 3 graduate hours. Offered in alternate years.
Prerequisite: IB 203 or equivalent; IB 302; or consent of instructor.

IB 461  Evolution of Infectious Disease  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/461/)
A discussion of the acquisition and analysis of systematic data. 4 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: IB 203 or consent of
instructor.

IB 462  Mammalogy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/462/)
Classification, distribution, structure, function, life history, evolution and identification of mammals. Lecture/discussions, laboratory and field work.
The laboratory includes vertebrate dissection. Same as NRES 442. 4 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: IB 202 and IB 203; or consent of instructor.

IB 463  Ichthyology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/463/)
Classification, anatomy, ecology, behavior, distribution, and evolution of fishes of the world. Emphasis is on morphological, ecological, and behavioral
diversification of fishes in a phylogenetic context. Laboratory devoted to anatomy and identification. Same as NRES 463. 4 graduate hours. 4
undergraduate hours. Offered in alternate years. Prerequisite: IB 302; or consent of instructor.

IB 464  Herpetology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/464/)
Classification, diversity, structure, function, ecology, behavior and evolution of amphibians and reptiles. Laboratory devoted to anatomy and
identification. Offered in alternate years. Same as NRES 460. 4 graduate hours. 4 undergraduate hours. Prerequisite: IB 302; or consent of instructor.

IB 467  Principles of Systematics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/467/)
Comprehensive survey of the theory and methodology of systematics as they are applied today to all groups of organisms, with a practical experience in
the acquisition and analysis of systematic data. 4 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: IB 302 and IB 335
or IB 468; or consent of instructor.

IB 468  Insect Classification and Evolution  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/468/)
Analytical survey of the classification and evolution of the orders and principal families of insects, with practical experience in the identification of
insects at these taxonomic levels; field trips required. Lecture and laboratory. 4 undergraduate hours. 4 graduate hours. Offered in alternate years.
Prerequisite: IB 401 or consent of instructor.

IB 471  General Mycology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/471/)
Structure, classification, and identification of fungi, including those of economic importance. Offered in alternate years. 4 undergraduate hours. 4
graduate hours. Prerequisite: IB 150 and MCB 150; IB 302 recommended; or consent of instructor.
IB 472  Plant Molecular Biology  credit: 1 Hour. ([https://courses.illinois.edu/schedule/terms/IB/472/](https://courses.illinois.edu/schedule/terms/IB/472/))
The basic concepts and methodologies of measuring plant gene expression and gene product activity and constructing transgenic plants are presented and discussed. Same as CPSC 462. 1 undergraduate hour. 1 graduate hour. Prerequisite: MCB 150 and IB 204; or consent of instructor.

IB 473  Plant Genomics  credit: 1 Hour. ([https://courses.illinois.edu/schedule/terms/IB/473/](https://courses.illinois.edu/schedule/terms/IB/473/))
Provides broad overview of structural and functional genomics, including genetic and physical mapping, whole genome sequencing, comparative genomics analysis, evolution of gene families and repetitive sequences, genome-wide expression analysis. Emphasis on structural and comparative genomics with brief introduction to functional genomics and bioinformatics. Same as CPSC 467. 1 undergraduate hour. 1 graduate hour. Prerequisite: IB 204 or IB 270 or MCB 250 or consent of instructor.

IB 476  Applied GIS to Environ Studies  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/IB/476/](https://courses.illinois.edu/schedule/terms/IB/476/))
Same as GEOG 476. See GEOG 476.

IB 478  Advanced Plant Genetics  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/IB/478/](https://courses.illinois.edu/schedule/terms/IB/478/))
Same as CPSC 452. See CPSC 452.

IB 479  Plant Growth and Development  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/IB/479/](https://courses.illinois.edu/schedule/terms/IB/479/))
Same as CPSC 486. See CPSC 486.

IB 480  Bioinspired Design  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/IB/480/](https://courses.illinois.edu/schedule/terms/IB/480/))
Same as ME 475. See ME 475.

IB 481  Vector-borne Diseases  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/IB/481/](https://courses.illinois.edu/schedule/terms/IB/481/))
Study of the major groups of arthropods and associated pathogens that affect the health and well-being of humans and other animals. Training will include ecology, evolutionary biology, and epidemiology of vector-borne diseases; taxonomy and identification of vector arthropods; practical skills in molecular and mathematical biology, spatial analysis and field research. Lecture will make use of technology-enhanced classroom for group-based active learning exercises to address critical challenges in vector-borne disease control. 4 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: IB 361 or IB 401 or consent of instructor.

IB 482  Insect Pest Management  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/IB/482/](https://courses.illinois.edu/schedule/terms/IB/482/))
The principles underlying the control of important insect pests of agriculture and of human and animal health; emphasis on integrated pest management involving a systems approach which combines biological, cultural, and chemical suppressive factors into ecologically sound and socially and economically acceptable technology. Lecture and laboratory. Same as CPSC 479. 3 undergraduate hours. 3 graduate hours. Offered in alternate years. Prerequisite: IB 150 or equivalent; or consent of department.

IB 483  Insect Pathology  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/IB/483/](https://courses.illinois.edu/schedule/terms/IB/483/))
The general principles of pathology as they apply to insects; includes non-infectious and infectious diseases caused by viruses, bacteria, fungi, protozoa, and nematodes. Studies the epizootiology of naturally occurring insect disease and the use of insect pathogens as microbial control agents. Same as CPSC 475. 3 undergraduate hours. 3 graduate hours. Lecture in alternate years. Prerequisite: IB 150 or equivalent; or consent of instructor.

IB 484  Paleoclimatology  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/IB/484/](https://courses.illinois.edu/schedule/terms/IB/484/))
Same as GEOL 484. See GEOL 484.

IB 485  Environ Toxicology & Health  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/IB/485/](https://courses.illinois.edu/schedule/terms/IB/485/))
Explores toxicological, environmental, public health, occupational and ecological aspects of the use and release of toxic substances in the environment; features case histories of environmental contamination that illustrate ecological, health, and social aspects of pollution; emphasizes biochemical mechanisms and ecosystem consequences. Same as CHLH 461 and ENVS 431. 3 undergraduate hours. 3 graduate hours. Prerequisite: A college chemistry course and a college biology course; or consent of instructor.

IB 486  Pesticide Toxicology  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/IB/486/](https://courses.illinois.edu/schedule/terms/IB/486/))
Examines the biological effects of major classes of insecticides and herbicides, and of selected individual fungicides, including: toxicity to nontarget organisms, persistence and fate in the environment, biotransformation, and ecological consequences. Current regulations on pesticide testing will also be presented. The mechanism of action on target species will be discussed only in relation to effects on nontarget organisms. Same as CB 434 and ENVS 433. 3 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: One year of college chemistry and one year of college biology; or consent of instructor.

IB 487  Math Modeling in Life Sciences  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/IB/487/](https://courses.illinois.edu/schedule/terms/IB/487/))
Same as ANSC 448 and STAT 458. See ANSC 448.

IB 490  Independent Study  credit: 1 to 5 Hours. ([https://courses.illinois.edu/schedule/terms/IB/490/](https://courses.illinois.edu/schedule/terms/IB/490/))
Laboratory and/or field research supervised by faculty members in the School of Integrative Biology. A written report is required. 1 to 5 undergraduate hours. No graduate credit. May be repeated. Credit is not given for more than a combined maximum of 10 hours of IB 390 or IB 490 towards graduation for IB majors. Prerequisite: Consent of instructor.

IB 491  Biological Modeling  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/IB/491/](https://courses.illinois.edu/schedule/terms/IB/491/))
Same as ANSC 449, CPSC 448, and GEOG 468. See GEOG 468.
IB 492  Career and Skill Development in Integrative Biology  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IB/492/)
A successful career in the sciences requires tools and skills for communicating research, such as how to master the scientific literature and how to write scientifically as informed scientists to broad audiences. This course helps to build these skills while also developing professional skills to better compete for positions in professional school, jobs in industry, non-profit, or government. Students will also explore career options available with an IB degree. This course is designed to teach students these skills with targeted in and out of class exercises. This course can count toward graduate credit with a required online project component. 2 undergraduate hours. 2 graduate hours. Prerequisite: IB 203 or IB 271; or consent of instructor. Restricted to Junior and Senior IB majors only; or graduate students within IB.

IB 494  Theoretical Biology + Models  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/494/)
Biologists are increasingly using mathematical and computer-based models to complement fieldwork and experimental data. These models provide a context in which to understand and answer existing questions, and also lead us to new questions and new insights. Students will encode biological mechanisms into mathematical models, develop the skills to find solutions to these models and relate them to biological data, and analyze and discuss relevant primary literature. Examples will be drawn largely from ecology and evolutionary biology. 4 undergraduate hours. 4 graduate hours. Prerequisite: MATH 220 or MATH 221; Introductory courses in Ecology and Evolution.

IB 496  Special Courses  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/IB/496/)
Experimental and temporary courses. Additional fees may apply. See Class Schedule. 1 to 5 undergraduate hours. 1 to 4 graduate hours. Approved for letter and S/U grading. May be repeated as topics vary. Prerequisite: Consent of instructor.

IB 499  Discussions in Integrative Biology  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IB/499/)
Seminars, discussions, research project presentations, readings, and reviews of special topics in integrative biology. 1 undergraduate hour. 1 graduate hour. Approved for S/U grading only. May be repeated if topics vary. Prerequisite: Consent of instructor.

IB 501  Programming for Genomics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/501/)
Students will learn to think algorithmically by constructing a biological hypothesis, and implementing code or deploying an existing code implementation, to test that hypothesis. Students will learn to use UNIX and to program in Python, using biological data sets from high-throughput sequencing projects. We will cover major genomics approaches and the algorithms that underlie them, including K-mer analysis, genome and transcriptome assembly, databases and SQL, and visualization techniques. Same as CPSC 501. 4 graduate hours. No professional credit. Prerequisite: Courses in Ecology, Evolution, and Molecular Biology, or consent of instructor.

IB 502  Biological Networks  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IB/502/)
This taxon-neutral course prepares students to organize, integrate and analyze complex, multi-scale data that describe biological systems. It provides training, collecting, and processing “omic”-scale data (genomics, transcriptomics and proteomics) into network models, and analyzing these models using current in silico tools to determine biological significance and function of the resulting network interactions. Students will be introduced to Gene Ontology and open source tools for data integration and visualization, including Cytoscape, Multiple Experiment Viewer and STRING. 2 graduate hours. No professional credit. Prerequisite: Graduate student status or consent of instructor. At least one upper level undergraduate course in molecular biology or its equivalent.

IB 504  Genomic Analysis of Insects  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/504/)
Comprehensive and integrated presentation of insect genomic analysis from the molecular level to that of the population; concepts are applied to certain aspects of insect population regulation. Offered in alternate years. Prerequisite: IB 204 or consent of instructor.

IB 505  Bioinformatics & Systems Biol  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/505/)
Same as CPSC 567. See CPSC 567.

IB 506  Applied Bioinformatics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/506/)
Same as ANSC 542 and CPSC 569. See ANSC 542.

IB 507  Statistical Genomics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/507/)
Same as ANSC 545 and CPSC 545. See ANSC 545.

IB 508  Multivariate Biostatistics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/508/)
Same as PATH 528. See PATH 528.

IB 512  Plant Metabolomics  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IB/512/)
Plants are sessile organisms that must respond dynamically to environmental signals. Key to their response and survival is the intricate network of metabolic pathways that result in the differential accumulation of metabolites. This course will familiarize students with the fundamentals of plant metabolomics research. Metabolomics is presented in relation to plant development, nutrition, and response to stress, among other topics. Students will use online tools to analyze, organize, and visualize metabolomics data. Course goals include a critical evaluation of a current topic in plant metabolomics and how metabolomics technology can enhance their own research objectives. 2 graduate hours. No professional credit. Prerequisite: Graduate student status or consent of instructor; at least one upper level undergraduate course in biochemistry or its equivalent.

IB 513  Disc in Plant Physiology  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IB/513/)
Approved for letter and S/U grading. May be repeated.

IB 516  Ecosystem Biogeochemistry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/516/)
Same as NRES 516. See NRES 516.

IB 524  Plant Biochemistry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/524/)
Same as CPSC 588. See CPSC 588.
IB 526  Seminar in Entomology  credit: 0 to 1 Hours. (https://courses.illinois.edu/schedule/terms/IB/526/)
Discussions, reviews, and appraisals of special topics in the field of entomology. 0 to 1 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated if topics vary.

IB 531 Emerging Infectious Diseases  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/531/)
Examines new human infectious diseases, such as Asian flu, West Nile virus, AIDS, and Lyme disease, that are a major threat to human health. Explores the historic links among human health, disease pathogens, and ecology, as well as the origin of each new disease and how it is regulated by specific environmental conditions. Also explores how global change and biodiversity loss will increase the possibility of future ecological epidemic and the steps needed to reduce their effects on human health. In this course, students also produce teaching materials for their classrooms.

IB 532 Sustainability & Global Change  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/532/)
Examines how on-going global change affects sustainability. Explores climate change, global warming, alternative biofuels, future food security, and conservation of biodiversity, and their effects on society. Examines how to make better use of the Earth's natural resources with little to no damage to the ecosystem, while taking into account ever mounting demands for energy resources and climate change. In this course, students also produce teaching materials for their classrooms.

IB 533 Human Genome & Bioinformatics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/533/)
Highlights advances in understanding the human genome, utilizing the latest techniques in bioinformatics, i.e. acquiring, analyzing, storing, and displaying the information from the entire genome and protein sequences. Explores the latest laboratory techniques, as well as the use of extensive online databases and software. Students explore the significance of sequencing the human genome, applying bioinformatics to the genome, and realizing its potential to understand human health, disease, and the place of humans in the large ecosystem. In this course, students also produce teaching materials for their classrooms.

IB 534 Evolution and Medicine  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/534/)
Explores how human health is inseparably tied to our evolutionary history. Principles that apply to human health include evolutionary processes, e.g. natural selections, as well as molecular evolution, human evolution, and evolutionary-developmental biology. Explores how these principles can be applied to understand human nutrition and metabolism, reproduction, disease and stress, and behavior. These principles assist physicians, researchers, and the general public in understanding how natural selection has acted on humans over time and left us vulnerable to disease and injury. In this course, students also produce teaching materials for their classrooms.

IB 535 Biology and Tech Innovation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/535/)
Focuses on how experts in biology and technological fields use bio-inspiration to create technology innovations to solve human problems. Classic examples, such as how the observation that seeds with barbs stick to animal fur led to Velcro, are explored. Students use and expand upon their current biological knowledge to explore new ways to create biologically-based sustainable innovations. Topics to be explored include nest building as inspiration for energy-efficient architecture, plant chemistry as inspiration for green manufacturing, animal locomotion and sensing as inspiration for robots, and the advances in understanding of biological nanostructures and nanoprocesses as inspiration for nanotechnology. In this course, students also produce teaching materials for their classrooms.

IB 536 Evolutionary Biology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/536/)
Examines fundamental topics for understanding evolution, the unifying principle for all of biology. Evidence for evolution is all around us, and learning how to view life through 'evolutionary tinted' lenses greatly changes our perspective. Emphasizes the creative ways that scientists are gaining insights into how and why life evolved as it is. Provides avenues to use in the classroom to provide scholarly evidence for the basis of evolution to refute non-academic arguments. Students will produce teaching materials for their classrooms. 4 graduate hours. No professional credit. Prerequisite: For graduate students in the Online Masters of Science Teaching Biology program (OMST).

IB 542 Environmental Plant Physiology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/542/)
The interaction of plants and environment at the level of the whole organism, extending to the cell and the community; emphasis on heat and mass transfer, plant and soil potentials, and effects of light on growth. Same as CPSC 538. Offered in alternate years. Prerequisite: IB 420; consent of instructor.

IB 546 Topics in Ecology & Evolution  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IB/546/)
Speaker seminar series featuring discussion, review and critical analysis of general concepts and specific problems in ecology and evolution. Approved for both letter and S/U grading. May be repeated.

IB 590 Individual Topics  credit: 2 to 12 Hours. (https://courses.illinois.edu/schedule/terms/IB/590/)
Individual topics in research conducted under the supervision of faculty members in the School of Integrative Biology. Designed for graduate students who would like to become more familiar with specialized fields of study prior to committing themselves to a specific area for their doctorate degree. Approved for S/U grading only. May be repeated to a maximum of 16 hours. Prerequisite: Consent of instructor.
### IE - Industrial Engineering

<tbody>
<tr>
<td>IE 199</td>
<td>Undergraduate Open Seminar</td>
<td>1 to 5 Hours.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>IE 297</td>
<td>Independent Study</td>
<td>1 to 4 Hours.</td>
<td>Individual investigations of any phase of Industrial Engineering. May be repeated in separate terms. Prerequisite: Consent of instructor.</td>
<td></td>
</tr>
<tr>
<td>IE 300</td>
<td>Analysis of Data</td>
<td>3 Hours.</td>
<td>Nature of probabilistic models for observed data; discrete and continuous distribution function models; inferences on universe parameters based on sample values; control charts, acceptance sampling, and measurement theory. Credit is not given for both IE 300 and CEE 202. Prerequisite: MATH 241.</td>
<td></td>
</tr>
<tr>
<td>IE 310</td>
<td>Deterministic Models in Optimization</td>
<td>3 Hours.</td>
<td>Linear Optimization - Simplex method, duality, and sensitivity analysis, Transportation and Assignment Problems, Network Optimization Models, Dynamic Programming, Nonlinear optimization, and Discrete optimization. Credit is not given for both IE 310 and CEE 201. Prerequisite: Credit or concurrent registration in MATH 257 or MATH 415.</td>
<td></td>
</tr>
<tr>
<td>IE 311</td>
<td>Operations Research Lab</td>
<td>1 Hour.</td>
<td>Applications of OR models with the use of software tools. Prerequisite: Concurrent registration in IE 310.</td>
<td></td>
</tr>
<tr>
<td>IE 330</td>
<td>Industrial Quality Control</td>
<td>3 Hours.</td>
<td>Contemporary concepts and methods for quality and productivity design and improvement; philosophies of Deming, Taguchi, and others leading the quality management and engineering movement; Shewhart's methods for statistical process control; process capability analysis; statistical methods for tolerance assessment; process control methods employing attribute data; design of experiments, concepts, and methods. Prerequisite: IE 300.</td>
<td></td>
</tr>
<tr>
<td>IE 340</td>
<td>Human Factors</td>
<td>4 Hours.</td>
<td>Introduction to human factors, ergonomics, engineering psychology, history of ergonomics, human-machine relations, displays and controls, human-computer interaction, industrial and aviation systems, physiology of work and anthropometrics, cognitive ergonomics, human reliability, human as manual controller, human-machine systems design, prototyping, professional practice and ethics, laboratory exercises. Same as PSYC 358. Prerequisite: PSYC 100, PSYC 103, or consent of instructor.</td>
<td></td>
</tr>
<tr>
<td>IE 360</td>
<td>Facilities Planning and Design</td>
<td>3 Hours.</td>
<td>Facility planning, plant layout design, and materials handling analysis; determination of facilities requirements, site selection, materials flow, use of analytical and computerized techniques including simulation, and applications to areas such as manufacturing, warehousing, and office planning. Prerequisite: Credit or concurrent enrollment in IE 310.</td>
<td></td>
</tr>
<tr>
<td>IE 361</td>
<td>Production Planning &amp; Control</td>
<td>3 Hours.</td>
<td>Scope of production systems and activities involved in their design, establishment, management, operation, and maintenance; mathematical and computer models for planning and control of facilities, human resources, projects, products, material, and information in production systems. Prerequisite: IE 310.</td>
<td></td>
</tr>
<tr>
<td>IE 370</td>
<td>Stochastic Processes and Applications</td>
<td>3 Hours.</td>
<td>Introduction to stochastic processes with applications in decision-making under uncertainty. Topics include newsvendor problem, discrete-time Markov chain (including classification of states, stationary distribution, absorbing states), Poisson processes (including time-homogeneous, time-nonhomogeneous, thinning Poisson), continuous-time Markov chain (including Markov property, generator matrix, stationary distribution), queuing theory (including M/M/k queue, open Jackson network), and Markov decision processes (including finite-horizon models, infinite-horizon models). Prerequisite: IE 300 and IE 310.</td>
<td></td>
</tr>
<tr>
<td>IE 371</td>
<td>Simulation Modeling with Applications for Industrial Engineering</td>
<td>3 Hours.</td>
<td>Use of discrete-event simulation in the modeling and analysis of complex systems subject to uncertainty. At the end of the course, the students should be able to develop simulation models of complex, real-life systems; design simulation experiments; analyze and interpret the results of the simulation; and effectively organize and present simulation-based projects. The main part of the class will be spent on the development of simulation models using software such as Arena by Rockwell. Other topics of the course also include input modeling, selecting distributions, generating random variables, sensitivity analysis, simulation optimization, and reporting and analyzing simulation outputs. Prerequisite: IE 300 and IE 310. Restricted to Junior and Senior Standing.</td>
<td></td>
</tr>
<tr>
<td>IE 397</td>
<td>Independent Study</td>
<td>1 to 4 Hours.</td>
<td>Individual investigations or studies of any phase of Industrial Engineering. May be repeated in separate terms. Prerequisite: Consent of instructor.</td>
<td></td>
</tr>
<tr>
<td>IE 398</td>
<td>Special Topics</td>
<td>1 to 4 Hours.</td>
<td>Subject offerings of new and developing areas of knowledge in industrial engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. May be repeated in the same or separate terms if topics vary.</td>
<td></td>
</tr>
</tbody>
</table>
IE 400  Design & Anlys of Experiments  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/400/)
Concepts and methods of design of experiments for quality design, improvement and control. Simple comparative experiments, including concepts of randomization and blocking, and analysis of variance techniques; factorial and fractional factorial designs; Taguchi’s concepts and methods; second-order designs; response surface methodology. Engineering applications and case studies. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: IE 300.

IE 405  Computing for ISE  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/405/)
This course will introduce students to algorithm design, computer programming in C++, and database SQL queries. It will provide the fundamental methods, concepts and principles of these topics to give students enough breadth to use these techniques in their jobs and to prepare them to pursue advanced topics in these areas. There will be weekly programming assignments to implement algorithms and SQL covered in the class. 3 undergraduate hours. 4 graduate hours. Prerequisite: CS 101 or equivalent.

IE 410  Advanced Topics in Stochastic Processes & Applications  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/410/)
Modeling and analysis of stochastic processes. Transient and steady-state behavior of continuous-time Markov chains; renewal processes; models of queuing systems (birth-and-death models, embedded-Markov-chain models, queuing networks); reliability models; inventory models. Familiarity with discrete-time Markov chains, Poisson processes, and birth-and-death processes is assumed. Same as CS 481. 3 undergraduate hours. 4 graduate hours. Prerequisite: IE 310.

IE 411  Optimization of Large Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/411/)
Practical methods of optimization of large-scale linear systems including extreme point algorithms, duality theory, parametric linear programming, generalized upper bounding technique, price-directive and resource-directive decomposition techniques, Lagrangian duality, Karmarkar’s algorithm, applications in engineering systems, and use of state-of-the-art computer codes. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: IE 310 and MATH 257 or MATH 415.

IE 412  OR Models for Mfg Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/412/)
Operations research techniques applied to problems in manufacturing and distribution. Single and multi-stage lot sizing problems, scheduling and sequencing problems, and performance evaluation of manufacturing systems. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: IE 310.

IE 413  Simulation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/413/)
Use of discrete-event simulation in modeling and analysis of complex systems. Data structures and event-list management; verification and validation of simulation models; input modeling, including selection of probability distributions and random variate generation; statistical analysis of output data. Same as CS 482. 3 undergraduate hours. 4 graduate hours. Prerequisite: CS 101 and IE 310.

IE 420  Financial Engineering  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/420/)
Introduction to the theory and practice of financial engineering: basics of derivative securities and risk management; Markowitz portfolio theory and capital asset pricing model; interest rate and bonds; forward and futures contracts, hedging using futures contracts; option contracts and arbitrage relationship; binomial model, no-arbitrage pricing, risk-neutral pricing, and American options pricing; Brownian motion, Black-Scholes-Merton model, delta hedging, Greek letters, implied volatility, and volatility smile. 3 undergraduate hours. 4 graduate hours. Prerequisite: IE 300.

IE 430  Economic Found of Quality Syst  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/430/)
Total quality systems for planning, developing, and manufacturing world-class products. Economic foundations of total quality. Product value, cost, pricing, environmental quality, activity-based costing, design for assembly, organization structure, lead time, innovation, Taguchi methods, simulation-based significance testing. Strategic Quality Deployment, statistical process control, and conjoint analysis. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: IE 300.

IE 431  Design for Six Sigma  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IE/431/)
Quality Engineering principles and the Six Sigma Define-Measure-Analyze-Improve-Control (DMAIC) process. Application of concepts and methods of statistical process control, designed experiments, and measurement systems analysis to cases of quality and productivity improvement; application of the fundamentals of quality engineering and the Six Sigma to areas of product development, service enterprise, and manufacturing processes. 3 undergraduate hours. 3 graduate hours. Prerequisite: IE 300.

IE 435  Human Performance and Cognition in Context  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/435/)
Same as EPSY 456 and PSYC 456. See EPSY 456.

IE 445  Independent Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/445/)
Independent study of advanced problems related to industrial engineering. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated. Prerequisite: Consent of instructor.

IE 498  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/498/)
Subject offerings of new and developing areas of knowledge in industrial engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated in the same or separate terms if topics vary to a maximum of 9 hours.

IE 510  Applied Nonlinear Programming  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/510/)
Optimization of nonlinear systems; survey of classical methods and concepts such as the Lagrangian method, the Jacobian method, and Kuhn-Tucker conditions; modern algorithms; numerical methods for digital computers; applications in engineering design; use of state-of-the-art computer codes. Prerequisite: IE 310.
IE 511 Integer Programming  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/511/)
Optimization of linear systems over discrete decision domains. Topics to be covered include Modeling, Polyhedral theory, Integral Polyhedra, Totally Unimodular Matrices, Total Dual Integrality, Computational Complexity, Cutting plane method, Branch and Bound method, and Lagrangian Dual. Structured integer programs involving Matchings, Knapsack, Cuts and Matroids will be studied as applications. 4 graduate hours. No professional credit. Prerequisite: IE 411 or MATH 482.

IE 512 Network Analysis of Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/512/)
Basic concepts, theories, and techniques of systems analysis, including modeling of large scale systems, forecasting, planning, control, and information handling; modeling of systems with network techniques, including distance, flow, and project networks; advanced network topics such as out-of-kilter algorithm and project resource analysis. Prerequisite: IE 361 or CEE 201.

IE 513 Optimal System Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/513/)
This course is designed to address the fundamental mathematical theories for complex engineering system (product) design optimization in multidisciplinary environment. The course starts with the basics of nonlinear programming (continuous optimization), then expands to the area of multidisciplinary design optimization (MDO) in depth. Analytical Target Cascading (ATC) - a well-established hierarchical optimization method - is covered in-depth with assignments in written and programming forms. After a successful completion of the course, the students will be able to model and solve basic MDO problems and apply MDO in a research-based semester project. Prior experience in coding (in Matlab or similar) will be helpful but not required. 4 graduate hours. No professional credit. Prerequisite: IE 310.

IE 514 Optimization Methods for Large-Scale, Network-Based Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/514/)
The course will cover topics related to optimization over large-scale networks. We will look at data-driven methodologies by which very large-scale optimization problems, primarily integer programs, can be solved. We will consider motivations from application areas such as airline scheduling, vehicle routing, and communications. Topics covered include shortest paths; multi-commodity flows; decomposition techniques; Lagrangean relaxation; set-covering and set-partitioning problems (with special characteristics); column generation and branch-and-price and cut; composite variables; large-scale neighborhood search techniques; modeling robustness and uncertainty, stochastic modeling in large-scale integer programs; data-driven optimization. The course will include real-world modeling examples from applications including vehicle routing, freight logistics, and airline schedule planning. 4 graduate hours. No professional credit. Prerequisite: IE 411 or the equivalent.

IE 515 Stochastic Simulation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/515/)
Random variable generation; sample path generation; variance reduction; simulation optimization; introduction to Sequential Monte Carlo and MCMC; applications in finance. Prerequisite: IE 410 and STAT 410.

IE 516 Pricing and Revenue Management  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/516/)
Focuses on the theory and practice of pricing optimization and revenue management. Topics that will be covered include: Quantity-based revenue management; Demand estimation, forecasting, and learning; Dynamic pricing; Assortment optimization. 4 graduate hours. No professional credit. Prerequisite: IE 410, IE 411.

IE 517 Machine Learning in Finance Lab  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IE/517/)
Machine Learning includes the design and the study of algorithms that can learn from experience, improve their performance and make predictions. This course is designed specifically and exclusively for MSFE first semester students. It features rigorous coding exercises in Python and acts as preparation for later courses. Students will learn the concepts behind different supervised machine learning algorithms and implement them in Python using advanced packages; pandas, NumPy, and scikit-learn. All the data for this course features unique real-world financial datasets. 2 graduate hours. No professional credit. Prerequisite: Credit or concurrent enrollment in IE 523. Restricted to MS: Financial Engineering.

IE 518 Queueing Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/518/)
An introduction to queueing systems and their applications in engineering. Topics include both classical single-stage models and queueing networks. Students will learn how to apply key ideas and methods of queueing theory, such as: Markov processes, embedded Markov chains, PASTA property, reversibility, productform stationary distributions, stochastic stability, asymptotic analysis. 4 graduate hours. No professional credit. Prerequisite: IE 410 or an equivalent graduate stochastic processes course.

IE 519 Combinatorial Optimization  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/519/)
The course will cover a series of topics in combinatorial optimization. The emphasis will be on polyhedral theory, structural results and their applications to designing algorithms. Specific topics to be covered include: Matchings, b-matchings, Tjoins, Tcuts, Arborascences, Branchings, Matroids, Matroid Intersection, Polymatroids, Submodular Functions, Directed Cuts, Multi-flows. Same as CS 586. 4 graduate hours. No professional credit. Prerequisite: Familiarity with linear programs (IE 411 or equivalent), Algorithms (CS 374 or equivalent), and Graph Theory (MATH 412 or equivalent).

IE 520 Variational Inequalities  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/520/)
Finite dimensional variational inequality and complementarity problems; characterization of solutions; nonsmooth Newton methods; interior-point methods; projected gradient schemes; applications of variational inequalities in game theory. Prerequisite: One of ECE 490, IE 510, IE 521, MATH 484.

IE 521 Convex Optimization  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/521/)
Finite dimensional convex optimization problems; characterization of optimal solutions; iterative algorithms for differentiable and nondifferentiable problems; distributed optimization algorithms; robust problems and solutions; applications of convex optimization models. Prerequisite: ECE 490 or IE 411; MATH 415; MATH 444.
IE 522  Statistical Methods in Finance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/522/)
Methods of statistical modeling of signals and systems with an emphasis on finance applications. Review of linear algebra, probability theory, and
spectral analysis; Linear Time Invariant (LTI) and ARX models; least-squares, maximum-likelihood, non-parametric, and frequency-domain methods;
convergence, consistency and identifiability of linear models; asymptotic distribution of parameter estimates; techniques of model validation; Principle
Component Analysis (PCA) for dimension reduction; ARCH and GARCH processes and their related models; implementation, application, and case-
studies of recursive identification; Monte Carlo simulation. Credit is not given for both IE 522 and GE 524. Prerequisite: MATH 415.

IE 523  Financial Computing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/523/)
Review of C++ programming: structures, classes, I/O, C++ standard libraries, Recursion. Linear Algebra tools and MILP solvers in C++. Computational
Financial computing case studies in C++. 4 graduate hours. No professional credit. Prerequisite: CS 225.

IE 524  Optimization in Finance  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IE/524/)
Basic optimization models, theory and methods for financial engineering including linear, quadratic, nonlinear, dynamic integer, and stochastic
programming; applications to portfolio selection, index fund tracking, asset management, arbitrage detection, option pricing and risk management;
optimization software for classes of optimization problems. Projects requiring building optimization models based on financial market data and
solutions using optimization solvers. 2 graduate hours. No professional credit. May be repeated in the same or separate semesters to a maximum of 4
hours. Prerequisite: FIN 500 and MATH 415. Restricted to MS: Financial Engineering.

IE 525  Stochastic Calculus & Numerical Models in Finance  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IE/525/)
Basic theory of stochastic differential equations and numerical techniques for their analysis with applications to financial modeling. Brownian motion,
martingales, stochastic integration, Ito’s formula, stochastic differential equations, partial differential equations, simulation methods for derivatives
pricing, finite-difference techniques for Black-Scholes equations and options pricing, Monte Carlo methods, variance reduction techniques, and
sensitivity calculations. 2 graduate hours. No professional credit. May be repeated if topics vary to a maximum of 4 hours. Prerequisite: IE 523.

IE 527  MSFE Professional Development  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IE/527/)
This course is required to encourage participation in professional development activities. Students will be required to be in attendance for at least
70% of the Practitioner Speaker Series in addition to other sanctioned MSFE Events. The Practitioner Speaker Series is an essential part of the MSFE
curriculum. It allows firsthand interaction with Quantitative Practitioners. Exposure to insights on how the financial world is changing; regarding new
products and needs, evolving data and information systems, and much more. Other events might include but are not limited to special seminars,
workshops and conversation groups. 1 graduate hour. No professional credit. Approved for S/U grading only. May be repeated in separate terms up to
2 hours. Note that this course is for 1 credit hour during your first and second semester and will require a mandatory final paper. Prerequisite: Graduate
MS: Financial Engineering Students only.

IE 528  Computing for Data Analytics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/528/)
Hands-on programming course on select topics in data science and big data with major emphasis on a semester long project. Course will cover a
variety of topics and tools in big data including Hadoop MapReduce Framwork, HBase, and Storm; Machine Learning; and Optimization. 4 graduate
hours. No professional credit. Prerequisite: CS 242, CS 446. All ISE graduate students and students enrolled in the Master of Science in Advanced
Analytics (MSAA) are eligible to take the course.

IE 529  Stats of Big Data & Clustering  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/529/)
This course will cover various foundational topics in data science. Parametric and non-parametric methods. Hypothesis testing; Regression;
Classification; Dimension reduction; and Regularization. Unsupervised and semi-supervised learning, along with a few case studies. 4 graduate hours.
No professional credit. Prerequisite: MATH 415 and IE 300 or equivalent. All ISE graduate students and students enrolled in the Master of Science in
Advanced Analytics (MSAA) are eligible to take the course.

IE 530  Optimization for Data Analytics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/530/)
Basic optimization methods for data analytics, optimization modeling languages such as AMPL and GAMS, and optimization software including
the NEOS server. Linear and integer, and their applications to compressed sensing, data mining, and pattern classification. 4 graduate hours. No
professional credit. Prerequisite: IE 411. All ISE graduate students and students enrolled in the Master of Science in Advanced Analytics (MSAA) are
eligible to take the course.

IE 531  Algorithms for Data Analytics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/531/)
This course will introduce the student to a set of algorithms for data analytics which include: hashing, indexes, caching; algorithms for structured
datasets; streaming data modes; PageRank algorithms for market-basket models; clustering algorithms; and case studies. 4 graduate hours. No
professional credit. Prerequisite: IE 411, CS 225. ISE graduate students and students enrolled in the Master of Science in Advanced Analytics (MCAA)
are eligible to take the course.

IE 532  Analysis of Network Data  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/532/)
This course will focus on statistical aspects analyzing network data. It will review illustrative problems relating to aggregation of information, decision-
making, and inference tasks over various graphical models and networks. 4 graduate hours. No professional credit. Prerequisite: MATH 412. ISE
graduate students and students enrolled in the Master of Science in Advanced Analytics (MCAA) are eligible to take the course.
IE 533  Big Graphs and Social Networks  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/533/)
This course will cover the fundamentals of graph theory and network optimization. It will focus on algorithmic challenges associated with big graphs and intertwine the Hadoop Framework for solving example problems like shortest paths, link analysis, graph association and inexact graph matching. Applications in social network analysis will include study of network types, random graph models, exact and approximate computation of centrality measure, finding high value individuals, community detection, diffusion processes and cascading models, and influence maximization. 4 graduate hours. No professional credit. Prerequisite: MATH 213, IE 300, IE 411. ISE graduate students and students enrolled in the Master of Science in Advanced Analytics (MCAA) are eligible to take the course.

IE 534  Deep Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/534/)
This course provides an introduction to neural networks and recent advances in deep learning. Topics include training and implementation of neural networks, convolution neural networks, recurrent neural networks (LSTM and gated recurrent), residual networks, reinforcement learning, and Q-learning with neural networks. A part of the course will especially focus on recent work in deep reinforcement learning. The course will also cover deep learning libraries (e.g., Chainer, Tensorflow) and how to train neural networks using GPUs and GPU clusters. Same as CS 547. 4 graduate hours. No professional credit. Prerequisite: CS 446 or equivalent. Graduate students only.

IE 542  Cooperative Problem Solving  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/542/)
Advanced graduate seminar on problem-solving models and taxonomies, models of coordination of activity and communication among multiple agents, design of human-machine cooperative problem-solving systems, adaptive automation, and intelligent decision support. Readings drawn from work in pragmatics, distributed artificial intelligence, cognitive engineering, and related areas. 4 graduate hours. No professional credit. Prerequisite: Credit or concurrent registration in either CS 440 or PSYC 527.

IE 546  Human Factors in Health Care Engineering Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/546/)
Same as EPSY 546. See EPSY 546.

IE 547  Healthcare Operations and Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/547/)
Delivers an introduction of healthcare systems and strategic issues in their operations, and a background of healthcare, health systems, hospitals and elements of care centers. The course blends quantitative and qualitative material, modeling and practical perspectives, and includes demand management, forecasting methods, workforce planning, inventory and materials planning, supply chain management in healthcare, process improvement and patient flow, facility design and planning, and operations scheduling. Financial performance and metrics, as well as case studies and project work will be included. 4 graduate hours. No professional credit. Prerequisite: The student should have a Bachelors Degree in Industrial Engineering, Operations Management, or closely related disciplines. 4 graduate hours. No professional credit. Prerequisite: The student should have a Bachelors Degree in Industrial Engineering, Operations Management, or closely related disciplines. Credit or concurrent registration in either CS 440 or PSYC 527.

IE 590  Seminar  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/IE/590/)
Presentation and discussion of significant developments in industrial engineering. Approved for S/U grading only. May be repeated.

IE 597  Independent Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/597/)
Independent study of advanced problems related to industrial engineering. May be repeated in the same or separate terms if topics vary to a maximum of 12 hours. Prerequisite: Consent of instructor.

IE 598  Special Topics  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/598/)
Subject offerings of new and developing areas of knowledge in industrial engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. Approved for letter and S/U grading. May be repeated in the same or separate terms if topics vary.

IE 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/IE/599/)
Approved for S/U grading only. May be repeated.
Courses

IHLT 101 Introduction to i-Health credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IHLT/101/)
Introduction to the interdisciplinary major in Health. The course is designed to familiarize students with the concepts of interdisciplinary health, campus resources, academic policies, and program requirements.

IHLT 102 Survey of Interdisc Health credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IHLT/102/)
Introduction to topics in interdisciplinary health with particular emphasis on the five dimensions of health: physical, emotional, social, intellectual and spiritual. Students will explore their personal health beliefs and patterns and discuss the benefits of studying health within an interdisciplinary curriculum.

IHLT 230 Leadership in Health credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IHLT/230/)
Develops a framework to understand practices of exemplary leadership. Topics include: 1) Modeling behavior, 2) Inspiring a shared vision, 3) Challenging processes, 4) Enabling others to act, and 5) Encouraging passionate leadership. Case studies of individuals who are recognized leaders in health and well-being at local, regional, national and global levels will be explored. Through various assignments, students identify their own leadership style and understand the important role they can play as leaders to address local and global health challenges.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

IHLT 232 Health Disparities in the U.S. credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IHLT/232/)
Provides an overview of health disparities in the United States, including existence and magnitude of health disparities, theories that explain health disparities, strategies to address their complexity, and solution required to eliminate them. Disparities are examined related to groups of diverse racial/ethnic backgrounds, socio-economic status, gender, age, and ability level.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

IHLT 240 Aging and Health Policy credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IHLT/240/)
Provides an understanding of the policies that affect service delivery to older adults including key historical and current policies such as the Older Americans Act, Medicare, Medicaid, and Social Security. Theories of public policy and involvement of older adults in the political process will be introduced. Challenges of issues such as chronic disease prevention, housing, transportation, nutrition, and elder abuse will also be explored.
This course satisfies the General Education Criteria for:
Social Beh Sci - Beh Sci

IHLT 375 Interdis Collab in Health Serv credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IHLT/375/)
Provides scholarly knowledge and field experiences for interdisciplinary collaboration in the health services. Topic include health service delivery systems, vulnerable populations, models of health and health promotion, communication, policy and ethics in health care. Emphasis on introducing students to the importance of working with individuals from a variety of health disciplines to best address issues of health in society.

IHLT 385 Experience in Interdisciplinary Health Research credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/IHLT/385/)
Supervised laboratory experiences in health research; individual work under the supervision of members of the faculty in their respective fields. The student assists with data collection, processing, and analysis for research in progress. Approved for Letter and S/U grading. May be repeated up to a maximum of 12 hours in separate semesters. Prerequisite: Consent of the instructor.

IHLT 391 Special Project-Problems credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/IHLT/391/)
Special projects in research and independent investigation in any phase of health, kinesiology, physical education, and related areas selected by the students. Approved for Letter and S/U grading. May be repeated to a maximum of 6 hours in separate semesters. Prerequisite: Grade-point average of 2.5; consent of instructor.

IHLT 395 Honors Thesis credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IHLT/395/)
Planning, researching and writing of an honors thesis, under supervision of a faculty member, on a problem of appropriate scope and character. Thesis will be presented at a suitable meeting and/or seminar. May be repeated to a maximum of 6 hours. Prerequisite: Senior standing when enrolling; minimum grade point average of 3.25; a minimum of one full year (2 semesters) remaining at the University of Illinois, Urbana-Champaign campus; and submission of a written proposal.

IHLT 474 Pre-Field Experience in Health credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IHLT/474/)
This is an independent study course that expands student's knowledge of health professions and prepares them for field work in an applied setting with a variety of health professionals. 1 undergraduate hour. 1 graduate hour.

IHLT 475 Field Experience in i-Health credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IHLT/475/)
Designed to emphasize field/research experiences that facilitate working with individuals from a variety of health disciplines. Field experience/research placements will be selected to best prepare students address issues of health within their concentrations areas. In class sessions will focus on interdisciplinary collaboration, professionalism and important global health issues. Serves as the capstone course for i-Health majors. 4 undergraduate hours. 4 graduate hours. Prerequisite: Restricted to senior i-Health majors.
IHLT 498  Interdisciplinary Health Study Abroad  credit: 1 to 6 Hours. ([https://courses.illinois.edu/schedule/terms/IHLT/498/](https://courses.illinois.edu/schedule/terms/IHLT/498/))
An advanced-level study abroad experience where students complete assigned scholarly readings; participate in facilitated discussions prior to, during, and/or after the trip; and write a final paper. The on-campus and abroad activities are supervised and facilitated by campus faculty. 1 to 6 undergraduate hours. No graduate credit. May be repeated in separate terms for a total of 12 undergraduate hours, if the countries differ between terms. Prerequisite: Social & Behavioral Sciences General Education requirement fulfilled, and sophomore or higher standing.
INFO - Informatics

INFO Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/INFO/)

Courses

INFO 102  Little Bits to Big Ideas  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/INFO/102/)
Broad introduction to the nature, capabilities, and limitations of computing. Topics range from the way data is represented and stored, to the way today's computers work, to the general ideas of algorithms and computational efficiency, to the future of computing. Covers "Great Ideas" across various areas of the field, including, for example, cryptography and internet security, problem solving, modeling and simulation, and artificial intelligence. Same as CS 102.

INFO 199  Undergraduate Open Seminar  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/199/)
May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Consent of instructor.

INFO 202  Social Aspects Info Tech  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/202/)
Same as IS 202 and MACS 202. See IS 202.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

INFO 303  Writing Across Media  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/303/)
The ability to communicate effectively in multiple types of media is a crucial part of literacy in our society. In this course, students will explore the intersections of various media: print, film, images, sound, etc. Students will consider the ways in which writing—as an object and as a practice—is shaped by multimodal interactions. Also integrates practical activities with broader theoretical issues in order to provide effective strategies for designing multimedia presentations, projects, and texts that integrate photography, video, and sound. Same as WRIT 303.
This course satisfies the General Education Criteria for:
Advanced Composition

INFO 310  Computing in the Humanities  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/310/)
Same as IS 310. See IS 310.

INFO 325  Social Media and Global Change  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/325/)
Same as AFST 325, ASST 325, EPOL 325, EPS 325, EURO 325, LAST 325, REES 325, and SAME 325. See EPOL 325.

INFO 326  New Media, Culture & Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/326/)
Same as MACS 326. See MACS 326.

INFO 345  Digital & Gender Cultures  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/345/)
Same as GWS 345, MACS 345, and SOC 345. See GWS 345.

INFO 390  Special Topics  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/390/)
Explores a variety of informatics topics. Topics and prerequisites vary by section; see current Class Schedule for details. May be repeated up to 6 hours if topics vary.

INFO 399  Individual Study  credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/399/)
Individual study in a subject related to informatics not covered in normal course offerings. Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Consent of instructor.

INFO 403  An Introduction to Top Down Video Game Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/403/)
The emphasis of this course is on developing an understanding of top down video game design using the various design methodologies and tools introduced in class. Students will form small groups (4-6) and work on their own design within a selected genre (to be determined at the beginning of the semester). Areas of focus include high level design vision, audience evaluation, User Interface and its impact on the design, iteration of a series of design documents (high, medium and low level) and the team dynamics of communication, critique and integration. The goal of the class is to have the small teams use the concepts and the tools taught in class to create a complete design document that will be cataloged for later use. 3 undergraduate hours. 3 graduate hours.

INFO 405  Introduction to the Video Game Development Process  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/405/)
The emphasis of this course is understanding the video game development process as seen in current Game Studios. The course will focus on key elements of the process including the development timeline, scheduling, prototyping, iteration, QA, game builds and player research. The goal will be to take a design document from a catalog of designs that have already been created and implement one or more of them using the game development process. Same as GSD 405. 3 undergraduate hours. 3 graduate hours. Credit is not given for INFO 405 and INFO 490 DC "The Video Game Dev Proces" sections.

Information listed in this catalog is current as of 01/2022
INFO 407  Introduction to Programming Python for Data Science  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/407/)
For students who want to learn about solving problems common in data sciences but have little or no programming experience. The class is asynchronous (students can access material on-line but within specified timeframes) and taught online. Data Science lies at the intersection of statistics and computer science and focuses on extracting information from data. This class will immerse students on topics of software construction, design, programming paradigms and the semantic and syntax of the Python language and then focus on some of the necessary workflows to move raw data into information. The class will explore common Python modules (libraries) used in data science, natural language processing, statistics, mathematics, data management (acquiring, cleaning, reshaping, organizing, persisting) and visualizations. 3 graduate hours. 4 undergraduate hours. Credit is not given for INFO 407 and INFO 490 MH "Intro toProg for the Data Science" sections.

INFO 409  Design & Programming of Narrative Games & Simulations  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/INFO/409/)
In this course, you will be introduced to the narrative design process for the authoring of text-based digital games and simulations. You will become proficient in Inform 7, a programming language and design system for parser-based interactive fiction (IF). By the end of the semester you will have developed a game or literary work of IF and made a substantive contribution to a collaborative project. No prior programming knowledge is required for students to be successful in the course. Students will be expected to bring a laptop to class. Please note that this course teaches design and programming techniques for "parser-based" interactive fiction, and does not cover Twine, or other hyper-text based interactive narrative systems. Same as GSD 409. 3 undergraduate hours. 4 graduate hours. Credit is not given for INFO 409 and INFO 490 JP, JPU or JPG "Design &Prog Text Based Games" sections.

INFO 416  Makerspace: Game Studies  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/INFO/416/)
A foray into game studies via makerspace production mediums. Students will study the role of play, tinkering and gaming in design, research and innovation and be challenged to learn a variety of makerspace production tools and techniques to create games. This course will include three major components (1) physical board game design, (2) introductory computer game design and (3) investigation into the narrative themes, artistic production, interaction mechanics and culture that make games engaging. During the course, students will prototype both playable board and video games, followed by iterating through to a final version of a game of their choice. Class will meet in the CU Community Fab Lab in Art Annex II. Students who have taken a different makerspace class before are encouraged to enroll. Additional fees may apply. See Class Schedule. 3 undergraduate hours. 4 graduate hours. Credit is not given for INFO 416 and INFO 490 A/AG "Makerspace: Game Studies" sections.

INFO 418  Makerspace: Escape Rooms  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/INFO/418/)
Explores the intersection of storytelling, interaction design, and user experience through the design of escape rooms. In the past few years escape rooms have been on the rise, changing from simple locked boxes in an open room to complex adventures spanning multiple rooms involving electronics, sound design, storytelling, and even live actors. This class will be primarily focusing on the manufacturing and electronics work that goes into making an immersive but self-contained escape room in a box experience. Over the span of the course, students will become familiar with the basics of several advanced small-scale manufacturing tools, such as laser engravers, electronic cutters, and 3D printers/scanners. The primary focus, however, will be a more in depth exploration of small board electronics – such as Arduino and IoT programming – and hardware – such as sensors, servos, LEDs, and other components. 3 undergraduate hours. 4 graduate hours. Credit is not given for INFO 418 and INFO 490 B, BG, ERU or ERG "Makerspace: Escape rooms" sections.

INFO 427  Data, Machines and the Python  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/427/)
A continuation to the introductory course on Data Science (INFO 407). This advanced course on Data Science is completely taught online and scheduled asynchronously (you decide where it best fits in your week). The course consists of several tracks including Machine learning and advanced Python skills. There will be lessons that guide you to learn advanced techniques in data science and you will also be introduced to machine learning algorithms. In addition, there will be a few lessons that help you advance your Python knowledge and software development skills. This course can mainly be considered as an applied course where you will learn by doing. In many cases, you will first write a reduced implementation before using an established library. The second half of the course will be focused on data driven individual projects along with weekly lessons. 3 graduate hours. Credit is not given for INFO 427 and INFO 490 MH2 "Data, Machines and the Python" sections. Prerequisite: Students should have either taken INFO 407; OR Have at least 1 year of programming experience using Python; OR Be comfortable with NumPy, Pandas, Matplotlib, NLTK; OR Have a strong ability and passion for learning. Junior, Senior or Graduate standing required.

INFO 490   Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/INFO/490/)
Topics of current interest. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated if topics vary. Prerequisite: Consent of instructor. Other prerequisites as specified for each topic offering. See Class Schedule.

INFO 491  Ugrad Bioinformatics Seminar  credit: 0 to 2 Hours. (https://courses.illinois.edu/schedule/terms/INFO/491/)
Introduces the field of bioinformatics and computational biology. Same as CPSC 491. 0 to 2 undergraduate hours. No graduate credit. Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 2 undergraduate hours. Prerequisite: Consent of instructor.

INFO 500  Orientation Seminar  credit: 0 or 1 Hours. (https://courses.illinois.edu/schedule/terms/INFO/500/)
A broad introduction to faculty research in each Informatics Area. Consists of weekly presentations by Informatics faculty highlighting their recent research, practice, and related concepts. Approved for S/U grading only. May be repeated in separate terms to a maximum of 2 hours. Prerequisite: Graduate standing in any field.
INFO 510  Research Practicum  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/INFO/510/)
A one semester directed research project supervised by a member of the informatics faculty in the student's area of specialization or closely related
area. These are intended to be practical research, not just literature surveys, and must have a definite output such as a paper or demonstration project.
The research should be relevant to the thesis work or preparatory work to support the thesis. Informatics students must take two semesters, usually
each semester should be under a different Informatics faculty member, but with the concurrence of their advising committee both may be taken under
a single faculty member. Approved for S/U grading only. May be repeated in separate terms to a maximum of 8 hours. Prerequisite: Graduate standing
in any Informatics.

INFO 555  Advanced Educational Technologies for Engagement and Interactive Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/INFO/555/)
Same as CI 555 and EPSY 555. See EPSY 555.

INFO 590  Advanced Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/INFO/590/)
Subject offerings of new and developing areas of knowledge in Informatics, intended to augment existing curriculum. See Class Schedule for specific
topics and prerequisites. 1 to 4 graduate hours. No professional credit. May be repeated if topics vary. Prerequisite: Graduate Student Standing.

INFO 591  Grad Bioinformatics Seminar  credit: 0 to 2 Hours. (https://courses.illinois.edu/schedule/terms/INFO/591/)
This seminar series focuses on research in the field of bioinformatics and computational biology. Same as ANSC 591 and CPSC 591. 0 to 2 graduate
hours. No professional credit. Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 4 hours. Prerequisite: Consent
of instructor.

INFO 597  Individual Study  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/INFO/597/)
Individual study in a subject related to informatics not covered in normal course offerings. May be repeated in same term for a maximum of 8 hours or
separate terms for a maximum of 16 hours if topics vary. Prerequisite: Consent of instructor.

INFO 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/INFO/599/)
Research for Ph.D. thesis. May be repeated in separate terms. Prerequisite: Instructor approval required.

Information listed in this catalog is current as of 01/2022
IS - Information Sciences

Courses

IS 100 Exploring the iSchool with a Human-Centered Lens credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IS/100/)
This course introduces students to the School of Information Sciences (iSchool). Students will explore career and professional development within information sciences, building their leadership and collaborative skills, and building a network within and beyond the iSchool. Through a human centered design project focused on an information science problem, students will gain experience and a better understanding of the process to develop an innovative solution addressing a societal need. Prerequisite: Restricted to Majors Only; First Semester Freshman, Intercollegiate and Off-Campus Transfer Students Only.

IS 101 Introduction to Information Sciences credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/101/)
This course provides an introduction to the field of information science and the major. It offers both historical and contemporary context for understanding the role of information in society. Focus is placed upon critical analysis of information problems as well as understanding the creation, use, and distribution of information in business, policy, education, government, health, and other sectors.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

IS 107 Data Science Discovery credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/107/)
Same as CS 107 and STAT 107. See STAT 107.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

IS 145 Mapping Inequalities credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/145/)
Immerses students in the history of Inequality in the United States through mapping the geographic, historical, and/or social movement of minority cultures using quantitative and social science methods. Topics vary by section, but each section emphasizes experiential learning through community-engaged scholarship, field-trips, or computer programming projects. No previous computer programming experience is required. No previous computer programming experience is required. Prerequisite: This course is intended for first and second year students.
This course satisfies the General Education Criteria for:
Quantitative Reasoning II
Social Beh Sci - Soc Sci
Cultural Studies - US Minority

IS 189 Independent Study credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/189/)
Individual study in a subject related to information sciences not covered in normal course offerings. Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Consent of instructor. Submission of "Request to Enroll in IS Independent Study".

IS 199 Undergraduate Open Seminar credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/IS/199/)
Undergraduate Open Seminar. Additional fees may apply. See Class Schedule. May be repeated.

IS 202 Social Aspects Info Tech credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/202/)
Explores the way in which information technologies have and are transforming society and how these affect a range of social, political and economic issues from the individual to societal levels. Same as INFO 202 and MACS 202.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

IS 203 Analytical Foundations for Information Problems credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/203/)
A survey of mathematical topics for students in information sciences. Provides an introduction to sets, relations, graphs, grammars, probability, and propositional and predicate logic. These topics relate to applications in information modeling, representation and expression. Prerequisite: MATH 112 or Required ALEKS Score.
This course satisfies the General Education Criteria for:
Quantitative Reasoning II

IS 204 Research Design for Information Sciences credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/204/)
This course provides an introduction to different approaches to research in the information sciences, including social science methods, data and text mining, digital humanities, historical approaches, and others. Topics include methods for evaluating research, developing research questions, selecting research methods, conducting research ethically, and communicating findings clearly and effectively through words, graphics, and other visualizations.

IS 205 Programming for Information Problems credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/205/)
Covers common data processing methods and computing concepts used in the information sciences. Evaluates strengths and weaknesses of the techniques in the context of our discipline. No prior programming background is assumed. Course will use the Python programming language. Prerequisite: IS 203.
IS 206  Introduction to Database Concepts & Applications  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/206/)
Introduction to database technology concepts and architecture. Explore data types and reading/writing database layout descriptions. Discussion of database ethics and privacy concerns. Comparison of different database systems a user might encounter including RDBMS, XML/RDF, JSON, NOSQL, and Graph database systems. Labs involving common database tools and exercises in SQL. Prerequisite: IS 205, or CS 101, or CS 105, or CS 125, or ECE 120, or permission of instructor.

IS 226  Introduction to HCI  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/226/)
This course introduces students to fundamental theories and techniques in Human-Computer Interaction (HCI). This course presents basic tools and methods for creating, designing, prototyping, and evaluating user interfaces to computing applications and web sites. Students will explore course content by conducting individual and group hands-on projects. Assignments involving prototyping can be implemented by self-selected solutions, e.g. Axure, JavaScript. Students from all backgrounds are welcomed.

IS 229  Web Design Fundamentals  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/229/)
This course will teach students about building inclusive interactive systems. They will learn to gather and understand user requirements and needs for a wide range of user populations, especially those that are under-served (e.g., children, older adults, people with disabilities), apply inclusive design frameworks and principles, and design, develop, evaluate and improve interactive prototypes in an iterative manner. Prerequisite: IS 205, or IS 226, or equivalent course.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

IS 236  User Research & Evaluation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/236/)
This course will teach students about user research and evaluation. They will learn to apply various user research methods, gather and understand user requirements and needs for a wide range of user populations, especially those that are under-served (e.g., children, older adults, people with disabilities), conduct user evaluations of prototypes and interactive systems, and communicate effectively about the research insights and make actionable design suggestions. Prerequisite: IS 204, or IS 226, or equivalent course.

IS 249  BSIS Practicum  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/249/)
A professional field experience program designed to provide the student with the opportunity to work in a professional environment under the supervision of an experienced information professional with the guidance of a faculty advisor. This opportunity allows students to integrate the theory and knowledge of course content with the application of principles and practices in a work environment, including these specific objectives Approved for S/U grading only. Prerequisite: IS 101 or IS 202. Restricted to BSIS students only.

IS 265  Innovation Illinois: From Accessible Design to Supercomputing Cultures  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/265/)
Same as CS 265 and MACS 265. See MACS 265.

IS 266  Community Innovation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/266/)
How do communities contribute to transformative, world-changing innovations? Why is their participation indispensable for fostering change? And what makes change ultimately transformative across diverse spaces and time? Community Innovation explores how engagement with interdisciplinary communities and collaborations, as well as histories of globally-changing local innovations from the Illinois were critical to fostering and sustaining new social and technical practices across space and time. Same as MACS 266.

IS 269  BSIS Internship  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/IS/269/)
Designed to provide students an opportunity to apply the skills and concepts learned in Information Sciences classes to a work environment. Students will complete internships of their choosing under supervision and will be expected to complete activities online including a reflective paper and presentation. The goal of this course is to provide an experience that will form a connection between a student’s academic career and career goals for the future. Approved for S/U grading only. May be repeated. Prerequisite: IS 101 or IS 202. Restricted to BSIS students only.

IS 299  Information Sciences Study Abroad  credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/IS/299/)
Provides campus credit toward the undergraduate degree for study at accredited foreign institutions or approved overseas programs. Final determination of credit and its application toward the degree is made by the School of Information Sciences (iSchool) office after a review of the student’s work abroad. Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 44 hours. Maximum of 18 hours per regular term. Summer session, 0 to 8 hours. Prerequisite: One academic year (or one semester in the case of transfer students) of full-time residence at UIUC, good academic standing, and prior approval of the School of Information Sciences. Consent of major department, school, and Study Abroad Office.

IS 304  Advanced Research Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/304/)
This course is a practical, hands-on class in social science research methods in the field of information sciences. Students will learn both qualitative and quantitative methods, including survey design, interview techniques, and observation strategies. Examples and practical exercises will be geared towards future work as information professionals and will enable students to design and apply research strategies that help them understand the intersections between people, information, and technologies. Prerequisite: IS 204, or IS 236, or similar research course.
IS 305 Programming for Information Problems II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/305/)
Continuing coverage of common data processing and computing methods in the information sciences. Building on programming skills from IS 205, additional programming patterns will be explored, and additional tools like the command line and version control will be explored in the context of information problems. Course will be in Python. Some Python review will be provided, but students without prior experience in Python should contact the school or instructor for review material. Prerequisite: IS 205, or CS 101, or CS 105, or CS 125, or ECE 120, or equivalent. Basic programming (Python) proficiency required.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

IS 308 Race, Gender, and Information Technology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/308/)
In this course we will critically examine the ways in which information and communication technologies (ICTs) are shaped by – and help to shape – social relations of race and gender; and we will extend our review to other categories of identity and exclusion as well, such as age, ability, geography and ethnicity. We will also explore the various benefits and burdens of the information society and how these are socially distributed, and conduct case-studies of policies, practices, and programs designed to enhance opportunities and/or mitigate disadvantages through the creative or disruptive use of ICTs. Direct and supervised investigation of selected topics in information studies that may include among others computers and culture; information policy; community information systems; production, retrieval and evaluation of scientific or social science knowledge; computer-mediated communication; and computer-supported cooperative work. Prerequisite: IS 202 Highly recommended. Sophomore standing.

IS 309 Computers and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/309/)
This course explores cultural ideas about computers, including hopes and fears about the effects of computers on our lives. We will analyze images of computers in fiction and movies. The course will also discuss hackers, online subcultures, and other computer-related subcultures, and the integration of computers into various cultural practices. The course will also explore the different uses of digital media. Prerequisite: IS 202 Highly recommended.

IS 310 Computing in the Humanities  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/310/)
Explores use and application of technology to scholarly activity in the humanities, including projects that put classic texts on the web or create multimedia application on humanities topics. Same as INFO 310. Prerequisite: Sophomore standing.

IS 311 History and Foundations of the Information Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/311/)
Today's information society bespeaks a long history, exhibiting marked continuities with the past as well as some sharply defined new features. Yet the historical foundations of the information society remain poorly understood. This course develops such a framework, by examining emergent information institutions and practices from early modern Europe to the later 20th century. It examines the historical development of the information society through a number of important conceptual lenses, including: modernity and post-modernity; Fordist and post-Fordist capitalism; social class and information poverty; social and technological determinism; utopianism and dystopianism; and empire and globalization. Prerequisite: IS 202 Highly recommended.

IS 316 The Design of Usable Information Interfaces  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/316/)
Examines issues of Human Computer Interaction and the design of better computer interfaces. Prerequisite: Sophomore standing.

IS 324 Social Network Analysis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/324/)
Introduces theories of social networks (how they form, and how they influence thoughts, feelings, and behaviors), while also providing hands-on experience with some powerful tools and methods for analyzing networks on various scales, ranging from small groups, to communities, to populations. It will also explore the use of network analysis to reveal patterns in large-scale data from the humanities such as periods of literary narrative, or character development across vast narratives with multiple interleaving plot lines. Same as SOC 324.

IS 334 Usable Privacy and Security  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/334/)
From passwords to email encryption to privacy settings on social media services, it is widely recognized that human factors, usability or user experience play a crucial role in effective privacy and security solutions. Designers of privacy and security solutions need to understand how people might use, interact or appropriate the mechanisms they develop. This course introduces various aspects of user experience (e.g., usability problems, user interface designs, conflicting needs) related to privacy and security systems. It is also designed to provide students with knowledge and opportunities to analyze and evaluate user experience of privacy and security systems. This course is suitable for students who are interested in privacy and security, or user experience, or both!

IS 340 Project Management  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/340/)
Focuses on project management methodology that will allow you to initiate and manage projects efficiently and effectively. You will learn key project management skills and strategies, and you will have the opportunity to apply this knowledge through assignments.

IS 357 Introduction to Data Storytelling  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IS/357/)
Communicating with the right audience in the right way connotes creation of ways and approaches that can serve diverse populations within and beyond a particular or specific culture. In the context of our school, the iSchool at the University of Illinois, we propose to approach strategic communication from the perspective of storytelling thinking. The goal is to introduce students to the philosophical, social, and relational dynamics of “story” among people as all human storyteller as well as organizations of all sizes across a wide spectrum of fields including library as storytelling organizations. It also aims to draw students to explore how a story foregrounds bridge-building dialog, affects the power of information, and thus maximize human potential. Students will be exposed to a range of opportunities to apply storytelling thinking as a tool to identify the audience, design means to communicate with them, and develop dynamic triangle of people sharing stories, engaging in constructive dialogs and reinterpreting etc.
IS 368  Youth Community Engagement  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/IS/368/](https://courses.illinois.edu/schedule/terms/IS/368/))
This course examines youth services by surveying how youth serving organizations meet young people's developmental, informational, social, personal, and cultural needs through programs and services. The course will provide both practical experience and theoretical knowledge for understanding the value and impact of youth services programs; strategies, techniques, and resources for developing these programs; approaches for ensuring programs are relevant to service communities; and methods for assessment and evaluation of program success. Prerequisite: IS 358 Highly recommended.

IS 370  Concepts of Information Behavior Theory  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/IS/370/](https://courses.illinois.edu/schedule/terms/IS/370/))
This course will introduce students to the relationships between users and the information they encounter. Students will become familiar with the concepts of understanding the information needs and information behavior of users, as well as the methods of accessing and assimilating information employed by users. The course will also introduce a range of the major models and theories employed in exploring information needs and behavior. Prerequisite: IS 204, or equivalent course.

IS 378  Information Technology Services for Youth  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/IS/378/](https://courses.illinois.edu/schedule/terms/IS/378/))
This course examines the intersections between youth, information, and technology from a socio-technical perspective. This course will provide both practical experience and theoretical knowledge for understanding the ways youth engage with information via technology, as well as various developmental, social, personal, and cultural contexts that inform those interactions. Students will evaluate examples of youth information and communication technology use and analyze factors including identities, educational and social structures, opportunities and risks, learning and literacy, and potential futures in these areas. Prerequisite: IS 358 Highly recommended.

IS 381  Introduction to Literacies for Youth  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/IS/381/](https://courses.illinois.edu/schedule/terms/IS/381/))
An overview of youth literacies covering: popular literacy myths, censorship, cognitive processes behind reading, visual and digital literacies, contemporary youth practices, government policies, and literacy education in schools. Course readings include fictional works and scholarship from the fields of education, library science, history, media studies, critical race studies, and literary and cultural studies. Students learn the history of marginalized youth in America in order to understand how literacies are defined, promoted, or stigmatized today.

IS 389  Independent Study  credit: 0 to 3 Hours. ([https://courses.illinois.edu/schedule/terms/IS/389/](https://courses.illinois.edu/schedule/terms/IS/389/))
Advanced individual study in a subject related to Information Sciences not covered in normal course offerings. Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Consent of instructor. "Request to Enroll in IS Independent Study". Restricted to students with Junior level standing or above.

IS 390  Special Topics in Information Studies  credit: 1 to 3 Hours. ([https://courses.illinois.edu/schedule/terms/IS/390/](https://courses.illinois.edu/schedule/terms/IS/390/))
Directed and supervised investigation of selected topics in information studies that may include among others computers and culture; information policy; community information systems; production, retrieval and evaluation of scientific or social science knowledge; computer-mediated communication; and computer-supported cooperative work. May be repeated. Prerequisite: Sophomore standing.

IS 400  Colloquium  credit: 0 or 1 Hours. ([https://courses.illinois.edu/schedule/terms/IS/400/](https://courses.illinois.edu/schedule/terms/IS/400/))
Venue for presentation and discussion of research and professional activities by faculty, students, staff, and guest speakers. 0 or 1 undergraduate hours. 0 or 1 graduate hours. Approved for Letter and S/U grading. May be repeated in separate semesters.

IS 401  Introduction to Network Information Systems  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/401/](https://courses.illinois.edu/schedule/terms/IS/401/))
This course provides a deep hands-on sociotechnical dive into technology including electronics, software, and networks culminating in a holistic understanding of networked information systems. The course also explores the methodological landscape of networked information systems including theoretical assumptions, research methods, and research techniques. Throughout, students will be introduced to, and make active use of, skillsets, frameworks, and standards employed by a wide range of information professionals in selecting, co-designing, appropriating, and innovating-in-use networked information systems. Additional fees may apply. See Class Schedule. 4 undergraduate hours. 4 graduate hours. This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 403  Children's Materials  credit: 2 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/403/](https://courses.illinois.edu/schedule/terms/IS/403/))
Evaluation, selection and use of books and other resources for children (ages 0-14) in public libraries and school media centers; explores standard selection criteria for print and nonprint materials in all formats and develops the ability to evaluate and promote materials according to their various uses (personal and curricular) and according to children's various needs (intellectual, emotional, social and physical). 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: For undergraduates, junior or senior standing and consent of instructor.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 406  Cognition in the Wild  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/406/](https://courses.illinois.edu/schedule/terms/IS/406/))
Designed as a foundation for students who are interested in learning how to design human-centered information technologies. Students will learn basic principles in human cognition and behavior, and how these principles influence how we interact with information technologies. The course will prepare students to translate theories in human cognition and behavior to analyze, evaluate and rethink everyday design examples. 3 undergraduate hours. 4 graduate hours.
This course satisfies the General Education Criteria for:
ONL Info Science rate
IS 407  Introduction to Data Science  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/407/)
This course introduces students to data science approaches that have emerged from recent advances in programming and computing technology. They will learn to collect and use data from a variety of sources, including the web, in a modern statistical inference and visualization paradigm. The course will be based in the programming language R, but will also use HTML, regular expressions, basic unix tools, XML, and SQL. Supervised and unsupervised statistical learning techniques made possible by recent advances in computing power will also be covered. 4 undergraduate hours. 4 graduate hours.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 409  Web Technologies & Techniques  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/409/)
This course provides an introduction to the technologies behind the Web. Topics covered include: hypertext, hypermedia, the history of the Web, the role of Web standards and their impact on the development of Web resources. The course introduces principles of Web design and usability. Students will gain an understanding how the Web works and how to design, construct, evaluate, and maintain Web-based materials. 3 undergraduate hours. 4 graduate hours. Priority is given to students pursuing a transfer into the BS/IS degree (http://go.ischool.illinois.edu/BSIS).
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 410  Storytelling  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/410/)
Fundamental principles of the art of storytelling including techniques of adaptation and presentation; content and sources of materials; methods of learning; practice in storytelling; planning the story hour for school and public libraries and other public information settings; and audio, video, and digital media. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: For undergraduates, junior or senior standing and consent of instructor.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 411  Information Systems Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/411/)
This is an introductory course to Information Systems Analysis. Information Systems Analysts are typically involved in an entire information systems development life cycle from initial planning to final assessment. Several different approaches have been used. Students will gain experience in several aspects of Information Systems Analysis, including business process modeling, requirements gathering, data flow diagramming, and database design. This is a hands-on course with in-class exercises and group practical assignments. 3 undergraduate hours. 4 graduate hours.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 413  Teen Materials  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/413/)
Evaluation, selection and use of books and other resources for young adults (ages 12-18) in public libraries and school media centers; explores standard selection criteria for print and nonprint materials in all formats and develops the ability to evaluate and promote materials according to their various uses (personal and curricular) and according to young adults’ various needs (intellectual, emotional, social and physical). 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: For undergraduates, junior or senior standing and consent of instructor.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 416  Adaptive Minds and Computers  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/416/)
Given the rapid changes in information environments, emerging research has shown how human adapts to the complex information environments through different self-regulated processes. This course will discuss the evolving theories of human performance in the contemporary information environments, including how people select, search, make sense and make decisions among a huge amount of information; how information environments shape individual and collective human performance; and how people adapt to information environments for forming coupling cognitive systems. 3 undergraduate hours. 4 graduate hours. Prerequisite: IS 406.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 417  Data Science in the Humanities  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/417/)
Human culture provides an ideal testbed for students exploring data science, because the interpretive challenges that lurk beneath the surface in other domains become starkly visible here. For instance, cultural materials usually come to analysts as unstructured texts, images, or sound files, forcing explicit decisions about data modeling and feature extraction. Cultural questions also highlight the importance of interpreting statistical models in relation to a social context. Last but not least: songs, poems, and stories confront us with vivid problems that are inherently fun to explore. This course will start by reviewing descriptive and inferential statistics, and build up to applications of supervised and unsupervised machine learning. We will apply those methods to a range of cultural materials using them to model the pace of stylistic change in popular music, for instance, and the representation of gender in fiction. 3 undergraduate hours. 4 graduate hours. Prerequisite: One semester of experience programming, for example, STAT 107 or IS 430 - or any analogous course.
This course satisfies the General Education Criteria for:
ONL Info Science rate
IS 418  Community Engagement  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/418/)
Community engagement refers to the multiple ways that information professionals in libraries and other settings learn about, collaborate with, and provide service and outreach to community members. Provides an introduction to, and overview of, community engagement theory and practice. A significant portion of coursework will take the form of service learning or community-based research via approved projects that match students' interests. 3 undergraduate hours. 4 graduate hours.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 419  Entrepreneurial Information Technology Design  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/419/)
Introduces students to a range of rapid prototyping techniques and methods to analyze needs, opportunities and design spaces. Students will work in teams to develop ideas for novel computational devices or applications to meet identified needs. Covers the interlinked entrepreneurial skills of identifying an unmet need, exploiting technological opportunities, exploring a design space to refine an idea, and communicating a design vision through demonstrations with prototypes and proofs of concept. This enables developers to show how their envisaged working interactive technology will be used productively in a particular real-life context. Communicating the vision of computational devices is a challenge because dynamic use in context is hard for people other than the device's developers to imagine. The ability to produce convincing, clear, powerful demonstrations even at the early stages of a project is a highly valuable entrepreneurial skill, and also highly applicable within an organization. Directed and supervised investigation of selected topics in information studies that may include among others the social, political, and historical contexts of information creation and dissemination; computers and culture; information policy; community information systems; production, retrieval and evaluation of knowledge; computer-mediated communication. 3 undergraduate hours. 4 graduate hours. Prerequisite: Undergraduate students: Priority is given to students pursuing a transfer into the BS/IS degree (http://go.ischool.illinois.edu/BSIS).
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 420  Community Informatics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/420/)
Surveys an emerging field that studies how local, historical communities are using information and communications technologies. Key principles and hands-on experience equip students for contributing to the non-profit/public sector as people harness new technologies and media--be they individuals, students, families, community organizations, or other. Prepares future professionals and researchers to understand and master this environment, whatever their technology background. Especially useful for those interested in public or community libraries, youth services, social work, education, and anyone interested in working with or studying underserved communities. 3 undergraduate hours. 4 graduate hours.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 423  Early Literacy  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IS/423/)
Librarians fill a key role in the literacy development of young children with opportunities for interaction both in the library and through outreach programs. Key skills center on developing literacy-rich library environments, classroom instructional support, intentional embedding of essentials skills and practices within daily activities and lessons, resources about early literacy strategies to share with families and caregivers. Practitioners will understand the importance of integration of technology to meet the diverse developmental, cultural, social and linguistic needs of children to ensure they are able to create meaning from text. No undergraduate credit. 2 graduate hours.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 424  Social Computing  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/424/)
This interdisciplinary course introduces students to fundamental theories, methods, technologies and applications of social computing. Students learn about this emergent discipline from two perspectives: First, basic principles of collective information production and processing, and methods for studying these principles. Topics include prediction markets, games with a purpose, open source software development, social media, social networks, information visualization, and online games. Second, socio-technical aspects of the design and usage of respective technologies. This includes participation, privacy and security. Students learn how to solve problems in social computing in a systematic and rigorous fashion. At the end of the course, students will be able to design, manage and execute social computing projects for scholarly and commercial use, and to critically assess work in this area. 3 undergraduate hours. 4 graduate hours.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 426  Museum Informatics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/426/)
The course examines various ways that information technologies are and might be used in museums and other cultural heritage settings. Museum websites, visitor apps, interactive exhibits, and uses of digitized and federated collections are explored. Students gain an introduction to Design Thinking by working on a final project that involves the development of a novel computational resource. Students are encouraged to approach class topics from their individual backgrounds in the humanities, sciences, or social sciences. 4 undergraduate hours. 4 graduate hours. Prerequisite: Junior or senior standing and consent of instructor for undergraduates; consent of instructor for non-iSchool graduate students for on-campus sections.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 427  Mathematical Foundations for Data Analytics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/427/)
An introduction to topics and techniques in transformational geometry, linear algebra, and calculus most relevant for the study of multivariate analysis, and demonstrates their roles as bases for solving data analytic problems in the information sciences. 3 undergraduate hours. 4 graduate hours. Prerequisite: Recommended IS 203; or IS 205; or IS 206; or equivalent course.

Information listed in this catalog is current as of 01/2022
IS 429  Web Content Strategy and Management  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/429/)
Focuses on the basics of web site design, content development, constructing web pages with standard HTML and CSS. We will also cover usability and accessibility, content management system options, multi-media and interactivity in the context of standard HTML and CSS, procedures and policies for organizations, with a concentration on public, academic and special libraries. Students will investigate, design, and draft a representative site. Students may work with non-profit and library clients in constructing and redesigning their web sites. 3 undergraduate hours. 4 graduate hours. Prerequisite: Laptop Required. This course satisfies the General Education Criteria for: 
ONL Info Science rate

IS 430  Foundations of Information Processing  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/430/)
Covers common data, document processing, and programming constructs and concepts. Focuses on problem solving and abstraction with a programming language. By the end of the course students will be able to design, develop and test a moderately complex computer program to manage full text, bibliographic records or multimedia. The course prepares students for working with applications in data analytics, data science, digital libraries, text mining and knowledge management. No prior programming background is assumed. 4 undergraduate hours. 2 or 4 graduate hours. This course satisfies the General Education Criteria for: 
ONL Info Science rate

IS 436  Playful Design Methods  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/436/)
In this immersive and experiential course, students consider "playfulness" as a key aspect of design methodologies and practices. Looking closely at the philosophical, social, and relational dynamics of play, we will explore how playful approaches to design thinking, game design, and other gameful methodologies can encourage collaboration, engagement, and emergent, transformative solutions to a range of challenges that face us in our rapidly-changing, information-based culture. The course aims to build student competency in design methods through a sequence of game design experiences arising from a broad consideration of play. 3 undergraduate hours. 4 graduate hours. This course satisfies the General Education Criteria for: 
ONL Info Science rate

IS 439  Web Development Using Application Framework  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/439/)
A course in the use and evaluation of Web application frameworks for system architects, designers, and developers. Experience in creating static Web sites using HTML and CSS. 3 undergraduate hours. 4 graduate hours. Prerequisite: Experience in Python programming (IS 430 or equivalent). Experience in creating static Web sites using HTML and CSS. Experience in creating dynamic Web sites using tools like PHP is helpful but not required. Experience in using relational databases is helpful but not required. This course satisfies the General Education Criteria for: 
ONL Info Science rate

IS 440  Community Informatics Studio  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/440/)
Studio-based learning methods, which are common in art and architectural education, are used to help students address a real-world problem or 'case'. Working in teams and mentored by the instructor and experts, students will learn how to 'be a professional' in an environment in which process is as important as product. During the term, students will participate in a cyclical process of design creation, presentation and critique culminating in a final presentation during the final day(s) of class. Assumes experience in community engagement within a social justice framework. 3 undergraduate hours. 4 graduate hours. This course satisfies the General Education Criteria for: 
ONL Info Science rate

IS 441  Strategic Communication  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/441/)
This course introduces students to collaborative approaches to strategic communication designed to persuade, influence and cause action through free and informed choices. There are many methods and tools at the disposal of the strategic communicator. This course will focus on the ethics, forms, techniques and practices of data storytelling as the centerpiece of strategic communications that are appropriate and effective for the information professional. Students learn to coordinate multiple aspects of human-centered information solutions such as information visualizations. Serving diverse information needs and ensuring those needs are met, future information professionals are expected to understand, support, and innovate dynamically of the relationships between people, information and technology. 3 undergraduate hours. 4 graduate hours. This course satisfies the General Education Criteria for: 
ONL Info Science rate

IS 444  Legal Aspects of Information Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/444/)
This course is intended to introduce students to principles, fundamental ideas, and cases in the Legal Aspects of Information Systems, with an emphasis on Intellectual Property Law and using scholarship as an exemplar information system, which is considered broadly. This course will be conducted in a seminar format and survey the literature and case law including copyright and open licensing, patents, and trademark law. We will discuss recent policy changes and their impact on the Intellectual Property rights. Where appropriate we will compare American jurisprudence to international Intellectual Property Law. 3 undergraduate hours. 4 graduate hours. This course satisfies the General Education Criteria for: 
ONL Info Science rate
IS 445  Data Visualization  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/445/)
Data visualization is crucial to conveying information drawn from models, observations or investigations. This course will provide an overview of historical and modern techniques for visualizing data, drawing on quantitative, statistical, and network-focused datasets. Topics will include construction of communicative visualizations, the modern software ecosystem of visualization, and techniques for aggregation and interpretation of data through visualization. Particular attention will be paid to the Python ecosystem and multi-dimensional quantitative datasets. 3 undergraduate hours. 4 graduate hours.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 446  Systems Analysis and Design  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/446/)
Covers how to evaluate, select and manage information systems that will be used in the daily operation of libraries and information centers. Includes the systems used by technical staff and the information consumers. Course will focus on information as a product. Attention is given to the operation of an organization as a whole and the impact of change on the integration of resources, work flow and usability. Formal methods for modeling systems, and industry practice techniques of analysis are used to address these problems and opportunities. 3 undergraduate hours. 4 graduate hours.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 449  Web Application Development  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/449/)
This course focuses on concepts and skills needed to build full stack web applications. Topics include Model-View-Controller architecture, database access, business logic implementation, advanced client-side scripting, authentication, and application security. Students will use popular client-side and server-side web application frameworks, such as React.js and Django, to study how these concepts are implemented in practice and to apply design/development principles to build realistic web applications. 3 undergraduate hours. 4 graduate hours. Prerequisite: IS 205, IS 206, and IS 229.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 451  Bibliography of Africa  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/451/)
We will focus on the identification and evaluation of African studies reference sources and library techniques as a foundation for in-depth research. Sources covered will be in all formats, including print, microform and electronic resources. 3 undergraduate hours. 4 graduate hours.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 453  Information Books and Resources for Youth  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/453/)
Evaluation, selection and use of information books and other resources for young people (ages 0-18) in public libraries and school media centers; explores standard selection criteria for factual print and nonprint materials in all formats and develops the ability to evaluate and promote nonfiction books and resources according to their various uses (personal and curricular) and according to young people's various needs (intellectual, emotional, social and physical). 3 undergraduate hours. 2 or 4 graduate hours.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 455  Database Design and Prototyping  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/455/)
The course provides students with both theoretical and practical training in good database design. By the end of the course students will create a conceptual data model using entity-relationship diagrams, understand the importance of referential integrity and how to enforce data integrity constraints when creating a database. Students will be proficient in writing basic queries in the structured query language (SQL) and have a general understanding of relational database theory including normalization. 4 undergraduate hours. 4 graduate hours. Prerequisite: Junior Standing required.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 456  Information Storage and Retrieval  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/456/)
Introduces problems of document representation, information need specification, and query processing. Describes the theories, models, and current research aimed at solving those problems. Primary focus is on bibliographic, text, and multimedia records. 3 undergraduate hours. 4 graduate hours.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 457  Data Storytelling  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/457/)
An introduction to understanding data as a source for storytelling and to telling stories based on data. This process will include understanding and analyzing data sets to find informative aspects, changes, or contrasts that will provide the basic information for developing stories. Course participants will learn storytelling concepts, narrative theories, and performance techniques and develop stories in a collaborative workshop style. Students will work with data visualization toolkits, which will involve variable levels of coding and skill. By using storytelling techniques with data, students can develop, and tell well-evidenced stories, organizations can make better data-driven decisions. 3 undergraduate hours. 4 graduate hours.
This course satisfies the General Education Criteria for:
ONL Info Science rate

Information listed in this catalog is current as of 01/2022
IS 459 Mobile Applications  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/459/)
This course introduces students to the fundamental concepts, cutting edge technologies and state-of-the-art research in Human Computer Interaction areas of mobile computing and ubiquitous computing. The course presents major mobile application domains systems design challenges, and design opportunities. Students’ understanding will be reinforced through practical work in mobile system design, e.g., applying a video prototyping tool to design and evaluate a mobile system. 3 undergraduate hours. 4 graduate hours.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 460 Russian, East European, and Eurasian Bibliography & Research Methods  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/461/)
With a focus on Russia, Eastern Europe, and Eurasia, students will investigate this fascinating part of the world, how it has been studied and represented by generations of scholars, scientists, writers, artists, government officials, and others, and how the many fruits of their labors are (or are not) accessible to us today. 3 undergraduate hours. 4 graduate hours.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 464 Information Assurance  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/464/)
The course provides an introduction to the concepts, technologies, practices and challenges of Information Assurance. It takes a broad view of Information Security and Privacy and covers the essential principles for the protection of information systems; the relevant technologies; organizational concerns; policies, human aspects; legal approaches; criminology; and ethical issues. Students will gain an appreciation for the difficulty of designing, developing, deploying and maintaining information systems, services and software products that are secure and comply with expectations of security and privacy. 3 undergraduate hours. 4 graduate hours.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 466 Accessible and Inclusive Technologies  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/466/)
This course introduces students to various technology challenges and needs of under-served populations (e.g., people with disabilities). We will examine various accessible and inclusive technologies to understand how they were built to serve specific under-served user groups but can also benefit a wider range of users. This course will also cover various design frameworks, guidelines and processes to create more inclusive designs and technologies. 3 undergraduate hours. 4 graduate hours.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 467 Ethics and Policy for Data Science  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/467/)
The course will address common ethical challenges related to data including privacy, bias, and data access. These challenges will be explored through real-world cases of corporate settings, non-profits, governments, academic research, and healthcare. The course emphasizes the complexity of ethical decision-making and that trade-offs between priorities are often necessary. The course also considers how the burdens of addressing ethical concerns should be distributed among stakeholders. Students will be introduced to a range of relevant policy responses at the organizational, institutional, governmental, and supranational levels. 3 undergraduate hours. 4 graduate hours.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 471 Instructional Strategies and Techniques for Information Professionals  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/471/)
Provides an introduction to learning theories and instructional methods used in a variety of information settings, including libraries, archives, museums, online, and educational environments. Includes an overview of theoretical and applied research and discusses relevant issues and concepts. Students will have an opportunity to design and present an instructional program. 3 undergraduate hours. 2 or 4 graduate hours.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 477 Data Management, Curation & Reproducibility  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/477/)
This course addresses issues in Data Management, Curation & Reproducibility from a Data Science perspective. We discuss definitions of data science, and then introduce and use the Data Science Life Cycle as an intellectual foundation. Topics include Research Artifact Identification and Management, Metadata, Repositories, Economics of Artifact Preservation and Sustainability, and Data Management Plans. We use the case study to ground our discussions in both data sets and in specific data science research. This course requires a final project that applies course knowledge to a data science experiment and creates a data management plan for that experiment. 3 undergraduate hours. 4 graduate hours. Prerequisite: STAT 107/CS 107/IS 107; STAT 207/CS 207/IS 207; CS 227/STAT 227.
This course satisfies the General Education Criteria for:
ONL Info Science rate
IS 490  Topics in Info Foundations  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/490/)
Directed and supervised investigation of selected topics in information studies that may include among others the social, political, and historical contexts of information creation and dissemination; computers and culture; information policy; community information systems; production, retrieval and evaluation of knowledge; computer-mediated communication. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. Approved for Letter and S/U grading. May be repeated. Prerequisite: For undergraduates, junior standing and IS 202, or consent of instructor.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 491  Topics in Information Services  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/491/)
Variety of newly developed and current topics courses within the field of information services, intended to augment the existing Information Sciences curricula. 3 undergraduate hours. 2 to 4 graduate hours. May be repeated if topics vary.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 492  Topics in Information Organizations & Social Contexts  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/492/)
Variety of newly developed and current topics courses within the field of information organizations and social contexts, intended to augment the existing Information Sciences curricula. 3 undergraduate hours. 2 to 4 graduate hours. May be repeated if topics vary.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 493  Topics in Cultural Heritage, Collection Management & Preservation  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/493/)
Variety of newly developed and current topics courses within the field of information cultural heritage, collection management and preservation, intended to augment the existing Information Sciences curricula. 3 undergraduate hours. 2 to 4 graduate hours. May be repeated if topics vary.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 494  Topics in Management, Ethics & Policy  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/494/)
Variety of newly developed and current topics courses within the field of management ethics and policy, intended to augment the existing Information Sciences curricula. 3 undergraduate hours. 2 to 4 graduate hours. May be repeated if topics vary.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 495  Topics in Organization & Representation  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/495/)
Variety of newly developed and current topics courses within the field of information organizations and representation, intended to augment the existing Information Sciences curricula. 3 undergraduate hours. 2 to 4 graduate hours. May be repeated if topics vary.

IS 496  Topics in Human-Centered Design & Systems  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/496/)
Variety of newly developed and current topics courses within the field of human-centered design and systems, intended to augment the existing Information Sciences curricula. 3 undergraduate hours. 2 to 4 graduate hours. May be repeated if topics vary.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 497  Topics in Data Analytics & Data Science  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/497/)
Variety of newly developed and topics courses within Data Analytics & Data Science, intended to augment the existing Information Sciences curricula. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated if topics vary.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 499  Topics in Web Design & Development  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/499/)
Variety of newly developed and current topics courses within Web Design & Development, intended to augment the existing Information Sciences curricula. 3 undergraduate hours. 2 to 4 graduate hours. May be repeated if topics vary.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 500  Introduction to the iSchool  credit: 0 to 2 Hours. (https://courses.illinois.edu/schedule/terms/IS/500/)
Introduces graduate students to the School of Information Sciences (the iSchool). Students will learn best practices for success in their program. They will also learn about resources and support provided by the School and the University while building community among their peers, faculty, staff and alumni. Various sections address different graduate student audiences and needs. 0 to 2 graduate hours. No professional credit. Approved for Letter and S/U grading.

IS 501  Reference and Information Services  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/501/)
Explores reference and information services in a variety of settings, introduces widely used print and online sources, and develops question negotiation skills and search strategies. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

Information listed in this catalog is current as of 01/2022
IS 503  History of Children's Lit  credit: 2 or 4 Hours.
Interpretation of children's literature from the earliest times, including the impact of changing social and cultural patterns on books for children; attention to early printers and publishers of children's books and to magazines for children. 2 or 4 graduate hours. No professional credit. This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 504  Sociotechnical Information Systems  credit: 4 Hours.
The character, success, and costs/benefits of information technologies are socio-technical matters. Because of this, best practice for IT design and integration relies on participants' ability to understand and create for the totality of those settings, including social and technical dimensions. This course provides students with analytic tools for examining socio-technical settings and experience in applying that knowledge in IT modeling, design and management. 4 graduate hours. No professional credit. This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 505  Information Organization and Access  credit: 4 Hours.
Emphasizes information organization and access in settings and systems of different kinds. Traces the information transfer process from the generation of knowledge through its storage and use in both print and non-print formats. Consideration will be given to the creation of information systems: the principles and practice of selection and preservation, methods of organizing information for retrieval and display, the operation of organizations that provide information services, and the information service needs of various user communities. 4 graduate hours. No professional credit. This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 506  Human-Centered Information Systems  credit: 4 Hours.
This course provides students the fundamental theory and skills necessary to design, develop, and evaluate human centered information systems. By the end of the course students will be able to gather user needs in light of existing sociotechnical systems, design effective human centered interfaces, implement interactive prototypes, and conduct unit testing and user studies of software. The course will employ lectures, mini projects and in-class hands-on activities to reinforce the ideas presented. 4 graduate hours. No professional credit. This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 507  Data, Statistical Models and Information  credit: 4 Hours.
An introduction to statistical and probabilistic models as they pertain to quantifying information, assessing information quality, and principled application of information to decision making, with focus on model selection and gauging model quality. The course reviews relevant results from probability theory, parametric and non-parametric predictive models, as well as extensions of these models for unsupervised learning. Applications of statistical and probabilistic models to tasks in information management (e.g. prediction, ranking, and data reduction) are emphasized. 4 graduate hours. No professional credit. Prerequisite: Graduate standing. This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 508  Seminar in Information Foundations  credit: 4 Hours.
This seminar course will offer an advanced graduate survey of research in areas related to information foundations, across a wide range of topics. This course is designed to incorporate multiple guest lectures. Weekly class meetings will be composed of both lectures and discussions. 4 graduate hours. No professional credit. May be repeated in the same or separate semesters to a maximum of 16 hours, if topics vary. This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 509  History and Foundations of Information Science  credit: 4 Hours.
Provides an introduction to the historical foundations of IS. Examinations of the interactions of socio-cultural, technological and professional factors underlying the emergence of IS provide a basis for exploring more recent developments in theory and practice. Required IS Ph.D. course. 4 graduate hours. No professional credit. This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 510  Libraries, Information and Society  credit: 4 Hours.
Explores major issues in the library and information science professions as they involve their communities of users and sponsors. Analyzes specific situations that reflect the professional agenda of these fields, including intellectual freedom, community service, professional ethics, social responsibilities, intellectual property, literacy, historical and international models, the socio-cultural role of libraries and information agencies and professionalism in general, focusing in particular on the interrelationships among these issues. 4 graduate hours. No professional credit. Prerequisite: Required M.S. in library and information science degree core course. This course satisfies the General Education Criteria for:
ONL Info Science rate
IS 511  Scholarly Communications  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/511/)
A basic level of scholarly communication literacy and sophistication is an increasing requirement of academic librarians, both to inform their work and to make those librarians effective partners in the scholarly enterprise. This course is designed to cultivate and develop that literacy. It will address topics such as: the established modes of scholarly communication and the emergence of alternatives influenced by the growth of social media and other forms of networked communication; the divide between formal and informal modes of scholarly communication and the current state of flux as that divide begins to collapse; the varying economics of scholarship (the reputation and prestige economy, the financial economy both in the market and in the mission-driven research academy, and the economic impact of scholarly communication decisions upon library budgets); modes of credentialing scholarship and their impact upon professional advancement, with special attention to peer review and its (current?) discontents; scholarship as intellectual property and the most effective ways to manage that property and achieve scholarly goals; and issues in access and preservation as they relate to ensuring the future of the scholarly conversation. 2 or 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 512  History of Libraries  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/512/)
The origins, development, and evolution of libraries and related institutions, from antiquity to the twentieth century, as a reflection of literacy, recognition of archival responsibility, humanistic achievement, scientific information needs, and service to society. Same as MDIA 512. 2 or 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 514  Applied Business Research  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/514/)
As an experiential learning class, this course covers advanced techniques of business research with an emphasis on managing real-world client projects. Students will be assigned to teams and work with clients to identify research requirements and construct recommendations. Students will acquire critical skills in creating professional deliverables through client engagements. Students will build professional research portfolios at the conclusion of their projects. 4 graduate hours. No professional credit. May be repeated in separate terms up to 8 hours if topics vary. Prerequisite: Instructor approval required.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 515  Information Modeling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/515/)
Information modeling is critical to all information systems and analysis. This course introduces students to foundational frameworks (set theory and logics) and basic underlying objects (entities, attributes, and relations) of information modeling. A variety of modeling approaches (use case modeling, relational database design, first-order predicate logic, and semantic web technologies) are considered, and recent developments (non-relational databases and knowledge graphs) are reviewed. Modeling strategies are assessed by their expressiveness and reasoning capabilities. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 516  Scalable Information Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/516/)
Focuses on large-scale information systems and analyzes the design and development principles and infrastructures that make them scalable and reliable. Topics include issues in scalability and availability, distributed system design, virtualization, scalability testing, and popular frameworks and platforms, such as Hadoop/MapReduce, Apache Spark, Amazon Web Services. Real-world, large-scale information systems, such as those developed by Google, Amazon, and Facebook, etc., are discussed and analyzed as use cases. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 517  Methods of Data Science  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/517/)
A dramatic increase in computing power has enabled new areas of data science to develop in statistical modeling and analysis. These areas cover predictive and descriptive learning and bridge between ideas and theory in statistics, computer science, and artificial intelligence. We will cover methods including predictive learning: estimating models from data to predict future outcomes. Regression topics include linear regression with recent advances using large numbers of variables, smoothing techniques, additive models, and local regression. Classification topics include linear regression, regularization, logistic regression, discriminant analysis, splines, support vector machines, generalized additive models, naive Bayes, mixture models and nearest neighbor methods as time permits. Lastly, we develop neural networks and deep learning techniques, bridging the theory introduced in the earlier parts of the class to purely empirical methods. We situate the course components in the "data science lifecycle" as part of the larger set of practices in the discovery and communication of scientific findings. 4 graduate hours. No professional credit. Prerequisite: IS 507 or equivalent (e.g. intro probability/stats STAT 100, CS 361, or ECON 202); and IS 490 IDS/CS 398 ID/STAT 490 or CS101 or equivalent; or consent of the instructor. Linear Algebra recommended at the level of MATH 125; Calculus recommended at the level of MATH 220.
This course satisfies the General Education Criteria for:
ONL Info Science rate
IS 518  Seminar in Information Services  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/518/)
This seminar course will offer an advanced graduate survey of research in areas related to information services, across a wide range of topics. This course is designed to benefit from guest lectures. This seminar course will be composed of both lectures and discussions. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 519  Research Design in Information Science  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/519/)
Provides an introduction to the design of IS research, beginning with an in-depth consideration of the philosophical and logical underpinnings of research. A brief survey of different methods used in IS research is followed by an exploration of research design issues through comparative hands-on exercises. Throughout the course, the emphasis will be on research design choices, especially the connections between research questions and research methods. Required IS Ph.D. course. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 521  Digital Libraries  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/521/)
A comprehensive examination of the history and state-of-the-art in digital library research and practice. Focuses upon the theoretical, technological, human factors and evaluative components of digital library research and practice. Course includes an intensive reading of the literature, review of existing technologies and proof-of-concepts implementation projects. Students should have access to a personal computer on which they can experiment on their own with downloaded software tools. Students must be competent in basic computing including the installation and configuration of software packages. 4 graduate hours. No professional credit. Prerequisite: IS 505 (formerly IS 501, SP 20 and before) or consent of instructor; previous or concurrent enrollment in IS 430 (formerly IS 452, SU 20 and before) (either the 2 credit hours or the 4 credit hours of Foundations Info Processing are acceptable), or proof of competency in programming.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 522  Library Buildings  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/522/)
Studies the library's physical plant in the light of changing concepts and patterns of library service; analyzes present-day library buildings (both new and remodeled), and their comparison with each other as well as with buildings of the past; examines the interrelationship of staff, collections, users, and physical plant; discussion supplemented by visits to new libraries and conference with their staffs. A two-day field trip is required. Additional fees may apply. See Class Schedule. 2 or 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 523  Preserving Info Resources  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/523/)
Covers the broad range of library preservation and conservation for book and nonbook materials relating these efforts to the total library environment; emphasizes how the preservation of collections affects collection management and development, technical services, access to materials and service to users. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 524  Data Governance  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/524/)
The course will address issues of data governance, including data ethics, and design and implementation of policy responses and best practices. Topics include privacy, discrimination, data sharing, data quality, and building a diverse workforce. These topics will be explored through real-world cases in corporate settings, libraries, non-profits, healthcare, governments, and academia. The course will also cover principles and frameworks for analyzing and responding to issues. The course is suitable for anyone planning to work in a professional setting that will involve handling data or building information systems, or seeking a grounding for future study of data and information ethics. 2 or 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 525  Data Warehousing and Business Intelligence  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/525/)
This course examines the construction of a data warehouse and business intelligence system. It will review the roles and requirements of building the system, including data modelling and business intelligence product design. This course will explore real-world case studies of data warehouse and business intelligence projects through hands-on experience with data modelling, Business Objects, Power BI and Tableau. The course culminates with a final project to design a solution for a business case. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 526  Building Advanced Interactive Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/526/)
This course will teach students about building inclusive interactive systems. They will learn to gather and understand user requirements and needs for a wide range of user populations, especially those that are under-served (e.g., children, older adults, people with disabilities), apply inclusive design frameworks and principles, and design, develop, evaluate and improve interactive prototypes in an iterative manner. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate
IS 527  Network Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/527/)
Network Analysis has become a widely adopted method for studying the interactions between social agents, information and infrastructures. The strong demand for expertise in network analysis has been fueled by the widespread acknowledgement that everything is connected and the popularity of social networking services. This interdisciplinary course introduces students to fundamental theories, concepts, methods and applications of network analysis in a practical manner. Students learn and practice hands-on skills in collecting, analyzing and visualizing network data. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 528  Seminar in Information Organizations & Social Contexts  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/528/)
This seminar course will offer an advanced graduate survey of research in areas related to information in Information Organizations & Social Contexts, across a wide range of topics. This course is designed to incorporate multiple guest lectures. Weekly class meetings will be composed of both lectures and discussions. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 529  Doctoral ProSeminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IS/529/)
A core course for all first year Information Science PhD students. The seminar serves as a venue for the development of a variety of skills and capacities to succeed as a scholar. Throughout the term, students will engage in a series of tasks designed as an initiation to the academic profession. The seminar offers a mix of sessions on progression through the Ph.D. degree program, the research process, guidance on the academic profession, and written and oral presentation of scholarly research. While students will receive feedback from the instructor, this is a seminar, meaning that active student participation and peer feedback is crucial. 1 graduate hour. No professional credit. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 4 hours. Prerequisite: PhD Students in Information Sciences.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 530  Collection Development  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/530/)
Examines issues affecting the development and management of collections for academic, public, special, and school libraries: collection development policies, collection assessment, the marketplace, publishing, legal issues, and budget allocation; document delivery; collaboration and cooperation. 4 graduate hours. No professional credit. Prerequisite: IS 505 - Information, Organization and Access (formerly IS 501 prior to FA 20), or concurrent enrollment in IS 505 and IS 530.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 532  School Library Management  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/532/)
School Library Information Specialists serve children and young adults (ages 5-18) in K-12 school library media centers. Students will acquire specific knowledge, skills and competencies needed to design, develop, integrate and assess curriculum and instruction with an emphasis on the information needs of K-12 students. Readings and projects provide students with opportunities to apply the practical knowledge and skills they have learned about building reading literacy, teaching information literacy skills, collaborating with teachers and integrating resources into teaching and learning. 2 or 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 533  Oral History Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/533/)
This methods seminar engages with the theory and practice of oral history through reading, discussion, and practice. Students will: gain hands-on experience with interviewing and transcription, be prepared to work with Institutional Review Boards, understand how to design consent and legal release forms, and will engage with relevant ethical and theoretical issues. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 534  Information Consulting  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/534/)
This course is designed to provide fundamental knowledge in providing research services and also introduce the latest trends and innovative approaches in research services. Information professionals are increasingly being challenged to provide not just data but insights and recommendations that are critical for strategic decision making. Using methodologies widely adopted by professional firms and researchers, this course will cover basics of research consulting including framing research problems, developing deliverables, and presenting professionally. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

Information listed in this catalog is current as of 01/2022
IS 537  Theory & Practice of Data Cleaning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/537/)
Data cleaning (also: cleansing) is the process of assessing and improving data quality for later analysis and use, and is a crucial part of data curation and analysis. This course identifies data quality issues throughout the data lifecycle, and reviews specific techniques and approaches for checking and improving data quality. Techniques are drawn primarily from the database community, using schema-level and instance-level information, and from different scientific communities, which are developing practical tools for data pre-processing and cleaning. Same as CS 513. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 538  Seminar in Cultural Heritage, Collection Management, & Preservation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/538/)
This seminar course will offer an advanced graduate survey of research in areas related to research in Cultural Heritage, Collection Management, & Preservation, across a wide range of topics. This course is designed to incorporate multiple guest lectures. Weekly class meetings will be composed of both lectures and discussions. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 540  Social Justice in the Information Professions  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/540/)
Intended to provide a historic and contemporary overview of social justice and advocacy work in librarianship. The course will be primarily focused on activities in the United States, though international movements and perspectives will be addressed. Topics include: desegregation of libraries and professional associations; recruitment and retention of library workers from traditionally underrepresented populations; library outreach; intellectual freedom; and emerging critical theories and issues in the field. 2 or 4 graduate hours. No professional credit. Prerequisite: Graduate student.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 541  Copyright for Information Professions  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/541/)
Copyright is a complicated legal concept that affects all information institutions, including corporations, libraries, archives, and museums whether they are online or off. This course will explore copyright from both a legal and information management perspective to demystify the concept and provide practical tools for working with copyrighted material. Topics discussed include the Constitutional underpinnings of copyright, copyright basics, copyright exceptions, fair use, the open access movement, licensing, data and copyright, and educational issues relating to copyright including issues related to K-12 teaching. This course is designed for students with a variety of backgrounds and interests. 2 or 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 542  Research and Inquiry for Youth  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/542/)
This course is designed to prepare school librarians to serve as instructional leaders in their learning communities, positioned to transform teaching and learning in order to ensure students are college, career, and community ready. Participants will develop strategies and practices to support the school's curriculum through the roles of instructional partner, information specialist, and teacher. The school librarian has a leadership role in designing authentic learning activities in research and guided inquiry to prepare students in both the process and attitudes necessary to identify and meet their own lifelong information needs. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 543  Digital Preservation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/543/)
Examines current problems with and approaches to digital preservation that are fundamental to the long-term accessibility of digital materials. Examines the range of current research problems, along with emerging methods and tools, and assesses a variety of organizational scenarios to plan and implement a preservation plan. Topics include basic information theory, preservation of complex digital objects; standards and specifications; sustainability and risk assessment; authenticity, integrity, quality control, and certification; and management of preservation activities. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 544  Administration & Management of Libraries and Information Centers  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/544/)
Designed to explore the principles that govern how organizations and institutions work, this course provides a foundation for and introduction to the theories, practices and procedures involved in the management and administration of libraries and information centers. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 545  Advanced Data Visualization  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/545/)
This seminar-style course will cover advanced topics in visualization techniques. This will cover topics such as the history of visualization techniques, the perception and understanding of visual information, and new frontiers in displaying quantitative information. We will explore the modern technical stack for creating and sharing visualizations, including topics in javascript, python, and reactive frameworks. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate
IS 547 Foundations of Data Curation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/547/)
Data curation is the active and on-going management of data through its lifecycle of interest and usefulness to scholarship, science, and education;
curation activities and policies enable data discovery and retrieval, maintain data quality and add value, and provide for re-use over time. This course
provides an overview of a broad range of theoretical and practical problems in the emerging field, examining issues related to appraisal and selection,
long-lived data collections, research lifecycles, workflows, metadata, and legal and intellectual property issues. 4 graduate hours. No professional
credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 548 Seminar in Management, Ethics, & Policy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/548/)
This seminar course will offer an advanced graduate survey of research in areas related to research in management, ethics, & policy, across a
wide range of topics. This course is designed to incorporate multiple guest lectures. Weekly class meetings will be composed of both lectures and
discussions. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 549 Practicum  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IS/549/)
Supervised field experience of professional-level duties in an approved library or information center. 2 graduate hours. No professional credit.
Approved for S/U grading only. A maximum of 2 hours may be applied toward a degree program. Prerequisite: Completion of 12 graduate hours of
information sciences courses; submission of Practicum forms.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 550 Theories of Information  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/550/)
A theory of information attempts to articulate clearly and precisely what information is, and what it means to become informed. Theories of
information can contribute to the scientific foundations for many important research and practice activities in IS, including data curation, information
modeling, information access, digital preservation, and informatics support for science and scholarship. This course, Theories of Information – A,
takes a logic-based approach to investigating the nature of information. Methodologically we draw from a family of methods that might be called
formal methods, in contrast to the empirical methods of social and nature science. Formal methods typically make use of concepts from logic, set
theory, and discrete mathematics to construct and explore formal systems. Formal methods are widely used in linguistics, mathematics, philosophy,
and computer science. Within the general area of formal methods our approach in this course might be more specifically referred to as conceptual
analysis, as it takes the form of a systematic analysis of a concept, namely information. Most of the prior work that is relevant to our analysis is from
analytic philosophy, linguistics (especially formal semantics), and computer science (especially knowledge representation and AI). 4 graduate hours.
No professional credit. Prerequisite: Some familiarity with formal logic would be useful, but is not required. Some familiarity with conceptual modeling
(ER or UML diagrams, or RDF/S for instance) would also be useful, but not required.

IS 551 Youth Services Librarianship  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/551/)
Theory and techniques in planning, implementing and evaluating library programs/services for youth (age 0-18) in public and school libraries/media
centers; the knowledge base, skills, and competencies needed by the library media professional in the development of all aspects of young people's
reading/viewing/listening and information literacy skills. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 552 Data Curation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/552/)
This course provides an overview of a broad range of theoretical and practical problems in the emerging field, examining issues related to
appraisal and selection, long-lived data collections, research lifecycles, workflows, metadata, and legal and intellectual property issues. 4 graduate
hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 553 Data Curation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/553/)
This course provides an overview of a broad range of theoretical and practical problems in the emerging field, examining issues related to
appraisal and selection, long-lived data collections, research lifecycles, workflows, metadata, and legal and intellectual property issues. 4 graduate
hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 554 E-Law  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/554/)
This course covers the legal aspects related to information technology, including copyright, software licensing, and the global use of the Internet.
4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 555 Internet of Things  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/555/)
Relying primarily on case studies, this course will help develop the students' understanding of how the IoT enables Business Data Analytics. Lectures
and readings will be focused on the impact to a company's business model created by IoT data and analytics. Because of the disruptive nature of
IoT sensors or data, IT Innovation will also be discussed. While the course will reflect a practitioner's view, the material will be presented on a solid
academic under-pinning. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

Information listed in this catalog is current as of 01/2022
IS 557  Applied Machine Learning: Team Projects  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/557/)
A comprehensive exploration of the applied machine learning workflow from inspiration to delivery of a machine learning solution broadly defined (i.e., from analytic finding to embedded machine learning application). This course is firmly grounded in a "learning-by-doing" teaching philosophy with pedagogical priority clearly placed on the application of machine learning to real-world data and problems. Ongoing and intense practical experiences in team-based project management and work are another cornerstone of this course. This course includes student-led reviews of existing data sources and machine learning technologies along with several team-based fact-finding and proof-of-concept implementation projects. This course is designed for students wishing to engage seriously in the practical world of machine learning implementation. 4 graduate hours. No professional credit. Prerequisite: Students should have demonstrated ability, and must have taken one of the following courses, IS 577 (formerly IS 590 DT), IS 517 (formerly IS 590 MD), CS 412, CS 446 or a course demonstrably equivalent.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 558  Seminar in Organization & Representation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/558/)
Offers an advanced graduate survey of research in areas related to research in Organization and Representation, across a wide range of topics. Designed to incorporate multiple guest lectures. Weekly class meetings will be composed of both lectures and discussions. 4 graduate hours. No professional credit. May be repeated in the same or separate terms, to a maximum of 16 hours, if topics vary.

IS 559  CAS Project  credit: 0 to 8 Hours. (https://courses.illinois.edu/schedule/terms/IS/559/)
Individual study of a problem in library and information science; forms the culmination of the Certificate of Advanced Study program. 0 to 8 graduate hours. No professional credit. Approved for S/U grading only. May be repeated. Only eight hours will apply to the Certificate of Advanced Study. Prerequisite: Admission to Certificate of Advanced Study program in library and information science; submission of "Request to Enroll in IS 559 - CAS Project" form.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 560  Social Science Research in Library and Information Science  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/560/)
Introduces students to the fundamentals of doing social science research in LIS. Students will learn how to frame a research problem, choose an appropriate research method, apply it, and write up the research for presentation and publication. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 561  Use and Users of Information  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/561/)
Explores information needs and uses at a general level, addressing formal and informal information channels, barriers to information, issues of value, and impacts of technology. Examines information seeking practices of particular communities and within various environments, introducing recent approaches to user-centered system design and digital library development. Provides an overview of methods that can be used to study information needs, information seeking behavior, and related phenomena. 4 graduate hours. No professional credit. Prerequisite: IS 505.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 562  Administration and Use of Archival Materials  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/562/)
Administration of archives and manuscript collections in various types of institutions. Theoretical principles and archival practices of appraisal, acquisition, accessioning, arrangement, description, preservation, and reference services. Topics will include: records management programs, collecting archives programs/special collections, legal and ethical issues, public programming and advocacy, and the impact of new information technologies for preservation and access. Lectures, discussion, internet demonstration, and field trips to the Special Collections Department and University Archives. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 563  Advanced Topics in Literature, Media and Materials  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/563/)
Variety of newly developed and advanced topics courses within Literature, Media and Materials, intended to augment the existing Information Sciences curricula. 2 or 4 graduate hours. No professional credit. May be repeated in the same or separate terms, to a maximum of 16 hours, if topics vary.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 565  Cataloging for School Libraries  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IS/565/)
This course will introduce the student to the principles, practices and standards for information representation and organization in school media centers. Course content will include an introduction to original cataloging of non-standard materials (such as realia and audiovisual materials), evaluation of bibliographic records, exposure to authority control and subject access systems with a special focus on the Dewey Decimal System and Sears Subject Headings. The course will also provide an overview and exploration of different library systems/OPACS. 2 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate
IS 567 Text Mining  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/567/)
The goal of this project-based course is to provide students with first-hand experience with how to create a well-formed text mining problem and how to select, transform, and mine a collection of text. Prior programming knowledge (in any language) is required. As students work on their own project, they will draw from key concepts in text mining using perspectives from both the knowledge discovery and natural language processing research communities. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 568 Seminar in Human-Centered Design & Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/568/)
This seminar course will offer an advanced graduate survey of research in areas related to research in human-centered design and systems, across a wide range of topics. This course is designed to incorporate multiple guest lectures. Weekly class meetings will be composed of both lectures and discussions. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 569 Internship  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/IS/569/)
Supervised field experience designed for learning professional-level duties in an approved information-related organization or institution. 0 graduate hours. No professional credit. Approved for S/U grading only. May be repeated in separate terms.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 571 Advanced Topics in Use and Users of Information  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/571/)
Variety of newly developed and advanced topics courses within the field of Use and Users of Information, intended to augment the existing Information Sciences curricula. 2 OR 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 573 Advanced Topics in Collections  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/573/)
Variety of newly developed and advanced topics courses within the field of Collections, intended to augment the existing Information Sciences curricula. Additional fees may apply. See Class Schedule. 2 or 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 575 Metadata in Theory & Practice  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/575/)
Combines theoretical examination of the design of metadata schema with their practical application in a variety of settings. Hands-on experience in the creation of descriptive, administrative, and structural metadata, along with their application in systems such as OAI harvesting, OpenURL resolution systems, metasearch systems and digital repositories, will help students develop a thorough understanding of current metadata standards as well as such issues as crosswalking, metadata schema, metadata's use in information retrieval and data management applications, and the role of standards bodies in metadata schema development. 4 graduate hours. No professional credit. Prerequisite: IS 505 - Information, Organization and Access (formerly IS 501 prior to FA 20) or consent of the instructor.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 577 Data Mining  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/577/)
Data mining refers to the process of exploring large datasets with the goal of uncovering interesting patterns. This process usually involves a number of tasks such as data collection, pre-processing, & characterization; model fitting, selection, & evaluation; classification, clustering, & prediction. Although data mining has its roots in database management, it has grown into a discipline that focuses on algorithm design (to ensure computational feasibility) & statistical modeling (to separate the signal from the noise). It draws heavily upon a variety of other disciplines including statistics, machine learning, operations research, & information retrieval. Will cover the major data mining concepts, principles, & techniques that every information scientist should know about. Lectures will introduce & discuss the major approaches to data mining; computer lab sessions coupled w/assignments will provide hands-on experience with these approaches; term projects offer the opportunity to use data mining in a novel way. Mathematical detail will be left to the students who are so inclined. 2 or 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 578 Seminar in Research Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/578/)
This seminar course will offer an advanced graduate survey of research in areas related to research in research methods, across a wide range of topics. This course is designed to incorporate multiple guest lectures. 4 graduate hours. No professional credit.
This course satisfies the General Education Criteria for:
ONL Info Science rate
IS 580  Information History  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/580/](https://courses.illinois.edu/schedule/terms/IS/580/))
Drawing on research in varied historical specializations, information history has become a vibrant area of study, one that improves our understanding, moreover, of today’s information universe. Information history covers diverse institutions and practices – from libraries and the book to the telegraph and postal systems, from surveillance to cartography, from documentary culture to statistical surveys – seeking to connect them with the major developmental processes of human history. Framed in a succession of major historical epochs, topics and trends, from Antiquity to the twentieth century, this course revises our sense of the historical record by situating information explicitly within it. 4 graduate hours. No professional credit. This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 581  Advanced Topics in Youth Services  credit: 2 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/581/](https://courses.illinois.edu/schedule/terms/IS/581/))
Variety of newly developed and advanced topics courses within the field of Youth Services, intended to augment the existing Information Sciences curricula. 2 OR 4 graduate hours. No professional credit. May be repeated in the same or separate semesters to a maximum of 16 hours, if topics vary. This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 582  Advanced Topics in Librarianship  credit: 2 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/582/](https://courses.illinois.edu/schedule/terms/IS/582/))
Variety of newly developed and advanced topics courses within the field of Librarianship, intended to augment the existing Information Sciences curricula. Additional fees may apply. See Class Schedule. 2 or 4 graduate hours. No professional credit. May be repeated in the same or separate semesters to a maximum of 16 hours, if topics vary. This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 583  Advanced Topics in Book History  credit: 2 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/583/](https://courses.illinois.edu/schedule/terms/IS/583/))
Variety of newly developed and advanced topics courses within the field of Book History, intended to augment the existing Information Sciences curricula. Additional fees may apply. See Class Schedule. 2 or 4 graduate hours. No professional credit. May be repeated in the same or separate semesters to a maximum of 16 hours, if topics vary. This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 584  Advanced Topics in Ethics and Privacy  credit: 2 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/584/](https://courses.illinois.edu/schedule/terms/IS/584/))
Variety of newly developed and advanced topics courses within the field of ethics and privacy, intended to augment the existing Information Sciences curricula. 2 or 4 graduate hours. No professional credit. May be repeated in the same or separate semesters to a maximum of 16 hours, if topics vary. This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 585  Bibliographic Metadata  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/585/](https://courses.illinois.edu/schedule/terms/IS/585/))
Introduction to basic principles and concepts of descriptive and subject cataloging in the context of information service needs for various user communities. Explores principles, structures, standards, technologies and practices relating to organizing and creating access to print and non-print media. Includes coverage of subject analysis and descriptive practices. Introduces controlled vocabularies. 4 graduate hours. No professional credit. Prerequisite: Information Organization and Access; IS 505 for Fall 2020 (previously IS 501). This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 586  Usability Engineering  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/586/](https://courses.illinois.edu/schedule/terms/IS/586/))
The course provides an introduction to: issues in Human Computer Interaction; analysis of interfaces and their use; the interface design process as an engineering activity; designing usable interfaces under constraints; and the rapid prototyping and evaluation cycle. The course covers interface design in multiple contexts including websites, web-based applications, smartphone apps, regular computer apps and new contexts of interacting with computers. Elective course for the CAS in Digital Libraries concentration. 4 graduate hours. No professional credit. This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 587  Seminar in Data Analytics and Data Science  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/587/](https://courses.illinois.edu/schedule/terms/IS/587/))
This seminar course will offer an advanced graduate survey of data analytics and data science in the information fields, across a wide range of topics. This course is designed to incorporate multiple guest lectures. 4 graduate hours. No professional credit. This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 588  Data Consulting Capstone  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/588/](https://courses.illinois.edu/schedule/terms/IS/588/))
This course will help to prepare students for a competitive job market in data consulting. They will build a portfolio including evidence of effective consulting abilities, database design, and knowledge of applying data to solve real world problems. Portfolios will demonstrate theoretical and practical understandings of areas such as entity-relationship modeling, creating tables, writing queries in SQL, and data analysis for decision making. 4 graduate hours. No professional credit. This course satisfies the General Education Criteria for:
ONL Info Science rate
IS 589  Independent Study  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/589/)
Permits the intermediate or advanced student opportunity to undertake the study of a topic not otherwise offered in the curriculum or to pursue a
topic beyond or in greater depth than is possible within the context of a regular course. 2 to 4 graduate hours. No professional credit. May be repeated
by MS students to a maximum of 4 graduate hours. May be repeated by CAS students to a maximum of 8 graduate hours. May be repeated by PhD
students to a maximum of 16 graduate hours. Prerequisite: Submission of "Request to Enroll in IS 592" form.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 590  Advanced Topics in Information Foundations  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/590/)
Variety of newly developed and advanced topics courses within the field of information foundations, intended to augment the existing Information
Sciences curricula. Additional fees may apply. See Class Schedule. 2 or 4 graduate hours. No professional credit. May be repeated.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 591  Advanced Topics in Information Services  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/591/)
Variety of newly developed and advanced topics courses within the fields of Information Services, intended to augment the existing Information
Sciences curricula. 2 OR 4 graduate hours. No professional credit. May be repeated in the same or separate semesters to a maximum of 16 hours, if
topics vary.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 592  Advanced Topics In Information Organizations  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/592/)
Variety of newly developed and advanced topics courses within the fields of Information Organization, intended to augment the existing Information
Sciences curricula. 2 or 4 graduate hours. No professional credit. May be repeated in the same or separate semesters to a maximum of 16 hours, if
topics vary.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 593  Advanced Topics in Preservation & Tech Services  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/593/)
Variety of newly developed and advanced topics courses within the fields of Preservation & Tech Services, intended to augment the existing Information
Sciences curricula. 2 or 4 graduate hours. No professional credit. May be repeated in the same or separate semesters to a maximum of 16 hours, if
topics vary.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 594  Advanced Topics in Management and Policy  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/594/)
Variety of newly developed and advanced topics courses within the fields of Management and Policy, intended to augment the existing Information
Sciences curricula. 2 or 4 graduate hours. No professional credit. May be repeated in the same or separate semesters to a maximum of 16 hours, if
topics vary.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 595  Advanced Topics in Organization & Representation  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/595/)
Variety of newly developed and advanced topics courses within the fields of Organization & Representation, intended to augment the existing Information
Sciences curricula. 2 or 4 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated in the same or separate semesters to a maximum of 16 hours, if topics vary.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 596  Advanced Topics in Human-Centered Design & Systems  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/596/)
Variety of newly developed and advanced topics courses within the field of Human-Centered Design & Systems, intended to augment the existing Information
Sciences curricula. 2 or 4 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated in the same or separate semesters to a maximum of 16 hours, if topics vary.
This course satisfies the General Education Criteria for:
ONL Info Science rate

IS 597  Advanced Topics in Data Analytics & Data Science  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/597/)
Variety of newly developed and advanced topics courses within the fields of Data Analytics & Data Science, intended to augment the existing Information
Sciences curricula. 2 or 4 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated in the same or separate semesters to a maximum of 16 hours, if topics vary.
This course satisfies the General Education Criteria for:
ONL Info Science rate

Information listed in this catalog is current as of 01/2022
IS 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/IS/599/)
Individual study and research. 0 to 16 graduate hours. No professional credit. Approved for S/U grading only. May be repeated. M.S. candidates, 0 to 8 hours. Doctoral candidates, 0 to 16 hours. Prerequisite: MS students must submit a "Request to Enroll in IS 599 - Master's Thesis" form.
This course satisfies the General Education Criteria for:
ONL Info Science rate
ITAL - Italian

ITAL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ITAL/)

Courses

ITAL 101  Elementary Italian I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/101/)
For students who have no credit in Italian.

ITAL 102  Elementary Italian II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/102/)
Continuation of ITAL 101. Prerequisite: ITAL 101 or one year of high school Italian.

ITAL 103  Intermediate Italian I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/103/)
Rapid reading, review of grammar, composition, and conversation. Prerequisite: ITAL 102 or two years of high school Italian.

ITAL 104  Intermediate Italian II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/104/)
Continuation of ITAL 103. Prerequisite: ITAL 103 or three years of high school Italian.

ITAL 156  Exploring Rome: History and Culture of the Eternal City  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/156/)
Examines Rome and its roles (religious, political, cultural) in Italian culture from ancient times to the present day. Through history, film, literature, painting and architecture, we will explore the Rome through its various historical and political developments and the effects the city has had on wider Italian and global perception of the "Eternal City". All readings and class meetings are in English.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western

ITAL 191  Freshman Honors Tutorial  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/191/)
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars and Associates. May be repeated one time to a maximum of 6 hours. Prerequisite: Consent of departmental honors adviser in Italian.

ITAL 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/199/)
Approved for letter and S/U grading. May be repeated to a maximum of 5 hours.

ITAL 200  Italian Studies in a Mediterranean Context  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/200/)
Introduces students to the study of Italy and Italian culture, emphasizing Italy's central position in Mediterranean networks of cultural, economic and linguistic exchange. Prerequisite: ITAL 104 or consent of instructor.

ITAL 210  Practical Review Italian  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/210/)
Reviews major challenges in Italian grammar, with particular emphasis on the verb system (major tenses and moods, morphology, and aspect) and areas of contrast with English. Prerequisite: Credit or concurrent enrollment in ITAL 104 or equivalent.

ITAL 220  Contemporary Italian, Oral and Written  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/220/)
Training in oral-aural skill and in writing.

ITAL 240  Italy Middle Ages & Renaisi  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/240/)
The development of Medieval Italian civilization in a literary context from the Sicilian School of love poetry to the early Renaissance in Florence; lectures and readings are in English. Same as CWL 240 and MDVL 240.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

ITAL 250  Minority Identities in Film and Culture: The Italian American and African American Experience  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/250/)
Explores the complex relation between Italian Americans and African Americans in the 19th and 20th century. Were Italian Americans white? What is whiteness? How does identity politics define the relation between minority groups? By looking at the problem of the construction of whiteness among Italian American and at the representation of their relation with African Americans in literature, movies and social studies we will discuss the problem of the relation between two minorities with often conflictual relations in the American context.
This course satisfies the General Education Criteria for:
- Cultural Studies - US Minority

ITAL 270  Introduction to Italian Cinema  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/270/)
Introduction to major films, movements and directors in the Italian tradition, paying particular attention to questions of national identity, gender and political and social history. Knowledge of Italian not required.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

ITAL 310  Advanced Grammar  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/310/)
Study of the structure of modern Italian in both its phonological and syntactic aspects for the student who already has a functional command of the language, with an emphasis on developing ability to analyze and interpret grammatical structures. Prerequisite: ITAL 210 or consent of instructor.
ITAL 380  Ital Business & Profess  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ITAL/380/](https://courses.illinois.edu/schedule/terms/ITAL/380/))
Builds preexisting language skills through the study of Italian business practices: financial systems, transactions, banking, import/export and commercial correspondence. Prerequisite: ITAL 210 or equivalent.

ITAL 390  Spec Topics Italian Studies  credit: 2 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/ITAL/390/](https://courses.illinois.edu/schedule/terms/ITAL/390/))
Selected substantive readings for independent study on a given special topic of Italian literature, culture, language, or linguistics. May be repeated. Prerequisite: ITAL 104 and consent of instructor.

ITAL 406  Italian Culture and Globalization  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ITAL/406/](https://courses.illinois.edu/schedule/terms/ITAL/406/))
Introduction to factors that have shaped present-day Italy, with particular attention to globalization; basic concepts contributing to understanding its present social and cultural development in a European and global context; taught in Italian. 3 undergraduate hours. 4 graduate hours. Prerequisite: ITAL 200 or ITAL 220, or consent of instructor.

ITAL 413  Dante  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ITAL/413/](https://courses.illinois.edu/schedule/terms/ITAL/413/))
Interpretation of Dante's Divine Comedy with special attention to its position in the medieval world; a knowledge of Italian not required. Same as CWL 413 and MDVL 413. 3 undergraduate hours. 4 graduate hours.

ITAL 414  Petrarch & Boccaccio  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ITAL/414/](https://courses.illinois.edu/schedule/terms/ITAL/414/))
Studies in Petrarch and Boccaccio; nonmajors in Italian may read the works in translation; lectures are in English. Same as CWL 414 and MDVL 414. 3 undergraduate hours. 4 graduate hours. Prerequisite: Fulfillment of campus rhetoric requirement.

ITAL 415  Europe and the Mediterranean  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ITAL/415/](https://courses.illinois.edu/schedule/terms/ITAL/415/))
Same as EURO 415 and PS 415. See EURO 415.

ITAL 418  Language & Minorities in Europe  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ITAL/418/](https://courses.illinois.edu/schedule/terms/ITAL/418/))
Same as EURO 418, FR 418, GER 418, LING 418, PS 418, SLAV 418, and SPAN 418. See FR 418.

ITAL 420  Masterpieces Renaiss Lit  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ITAL/420/](https://courses.illinois.edu/schedule/terms/ITAL/420/))
Reading of masterpieces of the 1400 and 1500s and a study of their predecessors and influence; nonconcentrators in Italian may read the works in translation; lectures are in English. Content rotates. Same as CWL 420 and MDVL 420. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 8 hours with consent of instructor. Prerequisite: Fulfillment of campus rhetoric requirement.

ITAL 435  Introduction to Romance Linguistics  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ITAL/435/](https://courses.illinois.edu/schedule/terms/ITAL/435/))
Same as FR 462, LING 462, PORT 435, RMLG 435 and SPAN 435. See SPAN 435.

ITAL 440  Modern Italian Novel  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ITAL/440/](https://courses.illinois.edu/schedule/terms/ITAL/440/))
An in-depth examination of a particular writer, genre, form or period in modern Italian literature (such as Italo Calvino, Italian detective fiction, or the contemporary Italian novel). See online schedule for specific topic. 3 undergraduate hours. 4 graduate hours. Prerequisite: ITAL 200 or consent of instructor.

ITAL 450  Italian Syntax & Phonology  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ITAL/450/](https://courses.illinois.edu/schedule/terms/ITAL/450/))
Introduction to the essential syntactic and phonological structures of Modern Standard Italian in combination with appropriate discussion of corresponding linguistic concepts. 3 undergraduate hours. 3 graduate hours. Prerequisite: ITAL 310 or consent of instructor.

ITAL 460  Principles of Language Testing  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ITAL/460/](https://courses.illinois.edu/schedule/terms/ITAL/460/))
Same as EIL 460, EPSY 487, FR 460, GER 460, PORT 460, and SPAN 460. See EIL 460.

ITAL 470  Topics in Italian Cinema  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ITAL/470/](https://courses.illinois.edu/schedule/terms/ITAL/470/))
An in-depth examination of a particular director, genre or school from the Italian cinematic tradition (e.g., Fellini, Italian horror, or noorealism); topic will vary each semester. No knowledge of Italian is required. Same as MACS 470. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours.

ITAL 489  Theoretical Foundations of SLA  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ITAL/489/](https://courses.illinois.edu/schedule/terms/ITAL/489/))
Same as FR 481, GER 489, LING 489, PORT 489, and SPAN 489. See LING 489.

ITAL 490  Italian Critical Theory  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/ITAL/490/](https://courses.illinois.edu/schedule/terms/ITAL/490/))
An advanced introduction to the critical theory of major Italian thinkers and philosophers (e.g., Gramsci, Negri, Agamben, Esposito). 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours if topic varies. Prerequisite: At least two 200-level courses in Italian, or consent of instructor.

ITAL 491  Honors Senior Thesis  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/ITAL/491/](https://courses.illinois.edu/schedule/terms/ITAL/491/))
For candidates for honors in Italian. No graduate credit. May be repeated.

ITAL 505  Teaching College and Secondary Foreign Language  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/ITAL/505/](https://courses.illinois.edu/schedule/terms/ITAL/505/))
Same as FR 505. See FR 505.

ITAL 510  Seminar in Italian Studies  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/ITAL/510/](https://courses.illinois.edu/schedule/terms/ITAL/510/))
Graduate seminar in Italian culture, literature, linguistics, or critical theory. Topics vary. May be repeated in the same semester to a maximum of 8 hours as topics vary. May be repeated in separate semesters to a maximum of 16 hours as topics vary.

ITAL 530  Introduction to Research and Text Criticism  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/ITAL/530/](https://courses.illinois.edu/schedule/terms/ITAL/530/))
Same as FR 530. See FR 530.
ITAL 559  Sem Romance Ling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/559/)
Same as FR 559, LING 559, PORT 559, RMLG 559, and SPAN 557. See SPAN 557.

ITAL 580  Classroom Language Acquisition  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/580/)
Same as EIL 580, FR 580, GER 580, PORT 580, and SPAN 580. See SPAN 580.

ITAL 584  Theories in Second Language Acquisition  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/584/)
Same as CI 584, EALC 584, EPSY 563, FR 584, GER 584, LING 584, PORT 584, and SPAN 584. See SPAN 584.

ITAL 588  Sem Second Lang Learn  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/588/)
Same as EALC 588, FR 588, GER 588, LING 588, PORT 588, and SPAN 588. See SPAN 588.

ITAL 595  Spec Topics in Italian  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/595/)
Independent study/research under the direction of a faculty member. May or may not fulfill requirements for a particular degree program in Spanish, Italian, and Portuguese. Consult graduate advisor. May be repeated in same or subsequent terms to a maximum of 8 hours.

ITAL 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/599/)
Approved for S/U grading only. May be repeated.
JAPN - Japanese

JAPN Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/JAPN/)

Courses

JAPN 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/199/)
May be repeated.

JAPN 201  Elementary Japanese I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/201/)
Introduction to Japanese, spoken language skills and the reading and writing of hirigana, katakana, and kanji.

JAPN 202  Elementary Japanese II  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/202/)
Continuation of JAPN 201. Prerequisite: JAPN 201.

JAPN 203  Intermediate Japanese I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/203/)
Prerequisite: JAPN 202 or equivalent.

JAPN 204  Intermediate Japanese II  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/204/)
Continuation of JAPN 203. Prerequisite: JAPN 203 or equivalent.

JAPN 305  Advanced Japanese I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/305/)
Readings in graded Japanese texts with oral practice designed to help students acquire the sophisticated vocabulary and grammatical structures of written Japanese. Prerequisite: JAPN 204 or placement test for students who have Japanese background or who have previously taken a course(s) in Japanese.

JAPN 306  Advanced Japanese II  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/306/)
Continuation of JAPN 305. Prerequisite: JAPN 305 or be placement test.

JAPN 407  Introduction to Classical Japanese  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/407/)
Introduction to the grammar, morphology, vocabulary, and style of classical Japanese language as found in premodern Japanese literary and historical writings. 3 undergraduate hours. 4 graduate hours. Prerequisite: Three years of modern Japanese language or equivalent.

JAPN 408  Readings in Classical Japanese  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/408/)
Readings in texts in classical Japanese selected from historical and literary sources of the premodern period. Attention is given to grammatical, morphological, and stylistic features and to problems in translation. Introduction to reading of classical syllabaries and manuscript texts. 3 undergraduate hours. 3 graduate hours. Prerequisite: JAPN 407 or equivalent.

JAPN 410  Advanced Readings in Japanese  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/410/)
Advanced reading course in Japanese for undergraduate and graduate students who have completed the 4th year level of Japanese in EALC and who have the requisite language competence. Prepares students to read authentic materials in Japanese and to do independent research using primary and secondary materials in different genres and disciplines, either literary materials or social science/history. Students will build vocabulary, strengthen grammar comprehension and increase reading speed in Japanese prose. Translation skills will also be a focus of this class. Depending upon the professor offering the class, the nature of the readings will vary. 3 undergraduate hours. 4 graduate hours. May be repeated, if topics vary, in separate terms to a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: Fourth year Japanese or the equivalent or permission of instructor.

JAPN 440  Fourth Year Japanese I  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/440/)
Further developments of skills in sophisticated Japanese language use, including readings in authentic materials in a wide variety of writing styles, writing for formal occasions, and speaking appropriately according to the situation while using precise vocabulary in correct level of speech. 3 undergraduate hours. 4 graduate hours. Prerequisite: JAPN 306 or equivalent.

JAPN 441  Fourth Year Japanese II  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/441/)
Continuation of JAPN 440. 3 undergraduate hours. 4 graduate hours. Prerequisite: JAPN 440 or equivalent.

JAPN 499  Study Abroad  credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/499/)
Lectures, seminars, and practical work in the Japanese language, literature, and civilization, and in other academic areas appropriate to the student's course of study. 0 to 18 undergraduate hours. 0 graduate hours. Approved for S/U grading only. May be repeated. Prerequisite: Junior standing and a GPA of 3.00.
Courses

JOUR 101  Interactive Media & You  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/101/)
Introduces students to research and theory surrounding new media and technology. We will examine the impacts of interactive media (e.g., social media, video games) on society and, ultimately, our everyday lives. We will look beyond "good/bad" classifications of new media in favor of seeking a more balanced understanding of the significance of these evolving technologies. A goal of the course is to reflect on the role interactive media technologies play in our increasingly digital society/lives and how we can leverage them for positive purposes while minimizing the potential for negative consequences.

JOUR 102  Surviving Social Media  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/102/)
Offers students a comprehensive understanding of the role that big tech companies and their platforms and products play in daily life. Topics include hashtag activism, digital surveillance, algorithmic inequality and search bias, data privacy, monopoly and anti-trust, changes to the news industry, and the "internet yuck" of hate speech and harassment. Students will be required to take a 24-hour technology fast. Credit not given for JOUR 102 if credit already received for JOUR 199 section "Social Media".

JOUR 161  Introduction to Sports Media  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/161/)
Examines the relationship between sport and media, with a focus on if, when and how sports influence spectators, fans, media institutions and regions and how media supports and adds value and context to sports. The course examines how the relationship has developed through history and introduces the various professions, entities and industries that interact with sports, including journalism, broadcasting, and public relations.

JOUR 199  Undergraduate Open Seminar  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/199/)
A changing array of courses focusing on special topics in journalism. Approved for Letter and S/U grading. May be repeated to a maximum of 12 hours, if topics vary.

JOUR 200  Introduction to Journalism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/200/)
Discussion of the history, freedom, technologies, ethics, and functions of the news media. Training in clear, descriptive writing techniques, using journalistic models.
This course satisfies the General Education Criteria for:
Advanced Composition

JOUR 205  History of American Journalism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/205/)
Surveys the history of the field of journalism since pre-colonial times. Includes the evolution of the media in the United States and the evolution of cultural concepts concerning the media, including rights granted under the First Amendment.
This course satisfies the General Education Criteria for:
 Humanities - Hist Phil

JOUR 210  Newsgathering Across Platforms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/210/)
Fundamentals of journalistic reporting and writing across print, broadcast and digital platforms. Credit is not given for JOUR 210 if credit for JOUR 400 has been earned. Prerequisite: JOUR 200.

JOUR 215  Multimedia Reporting  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/215/)
Designed to acquaint students with the fundamentals of digital photography, video, audio and multimedia as it applies to journalism. Instruction will include conceptual frameworks and techniques to create multimedia journalism content; the conception, planning and creation of multimedia projects; coverage of events with audio, video and photographs; the technical and creative aspects of digital photography, video, and multimedia; delivery platforms for multimedia content including the Web and evolving communication technologies. Credit is not given for JOUR 215 if credit for JOUR 410 has been earned. Prerequisite: JOUR 210 or consent of Journalism Department.

JOUR 217  Content Producing for UI7  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/217/)
Students will learn videography, editing, writing, and producing video content for student programs Good Morning Illini and Illini Sports Night. Class will also include studio production jobs for Good Morning Illini's live Friday broadcasts and taped studio segments for Illini Sports Night. May be repeated for a maximum of 6 hours in separate semesters. JOUR 217 cannot substitute for JOUR 340 as a prerequisite for JOUR 445. Prerequisite: Students may not be concurrently enrolled in JOUR 340 or JOUR 445.

JOUR 220  News Editing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/220/)
Editing and headline writing, news judgment, ethics and leadership. Credit is not given for JOUR 220 if credit for JOUR 320 has been given.

JOUR 240  Introduction to Documentary Storytelling & Production  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/240/)
Offers an introduction to beginning production techniques for documentary filmmaking. Students will learn how documentaries have evolved since the early days of film in content, style and production techniques. Students will create a short (2-3 minute) documentary using a journalistic approach. Students must incorporate journalistic ethics and standards into creating their own non-fiction film. This course will introduce students to media archives and archival research, ethical and legal issues associated with documentary production and theories and styles of non-fiction prose and documentary editing. Student will learn basic videography, audio recording and basic media editing techniques. Credit not given if credit for JOUR 199 section "Intro to Documentary Prod" has been given. Eligible for the Journalism minor.
JOUR 250  Journalism Ethics & Diversity  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/JOUR/250/))

Focuses on media decision-making and news judgment, specifically ethics and diversity in newsgathering with regard to scope, privacy, bias, economic concerns, and accountability. Examines real-life news decisions and the thoughts of journalists who lived through famous and infamous ethics situations. Key provisions in the Society of Professional Journalists Code of Ethics regarding use of diverse voices will be discussed and applied in practical ways, and both students and the instructor will find current examples of ethics issues to present to the class. Diversity education is part of the required standard for achieving journalism accreditation from the discipline's national accrediting body.

JOUR 280  Specialized Skills and Practices  credit: 1 to 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/JOUR/280/))

A changing array of courses addressing specialty writing, reporting, audio, and multimedia skills, topics and projects. Approved for Letter and S/U grading. May be repeated up to 8 hours in the same semester and up to 12 hours in separate semesters, if topics vary.

JOUR 293  Digital Photography for Everyone  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/JOUR/293/))

Foundations of digital photography, techniques to produce photographs; the conception and planning of pictures; the pictorial coverage of locations, events and human interest situations; and the planning and execution of photos in print, on the web and other electronic media are the focus of this hands-on course. You will develop a practical understanding of the potentials and realities of photographic communication to better use them for full expression of your vision. Approved for Letter and S/U grading.

JOUR 311  Media Law  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/JOUR/311/))

Detailed analysis of the theories of freedom of expression, the legal doctrines of greatest concern to mass communicators, and contemporary issues related to free speech and press, including libel, copyright, and news-gathering in a digital age. Credit is not given for JOUR 311 if credit for JOUR 411 has been earned.

JOUR 315  Adv Public Affairs Reporting  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/JOUR/315/))

Study and extensive practice of in-depth public affairs reporting - its concepts, techniques, traditions, ethics, and social obligations. Credit is not given for JOUR 315 if credit for JOUR 415 has been earned. Prerequisite: JOUR 210.

JOUR 317  On-Camera Performance for UI7  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/JOUR/317/))

Students who have successfully completed JOUR 217 or JOUR 340 will learn advanced videography, editing and reporting skills to be on-air reporters for the Good Morning Illini show. Class will also include on-camera talent lab for Good Morning Illini's live broadcast on Fridays. May be repeated for a maximum of 6 hours in separate semesters. Prerequisite: JOUR 217 or JOUR 340. May be taken concurrently with JOUR 340 or JOUR 445.

JOUR 335  Audio Journalism  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/JOUR/335/))

Reporting and writing news for audio programs and websites. Credit is not given for JOUR 335 if credit for JOUR 435 has been earned. Prerequisite: JOUR 210.

JOUR 340  Video Reporting & Storytelling  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/JOUR/340/))

An introduction to video storytelling techniques. Covers field reporting, writing, editing and studio production for news stories. Students learn to create video for broadcast and online and how to use social media to engage the viewer. Prerequisite: JOUR 215. Concurrent enrollment with JOUR 317 is allowed. May not be taken concurrently with JOUR 217.

JOUR 356  Image of the Journalist in Popular Culture  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/JOUR/356/))

Our images of journalists are shaped and formed by the popular culture and mythologies surrounding news that we see reflected in Hollywood, on the big screen and on the little screen. This class aims to offer a comprehensive look at how news is portrayed in popular culture, balancing what we see in the movies and learn from books with the actual history of news at that time. From this class, you will get a wide-ranging view of the history of journalism. You will see the developments of the news production process from giant machines to the speed of the web, and you will learn about some of the ethical dilemmas facing journalists.

JOUR 360  Working with the Press  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/JOUR/360/))

Surveys contemporary public relations to distinguish publicity, advertising, branding, press agentry, public affairs, issues management, lobbying, investor relations and development. The core issue of working with the media will encompass guidelines for good media relations, guidelines for working with the press, and understanding the ethical dimensions of the relationships that form. The course will employ real and hypothetical case studies.

JOUR 361  Classics of Sports Journalism  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/JOUR/361/))

Students in this course will read, view, analyze and discuss long-form sports journalism. Some of the books, articles and documentaries are considered classics of the form; others may be fairly recent but on their way to classic status. All will represent varied approaches to sports journalism across media platforms.

JOUR 400  Newsroom Experience  credit: 2 to 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/JOUR/400/))

In this experiential learning course, students work as journalists for a local news outlet under the supervision of Journalism faculty. Those outlets include Illinois Public Media, UI-7, and CU-CitizenAccess and may include newsroom experiences at editorially independent student publications with faculty coaching and critiquing of work. Depending on the section, students might report, write and edit for the web, television or radio; work on data and investigative journalism projects; create podcasts, multimedia graphics, data visualizations. The course is repeatable, allowing students to gain experience in different roles and at more than one outlet and to progress toward more independent work. Standards for all sections will be established by the department. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 12 hours. Credit is not given for JOUR 400 if credit for JOUR 495 is given for the same work experience. Prerequisite: Vary according to section. See section notes.
JOUR 417  Producing for UI7 Programming  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/417/)
Students in this class will take leadership roles in producing live and live to tape programming to be aired on UI7 and master skills in pre-production, production and post-production. Students will oversee one of two UI7 programs: a live production of Good Morning Illini or a live-to-tape production of Illini Sports Night. Registration by instructor permission. 4 undergraduate hours. 4 graduate hours. Meets with JOUR 217 and JOUR 317. Prerequisite: Either JOUR 317 or JOUR 340. May not be taken concurrently with JOUR 445. Registration by instructor permission. Prospective students will submit a resume and writing sample. Finalists will be selected for interviews.

JOUR 421  Editing for Publication  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/421/)
Principles and practice of editing across disciplines. Content includes style, grammar, punctuation, word usage, clarity and brevity. Both print and digital environments are considered. Students will edit text and display copy such as headlines and photo captions. 3 undergraduate hours. 3 graduate hours. Credit is not given for both JOUR 421 and JOUR 320. Journalism majors should enroll in JOUR 320. Prerequisite: Advanced Composition.

JOUR 425  Multimedia Editing and Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/425/)
Principles of visual reporting and editing; seeks to instill application-level competency in a wide array of non-linear, non-narrative techniques of journalistic storytelling across various media. 4 undergraduate hours. 4 graduate hours. Prerequisite: JOUR 215.

JOUR 430  Augmented and Virtual Reality  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/430/)
Examines the importance and application of immersive technologies such as virtual reality, augmented reality, and mixed reality. Students will learn about the history of these technologies, research regarding their effectiveness, and how to apply them to solve real-world problems and convey non-fiction narrative experiences. Students will also receive an introduction to designing content for these technologies (a formal design background is NOT required). This course will be tailored to students interested in the application of these emerging technologies in fields such as journalism, advertising, and media studies. 3 undergraduate hours. 4 graduate hours. Prerequisite: JOUR 430 if credit for JOUR 460 (section - Ext Reality and Immersive Tech) or JOUR 460 (section - Immersive Technologies) has been given. Prerequisite: Junior, senior or graduate standing.

JOUR 440  Advanced Documentary Storytelling & Production  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/440/)
Offers the chance to build on video production skills and further explore the craft of visual journalism by producing a short documentary film. Films meeting professional criteria will be distributed online, on UI7 and WILL-TV. Students will use journalistic storytelling techniques to research, write, film, direct, produce and edit a broadcast quality story on a topic of cultural / historical significance or newsworthiness. Final films will be 10 – 15 minutes in length and must meet all standards of journalism ethics. 4 undergraduate hours. 4 graduate hours. Credit not given if credit for JOUR 480 (Advanced Documentary Production) already given. Prerequisite: JOUR 240 or JOUR 340 or instructor consent.

JOUR 445  Video Storytelling 2-Producing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/445/)
Advanced techniques for reporting, producing, writing, shooting, and editing video news stories and for producing and airing regularly scheduled news programs on deadline. 4 undergraduate hours. 4 graduate hours. Prerequisite: JOUR 340. May not be taken concurrently with JOUR 217 or JOUR 417. May be taken concurrently with JOUR 317.

JOUR 450  Media and Public Opinion  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/450/)
Theory of public opinion and communications; relation of communication systems to public opinion, social systems, and the political order. 3 undergraduate hours. 3 graduate hours. Prerequisite: Completion of Quantitative Reasoning I.

JOUR 451  Research Methods in Journalism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/451/)
Introduction to social science principles of measurement, sampling, statistical inferences and logic of research design in collection, analysis and interpretation of information used in journalism and mass media. 3 undergraduate hours. 3 graduate hours. Prerequisite: Completion of Quantitative Reasoning I requirement. JOUR 200 recommended, or graduate standing.

This course satisfies the General Education Criteria for:
Quantitative Reasoning II

JOUR 452  Great Books of Journalism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/452/)
Books written by journalists have had great impact on U.S. public policy and understanding, covering such topics as corporate power, political corruption, rural poverty, the atomic bombing of Japan, Watergate, and a soldiers-eye view of war. From hard-edged investigations to nonfiction literature, the readings broaden and deepen understanding of the power and purpose of journalism beyond breaking news and celebrities. Readings from eight groundbreaking books, assessment of social and professional impact, ethical issues, reporting and writing approaches, and extensive class discussion. 3 undergraduate hours. 3 graduate hours.

This course satisfies the General Education Criteria for:
Humanities - Lit Arts

JOUR 453  Crisis Communications  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/453/)
Students will take on the role of a public relations/public affairs officer to learn how to deal with the media when managing a crisis for a client, whether a multinational corporation or a professional athlete. Students will use case studies of actual events to examine how the media dealt with the crisis. Students will get a look at the inner workings of a major PR firm devoted to telling the truth while managing the message. 3 undergraduate hours. 3 graduate hours.

JOUR 454  Propaganda & the News Media  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/454/)
The course examines techniques and processes of propaganda in a democratic society. It draws from contemporary theories of influence and persuasion to identify propaganda in the context of modern journalism, to delineate differences between propaganda and information, and to assess the impact of propaganda on democratic decision making in the digital age. Particular attention is given to the news media practices and consumption patterns that unwittingly facilitate strategies of modern propagandists. 3 undergraduate hours. 4 graduate hours. Prerequisite: Junior, Senior or Graduate standing.

Information listed in this catalog is current as of 01/2022
JOUR 460  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/460/)
A changing array of special projects, research or reading in journalism. Additional fees may apply. See Class Schedule. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated if topics vary.

JOUR 470  International Reporting  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/470/)
Role of international news in daily lives. Examines those who report it and those who pioneered it. Students monitor how U.S. and international media cover selected countries and learn how to write international news. In selected semesters, students may research issues and life in a foreign country in preparation for an international reporting trip. 3 undergraduate hours. 3 graduate hours.

JOUR 471  Science Journalism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/471/)
Students will explore media coverage of science. They will examine the interconnections of scientific advances and public understanding. The seminar format will allow students to interview scientists and journalists, to discuss work, and to become science communicators. Subject matter of reporting projects will be determined by the background and interests of the students. Field trips and Illinois science will be featured. 3 undergraduate hours. 3 graduate hours.

JOUR 472  Business Reporting  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/472/)
Learning to follow the money is a key part of covering corporate America, professional sports or Hollywood. No need to fear financial statements: This course shows you easy methods to pick them apart and turn them into smart stories. Students learn to report and write stories using the Wall Street Journal's feature methods. 3 undergraduate hours. 3 graduate hours. Prerequisite: JOUR 210 or JOUR 400. Journalism or Agricultural Communications major(s). Restricted to students with Sophomore, Junior, Senior, or Graduate class standing.

JOUR 475  In-Depth Writing Styles  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/475/)
Explores and produces feature, literary and longform writing and alternative forms of journalistic narratives. 3 undergraduate hours. 3 graduate hours. Prerequisite: Enrollment limited to Juniors, Seniors and Graduate students.

JOUR 480  Advanced Reporting Topics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/480/)
Advanced reporting projects or techniques, with separate sections for a varying array of topics such as investigative reporting, immersion journalism, literary journalism, business and financial journalism, online publishing, radio news features, sports writing, broadcast documentary production, digital journalism, and photo journalism. 3 undergraduate hours. 3 graduate hours. May be repeated in the same or subsequent semesters if topics vary. Prerequisite: JOUR 210.

JOUR 481  Literary Feature Writing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/481/)
Course focuses on concept, reporting practice, and ethics of literary approaches to create evocative, story-like journalism articles. Students report and write a single in-depth story that will be re-reported and re-written three times. Includes extensive readings illustrating the finest literary journalism. The class includes extensive self, class and professor criticism and editing. Articles for this class have been published in the News-Gazette and other publications. An archive of published stories can be found at intimatejournalism.com. 3 undergraduate hours. 3 graduate hours. Prerequisite: JOUR 210. Journalism majors only.

JOUR 482  Immersion Journalism  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/482/)
Introduces you to the journalistic interview techniques of immersion journalism. The methodology examines contemporary social phenomena through the lives of individuals and families. The interview methodology students learn is seen as the best way to provide the ethnographer/writer/reporter with insight into social phenomena. The methodology can be used to examine living conditions, family history and attitudes of ethnic groups at any class level -- wealthy, affluent, middle class, poor or underclass. Students with insatiable curiosity about behavior will be able to extract from participants surprising revelations about their needs, desires and motivations. Students will learn how personalities, circumstances, and choices made by participants' parents and forebears affect the participant's life today. Same as AFRO 482. 4 undergraduate hours. 4 graduate hours. Prerequisite: Junior, senior or graduate standing required.

JOUR 483  Investigative Journalism  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/483/)
Integrates traditional and innovative methods of investigative reporting, including data analysis and text mining of documents and social media. Students will learn how to do deep research, organize complex material, and produce presentations that are easy for the public to understand. Students will delve deeply into one topic throughout the semester and have the opportunity to create and publish a multi-media project. 4 undergraduate hours. 4 graduate hours.

JOUR 490  Professional Project  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/490/)
Individual and team-produced advanced enterprise projects in specialized fields. 3 undergraduate hours. 3 graduate hours. May be repeated in the same or subsequent semesters if topics vary.

JOUR 494  Navigating the Job Market  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/JOUR/494/)
Covers how to get noticed when you're out searching for an internship or job, including how to produce a resume that attracts positive attention, how to write a cover letter designed for the job you're applying to, how to present yourself in an interview, what employers are looking for in those interviews, and where to look to find internships and jobs. 1 undergraduate hour. 1 graduate hour. Approved for S/U grading only.

JOUR 495  Internship Seminar  credit: 0 to 1 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/495/)
Seminar based on internship experience. Offered for College of Media students who complete an approved professional, industry related internship. 0 to 1 undergraduate hours. 0 to 1 graduate hours. Approved for S/U grading only. May be repeated in the same term to a maximum of 2 undergraduate hours or 2 graduate hours. May be repeated in separate terms to a maximum of 3 undergraduate hours or 3 graduate hours. Prerequisite: Consent of instructor.
JOUR 500  Current Issues in Journalism  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/500/)
Seminar on issues of contemporary importance in journalism in their historical, multicultural contexts. Emphasis on ethical, legal, social, professional aspects of those issues. Aimed at helping students to develop their own journalism philosophies and high standards of conduct. Prerequisite: Consent of department.

JOUR 501  Multimedia Storytelling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/501/)
The course is designed to equip graduate students who have little or no journalism experience to report in a multimedia environment. In the first part of the course, students learn where to find stories and how to develop story ideas, as well as basic research and interviewing techniques. Students will then be introduced to the various ways in which stories can be told using media platforms such as print, radio, television and the web. Prerequisite: Graduate students only.

JOUR 505  Journalism Proseminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/505/)
Introduction to scholarship and research in journalism and mass communication examining theoretical approaches to the meanings, uses, and effects of mass media in society; discussion of media freedom and accountability; humanistic and social scientific contributions to understanding mass communication. Prerequisite: Consent of department.

JOUR 515  Master’s Project  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/515/)
A professional journalism project demonstrating development of analytical and critical thinking abilities appropriate to the profession and effective application of journalism methodology. May be repeated up to 8 hours. Prerequisite: Consent of department.

JOUR 590  Advanced Topics in Journalism  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/590/)
Advanced special projects, research or reading in journalism at the master's and doctoral level. Approved for letter and S/U grading. May be repeated in the same term to a maximum of 8 hours; may be repeated in separate terms to a maximum of 24 hours.

Information listed in this catalog is current as of 01/2022
JS - Jewish Studies

JS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/JS/)

Courses

JS 108  Religion & Society in West I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/108/)
Same as ANTH 108, PHIL 108, and REL 108. See REL 108.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

JS 120  A History of Judaism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/120/)
Same as HIST 168 and REL 120. See REL 120.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Hist Phil

JS 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/JS/199/)
Faculty offer seminars in a range of areas that provide an opportunity for undergraduates to be exposed to key dimensions of Jewish Studies. May be repeated in the same or separate terms to a maximum of 10 hours.

JS 201  History of Antisemitism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/201/)
Studies the negative representations of Judaism and Jews from antiquity to the modern world. Topics include: Greco-Roman concepts of the Jewish religion; medieval Christian symbolization of the demonic Jew; Jews and negative attitudes to capitalism; blood purity and blood libel; the rise of racial prejudice in the modern nation state; totalitarianism and genocide; antisemitism and anti-Zionism. Same as REL 212.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

JS 209  Jewish American and US Minority Literatures in Dialogue  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/209/)
How does Jewish American Literature compare with/influence/be influenced by other U.S. Minority Literatures? What can we say about the similarities and differences between the Jewish American experience and that of many other US minority literatures? What does the dialogue between them sound like? By looking at some examples of Jewish American Literature and comparing and analyzing the dialogue between Jewish American Literature and myriad U.S. Minority literatures this course aims to grapple with these and other questions. We will explore the experiences, conditions, and perspectives of the U.S. Minority literatures we are able to peruse. We will encourage comparison across these different contexts while also preserving the distinctions inherent in each minority group. Same as CWL 209 and ENGL 222.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - US Minority

JS 211  The Arab-Israeli Conflict  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/211/)
Same as CWL 211 and SAME 211. See CWL 211.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

JS 212  Israeli Cinema and Television  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/212/)
Examination of Israeli cinema from its documentary beginnings to its internationally award winning feature films. First established as a way to record the developments of the Jewish community in Palestine, after Independence in 1948, it became a way to explore the ideals and values of the new state. Trapped between Eastern and Western cinematic tradition, we will view heroic cinema, new wave, and bourekas films. Through lectures, readings and film screenings this seminar examines the diversity of Israeli society, including religious/secular divisions, the Arab-Israeli Conflict, the Holocaust, gay cinema and the country's ethnic diversity including Palestinian, Russian, and Mizrachi identity. All films are subtitled and no previous knowledge of cinema or Israel is required. Same as CWL 212 and SAME 212.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

JS 220  Jewish Storytelling  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/220/)
Same as CWL 221, ENGL 223, REL 220, and YDSH 220. See YDSH 220.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

Information listed in this catalog is current as of 01/2022
JS 231   Development of Ancient Cities   credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/JS/231/](https://courses.illinois.edu/schedule/terms/JS/231/))
Same as ARTH 217 and CLCV 231. See CLCV 231.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

JS 252   The Holocaust   credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/JS/252/](https://courses.illinois.edu/schedule/terms/JS/252/))
Same as HIST 252. See HIST 252.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

JS 261   The Holocaust in Context   credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/JS/261/](https://courses.illinois.edu/schedule/terms/JS/261/))
Same as CWL 273, ENGL 269, and GER 261. See GER 261.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

JS 262   Zionism: A Global History   credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/JS/262/](https://courses.illinois.edu/schedule/terms/JS/262/))
Same as HIST 262. See HIST 262.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

JS 269   Jewish History Since 1700   credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/JS/269/](https://courses.illinois.edu/schedule/terms/JS/269/))
Same as HIST 269 and REL 269. See HIST 269.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

JS 284   Modern Jewish Literature   credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/JS/284/](https://courses.illinois.edu/schedule/terms/JS/284/))
Surveys imaginative literature by Jewish authors from the Enlightenment to the present, including fiction, poetry, drama, and autobiography written in English or translated from other languages. Same as CWL 284, ENGL 284, and REL 284. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

JS 300   Jewish Chicago   credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/JS/300/](https://courses.illinois.edu/schedule/terms/JS/300/))
The history of Jewish Chicago from 1820 to the present will be taught in Chicago during Summer I. The class includes excursions all over the city as well as class time at the Newberry Library. Topics of study include immigration, Jews in the labor movement, Jewish political activism, Jewish religious practice, Jewish art, literature, and Yiddish theater. The course will contextualize our study of Jewish Chicago in terms of American history, urban history, gender history, and labor history.

JS 320   Responses to the Holocaust   credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/JS/320/](https://courses.illinois.edu/schedule/terms/JS/320/))
Same as CWL 320, ENGL 359, REL 320, and YDSH 320. See CWL 320.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

JS 335   Middle East 1566-1914   credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/JS/335/](https://courses.illinois.edu/schedule/terms/JS/335/))
Same as HIST 335. See HIST 335.

JS 341   Love & Sex in Hebrew Lit   credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/JS/341/](https://courses.illinois.edu/schedule/terms/JS/341/))
Same as CWL 341, REL 340 and SAME 341. See CWL 341.

JS 344   Medieval Jewish Thought   credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/JS/344/](https://courses.illinois.edu/schedule/terms/JS/344/))
Same as MDVL 344 and REL 344. See REL 344.

JS 355   Soviet Jewish History   credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/JS/355/](https://courses.illinois.edu/schedule/terms/JS/355/))
Same as HIST 355. See HIST 355.

JS 399   Special Topics   credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/JS/399/](https://courses.illinois.edu/schedule/terms/JS/399/))
Faculty offer special topics in their areas of expertise that provide an opportunity for undergraduates to be exposed to some of the most current developments in faculty research. May be repeated in the same or separate term to a maximum of 9 hours.

*Information listed in this catalog is current as of 01/2022*
JS 442  History of Early Judaism  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JS/442/)
Same as HIST 432 and REL 442. See REL 442.

JS 454  Topics in Israeli Lit &Culture  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JS/454/)
Same as CWL 454 and SAME 454. See CWL 454.

JS 495  Independent Study  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/JS/495/)
Readings in selected fields in consultation with the instructor along with the completion of a specified writing assignment. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated in the same term to a maximum of 4 undergraduate hours or 8 graduate hours. May be repeated in separate terms to a maximum of 8 undergraduate hours and 16 graduate hours. Prerequisite: Consent of instructor.

JS 496  Topics in History of Judaism  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JS/496/)
Same as REL 496. See REL 496.

JS 501  Grad Intro to Jewish Culture  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JS/501/)
Interdisciplinary graduate-level introduction to the study of Jewish culture and society. Focuses on the significations of Jewishness in modern history through a wide range of recent writings by historians, anthropologists, philosophers and cultural theorists. Key themes will include the relationship of Judaism to the other monotheistic religions, the varied pathways of Jewish modernization, the construction of Jewish Otherness in Europe and beyond, and responses to the Holocaust and the creation of the state of Israel.

JS 502  Holocaust Genocide Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JS/502/)
Interdisciplinary graduate-level introduction to Holocaust, Genocide, and Memory Studies, focusing on the origins and unfolding of genocidal violence and the legacies of genocide in collective memory, literature, and artistic representation. Key themes will include the relationship between perpetrators, victims, and bystanders; the problems of historical comparison; trauma and testimony; violence and representation.

JS 551  Seminar in Jewish Culture  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JS/551/)
Analysis of selected topics of special interest in Jewish Studies. May be repeated in the same term to a maximum of 8 hours. May be repeated in separate terms to a maximum of 16 hours. Prerequisite: Consent of instructor.

JS 552  Seminar Holocaust & Genocide  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JS/552/)
Analysis of selected topics of special interest in Holocaust, Genocide, Memory Studies. May be repeated in the same term to a maximum of 8 hours. May be repeated in separate terms to a maximum of 16 hours. Prerequisite: Consent of instructor.
KIN - Kinesiology

KIN Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/KIN/)

Courses

KIN 100 Development Activities credit: 1 to 2 Hours. (https://courses.illinois.edu/schedule/terms/KIN/100/)
Skills and knowledge essential for leisure-time activities which are classified as developmental activities. Prerequisites and descriptions for each developmental activity are provided in the Class Schedule. More than one activity (Sections A through Z) may be taken in the same term. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 2 hours.

KIN 101 Dance Activities credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/KIN/101/)
Skills and knowledge essential for leisure-time activities which are classified as dance activities. May be repeated; more than one activity (Sections A through Z) may be taken in the same term. Prerequisite: See Class Schedule for prerequisites for each dance activity.

KIN 102 Individual and Dual Activities credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/KIN/102/)
Skills and knowledge essential for leisure-time activities which are classified as individual and dual activities. Prerequisites for each individual or dual activity are provided in the Class Schedule. More than one activity (Sections A through Z) may be taken in the same term. Additional fees may apply. See Class Schedule.

KIN 103 Indoor Court Activities credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/KIN/103/)
Skills and knowledge essential for leisure-time activities which are classified as indoor court activities. Prerequisites for each indoor court activity are provided in the Class Schedule. More than one activity (Sections A through Z) may be taken in the same term.

KIN 104 Skating Activities credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/KIN/104/)
Skills and knowledge essential for leisure-time activities which are classified as skating activities. Prerequisites for each skating activity are provided in the Class Schedule. Additional Ice Skating Rink Facility charges are required and provided in the Class Schedule. More than one activity (Sections A through Z) may be taken in the same term. Additional fees may apply. See Class Schedule.

KIN 107 Aquatic Sport Activities credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/KIN/107/)
Skills and knowledge essential for leisure-time activities which are classified as aquatic sport activities. Prerequisites for each aquatic sport activity are provided in the Class Schedule. More than one activity (Sections A through Z) may be taken in the same term. Additional fees may apply. See Class Schedule.

KIN 108 Stress Management credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/KIN/108/)
Stress, a feeling of physical, mental, or emotional tension, is common amongst college students. This course explores the concepts of stress from a holistic approach, emphasizing identification of sources of stress, understanding physical and emotional consequences, and developing techniques for dealing with stress. This course will help students begin to identify and recognize common stressors in their own personal environments, and formulate a personalized strategic plan to relieve and manage stress.

KIN 109 Team Sport Activities credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/KIN/109/)
Skills and knowledge essential for leisure-time activities which are classified as team sport activities. Prerequisites for each team sport activity are provided in the Class Schedule. More than one activity (Sections A through Z) may be taken in the same term.

KIN 110 Intro to the Health Sciences credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/110/)
Same as CHLH 110. See CHLH 110.

KIN 111 Prescribed Exercise credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/KIN/111/)
Prescribed exercises adapted to individual needs, capacities, and interests; open to persons with paraplegia, permanently disabled, and individuals with significant temporary disabilities who will require long term rehabilitation. Students must be registered or eligible to register with DRES. May be repeated to a maximum of 4 hours. Prerequisite: Enrollment restricted to students with permanent disabilities or disabilities which are long-term in nature. Student should be registered or eligible to register with DRES.

KIN 120 Injuries in Sport credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/KIN/120/)
Emphasizes injury mechanisms, means of injury prevention, and emergency care applied to various types of sport injuries; laboratory sessions emphasize preventive and therapeutic taping and emergency first aid. Additional fees may apply. See Class Schedule.

KIN 121 Survey of Sports Medicine credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/121/)
Introduction to sports medicine for non-kinesiology majors; includes discussion of training, conditioning, preparation for sports, injury aspects of sports, and rehabilitation.

KIN 122 Physical Activity and Health credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/122/)
Provides the scientific evidence of physical activity in preventing disease and optimizing quality of life. Teaches behavioral change strategies to achieve an active lifestyle.

KIN 125 Orientation KIN & Comm Health credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/KIN/125/)
Serves as an introduction to the Kinesiology and Community Health Department and provides an overview of the Kinesiology and Community Health curricula, areas of study, and opportunities available for a career in the field. Enrollment required for Kinesiology freshmen and transfer students. Credit is not given for both KIN 125 and CHLH 125.

Information listed in this catalog is current as of 01/2022
KIN 130  Analysis of Basic Movement  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/KIN/130/](https://courses.illinois.edu/schedule/terms/KIN/130/))
Introduction to human movement through development of skills and knowledge relative to structure and function of the human body in selected physical activities including: basic postural and locomotion patterns and fundamental throwing patterns; also studies developmental aspects of typical and atypical movement skills. Emphasizes performance and qualitative analysis of movement skills.

KIN 140  Social Sci of Human Movement  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/KIN/140/](https://courses.illinois.edu/schedule/terms/KIN/140/))
Introduction to the social scientific aspects of human movement including sport; particular emphasis on concepts derived from the social sciences (including psychology) that are appropriate to human movement. Additional fees may apply. See Class Schedule.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

KIN 142  Contemporary Issues in Sport  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/KIN/142/](https://courses.illinois.edu/schedule/terms/KIN/142/))
Examines current issues in sport relative to competition, economics, race, sex, youth, educational institutions, deviant behavior, religion, psychology, and the media.

KIN 150  Bioscience of Human Movement  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/KIN/150/](https://courses.illinois.edu/schedule/terms/KIN/150/))
Integrates anatomical and physiological aspects of human movement; emphasizes how the body moves, physiological responses to exercise stress, physical conditioning and physical fitness. Additional fees may apply. See Class Schedule.
This course satisfies the General Education Criteria for:

KIN 160  Introduction to Kinesiology  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/KIN/160/](https://courses.illinois.edu/schedule/terms/KIN/160/))
Kinesiology is the interdisciplinary study of physical activity that includes a number of sub-disciplines. This course will examine these areas of study within Kinesiology from scientific, applied, and experiential perspectives. Students will study fundamental/introductory concepts associated with each area of Kinesiology, explore those concepts within research and applied contexts, and complete activities in which they experience various dimensions of those concepts.

KIN 199  Undergraduate Open Seminar  credit: 0 to 5 Hours. ([https://courses.illinois.edu/schedule/terms/KIN/199/](https://courses.illinois.edu/schedule/terms/KIN/199/))
Topics will vary each semester. Please see section topic. Approved for Letter and S/U grading. May be repeated.

KIN 201  Physical Activity Research Methods  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/KIN/201/](https://courses.illinois.edu/schedule/terms/KIN/201/))
This course provides an introduction of physical activity measurement and methods. The course will focus on (a) defining physical activity and associated terms and concepts; (b) providing detailed understanding of approaches and tools for measuring physical activity; and (c) facilitating understanding of scientific methods for physical activity research (e.g., experimental and non-experimental designs).
This course satisfies the General Education Criteria for:
Quantitative Reasoning II

KIN 230  Diversity in Recreation, Sport, and Tourism  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/KIN/230/](https://courses.illinois.edu/schedule/terms/KIN/230/))
Same as HDFS 263 and RST 230. See RST 230.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

KIN 247  Intro to Sport Psychology  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/KIN/247/](https://courses.illinois.edu/schedule/terms/KIN/247/))
Analysis of the competitive sport process, with study of how personality and situational variables affect motivation, anxiety, and aggression in sport. Attention is given to the psychological skills needed by coaches and athletes for successful and enjoyable sports participation.

KIN 249  Sport & Modern Society  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/KIN/249/](https://courses.illinois.edu/schedule/terms/KIN/249/))
The sociological analysis of sport in modern societies with regard to social class, politics, community, education, and collective behavior.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

KIN 259  Motor Development and Control  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/KIN/259/](https://courses.illinois.edu/schedule/terms/KIN/259/))
This course provides students with an overview of motor development across the life span as well as an introduction to the discipline of motor behavior/control. Specifically, it focuses on the concepts and principles of coordination, the control of movement, and development of skilled action throughout the life span. The course focuses on such topics as the development of fundamental movement activities; movement control processes; acquisition, retention and transfer skill; and the role of constraints to action. Same as HDFS 259. Additional fees may apply. See Class Schedule. Credit is not given for both KIN 259 and KIN 257.
This course satisfies the General Education Criteria for:

KIN 260  Teaching Activities I  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/KIN/260/](https://courses.illinois.edu/schedule/terms/KIN/260/))
An activity-based course focusing on skills, knowledge, and teaching progressions related to territorial and net sports for school age students. Students will develop knowledge of the basic skills and teaching progressions related to the activities covered in the class.

KIN 261  Teaching Activities II  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/KIN/261/](https://courses.illinois.edu/schedule/terms/KIN/261/))
An activity-based course focusing on skills, knowledge, and teaching progressions related to target sports, rhythms, dance and fitness activities, and adventure education activities for school age students. Students will develop knowledge of the basic skills and teaching progressions related to the activities covered in the class.
KIN 262  Motor Develop, Growth & Form  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/262/)
Examination of the concepts of motor development, physical growth, and body form throughout the lifespan. Major emphasis is on the period of birth through adolescence. Same as HDFS 262.
This course satisfies the General Education Criteria for:
- Social Beh Sci - Beh Sci

KIN 268  Children's Movement  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/268/)
Introduction and overview of kinesiology principles and physical activity related to children. Laboratory portion of class focuses on the application of information to teaching physical activity to elementary school children. Prerequisite: For non-kinesiology majors.

KIN 340  Social & Psychological Aspects of Physical Activity  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/340/)
Discusses how social and psychological processes and constraints affect human action in physical activity environments. Attention is given to socialization, personal dynamics, stratification, and ideological and economic constraints upon the manifestations of physical activity. Prerequisite: KIN 140 or PSYC 100 and completion of the Campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
- Advanced Composition

KIN 342  Health Behaviors and Cognition  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/342/)
Examines the relationship between health behaviors (diet and physical activity) and cognitive health across the lifespan. The main focus of the course is on human cognitive function, in particular a subset referred to as executive functions (e.g., inhibition, working memory, and cognitive flexibility), and the interaction with different behavior/health-related factors. We will also cover broader topics areas, such as contemporary dietary and physical activity patterns as well as cognitive development and aging, to provide relevant context to better understand how health behaviors may support cognitive health.

KIN 345  Sport and Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/345/)
Same as HIST 390. See HIST 390.

KIN 346  Case Study: Endless Summer  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/346/)
The 1966 classic film –The Endless Summer– and related films and literature are used as lenses for the historical-cultural study of human movement in the form of riding waves of water. Surf culture and films are global phenomena and by using such as unique cases, students gain mastery in cultural-interpretive theories, themes, and vocabulary, and in articulating perspectives on social roles, knowledge, and power. Same as RST 346 and MACS 346.

KIN 352  Bioenergetics of Movement  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/352/)
Study of the nature of energy transfer during physical activity; mechanisms of metabolic control, force production, cardiorespiratory support and adaptation relative to physical activity. Additional fees may apply. See Class Schedule.

KIN 355  Biomechanics of Human Movement  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/355/)
Studies the biological and mechanical principles of human motor performance; analyzes selected movement skills in depth. Additional fees may apply. See Class Schedule.

KIN 360  Adapted Physical Education  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/360/)
Organization, administration, and conduct of physical education programs for the most prevalent types of medical conditions found in school settings; emphasis on analyzing motoric needs and prescribing programs of motor activity for special populations, including individuals with mental retardation and learning disabilities. Prerequisite: Junior standing or above and enrollment in the Teacher Certification program or consent of instructor.

KIN 361  Curriculum in Grades K-6  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/361/)
Examines the theoretical and philosophic curricular principles necessary to the development of a sound, professionally grounded, and research-based curriculum for children in grades K-6. Requires planning a variety of developmentally appropriate learning activities that are taught to children during micro-teaching experiences in the field. Prerequisite: Junior standing or above and enrollment in the Teacher Certification program or consent of the instructor.

KIN 362  Curriculum in Grades 7-12  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/362/)
Provides students with theoretical knowledge and professional practice in secondary physical education curriculum and instruction. This research-based course emphasizes effective teaching, development of content, and analysis of curricular models in grades 7-12. Prerequisite: Junior standing or above and enrollment in the Teacher Certification program or consent of instructor.

KIN 363  Instructional Strategies in PE  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/363/)
Analyzes the teaching-learning process, emphasizing the identification of instructional strategies specific to the development of skilled performance in movement activities. Prerequisite: Junior standing or above and enrollment in the Teacher Certification program.

KIN 364  Exper in the Common School  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/364/)
Supervised practice in observing, assisting, and teaching children in elementary, junior high school, and senior high school. Emphasis is on understanding motor behavior, teacher-learner behavior, and interrelatedness with other aspects of the learning environment. May be repeated to a maximum of 6 hours. Prerequisite: Junior standing or above and enrollment in the Teacher Certification program or consent of the instructor.
KIN 365  Civic Engagement in Wellness  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/365/)
Provides scholarly knowledge and practical experience related to environmental, intellectual, physical, psychological, spiritual, and social wellness. Students acquire leadership and real-world skills while working in teams to develop and implement projects that facilitate health and well-being in the population of adults living in the community. Projects emphasize integrative learning and are showcased in both written and oral formats. Same as AHS 365, CHLH 407, RST 407, and SHS 370.

KIN 369  Coaching Strategies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/369/)
Examination of philosophy, ethics, strategies, motivational techniques, performance analysis, program organization, contest administration, and equipment and facility management related to coaching.

KIN 375  Comm Partners & Health  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/375/)
Same as AHS 375 and SHS 375. See SHS 375.

KIN 385  Exper in Kinesiology Research  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/385/)
Supervised laboratory experiences in kinesiology research; individual work under the supervision of members of the faculty in their respective fields. The student assists with data collection, processing, and analysis for research in progress. May be repeated to a maximum of 12 hours. Prerequisite: Consent of instructor.

KIN 386  Exercise Instruction & Elderly  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/386/)
This course is designed to offer practical experience opportunities to undergraduate Kinesiology students aspiring to work in applied exercise fields with a diverse aged population. It will entail extensive "on the job" training through the Lifetime Fitness Program, an older adult service program of the Department of Kinesiology. Additionally, students will gain training in current program management practices. May be repeated to a maximum of 6 hours. Prerequisite: KIN 352 or consent of instructor is required. A current CPR is required at the beginning of the term and certification must remain current.

KIN 387  Exper in the Agency Setting  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/387/)
Supervised practical experience in leadership roles in nonschool agency settings; emphasis on observing, planning, and conducting physical activity programs for children and/or adults in preschool, recreation, or other social agencies. May be repeated for a maximum of 6 hours.

KIN 390  Honors  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/KIN/390/)
Course is restricted to James Scholars pursuing the Civic Commitment and Leadership Tracks. Designed to support completion of the James Scholar honors project. Same as CHLH 390 and RST 390. May be repeated to a maximum of 6 hours. Prerequisite: James Scholar standing.

KIN 391  Special Project-Problem  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/391/)
Special projects in research and independent investigation in any phase of health, kinesiology, physical education, and related areas selected by the students. May be repeated to a maximum of 6 hours. Prerequisite: Junior or senior standing; grade-point average of 2.5; consent of instructor.

KIN 393  Honors Thesis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/393/)
Planning, researching and writing of an honors thesis, under supervision of a faculty member, on a problem of appropriate scope and character. Paper will be presented at a suitable meeting and/or seminar. May be repeated to a maximum of 6 hours. Prerequisite: Senior standing when enrolling; minimum grade point average (total, University and Kinesiology prefix courses) of 3.25; a minimum of one full year (2 semesters) remaining at the University of Illinois, Urbana-Champaign campus; and submission of a written proposal.

KIN 401  Measure & Eval in Kinesiology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/401/)
Examines the concepts of observation, measurement, and evaluation of human motor performance and functioning in physical activity contexts. 3 undergraduate hours. 4 graduate hours. Prerequisite: KIN 140 and KIN 150, or graduate standing, or consent of instructor.
This course satisfies the General Education Criteria for:
Quantitative Reasoning II

KIN 407  Disability, Culture & Society  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/407/)
Same as ANTH 404, CHLH 407, and REHB 407. See CHLH 407.

KIN 420  Physiological Basis of Strength & Conditioning  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/420/)
The physiology and training principles behind high performance consist of a complex blend of factors. This course provides an overview of the theories and principles of program design for athletic populations. Methods and techniques of the elements that comprise program design will be emphasized through applied laboratory experiences. This course will help prepare students for certification as a Strength and Conditioning Specialist, if so desired. 3 undergraduate hours. 4 graduate hours. Prerequisite: Graduate section restricted to graduate students.

KIN 442  Body, Culture & Society  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/442/)
Analysis of the significant social aspects of the human body including anthropological, historical, psychological and sociological perspectives. Places emphasis on cross-culture and cross-national studies of bodily behavior with particular stress on exercise, health and sport practices. Same as GWS 442. 3 undergraduate hours. 4 graduate hours. Prerequisite: KIN 249 or SOC 249, or graduate standing; or consent of instructor.

KIN 443  Psychophysiology in Ex & Sport  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/443/)
Designed to give the student an understanding of the interaction between psychological processes and physiological parameters in exercise and sport. Examines psychophysiological exercise and sport research with particular attention to relevant models and theories. Same as PSYC 443. 3 undergraduate hours. 4 graduate hours. Prerequisite: Junior or senior standing, KIN 340, or graduate standing, or consent of instructor.
KIN 444  Physical Activity and Chronic Diseases  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/444/)
Focuses on the scientific evidence regarding the health benefits of exercise, physical activity, and physical fitness in the prevention and management of chronic diseases. 3 undergraduate hours. 4 graduate hours.

KIN 447  Psych of Sport Performance  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/447/)
Outlines the social psychological parameters which influence behavior and performance in sport; emphasizes the impact of social influences upon the individual within the sport context, including such factors as achievement motivation, competition, anxiety, aggression, and personality. Same as PSYC 447. 3 undergraduate hours. 4 graduate hours. Prerequisite: KIN 140, KIN 247, or PSYC 201, or graduate standing, or consent of instructor.

KIN 448  Exercise & Health Psychology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/448/)
Examines the psychological determinants and consequences of exercise and physical activity as a health promoting behavioral process. Same as CHLH 448. 3 undergraduate hours. 4 graduate hours. Prerequisite: Junior standing or above, or graduate standing, or consent of instructor.

KIN 449  Rehabilitation Biomechanics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/449/)
This course is for students who are interested in occupational therapy, physical therapy, and prosthetics and orthotics. General principles for application in injury prevention and rehabilitation will be taught. Students will learn how to use biomechanical models to estimate joint compression forces and muscle forces, and use this information to design training and rehabilitation programs for people with musculoskeletal and neuromuscular injury. 3 undergraduate hours. 4 graduate hours.

KIN 450  Biochemistry of Exercise  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/450/)
Introduces the metabolic and biochemical adaptation of the body in response to acute and chronic physical activity. Primary focus is given to the subcellular and enzymatic regulation and integration during exercise. Substrate metabolism, bioenergetics, hormonal action and nutritional influences as related to exercise are emphasized. 3 undergraduate hours. 4 graduate hours. Prerequisite: KIN 352 or MCB 450; or consent of instructor.

KIN 451  Skeletal Muscle Physiology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/451/)
Offers basic information on skeletal muscle anatomy, physiology and function which will provide a basis for understanding changes in muscle structure and function during periods of increased or decreased us. Knowledge gained in this course can be used in areas such as design of training programs, physical therapy, or injury prevention. 3 undergraduate hours. 4 graduate hours. Prerequisite: KIN 352 or prior consent of the instructor.

KIN 452  Clin & Applied Ex Physiology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/452/)
Physical fitness appraisal and guidance in clinical and applied settings with emphasis on medical clearance, risk factor assessment, physical fitness assessment and exercise prescription. 3 undergraduate hours. 4 graduate hours. Prerequisite: KIN 352, or graduate standing, or consent of instructor.

KIN 453  Nutrition for Performance  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/453/)
Nutrition for performance is the fusion of two disciplines, nutrition and exercise physiology, which provides the knowledge-base to support and optimize training, performance, and recovery. This course will provide information regarding the use of nutrition to increase performance in athletes training for strength or endurance. Same as FSHN 453. 3 undergraduate hours. 4 graduate hours.

KIN 455  Motor Learning & Control  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/457/)
Discussion and analysis of scientific principles related to the learning and control of motor skills; review of related literature and research in motor learning and control. The focus of the course is on mechanisms for the control of movement and recent theories of how movements are acquired and performed. 3 undergraduate hours. 4 graduate hours. Prerequisite: Graduate standing or consent of instructor.

KIN 458  Neurobio of Aging  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/458/)
Same as PSYC 451 and NEUR 451. See PSYC 451.

KIN 459  Physical Activity & Aging  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/459/)
Examines aging and age-related changes in the cells, tissues, organs, and systems of the human body; emphasizes the role of physical activity and other lifestyle choices in modifying the aging process and in influencing the onset and progression of the chronic diseases which accompany aging. Same as HDFS 459. 3 undergraduate hours. 4 graduate hours. Prerequisite: Junior, Senior, or graduate standing or consent of instructor.

KIN 460  Technology & Pedagogical KINES  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/460/)
Promotes mastery of technology skills and complex computer applications through the analysis of research and critical issues related to technology in Kinesiology. The completion of technology modules, requiring problem solving and the collection and analysis of assessment data, will culminate in an interactive, multimedia project. 3 undergraduate hours. 4 graduate hours. Prerequisite: Junior standing.

KIN 461  Exercise Endocrinology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/470/)
The objective of this course is to gain a better understanding of the endocrine system and its response to physical exercise. Therefore, this course will provide a basic review of 1) the major glands and tissues that secrete chemical messengers, 2) the ability of acute exercise and exercise training to regulate chemical messengers, and 3) the physiological consequences of endocrine adaptation to exercise. Clinical disorders associated with endocrine dysfunction will also be discussed when relevant. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: KIN 352.

KIN 473  Skill Acquisition Strategies  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/473/)
Examines theory and practice related to structuring practice conditions to maximize the acquisition and performance of motor skills. The nature of skill, activities, and strategies for enhancing skill are discussed with particular emphasis placed on strategies that instructors, teachers, and/or coaches can use to enhance skill acquisition and performance. 3 undergraduate hours. 4 graduate hours. Prerequisite: KIN 257 or graduate standing or consent of instructor.
KIN 474  Tech-Driven Health Intervention  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/474/)
Course will review and critique the state of the science of technology-driven health behavior interventions. A broad scope of technologies and health behaviors will be covered and students will acquire an understanding of current uses of technology for facilitating health behavior change and maintenance. Students will examine the efficacy and potential for large-scale adoption and dissemination; and develop skills necessary to apply technology-based solutions to address public health problems. 3 undergraduate hours. 4 graduate hours.

KIN 485  Clin Exper in Sports Medicine  credit: 2 to 8 Hours. (https://courses.illinois.edu/schedule/terms/KIN/485/)
Clinical experiences in medical supervision of sports programs, in the areas of therapeutic exercises, fitness programming, and cardiac rehabilitation. 2 to 8 undergraduate hours. 2 to 8 graduate hours. May be repeated to a maximum of 8 hours. Prerequisite: Consent of instructor.

KIN 494  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/494/)
Lecture course on topics of current interest; specific topics announced in the Class Schedule. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated.

KIN 501  Kinesiology Research Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/501/)
Review and appraisal of common research procedures; application of statistical procedures, library methods, evaluation procedures, and experimental methods.

KIN 530  Childhood Obesity I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/530/)
Same as CHLH 530, FSHN 530, HDFS 551, NUTR 530, SOCW 570. See NUTR 530.

KIN 531  Childhood Obesity II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/531/)
Same as CHLH 531, FSHN 531, HDFS 552, NUTR 531, SOCW 571. See NUTR 531.

KIN 540  Health Behavior: Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/540/)
Same as CHLH 540. See CHLH 540.

KIN 542  Mind-Body Exercise Approaches to Health  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/542/)
Explores the theory and application of a variety of integrative mind-body health practices (e.g., meditation traditions, mindfulness, yoga, tai-chi, etc.). Students will learn about the epidemiology and popularity of these practices and the scientifically documented physical and psychosocial health benefits. 4 graduate hours. No professional credit.

KIN 543  Physical Activity & Cognition  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/543/)
Examines the relationship between physical activity and fitness on brain and cognition across the lifespan. The psychobiology of physical activity effects on cognition is emphasized. Other areas of study include aging, development, and psychosocial factors. Methodological issues as well as human and animal models of research will be studied.

KIN 551  Sci Basis of Phys Performance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/551/)
Contemporary trends in the study of human performance and exercise stress; analysis of the research literature, experimental strategies, and research instrumentation. Lecture-discussion and laboratory.

KIN 552  Adv Skeletal Muscle Physiology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/552/)
Course provides an in-depth understanding of skeletal muscle anatomy, cell biology, and physiology. Classroom discussions of primary literature and other activities will focus on muscle structure and function. Information will also be provided on the molecular and cellular basis for adaptations that occur with increased use, such as endurance or strength training, or periods of disuse, such as injury and disease.

KIN 553  Circulorespiratory Physiology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/553/)
Aerobic performance responses to short-term, intermittent, and prolonged physical activity; special consideration given to endurance training methods and assessment techniques, ergogenic aids, and problems associated with growth, environmental influences, and competitive sport. Prerequisite: KIN 551 or consent of instructor.

KIN 557  Stress Immunology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/557/)
This course will examine the role of stress in modulating immune function and the pathobiological mechanisms resulting in disease. An emphasis will be placed upon the reciprocal communication pathways that exist between the central nervous, endocrine and immune systems. Prerequisite: Consent of the instructor. It will be assumed that students will have introductory knowledge in biochemistry, endocrinology, and immunology.

KIN 560  Research on Teacher Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/560/)
Critically examines advanced theories, trends, problems, and implications of research on teacher education in Kinesiology. Students will complete a series of written assignments that are grounded in theory, illustrate critical thinking skills, and demonstrate extensive knowledge of the literature. Prerequisite: Graduate standing.

KIN 564  Qualitative Research Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/564/)
Introduces students to qualitative methodology in the educational and health-related professions settings. Students will learn to interpret qualitative research, understand its theoretical underpinnings, acquire interviewing and observation skills, design and evaluate a community-based group research project, learn to collaborate with others, and critically assess the contributions to the project of self and peers.

KIN 565  Teaching in the Professoriate  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/565/)
Provides scholarly knowledge and practical experience necessary for effectively assuming the roles of teaching, mentoring, and presenting in the professoriate. Students will team teach an undergraduate course with an assigned faculty mentor, give a scholarly research presentation, and attend a series of theoretically grounded lectures focusing on instructional design, learner characteristics, and successfully conveying information to others. Same as CHLH 565, RST 560, and SHS 565. Prerequisite: Must be a PhD student in the College of Applied Health Sciences.
KIN 590 Independent Study  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/590/)
Independent research on special projects. May be repeated.

KIN 591 Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/KIN/591/)
Lectures, discussions, and critiques on kinesiology and community health related subjects by faculty members and visiting professional leaders; presentation and criticism of student research. Approved for S/U grading only. May be repeated in subsequent terms as topics vary.

KIN 594 Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/594/)
Lecture course in topics of current interest; specific subject matter announced in the Schedule. May be repeated.

KIN 599 Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/KIN/599/)
Preparation of theses in kinesiology. Approved for S/U grading only. May be repeated.
KOR - Korean

KOR Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/KOR/)

Courses

KOR 201  Elementary Korean I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/KOR/201/)
First semester of Korean for students without any background of the Korean language, starting from the Korean alphabet (Hangul) and learning basic grammar, vocabulary, and commonly used expressions, to achieve beginning level of speaking, listening, reading, writing, and basic grammar skills in Korean. Credit is not given for KOR 201 if credit for KOR 221 has been earned.

KOR 202  Elementary Korean II  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/KOR/202/)
Continuation of KOR 201, and second semester of first year Korean. Students learn basic grammar, vocabulary, and commonly used expressions by practicing conversations and reading conversation based texts, to achieve beginning-intermediate levels of speaking, listening, reading, and writing in the Korean language. Credit is not given for KOR 202 if credit in KOR 222 has been earned. Prerequisite: KOR 201 or as determined by placement test and instructor. Students must have taken KOR 201 at this University. Otherwise, they must take the placement test given in January. Sign up for the test in the office of the EALC Department (244-2725).

KOR 203  Intermediate Korean I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/KOR/203/)
Continuation of KOR 202 and first semester of the second year Korean. Students practice conversations, study grammar based on conversational materials with variety of styles and levels of discourse and usage, and learn about Korean culture, to achieve intermediate-level fluency. Credit is not given for KOR 203 if credit for KOR 222 has been earned; determination is based on the placement test. Prerequisite: KOR 202 or as determined by a placement exam and an instructor. Students must have taken KOR 202 at this University. Otherwise, they should take the placement exam in August. Sign up for the test in the office of the EALC Department (244-2725).

KOR 204  Intermediate Korean II  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/KOR/204/)
Continuation of KOR 203 and second semester of the second year Korean. Students practice conversations and study grammar based on conversational materials with variety of styles and levels of discourse and usage, to achieve intermediate-level fluency in speaking, listening, reading and writing in the Korean language. Credit is not given for KOR 204 if credit for KOR 241 has been earned. Prerequisite: KOR 203 or as determined by a placement exam and an instructor. Students must have taken KOR 203 at this University. Otherwise, they should take the placement exam in January. Sign up for the test in the office of the EALC Department (244-2725).

KOR 221  Korean Reading and Writing I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KOR/221/)
First semester of spoken and written Korean for students with background in spoken Korean. Starting from the Korean alphabet (Hangul) students learn basic grammar, vocabulary, and commonly used expressions, to achieve the beginning level proficiency in reading and writing as well as in speaking. Credit is not given for KOR 221 if credit for KOR 202 has been earned. Prerequisite: Ability to speak and understand spoken Korean as determined by a placement test and an instructor. Students with prior knowledge of Korean must take the placement test in August. Sign up for the test in the office of the EALC Department (244-2725).

KOR 222  Korean Reading and Writing II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KOR/222/)
Continuation of KOR 221 and second semester of spoken and written Korean for the students with background in Korean. Students learn basic grammar, vocabulary, and commonly used expressions, to achieve the beginning-intermediate level proficiency in reading and writing as well as in speaking of Korean. Credit is not given for KOR 222 if credit for KOR 202 has been earned; determination is based on the placement test. Prerequisite: KOR 221 or as determined by a placement test and an instructor. Students must have taken KOR 221 at this University. Otherwise, those with prior knowledge of Korean must take placement test in January. Sign up for the test in the office of the EALC Department (244-2725).

KOR 241  Korean Reading and Writing III  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KOR/241/)
Continuation of KOR 222 and first semester of the second year of spoken and written Korean. Students learn grammar and vocabulary to achieve intermediate-level speaking, listening, reading and writing in Korean. Credit is not given for KOR 241 if credit for KOR 204 has been earned; determination is based on the placement exam. Prerequisite: KOR 222 or as determined by a placement exam and an instructor. Students must have taken KOR 222 at this University. Otherwise, those with prior knowledge of Korean must take the placement exam in August. Sign up for the test in the office of the EALC Department (244-2725).

KOR 242  Korean Reading and Writing IV  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KOR/242/)
Continuation of KOR 241 and second semester of the second year of spoken and written Korean. Students are exposed to theme-related passages and dialogues, practicing speaking, listening, reading, and writing, in order to achieve advanced-intermediate level proficiency in Korean. Credit is not given for KOR 242 if credit for KOR 306 has been earned. Prerequisite: KOR 241 or as determined by a placement exam and an instructor. Students must have taken KOR 241 at this University. Otherwise, those with prior knowledge of Korean must take the placement test in January. Sign up for the test in the office of the EALC Department (244-2725).

KOR 305  Advanced Korean I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/KOR/305/)
Continuation of KOR 204 and first semester of third year Korean. Concentrates on enhancing the level of fluency in speaking, listening, reading and writing of Korean. Students learn more advanced-level vocabulary and expressions and read more authentic texts in Korean. Credit is not given for KOR 305 if credit for KOR 241 has been earned; determination is based on placement test. Prerequisite: KOR 204 or as determined by a placement exam and an instructor. Students must have taken KOR 204 at this University. Otherwise, they should take the placement test in August. Sign up for the test in the office of the EALC Department (244-2725).

Information listed in this catalog is current as of 01/2022
KOR 306 Advanced Korean II credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/KOR/306/)
Continuation of KOR 305 and second semester of third year Korean. Concentrates on enhancing the level of fluency in speaking, listening, reading and writing of Korean. Students will learn about more advanced-level vocabulary and everyday expressions and read texts in Korean where Korean culture is introduced and discussed. Credit is not given for KOR 306 if credit for KOR 242 has been earned. Prerequisite: KOR 305 or as determined by a placement test and an instructor. Students must have taken KOR 305 at this University. Otherwise, they should take the placement test in January. Sign up for the exam in the office of the EALC Department (244-2725).

KOR 440 Fourth Year Korean I credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KOR/440/)
Develop the ability to engage in fluent discourse, to understand authentic texts through the acquisition of advanced-level vocabulary and expressions, and to refine and improve their writing in Korean. Students are expected to engage in class discussions on various topics of Korean culture and society. 3 undergraduate hours. 4 graduate hours. Prerequisite: KOR 306 or KOR 242 or as determined by a placement test and an instructor. Students must have taken KOR 306 or KOR 242 at this University. Otherwise, those with prior knowledge of Korean should take the placement exam in August. Sign up for the test in the office of the EALC Department (244-2725).

KOR 441 Fourth Year Korean II credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KOR/441/)
Allows advanced students to further develop their reading comprehension of authentic texts through the acquisition of advanced-level vocabulary and expressions, and to discuss and write on various topics and issues related to contemporary Korea. 3 undergraduate hours. 4 graduate hours. Prerequisite: KOR 440 or as determined by a placement test and an instructor. Students must have taken KOR 440 at this University. Otherwise, those with prior knowledge of Korean should take the placement test in January. Sign up for the test in the office of the EALC Office (244-2725).
LA - Landscape Architecture

Courses

LA 101  Introduction to Landscape Arch  credit: 2 Hours.  
Introduction to primary concepts and methods of landscape inquiry as a means to understand experiential qualities of landscape and to guide landscape design and planning projects.

LA 199  First-Year Seminar  credit: 1 to 3 Hours.  
Survey topics in landscape architecture. Additional fees may apply. See Class Schedule. Prerequisite: For undergraduate students.

LA 212  Water and Society  credit: 3 Hours.  
A comparative investigation of built landscapes and hydraulic resources through history. Examines problems of water scarcity, abundance and changes in ecology, human social organization, economy, law, and cultural values related to natural water conditions and human management. Comparative case studies include the ancient Near East and modern Middle East, ancient and modern Egypt, the Roman empire, Peru, the Netherlands, South Asia, Illinois River basin, and the American West. This course satisfies the General Education Criteria for: Humanities - Hist Phil

Cultural Studies - Western

LA 218  S Asian Cultural Landscapes  credit: 3 Hours.  
Survey of Hindu, Buddhist, and Islamic landscapes of South Asia. Examines urban structures, building typologies, and open space types through history as influenced by concepts of the natural, sacred, political, and social. Same as ASST 218.

LA 220  Exploring African Cities  credit: 3 Hours.  
Examines the buildings, landscapes, and societies of pre-colonial, sub-Saharan African cities from the third century BCE until the nineteenth century CE. Same as ANTH 223.

LA 221  History of the Prison  credit: 3 Hours.  
History of prison architecture, landscapes, and carceral regimes from ancient times until the present. Topics include: philosophy of punishment, the invention of the modern prison, the advent of mass incarceration, and 21st century geographies of incarceration. The course focuses on the western experience, but also includes international examples, e.g. from China, East Africa, and Japan. Interdisciplinary approach includes readings in architectural history, urban planning, sociology, philosophy, psychology, history, and landscape studies. Same as AFRO 221 and HIST 219.

This course satisfies the General Education Criteria for: Humanities - Hist Phil

Cultural Studies - Western

LA 222  Islamic Gardens & Architecture  credit: 3 Hours.  
Study of the formation, history, and meaning of the landscape and architecture of the Islamic world. Same as ARCH 222 and ARTH 219.

This course satisfies the General Education Criteria for: Humanities - Hist Phil

Cultural Studies - Non-West

LA 233  Foundation Design Studio  credit: 5 Hours.  
Introduction to the fundamentals of design, including studies in two- and three-dimensional abstract and applied problems, basic elements and procedures of design, and principles of landscape composition. Additional fees may apply. See Class Schedule. Open to Landscape Architecture majors only. Prerequisite: Credit or concurrent registration in LA 280 or consent of instructor.

LA 234  Site Design Studio  credit: 5 Hours.  
Site as the fundamental unit of landscape design. Involves ecological, cultural and experiential understanding of sites, and the creation of place-specific designs. Field trip required. Additional fees may apply. See Class Schedule. Prerequisite: LA 233 or consent of instructor.

LA 241  Landform Design & Construction  credit: 3 Hours.  
Introduction to landform design, drainage, stormwater management, surveying, and materials. Prerequisite: MATH 014 or 016.

LA 242  Nature and American Culture  credit: 3 Hours.  
Same as RST 242, and NRES 242. See RST 242. This course satisfies the General Education Criteria for: Cultural Studies - Western

LA 250  Environmental Site Analysis  credit: 3 Hours.  
Principles and practices of identifying, analyzing, and recording landscape resources. Field trip required. Prerequisite: GEOL 100, 101, 103 or GEG 103 or consent of instructor.

This course satisfies the General Education Criteria for: Nat Sci Tech - Phys Sciences

Information listed in this catalog is current as of 01/2022
LA 270  Behavioral Factors in Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/270/)
Introduces the impacts of cultural and social factors, such as age, gender, physical ability, economic status, ethnicity and how people interact with the environment. Reading assignments, short exercises, field trips, and evaluation of space will enable students to evaluate and potentially design more socially and ecologically responsive environments.

LA 280  Design Communications I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/280/)
Fundamentals of visual communication in the design process and presentation for landscape architecture. Includes freehand and constructed drawing, color, media, and models. Open to Landscape Architecture majors only. Prerequisite: Concurrent registration in LA 233.

LA 281  Design Communications II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/281/)
Advanced principles and techniques of visual communication in landscape architectural rendering, emphasizing computer-based techniques. Open to Landscape Architecture majors only. Prerequisite: Concurrent registration in LA 234; completion of LA 280 and completion of campus Composition I general education requirement or consent of instructor.

LA 301  Senior Honors  credit: 1 to 6 Hours. (https://courses.illinois.edu/schedule/terms/LA/301/)
Independent guided study and research in a selected area of landscape architecture; for candidates for honors in landscape architecture. May be repeated to a maximum of 9 hours. Prerequisite: Senior standing in landscape architecture, a university grade-point average of 3.0, and consent of head of department.

LA 314  History of World Landscapes  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/314/)
Analysis of the development of landscape architecture as a result of environmental and cultural influences. Same as ARCH 314.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Hist Phil
Cultural Studies - Western

LA 315  History of Modern Landscape Architecture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/315/)
A selected overview of developments in landscape architecture in the western world from 1900 to the present. Same as ARCH 315. Prerequisite: LA 314.

LA 335  Community & Open Space Studio  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/LA/335/)
Development of design solutions at site and master plan scale relative to community, urban and open space problems; emphasizes development of analysis and design techniques to integrate physical context of place with social context. Additional fees may apply. See Class Schedule. Prerequisite: LA 241 or consent of instructor.

LA 336  Design Workshop Studio I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/LA/336/)
Project design at various scales utilizing problems of a wide range of complexity and subject matter; rural, community, urban problems, housing, recreation, and natural areas; emphasizes problem analysis and generation of innovative design alternatives. Students select from several sections depending on specific interests. Additional fees may apply. See Class Schedule. Prerequisite: LA 335 or consent of instructor.

LA 342  Site Engineering  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/342/)
Principles of site engineering including landform design, stormwater management, site surveying, circulation systems and site utility planning. Prerequisite: LA 241 and college trigonometry; or consent of instructor.

LA 343  Landscape Construction  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/343/)
Construction methods, materials, and procedures related to the design of landscape structures; development of design details and cost estimating. Prerequisite: LA 342 or consent of instructor.

LA 345  Professional Internship  credit: 0 to 10 Hours. (https://courses.illinois.edu/schedule/terms/LA/345/)
Professionally supervised field experience in design offices and public agencies intended to introduce students to practice. Students work in the department-approved firm or agency of their choice. Seventy five hours of employment is required for each one hour of course credit or a zero-credit option is available. Approved for S/U grading only. May be repeated to a maximum of 10 hours. Prerequisite: Upper division undergraduate standing or consent of instructor. Restricted to undergraduate students enrolled in the Department of Landscape Architecture.

LA 346  Professional Practice  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LA/346/)
Study of the profession of landscape architecture including an introduction to modes of practice, career evaluation, organizational theory, office procedures, project management and professional ethics. Field trip required. Additional fees may apply. See Class Schedule. Prerequisite: Junior standing or consent of instructor.

LA 370  Environmental Sustainability  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/370/)
Explores the challenges of creating a sustainable world. Examines: a) trends and conditions of the earth’s major ecosystems, b) ways in which our economic system has created levels of consumption that threaten sustainability, c) the extent to which equity and justice contribute to sustainable systems, and d) evidence demonstrating how human creativity and innovation can create a more sustainable world. Same as ENSU 300 and NRES 370.

LA 387  Undergraduate Seminar  credit: 1 to 6 Hours. (https://courses.illinois.edu/schedule/terms/LA/387/)
Topics in current and future areas of landscape architectural application. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 6 hours if topics vary. Prerequisite: Restricted to students with junior or senior standing.

Information listed in this catalog is current as of 01/2022
LA 390  Independent Study I  credit: 1 to 6 Hours. (https://courses.illinois.edu/schedule/terms/LA/390/)
Supervised independent study, research, or special project in a selected area related to landscape architecture. May be repeated to a maximum of 6
hours. Prerequisite: Junior or senior standing, or consent of instructor. Consent of instructor prior to registration.

LA 399  Off-Campus Study  credit: 0 to 15 Hours. (https://courses.illinois.edu/schedule/terms/LA/399/)
Provides campus credit for off-campus study. Approved for letter and S/U grading. (Summer session, 0 to 6 undergraduate hours). Final determination
of appropriate credit is made by a faculty review committee upon completion of the student's work. Maximum credit, 15 hours (summer session, 6
hours), all of which must be earned within one term. Prerequisite: Junior standing; prior review and approval of the student's written proposal by a
faculty committee and the department head.

LA 427  Amer Vernacular Cultural Land  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/427/)
Focuses on vernacular structures in the cultural landscape, especially common houses, barns, and commercial and industrial structures; examines
origin and geographical diffusion of vernacular architecture in the United States. 4 undergraduate hours. 4 graduate hours.

LA 430  Children and Nature  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LA/430/)
Same as HORT 430. See HORT 430.

LA 433  Graduate Foundation Studio  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/LA/433/)
Graduate-level introduction, for students without a BLA, to the fundamentals of design, including studies in two- and three-dimensional abstract and
applied problems, basic elements and procedures of design, and principles of landscape composition. Additional fees may apply. See Class Schedule.
No undergraduate credit. 5 graduate hours. Prerequisite: Restricted to Landscape Architecture Graduate Students.

LA 434  Graduate Site Design Studio  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/LA/434/)
Graduate-level introduction for students without a BLA to site as the fundamental unit of landscape design. Involves ecological, cultural and
experiential understanding of sites, and the creation of place-specific designs. Field trip required. Additional fees may apply. See Class Schedule. No
undergraduate credit. 5 graduate hours. Prerequisite: Restricted to Landscape Architecture Graduate Students.

LA 437  Regional Design Studio  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/LA/437/)
Ecological design and planning studio emphasizing team approaches to design development and evaluation using current human and environmental
research results. Projects require field work, analysis, problem-solving, and advanced design and presentation products. 5 undergraduate hours. 5
graduate hours. Prerequisite: LA 336 or consent of instructor.

LA 438  Design Workshop Studio II  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/LA/438/)
Project design at various scales utilizing problems of a wide range of complexity and subject matter; rural, community, and urban problems, housing,
recreation, and natural areas; and emphasizes problem analysis and generation of innovative design alternatives. The student selects from several
sections depending on specific interests. Additional fees may apply. See Class Schedule. 5 undergraduate hours. 5 graduate hours. May be repeated if
topics vary. Prerequisite: LA 336 or consent of instructor.

LA 441  Land Resource Evaluation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/441/)
Examines concepts for the value of land, land resource problems and policy responses, methods for evaluating land resource development and policy
alternatives, and case studies of land resource evaluation. Same as UP 441. 4 undergraduate hours. 4 graduate hours. Prerequisite: Graduate standing or
consent of instructor.

LA 446  Sustainable Planning Seminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/446/)
Examines sustainability issues of concern to planners, such as resource conservation, urban growth, environmental justice, industrial development,
social equity, sustainable agriculture, and economic development. Presents holistic approaches ranging from theoretical concepts to detailed case
studies that combine urban and regional land use, physical design, and policymaking. Same as GEOG 446, NRES 446, and UP 446. 4 undergraduate
hours. 4 graduate hours.

LA 450  Ecology for Land Restoration  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/450/)
Ecological implications of alternative land use patterns; equipment, field techniques, and nomenclature in current use by environmental consultants;
and elements of a baseline ecosystem study. 4 undergraduate hours. 4 graduate hours. Prerequisite: Consent of instructor.

LA 452  Natural Precedent in Planting  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/452/)
Biogeography; identification of native species, uses of native plants in the landscape; and restoration and planting design projects. Field trips required.
3 undergraduate hours. 3 graduate hours. Additional fees may apply. See Class Schedule. Prerequisite: HORT 302 or consent of instructor.

LA 453  Cultural Precedent in Planting  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/453/)
Planting design issues; historic precedent and contemporary comprehensive design projects; management practices; technical documents; and plant
use and identification. Field trips required. 3 undergraduate hours. 3 graduate hours. Prerequisite: LA 452.

LA 454  Landscape Archaeology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/454/)
Same as ANTH 453. See ANTH 453.

LA 460  Heritage Management  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/460/)
Same as ANTH 460 and RST 459. See ANTH 460.
LA 466 Energy & the Built Environment credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/466/)
Focuses on the study of buildings, including their past and present uses, their place in the environment, and most importantly, how they can become more sustainable. Teaches students to think about and plan physical space from an energy-and-climate-centric perspective. Uses climate mitigation and building energy systems-modeling techniques to analyze potential energy systems reductions and approaches to affect a building’s carbon footprint. Same as UP 466. 4 undergraduate hours. 4 graduate hours.

LA 470 Social/Cultural Design Issues credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/470/)
Critical discussion of notions and theories pertaining to the reciprocal effects of landscape architectural design and human behavior. 3 undergraduate hours. 3 graduate hours.

LA 472 Museum Theory and Practice credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/472/)
Same as ANTH 462 and ARTH 462. See ANTH 462.

LA 480 Sustainable Design Principles credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LA/480/)
Introduction to key concepts for the sustainable design of buildings and landscapes, including concepts that form the core of the U.S Green Building Council rating system (LEED). Introduction to LEED accreditation. Same as UP 480. 2 undergraduate hours. 2 graduate hours.

LA 482 Advanced Communication in Urban Design credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/482/)
This intensive, advanced, representation course teaches the use of software and workflow procedures used to design urban settings, visualize design ideas for 21st-century urbanism, and communicate ideas about urban design to professionals and non-experts. Students will gain advanced skills for creating three-dimensional representation of urban designs. 4 undergraduate hours. 4 graduate hours. Prerequisite: Students should have skills at intermediate level representation and have the equivalent skills and knowledge of the material in LA 280 and LA 281.

LA 490 Independent Study II credit: 1 to 6 Hours. (https://courses.illinois.edu/schedule/terms/LA/490/)
Supervised advanced independent study, research, or special project in a selected area related to landscape architecture. 1 to 6 undergraduate hours. 6 graduate hours. May be repeated to a maximum of 6 hours. Prerequisite: LA 390. Junior or senior standing; consent of instructor and head of department prior to advance enrollment and registration.

LA 501 Landscape Arch Theory & Prac credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/501/)
Seminar to introduce the discipline, profession, and practice of landscape architecture. Emphasis is on understanding the skills and knowledge base of the profession including environmental, social, and historical factors in design. 4 graduate hours. No professional credit.

LA 505 Methods in Arch & LA History credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/505/)
Seminar on the historiography of architectural and landscape history, including an introduction to the major concepts and figures in the discipline, past and present. Students will learn of approaches historians have used for analyzing the built environment from traditional methods to newer interpretive frameworks, and examine how contemporary values determine or inform the writing of history.

LA 506 Landscape and Vision credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/506/)
A study of the major 20th-century texts on vision, perception, and perspective as applied to architecture and landscape. Prerequisite: Doctoral students only; master’s level students must receive permission from instructor.

LA 513 History of World Landscapes credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/513/)
Introduction to the landscape architectural heritage of the past in its social, environmental and historical context. Same as ARCH 510.

LA 515 History & Theory of Modern Landscape Architecture credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/515/)
A selected overview of developments in landscape architecture in the western world from 1900 to the present. Same as ARCH 515. 4 graduate hours. No professional credit. Prerequisite: LA 513 or approval of instructor.

LA 534 Design Workshop G-I credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/LA/534/)
Graduate project design at various scales utilizing problems of a wide range of complexity and subject matter; rural, community, and urban problems, housing, recreation, and natural areas; and emphasizes problem analysis and generation of innovative design alternatives. The student selects from several sections depending on specific interests. Additional fees may apply. See Class Schedule. 5 graduate hours. No professional credit. Prerequisite: LA 433/434 or consent of instructor.

LA 535 Local Policy & Immigration credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/535/)
Same as UP 535 and SOCW 535. See UP 535.

LA 537 Planning & Design Studio II credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/LA/537/)
Ecological design and planning studio emphasizing design that reflects evaluation and integration of human and environmental research results. Detailed investigation of design options. Additional fees may apply. See Class Schedule. 5 graduate hours. No professional credit. May be repeated. Prerequisite: LA 534 or consent of instructor.

LA 538 Urban Design Research Studio credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/LA/538/)
This advanced studio broadens and strengthens students’ understanding of urban design research methods and prepares students to conduct independent urban design work. Students learn research strategies and methods and examine research precedents and texts during the first portion of the course. In the second portion, students develop and carry out individual research design proposals. The semester ends with formal presentations of the findings from the design research projects. 5 graduate hours. No professional credit.
LA 539  Design Workshop G-II  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/LA/539/)
Advanced graduate project design at various scales utilizing problems of a wide range of complexity and subject matter; rural, community, and urban problems, housing, recreation, and natural areas; and emphasizes problem analysis and generation of innovative design alternatives. The student selects from several sections depending on specific interests. Additional fees may apply. See Class Schedule. 5 graduate hours. No professional credit. Prerequisite: LA 534 or consent of instructor.

LA 562  Social Construction of Space  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/562/)
Same as ANTH 557. See ANTH 557.

LA 563  Soc/Beh Research Designed Env  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/563/)
Same as ARCH 563. See ARCH 563.

LA 570  Landscapes and Human Health  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/570/)
We will explore the challenge of, and science behind, creating healthy, sustainable places. We will engage this topic by learning about four mechanisms through which places impact health. We will examine the empirical evidence in support of each of these mechanisms. Learning in this course grows from a series of readings, active participation in class discussion, and the development of a review paper or a research proposal. Same as CHLH 580 and GEOG 561. 3 graduate hours. No professional credit.

LA 587  Preparation, presentation, and discussion of research papers on current and future areas of landscape architectural application. Additional fees may apply. See Class Schedule. 1 to 4 graduate hours. No professional credit. May be repeated if topics vary. Prerequisite: Consent of instructor.

LA 589  Sustainable Urban Design Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/589/)
This advanced theory seminar introduces students to key urban design theory literature that draws on a range of disciplines and subjects. This seminar situates urban design at the overlap of architecture, landscape architecture, and urban planning, and examines the historic and contemporary influences of those environmental arts on urban design theory and practice. 4 graduate hours. No professional credit.

LA 590  Directed Research  credit: 1 to 8 Hours. (https://courses.illinois.edu/schedule/terms/LA/590/)
Nature and scope of projects to be determined by consultation between student and faculty adviser; open to landscape architecture majors as well as those from other disciplines who wish to engage in interdisciplinary work. Additional fees may apply. See Class Schedule. 1 to 8 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated. Prerequisite: Consent of instructor.

LA 592  Urban Design Capstone Studio  credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/LA/592/)
In this summer studio, students will work closely with their instructor to turn their design research strategies from LA 538 Urban Design Research Studio into solutions customized specifically for their particular site, client, and set of constraints. Students will draw upon previous coursework in theory, design, research, real estate, and representation to produce comprehensive and compelling design solutions and demonstrate how their solutions meet a variety of performance criteria. 6 graduate hours. No professional credit. Prerequisite: LA 538 Urban Design Research Studio. This course is open only to students enrolled in the Master of Sustainable Urban Design program.

LA 593  Islamic & S Asian Landscapes  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/593/)
Topics in Islamic and South Asian cultural landscape history, including historiography, methodology and recent scholarship. An advanced course that requires disciplinary familiarity with research on the built environment, material culture and visual culture. May be repeated to a maximum of 8 hours per semester; may be repeated to a maximum of 12 total hours.

LA 594  Cultural Heritage  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/594/)
Topics in cultural landscape heritage, conservation planning and design. Investigates theories of landscape, heritage, and their intersections, with readings drawn from anthropology, geography, and landscape studies, as well as applied work on historical landscape conservation, preservation and management. Same as ANTH 594. May be repeated to a maximum of 10 hours per semester; may be repeated to a maximum of 16 total hours. Prerequisite: Concurrent enrollment in LA 438 may be required in the spring semester; check Class Schedule.

LA 597  Research Design & Methods  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/597/)
This graduate-level course provides instruction and application of research and scholarly methods for landscape architecture and related fields. Students are introduced to the basic steps of inquiry and development of a thesis/research proposal. Course content includes: problem identification; choosing and articulating a research topic; synthesis of topical/theoretical background from literature; choice of research strategy; design of a plan for investigation; selection of data sources, methods and analysis; proof of concept; feasibility planning; and other necessary components of a successful research proposal. 3 graduate hours. No professional credit. Prerequisite: Second year or post-professional MLA students; graduate students in other majors may enroll with permission of instructor.

LA 598  Master's Project  credit: 0 to 8 Hours. (https://courses.illinois.edu/schedule/terms/LA/598/)
Major independent or small-group project synthesizing knowledge from previous coursework. Approved for letter and S/U grading. Prerequisite: Consent of instructor and program adviser.

LA 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/LA/599/)
Research toward Doctoral or Master's thesis. 0 to 16 graduate hours. No professional credit. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 10 hours for MLA and a maximum of 32 hours for PhD. Prerequisite: Graduate standing in landscape architecture.
LAS - Liberal Arts and Sciences

LAS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/LAS/)

Courses

LAS 100  Success in LAS for International Students  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LAS/100/)
Prepares international students for their transition to campus by examining expectations and focusing on the purpose and value of the higher education experience from a US perspective. Introduces critical concepts to know about academic programs, and engages students in planning their program of study as well as their personal and professional development. Serves as a complement to LAS 101/LAS 102/LAS 122 for students new to the US education system.

LAS 101  Design Your First Year Experience  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/LAS/101/)
Design Your First Year Experience orients students to the academic environment at Illinois and establishes a useful framework for engaging in learning both inside and outside the classroom and articulating a purpose for their education. Using design-thinking, students explore campus resources, set goals for their academic, personal and professional development during their first year and make multiple (engagement) maps for reaching those goals. Prerequisite: Restricted to first-year students in LAS.

LAS 102  Transfer Advantage  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/LAS/102/)
Introduction for first-term transfer students to the college and campus. Familiarizes transfer student with the resources available to them and helps them connect with other students and form a bond with the college. Prerequisite: For first-term LAS transfer students only.

LAS 110  Workshop-Tutorial  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAS/110/)
Independent study and experimental seminars open to Unit One students and to others; specific offerings vary each term. Approved for letter and S/U grading. May be repeated if topics vary. Credit toward college or departmental requirements is contingent upon approval by the appropriate unit. A total of 12 hours of LAS 110 credit may be applied toward graduation in the College of Liberal Arts and Sciences. Prerequisite: Unit One students or consent of Unit One Director.

LAS 122  Leadership and Society  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/LAS/122/)
Engages first-year LAS honors students in the realms of citizenship, stewardship and leadership for the 21st century. En route to becoming competent and agile learners, first-year honors students experience an orientation to Illinois that fosters greater awareness and knowledge of campus resources and an examination of scholarly and personal leadership, global issues, and civic engagement. The course serves as a means for students to enhance their independence, cultural awareness and connection to community. Students work with a small cohort of peer scholars in a one-hour weekly graded session led by an upper-level LAS James Scholar peer mentor. Students are expected to work together and individually on projects involving community partners and campus groups. Assignments will incorporate the concept of service in connection with civic engagement.

LAS 199  Undergraduate Open Seminar  credit: 0 to 5 Hours. (https://courses.illinois.edu/schedule/terms/LAS/199/)
Topics will vary. See class schedule. Additional fees may apply. See Class Schedule. Approved for Letter and S/U grading. May be repeated.

LAS 201  Design Your Illinois  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LAS/201/)
Students reflect on and map out their Illinois experience to maximize life + career development. Topics include wellness and student success, career management, and design-thinking as a method for creating a life-career plan. Activities include both in-class and out-of-class engagement in reflection, information gathering, brainstorming, empathy-building, and problem-solving. Students are guided to identify how their undergraduate experiences relate to and advance their career development. Prerequisite: Restricted to first- and second-year undergraduate students.

LAS 250  Design Your Life + Career  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/LAS/250/)
Guides students from career exploration to job attainment and future life and career planning. Topics include career development, today's work world and skills needed, job attainment skills, and storytelling for career success. Students use aspects of design-thinking to understand their interests, gather information, reflect, and imagine their future life and career. In-class workshops prepare students for out-of-class assignments that advance job search. Approved for S/U grading only. Prerequisite: Junior or Senior Standing.

LAS 289  Internship Experience  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/LAS/289/)
Students follow a program of study and research through an approved internship. Written work report required. Approved for S/U grading only. May be repeated in separate semesters. Prerequisite: Consent of course instructor required. Restricted to students enrolled in the College of Liberal Arts and Sciences.

This course satisfies the General Education Criteria for:
UIUC: Ugrad Zero Credit Intern

LAS 290  FLAS Seminar  credit: 0 to 12 Hours. (https://courses.illinois.edu/schedule/terms/LAS/290/)
Foreign Language and Area Studies Off-Campus Studies provides campus credit for off-campus study by undergraduate Foreign Language and Area Studies Fellows. Final determination of appropriate credit is made by a faculty review committee upon completion of the student's approved foreign language program. May be repeated in separate terms to a maximum of 12 hours. Prerequisite: Junior standing; intermediate or advanced study of a less-commonly taught language; awarding of FLAS fellowship by campus Title VI National Resource Center; prior review and approval of the student's program by Center's FLAS Fellowship Coordinator.
LAS 291  Global Perspectives for Intercultural Learning  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/LAS/291/)
Prepares students who are going abroad for a semester or academic year for their transition through a) examining expectations, b) focusing on the purpose and value of the abroad experience, c) preparing students culturally and logistically, d) addressing issues of culture shock, e) helping students with articulating their experience for future personal and professional goals, f) enhancing intercultural communication and global understanding, and g) assisting with re-entry planning. May be repeated in separate terms.

LAS 292  Global Perspectives in Cross-Cultural Contexts  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LAS/292/)
Provides an opportunity for students studying abroad to consider how their journey might be articulated as a global learning experience. Requires students to discuss what they are learning, reflect upon it, and discern ways to apply the knowledge gained through their experiences. May be repeated in separate terms. Prerequisite: LAS 291.

LAS 299  LAS Study Abroad  credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/LAS/299/)
Provides credit toward the undergraduate degree for study at accredited foreign institutions or approved overseas programs. Final determination of credit is made upon the student’s completion of the work. (Summer session, 0 to 8 hours). Approved for Letter and S/U grading. May be repeated to a maximum of 36 term hours per academic year or to a total of 44 term hours, all of which must be earned within one calendar year. Prerequisite: One year of residence at UIUC, good academic standing, and prior approval of the major department and the College of Liberal Arts and Sciences.

LAS 399  Leadership & Professional Development  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/LAS/399/)
Leadership and professional development seminar for student interns. Interns will learn teaching, mentoring, leadership and professional skills that will enable them to lead a section of an LAS transition course or experience and share their successful academic experiences with undergraduate students who are new to the University. Interns will help their students develop the skills necessary to succeed at the U of I. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Instructor approval required.

LAS 490  LAS Advanced Seminar  credit: 1 to 6 Hours. (https://courses.illinois.edu/schedule/terms/LAS/490/)
See Class Schedule for current topics. 1 to 6 undergraduate hours. 1 to 6 graduate hours. Approved for letter and S/U grading. May be repeated in the same or separate terms to a maximum of 6 hours.

LAS 494  Senior Project  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAS/494/)
For students seeking graduation with distinction in IPS. 2 or 4 undergraduate hours. No graduate credit. May be repeated to a maximum of 4 undergraduate hours. Prerequisite: Consent of instructor and IPS Advisory Committee; open only to students whose major is IPS and who have a cumulative grade point average of at least 3.25.
LAST - Latin American & Caribbean St

LAST Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/LAST/)

Courses

LAST 170  Introduction to Latin America credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAST/170/)
Interdisciplinary introduction to the ways of life of Latin American peoples, their origins and current expressions; discusses social, economic issues, and domestic and international policies related to them in the context of other societies in developing countries.
This course satisfies the General Education Criteria for:
Cultural Studies - Non-West
Social Beh Sci - Soc Sci

LAST 199  Undergraduate Open Seminar credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/LAST/199/)
May be repeated.

LAST 210  Life in the Andes credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAST/210/)
An overview of contemporary Andean culture, as practiced by the people in Peru, Bolivia, and Ecuador. This culture is the result of the resilience of the pre-Hispanic Andean heritage, and the continuous adaptation Andean people have practiced, first, to control their environment and, then, to survive and overcome colonial and postcolonial forms of subordination. No prior knowledge of Spanish, Quechua, or the Andes is required.
This course satisfies the General Education Criteria for:
Cultural Studies - Non-West
Social Beh Sci - Soc Sci

LAST 232  Spanish in the Community credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAST/232/)
Same as SPAN 232. See SPAN 232.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

LAST 240  Constr Afr and Carib Identity credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAST/240/)
Same as AFST 209, CWL 225, and FR 240. See FR 240.

LAST 308  The Caribbean Since 1492: From Columbus to Castro credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAST/308/)
Same as HIST 308. See HIST 308.

LAST 325  Social Media and Global Change credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAST/325/)
Same as AFST 325, ASST 325, EPOL 325, EPS 325, EURO 325, INFO 325, REES 325, and SAME 325. See EPOL 325.

LAST 342  Arts of Colonial Latin America credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAST/342/)
Same as ARTH 342. See ARTH 342.

LAST 343  Arts of Modern Latin America credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAST/343/)
Same as ARTH 343. See ARTH 343.

LAST 395  Special Topics credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAST/395/)
Topical survey of cultural, social, economic, and political factors in Latin American life. Each term a particular topic is considered. Prerequisite: A basic course in a humanities or social science discipline.

LAST 440  International Water Project I credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAST/440/)
Same as ABE 450. See ABE 450.

LAST 441  International Water Project II credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAST/441/)
Same as ABE 451. See ABE 451.

LAST 445  Native Latin Amer Languages credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAST/445/)
Upon the consent of the Director of the Center for Latin American and Caribbean Studies, tutorials are available in special native Latin American languages not regularly offered by the University (ie. Quechua, Kagchikel Mayan). Tutorials at the elementary, intermediate, and advanced levels may be arranged. Students registering for unit credit for the first two terms must first present satisfactory evidence of knowledge of the language at the elementary level, either in the form of credit earned at another institution or by passing a proficiency examination. 2 to 4 undergraduate hours. May be repeated in 6 terms successively, to a maximum of 16 hours. Graduate credit is given only for work beyond the elementary level. Prerequisite: Consent of instructor.

LAST 490  Individual Study credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/LAST/490/)
Major tutorial normally taken in the senior year. Students read the works from list devised in consultation with a faculty tutor and write a term paper. 1 to 5 undergraduate hours. 1 to 5 graduate hours. May be repeated as topics vary to a maximum of 6 hours. Prerequisite: LAST 170; a declared major in Latin American and Caribbean Studies; consent of instructor.

LAST 550  Interdisc Seminar Latin Am St credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAST/550/)
Examines the interconnections among research approaches and problems in the field of Latin American and Caribbean Studies. May be repeated to a maximum of 8 hours if topics vary. Prerequisite: M.A. standing in Latin American and Caribbean Studies or consent of instructor.

Information listed in this catalog is current as of 01/2022
LAST 590  Global STEAM Graduate Seminar  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/LAST/590/)
Provides graduate students with weekly explorations into the relationship between the sciences, humanities, and the arts in addressing issues of global significance through an interdisciplinary inquiry. Each week, Global STEAM Working Group faculty members will introduce a new topic that crosses disciplinary and geographical boundaries to provide insights and new perspectives on the global challenges of the 21st century. 0 graduate hours. No professional credit. Approved for S/U grading only.

LAST 597  M.A. Research  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAST/597/)
Open to students who choose to complete their M.A. by submitting two departmental papers. May be repeated in the same or subsequent terms to a maximum of 8 hours. Prerequisite: M.A. standing in Latin American Studies and consent of instructor and advisor.

LAST 599  Thesis Research  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAST/599/)
Preparation of M.A. thesis. Approved for S/U grading only. May be repeated to a maximum of 8 hours with approval. Students may register in more than one section per term. Prerequisite: M.A. standing in Latin American and Caribbean Studies and consent of instructor.
**LAT - Latin**

LAT Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/LAT/)

**Courses**

LAT 101  Elementary Latin I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/101/)
Grammar and reading for students who have had no work in Latin.

LAT 102  Elementary Latin II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/102/)
Grammar and reading of easy prose. Prerequisite: LAT 101 or one year of high school Latin.

LAT 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/LAT/199/)
May be repeated.

LAT 201  Intermediate Latin  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/201/)
Review of grammar; reading of easy narrative prose. Prerequisite: LAT 102 or two years of high school Latin.

LAT 202  Intro to Latin Literature  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/202/)
Continuation of LAT 201, with readings chiefly in Latin poetic literature.

LAT 401  Survey of Latin Literature  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/401/)
Advanced level readings in classical Latin literature. 3 undergraduate hours. 4 graduate hours. May be repeated for a total of 6 undergraduate hours or 8 graduate hours in separate semesters, if topics vary. Prerequisite: LAT 202 or four years of high school Latin.

LAT 411  Intermediate Prose Composition  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAT/411/)
Practice in the writing of Latin prose. 3 undergraduate hours. 3 graduate hours. Prerequisite: LAT 202 (formerly LAT 104) or the equivalent.

LAT 460  Medieval Latin  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/460/)
Literary and historical texts in prose and poetry will be read in the original; the course will also cover patristic writings. Same as MDVL 460. 3 undergraduate hours. 4 graduate hours. Prerequisite: Two years of college Latin or consent of instructor.

LAT 491  Readings in Latin Literature  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/491/)
Readings in authors or special topics chosen by the instructor from the entire extant literature in Latin. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated. Prerequisite: Three years of college Latin or equivalent; consent of instructor.

LAT 492  Senior Thesis  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/492/)
Thesis and honors. For candidates for honors in Latin and for other seniors. 2 or 4 undergraduate hours. No graduate credit. Prerequisite: Senior standing and consent of Classics Honors Program.

LAT 493  Independent Reading  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/493/)
See Department of the Classics for information. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated in separate terms to a maximum of 8 undergraduate hours or 12 graduate hours. Prerequisite: LAT 401 and consent of instructor.

LAT 511  Advanced Prose Composition  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/LAT/511/)
Practice in writing Latin prose, with special attention to stylistic questions.

LAT 520  Proseminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/520/)
Alternating poetry and prose, concentrates on a major author from one of the following areas: epic, oratory, lyric and elegiac poetry, history, drama, philosophy, satire, or epistolography. Areas normally follow this sequence in successive years. May be repeated to a maximum of 20 hours if topics vary. Prerequisite: LAT 491 or equivalent.

LAT 531  Special Disciplines  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/531/)
Same as GRK 531. See GRK 531.

LAT 580  Latin Seminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/580/)
Research on special problems of Latin literature; required of all majors in classical philology. May be repeated if topics vary. Prerequisite: A Latin proseminar.

LAT 595  Intro to Classical Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/595/)
Same as GRK 595. See GRK 595.

LAT 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/LAT/599/)
Guidance in writing theses for advanced degrees. Approved for S/U grading only. May be repeated.

*Information listed in this catalog is current as of 01/2022*
LAW - Law

Courses

LAW 199  Undergraduate Open Seminar  credit: 1 to 3 Hours.  Approved for letter and S/U grading. May be repeated in the same term up to 6 hours, if topics vary; May be repeated in separate terms up to 12 hours, if topics vary.

LAW 201  Basic Constitutional Law & Individual Rights  credit: 3 Hours.  An introduction to the main themes of the American Constitution - with an emphasis on the First and Fourteenth Amendments - and to basic techniques of constitutional interpretation. Attention will be paid to the interplay of constitutional text, judicial doctrine, and constitutional decision-making outside the judiciary. No prerequisites.

LAW 301  Introduction to Law  credit: 2 or 3 Hours.  Guides the undergraduate student in an initial study of law and legal reasoning. Covers the nature and function of rules/law, the distinctiveness of legal reasoning, and the way in which law responds to social phenomena and contributes to the development of different social, business and economic institutions. Includes both criminal and civil proceedings. Serves as a general foundation course for those interested in applying to law school. Also of interest to students who are not interested in pursuing a more formal law education, but for whom general legal training will enhance their career aspirations. Develops skills that are transferable to virtually any career. This course satisfies the General Education Criteria for:

- Humanities - Hist Phil

LAW 302  Transitional Justice  credit: 3 Hours.  Wrongdoing is part of the history of many, if not most, political communities around the globe. This course examines the moral questions that dealing with past wrongdoing raise. Our focus is specifically on political wrongdoing, that is, wrongdoing inflicted on individuals by the state or groups contesting the state. Such wrongdoing has taken different forms, from slavery, to forced disappearances, to programs of torture and of land appropriation. We also focus on two specific political contexts: the United States and South Africa. In this course, we survey a range of legal measures including criminal punishment, truth commissions, reparations, and apology, that have been, and can be used, to deal with legacies of wrongdoing. Not available for Graduate or Professional credit. This course satisfies the General Education Criteria for:

- Humanities - Hist Phil
- Cultural Studies - US Minority

LAW 303  Living the Law  credit: 3 Hours.  This course first applies the legal understanding developed in LAW 301 to situations in the real world, and then explores how the law is viewed through different social science lenses. Students interested in deepening their knowledge of how the law operates in today's world, and how the law is studied in the social sciences will benefit from this class. Prerequisite: LAW 301.

LAW 304  Introduction to Legal Research  credit: 1 Hour.  Introduction to tools and techniques essential for legal practice and scholarship. Students will be able to identify legal issues and relevant facts from a fact pattern, devise a research strategy, find and identify relevant legal information using free and proprietary sources, identify legal rules and principles from a series of authorities, and write a plain-English summary of findings that includes an explanation of the relevant rules. Approved for Letter and S/U grading.

LAW 305  Art and Cultural Property Law  credit: 3 Hours.  This course concerns the emergence of "art" and "cultural property" law as a distinct field of legal inquiry and practice. Still, this subject draws from nearly the entire spectrum of traditional legal subjects - intellectual property, free speech, contracts, crime, treaties, tax, etc. Art and Cultural Property Law deals with the relationships, rights, transactions and disputes among collectors, artists (and their heirs), dealers, auction houses, museums and other art world participants (including local and foreign governments, sovereign nations and indigenous peoples, the entertainment industry, sports franchises and social media). Among the dozens of important relevant issues in this field are the successes and failures of law in policing cultural heritage crimes, the rise of artistic nationalism, cultural heritage as a casualty of war, censorship, and provenance studies. Approved for Letter and S/U grading.

LAW 499  LAW Study Abroad  credit: 0 to 8 Hours.  Provides campus credit for study at accredited foreign institutions or approved overseas programs. Final determination of credit granted is made after the student’s successful completion of work. No undergraduate credit. 0 to 8 graduate hours. Approved for Letter and S/U grading. Prerequisite: Full academic standing in the College of Law or Graduate College; consent of major department. Law students, successful completion of the year’s requirements.

LAW 500  LLM Legal Writing and Research  credit: 2 Hours.  Designed and developed to equip incoming LLM students with the necessary background in U.S. constitutional law, legal research, analysis, and writing for effective classroom performance. Approved for S/U grading only. Prerequisite: Admission to the U.S. LLM program.
LAW 501  Professional Responsibility  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/LAW/501/](https://courses.illinois.edu/schedule/terms/LAW/501/))  This course concerns itself with the laws, regulations, and customs that govern the legal profession in the United States, and considers those matters in the context of an increasingly globalized legal profession. 3 or 4 graduate hours. No professional credit. Students will be expected to attend class, review the assigned reading before class, participate in class discussions and exercises, complete written assignments, and examinations.

LAW 598  Law Partner Scholar Notation  credit: 0 Hours. ([https://courses.illinois.edu/schedule/terms/LAW/598/](https://courses.illinois.edu/schedule/terms/LAW/598/))  Illinois Law Partner Scholars Program requirements provide designated students an opportunity to enhance their professional and personal competences in four areas: cultural awareness, leadership and team-building, academic excellence, and community involvement. The activities and contributions of designated students will advance the development of global law practice skills within the College of Law: 1) by providing points of comparison and contrast to U.S. Law; and 2) by understanding the social and business context of law outside the U.S. 0 graduate hours. No professional credit. Approved for S/U grading only. Prerequisite: For students who are identified by Illinois Law Partner schools for admission into the Illinois LL.M. program.

LAW 599  Thesis Research  credit: 0 to 16 Hours. ([https://courses.illinois.edu/schedule/terms/LAW/599/](https://courses.illinois.edu/schedule/terms/LAW/599/))  Approved for S/U grading only.

LAW 600  Pro Bono Service  credit: 0 Hours. ([https://courses.illinois.edu/schedule/terms/LAW/600/](https://courses.illinois.edu/schedule/terms/LAW/600/))  Course carries no academic credit, but recognizes law students who provide at least sixty hours of pro bono legal service to the community. The sixty hours of service may be performed at any time during the student’s three years of law school, and must be documented through reports to the Associate Dean for Academic Affairs. 0 graduate hours. 0 professional hours. Approved for S/U grading only. Students may enroll only with permission of the Associate Dean for Academic Affairs. Prerequisite: Enrollment in the J.D. or LL.M. program at the College of Law.

LAW 601  Contracts  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/LAW/601/](https://courses.illinois.edu/schedule/terms/LAW/601/))  Basic first-year course in property law, required of all students. Provides an overview of law of the land, with incidental coverage of personal property, includes the concept of property, acquisition of private property, recognized property interests, and gratuitous transfer of property interests. 4 graduate hours. 4 professional hours.

LAW 602  Property  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/LAW/602/](https://courses.illinois.edu/schedule/terms/LAW/602/))  Basic first-year course in property law, required of all students. Provides an overview of law of the land, with incidental coverage of personal property, includes the concept of property, acquisition of private property, recognized property interests, and gratuitous transfer of property interests. 4 graduate hours. 4 professional hours.  Prerequisite: Law students only.

LAW 603  Torts  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/LAW/603/](https://courses.illinois.edu/schedule/terms/LAW/603/))  Basic course in civil wrongs, including intentional torts (such as assault and battery), negligence (duty, unreasonable risk analysis, actual and proximate cause), and strict liability. 4 graduate hours. 4 professional hours. Prerequisite: Law students only.

LAW 604  Criminal Law  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/LAW/604/](https://courses.illinois.edu/schedule/terms/LAW/604/))  Sources and purposes of the criminal law; the meaning of criminal responsibility; and the characteristics of particular crimes. 4 graduate hours. 4 professional hours. Prerequisite: Law students only.

LAW 605  Criminal Proc: Investigation  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/LAW/605/](https://courses.illinois.edu/schedule/terms/LAW/605/))  Problems in the administration of criminal justice with emphasis on right to counsel, arrest, search, interrogation, lineups, and the scope and administration of exclusionary rules. 4 graduate hours. 3 professional hours.

LAW 606  Constitutional Law I  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/LAW/606/](https://courses.illinois.edu/schedule/terms/LAW/606/))  Basic first-year course provides an introduction to constitutional law, including the origins of judicial review, basic Article III limits on federal court jurisdiction, the nature and scope of federal legislative power, the Commerce Clause, and the relationship of the federal government to the states. 4 graduate hours. 4 professional hours.

LAW 607  Civil Procedure  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/LAW/607/](https://courses.illinois.edu/schedule/terms/LAW/607/))  Role and importance of procedure in litigation, including jurisdiction, pleadings and parties, pretrial motions and discovery, trial practice (except evidence), relationship between judge and jury, the effect of a decision in one case on subsequent litigation between the same or different parties (res judicata), verdicts and judgements, and appellate review. 4 graduate hours. 4 professional hours.

LAW 609  Legal Writing & Analysis  credit: 2 or 3 Hours. ([https://courses.illinois.edu/schedule/terms/LAW/609/](https://courses.illinois.edu/schedule/terms/LAW/609/))  Emphasis on development and improvement of skills in legal writing, and training in legal bibliography. Assignments may include brief writing and preparation of legal memoranda and opinions. 3 graduate hours. 2 professional hours.

LAW 610  Introduction to Advocacy  credit: 2 or 3 Hours. ([https://courses.illinois.edu/schedule/terms/LAW/610/](https://courses.illinois.edu/schedule/terms/LAW/610/))  Continuation of LAW 609. Introduction to Advocacy is required in the second semester of the first year for further development of legal research skills persuasive writing and oral advocacy. Each student will work on the preparation of a summary judgment motion and an appellate brief relating to their first semester assignment, then argue their assigned case before a panel of local attorneys and faculty. 2 graduate hours. 3 professional hours. Approved for Letter and S/U grading.

LAW 612  Constitutional Law III  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/LAW/612/](https://courses.illinois.edu/schedule/terms/LAW/612/))  This elective for second-and third-year law students is an intensive study of the First Amendment to the Constitution and its application to the states through the Fourteenth Amendment. Examines decisions of the U.S. Supreme Court in areas concerning freedom of speech, religion, and the press. Specific topics include punishment of criminal advocacy; regulation of picketing and public demonstrations; obscenity; commercial speech; regulation of news media; and religious exemptions from government regulation. 4 graduate hours. 3 professional hours. Prerequisite: LAW 606.
LAW 615  Administrative Law  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/615/)
Functions of administrative tribunals in federal, state, and municipal government; the procedure before such administrative tribunals; and judicial relief from administrative decisions. 4 graduate hours. 3 professional hours.

LAW 616  Environmental Law and Pol I  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/616/)
Course is the basic introduction to Environment Law; it considers the principal legal approaches used to deal with environmental problems, including common-law, statutory, regulatory, and economic-incentive systems. 4 graduate hours. 3 professional hours.

LAW 618  Natural Resources  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/618/)
Legal problems associated with the ownership and use of land, water, and mineral resources. 2 or 4 graduate hours. 3 professional hours.

LAW 619  Wildlife Law  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/619/)
Covers a variety of legal issues relating to the status and treatment of wildlife and the management of natural areas for the conservation of biodiversity. 4 graduate hours. 3 professional hours.

LAW 620  Health Law Policy  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/620/)
This course focuses on the profound legal and policy issues raised by changes in health law and the U.S. health care delivery system including: access to health law and the U.S. health care delivery system including: access to health services; the financing and organization of the health care system; development of legal standards to ensure quality of care; and issues of long-term care. In addition, we will focus on the process of making laws and polices; what entities, institutions, and individuals control decisions about the quality and cost of health care. We will also explore the need and basis for reform. 4 graduate hours. 3 professional hours.

LAW 622  Land Use Planning  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/622/)
Examination of the legal and administrative aspects of land development and regulation in an urban society, including the techniques and problems of planning; the tools of plan effectuation, such as zoning, subdivision regulation, renewal and redevelopment, and housing programs; and the allocation of decision-making among various levels of government. 2 to 4 graduate hours. 2 to 3 professional hours.

LAW 624  Real Estate Finance  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/624/)
Methods of financing land acquisition and residential and commercial development, including publicly owned and subsidized housing. 4 graduate hours. 3 professional hours.

LAW 625  State and Local Government  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/625/)
The law governing the structure, powers, and operation of local governments in urban and suburban areas with analysis of political, economic, and social implications. 4 graduate hours. 3 professional hours. Prerequisite: LAW 606.

LAW 627  Legal Research  credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/LAW/627/)
Introduction to the basic tools and methodology used in conducting legal research and will develop the skills necessary to identify and locate relevant, complete and current legal information in both print and digital formats. Weekly problem-based research exercises will be assigned. 1 graduate hour. 1 or 2 professional hours. Approved for letter and S/U grading. Required in the first year, fall term.

LAW 629  Bankruptcy  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/629/)
Study of the regulation of the relationship between debtors and creditors under the federal Bankruptcy Code. 4 graduate hours. 3 or 4 professional hours.

LAW 631  Secured Transactions  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/631/)
Study of secured transactions under Article 9 of the Uniform Commercial Code. 2 to 4 graduate hours. 2 to 3 professional hours.

LAW 633  Business Associations I  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/633/)
Examines the basic legal consequences for individuals, organizations, and society of the formation, control, and financing of organizations. Surveys agency relationships, partnerships, and close and public corporations. 4 graduate hours. 3 or 4 professional hours.

LAW 634  Securities Regulation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/634/)
Explores the federal securities laws governing issuance of securities in the primary markets. Emphasis on regulatory requirements governing corporate financing. 4 graduate hours. 3 professional hours. Prerequisite: LAW 633.

LAW 635  Securities Litigation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/635/)
Focuses in detail on the substantive law and strategic considerations that are important in securities litigation, whether private suits by individual investors, private class actions under federal securities laws, or federal and state government enforcement proceedings. Topics include: 10(b) fraud suits under the 1934 Act, 11 and 12(a)(2) suits under the 1933 Act, insider trader liability; procedural issues in class actions, and litigation under federal proxy solicitation and tender offer regulations. 4 graduate hours. 3 professional hours. Prerequisite: LAW 633.

LAW 636  Business Associations II  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/636/)
The second course in the sequence. Covers derivative suits, corporate finance, introduction to securities regulation, insider trading and mergers and acquisitions. 4 graduate hours. 3 professional hours. Prerequisite: LAW 633.
LAW 638  White Collar Crime  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/638/)  
This course will focus on the federal statutes commonly invoked in corporate and white collar prosecutions, including those used in prosecutions for conspiracy, mail and wire fraud, RICO, extortion, bribery, tax offenses, obstruction of justice, and false statements. The class will investigate the theoretical and policy framework for individual and institutional responsibility in our criminal justice system and will also explore emerging theories of corporate criminal liability and the principles undergirding the sanctions imposed for white collar crime. 3 to 4 graduate hours. 2 to 4 professional hours. Prerequisite: This course is appropriate for law students who have completed introductory courses in criminal law and procedure. Some students have found it helpful to complete the course in LAW 633 before taking this course, but it is not a prerequisite.

LAW 639  Corporate Finance  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/639/)  
Analysis of corporate and securities law problems using the tools of modern financial theory. Emphases will typically include valuation, capital structure, and fundamental changes of public corporations. 4 graduate hours. 3 professional hours. Prerequisite: LAW 633.

LAW 642  Antitrust Law  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/642/)  
The limitations imposed by the Sherman Act, Clayton Act, and Federal Trade Commission Act on anticompetitive practices by business firms; emphasizes price fixing and other agreements among competitors, monopolization, mergers, exclusive dealing, tying arrangements. Considers applicability of traditional rules to intellectual property and new technologies. 4 graduate hours. 3 professional hours.

LAW 643  Trademark & Unfair Competition  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/643/)  
Course introduces basic legal concepts relating to statutory and common-law trademark, interference with contractual relations and trade libel, the federalization of unfair competition law, and the role of the Federal Trade Commission in consumer protection activities. 4 graduate hours. 3 professional hours.

LAW 644  Copyright Law  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/644/)  
Offers an in-depth look at the legal aspects of copyright with special emphasis on the application of traditional copyright principles to new technologies and media of expression. 4 graduate hours. 3 professional hours.

LAW 645  Patent Law  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/645/)  
Historical development of protection of ideas, inventions, and discoveries; patentability; securing the patent; amendment and correction of patents; and infringement remedies, defenses, and procedure. 2 to 4 graduate hours. 2 to 3 professional hours.

LAW 647  Income Taxation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/647/)  
The fundamental course in federal income taxation. Includes materials relating to income taxation of individuals and an introduction to taxation of corporations and shareholders. 4 graduate hours. 3 or 4 professional hours.

LAW 648  Corporate Taxation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/648/)  
In-depth study of federal income tax law related to taxation of corporations, shareholders, partnerships, and partners. 4 graduate hours. 3 professional hours. Prerequisite: LAW 647.

LAW 649  Partnership Taxation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/649/)  
Involves the study of Subchapter K of the Internal Revenue Code, including partnership formation, allocations, distributions, and liquidations. Also examines the tax treatment of Subchapter S corporations. 4 graduate hours. 3 professional hours. Prerequisite: LAW 647.

LAW 651  Tax Exempt Organizations  credit: 3 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/651/)  
Covers the rationale and technical tax requirements for exempting charities from federal and state taxes. Subjects will include the rationale for exemption (especially with respect to churches, schools, and hospitals), qualification rules under I.R.C. Section 5 (c) (3), the Unrelated Business Income Tax, and if time permits, the charitable contributions deduction. 4 graduate hours. 3 professional hours. Prerequisite: LAW 647 is a prerequisite, though it may be waived in appropriate cases.

LAW 653  International Business Trans  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/653/)  
Doing business abroad: export-import regulations, use of foreign commission merchants, licensing of patents and know-how, investment and exchange problems, establishing a foreign operation (including forms of business organization available abroad), and application of United States and foreign antitrust law to the business operation. 4 graduate hours. 3 professional hours.

LAW 654  International Trade Policy  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/654/)  
Analysis of the regulation of trade between nations by international agreement (e.g., the GATT), by multinational organizations (e.g., the European Communities), and by individual countries; emphasizes U.S. import restraints, export controls, and related laws. 4 graduate hours. 3 professional hours.

LAW 655  European Union Law  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/655/)  
Intensive study of the European Common Market, particularly of its laws relating to trade barriers, establishment of companies, and antitrust; and United States legislation in the field of international trade. 2 to 4 graduate hours. 2 to 3 professional hours.

LAW 656  International Law  credit: 3 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/656/)  
The nature, sources, and subjects of international law and its place in the control of international society; includes an examination of the law of jurisdiction, territory, recognition and succession of states, rights and immunities of states in foreign courts, diplomatic immunities, treaties, protection of citizens abroad, settlement of international disputes, war and neutrality, the United Nations, and the International Court of Justice. 4 graduate hours. 3 professional hours.
LAW 657  International Human Rights Law  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/657/)
Studies established and developing legal rules and procedures governing the protection of international human rights, including Marxist and Third
World, as well as Western, conceptions of those rights. 4 graduate hours. 3 professional hours.

LAW 660  Individual Employee Rights  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/660/)
This course investigates the legal rights and responsibilities of employees in the non-union workplace. The course will emphasize particularly the role
of law in adjusting the balance of power between individual employees and employers. It will study the regulation of contract, tort, and statute of such
areas as hiring, discharge, compensation, employee privacy and dignity and the like. 4 graduate hours. 3 professional hours.

LAW 662  Labor Law I  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/662/)
Study of the National Labor Relations Act as amended, the pre-act history of the labor movement, and the judiciary's response thereto, with emphasis
on understanding the problems, experiments, and forces leading to the enactment; includes the negotiation and administration of the collective
bargaining agreement, especially the grievance arbitration procedure, its operation and place in national labor policy; and explores the relationship of
the individual and the union. Same as LER 547. 4 graduate hours. 3 or 4 professional hours.

LAW 664  Employment Discrimination  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/664/)
Problems arising under federal statutory prohibitions of discrimination in employment, with particular emphasis on evidentiary problems and the use
of statistical proofs; defining relevant labor pools, using statistical analyses of data, and establishing proof of test validation. 2 or 4 graduate hours. 2
to 3 professional hours.

LAW 665  Workplace Dispute Resolution  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/665/)
Same as ECON 543 and LER 543. See LER 543.

LAW 667  Family Law  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/667/)
The creation and dissolution of the family, and legal relationships established by marriage, cohabitation and procreation. Covers the law of marriage,
divorce, annulment, separation, unmarried cohabitation, illegitimacy, adoption and rights of child custody, parental property on divorce, inheritance,
and related rights. Legal rules are placed into the social setting in which they operate, and emphasis is given to family policy as reflected in current
developments in family law reform, including constitutional law. 4 graduate hours. 3 professional hours.

LAW 668  Decedents' Estates and Trusts  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/668/)
Studies the means of transferring wealth, with primary emphasis on gratuitous transfers; the means available for making gratuitous transfers,
including the validity and effect of testamentary instruments and trust deeds; and problems concerning the dispositive provisions of any type of
instrument which transfers wealth. 4 graduate hours. 3 professional hours.

LAW 670  Elder Law  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/670/)
Examines the various legal implications of people living longer, with special emphasis on public policies and programs affecting the financing of
medical care, housing arrangements, and income maintenance of persons aged 60 years and older. 4 graduate hours. 3 professional hours.

LAW 673  Workers Compensation  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/LAW/673/)
A general survey class on rules relating to workers compensation claims and litigation. Begins with an overview of the historical development of
workers compensation laws, then surveys the general principles applicable to such laws, with particular emphasis on the Illinois Workers
Compensation Act. Guest speakers will include an arbitrator, a petitioner's attorney, and a claims manager. 3 graduate hours. 2 professional hours.

LAW 675  Products Liability  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/675/)
Substantive theories of products liability: negligence, breach of warranty, strict liability, and tortious misrepresentation; procedural and remedial
problems with, and defenses to, each substantive theory. 2 to 4 graduate hours. 2 to 3 professional hours.

LAW 676  Insurance Law  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/676/)
Covers principles generally applicable to insurance law and includes distinctive rules governing certain types of insurance coverage; objectives are to
examine the nature of the insurance contract, marketing of insurance, principles of indemnity, individuals and entities protected by insurance rules,
and risks that are shifted by insurance coverage. 4 graduate hours. 3 professional hours.

LAW 678  Anthropology and Law  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/678/)
Same as ANTH 560. See ANTH 560.

LAW 679  Criminal Proc: Adjudication  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/679/)
Problems in the administration of criminal justice, with emphasis upon the commencement of formal proceedings (bail, decision to prosecute, grand
jury, preliminary hearing, location of prosecution, scope of prosecution, speedy trial); the adversary system (pleas, discovery, jury trials, prejudicial
publicity, ethical problems, double jeopardy); and post-conviction review (post-trial motions, appeals, habeas corpus, related post-conviction remedies).
4 graduate hours. 3 professional hours.

LAW 680  Professional Responsibility  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/680/)
Problem course analyzing ethical issues that arise in the practice of law and considering the approaches to such issues taken by the American Bar
Association's Code of Professional Responsibility, Model Rules of Professional Conduct, and Code of Judicial Conduct. 2 to 4 graduate hours. 2 to 3
professional hours.

LAW 682  Evidence  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/682/)
Law governing the proof of disputed issues of fact; function of the court and jury; competence and examination of witnesses; standards of relevancy;
privileged communications; illegal evidence; hearsay rule; best evidence rule; presumptions; and judicial notice. 4 graduate hours. 3 or 4 professional hours.
LAW 683  Complex Litigation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/683/)
Legal and practical issues in "complex" cases: problems of joinder in multi-party cases, consolidation of cases brought independently (including the activities of the Judicial Panel of Multidistrict Litigation), class actions, discovery issues including the assertion and waiver of evidentiary privileges and use of computers, consequences of active judicial "management" of litigation at the pretrial stage, settlement of complex cases, and res judicata problems. 4 graduate hours. 3 professional hours.

LAW 684  Federal Courts  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/684/)
Examination of the relationship of federal courts to other organs of federal government and to the states, including an analysis of cases dealing with congressional control over jurisdiction, federal review of state court decisions (including the relationship between state and federal substantive and procedural law), and application of law to fact; the scope of the federal question of jurisdiction in federal courts; abstention; federal injunctions of state criminal proceedings; and problems of justiciability, advisory opinions, and mootness. 4 graduate hours. 3 professional hours.

LAW 685  Dispute Resolution  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/685/)
Examination of the limitations, consequences, and costs, as well as the indispensability of some aspects of modern litigation; the possibilities, requirements, and legal problems of consensual and of court-annexed dispute resolution processes alternative to final judicial adjudication, including legal counseling, negotiation, mediation, arbitration, mini-trials, summary trials, summary jury trials, early neutral evaluation, private resolution providers, and settlement processes; current disputes used for illustration. 2 to 4 graduate hours. 2 to 3 professional hours.

LAW 686  Remedies  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/686/)
Survey of legal and equitable remedies for the protection of personal and property rights. Procedural and substantive aspects of injunctions; restitution of unjust enrichment in the context of the receipt of unsolicited benefits, benefits derived from the commission of tortious acts, and the mistaken acquisition of benefits; alternative remedies arising from bargain transactions; and remedies for violations of civil rights. 2 or 4 graduate hours. 2 to 3 professional hours.

LAW 687  Jurisprudence  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/687/)
The place of law in society; the nature, goals, and methods of law; and the relation of law and social science. 4 graduate hours. 3 professional hours.

LAW 688  American Legal History  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/688/)
Studies selected topics in the development of law and legal institutions in the United States with particular emphasis on the history of the legal profession, legal education, and the role of lawyers and courts in U.S. society. 4 graduate hours. 3 professional hours. Prerequisite: Some prior study of U.S. history, particularly social and intellectual, is helpful but not required.

LAW 689  Law and Economics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/689/)
Introduction to the economic analysis of law, including property, contracts, torts, criminal law, and related topics. 4 graduate hours. 3 professional hours.

LAW 692  Field Placements  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/692/)
Several field placements offer practical legal education, through field work in various agencies. Students engage in legal work under the supervision of experienced attorneys; the work may include conducting client interviews, doing legal research and fact investigation, preparing legal documents, negotiating, and in some cases, engaging in real trials. 1 to 4 professional hours. May be repeated in the same or separate terms.

LAW 693  Clinical Training  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/LAW/693/)
Several clinics offer practical legal education through a variety of in-house clinics. The clinics focus on specific lawyering skills that are relevant to a particular area of practice (e.g., litigation or family advocacy), and have a classroom component. Students engage in legal work under the supervision of experienced attorneys; the work may include conducting client interviews, doing legal research and fact investigation, preparing legal documents, negotiating, and in some cases, engaging in real trials. 1 to 5 graduate hours. 1 to 5 professional hours. Approved for Letter and S/U grading. May be repeated for up to 12 graduate or professional hours if topics vary.

LAW 694  Trial Advocacy  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/LAW/694/)
Examination of the problems of advocacy and tactics at the trial level. Students engage in all aspects of actual trial work, including witness preparation, opening and closing statements, direct and cross examination, and jury instructions; culminates in student conduct of a full jury trial in late spring; demonstrations are conducted by staff and visiting judges and practitioners. 2 professional hours. 2 Graduate hours. May be repeated to a total of 4 hours. Approved for both letter and S/U grading. Prerequisite: Completed or enrolled concurrently with LAW 682.

LAW 695  Fundamentals of Trial Practice  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/695/)
Explores the theory and reality of trial practice, from developing a theory of the case through submission of jury instructions; topics include fact gathering, jury selection, opening statements, direct and cross-examination, exhibits, expert witnesses, and closing arguments. 3 or 4 professional hours. 4 graduate hours. Approved for both letter and S/U grading. Prerequisite: LAW 694 and completion or concurrent enrollment in LAW 682.

LAW 696  Legal Problems  credit: 1 to 2 Hours. (https://courses.illinois.edu/schedule/terms/LAW/696/)

LAW 697  Moot Court  credit: 1 to 2 Hours. (https://courses.illinois.edu/schedule/terms/LAW/697/)
Preparation of an appellate brief; presentation of an appellate oral argument; participation in intramural, state, national, or international moot court competition. 1 to 3 graduate hours. 1 to 2 professional hours. Approved for S/U grading only. May be repeated to a maximum of 5 hours.
LAW 699  Independent Study  credit: 0 to 2 Hours. (https://courses.illinois.edu/schedule/terms/LAW/699/)
Individual research on a special problem selected in consultation with the instructor. 0 to 2 graduate hours. 0 to 2 professional hours. Approved for
letter and S/U grading. May be repeated to a maximum of 2 hours.

LAW 701  Leadership Project  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/LAW/701/)
Course carries no academic credit, but recognizes law students who participate in a prescribed number of lectures, book review session, seminars,
and classes relating to principles of leadership. Participation in these activities may be performed at any time during the student's three years of law
school, and must be documented through reports to the Director of the Leadership Project. 0 graduate hours. 0 professional hours. Approved for S/U
grading only. Prerequisite: Students may enroll only with permission of the Director of the Leadership Project. Enrollment in the J.D. or LL.M. program
at the College of Law.

LAW 792  Current Legal Problems  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/792/)
This is an umbrella course listing for specialty topics of current legal issues of interest. Additional fees may apply. See Class Schedule. 2 to 4 graduate
hours. 1 to 4 professional hours. Approved for letter and S/U grading. May be repeated.

LAW 793  Advanced Litigation Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/793/)
This is an umbrella course listing for specialty topics of current interest in litigation. 1 to 4 graduate hours. 1 to 4 professional hours. Approved for
letter and S/U grading. May be repeated if topics vary.

LAW 794  Adv Topics in Business Law  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/794/)
This is an umbrella course listing in business law for specialty topics of current interest. 1 to 4 graduate hours. 1 to 4 professional hours. Approved for
letter and S/U grading. May be repeated if topics vary.

LAW 795  Adv Topics in Criminal Law  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/795/)
This is an umbrella course listing in criminal law for specialty topics of current interest. 1 to 4 graduate hours. 1 to 4 professional hours. May be
repeated if topics vary.

LAW 796  Comparative Law Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/796/)
This is an umbrella course listing in comparative law for specialty topics of current interest. 1 to 4 graduate hours. 1 to 4 professional hours. Approved for
letter and S/U grading. May be repeated if topics vary.

LAW 797  Intellectual Property Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/797/)
This is an umbrella course listing in intellectual property law for specialty topics of current interest. 1 to 4 graduate hours. 1 to 4 professional hours.
May be repeated if topics vary.

LAW 798  Seminars  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/798/)
This is an umbrella course listing for specialty topics of special interest. Approved for professional and graduate credit. May be repeated.
LCTL - Less Commonly Taught Languages

LCTL Class Schedule

Courses

LCTL 101  Elementary Course in a Less Commonly Taught Language I  credit: 1 to 5 Hours.
Beginner or intensive language instruction in a selected less commonly taught language. May be repeated in separate terms, if topics vary.
Prerequisite: Departmental approval is required.

LCTL 102  Elementary Course in a Less Commonly Taught Language II  credit: 1 to 5 Hours.
Continuing beginning or intensive language instruction in a selected less commonly taught language. May be repeated with approval. Prerequisite: Consent of instructor. May be repeated if topics vary. Prerequisite: Departmental approval is required.

LCTL 201  Intermediate Course in a Less Commonly Taught Language I  credit: 1 to 5 Hours.
Intermediate or intensive language instruction in a selected less commonly taught language. May be repeated with approval. Prerequisite: Consent of instructor. May be repeated in separate terms, if topics vary.

LCTL 202  Intermediate Course in a Less Commonly Taught Language II  credit: 1 to 5 Hours.
Intermediate or intensive language instruction in a selected less commonly taught language. May be repeated with approval. Prerequisite: Consent of instructor. May be repeated in separate semesters, if topics vary. Prerequisite: Departmental approval is required.

LCTL 301  Advanced Course in a Less Commonly Taught Language I  credit: 1 to 5 Hours.
Advanced or intensive language instruction in a selected less commonly taught language. May be repeated with approval. Prerequisite: Consent of instructor. May be repeated in separate semesters, if topics vary. Prerequisite: Departmental approval is required.

LCTL 302  Advanced Course in a Less Commonly Taught Language II  credit: 1 to 5 Hours.
Advanced or intensive language instruction in a selected less commonly taught language. May be repeated with approval. Prerequisite: Consent of instructor. May be repeated in separate semesters, if topics vary. Prerequisite: Departmental approval is required.

Information listed in this catalog is current as of 01/2022
LEAD - Organizational & Community Leadership

Courses

LEAD 140  Harnessing Your Interpersonal Intelligence  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LEAD/140/)
Students will expand their capacity for communication, collaboration and team leadership to navigate the complexities of the university and beyond. In this course, students will learn communication strategies to work with others and practice self-awareness, self-management, and interpersonal communication skills in a supportive setting to reach their personal potential as emerging leaders. Credit not given for LEAD 140 and LEAD 440.

LEAD 170  Leading Student Organizations  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LEAD/170/)
Students will develop their capacity for leadership in university and volunteer organizations. In this course, students will learn about organizational structures, elements of effective organizations, strategies for leading other people, and applications beyond formal student organizations. Credit not given for LEAD 170 and LEAD 470. Prerequisite: LEAD 140.

LEAD 230  Leadership Communications  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LEAD/230/)
Application of communication skills used in the dissemination of information by public or organizational leaders in contemporary times. Founded on empirical leadership studies and through use of experiential learning activities, presentations, projects, and examinations, students will consider how identity and the setting impact what they write, say, and do when communicating a message.
This course satisfies the General Education Criteria for:
Advanced Composition
Social Beh Sci - Soc Sci

LEAD 260  Foundations of Leadership  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LEAD/260/)
Study of leadership theories and their application to the development of leadership skills. Students develop a personal philosophy of leadership, prepare a development plan for enhancing leadership skills, and begin a portfolio to record their leadership growth. Explores topics concerning diversity, ethics, and leadership/follower roles.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

LEAD 310  Prof Dev in Leadership Ed  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LEAD/310/)
Provides agricultural leadership education students with non-formal professional experiences prior to enrollment in the student internship. A minimum of 32 hours of observation and participatory experiences with professionals in extension/outreach, business and industry, political and/or communications/human resources are required for satisfactory completion of this class.

LEAD 320  Training Needs Assessment  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LEAD/320/)
Students in this course will be equipped to analyze an employee and/or organization's performance to determine the training needs for a business or organization. Helps learners determine whether or not training is the solution to a job performance problem. Credit is not given for LEAD 320 if credit for AGED 280 or LEAD 280 has been given.

LEAD 321  Training and Development  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LEAD/321/)
Students will learn to assess, design, develop, implement, and evaluate a training program in agricultural and non-agricultural industries. Topics will emphasize the theory of training and development, methods of assessing training needs and learning styles, design of effective training, presentation skills, and program evaluation. Different types of training programs will be examined, including orientation, skills training, team building, management development, and diversity training. Students will create and present a training program for an actual client utilizing the training design process. Credit is not given for LEAD 321 if credit for AGED 300 or LEAD 300 has been given. N/A Prerequisite: AGED 280/LEAD 280/LEAD 320.

LEAD 339  Social Justice Leadership  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LEAD/339/)
Leadership operates in the context of broader society; a society characterized by rampant inequalities and various forms of injustice. This course allows students to apply social justice concepts to their ongoing leadership development toward solving complex social problems. Frameworks rooted in social identity, intersectionality, and positionality will be used, alongside knowledge gained from current and prior leadership coursework and co-curricular involvement. Special focus will be given to preparing students for LEAD 340. Approved for Letter and S/U grading.

LEAD 340  Leadership Ethics & Society: Addressing Contemporary Challenges  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LEAD/340/)
Leadership is a relational process which engages social actors in an exchange of power, influence, and will. This exchange is not always equal—however—raising important questions such as: Why do some leaders misuse their power? What are the consequences of destructive leadership? Why are some groups afforded more power and privilege in U.S society than others? Is it okay for a small group of powerful people to make decisions that affect everyone else?
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority
LEAD 360  Advanced Leadership Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LEAD/360/)
Examines current and emerging leadership theories and their practical application in real-world settings. Continues exploration of advanced leadership theories begun in AGED 260, and includes opportunities for self-assessment and person leadership development. Same as AGED 360. Prerequisite: AGED 260.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

LEAD 380  Leadership in Groups and Teams  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LEAD/380/)
Theory and practice of group and team leadership, including leadership assessment, group dynamics, group process, goal-setting, conflict management and resolution, leadership skill development, and case study analyses. Students engage in group activities throughout the semester. Prerequisite: LEAD 260 and completion of the General Education Composition I requirement.

LEAD 440  Interpersonal Intelligence for Professional Success  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LEAD/440/)
Students will learn theoretical elements and practical strategies to solve problems, negotiate, and navigate complex situations as an effective leader. This course is designed for students interested in developing their capacity for collaboration and team leadership by addressing the unique challenges facing professionals in business and academic research teams. Whether landing a professional internship, preparing for graduate school, or professional employment, students will develop the essential interpersonal intelligence skills to influence others. 2 undergraduate hours. 2 graduate hours. Credit not given for LEAD 140 and LEAD 440. Prerequisite: Graduate Student or Senior Standing Required.

LEAD 460  Critical Approaches to Leadership Practice  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LEAD/460/)
This advanced undergraduate and graduate course reviews the significant leadership theories and models covered in earlier courses and applies critical social theory to deconstruct common concepts of effective leaders and leadership, as well as how these concepts might be more productively reconstructed. Students will gain a deeper appreciation and understanding of the challenges and rewards of leadership in contemporary society. 3 undergraduate hours. 3 graduate hours. Approved for Letter and S/U grading. Prerequisite: LEAD 260; LEAD 380. For ALEC majors, Leadership Studies minors and Graduate students.

LEAD 470  Leading Professional Organizations and Communities  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LEAD/470/)
Students will develop their capacity for leadership in their current and future professional positions in business and academic research teams, as well as within their broader community. This course's activities are designed to help students understand organizational structures, effective organizations, leading other people, and application of systems thinking beyond formal organizations to communities and society. 2 undergraduate hours. 2 graduate hours. Credit not allowed for both LEAD 170 and LEAD 470. Prerequisite: Graduate Student or Senior Standing Required.

LEAD 480  Collaborative Leadership  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LEAD/480/)
Leadership operates within the context of community. The course will teach the research, theory, and practice of building effective community collaborations to deal with complex societal issues. A collaborative framework will be delivered by which students apply their knowledge of person, organizational, and community leadership to real-world problems. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: LEAD 260 or equivalent.

LEAD 560  Developmental Leadership and Supervision in Professional Organizations  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LEAD/560/)
Same as AGED 560. See AGED 560.
LER - Labor and Employment Relations

Courses

LER 100 Introduction to Labor Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/100/)
Provides an overview of workers and unions in American society. Looks at economic, political, and workplace issues facing working people, why and how workers join unions, how unions are structured and function, and how unions and management bargain a contract. Provides a historical overview of the American labor movement, and discusses the contemporary struggles workers and unions face in a rapidly changing global economy. This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

LER 110 Labor and Social Movements  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/110/)
Explores the role of labor unions in American society. Discusses the role of labor unions in initiating actions on social issues that impact the U.S. working class, the economy, public policy, and politics. Analyzes the labor movement's interaction with the civil rights, women's, student, global justice, and living wage movements.

LER 120 Contemporary Labor Problems  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/120/)
Focuses on problems and challenges facing American workers and the U.S. labor movement. Topics include the deterioration of the labor-management "social contract" in recent decades; a review of labor and employment law; the health care crisis; globalization and cross-border union alliances; and union democracy.

LER 130 Intro Lab Wrkng Clst History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/130/)
Do working people have a history worth studying? What does the history of the U.S. look like when viewed from the point of view of those who built the country? Introduces U.S. labor and working class history. Examines the conditions of life and work of the various groups of working people: enslaved, indentured, small farmers, but especially wage workers and their families from the civil War to the present. Studies the main collective actions workers have taken to protect and improve their lives and the organizations and social movements they created to do this. Students who complete LER 130 and want a more in-depth look at the subject should enroll in HIST 480.

LER 199 Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/LER/199/)
May be repeated.

LER 200 Globalization and Workers  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/200/)
Is globalization good for working people in the United States and around the world? Globalization is the driving force in the world economy but it is also provoking tremendous debate and popular resistance. Students will learn the basics about globalization and its institutions from the perspective of workers' right in the U.S. and the Third World. Analyzes the debate over free trade and sweatshops, trade agreements such as the North American Free Trade Agreement, and institutions such as the World Trade Organization and the International Monetary Fund. Closely examines working conditions in several Third World countries, and explores the role of the global justice movement.

LER 210 Images of Labor in Film  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/210/)
Uses feature-length film to take an in-depth look at key labor strikes and organizing drives from the 1910s through the 1980s. Students will view some of the most powerful films on worker and labor themes ever produced. Studies the work lives and labor unions of miners; railroad porters; packinghouse workers; textile workers; and farm workers. Discusses the meaning of the events depicted in the films by situating them in historical context with detailed readings; engage the debates raised in the films about labor organizing methods and strike strategies that are relevant to today's labor movement; reflect on issues of race, gender, class consciousness, working conditions, union goals, anti-communism, and labor-management relations raised in the films and readings; analyze how effectively the films, and Hollywood in general, portray workers and unions; and compare and contrast the films.

LER 220 The Media, Workers, and Unions  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/220/)
Workers, unions, and how the news media tells their stories. Looks at the past, the present and future. Analyzes how these stories are told in the mainstream and independent news media in the U.S., and examines the Internet's explosion and impact on these stories. Looks at how blogs, online videos, citizen journalism, and the fast changing world of Internet communication has given voice to workers and their issues. Compares the print and online media with the work done in documentaries and the cinema. Looks at the global telling of these stories. Lastly, examines the ways that unions can better tell their stories.

LER 225 Labor Issues in Sports  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/225/)
Introduces students to critical historical and contemporary labor issues in the sports industry. Despite popular notions of athletics as "only a game," the world of sports is an expansive global industry with a complex architecture of labor relations systems. Thanks to spectator sports' status as a pervasive form of mass entertainment, the industry also serves as an influential source of cultural meaning in the wider world of work. Day after day, the sports world is home to mass-mediated conversations about key labor issues ranging from unionization to workplace safety to sexual harassment.

LER 240 China's Labor Relations  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/240/)
This course analyzes how China is reshaping the world economy, labor markets, unions, forms of worker resistance, and the lives of workers around the globe. We will examine China's transition from socialism to state capitalism; working conditions facing Chinese workers; evolving labor and employment relations; the role and function of the All-China Federation of Trade Unions; and worker protests and strikes demanding improved conditions.
LER 290  Introduction to Employment Law  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/290/)
Addresses and critiques the content, interpretation, and applications of the laws that govern employer-employee relations in the American workplace. Explores the historical sources, underlying ideology, and current content of anti-discrimination and civil rights laws, of laws that seek to guarantee a safe and healthy workplace for all Americans, of laws that guarantee minimum wages and overtime pay, of legal protections of privacy on the job, of employment insurance and workers' compensation laws, and of laws that guarantee workers the right to collective action and collective bargaining.

LER 300  Workers, Unions, and Politics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/300/)
What is the meaning and impact of politics seen from the perspective of those at the bottom of the pyramid of political power rather than from the usual focus on the actions and perceptions of political elites? In what ways do workers become involved in politics? Under what circumstances are they likely to be successful in bringing about change? This course addresses these questions by exploring political power, political participation, and political change from a broad historical and cross-cultural perspective, but always focusing on a view of politics from the bottom up. The course analyzes the political economy of labor, and the labor movement's political influence in politics.

LER 320  Gender, Race, Class and Work  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/320/)
Provides a historical and interplay of gender, race, class and other issues of identity in the workplace. Topics include: pay gap, occupational segregation, workplace harassment, low wage work, and employment discrimination laws. The response of labor unions to identity issues will also be examined. Prerequisite: LER 100, LER 110 or one course that covers race or gender issues is required.

LER 330  Comparative Labor Relations  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/330/)
Designed as an overview of comparative labor movements and labor relation systems. Develops a framework for understanding union formation and the development of industrial relations system in a variety of countries around the world. An emphasis will be placed on each country's interaction between unions and political organizations, national labor policies, the machinery for the resolution of workplace problems, the level of shop floor disturbances, bargaining coverage of employees, and the issues of workers' control. Also addresses how globalization has transformed the capacity of any nation's labor relations' system to respond to economic challenge and workplace conflicts. Examines the possibility of developing transnational union.

LER 410  Labor and the European Union  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/410/)
Addresses the formation of European Union (EU) labor policy; the role of trade unions in EU member nations; worker immigration in the EU; diversity issues in the EU labor market and a comparative analysis of industrial relations in Europe. Same as EURO 410. 4 undergraduate hours. 4 graduate hours. Prerequisite: Consent of the instructor.

LER 440  Economics of Labor Markets  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/440/)
Same as ECON 440. See ECON 440.

LER 450  European Working Class History  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/450/)
Same as HIST 450 and SOC 422. See HIST 450.

LER 480  US Work Class Hist Since 1780  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/480/)
Same as HIST 480. See HIST 480.

LER 522  Government Regulation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/522/)
Focuses on federal and state legislation, court and agency rulings, and executive orders that regulate a wide range of private and public employment practices including: Title VII and Affirmative Action Compliance; American with Disabilities Act; drug-, HIV-, and genetic testing; Fair Labor Standards Act; Civil Service procedures; Equal Pay Act, Family and Medical Leave Act, and employment-at-will; constitutional protection for employees, job-applicants, and others. Prerequisite: LER 547 or LER 591, or consent of instructor.

LER 523  Org Fundamentals for HR  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/523/)
Increases students' effectiveness in analyzing and understanding organizations and the organizational context. It relies on the case method and focuses a number of important themes such as organization design; strategy; decision-making; and culture. In order to prepare students for the various transformations that they will experience in their careers, it examines many of these topics in the context of organizational change. Exposes students to basic ideas about key organizational topic - as well as a number of applications of these ideas - in order to give them a framework for organizing past experience. The topics covered do not offer a recipe for what to do in all situations, but rather give students a set of skills and different ways of thinking that can help them address novel problems they will face throughout their lives.

LER 530  Found of Ind Org Psych  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/530/)
Same as PSYC 530. See PSYC 530.

LER 540  Labor Economics I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/540/)
Same as ECON 540. See ECON 540.

LER 541  Labor Economics II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/541/)
Same as ECON 541. See ECON 541.

LER 542  Collective Bargaining  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/542/)
Examination of: social values and social science concepts to develop a framework for explaining the basis and shape of collective bargaining as it has been practiced in the United States; government and law, unions, and employers as part of the development of this framework; the environment of collective bargaining with respect to the role of economics and bargaining structure; the negotiating process as the interactive basis for union-management relations; conflict and conflict resolution as part of the negotiating process; wage and other effects of collective bargaining as bargaining outcomes; contemporary changes in union management relations. Case materials and exercises may be used to supplement course materials. Same as ECON 542. Prerequisite: Consent of instructor.
LER 543  Workplace Dispute Resolution  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/LER/543/](https://courses.illinois.edu/schedule/terms/LER/543/))
Examination of the use of procedures to resolve employment disputes in both union and nonunion workplaces; comparative analysis of grievance arbitration, interest arbitration, mediation, fact-finding, and combinations of these procedures; special emphasis given to the role of third party intervention. Same as ECON 543 and LAW 665. 3 professional hours. 4 graduate hours.

LER 545  Economics of Human Resources  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/LER/545/](https://courses.illinois.edu/schedule/terms/LER/545/))
Study of the economics of personnel with the modern corporation. Topics include hiring, promotion, evaluation, discrimination, raiding, job definition, pay schemes, benefits, and design of work. Same as EPOL 575 and HRD 534. 4 graduate hours. No professional credit. Prerequisite: LER 593 or equivalent, or consent of instructor.

LER 547  Labor Law I  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/LER/547/](https://courses.illinois.edu/schedule/terms/LER/547/))
Same as LAW 662. See LAW 662.

LER 556  Industrial Relations Theory  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/LER/556/](https://courses.illinois.edu/schedule/terms/LER/556/))
Integrated analysis of the principles of industrial relations through the study of the works of the major theorists and their critics. Prerequisite: Consent of instructor.

LER 557  Human Resources Theory  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/LER/557/](https://courses.illinois.edu/schedule/terms/LER/557/))
Continuation of LER 556. Focuses on contemporary research in human resource management and related fields.

LER 558  Faculty-Student Workshop  credit: 0 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/LER/558/](https://courses.illinois.edu/schedule/terms/LER/558/))
Training and experience for Ph.D. students in the application of social science and industrial relations theory and research methodology to contemporary industrial relations problems through presentation and discussion of faculty and student research. Ph.D. students are required to make presentations and to participate in workshop discussions during the entire period of their campus residency. Approved for letter and S/U grading.

LER 559  Micro Research Methods  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/LER/559/](https://courses.illinois.edu/schedule/terms/LER/559/))
Provides doctoral students a foundation for conducting independent, scholarly micro research (i.e., individuals or small groups as the primary unit of analysis) by addressing the components of the research process. This foundation for conducting independent research is based on the research process as an open system of interconnected choices that unfold sequentially: (1) Choosing and framing a research question, (2) Choosing an hypothesis to address the research question, (3) Choosing a Strategy and Design, (4) Choosing modes for treating constructs, (5) Choosing Forms for Converting Data into Observations, (6) Choosing procedures to analyze data, and (7) Choosing conclusions for interpreting results. Prerequisite: Doctoral degree student in LER, Department of Psychology, Economics, College of Business, College of Education. Master's degree students who are considering a doctoral degree program subject to instructor approval.

LER 561  Compensation Systems  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/LER/561/](https://courses.illinois.edu/schedule/terms/LER/561/))
Compensation theory and practice. Course addresses the theoretical and practical issues associated with the design of effective compensation systems. The design phases include establishing internal equity, external equity, and individual equity. Budgeting and administration are also addressed. Case analyses and computer simulations may be used to supplement course materials.

LER 562  HR Planning and Staffing  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/LER/562/](https://courses.illinois.edu/schedule/terms/LER/562/))
Examines conceptual issues, policies, and practices relating to the attraction, selection, development, and planning for the most effective utilization of human resources.

LER 564  HR Training and Development  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/LER/564/](https://courses.illinois.edu/schedule/terms/LER/564/))
Provides students a firm understanding of human resource training and development systems in today's business environment. A constant theme setting the back drop for this course will be on the various kinds of change facing organizations and how these changes relate to human resource training and development. Aspiring HR professionals will gain essential knowledge to effectively manage employee training and development systems in a variety of companies.

LER 565  HR Management and Strategy  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/LER/565/](https://courses.illinois.edu/schedule/terms/LER/565/))
Designed to provide integration across the specific functional areas of the human resources management (HRM) field, while at the same time demonstrating the linkages horizontally within HRM and vertically with strategic management of the firm. This case-focused course places emphasis on human resources issues of strategic importance to the organization. Same as BADM 512. Prerequisite: One prior course from the Organizational Behavior and Personnel Management distribution subject area list (in the MHRIR degree requirements for the graduate degree in Labor and Employment Relations).

LER 566  International HR Management  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/LER/566/](https://courses.illinois.edu/schedule/terms/LER/566/))
Human resource management issues examined from the perspective of the multinational firm. Topics include globalization and human resource strategy, management and the structure of multinational firms, dealing with intercultural differences, selecting employees for foreign assignments, training and developing expatriate employees, evaluation and compensation of employees in international assignments. Individual and group projects. Prerequisite: Graduate standing.

LER 567  Negotiation in HR Decisions  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/LER/567/](https://courses.illinois.edu/schedule/terms/LER/567/))
General survey course concerning the strategies and tactics of bargaining and negotiation, with special emphasis on applications in human resource management contexts. Topics covered include: the structure of negotiated outcomes; integrative bargaining tactics; distributive bargaining tactics; negotiation planning; power, persuasion and influence; communication; negotiating in teams and groups; negotiating using 3rd parties (arbitrators, mediators, agents); cross-cultural negotiations. Students will discuss negotiation issues and build negotiation skills through a series of experiential exercises and cases. Credit is not given for both LER 567 and MBA 505 (Sections W1 and W2: Managerial Negotiations). Prerequisite: Graduate standing. An introductory course in social psychology or organizational behavior is preferred but not required.

Information listed in this catalog is current as of 01/2022
LER 568  Firm Performance and HR  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/568/)
The purpose of this course is to enable students to understand some basic ideas about and measures of firm performance with heavy emphasis on the role of human resource managers. Students will gain an understanding of how human resource professionals fit into the organization, structure, and function of business firms. Many basic ideas from the field of finance will be studied. The course covers theoretical ideas and has many empirical, policy, and practitioner-relevant applications, all with the goal of providing human resource managers fundamental financial analysis tools to enable them to function effectively in their post-graduate corporate workplaces.

LER 569  Power & Influence in HRM  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LER/569/)
Designed to help prospective human resource managers learn how to use power and influence as effective tools for understanding the surroundings in which they will be working with and managing people, and achieving the goals that they set for themselves. It provides frameworks and practical tools that allow students to make sense of on-the-job learning experiences and equip them with basic diagnostic and action-planning skills that they can use at different points in their careers - and to consider difficult ethical questions in the process. Prepares students to get things done in the real world, where personalities and office politics sometimes hinder rather than help them.

LER 570  Leadership for HR Managers  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LER/570/)
In contemporary organizations, the HR function is often called on to serve a variety of leadership roles. Thus, HR managers will not only need to learn how to utilize and improve their leadership skills in different and changing contexts, but also how to help other employees become effective leaders. The goals of this course are (1) to analyze and discuss a number of key frameworks that will provide students with knowledge of leadership in different types of organizations, and (2) to provide students with practical tools to help them make sense of their own on-the-job experiences and equip them with basic action-planning skills that they can use on the job.

LER 580  Internship  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/LER/580/)
Full or part-time practice of human resources or employment relations in an off-campus government, corporate or not-for-profit environment. Approved for S/U grading only. May be repeated in separate terms. Prerequisite: Must be a student in the LER program.

LER 590  Individual Topics  credit: 0 to 8 Hours. (https://courses.illinois.edu/schedule/terms/LER/590/)
Students in labor and industrial relations may register for this unit with the consent of the curriculum adviser and the adviser under whom the student will perform individual study or research. Such individual work may include special study in a subject matter for which no course is available or an individual research project, including on-the-job research in industry, which is not being undertaken for a thesis. 0 to 8 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated if topics vary; unlimited credit hours for graduate and professional students.

LER 591  Employment Relations Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/591/)
General framework for the analysis of employment relationships. Topics include industrial relations theory, the American system of collective bargaining, intercountry system differences, and human resource management strategies and practices. Prerequisite: Graduate standing.

LER 593  Quantitative Methods in LER  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/593/)
Application of statistical methods to problems in human resources and industrial relations. Analysis and presentation of results using computer software. Covers statistical techniques through analysis of variance and multiple regression. Prerequisite: Any elementary statistics course.

LER 594  Tutorial Seminar  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/594/)
Research experience for Master's students in carrying out a problem solving project from formulation to written report in a chosen area of labor and industrial relations. Each student selects an individual topic with the approval and guidance of a faculty member and participates in a Tutorial Workshop. Approved for both letter and S/U grading. Prerequisite: Completion of no fewer than 24 graduate hours of LER course work.

LER 595  Managing Diversity Globally  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/595/)
In a global economy workplace diversity is not a trend; it is a reality faced by corporate leaders, human resource professionals and management consultants. Within the US, immigration, migration, and gender and racial differences have been major trends shaping workplace composition. Globalization places additional pressures on managing workplace diversity effectively. In this setting, training managers and human resource professionals to manage differences and adapt to multiple national and cultural contexts is an imperative. Course provides an in-depth understanding of how managers and HR professionals can be effective in not only managing diversity in a global context, but also in leveraging global diversity as a competitive advantage. By the end of this course students will have a holistic appreciation of the tools necessary to implement effective diversity management practices for a globally inclusive workplace.

LER 597  Employee Motivation & Performance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/597/)
Managing and motivating employees effectively is one of the most complex and challenging issues facing companies today. While business leaders acknowledge the need for implementing effective performance management systems, recent studies indicate that an overwhelming majority of performance management systems are unsuccessful. Takes a strategic approach to employee motivation and performance starting with a firm level view to reviewing current approaches to employee motivation and performance management. Aims at providing students with practical and conceptual tools that will aid them in future endeavors to design and implement employee development and performance management systems. Format includes in-class discussions, case studies and individual assignments and papers.

LER 598  Impl High Perf Work Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/598/)
Intensive analysis of all aspects of high performance work systems, including work design, reward systems, training, team operations, lean/six sigma systems, and labor-management partnership. Special focus on skills and principles for effective implementation, in ways that advance employee well-being and to organizational effectiveness.

LER 599  Thesis Seminar  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/LER/599/)
For all students writing theses in LER at the MHRIR and Ph.D. levels. May be repeated. Approved for S/U grading only.
LGLA - Lingala

LGLA Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/LGLA/)

Courses

LGLA 408  Topics Lingala Lang & Lit II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LGLA/408/)
Continuation of LGLA 407 with increased emphasis on the reading and comprehension of literary texts exemplified in advanced level novels, plays, and poetry, as well as on advanced mastery of expository writing skills. Same as AFST 418. Prerequisite: LGLA 407.

Information listed in this catalog is current as of 01/2022
LING - Linguistics

LING Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/LING/)

Courses

LING 100  Intro to Language Science  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/100/)
Introduction to the theory and methodology of general linguistics; includes the various branches and applications of linguistics.
This course satisfies the General Education Criteria for:
   Social Beh Sci - Soc Sci

LING 104  Talking Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/104/)
Same as ANTH 104. See ANTH 104.
This course satisfies the General Education Criteria for:
   Social Beh Sci - Soc Sci

LING 110  Cultural Experiences of the Muslim World  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/LING/110/)
Explores the languages and cultures of the Muslim world through different co-curricular activities. Students will acquire a higher proficiency of the
target language and exposure to other languages that are spoken within this region. They will expand their knowledge and gain a better understanding
of the target culture as well as of those in the Muslim world. Only offered in conjunction with the Summer Institute for Languages of the Muslim World.
Additional fees may apply. See Class Schedule. Approved for S/U grading only. May be repeated if SILMW language course varies.

LING 115  Language and Culture in India  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/115/)
Examines the relationship between language and culture in the multilingual and multicultural context of India. Special topics of focus are: linguistic
and cultural diversity in India, impact of the language and cultural contact on the structure and function of languages (convergence, diglossia, code-
mixing, pidgins and creoles), language and identity, language of religion, language and gender, language in the media, literature and culture, language
and power, language and globalization. Same as HNDI 115 and REL 115.
This course satisfies the General Education Criteria for:
   Cultural Studies - Non-West

LING 191  Freshman Honors Tutorial  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/191/)
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars. May be repeated once. Prerequisite:
   Consent of departmental honors advisor.

LING 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/LING/199/)
May be repeated.

LING 210  Language History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/210/)
Addresses the question "Why does language change?" Specific topics include: the history and origin of writing; why pronunciation changes;
change in vocabulary and what it tells us about change in culture and society; the relation between "language" and "dialect"; multilingualism and its
consequences, including Pidgins and Creoles; genetic relationship between languages, with focus on the "Indo-European" family (English, German,
French, Russia, Latin, Greek, and Sanskrit, etc.) and the relationships between human languages. Prerequisite: Fulfillment of the foreign language
requirement of the College of Liberal Arts and Sciences.

LING 221  American Sign Language II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/221/)
Same as SHS 221. See SHS 221.

LING 222  Language in Globalization  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/222/)
Introduction to the role of language in globalization by examining communication issues concerning language use across cultural, political and
geographic boundaries. Explores the interaction of language and other cultural forms in the global context. Among the topics discussed are issues
of identity, spread of English and its acculturation to local contexts of use, creativity in language mixing, language in global pop cultures, language in
cyberspace, as well as minority language experiences, and loss of indigenous languages.
This course satisfies the General Education Criteria for:
   Cultural Studies - Non-West

LING 225  Language, Mind, and Brain  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/225/)
Introduction to the theory and methodology of psycholinguistics with emphasis on language acquisition and linguistic behavior. Same as PSYC 225.
This course satisfies the General Education Criteria for:
   Social Beh Sci - Beh Sci

LING 240  Language in Human History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/240/)
Role of language in the life of nations as a tool of communication, as a symbol of identity, and as a means of power. Scripts and orthographies,
language planning, culture and language glossepolitics. Prerequisite: Three years of high school foreign language study or fulfillment of the foreign
language requirement of Liberal Arts and Sciences.
This course satisfies the General Education Criteria for:
   Humanities - Hist Phil

Information listed in this catalog is current as of 01/2022
LING 250 American Voices: Linguistic Diversity in the US  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/250/)
The United States has a vast and varied linguistic landscape that has been shaped by a unique medley of peoples and cultural practices. From the colonization of North America to contemporary politics and popular culture, language has helped to connect us in many ways, and has also served as a tool for making and maintaining difference. This course explores issues of standardization, language maintenance, linguistic discrimination, identity formation, and many others to consider the ways "diversity" is not only a multiplicity of different histories, beliefs, and practices, but can also become a means of interpersonal prejudice and structural inequity.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci
Cultural Studies - US Minority

LING 270 Language, Technology & Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/270/)
What technologies have humans developed to augment the quintessential human ability: language? We start with the development of writing, the first technology that was specifically designed for language, and trace its history through the invention of printing, and into the digital age. With the advent of computers the relevance of language for technology has broadened significantly. We review technologies such as automatic speech recognition, speech synthesis and automatic translation, and discuss their implications for present and future human-machine interaction. Prerequisite: LING 100 or consent of instructor.
This course satisfies the General Education Criteria for:
Social Beh Sci - Beh Sci
Cultural Studies - Western

LING 290 Individual Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/290/)
Individual readings and research reports on special topics dealing with the theoretical or applied aspects of the linguistic sciences. May be repeated to a maximum of 8 hours. Prerequisite: Written consent of instructor.

LING 291 Linguistics Laboratory Research Experience  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/291/)
Supervised participation in laboratory or other research, usually as an assistant to a senior researcher. May be repeated up to a maximum of 9 hours. Prerequisite: Consent of instructor.

LING 300 Anat & Physiol Spch Mechanism  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/300/)
Same as SHS 300. See SHS 300.

LING 301 Elements of Syntax  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/301/)
Introduction to concepts and techniques essential for syntactic analysis and description, with special attention to testing analyses and justifying them. Prerequisite: LING 100 or consent of instructor.
This course satisfies the General Education Criteria for:
Advanced Composition

LING 302 Elements of Phonology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/302/)
Introduces elements of phonological theory and data analysis. Emphasis is placed on both Structuralist and Generative theories, introducing students to the principles of phonological contrast, allophony, neutralization, and markedness. Formal phonological models are considered, including both distinctive feature theory and prosodic theory. Equal emphasis is placed on linguistic data analysis. Prerequisite: LING 100 or consent of instructor.

LING 303 General Speech Science  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/303/)
Same as SHS 301. See SHS 301.

LING 304 Elements of Morphology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/304/)
An introduction to the concepts and methods of morphology, the linguistic study of word formation. We examine the smallest units of word structure--how they are arranged and organized, and how they interact with sentence structures (syntax) and sound patterns (phonology). Students will consider data from many different languages, and investigate how those languages are similar and different in terms of how they form their words. Prerequisite: LING 100.

LING 307 Elements Semantics & Pragmatics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/307/)
Introduction to the theory of meaning for natural language, including techniques for the description of lexical meaning, compositional determination of phrase and sentence meaning, and pragmatic effects on interpretation in context. Same as PHIL 307. Prerequisite: LING 100 or consent of instructor.

LING 321 American Sign Language III  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/321/)
Same as SHS 321. See SHS 321.

LING 357 Intro to Conversation Analysis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/357/)
Analysis of everyday conversation and talk in institutional settings, including basic organizational features of talk such as turn-taking, sequences of actions, openings and closings, and repair; ways that participants use talk to perform social actions such as complimenting, inviting, arguing, blaming, and apologizing; and ways that talk is used in professional settings such as 911 emergency calls, courtroom interactions, and doctor-patient interviews to perform the work of these social institutions. Same as CMN 357.

LING 391 Honors Individual Study  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/391/)
Study and research for honors thesis; open only to seniors in the linguistics major who are eligible for departmental distinction. May be repeated to a maximum of 8 hours. Prerequisite: Written consent of instructor and linguistics course average of 3.4.

Information listed in this catalog is current as of 01/2022
LING 400  Intro to Linguistic Structure  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/400/)
Introduction to the theory and methodology of the science of linguistics with special reference to phonology, morphology, syntax and semantics. Not intended for undergraduate majors in linguistics. 3 undergraduate hours. 4 graduate hours.

LING 401  Intro to General Phonetics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/401/)
Introduction to the main branches of general phonetics and phonological theory; emphasis on analysis of non-Western languages and research techniques. 3 undergraduate hours. 4 graduate hours.

LING 402  Tools & Tech Spch & Lang Proc  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/402/)
Introduction to aspects of the tools and methods of studies in speech and natural language processing (NLP), with a focus on programming for NLP and speech applications, statistical methods for data analysis, and tools for displaying and manipulating speech data. 3 undergraduate hours. 4 graduate hours.

LING 403  Introduction to Field Methods  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/403/)
Hands-on (learn-by-doing) practical course in elicitation of linguistic data, and theoretical analysis of that data, from an unfamiliar language. Students will elicit, record, and transcribe data collected in group interviews. The class as a whole will work on a language archive: (i) recordings collected throughout the semester and their transcriptions, (ii) a dictionary with vocabulary translated into English, (iii) the final projects. This course provides advanced undergraduate students with the opportunity to integrate their previous training with this practical experience. Class focus will depend on the experience students have with phonology, phonetics, morphology, syntax, and semantics. 3 undergraduate hours. 4 graduate hours. May be repeated in separate semesters for up to 6 undergraduate hours or 8 graduate hours, if topics vary or if a new language is in the focus of investigation. Prerequisite: LING 301 and LING 302 or LING 401.

LING 404  Tutorials in Non-Western Lang  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/LING/404/)
Advanced or intensive language instruction in a selected non-Western language; excludes instruction in East or Southeast Asian languages. 1 to 5 undergraduate hours. 2 to 4 graduate hours. May be repeated with approval. Prerequisite: Consent of instructor.

LING 406  Introduction to Computational Linguistics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/406/)
Introduces the field of natural language processing and computational linguistics. Topics include finite-state methods, parsing, probabilistic methods, machine learning in NLP, computational semantics and applications of NLP technology. The course combines linguistic theory with computational modeling. 3 undergraduate hours. 4 graduate hours. Prerequisite: LING 100 or LING 400, and CS 225 or equivalent, and STAT 200 or STAT 212 or STAT 400 or CS 361 or equivalent.

LING 407  Logic and Linguistic Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/407/)
Introduction to the theory of logic as applied in linguistic analysis. Same as PHIL 407. 3 undergraduate hours. 4 graduate hours. Prerequisite: For undergraduate students: LING 307 or equivalent background with consent of instructor.

LING 410  Historical Linguistics  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/410/)
Introduction to historical and comparative linguistics with particular attention to theoretical issues. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: LING 401 (or concurrent registration), and either LING 301 and LING 302, or LING 400.

LING 412  Lang in African Culture & Soc  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/412/)
Introductory survey of the role of language in African cultures and societies, with particular emphasis on the study of indigenous African languages in multilingual settings, their spread, and use as media of communication in various domains, and as tools of development. Same as AFST 412. 3 undergraduate hours. 4 graduate hours.

LING 413  Corpus Linguistics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/413/)
An introduction to computational research methods applied to large natural language corpora (i.e. text analytics) which can uncover complexities in naturally occurring data and explore issues related to frequency of usage. Students will be introduced to corpus concepts, methods, and examples; computational skills needed to build, annotate, and search a corpus for patterns and phenomena of interest; and get hands-on corpus analysis experience. Topics may include syntax (i.e., patterns and alternations), lexical semantics, language variation, pragmatics / language use, discourse analysis, psycholinguistics, as well as descriptive and exploratory text analytics models. 3 or 4 undergraduate hours. 4 graduate hours. Prerequisite: LING 100 or LING 400, and CS 225 or equivalent, and STAT 200 or STAT 212 or STAT 400 or CS 361 or equivalent.

LING 415  Machine Translation: History and Applications  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/415/)
Same as TRST 415. See TRST 415.

LING 416  Structure of French Language  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/416/)
Same as FR 416. See FR 416.

LING 418  Language & Minorities in Europe  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/418/)
Same as EURO 418, FR 418, GER 418, ITAL 418, PS 418, SLAV 418, and SPAN 418. See FR 418.

LING 423  Language Acquisition  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/423/)
Same as MACS 423 and PSYC 423. See PSYC 423.

LING 425  Intro to Psycholinguistics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/425/)
Introductory survey of psychological and linguistic approaches to the study of communication. Same as MACS 425. 3 undergraduate hours. 4 graduate hours. Credit is not given for both LING 425 and PSYC 425. Prerequisite: An introductory course in linguistics or psychology.
LING 426  Child & Adult Lang Acquisition  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/426/)
The study of first and second language acquisition by children and adults. Course topics will include the following: first language acquisition, including signed and spoken languages; bilingualism and second language acquisition; the comparison of monolingual and bilingual language development. 3 undergraduate hours. 4 graduate hours. Prerequisite: An introductory course in linguistics or psychology.

LING 427  Language and the Brain  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/427/)
Same as ANTH 512. See ANTH 512.

LING 430  Intro to East Asian Ling  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/430/)
Introduction to the genetic relation of the Far Eastern languages with other languages; concentration on synchronic analysis of phonology and syntax. Same as EALC 430. 3 undergraduate hours. 4 graduate hours. Prerequisite: LING 400; consent of instructor.

LING 438  Philosophy of Language  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/438/)
Same as PHIL 438. See PHIL 438.

LING 446  Fundamentals for Speech Signal Processing and Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/446/)
Provides an elementary introduction to concepts, principles and algorithms of digital signal processing. It focuses on computational implementations of contemporary methodologies in digital signal processing rather than underlying mathematical theories, and therefore requires students to have basic Python or MATLAB programming skills as prerequisite. This course comprises lectures and laboratory sessions, during which students are expected to produce their own computer code aided by ready-made programs to solve practical problems. 3 undergraduate hours. 4 graduate hours. Prerequisite: LING 402 or equivalent.

LING 450  Sociolinguistics I  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/450/)
Introduction to the fundamental concepts, philosophy, and research methods of the study of language in its social contexts. Special attention to language spread, and language variation; language attitudes; language diversity; code-switching; language standardization; and language identity and loyalty. 3 undergraduate hours. 4 graduate hours.

LING 462  Introduction to Romance Linguistics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/462/)
Same as FR 462, ITAL 435, PORT 435, RMLG 435, and SPAN 435. See SPAN 435.

LING 469  Structure of Semitic Languages  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/469/)
An in-depth survey of comparative issues in Semitic Linguistics, with particular emphasis on morphology, syntax, phonology and language change from the perspectives of current linguistic theories. Same as AFST 469. 3 undergraduate hours. 4 graduate hours. Prerequisite: LING 100, LING 400, or consent of instructor.

LING 480  Intro to Slavic Linguistics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/480/)
Same as SLAV 480. See SLAV 480.

LING 489  Theoretical Foundations of SLA  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/489/)
General introduction to second language acquisition (SLA) theory. Examines nativist, interactionist and cognitive approaches to SLA and explores the role of learner characteristics. Same as FR 481, GER 489, ITAL 489, PORT 489, and SPAN 489. 3 undergraduate hours. 4 graduate hours. Prerequisite: An introductory course in linguistics or consent of instructor.

LING 490  Special Topics in Linguistics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/490/)
Course provides an opportunity to focus on various subfields of the linguistic sciences, depending on the interests of the faculty and student. 3 undergraduate hours. 4 graduate hours. May be repeated as topic varies to a maximum of 9 undergraduate hours or 12 graduate hours. Students may register for up to two sections in the same term. Prerequisite: LING 100, LING 400, or consent of instructor.

LING 501  Syntax I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/501/)
Introduction to the fundamental concepts, philosophy, and methods of syntactic theory. Prerequisite: LING 400 or equivalent.

LING 502  Phonology I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/502/)
Examination of language-specific phonological problems with a view toward formulating a language-independent theory of phonology. Prerequisite: LING 401 or consent of instructor.

LING 504  Practicum  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LING/504/)
Supervised practical experience in extended linguistic research on individual topics of the student’s choice. Concurrent enrollment in at least 2 hours of LING 590 is required. May be repeated to a maximum of 4 hours. Prerequisite: LING 501 and LING 502.

LING 506  Topics in Computational Ling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/506/)
Provides an introduction to practical problems in computational linguistics in a laboratory setting. At the beginning of the semester, a substantial project will be assigned to the class, and the class will work as a team towards implementing a solution, and evaluating the final product against a test corpus, which will also be developed during the class. Topical readings will also be assigned and will be discussed. Approved for letter or S/U grading. May be repeated in more than one section per term to a maximum of 8 hours, if topics vary; may be repeated in subsequent terms to a maximum of 12 hours, if topics vary. Prerequisite: LING 406, and an introductory level Computer Science programming course, or consent of instructor.

LING 507  Formal Semantics I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/507/)
Introduction to formal semantic theory for natural language, with attention to quantification, anaphora, tense, intensionality, and related topics. Same as PHIL 507. Prerequisite: LING 407 or consent of the instructor.

LING 512  Language and Culture  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/512/)
Same as ANTH 512. See ANTH 512.
LING 514  Design and Methodology in Linguistic Research  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/514/)
Introduction to a quantitatively oriented approach to research design and methodology in language study, with emphasis on the construction of appropriate research designs for different subfields of linguistics (with a particular focus on designs for research in syntax/semantics and language acquisition / bilingualism). A variety of research methods are covered in detail, including both offline and online methodologies. Term paper required. 4 graduate hours. No professional credit. Prerequisite: LING 400 or equivalent; LING 425, or EIL 489 or consent of instructor.

LING 516  Field Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/516/)
Analysis of the phonetic, phonological, morphological, and syntactic structure of an undescribed language through the elicitation of data from a native language consultant. The class develops a linguistic sketch of the language, including a computerized lexicon. Prerequisite: LING 501 and LING 502.

LING 518  Language in Culture II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/518/)
Same as ANTH 518. See ANTH 518.

LING 520  Acoustic Phonetics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/520/)
Explores advanced issues in acoustic theory and digital signal processing in the context of linguistic phonetics and phonological research. Emphasis is placed on the spectral properties of speech sounds and their instrumental documentation. A significant portion of the course will utilize the phonetics laboratory. Prerequisite: LING 401 and LING 502.

LING 522  Articulatory Phonetics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/522/)
Explores advanced issues in sound production in the context of linguistic phonetics and phonological research. Three main areas of focus include an overview of vocal tract physiology and anatomy, laboratory/instrumental methodology, and linguistic patterns such as assimilations and coarticulations. Prerequisite: LING 401 or equivalent.

LING 524  Dev Psycholinguistics  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/524/)
Same as MDIA 524 and PSYC 524. See PSYC 524.

LING 525  Psycholinguistics  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/525/)
Same as MDIA 525 and PSYC 525. See PSYC 525.

LING 529  Second Lang Acq & Bilingualism  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/529/)
Research seminar: students will design and execute a research project on second language acquisition and/or bilingualism. Same as PSYC 529. Prerequisite: Consent of instructor.

LING 541  Syntax II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/541/)
Issues in the theory and practice of syntactic description, with special attention to implications for universal grammar. Prerequisite: LING 501 or consent of instructor.

LING 542  Phonology II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/542/)
Continuation of LING 502. Prerequisite: LING 502.

LING 547  Formal Semantics II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/547/)
A continuation of LING 507 covering advanced topics in formal semantic theory. Same as PHIL 547. Prerequisite: LING 507 or consent of instructor.

LING 550  Sociolinguistics II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/550/)
Focus on a critical examination of issues in the theory and practice of sociolinguistics concerning the study of language variation from a cross-linguistic perspective, language diversity, multilingualism, language ideology and power. Prerequisite: LING 450 or equivalent.

LING 551  Pragmatics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/551/)
Examination of the major theoretical frameworks in Greco and post-Greco pragmatics with an emphasis on theories of implicature, speech acts and impoliteness. Same as PHIL 551. Prerequisite: LING 501 and LING 507, or consent of instructor.

LING 559  Sem Romance Ling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/559/)
Same as FR 559, ITAL 559, PORT 559, RMLG 559, and SPAN 557. See SPAN 557.

LING 560  Seminar in Bilingualism  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/560/)
Research-oriented seminar on theoretical and applied aspects of bilingualism; critical evaluation of linguistic, neurolinguistic, sociolinguistic, and psycholinguistic approaches to bilingualism; and concentration on selected case studies from Western and non-Western societies, especially Asia and Africa. May be repeated if topics vary. Prerequisite: LING 450 or an introductory course in linguistics.

LING 570  Seminar in Cognitive Science  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/570/)
Same as PSYC 514, ANTH 514, CS 549, EPSY 551, and PHIL 514. See PSYC 514.

LING 575  Exper Phon I Spch Physiol  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/575/)
Same as SHS 500. See SHS 500.

LING 576  Exper Phon II Spch Acous Perc  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/576/)
Same as SHS 501. See SHS 501.

LING 582  Topics in Phonological Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/582/)
Recent developments in the theory of phonology. May be repeated if topics vary. Prerequisite: LING 542 or consent of instructor.

LING 584  Theories in Second Language Acquisition  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/584/)
Same as CI 584, EALC 584, EPSY 563, FR 584, GER 584, ITAL 584, PORT 584, and SPAN 584. See SPAN 584.
LING 587  Topics in Sociolinguistics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/587/)
Discussion of current topics in sociolinguistics that have relevance to contemporary societies. Approved for both letter and S/U grading. May be repeated in more than one section per term to a maximum of 8 hours. May be repeated in subsequent terms to a maximum of 12 hours. Prerequisite: LING 450.

LING 588  Sem Second Lang Learn  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/588/)
Same as EALC 588, FR 588, GER 588, ITAL 588, PORT 588, and SPAN 588. See SPAN 588.

LING 590  Special Topics in Linguistics  credit: 2 to 8 Hours. (https://courses.illinois.edu/schedule/terms/LING/590/)
Individual studies in the areas of linguistics not covered by regular course offerings. May be repeated.

LING 591  Seminar in Linguistic Analysis  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/591/)
Discussion of advanced topics of current interest. May be repeated with approval. Prerequisite: LING 501 and LING 502.

LING 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/LING/599/)
Approved for S/U grading only. May be repeated.
LLS - Latina/Latino Studies

LLS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/LLS/)

Courses

LLS 100  Intro Latina/Latino Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/100/)
Interdisciplinary introduction to the basis for a Latina/Latino ethnicity in the United States. Topics include immigration and acculturation experiences and their commonalities and differences, comparison of Latina/Latino experiences to those of other racial, ethnic and immigrant groups, and the potential for a pan-ethnic identity.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci
Cultural Studies - US Minority

LLS 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/LLS/199/)
May be repeated.

LLS 200  U.S. Race and Empire  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/200/)
Same as AAS 200. See AAS 200.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

LLS 201  U.S. Racial & Ethnic Politics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/201/)
Same as AAS 201, AFRO 201, and PS 201. See PS 201.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci
Cultural Studies - US Minority

LLS 215  US Citizenship Comparatively  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/215/)
Same as AAS 215, AFRO 215, AIS 295, and GWS 215. See AAS 215.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

LLS 220  Latina/o Migration  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/220/)
General overview of international migration to the United States, using Latin American migration to the U.S. as the focal point. Topics discussed include the history of international migration to the United States, the relationship between history and the contemporary context, the development of U.S. immigration policy, the incorporation of Latino immigrants in U.S. society, and immigrant and community responses to migration. Same as SOC 221.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci
Cultural Studies - US Minority

LLS 230  Latina/o Genders & Sexualities  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/230/)
Survey of major theories and debates surrounding the gendered and sexualized dimensions of the Latina/o experience in the United States. The course is comprised of three major units: Gender, Sexuality, and Sex. In these units, students will read about and discuss issues pertaining to femininity/marianismo, masculinity/machismo, family/familism, desire, sexual behavior, sex work, sexual and gendered violence, and gendered and sexualized representations in pop culture. Same as GWS 230.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

LLS 235  Race and the Politics of Reproduction  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/235/)
Interdisciplinary exploration of the racial politics of reproduction in the United States with an emphasis on how ideologies of race, class, and citizenship shape meanings and experiences of reproduction, pregnancy, and motherhood. Topics include contraception, sterilization abuse, and abortion. Students will also learn how women of color have both been affected by the racial politics of reproduction and how they have advanced the movement for reproductive rights and justice in the United States. Same as GWS 235.

LLS 238  Latina/o Social Movements  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/238/)
Focuses on the history and theory of Latina/o social movements. Topics include immigrant mobilizations, transnational organizing, agrarian and farm worker movements, political representation, feminisms and reproductive rights, environmental justice, labor and educational struggles, and urban social movements. Same as HIST 292.

LLS 240  Latina/o Popular Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/240/)
Provides an introduction to Latina/o popular culture in the United States. Specific modes of popular culture might include mass media, music, film, video, performance, and other expressive forms. Lecture and readings are in English. Same as ENGL 224 and SPAN 240.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

Information listed in this catalog is current as of 01/2022
LLS 242  Intro to Latina/o Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/242/)
Survey of literature by and about people of Mexican, Puerto Rican, Cuban, and other Latina/o descent in the United States. Taught in English. Same as ENGL 225 and SPAN 242.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - US Minority

LLS 246  Gender & Sexuality in Latina/o Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/246/)
Same as SPAN 246. See SPAN 246.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - US Minority

LLS 248  Latin American Diaspora through Film: Beyond Braceros, Narcos, and Latin Lovers  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/248/)
Same as SPAN 248. See SPAN 248.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - US Minority

LLS 250  Latina/os on the Bronze Screen  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/250/)
Critical, historical, and theoretical exploration of Latina/o representations in U.S. film from the 1900s to the present. Examination of cinematic representations as well as the social, political, and cultural context in which those representations are produced. The focus is on Mexican American and Puerto Rican images, but Hollywood’s treatment of other Latina/o communities and ethnic groups will be discussed. Students will be required to attend weekly movie screenings. Same as MACS 250.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - US Minority

LLS 258  Muslims in America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/258/)
Same as AAS 258 and REL 258. See AAS 258.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci
Cultural Studies - US Minority

LLS 259  Latina/o Anthropology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/259/)
Same as ANTH 259. See ANTH 259.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci
Cultural Studies - US Minority

LLS 260  Graffiti and Murals  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/260/)
Same as ARTH 260. See ARTH 260.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

LLS 265  Politics of Hip Hop  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/265/)
Examines hip hop as politics, culture, and commodity. Emphasis given to hip hop's relation to urban spaces deeply impacted by state surveillance, cuts in social welfare programs, immigration, and the global restructuring of capital. Also considers the viability of a "politics of hip hop" in the wake of the music’s rising value as a global commodity and analyzes hip hop as a transnational site in which gendered and sexual identities are created, contested, and rearticulated. Same as AAS 265.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

LLS 278  Mapping Latina/o Inequalities  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/278/)
Explores contemporary structural forces that contribute to the concentration of Latinas/os in segregated neighborhoods, and the detrimental effects of housing inequality on Latina/o communities. Focuses on the influence of geographic context in creation and maintenance of racial inequalities as they affect urban, suburban, and small town locals. Further examines the role of space and place in the development and persistence of community identities. Same as SOC 278.
LLS 279  Mexican-American History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/279/)
Examination of the history of Mexican Americans living within the United States from the Spanish Conquest to the twentieth century. Explores the
process of migration, settlement, assimilation, and discrimination with emphasis on continuity and change in Mexican cultural development. Same as
HIST 279.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

LLS 280  Caribbean Latina/o Migration  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/280/)
Same as HIST 280. See HIST 280.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

LLS 281  Constructing Race in America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/281/)
Same as AAS 281, AFRO 281, and HIST 281. See HIST 281.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

LLS 282  Feminist and Queer Activisms  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/282/)
Same as AAS 282 and GWS 282. See GWS 282.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

LLS 296  Topics Latina/o Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/296/)
Course examines specific topics in Latina/Latino Studies not addressed in regularly offered courses. Examples include theories of ethnic identity,
historical foundations, cultural expression, and relevant topics in public policy studies of Latina/Latino communities. May be repeated in same or
separate terms to a maximum of 6 hours.

LLS 301  19thC US Latina/o Lit-ACP  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/301/)
Focuses on the fiction (historical novels and poetry) as well as the critical essays of the 1848 Mexican-American War and the 1898 Spanish-American
War, the two key 19th century events that determined the status of the people of the Caribbean and Mexican descent in the United States. Prerequisite:
Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Hist Phil

LLS 305  Theories of Race, Gender, and Sexuality  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/305/)
Same as AAS 300 and GWS 305. See AAS 300.
This course satisfies the General Education Criteria for:
Advanced Composition

LLS 308  Spanish in the United States  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/308/)
Same as SPAN 308. See SPAN 308.

LLS 310  Race and Cultural Diversity  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/310/)
Same as AAS 310, AFRO 310, EPOL 310, and EPS 310. See EPOL 310.
This course satisfies the General Education Criteria for:
Advanced Composition

LLS 316  Latina/Latino Politics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/316/)
Same as PS 316. See PS 316.

LLS 320  Gender & Latina/o Migration  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/320/)
Study of the gendered social process of international immigration, focusing on Latin American migration to the United States. Established theories
of migration, the history of international immigration to the U.S., and historical and contemporary Mexico, Caribbean and Central American migration
flows will be discussed in great detail. Primary focus on how gender shapes the migration experiences of immigrants and the gendered impact of
migration on the economic, political, and social status of individuals. Same as SOC 321 and GWS 320. Prerequisite: LLS 100 or SOC 100.

LLS 322  US Latina and Latino Families  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/322/)
Same as HDFS 322. See HDFS 322.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

Information listed in this catalog is current as of 01/2022
LLS 343 Criminalization and Punishment  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/343/)
Examines how populations are criminalized due to race/ethnicity, gender, sexuality, class, and immigration status. Readings analyze how laws are created and normalized. In order to effectively engage in critical inquiry, students will be asked to suspend moral judgments so that they can analytically approach the study of crime, criminals, and criminal activity. Same as AAS 343, AFRO 343, AIS 343, and GWS 343.

LLS 355 Race and Mixed Race  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/355/)
Explores the history of racial classification in the U.S. with special attention to the census and the role of the state more generally in defining race. Emphasis on how race-mixing has been understood in American culture, and on the current literature on "multiracials" and the future of "race" in the U.S. Readings are drawn from interdisciplinary sources, but examined from a sociological perspective. Same as AAS 355 and SOC 355. Prerequisite: Any lower division LLS or SOC or AAS course.

LLS 357 Literatures of the Displaced  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/357/)
Examines Latina/o, Asian-American, African-American, and Indigenous stories of displacement, (im)migration, and settlement. We will analyze the negotiated and contested narratives about race, gender, and sexuality that the texts evidence in order to form interpretive arguments that address the ways in which the texts unsettle ideas about the nation, nation building, and national belonging. Same as AAS 357, AIS 357, ENGL 357, and GWS 357.

LLS 360 Contemporary US Latina/o Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/360/)
Focuses on the major U.S. Latina/Latino writers and texts and their depictions of the events that have shaped 20th-and 21st-Century U.S. Latina/ Latino cultures.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

Cultural Studies - US Minority

LLS 365 Chicana/Latina Autobiography, Memoir, Testimonio  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/365/)
Focuses on how Chicanas/Latinas describe their own experiences and how they both understand and negotiate their sense of self, and centers on the new crop of memoir and autobiography, as represented in the most recent texts by well-established Chicana writers, such as Sandra Cisneros, Gloria Anzaldúa and Ana Castillo. We will also discuss the professionalization of the field of Latina/Latino Studies in the work of Tey Diana Rebolledo. Additionally, students will study the writing of self with a focus on gender, sexuality, and genre.

LLS 368 Latinas/os & Public Policy  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/368/)
Examines the effectiveness of current U.S. public policies in addressing the social, economic, and political problems affecting Latina/o individuals and communities. Specifically, it evaluates current policy in the areas of public assistance, fair housing, criminal justice, immigration enforcement, and reproductive health. Although this interdisciplinary course primarily focuses on national policies and programs, it also addresses, as necessary, the particulars of public policy in the state of Illinois.

LLS 370 Latina/o Ethnography  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/370/)
Addresses the theoretical, methodological, and ultimately political implications and questions generated by a range of ethnographic materials on Latina/os. Specifically explores culture and power (e.g., racism, sexism, and activism) through ethnographic methods and modes of representation, including literature. Fundamental to the course is the requirement that students engage in ethnographic practice, producing ethnographic research on Latina/os at the University of Illinois. Same as ANTH 370. Prerequisite: Any lower division course in LLS or ANTH.

LLS 372 Immigration, Law, and Rights  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/372/)
Same as AAS 370. See AAS 370.
This course satisfies the General Education Criteria for:
Advanced Composition

LLS 375 Latina/o Media in the US  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/375/)
Same as MACS 375. See MACS 375.

LLS 377 Prisons, Race, and Terror  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/377/)
Same as AAS 375. See AAS 375.

LLS 379 Latina/os and the City  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/379/)
Examination of the migration and settlement of Latina/o populations (Mexicans, Puerto Ricans, Cubans, Dominicans, and Central and South Americans) in U.S. cities. Focus on the historic, economic, social and political factors that influenced these migrations and the choices migrants made to come to the United States and to urban areas in particular. Study of the regional variation among Latina/o groups, and coalition building and collaborative ventures between Latina/os and other communities of color in urban areas. Same as HIST 379.

LLS 382 Race and Migration in Chicago  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/382/)
As the "Second City" located in the heartland of America, Chicago is central to many debates on urban space, race, and nation. Specifically, it is an influential site in which Latina/os, African-Americans, Asian-Americans, and ethnic whites have come to understand meanings of race in a highly segregated setting. This course takes an interdisciplinary approach to the study of racial and ethnic groups in this city, examining issues of migration, gender, segregation, labor, and education from the late nineteenth century to the present. Same as HIST 382. Prerequisite: One course in either LLS or HIST.
LLS 385  Theory and Methods in LLS  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/385/)
Introduction to the interdisciplinary theories and methods of Latina/Latino Studies. Traditional approaches to the study of ethnicity and race will be
interrogated through critical scholarship produced by Latina/Latino Studies scholars across a variety of approaches (anthropology, communications,
literature, history, sociology, among others). By learning about a variety of methodological approaches, students will become proficient in conducting
ethnic studies research projects about U.S. Latina/o populations. Prerequisite: LLS 100.
This course satisfies the General Education Criteria for:
Advanced Composition

LLS 387  Race, Gender and the Body  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/387/)
Focuses generally on the relation between power and the body. In western culture, the body is typically thought of as a natural, biological entity.
However, as a number of social theorists have pointed out, the body can never be reduced to mere biology. It is also always a product of culture and
therefore necessarily implicated in relations of dominance and subordination. Using this framework, the class is specifically concerned with how
raced, gendered, and sexed bodies have been imagined in US culture (as abnormal, diseased, criminal, etc.) and with how such bodies have been
rendered objects of surveillance, discipline, and regulation. Same as SOC 387. Prerequisite: LLS 100.

LLS 390  Independent Study  credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/390/)
Special topics not treated in regularly scheduled courses; designed especially for advanced Undergraduates. Approved for letter and S/U grading. May
be repeated in the same or subsequent terms as topics vary to a maximum of 6 hours. Prerequisite: One course in Latina/Latino Studies and consent
of instructor.

LLS 391  Oral History Methods  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/391/)
Same as HIST 391. See HIST 391.

LLS 392  Chicanas&Latinas: Self&Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/392/)
Explores the experiences of Chicanas and Latinas through the lens of contemporary sociological research. Topics to be discussed include: community
formation and activism, Chicana/Latina feminisms, sexuality, religion, health, family, immigration, education, work, media, and artistic expression.
Readings emphasize the link between the structural inequalities of society, and the day-to-day lived experiences of Chicanas/Latinas. Same as
GWS 392 and SOC 392. Prerequisite: Any 100, 200, or 300-level LLS, GWS, or SOC course.
This course satisfies the General Education Criteria for:
Advanced Composition

LLS 396  Adv Topics Latina/o Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/396/)
Examines specific topics in Latina/Latino Studies not addressed in regularly offered courses. Examples include theories of ethnic identity, historical
foundations, cultural expression, and relevant topics in public policy studies of Latina/Latino communities. May be repeated in the same or separate
terms to a maximum of 6 hours.

LLS 410  Writing Latina/o Chicago  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/410/)
Examination of novels, poetry, film and memoirs by Latinas and Latinos writing from and/or about Chicago. Through these texts, the course will
simultaneously track a Chicago-based Latina/o literary history and analyze articulations of Latina/o everyday life and politics grounded in the city's
distinct topographical and social contexts. Issues of migration,entrancement, segregation, youth culture, gender, sexuality, race, violence, poverty,
class consciousness, and struggles for social justice will figure prominently in lectures and class discussions. 3 undergraduate hours. 4 graduate
hours. Prerequisite: LLS 100.

LLS 412  Hispanics in the U.S.  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/412/)
Same as SOCW 412. See SOCW 412.

LLS 433  Foundations of Bilingual Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/433/)
Same as CI 433. See CI 433.

LLS 435  Commodified Difference  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/435/)
An interdisciplinary examination of how racial, ethnic and gender difference is negotiated through media and popular culture, and how racial, ethnic
and gendered communities use cultural forms to express identity and difference. Among the theoretical questions explored are the politics of
representation, ethnic/racial authenticity, cultural commodification and transnational popular culture. Some of the cultural forms examined are
cultural festivals/parades, ethnic/race-based beauty pageants, cinematic and televusal texts and musical forms, such as Hip-Hop and Salsa. Same as
AAS 435, AFRO 435, GWS 435, and MACS 432. 3 undergraduate hours. 4 graduate hours. Prerequisite: Any combination of 6 hours from Latina/o
Studies, Asian American Studies, Afro-American Studies, Gender and Women Studies or Media and Cinema Studies; graduate standing, or consent of
instructor.

LLS 442  Latina Literature  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/442/)
Examines literary productions by and about women of Mexican, Puerto Rican, Cuban, and other Latina/o descent in the United States. Taught in
English. Same as GWS 445 and SPAN 442. 3 undergraduate hours. 4 graduate hours. Prerequisite: At least one previous course in U.S. Latina/Latino
Studies or Gender and Women's Studies, or consent of instructor.

LLS 449  Issues in Latina/o Education  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/449/)
Same as CI 449. See CI 449.
LLS 458 Latina/o Performance  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/458/)
Focuses on Latina/o performances to underscore the relationship between practices of everyday life and acts on stage. Pays particular attention to the material (human) body and bodies of work. Students will critically engage with performance theory and scripts, media works of performances, and theorizations of Latinidad and the body. Same as ENGL 458. 3 undergraduate hours. 4 graduate hours.

LLS 460 Critical Ethnic Studies  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/460/)
Same as AAS 400. See AAS 400.

LLS 465 Race, Sex, and Deviance  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/465/)
Explores how racial stereotypes rely on sexual stereotypes by examining the intersections of ethnic studies, gender and women's studies, and queer studies. Interdisciplinary course that draws from crital legal studies, sociology, anthropology, literary criticism, and history. Same as AAS 465, AFRO 465, and GWS 465. 3 undergraduate hours. 4 graduate hours. Prerequisite: Any lower division course in LLS, AAS, AFRO, or GWS.

LLS 468 Latinas/os & the Law  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/468/)
Examines the Latina/Latino experience in the U.S. how and when the law, through the courts, has most often operated as an instrument of subordination and oppression, but has also at times been leveraged for positive social transformation. Students will come to understand that the law is a deeply contested social space that is central to U.S. social hierarchies based upon race, ethnicity, sexuality, gender, class, immigration status, and religion. 3 undergraduate hours. 4 graduate hours.

LLS 472 Border Latina, Latino Cultures  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/472/)
Same as ANTH 472. See ANTH 472.

LLS 473 Immigration, Health & Society  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/473/)
This interdisciplinary seminar examines the social determinants of US racial and ethnic health inequalities through the lens of (im)migration. Topics to be addressed include: conceptualizations of race and ethnicity, immigrant-adaptation theories, discrimination, place, and the intersections of race, ethnicity, poverty, immigration, gender and health. Same as CHLH 473, SOC 473, and SOCW 473. 3 undergraduate hours. 4 graduate hours.

LLS 475 History of the American West  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/475/)
Same as HIST 476. See HIST 476.

LLS 479 Race, Medicine, and Society  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/479/)
The idea of race has historically been central to how Western cultures conceptualize and think about human difference. This course examines the historical significance of race through one domain of knowledge: medicine. Specifically, it will be concerned with "race" as a central category in the medical construction and management of individuals and populations. Case studies might focus on colonial medicine, race and public health, sexuality and reproduction, global health disparities, and genetics and genomics. Same as AAS 479 and ANTH 479. 3 undergraduate hours. 4 graduate hours. Prerequisite: LLS 100 or consent of instructor.

LLS 490 Research and Writing Seminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/490/)
This capstone seminar, designed for advanced majors in LLS, will guide students through the process of writing a senior research paper relevant to the field of Latina/Latino Studies. Students will develop research skills through discussions, writing exercises, and workshops. 4 undergraduate hours. No graduate credit. Prerequisite: LLS 385; senior standing; and enrollment as a major in Latina/Latino Studies.

LLS 495 Senior Honors Thesis  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/495/)
Research project leading to a thesis. 2 or 4 undergraduate hours. No graduate credit. May be repeated in separate terms to a maximum of 4 undergraduate hours. May be taken by honors students in partial fulfillment of department honors requirement. Prerequisite: Senior standing; enrollment as a major in Latina/Latino Studies; a cumulative grade point average of at least 3.25, a minimum 3.5 grade point average in the major; and consent of supervising professor.

LLS 496 Seminar in Latina/o Studies  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/496/)
3 undergraduate hours. 4 graduate hours. May be repeated up to a maximum of 6 undergraduate hours or 12 graduate hours.

LLS 517 Bilingual and English as a Second Language Assessment  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/517/)
Same as CI 517. See CI 517.

LLS 554 Inequalities In A Diverse Society  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/554/)
Same as HDFS 541 and SOCW 554. See SOCW 554.

LLS 561 Race and Cultural Critique  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/561/)
Same as AAS 561, AFRO 531, ANTH 565, and GWS 561. See AAS 561.

LLS 577 Perspectives in LLS  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/577/)
Provides an overview of scholarly work and research in the field of Latina/o Studies. Prerequisite: One undergraduate or graduate course in Latina/ Latino Studies or consent of instructor.

LLS 590 Independent Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/590/)
Independent study on special topics not treated in regularly scheduled courses. Approved for letter and S/U grading. May be repeated to a maximum of 8 hours.

LLS 596 Graduate Seminar in LLS  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/596/)
Examination of specific topics in Latina/Latino Studies. Topics vary. May be repeated in the same or subsequent semesters to a maximum of 12 hours.
MACS - Media and Cinema Studies

MACS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/MACS/)

Courses

MACS 100  Intro to Popular TV & Movies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/100/)
The goal of this course is for students to begin to develop a critical understanding of the role of popular movies and television in their own lives and in U.S. culture. The course Looks at issues of the relationship of media to social violence, gender identities, sexual identities, adolescents, minority cultures, and the role of the U.S. Media globally. It also considers some of the major media genres that characterize U.S. popular television and movies.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

MACS 101  Introduction to the Media  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/101/)
Introduces students to core issues in communication, ranging from the role of language in human history to political questions posed by electronic and digital technologies. Exploring key contemporary problems through timely readings, students learn and write about how the media affect everyday life.
This course satisfies the General Education Criteria for:
Advanced Composition

MACS 104  Introduction to Film  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/104/)
Same as ENGL 104. See ENGL 104.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

MACS 117  Shakespeare on Film  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/117/)
Same as ENGL 117. See ENGL 117.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

MACS 140  Smartphone Cinema  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/140/)
Smartphone Cinema will give students an introduction to the basic components, strategies, methodology, vocabulary and techniques used to create short films and other media in a professional way using their own smartphones. Classwork will include viewing and discussion examples as well as practical instruction in video production from initial script through shooting and editing. Students will learn through practical exercises and will produce their own audiovisual projects. Lab work will consist of theoretical and practical case discussions, through a total of five different filming exercises. Students will work in groups of 2 to 5 people depending on the exercise, and they will complete those five projects outside of class time. In addition, class sessions will include training sessions in the lab, learning smart phone camera operation, and digital editing. Credit is not given for MACS 140 if credit for MACS 199: Smartphone Cinema has already been given.

MACS 150  Introduction to Digital Media Production  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MACS/150/)
An introduction to aesthetic, conceptual, and technical skills needed to create audiovisual media for digital distribution. Students will learn to communicate and creatively express themselves through new and emerging technologies while becoming more critical digital media consumers and producers. No prior media production experience or equipment is necessary to enroll. Additional fees may apply. See Class Schedule.

MACS 166  Contemporary Media Literacy  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/166/)
Develops critical media production skills to assess the importance of new media in contemporary culture. The course emphasizes both social and technical aspects of media. As part of the course, students prepare their own media and evaluate current media literacy projects.

MACS 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/MACS/199/)
May be repeated to a maximum of 12 hours in separate semesters if topics vary.

MACS 202  Social Aspects Info Tech  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/202/)
Same as INFO 202 and IS 202. See IS 202.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

MACS 203  Contemporary Movies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/203/)
Provides a critical context for recent international cinema by exploring several kinds of genres, aesthetics, and technologies. We will discuss transnational trends in cinema relating to the influence of other media such as gaming, social networking, and personal electronics, as well as consider impacts of economic structures of global filmmaking production and exhibition. We will view popular and art movies, and query longstanding categories such as the teen pic, "woman's" film, and documentary.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

MACS 204  Gender in Gaming  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/204/)
Same as ENGL 277 and GWS 204. See GWS 204.

Information listed in this catalog is current as of 01/2022
MACS 205  Introduction to Documentary  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/205/)
This course introduces students to one of the fastest growing areas in media today: the documentary. It's designed for students who want to expand their knowledge and appreciation of documentaries in all their forms. Using weekly in-class screenings, discussion, readings, ad writing, students will examine a wide variety of documentaries, looking at their styles, purposes, and storytelling "voices", as well as learning the language and other fundamentals of documentary. We will also cover some of the basic methods involved in planning and creating a documentary. Please note: this is NOT a hands-on production course. Prerequisite: Sophomore standing or above required.

MACS 207  Indian Cinema in Context  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/207/)
Same as CWL 207. See CWL 207.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

MACS 211  Intro to African-American Film  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/211/)
Examination of the history, theory, and aesthetics of African-American filmmaking from the silent era to the present. Films are analyzed within their sociocultural contexts, with particular attention to how constructions of race, identity, and community interact with class, gender, and sexuality; and the link between film and other forms of Black expressive culture. The impact of African-American film on popular culture, links to the African Diaspora, and relations with other communities of color will also be discussed. Same as AFRO 211.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

MACS 224  Sportmedia Technology & Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/224/)
This course is designed for students who are curious about (a) how new technologies are changing sportsmedia cultures, and (b) the kinds of knowledges and skills needed to effectively engage with this powerful cultural and economic industry. We'll use four primary focal points (ESPN, Sport Fandom, Action-Sports, Data Production / Smart Stadiums) to help us understand today's sportsmedia cultural industry's challenges and possibilities, and the kinds of challenges and possibilities that the sportsmedia cultural industry creates for society. We'll also use our course focal points and related industry websites to concretize the key concepts (drawn from theoretical readings and applied studies in media studies, sociology, sport studies, and technology studies).

MACS 227  Studies in Black Television  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/227/)
Same as AFRO 227. See AFRO 227.

MACS 250  Latina/os on the Bronze Screen  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/250/)
Same as LLS 250. See LLS 250.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - US Minority

MACS 260  Film Production  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MACS/260/)
This course serves as an introduction to the many phases of narrative film production. Students will explore—through technical application—the formal qualities of motion pictures and the ways that film communicates space and time, stories, and experiences. Through lectures and labs, students will learn the technical skills and concepts that will enable them to complete a number of production projects outside of class. They will also gain a fundamental grounding in all of the essential skills of the film production workflow. This course is a prerequisite for all upper-level MACS cinema production courses. Additional fees may apply. See Class Schedule. Prerequisite: MACS 140 OR MACS 150 OR sophomore standing. Sophomore standing required unless credit has been given for MACS 140 or MACS 150.

MACS 261  Survey of World Cinema I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/261/)
This course surveys film from its origins through the 1940s. We consider stylistic, cultural, industrial, and technological perspectives on world cinema in lectures, discussions, and screenings of a diverse selection of classic films. Students gain a foundation in cinematic history and form, preparing them for advanced cinema studies courses.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

MACS 262  Survey of World Cinema II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/262/)
This course surveys world cinema from the 1940s to the present day. We consider the history of film from stylistic, cultural, institutional, and technological perspectives in lectures, discussions, and screenings of a diverse selection of classic films. Students gain a foundation in cinematic history and form, preparing them for advanced cinema studies courses.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

<td>Creative and Information Economies</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>An introduction to the political economy of the media in the U.S. The purpose of the class is to acquaint students with a core understanding of how the media system operates, and with what effects, in a capitalist society. The course examines the role of advertising, public relations, corporate concentration, and government regulation upon journalism, entertainment, culture, and participatory democracy. The class also examines issues such as the Internet, globalization, and public broadcasting.</td>

<td>Innovation Illinois: From Accessible Design to Supercomputing Cultures</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Innovation Illinois introduces the histories of UIUC interdisciplinary innovations that brought together students and researchers in engineering, humanities, sciences and the arts. We will explore how local histories of Illinois innovations help us understand today’s innovation trends and processes, from the growth of new design centers on university campuses to contemporary accessibility design, online education, and electronic music. As part of a final research project, students will be introduced to the basics of video editing and will team produce a short-form video using various primary sources. Same as CS 265 and IS 265.</td>

<td>MACS 282</td>
<td>A World of Death and Blood: The Horror Movie</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>MACS 282 offers a deep dive into the phenomenon of the Horror Movie. Through the semester we will explore the enduring fascination with the act of scaring one’s self in public. Our class’ first section will discuss tendencies within the narrative itself, the frequent stylistic flourishes deployed by its storytellers and the subtexts these experiences inevitably articulate. The next section will visit a few of the many discourses addressed by the Horror Movie while noting some of the reoccurring themes and motifs that emerge and intersect across the films we will screen. Finally, the Semester will close with a consideration of the Horror Spectacle: the tactics these pictures utilize to keep audiences in seats and eyes on the screen. Through the coming weeks we will discuss the social, political and cultural implications of the Horror Movie’s expressions of gender, sexuality, race, religion, science, and philosophy.</td>

<tr>
<td>MACS 301</td>
<td>Cinema Decades</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>MACS 301 surveys the trends and tendencies within the context of cinema of a particular decade, as well as the industry or industries from which it emerged. Rather than move chronologically through the decade, this course will approach the decade through an exploration of the significant movements within the industry and counter-movements that occurred in response. We will look at how significant artists navigated the mainstream studios and distribution companies and will also look at niche-specific independent filmmakers and the movements of the era. This class will allow students the opportunity to challenge preconceived notions of the decade's cinema. It will also encourage students to synthesize their analyses of this decade’s films with information regarding the shifting nature of the film industry.</td>

<tr>
<td>MACS 320</td>
<td>Popular Culture</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>MACS 320 examines the critical literature on mass media entertainment; reviews significant contemporary issues and develops perspectives for understanding popular culture.</td>
<td></td>
</tr>
</tbody>
</table>
MACS 321  Film Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/321/)
Introduces students to key issues of, major theoretical approaches to, and current debates about the cultural function of films. Course addresses
theories of spectatorship, the politics of pleasure, the culture of entertainment, and the cinematic construction of race, class, and gender.
This course satisfies the General Education Criteria for:
Cultural Studies - Western

MACS 322  Politics and the Media  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/322/)
Same as CMN 325 and PS 312. See PS 312.

MACS 323  Studies Film/Media Production  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/323/)
Provides analytical framework for pursuing film/media production. Emphasizes critical analysis of various aspects of production: e.g., scriptwriting,
storyboarding, cinematography, editing, set and costume design, location and studio shooting, sound. Covers theories of representation, narrative,
meaning-making, experimentation, and audience in relation to film/media production practices. Does not, however, teach students how to do film and
media production (e.g., how to work a camera, etc.). Therefore, students must come to the course with experience in film and/or media production (can
be self-taught). Both individual and group projects are encouraged. Students should expect to work as crew for other students in class. Culminates in
a public screening at which students present an analysis of their own project--both the process and the finished product. To apply for course, students
(individually or in groups) must propose an idea or concept for a film/media project they would like to produce during the class. May be repeated
in separate terms to a maximum of 6 hours. May be repeated by students who wish to pursue a longer project in two consecutive semesters (may
include summer). Students may not repeat the course to pursue separate projects. Prerequisite: Consent of instructor.

MACS 326  New Media, Culture & Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/326/)
Digital media is an immensely pervasive and powerful form of communication that despite its rapid growth has yet to reach most of the world's
population. This lecture-based survey course for undergraduates traces the history and formation of personal computing and the Internet, the
development of virtual communities and virtual worlds, evolving forms of digital representation and communication, digital visual cultures, features of
new media industries, and the rise of participatory media. Evaluation and assessment is based on written exams, quizzes, class discussion in section, and
practice-based assignments using new media technologies such as wikis, blogs, games, and digital video. Emphasis is on mastering key concepts of
digital media through theory and history, and on critical discussion of distinctive features of digital media objects. Lectures and discussion sections
are held in computer-equipped classrooms. Same as INFO 326.

MACS 331  Media and Democracy  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/331/)
Studies the philosophical bases of the functions and the responsibilities of mass communications.

MACS 335  Film, TV, and Gender  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/335/)
Same as GWS 335. See GWS 335.

MACS 345  Digital & Gender Cultures  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/345/)
Same as GWS 345, INFO 345, and SOC 345. See GWS 345.

MACS 346  Case Study: Endless Summer  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/346/)
Same as KIN 346 and RST 346. See KIN 346.

MACS 351  Social Aspects of Media  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/351/)
Explores media structures in relation to cultural content and social functions; examines problems of life and society as treated in mass-produced
communications.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

MACS 352  Attitude Theory and Change  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/352/)
Same as PSYC 352. See PSYC 352.

MACS 356  Sex & Gender in Popular Media  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/356/)
Examines the notion that the mass media influence our development as gendered individuals, looking at those who argue for and against this notion.
Considers different forms of feminist theory applied to the study of mass media, the history and scholarly criticisms of the media and their portrayal of
women, and feminist attempts to create alternatives to mainstream media images. Throughout, the course considers representation of minorities in
the dominant media and examines newly created alternative representations. Same as GWS 356.
This course satisfies the General Education Criteria for:
Cultural Studies - Western

MACS 361  Film Theory and Criticism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/361/)
Study of major aesthetic and critical theories about film; study of theory and practice of film criticism.

MACS 364  Topics in Media Business  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/364/)
Addresses the business, industry, and economic implications of the interaction of Internet, television, radio, film, and print outlets through digitization-driven
platform and interactive technologies. Explores historical and emergent business models, ownership and work patterns, and investment
arrangement related to media convergence. Investigates novel forms of individual and collective labor structures and globally distributed modes of
production and consumption. Includes attention to economic and scholarly models seeking to analyze media business structures. Specific topics
vary by semester, but may include Google, Disney, and Hollywood studio system, or activist media organizations. May be repeated for a maximum of 6
hours if topics vary.

Information listed in this catalog is current as of 01/2022
MACS 365  Asian American Media and Film  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/365/](https://courses.illinois.edu/schedule/terms/MACS/365/))
Same as AAS 365. See AAS 365.

MACS 370  Cinematography and Sound Design  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/370/](https://courses.illinois.edu/schedule/terms/MACS/370/))
Teaches students advanced principles of sync-sound moving image production, including cinematography, lighting, sound recording, and production logistics. With an emphasis on dramatic visual storytelling, students will produce five scenes from existing scripts, rotating the production roles of director of photography, assistant camera, gaffer, mixer, and boom operator for each script. Directing, editing, and color grading will be covered, and students will be responsible for casting, location scouting, and set-building in order to successfully produce each scene. Students will leave the course knowing the interworking of a film crew, the operation of digital cinema technologies, and advanced visual and aural aesthetics and techniques for narrative filmmaking. A prerequisite for MACS 480 & MACS 481, the department’s capstone seminar in advanced cinema production. Additional fees may apply. See Class Schedule. Prerequisite: MACS 260: Film Production.

MACS 371  Editing and Post-production for Cinema  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/371/](https://courses.illinois.edu/schedule/terms/MACS/371/))
Students in this course focus on the theory and practice of video editing and post-production. Through weekly assignments and four larger projects, they gain a thorough understanding of narrative editing techniques, color correction, audio post-production and the requisite software. The class covers the art of post-production and how post-production affects narrative function in moving picture media (concentrating on cinema, but looking as well at music videos and television). Assignments include editing a short film, color correction, and sound editing/mixing, among others. Strongly suggested for students who wish to be considered for the editing and post-production positions in MACS 480/481. Requires MACS 260 as prerequisite. Credit is not be given for MACS 371 if credit for MACS 323: Video and Audio Postproduction has been given. Prerequisite: MACS 260: Film Production.

MACS 372  Screenwriting  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/372/](https://courses.illinois.edu/schedule/terms/MACS/372/))
This course examines the practice of writing for the screen. Students will better understand the fundamentals of visual storytelling and learn standard formats of screenwriting. In a classroom environment that combines lecture, screening, film analysis, and workshop discussion of students’ work, the student will be exposed to a wide variety of concepts related to the preparation and writing of the screenplay. Special emphasis will be given to the ideas of plot structure and character development, the two pillars on which the screenplay is built. This intensive scriptwriting class is intended to 1.) help students create a variety of writing tools and short scenes that will serve as the building blocks for 2.) constructing, writing and revising a short narrative screenplay. Issues of industry professionalization with regard to screenwriting will also be covered. Prerequisite: MACS 260: Film Production.

MACS 373  Special Topics in Film Studies  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/373/](https://courses.illinois.edu/schedule/terms/MACS/373/))
Same as ENGL 373. See ENGL 373.

MACS 375  Latina/o Media in the US  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/375/](https://courses.illinois.edu/schedule/terms/MACS/375/))
Examines the portrayal and participation of Latinas and Latinos in the U.S. media using a variety of interdisciplinary approaches. Addresses historical and political movements that have been critical to Latina/Latino print, broadcast, and electronic communication within the broader context of cultural diversity. Same as LLS 375.

MACS 377  Global Communications  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/377/](https://courses.illinois.edu/schedule/terms/MACS/377/))
Introduces students to the multiple dimensions of cross-national and comparative communications. Specific topics will vary according to instructor’s focus, but may include human dimensions of global communication, intercultural communication, media impact, structure and processes of institutional communication (i.e. propaganda, diplomacy).

MACS 380  21st Century Documentaries  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/380/](https://courses.illinois.edu/schedule/terms/MACS/380/))
Documentary has exploded in the past decade, with more being created, screened and watched than at any time in history. But what has this growth meant to documentary, and how has it impacted what we see on screen and how documentary stories are being told? We will examine the changes and trends taking place in film and television documentaries over the past decade. We will watch and analyze a variety of contemporary documentaries, examining some of the different stylistic, production, and story-telling methods that have developed over this time. If you enjoy watching documentaries and want to learn more about them, you will find this an enjoyable and thought-provoking course.

MACS 381  Black Women and Film  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/381/](https://courses.illinois.edu/schedule/terms/MACS/381/))
Same as AFRO 381. See AFRO 381.

MACS 382  French & Comparative Cinema I  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/382/](https://courses.illinois.edu/schedule/terms/MACS/382/))
Same as CWL 387 and FR 387. See FR 387.

MACS 383  French & Comparative Cinema II  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/383/](https://courses.illinois.edu/schedule/terms/MACS/383/))
Same as CWL 389 and FR 389. See FR 389.

MACS 389  International Communications  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/389/](https://courses.illinois.edu/schedule/terms/MACS/389/))
Provides an interdisciplinary approach to international communications; its structure and content; the role of international communications in conflict and conflict resolution; the semantics of international communication; the technical and economic aspects of international mass communications; and government-industry relations in communications. Same as PS 389.

MACS 391  Individual Study  credit: 0 to 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/391/](https://courses.illinois.edu/schedule/terms/MACS/391/))
Individual research and exploration of media and cinema studies topics under the guidance of a faculty advisor. May be repeated in the same or in multiple semesters, if topics vary. Prerequisite: Consent of instructor.

MACS 395  Special Media/Cinema Topics  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/395/](https://courses.illinois.edu/schedule/terms/MACS/395/))
Cultural, social, historical, economic, and/or political issues in media and/or cinema; topics vary but may include: genres, historical movements, thematic studies, television, convergence culture, new media. May be repeated to a maximum of 6 hours if topics vary.
MACS 481: Advanced Filmmaking Studio is required. Junior or Senior standing recommended for this course. Fees may apply. See Class Schedule. 3 undergraduate hours. No graduate credit. Prerequisite: MACS 370: Cinematography and Sound Recording.

The course is an intensive pre-professional course in cinema production. It is designed to provide advanced film production students with a workshop opportunity to refine their skills by making a 30-minute narrative film over the course of the semester. The main focus of the class will involve the cinematic treatment of a selected screenplay—from script to final edited stage. The philosophy of the class is learning by doing. Students will be instructed in the finer points of professional film production, including casting, rehearsal, scheduling, blocking, assembly, rushes, and other aspects of the workflow of fiction filmmaking. There will be a division of labor on each project. The class will be divided into two crews consisting of assigned positions. These positions are assigned by the instructor based on a student's previous performance in MACS production courses (particularly MACS 370). The positions are: Producer (production manager/assistant director, location scout), Director, Production Designer (promotion and organized, judged, and sponsored by the class. 3 undergraduate hours. 4 graduate hours. Prerequisite: One course in the College of Media or East Asian Languages and Cultures, or consent of instructor.

Class culminates with a UIUC student film festival, organized, judged, and sponsored by the class. 3 undergraduate hours. 4 graduate hours. Prerequisite: One course in the College of Media or East Asian Languages and Cultures, or consent of instructor.

This is an intensive pre-professional course in cinema production. It is designed to provide advanced film production students with a workshop opportunity to refine their skills by making a 30-minute narrative film over the course of the semester. The main focus of the class will involve the cinematic treatment of a selected screenplay—from script to final edited stage. The philosophy of the class is learning by doing. These positions are assigned by the instructor based on a student's previous performance in MACS production courses (particularly MACS 370). The positions are: Producer (production manager/assistant director, location scout), Director, Production Designer (promotion and graphics, unit still photographer; script supervisor), Director of Photography (assistant sound mixer), Assistant Camera (colorist), Gaffer (assistant colorist), Sound Designer (recordist/mixer), and Editor (production designer's assistant, boom operator). Each group will collectively choose a short film to produce from a series of selected scripts. The semester will culminate in a public screening of the class projects of both groups. Additional fees may apply. See Class Schedule. 3 undergraduate hours. No graduate credit. Prerequisite: MACS 370: Cinematography and Sound Recording.

Concurrent enrollment in MACS 481: Advanced Filmmaking Studio is required. Junior or Senior standing recommended for this course.
MACS 481  Advanced Filmmaking Studio  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/481/)
This is an intensive pre-professional course in cinema production. It is designed to provide advanced film production students with a workshop opportunity to refine their skills by making a 30-minute narrative film over the course of the semester. The main focus of the class will involve the cinematic treatment of a selected screenplay—from script to final edited stage. The philosophy of the class is learning by doing. Students will be instructed in the finer points of professional film production, including casting, rehearsal, scheduling, blocking, assembly, rushes, and other aspects of the workflow of fiction filmmaking. Concurrent enrollment in MACS 480: Advanced Filmmaking Studio is required. Junior or Senior standing recommended for this course.

MACS 485  Making Video Essays  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MACS/485/)
This course examines the theory and practice of videographic criticism, a burgeoning scholarly practice in media and cinema studies, in a workshop-style environment. Through weekly parameter-based videographic exercises using pre-existing media of their choice, students will learn how to conduct videographic research by critically exploring media texts using non-linear editing software (Adobe Premiere Pro). A diverse variety of explanatory, algorithmic, and poetic approaches to the video essay will be covered. Assignments will include several videographic projects as well as a final synoptic video essay. An intellectual curiosity for the videographic medium is crucial, but no prior experience in media production or non-linear editing is required. Students will be responsible for storing and backing up their data, but all coursework will be conducted using University equipment and software. 3 undergraduate hours. 4 graduate hours. Credit is not given for MACS 485 if credit for MACS 496: Making Video Essays has been given. Prerequisite: Junior standing required.

MACS 490  Green Screen: Film and Nature  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MACS/490/)
Same as EURO 489 and SCAN 490. See SCAN 490.

MACS 492  Scandinavian Cinema  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MACS/492/)
Same as SCAN 492. See SCAN 492.

MACS 493  German Cinema I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/493/)
Same as GER 493. See GER 493.

MACS 494  German Cinema II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/494/)
Same as GER 494. See GER 494.

MACS 495  Internship Seminar  credit: 0 to 1 Hours. (https://courses.illinois.edu/schedule/terms/MACS/495/)
Seminar based on internship experience. Offered for College of Media students who complete an approved internship. 0 to 1 undergraduate hours. No graduate credit. Approved for S/U grading only. May be repeated in the same term to a maximum of 2 undergraduate hours. May be repeated in separate terms to a maximum of 3 undergraduate hours. Prerequisite: Consent of instructor.

MACS 496  Advanced Media/Cinema Topics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MACS/496/)
Advanced study of cultural, social, historical, economic, and/or political issues in media and/or cinema; topics vary but may include national and transnational cinemas, directors, genres, historical movements, social and political movements, thematic studies, television, convergence culture, new media and media production. 3 undergraduate hours. 4 graduate hours. May be repeated in separate terms to a maximum of 6 undergraduate hours or 8 graduate hours, if topics vary. Prerequisite: One College of Media course or consent of instructor.

MACS 499  Senior Project  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/MACS/499/)
Required of Media and Cinema Studies majors, a senior project (0 credits) to be completed in conjunction with a 300- or 400-level MACS course taken in their senior year. 0 undergraduate hours. No graduate credit. Approved for S/U grading only. Prerequisite: Consent of instructor and a completed/ submitted MACS Senior Project Learning Agreement. Restricted to Senior Media and Cinema Studies majors.

MACS 503  Historiography of Cinema  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MACS/503/)
Seminar on historical perspectives on cinema as an institution, a body of signifying practices, a product to be consumed, a phenomenon of modernity, and a cultural artifact, and on cinema in relation to other screen media. Same as CWL 503 and ENGL 503.

MACS 504  Theories of Cinema  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MACS/504/)
Seminar on influential theories and accompanying debates about the textual额外-textual mechanisms and cultural/political impact of cinema and related screen media. Same as CWL 504 and ENGL 504.
MATH - Mathematics

MATH Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/MATH/)

Courses

MATH 101 Thinking Mathematically  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/101/)
Designed for students in majors that do not specifically require a mathematics course beyond the level of precalculus. Focus is on critical thinking and applications. All topics are covered from a contextual standpoint. Topics include proportional reasoning and modeling, functions, sets, consumer math, probability, and statistics. Other topics may be covered as time permits. Prerequisite: Three years of high school mathematics. Undergraduates only.

MATH 103 Theory of Arithmetic  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/103/)
Analyses of the mathematical issues and methodology underlying elementary mathematics in grades K-5. Topics include sets, arithmetic algorithms, elementary number theory, rational and irrational numbers, measurement, and probability. There is an emphasis on problem solving. Priority registration will be given to students enrolled in teacher education programs leading to certification in elementary or childhood education. Prerequisite: MATH 112 (formerly MATH 012) or equivalent.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

MATH 112 Algebra  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/112/)
Rapid review of basic techniques of factoring, rational expressions, equations and inequalities; functions and graphs; exponential and logarithm functions; systems of equations; matrices and determinants; polynomials; and the binomial theorem. Prerequisite: An adequate ALEKS placement score as described at http://math.illinois.edu/ALEKS/, demonstrating knowledge of 1.5 units of high school algebra and 1 unit of high school geometry.

MATH 114 Trigonometry  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MATH/114/)
Studies degrees and radians, the trigonometric functions, identities and equations, inverse functions, oblique triangles and applications. Credit is not given for MATH 114 and either MATH 014 or MATH 115. Prerequisite: 1.5 units of high school algebra; 1 unit of high school geometry.

MATH 115 Preparation for Calculus  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/115/)
Reviews trigonometric, rational, exponential, and logarithmic functions; provides a full treatment of limits, definition of derivative, and an introduction to finding area under a curve. Intended for students who need preparation for MATH 220, either because they lack the content background or because they are not prepared for the rigor of a university calculus course. Credit is not given for both MATH 115 and either MATH 014 or MATH 114. Credit is not given for MATH 115 if credit for either MATH 220 or MATH 221 has been earned. Prerequisite: An adequate ALEKS placement score as described at http://math.illinois.edu/ALEKS/, demonstrating knowledge of the topics of MATH 112.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

MATH 117 Elementary Mathematics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/117/)
Analyses of the mathematical issues and methodology underlying elementary mathematics in grades 6-8. Topics include the Real number system and field axioms, sequences and series, functions and math modeling with technology, Euclidean and non-Euclidean geometry, probability and statistics. Priority registration will be given to students enrolled in teacher education programs leading to certification in elementary education. Prerequisite: MATH 112 (formerly MATH 012) or equivalent.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

MATH 119 Ideas in Geometry  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/119/)
General education course in mathematics, for students who do not have mathematics as a central part of their studies. The goal is to convey the spirit of mathematical thinking through topics chosen mainly from plane geometry. Prerequisite: Two units of high school algebra; one unit of high school geometry; or equivalent.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

MATH 124 Finite Mathematics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/124/)
Introduction to finite mathematics for students in the social sciences; introduces the student to the basic ideas of logic, set theory, probability, vectors and matrices, and Markov chains. Problems are selected from social sciences and business. Prerequisite: MATH 112 (formerly MATH 012) or an adequate ALEKS score.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

MATH 125 Elementary Linear Algebra  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/125/)
Basic concepts and techniques of linear algebra; includes systems of linear equations, matrices, determinants, vectors in n-space, and eigenvectors, together with selected applications, such as Markov processes, linear programming, economic models, least squares, and population growth. Credit is not given for both MATH 125 and any of MATH 225, ASRM 406, or MATH 415. Prerequisite: MATH 112 (formerly MATH 012) or an adequate ALEKS score.

Information listed in this catalog is current as of 01/2022
MATH 181  A Mathematical World  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/181/)
Introduction to selected areas of mathematical sciences through application to modeling and solution of problems involving networks, circuits, trees, linear programming, random samples, regression, probability, inference, voting systems, game theory, symmetry and tilings, geometric growth, comparison of algorithms, codes and data management. Prerequisite: Three years of high school mathematics, including two years of algebra and one year of geometry.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

MATH 198  Freshman Seminar  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/198/)
Guides the student in the study of selected topics not considered in standard courses. Prerequisite: Enrollment in the mathematics honors program; consent of department.

MATH 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/MATH/199/)
Approved for both letter and S/U grading. May be repeated.

MATH 213  Basic Discrete Mathematics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/213/)
Beginning course on discrete mathematics, including sets and relations, functions, basic counting techniques, recurrence relations, graphs and trees, and matrix algebra; emphasis throughout is on algorithms and their efficacy. Credit is not given for both MATH 213 and CS 173. Prerequisite: MATH 220 or MATH 221, or equivalent.
This course satisfies the General Education Criteria for:
Quantitative Reasoning II

MATH 220  Calculus  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/MATH/220/)
First course in calculus and analytic geometry; basic techniques of differentiation and integration with applications including curve sketching; antidifferentiation, the Riemann integral, fundamental theorem, exponential and trigonometric functions. Credit is not given for both MATH 220 and either MATH 221 or MATH 234. Prerequisite: An adequate ALEKS placement score as described at http://math.illinois.edu/ALEKS/, demonstrating knowledge of topics of MATH 115. Students with previous calculus experience should consider MATH 221.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

MATH 221  Calculus I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/221/)
First course in calculus and analytic geometry for students with some calculus background; basic techniques of differentiation and integration with applications including curve sketching; antidifferentiation, the Riemann integral, fundamental theorem, exponential and trigonometric functions. Credit is not given for both MATH 221 and either MATH 220 or MATH 234. Prerequisite: An adequate ALEKS placement score as described at http://math.illinois.edu/ALEKS/ and either one year of high school calculus or a minimum score of 2 on the AB Calculus AP exam.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

MATH 225  Introductory Matrix Theory  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MATH/225/)
Systems of linear equations, matrices and inverses, determinants, and a glimpse at vector spaces, eigenvalues and eigenvectors. Credit is not given for both MATH 225 and any of MATH 125, ASRM 406, or MATH 415. Prerequisite: MATH 220 or MATH 221; or equivalent.

MATH 227  Linear Algebra for Data Science  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/227/)
Linear algebra is the main mathematical subject underlying the basic techniques of data science. Provides a practical computer-based introduction to linear algebra, emphasizing its uses in analyzing data, such as linear regression, principal component analysis, and network analysis. Students will also explore some of the strengths and limitations of linear methods. Students will learn how to implement linear algebra methods on a computer, making it possible to apply these techniques to large data sets. Credit is not given for both MATH 227 and any of MATH 125, MATH 225, MATH 257, MATH 415, or ASRM 406. Prerequisite: Assumes an introductory knowledge of Python, such as students acquire in STAT 107.

MATH 231  Calculus II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/231/)
Second course in calculus and analytic geometry; techniques of integration, conic sections, polar coordinates, and infinite series. Prerequisite: MATH 220 or MATH 221.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

MATH 234  Calculus for Business I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/234/)
Introduction to the concept of functions and the basic ideas of the calculus. Credit is not given for both MATH 234 and either MATH 220 or MATH 221. Prerequisite: An adequate ALEKS placement score as described at http://math.illinois.edu/ALEKS/, demonstrating knowledge of the topics of MATH 112.
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

MATH 241  Calculus III  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/241/)
Third course in calculus and analytic geometry including vector analysis: Euclidean space, partial differentiation, multiple integrals, line integrals and surface integrals, the integral theorems of vector calculus. Credit is not given for both MATH 241 and MATH 292. Prerequisite: MATH 231.
This course satisfies the General Education Criteria for:
Quantitative Reasoning II
MATH 249  Honors Supplement  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MATH/249/)
Supplemental credit hour for honors courses with additional material or special projects. Prerequisite: Concurrent registration in a specially designated honors section and consent of department.

MATH 257  Linear Algebra with Computational Applications  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/257/)
Introductory course incorporating linear algebra concepts with computational tools, with real world applications to science, engineering and data science. Topics include linear equations, matrix operations, vector spaces, linear transformations, eigenvalues, eigenvectors, inner products and norms, orthogonality, linear regression, equilibrium, linear dynamical systems and the singular value decomposition. Credit is not given for both MATH 257 and any of MATH 125, MATH 225, MATH 227, MATH 415 or ASRM 406. Prerequisite: MATH 220 or MATH 221; CS 101 or equivalent programming experience.

MATH 284  Intro Differential Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/284/)
First order differential equations; mathematical models and numerical methods; linear systems and matrices; higher-order linear differential equations; eigenvalues and eigenvectors; linear systems of differential equations; Laplace transform methods. Credit is not given for both MATH 284 and either MATH 285 or MATH 286. Prerequisite: MATH 231 or equivalent.

MATH 285  Intro Differential Equations  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/285/)
Techniques and applications of ordinary differential equations, including Fourier series and boundary value problems, and an introduction to partial differential equations. Intended for engineering majors and others who require a working knowledge of differential equations. Credit is not given for both MATH 285 and any of MATH 284, MATH 286, MATH 441. Prerequisite: MATH 241.
This course satisfies the General Education Criteria for: Quantitative Reasoning II

MATH 286  Intro to Differential Eq Plus  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/286/)
Techniques and applications of ordinary differential equations, including Fourier series and boundary value problems, linear systems of differential equations, and an introduction to partial differential equations. Covers all the MATH 285 plus linear systems. Intended for engineering majors and other who require a working knowledge of differential equations. Credit is not given for both MATH 286 and any of MATH 284, MATH 285, MATH 441. Prerequisite: MATH 241.
This course satisfies the General Education Criteria for: Quantitative Reasoning II

MATH 292  Vector Calculus Supplement  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MATH/292/)
Course in multivariable calculus. Topics include gradient, divergence, and curl; line and surface integrals; and the theorems of Green, Stokes, and Gauss. Intended for transfer students whose multivariable calculus course did not include the integral theorems of vector calculus. Credit is not given for both MATH 292 and MATH 241. Prerequisite: Consent of instructor.

MATH 299  Topics in Mathematics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/299/)
Topics course; see Class Schedule or department office for current topics. May be repeated in the same or subsequent semesters to a maximum of 8 hours. Prerequisite: MATH 220 or MATH 221; consent of instructor.

MATH 347  Fundamental Mathematics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/347/)
Fundamental ideas used in many areas of mathematics. Topics will include: techniques of proof, mathematical induction, binomial coefficients, rational and irrational numbers, the least upper bound axiom for real numbers, and a rigorous treatment of convergence of sequences and series. This will be supplemented by the instructor from topics available in the various texts. Students will regularly write proofs emphasizing precise reasoning and clear exposition. Credit is not given for both MATH 347 and MATH 348. Prerequisite: MATH 231.
This course satisfies the General Education Criteria for: Quantitative Reasoning II

MATH 348  Fundamental Mathematics-ACP  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/348/)
Course is identical to MATH 347 except for the additional writing component. Credit is not given for both MATH 348 and MATH 347. Prerequisite: MATH 231 and completion of the campus Composition I general education requirement.
This course satisfies the General Education Criteria for: Advanced Composition
Quantitative Reasoning II

MATH 357  Numerical Methods I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/357/)
Same as CS 357. See CS 357.

MATH 362  Probability with Engrg Applic  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/362/)
Same as ECE 313. See ECE 313.

MATH 390  Individual Study  credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/390/)
Guided individual study of advanced topics not covered in other courses. May be repeated to a maximum of 8 hours. Approved for both letter and S/U grading. Prerequisite: Consent of instructor.
MATH 399  Math/Actuarial Internship  credit: 0 Hours. Details...
Full-time or part-time practice of math or actuarial science in an off-campus government, industrial, or research laboratory environment. Summary report required. Approved for S/U grading only. May be repeated in separate terms. Prerequisite: After obtaining an internship, Mathematics majors must request entry from the Mathematics Director of Undergraduate Studies; Actuarial Science majors must request entry from the Director of the Actuarial Science Program.
This course satisfies the General Education Criteria for:

UIUC: Ugrad Zero Credit Intern

MATH 402  Non Euclidean Geometry  credit: 3 or 4 Hours. Details...
Historical development of geometry; includes tacit assumptions made by Euclid; the discovery of non-Euclidean geometries; geometry as a mathematical structure; and an axiomatic development of plane geometry. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241; MATH 347 or MATH 348, or equivalent; or consent of instructor.

MATH 403  Euclidean Geometry  credit: 3 or 4 Hours. Details...
Selected topics from geometry, including the nine-point circle, theorems of Ceva and Menelaus, regular figures, isometries in the plane, ordered affine geometries, and the inverse plane. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241; MATH 347 or 348, or equivalent; or consent of instructor.

MATH 405  Teacher's Course  credit: 3 or 4 Hours. Details...
In-depth, advanced perspective look at selected topics covered in the secondary curriculum. Connects mathematics learned at the university level to content introduced at the secondary level. Intended for students who plan to seek a secondary certificate in mathematics teaching. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241; MATH 347 or MATH 348, or equivalent; or consent of instructor.
This course satisfies the General Education Criteria for:

Quantitative Reasoning II

MATH 406  History of Calculus  credit: 3 or 4 Hours. Details...
Examination of the historical origins and genesis of the concepts of the calculus; includes mathematical developments from the ancient Greeks to the eighteenth century. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 or equivalent.

MATH 412  Graph Theory  credit: 3 or 4 Hours. Details...
Examines basic concepts and applications of graph theory, where graph refers to a set of vertices and edges that join some pairs of vertices; topics include subgraphs, connectivity, trees, cycles, vertex and edge coloring, planar graphs and their colorings. Draws applications from computer science, operations research, chemistry, the social sciences, and other branches of mathematics, but emphasis is placed on theoretical aspects of graphs. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 or MATH 347 or MATH 348 or equivalent experience or CS 374.

MATH 413  Intro to Combinatorics  credit: 3 or 4 Hours. Details...
Permutations and combinations, generating functions, recurrence relations, inclusion and exclusion, Polya's theory of counting, and block designs. Same as CS 413. 3 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 347 or MATH 348 or equivalent experience.

MATH 414  Mathematical Logic  credit: 3 or 4 Hours. Details...
Introduction to the formalization of mathematics and the study of axiomatic systems; expressive power of logical formulas; detailed treatment of propositional logical and predicate logic; compactness theorem and Godel completeness theorem, with applications to specific mathematical theories; algorithmic aspects of logical formulas. Proofs are emphasized in this course, which can serve as an introduction to abstract mathematics and rigorous proof; some ability to do mathematical reasoning required. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 347 or MATH 348 or equivalent experience.

This course satisfies the General Education Criteria for:

Quantitative Reasoning II

MATH 415  Applied Linear Algebra  credit: 3 or 4 Hours. Details...
Introductory course emphasizing techniques of linear algebra with applications to engineering; topics include matrix operations, determinants, linear equations, vector spaces, linear transformations, eigenvalues, and eigenvectors, inner products and norms, orthogonality, equilibrium, and linear dynamical systems. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 415 and any of MATH 125, MATH 225, ASRM 406, or MATH 416. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 or consent of instructor.

MATH 416  Abstract Linear Algebra  credit: 3 or 4 Hours. Details...
Rigorous proof-oriented course in linear algebra. Topics include determinants, vector spaces over fields, linear transformations, inner product spaces, eigenvectors and eigenvalues, Hermitian matrices, Jordan Normal Form. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 416 and either ASRM 406 or MATH 415. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 or consent of instructor; MATH 347 is recommended.
MATH 417 Intro to Abstract Algebra credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/417/)
Fundamental theorem of arithmetic, congruences. Permutations. Groups and subgroups, homomorphisms. Group actions with applications. Polynomials. Rings, subrings, and ideals. Integral domains and fields. Roots of polynomials. Maximal ideals, construction of fields. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: Either MATH 416 or one of ASRM 406, MATH 415 together with one of MATH 347, MATH 348, CS 374; or consent of instructor.

MATH 418 Intro to Abstract Algebra II credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/418/)
Rings of quotients of an integral domain. Euclidean domains, principal ideal domains. Unique factorization in polynomial rings. Fields extensions, ruler and compass constructions. Finite fields with applications. Modules. Structure theorem for finitely generated modules over principal ideal domains. Application to finitely generated abelian groups and canonical forms of matrices. Introduction to error-correcting codes. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 417 or consent of instructor.

MATH 423 Differential Geometry credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/423/)
Applications of the calculus to the study of the shape and curvature of curves and surfaces; introduction to vector fields, differential forms on Euclidean spaces, and the method of moving frames for low-dimensional differential geometry. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 424 or equivalent.

MATH 424 Honors Real Analysis credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/424/)
A rigorous and abstract introduction to metric spaces recommended for those who intend to pursue programs in analysis. Metric space topics include continuity, compactness, completeness, connectedness and uniform convergence. Analysis topics include the theory of differentiation, Riemann-Darboux integration, sequences and series of functions, and interchange of limiting operations. As part of the honors sequence, this course will be rigorous and abstract. 3 undergraduate hours. No graduate credit. Credit is not given for both MATH 424 and either MATH 444 or MATH 447. Approved for honors grading. Prerequisite: An honors section of MATH 347 or an honors section of MATH 416, and consent of the department.

MATH 425 Honors Advanced Analysis credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/425/)
A theoretical treatment of differential and integral calculus in higher dimensions. Topics include inverse and implicit function theorems, submanifolds, the theorems of Green, Gauss and Stokes, differential forms, and applications. As part of the honors sequence, this course will be rigorous and abstract. 3 undergraduate hours. No graduate credit. Approved for honors grading. Prerequisite: MATH 424 and either MATH 415 or MATH 416, and consent of the department.

MATH 427 Honors Abstract Algebra credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/427/)
Group theory, counting formulae, factorization, modules with applications to Abelian groups and linear operators. As part of the honors sequence, this course will be rigorous and abstract. 3 undergraduate hours. No graduate credit. Approved for honors grading. Credit is not given for both MATH 427 and MATH 417. Prerequisite: Consent of the department is required. Prerequisite courses are either an honors section of MATH 416, or MATH 415 together with an honors section of MATH 347.

MATH 428 Honors Topics in Mathematics credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/428/)
A capstone course in the Mathematics Honors Sequence. Topics vary. As part of the honors sequence, this course will be rigorous and abstract. 3 undergraduate hours. No graduate credit. May be repeated in the same or separate terms to a maximum of 12 hours. Prerequisite: Consent of the department.

MATH 432 Set Theory and Topology credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/432/)
Informal set theory, cardinal and ordinal numbers, and the axiom of choice; topology of metric spaces and introduction to general topological spaces. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 347 or MATH 348 or consent of instructor.

MATH 439 Philosophy of Mathematics credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/439/)
Same as PHIL 439. See PHIL 439.

MATH 441 Differential Equations credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/441/)
Basic course in ordinary differential equations; topics include existence and uniqueness of solutions and the general theory of linear differential equations; treatment is more rigorous than that given in MATH 285. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 441 and any of MATH 284, MATH 285, MATH 286. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Prerequisite: MATH 241, MATH 347 or MATH 348 is recommended.

MATH 442 Intro Partial Diff Equations credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/442/)
Introduces partial differential equations, emphasizing the wave, diffusion and potential (Laplace) equations. Focuses on understanding the physical meaning and mathematical properties of solutions of partial differential equations. Includes fundamental solutions and transform methods for problems on the line, as well as separation of variables using orthogonal series for problems in regions with boundary. Covers convergence of Fourier series in detail. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Prerequisite: One of MATH 284, MATH 285, MATH 286, MATH 441.
MATH 444  Elementary Real Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/444/)
Careful treatment of the theoretical aspects of the calculus of functions of a real variable intended for those who do not plan to take graduate courses in Mathematics. Topics include the real number system, limits, continuity, derivatives, and the Riemann integral. 3 or 4 graduate hours. Credit is not given for both MATH 444 and either MATH 424 or MATH 447. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241; MATH 347 or MATH 348, or equivalent.

MATH 446  Applied Complex Variables  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/446/)
For students who desire a working knowledge of complex variables; covers the standard topics and gives an introduction to integration by residues, the argument principle, conformal maps, and potential fields. Students desiring a systematic development of the foundations of the subject should take MATH 448. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 446 and MATH 448. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241.

MATH 447  Real Variables  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/447/)
Careful development of elementary real analysis for those who intend to take graduate courses in Mathematics. Topics include completeness property of the real number system; basic topological properties of n-dimensional space; convergence of numerical sequences and series of functions; properties of continuous functions; and basic theorems concerning differentiation and Riemann integration. 3 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 447 and either MATH 424 or MATH 444. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Prerequisite: MATH 241 or equivalent; junior standing; MATH 347 or MATH 348, or equivalent experience; or consent of instructor.

MATH 448  Complex Variables  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/448/)
For students who desire a rigorous introduction to the theory of functions of a complex variable; topics include Cauchy's theorem, the residue theorem, the maximum modulus theorem, Laurent series, the fundamental theorem of algebra, and the argument principle. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 448 and MATH 446. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 447 or equivalent.

MATH 450  Numerical Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/450/)
Same as CS 450, CSE 401 and ECE 491. See CS 450.

MATH 453  Number Theory  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/453/)
Basic introduction to the theory of numbers. Core topics include divisibility, primes and factorization, congruences, arithmetic functions, quadratic residues and quadratic reciprocity, primitive roots and orders. Additional topics covered at the discretion of the instructor include sums of squares, Diophantine equations, continued fractions, Farey fractions, recurrences, and applications to primality testing and cryptography. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 or equivalent.

This course satisfies the General Education Criteria for:
Quantitative Reasoning II

MATH 461  Probability Theory  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/461/)
Introduction to mathematical probability; includes the calculus of probability, combinatorial analysis, random variables, expectation, distribution functions, moment-generating functions, and central limit theorem. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 461 and either STAT 408 or ECE 313. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 or equivalent.

MATH 463  Statistics and Probability I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/463/)
Same as STAT 400. See STAT 400.

MATH 464  Statistics and Probability II  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/464/)
Same as STAT 410. See STAT 410.

MATH 473  Algorithms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/473/)
Same as CS 473 and CSE 414. See CS 473.

MATH 475  Formal Models of Computation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/475/)
Same as CS 475. See CS 475.

MATH 481  Vector and Tensor Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/481/)
Introductory course in modern differential geometry focusing on examples, broadly aimed at students in mathematics, the sciences, and engineering. Emphasis on rigorously presented concepts, tools and ideas rather than on proofs. The topics covered include differentiable manifolds, tangent spaces and orientability; vector and tensor fields; differential forms; integration on manifolds and Generalized Stokes Theorem; Riemannian metrics, Riemannian connections and geodesics. Applications to configuration and phase spaces, Maxwell equations and relativity theory will be discussed. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 and one of MATH 415 or MATH 416 or equivalent.

MATH 482  Linear Programming  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/482/)
Rigorous introduction to a wide range of topics in optimization, including a thorough treatment of basic ideas of linear programming, with additional topics drawn from numerical considerations, linear complementarity, integer programming and networks, polyhedral methods. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: ASRM 406, MATH 415, or MATH 416.
MATH 484 Nonlinear Programming  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/484/)
Iterative and analytical solutions of constrained and unconstrained problems of optimization; gradient and conjugate gradient solution methods; Newton's method, Lagrange multipliers, duality and the Kuhn-Tucker theorem; and quadratic, convex, and geometric programming. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241; MATH 347 or MATH 348; or equivalent; MATH 415 or equivalent; or consent of instructor.

MATH 487 Advanced Engineering Math  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/487/)
Complex linear algebra, inner product spaces, Fourier transforms and analysis of boundary value problems, Sturm-Liouville theory. Same as ECE 493. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: One of MATH 284, MATH 285, MATH 286, MATH 441.

MATH 489 Dynamics & Differential Eqns  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/489/)
Studies mathematical theory of dynamical systems, emphasizing both discrete-time dynamics and nonlinear systems of differential equations. Topics include: chaos, fractals, attractors, bifurcations, with application to areas such as population biology, fluid dynamics and classical physics. Basic knowledge of matrix theory will be assumed. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Prerequisite: One of MATH 284, MATH 285, MATH 286, MATH 441.

MATH 490 Advanced Topics in Mathematics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/490/)
Deals with selected topics and applications of mathematics; see Class Schedule or department office for current topics. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated with approval. Prerequisite: Consent of instructor.

MATH 492 Undergraduate Research in Math  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/492/)
Work closely with department faculty on a well-defined research project. Topics and nature of assistance vary. Capstone paper or computational project required. 1 to 3 undergraduate hours. No graduate credit. Approved for Letter and S/U grading. May be repeated in separate terms up to 8 hours. Prerequisite: Evidence of adequate preparation for such study; consent of faculty member supervising the work; and approval of the department head.

MATH 495 Models in Mathematical Biology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/495/)
Research-motivated subject material from Mathematical Biology with emphasis on modeling. 3 undergraduate hours. 4 graduate hours. Prerequisite: MATH 220 or equivalent.

MATH 496 Honors Seminar  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/496/)
Careful study of a selected area of mathematics, carried out either deductively from axioms or inductively through problems; subject matter varies with instructor. 3 undergraduate hours. No graduate credit. May be repeated to a maximum of 6 hours. Prerequisite: Consent of Mathematics Honors Committee.

MATH 499 Introduction Graduate Research  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MATH/499/)
Seminar is required of all first-year graduate students in Mathematics. It provides a general introduction to the courses and research work in all of the areas of mathematics that are represented at the University of Illinois at Urbana-Champaign. 1 undergraduate hour. 1 graduate hour. Approved for S/U grading only. May be repeated to a maximum of 2 hours. Prerequisite: Graduate standing or consent of instructor.

MATH 500 Abstract Algebra I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/500/)

MATH 501 Abstract Algebra II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/501/)

MATH 502 Commutative Algebra  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/502/)
Commutative rings and modules, prime ideals, localization, noetherian rings, primary decomposition, integral extensions and Noether normalization, the Nullstellensatz, dimension, flatness, Hensel's lemma, graded rings, Hilbert polynomial, valuations, regular rings, singularities, unique factorization, homological dimension, depth, completion. Possible further topics: smooth and etale extensions, ramification, Cohen-Macaulay modules, complete intersections. Prerequisite: MATH 501 or consent of instructor.

MATH 503 Intro Geometric Group Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/503/)
Free groups, groups given by generators and relations, van Kampen diagrams. Free product with amalgamations and HNN-extensions, Bass-Serre theory. Solvable and nilpotent groups. Quasi-isometries and geometric properties of groups. Prerequisite: MATH 500 or equivalent.

MATH 505 Homological Algebra  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/505/)
Topics include: 1. Snake lemma, homology, long exact sequence in homology; 2. Projective and injective modules and resolutions; 3. Categories, functors and derived functors. Tor and Ext, local cohomology. 4. Group cohomology, bar resolution; 5. Spectral sequences, techniques of computation, Serre spectral sequence. Grothendieck spectral sequence of composite functors; 6. Time permitting: Derived categories, Gysin sequence, Kunneth formula, universal coefficient theorem, Eilenberg-Moore sequence. Prerequisite: MATH 501 or equivalent.
MATH 506  Group Representation Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/506/)
Representation of groups by linear transformations, group algebras, character theory, and modular representations. Prerequisite: MATH 501 or equivalent.

MATH 510  Riemann Surf & Algebraic Curv  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/510/)
An introduction to Riemann Surfaces from both the algebraic and function-theoretic points of view. Topics include holomorphic and meromorphic differential forms, integration of differential forms, divisors and linear equivalence, the genus of a compact Riemann surface, projective algebraic curves, the Riemann-Roch theorem, and applications. Prerequisite: MATH 542.

MATH 511  Intro to Algebraic Geometry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/511/)
An introduction to the study of algebraic sets defined by polynomial equations; affine and projective space and their subvarieties; rational and regular functions and mappings; divisors, linear systems, and projective embeddings; birational geometry, blowing up; Grassmannians and other special varieties. Prerequisite: MATH 500.

MATH 512  Modern Algebraic Geometry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/512/)
An introduction to the tools and ideas of contemporary algebraic geometry, with particular focus on the language of schemes. 4 graduate hours. No professional credit. Prerequisite: MATH 500, and one of MATH 510, MATH 511, or consent of instructor.

MATH 514  Complex Algebraic Geometry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/514/)
Hodge theory of complex manifolds; examples, applications, and topological invariants. 4 graduate hours. No professional credit. Credit is not given for MATH 514 if credit for MATH 524 has been earned. Prerequisite: MATH 448 or consent of instructor.

MATH 518  Differentiable Manifolds I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/518/)
Definitions and properties of differentiable manifolds and maps, (co)tangent bundles, vector fields and flows, Frobenius theorem, differential forms, exterior derivatives, integration and Stokes' theorem, DeRham cohomology, inverse function theorem, Sard's theorem, transversality and intersection theory. Prerequisite: MATH 423 or MATH 481, or consent of instructor.

MATH 519  Differentiable Manifolds II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/519/)
Vector bundles, principal bundles, connections, parallel transport, curvature, Chern-Weyl theory, Hodge-DeRham theory. Other topics may include Riemannian geometry, symplectic geometry, spin geometry, and harmonic maps. Prerequisite: MATH 518 or consent of instructor.

MATH 520  Symplectic Geometry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/520/)
Introduction to the foundational tools, ideas, examples and theorems of symplectic geometry. It is intended for PhD students studying symplectic geometry, Poisson geometry, and symplectic topology, as well as students in related areas such as dynamical systems, algebraic geometry, complex geometry and low dimensional topology. Covers the local and global structure of symplectic manifolds, their submanifolds, the special automorphisms they support (Hamiltonian flows), their natural boundaries (contact manifolds), their special geometric features (almost complex structures), and their symmetries. The last three weeks of the course will be devoted to a more advanced topic to be determined by the interests of both the instructor and the students. 4 graduate hours. No professional credit. Approved for Letter and S/U grading. Prerequisite: MATH 518.

MATH 522  Lie Groups and Lie Algebras I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/522/)
A general introduction to Lie groups and algebras and their representation theory. Theory of finite group representations, Lie groups as matrix groups, and as differentiable manifolds, Lie algebras as tangent spaces and as abstract objects, and their representations. Examples of the classical groups. May be repeated up to 8 hours. Prerequisite: Undergraduate linear algebra, abstract algebra, point set topology, differentiation on manifolds.

MATH 525  Algebraic Topology I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/525/)
Introduction to the study of topological spaces by means of algebraic invariants. Topics include the fundamental group, covering spaces and their classification, simplicial and singular homology, applications such as the Brouwer fixed point theorem and the Jordan curve theorem. Prerequisite: MATH 417 and MATH 448 or consent of instructor.

MATH 526  Algebraic Topology II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/526/)
CW-complexes, relative homeomorphism theorem, cellular homology, cohomology, Kunneth theorem, Eilenberg-Zilber theorem, cup products, Poincare duality, examples. Prerequisite: MATH 525, MATH 500; or consent of instructor. MATH 501 is recommended but not required.

MATH 527  Homotopy Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/527/)
Homotopy groups, fibrations and cofibrations, Hurewicz theorem, obstruction theory, Whitehead theorem and additional topics perhaps drawn from Postnikov towers, Freudenthal suspension theorem, Blakers-Massey theorem, spectra. Prerequisite: MATH 526. MATH 501 is recommended but not required.

MATH 530  Algebraic Number Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/530/)
Further development of the theory of fields covering topics from valuation theory, ideal theory, units in algebraic number fields, ramification, function fields, and local class field theory. Prerequisite: MATH 500 or equivalent.

MATH 531  Analytic Theory of Numbers I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/531/)
Problems in number theory treated by methods of analysis; arithmetic functions, Dirichlet series, Riemann zeta function, L-functions, Dirichlet's theorem on primes in progressions, the prime number theorem. Prerequisite: MATH 448 and either MATH 417 or MATH 453.

MATH 532  Analytic Theory of Numbers II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/532/)
Development of themes from MATH 531 and further topics chosen from additive number theory, asymptotic properties of multiplicative functions, circle method, diophantine approximation, lattice point problems, metric theory, modular forms, sieve theory. May be repeated. Prerequisite: MATH 531.
MATH 533  Fiber Spaces and Char Classes  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/533/)
Study of fiber bundles and their associated characteristic classes; applications to geometric problems. Prerequisite: MATH 526.

MATH 535  General Topology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/535/)
Study of topological spaces and maps, including Cartesian products, identifications, connectedness, compactness, uniform spaces, and function spaces. Prerequisite: Consent of instructor.

MATH 540  Real Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/540/)
Lebesgue measure on the real line; integration and differentiation of real valued functions of a real variable; and additional topics at discretion of instructor. Prerequisite: MATH 447 or equivalent.

MATH 541  Functional Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/541/)
Fundamental results in functional analysis; spectral theory of compact operators; further topics chosen by the instructor. Prerequisite: MATH 540.

MATH 542  Complex Variables I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/542/)
Topics include the Cauchy theory, harmonic functions, entire and meromorphic functions, and the Riemann mapping theorem. Prerequisite: MATH 446 and MATH 447, or MATH 448.

MATH 543  Complex Variables II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/543/)
Continuation of MATH 542. Topics include Riemann Surfaces, Hyperbolic Metric, Potential Theory and Quasiconformal Mappings. Prerequisite: MATH 542.

MATH 545  Harmonic Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/545/)
Harmonic analysis on the circle, the line, and the integers, i.e., Fourier series and transforms; locally compact Abelian groups; convergence and summability; conjugate functions; Hardy spaces; uniqueness; Tauberian theorems; almost-periodic functions; commutative Banach algebras. Prerequisite: MATH 448 and MATH 541; knowledge of Banach spaces.

MATH 546  Hilbert Spaces  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/546/)
Geometrical properties of Hilbert spaces, spectral theorems for compact, bounded and unbounded operators, basic theory of operator algebras, and additional material depending on the instructor. Prerequisite: MATH 541.

MATH 547  Banach Spaces  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/547/)
Basic properties and fundamental theorems of Banach spaces and bounded linear maps, trace duality, absolutely summable maps, local theory, type and cotype, probabilistic techniques in Banach spaces, and further topics depending on the instructor. 4 graduate hours. No professional credit. Prerequisite: MATH 541.

MATH 550  Dynamical Systems I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/550/)
An introduction to the study of dynamical systems. Considers continuous and discrete dynamical systems at a sophisticated level: differential equations, flows and maps on Euclidean space and other manifolds. Emphasis will be placed on the fundamental theoretical concepts and the interaction between the geometry and topology of manifolds and global flows. Discrete dynamics includes Bernoulli shifts, elementary Anosov diffeomorphisms and surfaces of sections of flows. Bifurcation phenomena in both continuous and discrete dynamics will be studied. Prerequisite: MATH 489 or consent of instructor.

MATH 552  Numerical Methods for PDEs  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/552/)
Same as CS 555 and CSE 510. See CS 555.

MATH 553  Partial Differential Equations  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/553/)
Basic introduction to the study of partial differential equations; topics include: the Cauchy problem, power-series methods, characteristics, classification, canonical forms, well-posed problems, Riemann's method for hyperbolic equations, the Goursat problem, the wave equation, Sturm-Liouville problems and separation of variables, Fourier series, the heat equation, integral transforms, Laplace's equation, harmonic functions, potential theory, the Dirichlet and Neumann problems, and Green's functions. Prerequisite: Consent of instructor.

MATH 554  Linear Analysis and Partial Differential Equations  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/554/)
Course will provide students with the basic background in linear analysis associated with partial differential equations. The specific topics chosen will be largely up to the instructor, but will cover such areas as linear partial differential operators, distribution theory and test functions, Fourier transforms, Sobolev spaces, pseudodifferential operators, microlocal analysis, and applications of the above topics. 4 graduate hours. No professional credit. Prerequisite: MATH 553 or consent of instructor.

MATH 555  Nonlinear Analysis and Partial Differential Equations  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/555/)
Course will provide students with the basic background in nonlinear analysis associated with partial differential equations. The specific topics chosen will be largely up to the instructor, but will cover such areas as existence and uniqueness techniques, nonexistence and finite time blow-up results, hyperbolic conservation laws, weak solutions, stability theory, nonlinear elliptic theory, regularity theory. 4 graduate hours. No professional credit. May be repeated as topics vary. Prerequisite: Consent of instructor.

MATH 558  Methods of Applied Mathematics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/558/)
Introduction to modern methods of applied mathematics, including nondimensionalization and scaling analysis, regular and singular asymptotics, analysis of multiscale systems, and analysis of complex systems. Each technique is illustrated with applications from science and engineering. The mathematical frameworks will include ordinary, partial and stochastic differential equations, point processes, and Markov chains. Prerequisite: Undergraduate background in ODEs, PDEs, and probability theory (MATH 441, MATH 442, and MATH 461, or equivalents), or consent of instructor.
MATH 561  Theory of Probability I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/561/)
Mathematical foundations of probability and stochastic processes; probability measures, random variables, distribution functions, convergence theory, the Central Limit Theorem, conditional expectation, and martingale theory. Same as STAT 551. Prerequisite: MATH 541 or consent of instructor.

MATH 562  Theory of Probability II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/562/)
Continuation of MATH 561. Same as STAT 552. Prerequisite: MATH 561.

MATH 563  Risk Modeling and Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/563/)
Quantitative tools for measuring risks and modeling dependencies. Topics include risk measures, stochastic orders, copulas, dependence measures, and their statistical inferences. Same as STAT 558. 4 graduate hours. No professional credit. Prerequisite: MATH 408 or MATH 461.

MATH 564  Applied Stochastic Processes  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/564/)
Introduction to topics such as spectral analysis, filtering theory, and prediction theory of stationary processes; Markov chains and Markov processes. Same as STAT 555. Prerequisite: MATH 446 and MATH 447.

MATH 570  Mathematical Logic  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/570/)
Development of first order predicate logic; completeness theorem; formalized number theory and the Goedel incompleteness theorem. Prerequisite: MATH 417 or consent of instructor.

MATH 571  Model Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/571/)
Techniques for constructing models, including compactness and Lowenheim-Skolem theorems, unions of elementary chains, and omitting types construction; categorical theories; ultraproducts; saturated models; quantifier elimination; applications to algebraically closed fields, real closed fields, and other fundamental structures of mathematics. Prerequisite: MATH 570 or consent of instructor.

MATH 573  Recursive Function Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/573/)
Various characterizations of the class of recursive (i.e., computable) functions; the Church-Turing thesis; unsolvability of the halting problem; the recursion theorem and the enumeration theorem; relative computability, the jump operation, and the arithmetical hierarchy; recursively enumerable sets; degrees of unsolvability, and the priority method. Prerequisite: MATH 570 or consent of instructor.

MATH 574  Set Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/574/)
Zermelo-Fraenkel axiomatic set theory; basic concepts in set theory such as ordinal, cardinal, rank, and definition by transfinite recursion; Godel's constructible universe; introduction to forcing, Boolean valued universes; large cardinals; consistency and independence of the continuum hypothesis and the axiom of choice. Prerequisite: MATH 570 or consent of instructor.

MATH 580  Combinatorial Mathematics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/580/)
Fundamental results on core topics of combinatorial mathematics: classical enumeration, basic graph theory, extremal problems on finite sets, probabilistic methods, design theory, discrete optimization. Same as CS 571. Prerequisite: Consent of instructor.

MATH 581  Extremal Graph Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/581/)
Extremal problems and parameters for graphs. Distance and connectivity, matching and factors, vertex and edge colorings, perfect and imperfect graphs, intersection classes and intersection parameters, Turan's theorem, graph Ramsey theory, graph decomposition and other extremal problems. Same as CS 572. Prerequisite: MATH 580 or consent of instructor.

MATH 582  Structure of Graphs  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/582/)
Structure of graphs and properties of special classes of graphs. Degree sequences and reconstruction, structure of k-connected graphs, Hamiltonian cycles and circumference, planar graphs and their properties, graph minors, cycle coverings, matroidal and algebraic aspects of graphs. Prerequisite: MATH 580 or consent of instructor.

MATH 583  Partial Orders and Comb Optm  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/583/)
Combinatorial aspects of partially ordered sets and their relation to optimization problems. Structure of posets and lattices, Dilworth's theorem and generalizations, linear extensions and sorting, dimension of posets, order ideals, extremal set theory, integer programming and minmax relations, matroids and their applications. Prerequisite: MATH 580 or consent of instructor.

MATH 584  Methods of Combinatorics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/584/)
Combinatorial methods and other mathematical methods for combinatorial problems. Enumeration by bijections and generating functions, probabilistic methods for existence proofs and asymptotic analysis, randomized algorithms, Ramsey's theorem and related topics, combinatorial designs and their applications, geometric problems and methods. Same as CS 575. Prerequisite: MATH 580 or consent of instructor.

MATH 585  Probabilistic Combinatorics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/585/)
Techniques and applications of probabilistic methods in combinatorics. Draws applications from a variety of areas, but emphasizes theoretical aspects of random graphs, including connectivity, trees & cycles, planarity, and coloring problems. Techniques include the second moment method, Lovasz Local Lemma, martingales, Talgrand's Inequality, the Rodl Nibble, and Szemeredi's Regularity Lemma. Applications may come from discrete geometry, coding theory, algorithms & complexity, additive number theory, percolation, positional games, etc. Prerequisite: MATH 580 or consent of instructor.

MATH 586  Algebraic Combinatorics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/586/)
Prepares students for research in modern algebraic combinatorics by focusing on its three principal components: enumerative techniques, symmetric functions, and multivariate polynomials. 4 graduate hours. No professional credit. Prerequisite: MATH 580 or consent of instructor.
MATH 589  Conjugate Duality and Optim  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/589/)
Convex analysis for constrained extremum problems; convex sets, cones, and functions; separation; Fenchel transform; duality correspondences;
differential theory; nonlinear programming; sensitivity; and perturbational duality for primal, dual, and Lagrangian problems. Prerequisite: MATH 415
and MATH 447, or consent of instructor.

MATH 593  Mathematical Internship  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/MATH/593/)
Full-time or part-time practice of graduate-level mathematics in an off-campus government, industrial, or research laboratory environment. Summary
report required. 0 graduate credit. No professional credit. Approved for S/U grading only. May be repeated in separate terms.

MATH 595  Advanced Topics in Mathematics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/595/)
See Class Schedule for current topics. 1 to 4 graduate hours. No professional credit. May be repeated in the same or separate semesters. Prerequisite:
Consent of instructor.

MATH 597  Reading Course  credit: 1 to 8 Hours. (https://courses.illinois.edu/schedule/terms/MATH/597/)
Independent study in Mathematics. 1 to 8 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated in the same or
separate terms, with a maximum of 8 hours per semester. Prerequisite: Consent of instructor.

MATH 598  Literature Seminar in Math  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/598/)
Seminar on topics of current interest in mathematics. Students present seminars and discussions on various topics. See Class Schedule for current
topics. Recommended for all Mathematics students. 0 to 4 graduate hours. No professional credit. Approved for Letter and S/U grading. May be
repeated in the same or separate semesters as topics vary. Prerequisite: Consent of instructor.

MATH 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/MATH/599/)
Approved for S/U grading only. May be repeated. Prerequisite: Consent of instructor.
Courses

MBA 500  Issues in Business  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/MBA/500/)
MBA students are faced with a wide variety of issues in the workplace. This course will introduce and encourage discussions related to careers, transitions, leadership, ethics, and uses of technology in the workplace. Guest lecturers and experts in their field will discuss different approaches to these issues and give students the opportunity to discuss strategies and practice skills that will prepare them for the business environment. 0 graduate hours. No professional credit. Approved for Letter and S/U grading. Prerequisite: Co-requisite MBA 501 and MBA 502.

MBA 501  Foundations of Business I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MBA/501/)
Provides foundations in the form of principles, concepts, tools, and skills important both to the study of business and to the development of business acumen. Specific foundation topics include planning and measuring firm resources, economic theory of the firm, decision making under uncertainty, consumer behavior, financial management, business communication and computing. May be repeated in the same term. Credit is not given for MBA 501 and either ACCY 500, BADM 520, BADM 572, or ECON 567. Prerequisite: Admission to the Master of Business Administration program.

MBA 502  Foundations of Business II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MBA/502/)
Provides additional foundations in the form of principles, concepts, tools, and skills important both to the study of business and to the development of business acumen. Specific foundation topics include organizational theory and design, financial accounting and reporting, manufacturing and services processes, marketing management, business communications and computing. May be repeated in the same term. Credit is not given for MBA 502 and either ACCY 500, BADM 509, BADM 520, or BADM 567. Prerequisite: Enrollment in good standing in the MBA program.

MBA 503  Prin & Proc of Management I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MBA/503/)
Presents management topics important to the study of business organizations and the economic landscapes within which they exist. Specific topics include financial resources management, human resources management, strategic management and management of technology. May be repeated in the same term. Students who receive credit for MBA 503 may not receive credit for the following courses: FIN 520, BADM 508, and BADM 544. Prerequisite: Enrollment in good standing in the MBA program.

MBA 504  Prin & Proc of Management II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MBA/504/)
Presents additional management topics important to the study of business organizations and the economic landscapes within which they exist. Specific topics include financial management, global strategy, decision and risk analysis, leadership, and ethics. May be repeated in the same term. Prerequisite: Enrollment in good standing in the MBA program.

MBA 505  Topics in Management  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MBA/505/)
Special topics important to the study of business and management. Examples of topics include international business, strategic thinking, operations analysis, project management, information technology, negotiations. May be repeated in the same term. Prerequisite: Enrollment in good standing in the MBA program.

MBA 520  Corporate and Global Strategy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MBA/520/)
Focuses on key issues in formulating and implementing corporate strategies with an emphasis on the international operations of firms. Issues are approached from the orientation of the general manager, whose job is to diagnose what is critical in complex business situations and find realistic solutions to strategic and organizational problems. Designed to integrate various functional areas and provide a "total business" perspective on issues pertaining to corporate and international strategy. Builds on learning experiences in previous modules, and acts as an integrative capstone module. Prerequisite: Completion of the first year of the Master of Business Administration Program, including MBA 501, MBA 502, MBA 503, MBA 504, and MBA 505.

MBA 530  Internship  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/MBA/530/)
Approved for S/U grading only. May not be repeated for credit. Prerequisite: Completion of first year of Master of Business Administration program.

MBA 531  Special Projects  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MBA/531/)
Individual projects selected by the student in consultation with a faculty member and approved by the executive officer of the program. Approved for letter and S/U grading. May be repeated in the same or subsequent terms to a maximum of 12 hours. Prerequisite: Completion of first year of Master of Business Administration program.

MBA 541  Marketing in a Digital World  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MBA/541/)
Explores new digital tools and students will discuss the dynamic of power shifting from firms to consumers. Managers will learn how to use these tools to strengthen their marketing efforts, while consumers will learn how to use these tools to enhance their consumption experience. This course also reviews the foundations of marketing (i.e., product, promotion, placement, and price) and discusses how these foundations are being shifted by the rise of new digital tools. A variety of learning techniques will be used, including video lectures, case studies, and interviews with both digital marketers and digital consumers. The learning approach will be highly interactive; and students will have the opportunity to engage in a variety of hands on activities, such as offering new product ideas to various companies. 2 graduate hours. No professional credit. Credit is not given for both MBA 541 and BADM 590, Marketing in a Digital World.
MBA 542  Digital Marketing Analytics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MBA/542/)
Introduces students to the science of web analytics while casting a keen eye toward the artful use of numbers found in the digital space. The goal is to provide the foundation needed to apply data analytics to real-world challenges marketers confront daily. Students will learn to identify the web analytic tool right for their specific needs; understand valid and reliable ways to collect, analyze, and visualize data from the web; and utilize data in decision making for agencies, organizations or clients. 4 graduate hours. No professional credit. Credit is not given for both MBA 542 and BADM 590, Digital Marketing Analytics.

MBA 543  Digital Media & Marketing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MBA/543/)
Aims to give students ample understanding of the critical role of digital media as the delivery channels of marketing communication and the impacts of digital revolution in marketing and the rise of marketing technology industry, through interaction with the instructor, the content, and other students in the course. 4 graduate hours. No professional credit. Credit is not given for both MBA 543 and BADM 590, Digital Media & Marketing.

MBA 544  Marketing in an Analog World  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MBA/544/)
Begins with an exploration of the key differences between the Analog and the Digital and then examine four ways in which the Analog World has been affected by the Digital Revolution: Domination, Resistance, Synergy, and Transformation. Several examples of each of these concepts and explore their implications for both marketers and consumers will be explored. This course will also employ a variety of learning techniques, including video lectures, case studies, hands-on exercises, and interviews with leading marketing scholars. The learning approach will be highly interactive. 2 graduate hours. No professional credit. Credit is not given for both MBA 544 and BADM 590, Marketing in an Analog World.

MBA 545  Marketing in Our New Digital World  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MBA/545/)
Offers a strategic perspective and examination on how the digital revolution is changing the marketing landscape. We will explore this new digital realm and discuss its revolutionary impact upon both firms and consumers. This exploration comes in two parts. In the first part (the first four weeks), we will explore how the digital revolution has affected our analog (or physical) world. Specifically, we will examine four ways in which the Analog World has been affected by the Digital Revolution: Domination, Resistance, Synergy, and Transformation. In the second part (the second four weeks), we will review the foundations of marketing (i.e., product, promotion, placement, and price) and examine how these foundations are being shifted by the rise of the digital revolution. In this portion of the course, we will explore a variety of new digital concepts and tools, including, customer co-creation, user-generated content, and 3D printing. This course will contain several examples of each of these concepts and explore their implications for both marketers and consumers. This course will also employ a variety of learning techniques, including video lectures, case studies, hands-on exercises, and interviews with leading marketing scholars. The learning approach will be highly interactive; you will have the opportunity to engage in a variety of hands-on activities and be a member of a rich learning community. I hope you will join us in this educational adventure. Please note that this is not an e-commerce class. We will not examine social media analytics, search engine optimization, or other digital marketing tactics. The other courses in our Digital Marketing Specialization will cover these topics in considerable detail. Instead, this course is broader in focus and more strategic in orientation. 4 graduate hours. No professional credit.

MBA 546  Global Business Horizons  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MBA/546/)
This course provokes an appreciation for the global challenges as well as opportunities that lie ahead and the important role that businesses can play in addressing these challenges. This course will consist of two immersive and interactive experiences organized around understanding global challenges and designing business solutions on the topics of poverty and environmental sustainability. 4 graduate hours. No professional credit. Credit is not given for both MBA 546 and BADM 590, Global Business Horizons.

MBA 547  Global Impact: Cultural Psychology & Business Ethics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MBA/547/)
This course enables students to understand how globalization changes consumers at a psychological level, and provides tools for infusing brands with cultural meanings—creating iconic brands—that can resonate with global consumers. The focus is on understanding that culture exists in the mind (e.g., values and beliefs) as well as in the environment (e.g., objects, brands, and institutions), and that globalization creates multi-cultural spaces in contemporary societies. In addition, this course seeks to examine the ways in which people evaluate problems associated with human conduct and moral conflict. This course in business ethics and corporate responsibility seeks to bridge the gap between the moral behavior of the individual as a private citizen and the challenges afford by organized business activity in the marketplace. 4 graduate hours. No professional credit. Credit is not given for both MBA 547 and BADM 590, Global Impact: Cultural Psychology & Business Ethics.

MBA 548  Global Strategy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MBA/548/)
This course seeks to understand how firms adapt to, react towards, and shape the global economy. Students should be able to evaluate markets and the best strategies firms should follow when operating globally. 4 graduate hours. No professional credit. Credit is not given for both MBA 548 and BADM 590, Global Strategy.

MBA 551  Strategic Innovation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MBA/551/)
This course will cover the strategic perspective on innovation and the management side of innovation efforts – leadership and design of innovation initiatives such that employees are able to effectively execute them. It also covers how to successfully implement innovation efforts while working alongside established businesses at the same firm, the challenges of leading product development teams, the analysis of planning and evaluation systems for innovation initiatives, and how to manage innovation when the initiative spans organizational boundaries. 4 graduate hours. No professional credit. Credit is not given for both MBA 551 and BADM 590, Strategic Innovation.

MBA 552  Fostering Creative Thinking  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MBA/552/)
This course will examine what prompts us to be creative, how to navigate the process of generating creative ideas, how to help our teams be creative, how to evaluate the ideas we generate, and how to pitch ideas so that others appreciate them. The end result is that you will be able to think more flexibly, make wiser decisions, generate more effective solutions, get more out of your teams, reject fewer good ideas, and communicate more effectively. 4 graduate hours. No professional credit. Credit is not given for both MBA 552 and BADM 590, Fostering Creative Thinking.
MBA 553  Entrepreneurship: From Startup to Growth  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MBA/553/)
Will explore the earlier stages of the entrepreneurial venture process. The course modules will be focused on practical ideas and techniques that entrepreneurs can use to evaluate the potential of market opportunities and make decisions about whether to pursue them in a startup company. This course will also build on concepts, outline strategies, and tactics for forming, financing, and launching the new venture. Topics to be addressed will include developing a go-to-market strategy, selecting appropriate revenue and pricing strategies, preparing financial models, raising startup and initial growth financing, and preparing for and managing growth. 4 graduate hours. No professional credit. Credit is not given for both MBA 553 and BADM 590, Entrepreneurship: From Startup to Growth.

MBA 561  Introduction to Business Analytics with R  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MBA/561/)
For businesses to capitalize on data analytics, they need leaders who understand the data analytic process. Even more valuable are leaders who know how to analyze big data. This course addresses the human skills gap by providing a foundational set of data analytic skills that can be applied to many business settings. You will gain first-hand experience with key steps of the data assembly process, as well as with tools for communicating data analytic results. Specifically, you will have the opportunity to install R, a popular data analytic language. You will also install and gain familiarity with RStudio, and integrated development environment (IDE), that makes it easier to code with R. You will also be introduced to notebooks and dashboards—powerful tools for communicating code and analytic results. Finally, you will get some practice executing some data manipulation tasks that are required before data can be analyzed with machine learning algorithms. 2 graduate hours. No professional credit. Credit is not given for both MBA 561 and BADM 590, section title "Introduction to Business Analytics: Data and the Firm".

MBA 562  Introduction to Business Analytics: Communicating with Data  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MBA/562/)
Introduces students to the science of business analytics while casting a keen eye toward the artful use of numbers found in the digital space. The goal is to provide businesses and managers with the foundation needed to apply data analytics to real-world challenges they confront daily in their professional lives. Students will learn to identify the ideal analytic tool for their specific needs; understand valid and reliable ways to collect, analyze, and visualize data; and utilize data in decision making for their agencies, organizations or clients. 2 graduate hours. No professional credit. Credit is not given for both MBA 562 and BADM 590, Introduction to Business Analytics: Communicating with Data.

MBA 563  Data Toolkit: Business Data Modeling & Predictive Analytics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MBA/563/)
The ultimate goal for data analytics in business is to obtain actionable insight. In this course, you will learn to use several tools—including the most important tool, your mind—for processing business data to gain that insight. You will perform tasks including extracting, transforming and loading (ETL) data to conducting exploratory data analytics (EDA). You will also gain experience in finding patterns in the data by using machine learning (ML) algorithms. You will develop a conceptual foundation for why ML algorithms are useful and how the resulting models from those algorithms are used to find actionable insight related to business problems. In the end, you will be equipped with the skillset to evaluate when an algorithm should be used and the ability to run these algorithms with R and RStudio and communicate the results using notebooks. Completion of this course requires downloading and using certain software on specific operation systems; details can be found in the course syllabus. 4 graduate hours. No professional credit. Credit is not given for both MBA 563 and BADM 590, Data Toolkit: Business Data Modeling & Predictive Analytics.

MBA 564  Data Analytics Applications in Business  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MBA/564/)
Develops students’ knowledge regarding the role, methods, and implications of business and data analytics in business. Application opportunities span multiple areas of business. Special topics may include marketing, finance, supply chain, and accounting. Topics covered may include forecasting using time series models, modern portfolio theory, measurement and scaling, A/B testing, ANOVA, and conjoint analysis. 2 graduate hours. No professional credit. May be repeated in the same or separate semesters, if topics vary. Credit is not given for both MBA 564 and MBA 592.

MBA 565  Infonomics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MBA/565/)
This course provides a non-technical perspective on and methods for monetizing, managing and measuring information as if it were any other kind of corporate asset. Topics also will include information’s unique economic characteristics and legal status, the importance of alternative data sources, new and emerging information-related roles, and concerns surrounding information ownership, sovereignty, privacy, and ethics. 4 graduate hours. No professional credit. Credit is not given for both MBA 565 and MBA 592.

MBA 590  Specialization Capstone  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/MBA/590/)
This course covers various topics from each iMBA Specialization. Group projects and individual assignments will be required. Students are required to take 2 Specialization Capstones for their iMBA degree. Additional fees may apply. See Class Schedule. 0 graduate hours. No professional credit. Approved for S/U grading only. May be repeated if topics vary; student cannot take the same section more than once.

MBA 591  Program Capstone  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/MBA/591/)
This course is the final course of the University of Illinois iMBA degree and is designed to bridge the ‘knowing – doing’ gap, challenging students to apply their iMBA courses, work experience, industry acumen, business knowledge and skills. Students will work through a case study in which the deliverables for each module will build upon one another. The course culminates with the final case presentation. 0 graduate hours. No professional credit. Approved for S/U grading only.

MBA 592  Current Topics in Business  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MBA/592/)
Subject offerings of new and developing areas of knowledge in Business. See Class Schedule or departmental course information for topics. 0 to 4 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated up to a maximum of 20 hours in the same semester and a maximum of 30 hours in separate semesters.

Information listed in this catalog is current as of 01/2022
MCB - Molecular and Cell Biology

MCB Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/MCB/)

Courses

MCB 100  Introductory Microbiology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/100/)
Introduction to the principal activities and properties of microorganisms, including bacteria, yeasts, molds, and viruses; consideration of the role of natural processes, such as photosynthesis; and man's use and control of microorganisms in the production of antibodies and vaccines in industrial fermentations, in sanitation and public health, and in agriculture. Credit is not given for both MCB 100 and MCB 300. Prerequisite: There are no prerequisites for MCB 100, but some chemistry is recommended.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

MCB 101  Intro Microbiology Laboratory  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/101/)
Laboratory introduction to the techniques employed in the investigation of microbial activities and properties; experiments designed to familiarize the student with the handling, identification, and characterization of microorganisms and their activities, particularly those of interest to man. Credit is not given for both MCB 101 and MCB 301. Prerequisite: Credit or concurrent registration in MCB 100.

MCB 150  Molec & Cellular Basis of Life  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/150/)
Introductory course focusing on the basic structure, metabolic, and molecular processes (including membranes, energy metabolism, genes) common to all cells. Emphasis on unique properties that differentiate the major sub-groups of organisms (Archaea, Bacteria, plants, and animals), and will discuss how cells are integrated into tissues and organs in multicellular organisms.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

MCB 151  Molec & Cellular Laboratory  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/151/)
Introductory laboratory course focusing on basic techniques in molecular and cellular biology. Credit is not given for MCB 151 for students majoring in Molecular and Cellular Biology, or Integrative Biology; Credit is not given for both MCB 151 and MCB 251. Prerequisite: Concurrent enrollment in MCB 150.

MCB 170  Society and the Brain  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/170/)
Presents recent findings concerning the brain-society interaction. The facts will span many levels, from molecular and cellular interactions, to the functions of specific brain regions, and on to the behaviors of individuals, groups and societies. Intended to bring a broad range of neurobiological data and ideas into an interesting and relevant context.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

MCB 180  Human Reproduction & Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/180/)
Lectures and discussions on topics in human reproduction where technological and clinical advances are having economic, social, and ethical consequences.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

MCB 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/MCB/199/)
Approved for letter and S/U grading. May be repeated to a maximum of 10 hours.

MCB 215  Foundation in Mol & Cell Bio  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/215/)
Online course that will provide transfer students with the essential bases in Molecular and Cellular Biology needed to succeed in the MCB core curriculum, when entering it at the sophomore level. Students will be exposed to the major concepts and the experimental aspects of MCB and be presented with an integrated view of a cell and its inner workings. In addition, a strong peer mentoring program will help students transitioning from their previous institutions by introducing them to the complex setting of a large undergraduate campus. Prerequisite: Successful completion of two semesters of college biology. Credit or concurrent enrollment in CHEM 101, CHEM 102, or equivalent, or consent of instructor.

MCB 244  Human Anatomy & Physiology I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/244/)
Organ system biology with an emphasis on normal human anatomy and physiology, physiological processes and associated disease processes of the following systems; skeletal, muscle, nervous, sensory, and endocrine. Prerequisite: Credit or concurrent enrollment in CHEM 101, CHEM 102, or equivalent; or consent of instructor.

Information listed in this catalog is current as of 01/2022
MCB 245  Human Anat & Physiol Lab I  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/MCB/245/](https://courses.illinois.edu/schedule/terms/MCB/245/))
Laboratory exploration of normal human anatomy and physiology and relevant disease processes for the following systems: tissue, skeletal, nervous, muscular, sensory, and endocrine. Previously dissected human cadavers are an important part of the learning experience in this course, but students will not dissect human cadavers. Neither animal dissection or animal use are elements of this course. Prerequisite: Consent of instructor.

MCB 246  Human Anatomy & Physiology II  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MCB/246/](https://courses.illinois.edu/schedule/terms/MCB/246/))
Organ system biology with an emphasis on normal human anatomy and physiology, physiological processes and associated disease processes of the following systems: digestive, cardiovascular, respiratory, renal, and reproductive. Prerequisite: MCB 244 and credit or concurrent enrollment in CHEM 101, CHEM 102, or equivalent; or consent of instructor.

MCB 247  Human Anat & Physiol Lab II  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/MCB/247/](https://courses.illinois.edu/schedule/terms/MCB/247/))
Laboratory exploration of normal human anatomy and physiology and relevant disease processes for the following systems: digestive, cardiovascular, respiratory, renal, and reproductive. Previously dissected human cadavers are an important part of the learning experience in this course, but students will not dissect human cadavers. Neither animal dissection or animal use are elements of this course. Prerequisite: MCB 245 and credit or concurrent enrollment in CHEM 101, CHEM 102, or equivalent; or consent of instructor.

MCB 250  Molecular Genetics  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MCB/250/](https://courses.illinois.edu/schedule/terms/MCB/250/))
Fundamentals of molecular biology including structure of DNA, RNA and proteins, mechanisms of DNA replication, transcription and translation, gene organization, genetic variation and repair, and regulation of gene expression in Bacteria, and Eukarya. Students who enter the University Fall 2011 or later are responsible for additional course-based tuition of $300 unless they are already paying differential tuition during the term of course enrollment. Additional fees may apply. See Class Schedule. Prerequisite: MCB 150, CHEM 102 and CHEM 104, or equivalents or consent of instructor.

MCB 251  Exp Techniqs in Molecular Biol  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/MCB/251/](https://courses.illinois.edu/schedule/terms/MCB/251/))
Laboratory course emphasizing a range of molecular biology questions, and the experimental approaches and methodologies needed to answer these questions. Lectures will accompany labs to explain theoretical background and experimental rationale. Students who enter the University Fall 2011 or later are responsible for additional course-based tuition of $300 unless they are already paying differential tuition during the term of course enrollment. Additional fees may apply. See Class Schedule. Prerequisite: MCB 250 or equivalent with consent of instructor.

MCB 252  Cells, Tissues & Development  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MCB/252/](https://courses.illinois.edu/schedule/terms/MCB/252/))
Functional organization and physiology of cells and tissues, including cellular signaling, cellular interactions, and developmental processes. Students who enter the University Fall 2011 or later are responsible for additional course-based tuition of $300 unless they are already paying differential tuition during the term of course enrollment. Additional fees may apply. See Class Schedule. Prerequisite: MCB 250 or equivalent with consent of instructor.

MCB 253  Exp Techniqs in Cellular Biol  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/MCB/253/](https://courses.illinois.edu/schedule/terms/MCB/253/))
Laboratory course emphasizing experimental techniques in cellular biology, cellular physiology, and developmental biology. Students who enter the University Fall 2011 or later are responsible for additional course-based tuition of $300 unless they are already paying differential tuition during the term of course enrollment. Additional fees may apply. See Class Schedule. Credit is not given for both MCB 253 and MCB 151. Prerequisite: Concurrent or prior enrollment in MCB 250 or consent of instructor.

MCB 270  Medical Genetics  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MCB/270/](https://courses.illinois.edu/schedule/terms/MCB/270/))
Addresses key issues in medical genetics, defined as human genetics for pre-health care professionals. The course covers basic principles of medical ethics, modes of inheritance, the molecular basis of genetic disorders, treatment approaches, gene therapy and emerging technologies like whole genome sequencing. Prerequisite: MCB 252 or equivalent or consent of instructor.

MCB 290  Undergraduate Research  credit: 1 to 5 Hours. ([https://courses.illinois.edu/schedule/terms/MCB/290/](https://courses.illinois.edu/schedule/terms/MCB/290/))
Students assist in and/or conduct research under faculty supervision in an MCB research laboratory. The topics and nature of the work will vary but will be defined as work conducted in MCB research laboratories. For each hour of course credit in fall and spring terms, the student will be expected to complete 5 hours of work in the lab as directed. 75-80 total hours would be the expectation for 1 credit hour during 15-16 week terms. May be repeated to a maximum of 10 hours. Prerequisite: Consent of instructor.

MCB 292  Experiential Learning in MCB  credit: 1 or 2 Hours. ([https://courses.illinois.edu/schedule/terms/MCB/292/](https://courses.illinois.edu/schedule/terms/MCB/292/))
Supervised experiential learning activity related to the major of or career development within Molecular and Cellular Biology. Requires an Experiential Learning Proposal prior to the term, a minimum time commitment of 75 documented hours per credit hour within the term, regular documentation and reflection within the term, and a final culminating project at the end of the term. Approved for S/U grading only. Prerequisite: Restricted to declared undergraduates in any School of MCB major.

MCB 297  MCB Honors Discussion  credit: 1 Hour. ([https://courses.illinois.edu/schedule/terms/MCB/297/](https://courses.illinois.edu/schedule/terms/MCB/297/))
Honors discussion section associated with MCB 250, MCB 252, and MCB 354. Concurrent enrollment in the appropriate lecture course is required. May be repeated in separate terms to a maximum of 3 hours.

MCB 298  MCB Honors Lab Discussion  credit: 1 Hour. ([https://courses.illinois.edu/schedule/terms/MCB/298/](https://courses.illinois.edu/schedule/terms/MCB/298/))
Discussion section associated with the Honors lab sections of MCB 251 and MCB 253. Concurrent enrollment in the appropriate Honors lab section is required. May be repeated in separate terms to a maximum of 2 hours.

MCB 299  MCB Merit Program Discussion  credit: 1 Hour. ([https://courses.illinois.edu/schedule/terms/MCB/299/](https://courses.illinois.edu/schedule/terms/MCB/299/))
Provides the extra earned credit hours for students enrolled in the Merit Program in MCB 250, MCB 252, or MCB 354. Approved for letter and S/U grading. May be repeated up to 6 hours in a semester, to a maximum of 10 total hours. Prerequisite: Consent of instructor.

Information listed in this catalog is current as of 01/2022
MBE 300 Microbiology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/300/)
Emphasizes fundamental concepts of microbiology, including nutrition, physiology, genetics, molecular biology, ecology and evolution of microorganisms, and their role in nature, human health and disease. Credit is not given for both MCB 300 and MCB 100. Prerequisite: MCB 250 and credit or concurrent registration in MCB 252 or consent of instructor.

MBE 301 Experimental Microbiology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/301/)
Laboratory emphasizing the fundamentals of microbiology. Topics include growth, isolation, and identification of bacteria; restriction endonuclease analysis of DNA, genetic cloning, and gene transfer. Computer methods are used for the identification of microorganisms and for the analysis of recombinant DNA molecules. Prerequisite: MCB 250 and 251 and credit or concurrent registration in MCB 300, or consent of instructor.

MBE 314 Introduction to Neurobiology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/314/)
Introduction to functional and organizational principles of the mammalian nervous system. Topics include the function of nerve cells, neural signaling, sensory and motor systems, learning and memory, attention, motivation, emotions, language, neural development and neurodevelopmental disorders. A general introduction appropriate for all majors. Same as NEUR 314. Prerequisite: Junior or senior standing.

MBE 316 Genetics and Disease credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/316/)
Introduction of the structure, expression, and regulation of genes of higher eukaryotes with an emphasis upon animal cells. Specific topics will include chromatin structure and its relation to gene expression, regulation of gene expression during development, recombination, molecular genetic technologies, gene replacement therapy, and the molecular genetics of cancers. Credit is not given for both MCB 316 and MCB 317. Prerequisite: MCB 150 and credit or concurrent registration in MCB 250 or consent of instructor.

MBE 317 Genetics and Genomics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/317/)
Study of genetics as a discipline, genetic analysis as a tool to understand biology and the role of genome sciences in biology. Credit is not given for both MCB 317 and MCB 316. Prerequisite: MCB 250, MCB 251, MCB 252, and MCB 253; or consent of instructor.

MBE 320 Mechanisms of Human Disease credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/320/)
The advent of molecular biology and the Human Genome Project has dramatically increased our understanding of the mechanisms of human disease. The underlying molecular causes for many diseases have been elucidated. This course examines how abnormalities that occur at the molecular and cellular level manifest as pathologies affecting the structure and function of human tissues and organs. In addition, this course focuses on the pathophysiology of common human diseases and the environmental, genetic and epigenetic causes of specific disease types. Prerequisite: MCB 252 or consent of instructor.

MBE 354 Biochem & Phys Basis of Life credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/354/)
Introduction to biochemistry and structural biology emphasizing the physical and chemical properties of macromolecules. Credit is not given for both MCB 354 and MCB 450. Prerequisite: CHEM 232 or CHEM 236, and MCB 250 and MCB 252, or consent of instructor.

MBE 364 Eukaryotic Cell Biology Laboratory credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/364/)
Laboratory course emphasizing biochemical, immunological and molecular biological techniques used to probe the molecules and processes of eukaryotic cells. Special emphasis will be given to the cell cycle, intracellular trafficking, and cellular differentiation. Students will also learn proper data handling and reporting techniques. Prerequisite: MCB 252 and MCB 253 or consent of instructor. Priority is given to undergraduate MCB and Biochemistry majors.

MBE 400 Cancer Cell Biology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/400/)
Principles of eukaryotic cell biology with an emphasis on cancer cell biology; consideration of molecular and fine structural components of the cell with an emphasis on experimental analysis of the relationship of structure to function of gene, membrane, cytoskeleton, and extracellular matrix. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 250, MCB 251, MCB 252, MCB 253, and credit or concurrent registration in MCB 354 or MCB 450 or consent of instructor.

MBE 401 Cellular Physiology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/401/)
Foundational principles of cellular physiology. Topics include solve/water transport, membrane bioelectricity, action potentials, ion channel physiology, neuromuscular transmission, muscle physiology, and central neurophysiology and plasticity. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 252 or consent of instructor.

MBE 402 Sys & Integrative Physiology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/402/)
Examines human systems physiology. Topics to be covered include the nervous and endocrine systems, muscle physiology, cardiac physiology, respiratory physiology, blood and immune homeostasis, renal physiology, and gastrointestinal physiology and energy homeostasis. Special emphasis is on homeostatic control and integration of body systems in both health and disease. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 252 or consent of instructor.

MBE 403 Cell & Membrane Physiology Lab credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/403/)
Experimental investigation of cellular functions common to most eukaryotic cells; emphasis on biochemical, electrical, and mechanical recording techniques. Some animal dissection and the use of animal tissues are required in this course. Alternatives are not available. Inquiries concerning the use of or the dissection of animal tissues can be directed to the Instructor or Head of the Department. 2 undergraduate hours. 1 graduate hour. Prerequisite: Credit or concurrent registration in MCB 401 and previous biology laboratory experience.
MCB 404  Sys & Integrative Physiol Lab  credit: 1 to 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/404/)
Experimental investigation of organ systems of vertebrates with emphasis on biochemical, electrical and physical recording techniques. Some animal
dissection and the use of animal tissues are required in this course. Alternatives are not available. Inquiries concerning the use of, or the dissection of
animal tissues can be directed to the instructor or Head of the Department. 2 undergraduate hours. 1 graduate hour. Prerequisite: Credit or concurrent
registration in MCB 402 and previous biology laboratory experience.

MCB 406  Gene Expression & Regulation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/406/)
Provides in-depth and up-to-date coverage of gene expression and regulation. Lectures are centered on the principles of regulating gene expression
in eukaryotic cells. The course covers macromolecular structure and function in gene expression; molecular mechanisms of the key gene expression
events including transcription, RNA processing, localization and translation. Applications of these principles in medicine and therapeutics such as
aging, cancer and drug design are also discussed. Same as BIOC 406. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 354 or consent of
instructor.

MCB 408  Immunology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/408/)
Introduction to fundamentals of immunology with emphasis on biological application; basic background for understanding immunological responses
and techniques applicable to biological research. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 250, MCB 251, MCB 252, MCB 253, and
MCB 354; or consent of instructor.

MCB 410  Developmental Biology, Stem Cells and Regenerative Medicine  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/410/)
Survey of molecular and cellular mechanisms involved in development and growth of animals, as well as recent advancement in stem cell and
Regenerative medicine research. Topics to be covered include fertilization and early cell lineage, body axis formation, gastrulation, neural induction
and patterning, segmentation, and other aspects of pattern formation including organogenesis and limb development, as well as embryonic stem
cells, induced pluripotent stem cells, adult stem cells, regeneration and regenerative medicine. 3 undergraduate hours. 3 graduate hours. Prerequisite:
MCB 252 or consent of instructor.

MCB 413  Endocrinology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/413/)
Physiology and biochemistry of the endocrine system and its hormones with special reference to vertebrates and to human endocrine disorders. 3
undergraduate hours. 3 graduate hours. Prerequisite: MCB 252 or consent of instructor. One semester of biochemistry is recommended.

MCB 419  Brain, Behavior & Info Process  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/419/)
Exploration of the neural basis of animal behavior. Emphasis on the information processing problems that animals face in complex natural
environments and how nervous systems have evolved to solve these problems. Introduction to the use of computer modeling and simulation
techniques for exploring principles of nervous system design and function. Current literature in computational neurobiology and neuroethology will be
incorporated in readings and class discussion. Same as BIOP 419 and NEUR 419. 3 undergraduate hours. 3 graduate hours. Prerequisite: CS 101; and
PHYS 102 or PHYS 212; and MCB 252; or equivalent or consent of instructor.

MCB 421  Microbial Genetics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/421/)
Prokaryotic microbial genetic systems; emphasis on typical data analyses, together with the basic classes of genetic phenomena. 3 undergraduate
hours. 3 graduate hours. Prerequisite: MCB 250 or consent of instructor.

MCB 424  Microbial Biochemistry  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/424/)
Examines the biochemical ecology of diverse microbial groups with emphasis on anaerobic systems. 3 undergraduate hours. 3 graduate hours.
Prerequisite: MCB 250 and MCB 354 or MCB 450, or consent of instructor.

MCB 426  Bacterial Pathogenesis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/426/)
Emphasizes prokaryotes that cause important diseases in humans and other animals; host-parasite bacteriology; and chemistry and genetics of
mechanisms of pathogenesis. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 300 and MCB 354, or consent of instructor.

MCB 428  Microbial Pathogens Laboratory  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/428/)
Laboratory study of methods of recognition and differentiation, diagnostic tests, and mechanisms of bacterial and viral pathogenesis. Topics include
infections of the urinary tract, respiratory tract, gastrointestinal tract, and sexually transmitted diseases. 2 undergraduate hours. 2 graduate hours.
Prerequisite: MCB 300 and MCB 301 or consent of instructor.

MCB 429  Cellular Microbiology &Disease  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/429/)
Emphasizes cell biology of infectious diseases, using cellular, molecular, and animal models. Will stress molecular cross-talk that drives host-pathogen
interactions, state-of-the art approaches for investigating host and microbial cell and molecular biology, latest paradigms in host cell biology, and the
evolutionary basis by which pathogens can manipulate host cell cytoskeleton, membranes, organelles, cell cycle, gene expression, and signaling in
eukaryotic cells. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 300 and MCB 354 or consent of instructor.

MCB 430  Molecular Microbiology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/430/)
Modern contributions to the science of microbiology; emphasizes the structure, function, and synthesis of informational macromolecules and on
the role microorganisms have played in molecular biology. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 300 and credit or concurrent
registration in MCB 354, or consent of instructor.

MCB 431  Microbial Physiology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/431/)
Examines bacterial physiology, including discussions of energetics, regulation of metabolism, and cell structure. 3 undergraduate hours. 3 graduate
hours. Prerequisite: MCB 300 or equivalent; credit or concurrent registration in a biochemistry course.
MCB 432 Computing in Molecular Biology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/432/)
Examination of computational aspects of biology with an emphasis on the relationships between biological questions and their recastings as mathematical or logical problems. Topics are drawn from biochemistry, genetics, molecular sequence analysis, and molecular structure. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 250, MCB 252, MCB 354, and calculus I (MATH 220 or MATH 221), and calculus II (MATH 231) or biostatistics (STAT 212); or consent of instructor.

MCB 433 Virology & Viral Pathogenesis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/433/)
Same as PATH 433. See PATH 433.

MCB 434 Food & Industrial Microbiology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/434/)
Same as FSHN 471. See FSHN 471.

MCB 435 Evolution of Infectious Disease  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/435/)
Understanding the evolution and ecology of the microbial world is of great importance to human health and the health of our planet. Students will explore the ecology and evolution principles that apply to viruses, microbial eukaryotes, archaea and bacteria. The primary literature on historical and emerging infectious diseases will be used to illustrate critical applications of these basic principles. Examples include applying genomics tools to understand the evolutionary basis for antibiotic resistance, the spread of emerging pathogens, and the ecology of probiotics and the human microbiome. The objective of this class is to better understand how humans shape the diversity and dynamics of the microbial world living in and around us every day. Same as IB 442. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 300 or consent of instructor.

MCB 436 Global Biosecurity  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/436/)
Designed to provide students with broad coverage of key areas of scientific, legal, social, ethical, and political aspects of biosecurity, emphasizing current problems and research in the areas of biodefense, emerging infectious diseases, synthetic biology, and other topics. In combination with related reading assignments, the weekly special topics-based seminar will integrate knowledge of modern biomedical research, advances in biotechnology, and natural and manmade biological threats with the skills to analyze and develop public policies and strategies for enhancing global biosecurity. 1 undergraduate hour. 1 graduate hour. Prerequisite: MCB 150 or the equivalent or consent of instructor.

MCB 442 Comparative Immunobiology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/442/)
Same as ANSC 450 and PATH 410. See ANSC 450.

MCB 446 Physical Biochemistry  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/446/)
Same as CHEM 472 and BIOC 446. See BIOC 446.

MCB 450 Introductory Biochemistry  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/450/)
Chemistry and metabolism of carbohydrates, lipids, proteins, nucleic acids, vitamins, and coenzymes and their relation to the regulation and processes of organisms, cells, and subcellular components. Students who enter the University Fall 2011 or later are responsible for additional course-based tuition of $300 unless they are already paying differential tuition during the term of course enrollment. Additional fees may apply. See Class Schedule. 3 undergraduate hours. 3 graduate hours. Credit is not given for both MCB 450 and MCB 354. Prerequisite: CHEM 232 or CHEM 236, or equivalent, or consent of instructor. Not intended for students in the MCB or biochemistry curricula.

MCB 458 Basic Human Pathology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/458/)
Introduction to the basic mechanisms of human disease with a focus on the building blocks of pathological processes at the sub-organismal and organismal level. Basic biological processes will be stressed including tissue adaptation, injury, inflammation, repair and neoplasia. Pathology synthesizes cellular and molecular biology, biochemistry and immunology holistically so as to understand the body's limited responses to the cornucopia of experienced physiological insults. 3 undergraduate hours. No graduate credit. Prerequisite: MCB 354 or equivalent, or consent of instructor. For MCB and Biochemistry undergraduates major only.

MCB 460 Neuroanatomy Laboratory  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/460/)
Laboratory course emphasizing the fundamentals of neuroanatomy. The major sensory, motor, and integrative neural systems of the human brain are explored. Based on an understanding of normal neural connections and brain function, the anatomical and physiological bases for multiple neurological disorders are also discussed. Primary literature and clinical case studies will inform discussions throughout the course. 2 undergraduate hours. 2 graduate hours. Prerequisite: MCB 314 or consent of instructor.

MCB 461 Cell & Molecular Neuroscience  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/461/)
Designed as an in-depth foundation course for graduate and undergraduate students with strong neuroscience interests. Covers up-to-date cellular and molecular neurobiology (including basic principles of neuronal function, signaling, and plasticity) and introductory brain anatomy that underlie brain function and animal behaviors. Pathogenic mechanisms of neurological diseases and disorders from the latest research will be heavily explored. Same as NEUR 461. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 252, MCB 250 or equivalent, or consent of instructor. May be taken concurrently with MCB 462.

MCB 462 Integrative Neuroscience  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/462/)
Employs integrative, multi-level systems approaches to nervous system and behavior. Focuses on neural circuits in sensory integration, pattern generation, the integration of sensation, internal states and learning in behavioral decision, the neuronal natures of pain, sleep, and biological rhythms, neuroeconomics, new views in neural modeling and interfacing brain and machine. Students are presented in neuroethological contexts of evolution and the economics of behavior and physiology. Same as NEUR 462. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 252 or consent of instructor. May be taken concurrently with MCB 461.
MCB 465  Human Metabolic Disease  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/465/)
Examination of the molecular and physiological basis of human metabolic disease. Disruption of metabolic and energy homeostasis plays key roles leading to metabolic disorders. We will examine how lipid/glucose levels and energy balance are controlled in health and how they are abnormally regulated in disease states. In addition, we will cover current topics related to control of metabolism including aging and circadian rhythms. Methodologies leading to scientific discoveries and potential preventive and therapeutic agents will also be discussed. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 250, MCB 252, or consent of instructor.

MCB 466  Neuro & Molecular Pharmacology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/466/)
Introduction to fundamental principles of pharmacology that provides a comprehensive understanding of the principles and concepts applied to modern pharmacology, including pharmacokinetics, pharmacodynamics, neuropharmacology, toxicology, drug development and clinical trials, and drugs targeting various diseases. Emphasis is placed on the mechanisms of action. The course will cover several classes of drugs, including anti-infective agents, autonomic/central nervous system modulators, neuropharmacology, anti-cancer therapeutics and drugs targeting the major organ systems of the body. In an active learning style, case studies and sample MCAT questions will be used to bring relevance to covered topics. This course is ideal for those interested in pharmacology, neuropharmacology, pharmacy, medicine, veterinary medicine, nursing, kinesiology, or graduate school in the life sciences. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 252 and MCB 354, or consent of instructor.

MCB 471  Cell Structure and Dynamics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/471/)
Molecular basis of cellular organization focusing on how cells secrete, move, adhere, divide, communicate, and die. Material will emphasize critical analysis of experiments, current controversies and hypothesis testing. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 250 and MCB 252 or consent of instructor. Prior or concurrent enrollment in MCB 354 desirable.

MCB 480  Eukaryotic Cell Signaling  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/480/)
General principles of molecular signaling regulating membrane, cytoplasmic, and nuclear events in eukaryotic cells with emphasis on mammalian systems. Contemporary methods of investigation and the principles of identifying and solving problems related to signal transduction will be emphasized. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 252 or consent of instructor.

MCB 492  Senior Thesis  credit: 3 to 5 Hours. (https://courses.illinois.edu/schedule/terms/MCB/492/)
Research conducted under the direction of a faculty member in the School of Molecular and Cellular Biology. Normally, the student enrolls in MCB 492 during the last semester on campus prior to graduation. In the semester preceding enrollment, interested students should consult with their faculty advisors concerning enrollment procedures. A minimum of 3 credit hours is required, and a thesis must be presented for credit to be received. Successful completion of MCB 492 is required in order to be eligible for graduation with distinction in MCB. 3 to 5 undergraduate hours. No graduate credit. Prerequisite: Two consecutive semesters of at least 2 credit hours of MCB 290 under the guidance of the same faculty member, or consent of instructor.

MCB 493  Special Topics Mol Cell Biol  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/493/)
Discussion of current topics of interest within the broad domain of molecular and cellular biology; seminar or lecture format. Topics vary. May be repeated to a maximum of 12 hours. Prerequisite: Junior standing and consent of instructor.

MCB 501  Advanced Biochemistry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/501/)
Focuses upon structure-function analyses of biomolecules and the chemical and evolutionary foundations of metabolic networks. Emphasis is on research methodology and current problems.

MCB 502  Advanced Molecular and Cell Biology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/502/)
An advanced course in molecular and cell biology. Emphasis is on research methodology and current problems. 4 graduate hours. No professional credit.

MCB 509  Curr Topics Mol & Int Physiol  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/509/)
Advanced seminars in current physiological research. May be repeated once for credit. Prerequisite: Consent of Instructor.

MCB 511  Mol Bio of Microbe-Plant Inter  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/511/)
Same as PLPA 509. See PLPA 509.

MCB 520  Advanced Molecular Biology  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/520/)
Advanced graduate level, primary literature-based discussion course on molecular microbiology. Graduate level companion course for MCB 430. Prerequisite: Concurrent registration in MCB 430 or consent of instructor.

MCB 521  Advanced Microbial Genetics  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/521/)
Advanced level, primary literature-based discussion course on microbial genetics. Graduate level companion course for MCB 421. Prerequisite: Concurrent or prior enrollment in MCB 421 or consent of instructor.

MCB 526  Adv Bacterial Pathogenesis  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/526/)
Advanced primary literature-based discussion course on bacterial pathogenesis. Graduate level companion course for MCB 426. Prerequisite: Concurrent or prior enrollment in MCB 426 or consent of instructor.

MCB 529  Special Topics in Cell and Developmental Biology  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/529/)
Discussion of current topics of interest in higher eukaryotic cellular and molecular biology, development, neurobiology; seminar or lecture format. Topics vary. 1 to 4 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated if topics vary, to a maximum of 8 hours. Prerequisite: Consent of Instructor.
MCB 530  Repro Physiol Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/530/)
Presentation and discussion of current literature as well as graduate student and staff research proposals and findings in reproductive physiology. May be repeated to a maximum of 4 hours. Prerequisite: Consent of instructor.

MCB 532  Advanced Microbial Physiology  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/532/)
Advanced primary literature-based discussion course on microbial physiology. Graduate level companion course for MCB 431. Prerequisite: Concurrent or prior registration in MCB 431 or consent of instructor.

MCB 533  Repro Physiology Lab Methods  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/533/)
Same as ANSC 533 and CB 533. See ANSC 533.

MCB 534  Advanced Microbial Metabolism  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/534/)
Advanced primary literature-based discussion course on microbial metabolism. Graduate level companion course for MCB 424. Prerequisite: Concurrent or prior enrollment in MCB 424 or consent of instructor.

MCB 539  Advanced Cellular Microbiology  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/539/)
Advanced primary literature-based discussion course on cellular microbiology and underlying infectious diseases. Graduate level companion course for MCB 429. Prerequisite: Concurrent or prior enrollment in MCB 429 or consent of instructor.

MCB 540  Scientific Writing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/540/)
Study of scientific communication, geared toward biologists. Topics include writing mechanics, grammar and sentence structure, abstracts for different audiences and purposes, grant writing, manuscript preparation, figure construction, oral presentations, and the grant-review process. Class consists of both lectures and time working in small groups to revise writing assignments. Assignments include weekly writing exercises, a full NIH-style grant proposal and grant reviews for a mock study section. 3 graduate hours. No professional credit.

MCB 542  Interdisciplinary Approaches to Neuroscience I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/542/)
Same as NEUR 542 and PSYC 542. See NEUR 542.

MCB 543  Interdisciplinary Approaches to Neuroscience II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/543/)
Same as NEUR 543 and PSYC 543. See NEUR 543.

MCB 545  Functional Genomics in Principle and Practice  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/545/)
Experimental and analytical foundations of functional genomics, tailored to experimental biologists who are using high-throughput sequencing technologies to analyze function in animal genomes. Lectures cover experimental methods and tools available for bioinformatics analysis; students will gain experience in the use of online or command-line bioinformatics tools through weekly assignments. Advanced knowledge in eukaryotic molecular genetics is needed but bioinformatics skills are not required. 3 graduate hours. No professional credit. Students must have access to a networked computer on which they can load software in order to complete required assignments for the course. Prerequisite: MCB 502 or equivalent or consent of instructor.

MCB 550  Biomolecular Physics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/550/)
Same as BIOP 550 and PHYS 550. See PHYS 550.

MCB 553  Enzyme Reaction Mechanisms  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/553/)
Same as CHEM 572. See CHEM 572.

MCB 555  Anlys Biochemical Literature  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/555/)
Discussions of current research and literature. Required of all graduate students whose major is biochemistry. Same as BIOC 555. Prerequisite: Second year graduate standing in biochemistry or consent of instructor.

MCB 561  Mechanisms Viral Pathogenesis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/561/)
Same as PATH 519. See PATH 519.

MCB 571  Bioinformatics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/571/)
Same as ANSC 543, CHBE 571, and STAT 530. See CHBE 571.

MCB 580  Res Ethics & Responsibilities  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/580/)
Lecture/discussion course focusing on research ethics and a variety of related issues that can influence success in graduate school in the biological sciences, including scientific integrity and compliance with regulations for laboratory research. Approved for letter and S/U grading. Prerequisite: Consent of instructor.

MCB 581  Laboratory Rotation I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/581/)
Laboratory research methods; familiarization of first-year graduate students with experimental methods used in molecular and cellular biology research. Required of all first-year students entering MCB. Meets first five weeks of each term. Approved for S/U grading only. Prerequisite: First-year graduate status and consent of MCB graduate programs; concurrent registration in MCB 582.

MCB 582  Laboratory Rotation II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/582/)
Laboratory research methods; familiarization of first-year graduate students with experimental methods used in molecular and cellular biology research. Required of all first-year students entering MCB. Meets second five weeks of each term. Approved for S/U grading only. Prerequisite: First-year graduate status and consent of MCB graduate programs; concurrent registration in MCB 581.
MCB 583  Laboratory Rotation III  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MCB/583/](https://courses.illinois.edu/schedule/terms/MCB/583/))
Laboratory research methods; familiarization of first-year graduate students with experimental methods used in molecular and cellular biology research. Required of all first-year students entering MCB. Meets third five weeks of each term. Approved for S/U grading only. Prerequisite: First-year graduate status and consent of MCB graduate programs; concurrent registration in MCB 581 and MCB 582.

MCB 585  Current Topics in Microbiology  credit: 1 Hour. ([https://courses.illinois.edu/schedule/terms/MCB/585/](https://courses.illinois.edu/schedule/terms/MCB/585/))
Discussions, reviews, and appraisal of special topics in microbiology and molecular biology; seminar or lecture. Topics vary. 1 graduate hour. No professional credit. Approved for S/U grading only. May be repeated to a maximum of 2 hours. Prerequisite: Consent of instructor.

MCB 586  Concepts/Topics Immunology  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/MCB/586/](https://courses.illinois.edu/schedule/terms/MCB/586/))
Same as PATH 518. See PATH 518.

MCB 595  MCB Graduate Seminar  credit: 1 Hour. ([https://courses.illinois.edu/schedule/terms/MCB/595/](https://courses.illinois.edu/schedule/terms/MCB/595/))
Advanced seminars on current topics of interest in molecular and cellular biology. Approved for S/U grading only. May be repeated in separate terms to a maximum of 4 hours. Prerequisite: Consent of instructor.
MDIA - Media

MDIA Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/MDIA/)

Courses

MDIA 100  College of Media Orientation  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MDIA/100/)
College of Media Orientation is designed to build academic and social integrity and to give students the resources they need to be responsible members of the University of Illinois community who earn degrees in a timely manner.

MDIA 199  Special Topics  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/199/)
Subject offerings of new and developing areas of knowledge and practice in the fields of media. The course is intended to augment the existing curriculum. See Class Schedule or college course information for topics and prerequisites. Approved for letter and S/U grading. May be repeated in the same term to a maximum of 6 hours if topics vary; may be repeated in separate terms to a maximum of 12 hours if topics vary.

MDIA 223  Watching the Environment  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/223/)
This course examines how films portray the health environment and the need for environmental protection. The course focuses on series of questions including: To what extent does a film suggest that the world has environmental concerns? What are the constraints that narrative form, production routines, financing and distribution put on representing environmental problems and environmentalists? Is the information in the film to be trusted? In documentaries, are physical and social scientists' explanations of environmental problems and solutions reliable? What cues can we use from within and outside the film to evaluate the film for credibility? During the course participants will compare the science and economics of selected environmental issues with film presentations, examine what drives of environmental participation (and the limits of film in presenting science), and look at the constraints of producing special interest versus broad distribution films on presentations of the environment. Class includes viewing blockbuster, Oscar, and award-winning documentaries. Lecture attendance is mandatory. Same as NRES 223.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

MDIA 290  Undergraduate Open Seminar  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/290/)
Experimental course on special topics pertinent to the disciplines studied within the College of Media. Topics will vary. Approved for letter and S/U grading. May be repeated in the same or separate terms to a maximum of 6 hours if topics vary.

MDIA 299  Media Study Abroad  credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/299/)
Provides credit toward the undergraduate degree for study at accredited foreign institutions or approved overseas programs. Final determination of credit is made upon the student's completion of the work. Approved for Letter and S/U grading. Prerequisite: One year of residence at UIUC; good academic standing, and prior approval of the College of Media.

MDIA 390  Special Topics in Media  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/390/)
Special topics course focusing on cultural, economic, historical, political, and social themes and issues that influence or are influenced by the media. Topics will vary. Additional fees may apply. See Class Schedule. Approved for Letter and S/U grading. May be repeated for a maximum of 6 hours if topics vary. Prerequisite: One year of Media courses, Junior or senior standing in the College of Media, or consent of instructor.

MDIA 400  Special Topics  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/400/)
Varying topics including the cultural, social, historical, legal, economic, political, and other issues that influence or are influenced by Media. 1 to 3 undergraduate hours. 1 to 3 graduate hours. May be repeated in the same or separate terms to a maximum of 6 hours if topics vary. Prerequisite: Previous classes in either AGCM, ADV, JOUR, or MACS.

MDIA 512  History of Libraries  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/512/)
Same as IS 512. See IS 512.

MDIA 524  Dev Psycholinguistics  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/524/)
Same as LING 524 and PSYC 524. See PSYC 524.

MDIA 525  Psycholinguistics  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/525/)
Same as LING 525 and PSYC 525. See PSYC 525.

MDIA 560  Feminist Media Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/560/)
Addresses major areas of theoretical debate or interest in the broad topic of “Feminist Media Studies” and looks in depth at a number of theoretical issues which define it. Develops an understanding of historical, psychoanalytic, interpretive, and social scientific approaches to the study of film and television texts, their reception, and their production. Readings are extensive and directed toward illustrating the range of theoretical and empirical approaches applied to addressing questions of central interest in the field. Viewings will emphasize some lesser-known historical texts central to theoretical debates in the field. Viewings and readings are focused on “popular” film and television. Same as GWS 560.

MDIA 568  Political Economy of Comm  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/568/)
Analyses the structure, policy, and behavior of such media of communication as newspapers, magazines, books, postal service, telegraph, telephone, broadcasting, and film; special emphasis on their relationships to the political order and the economy. Prerequisite: Consent of department.

MDIA 570  Popular Culture  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/570/)
Examines problems of cultural analysis related to the media of communications and the social implications of communications research.
MDIA 571  Proseminar I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/571/)
Addresses the mass media of communications, their role as social institutions, and their control and support. Examines evolution of research on mass media content, audience, and effects. Prerequisite: Consent of department.

MDIA 572  Proseminar II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/572/)
Addresses the problems of communications, including the individual as a communicating system, symbolic processes, analysis of messages, psycholinguistics, and language as social behavior. Prerequisite: Consent of department.

MDIA 573  Freedom of Expression  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/573/)
Examines the development of the Anglo-American press system and the idea of freedom of the press; explores contemporary mass media and their implications for freedom and democracy.

MDIA 575  Cultural Studies and Critical Interpretation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/575/)
Same as EPS 575 and ERAM 573. See ERAM 573.

MDIA 577  Philosophy of Technology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/577/)
Introduces students to those thinkers who understand technology philosophically as a central component in modern culture. Examines major perspectives on the nature of technology, rooted in Norbert Weiner, Karl Marx, and Martin Heidegger. Links media technologies, information systems, and global communications background problems and basic issues to technology more generally. Develops instrumentalism, feminist and critical approaches, ethical concerns, and alternative technologies in the context of technology as a cultural activity.

MDIA 578  Communication Ethics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/578/)
This course introduces the latest literature in, or directly relevant to, communication, media and information ethics. It examines current efforts in applied and professional ethics, feminist ethics, and social ethics to develop ethical models that are cross-cultural, gender inclusive and international. The major ethical issues are considered in such areas as global communication, new media technologies, information systems, news, and entertainment.

MDIA 580  Advanced Interpretive Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/580/)
Same as SOC 580. See SOC 580.

MDIA 590  Special Topics  credit: 2 to 8 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/590/)
May be repeated in the same or in multiple semesters if topics vary.

MDIA 592  Quantitative Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/592/)
Introduces the methods of empirical research in the behavioral sciences applicable to research problems in human communication, with emphasis on studies of mass communication. Lectures, readings, and laboratory practice.

MDIA 593  Qualitative Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/593/)
Introduces qualitative concepts and strategies in the social sciences and humanities which apply to research problems in mass communications.

MDIA 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/599/)
Approved for S/U grading only. May be repeated to a maximum of 16 hours.
MDVL - Medieval Studies

MDVL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/MDVL/)

Courses

MDVL 111   Ancient to Medieval Art   credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/111/)
Same as ARTH 111. See ARTH 111.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

MDVL 122   The Middle Ages in Popular Culture   credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/122/)
Same as ENGL 122. See ENGL 122.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

MDVL 201   Medieval Literature and Culture   credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/201/)
Same as CWL 253 and ENGL 202. See ENGL 202.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western

MDVL 216   Legends of King Arthur   credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/216/)
Same as CWL 216 and ENGL 216. See ENGL 216.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western

MDVL 222   Medieval Art   credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/222/)
Same as ARTH 222. See ARTH 222.

MDVL 231   Northern Renaissance Art   credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/231/)
Same as ARTH 231. See ARTH 231.

MDVL 240   Italy Middle Ages & Renaiss   credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/240/)
Same as CWL 240 and ITAL 240. See ITAL 240.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western

MDVL 245   Wives, Workers and Witches in Pre-Modern Europe   credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/245/)
Same as GWS 245 and HIST 245. See HIST 245.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

MDVL 247   Medieval Europe   credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/247/)
Same as HIST 247. See HIST 247.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

MDVL 251   Viking Mythology   credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/251/)
Same as CWL 251, REL 251, and SCAN 251. See SCAN 251.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

MDVL 252   Viking Sagas in Translation   credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/252/)
Same as CWL 252 and SCAN 252. See SCAN 252.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western

MDVL 255   British Isles to 1688   credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/255/)
Same as HIST 255. See HIST 255.
This course satisfies the General Education Criteria for:
- Humanities - Hist Phil
- Cultural Studies - Western

Information listed in this catalog is current as of 01/2022
MDVL 344 Medieval Jewish Thought  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/344/)
Same as JS 344 and REL 344. See REL 344.

MDVL 345 Medieval Civilization  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/345/)
Same as HIST 345 and REL 345. See HIST 345.

MDVL 346 The Age of the Renaissance  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/346/)
Same as HIST 346 and REL 346. See HIST 346.

MDVL 407 Introduction to Old English  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/407/)
Same as ENGL 407. See ENGL 407.

MDVL 410 Topics in Medieval British and Irish Literature  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/410/)
Same as CWL 417 and ENGL 412. See ENGL 412.

MDVL 411 Chaucer  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/411/)
Same as ENGL 411. See ENGL 411.

MDVL 412 Medieval Architecture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/412/)
Same as ARCH 412. See ARCH 412.

MDVL 413 Dante  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/413/)
Same as CWL 413 and ITAL 413. See ITAL 413.

MDVL 414 Petrarch & Boccaccio  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/414/)
Same as CWL 414 and ITAL 414. See ITAL 414.

MDVL 415 Classical Rhetorics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/415/)
Same as CLCV 415 and CMN 415. See CMN 415.

MDVL 417 Topics in the History of Romance Languages  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/417/)
Same as FR 417 and RMLG 417. See FR 417.

MDVL 420 Masterpieces Renaisss Lit  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/420/)
Same as CWL 420 and ITAL 420. See ITAL 420.

MDVL 423 Romanesque Art  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/423/)
Same as ARTH 423. See ARTH 423.

MDVL 424 Gothic Art  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/424/)
Same as ARTH 424. See ARTH 424.

MDVL 431 Topics: Northern Art 1300-1500  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/431/)
Same as ARTH 431. See ARTH 431.

MDVL 433 Fifteenth-Century Italian Art  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/433/)
Same as ARTH 433. See ARTH 433.

MDVL 440 Early Christian Thought  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/440/)
Same as REL 440. See REL 440.

MDVL 443 Byzantine Empire AD 284-717  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/443/)
Same as HIST 443. See HIST 443.

MDVL 444 Medieval England  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/444/)
Same as HIST 445. See HIST 445.

MDVL 460 Medieval Latin  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/460/)
Same as LAT 460. See LAT 460.

MDVL 470 Middle Ages to Baroque  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/470/)
Same as GER 470. See GER 470.

MDVL 500 Seminar in Medieval Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/500/)
Team-taught, interdisciplinary seminar on varying topics in Medieval Studies drawing on faculty from UIUC and invited scholars from other universities. Approved for letter and S/U grading. May be repeated to a maximum of 12 hours.

MDVL 501 Topics in Medieval Studies  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/501/)
Experimental and Temporary Courses. May be repeated in separate terms as topics vary.

MDVL 504 Genesis in History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/504/)
Same as REL 504. See REL 504.

MDVL 505 Old Norse-Icelandic I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/505/)
Same as SCAN 505. See SCAN 505.

Information listed in this catalog is current as of 01/2022
MDVL 506  Old Norse-Icelandic II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/506/)
Same as SCAN 506. See SCAN 506.

MDVL 512  Seminar in Medieval Architecture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/512/)
Same as ARCH 512. See ARCH 512.

MDVL 514  Seminar in Medieval Literature  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/514/)
Same as ENGL 514. See ENGL 514.

MDVL 515  Middle High German  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/515/)
Same as GER 515. See GER 515.

MDVL 522  Seminar in Medieval Art  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/522/)
Same as ARTH 522. See ARTH 522.

MDVL 530  Old High German  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/530/)
Same as GER 530. See GER 530.

MDVL 540  Seminar in N. Renaissance Art  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/540/)
Same as ARTH 531. See ARTH 531.

MDVL 542  Problems in Medieval History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/542/)
Same as HIST 542. See HIST 542.

MDVL 543  Research Seminar: Medieval  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/543/)
Same as HIST 543. See HIST 543.

MDVL 570  Seminar Old French Literature  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/570/)
Same as FR 570. See FR 570.

MDVL 571  Medieval German Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/571/)
Same as GER 571. See GER 571.

Information listed in this catalog is current as of 01/2022
ME - Mechanical Engineering

ME Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ME/)

Courses

ME 170  Computer-Aided Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ME/170/)
Geometry and topology of engineered components: creation of engineering models and their presentation in standard 2D blueprint form and as
3D wire-frame and shaded solids; meshed topologies for engineering analysis and tool-path generation for component manufacture; ISO and ANSI
standards for coordinate dimensioning and tolerancing; geometric dimensioning and tolerancing. Use of solid-modeling software for creating
associative models at the component and assembly levels with automatic blueprint creation, interference checking, and linked bill of materials. Credit
is not given for both ME 170 and GE 101 or SE 101.

ME 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/ME/199/)
May be repeated.

ME 200  Thermodynamics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ME/200/)
Classical thermodynamics through the second law; system and control-volume analyses of thermodynamic processes; irreversibility and availability;
relations for ideal gas mixtures. Prerequisite: MATH 241.

ME 270  Design for Manufacturability  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ME/270/)
Introduction to DFM methodologies and tools; material selection (new and traditional materials); designing for primary manufacturing processes
(cutting fundamentals, casting, forming, and shaping); designing with plastics (snap-fits, integral hinges, etc.); design for assembly (DFA); geometric
dimensioning and tolerancing (GD&T). Same as TAM 270. Prerequisite: ME 170. ME and EM majors only.

ME 290  Seminar  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ME/290/)
Lectures by faculty and invited authorities, concerning the ethics and practices of mechanical engineering/engineering mechanics, as well as its
relationship to other fields of engineering, to economics, and to society. Offered fall term only. Approved for S/U grading only.

ME 297  Introductory Independent Study  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/ME/297/)
Independent study and/or individual projects related to mechanical engineering. Approved for Letter and S/U grading. May be repeated to a maximum
of 6 credit hours for letter grade; no limit for S/U grade mode. Prerequisite: Consent of Instructor.

ME 310  Fundamentals of Fluid Dynamics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/310/)
Fundamentals of fluid mechanics with coverage of theory and applications of incompressible viscous and inviscid flows, and compressible high speed
flows. Credit is not given for both ME 310 and TAM 335. Prerequisite: MATH 285 OR MATH 286 OR MATH 441; credit or concurrent registration in
ME 200.

ME 320  Heat Transfer  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/320/)
Principles and application of heat transfer by conduction, convection, and thermal radiation. Prerequisite: MATH 285 or MATH 286 or MATH 441;
ME 310 or TAM 335; credit or concurrent registration in ME 200.

ME 330  Engineering Materials  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/330/)
Structures of polymers, metals, and ceramics as the basis for their mechanical behavior. Manipulation of structure through such processes as heat
treatment and solidification. Mechanics of material failure in service (yielding, fracture, fatigue, creep, corrosion, and wear) and simple design
techniques to avoid these failures. Strategies for materials selection in design. Credit is not given for both ME 330 and either CEE 300 or MSE 280.
Prerequisite: CHEM 102 and TAM 251.

ME 340  Dynamics of Mechanical Systems  credit: 3.5 Hours. (https://courses.illinois.edu/schedule/terms/ME/340/)
Dynamic modeling of mechanical components and systems; time-domain and frequency-domain analyses of linear time-invariant systems; multi-
degree-of-freedom systems; linearization of nonlinear systems. Credit is not given for both ME 340 and either SE 320 or AE 353. Prerequisite:
MATH 285 or MATH 286 or MATH 441; TAM 212; credit or concurrent registration in MATH 257 or MATH 415; credit or concurrent registration in
ECE 205.

ME 350  Engineering Thermodynamics  credit: 3.5 Hours. (https://courses.illinois.edu/schedule/terms/ME/350/)
Basic electromechanical techniques used in modern instrumentation and control systems. Use of transducers and actuators. Signal conditioning,
grounding, and shielding. Analog and digital signal processing and feedback control methods with emphasis on frequency domain techniques.
Frequency response of continuous and discrete systems. Credit is not given for both ME 350 and ABE 425. Prerequisite: ME 340.

ME 370  Mechanical Design I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ME/370/)
Kinematics and dynamics of machinery, including introduction to user-centered design and design thinking, analytical and computer-aided design of
kinematics, dynamic force analysis, principle of virtual work, cam and gear design, and balancing. Project-based learning of multi-mechanism system
design, analysis, fabrication, and evaluation. Prerequisite: ME 270, TAM 212, and TAM 251.

ME 371  Mechanical Design II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ME/371/)
Design and analysis of machinery for load-bearing and power transmission. Consideration of material failure modes, including yielding, fracture, and
fatigue. Design and selection of machine elements: threaded fasteners, springs, rolling-element bearings, fluid film lubrication, gears and friction
drives. Prerequisite: ME 330 OR CEE 300; ME 370.

Information listed in this catalog is current as of 01/2022
ME 400  Energy Conversion Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/400/)
Processes and systems for energy conversion, including power and refrigeration cycles, air conditioning, thermoelectrics and fuel cells; ideal-gas mixtures and psychrometrics. 3 undergraduate hours. 4 graduate hours. Prerequisite: ME 200.

ME 401  Refrigeration and Cryogenics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/401/)
Theory of operation and design of equipment for production of low temperatures, from below ambient to near absolute zero; industrial, consumer, aerospace, medical, and research applications. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Credit or concurrent registration in ME 320.

ME 402  Design of Thermal Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/402/)
Selection of components in fluid- and energy-processing systems to meet system-performance requirements; computer-aided design; system simulation; optimization techniques; investment economics and statistical combinations of operating conditions. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Credit or concurrent registration in ME 320.

ME 403  Internal Combustion Engines  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/403/)
Theory and analysis of reciprocating internal-combustion engines; fuels, carburetion, combustion, exhaust emissions, detonation, fuel injection, and factors affecting performance; laboratory work on variables that affect performance. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Credit or concurrent registration in ME 400 or ABE 466.

ME 404  Intermediate Thermodynamics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/404/)
Classical thermodynamics, including the TdS equations and the Maxwell relations; development of thermodynamic property relations, behavior of real gases, thermodynamics of mixtures, phase equilibrium and chemical reactions and equilibria with an emphasis on combustion reactions; statistical thermodynamics including the effect of molecular and atomic structure, statistical concepts and distributions, calculation of thermodynamic properties of gas-phase atoms and molecules, kinetic theory of gases, and vibrations in crystals and the electron gas in metals; selected applications. 4 undergraduate hours. 4 graduate hours. Credit is not given for both ME 404 and any of PHYS 427, CHEM 442, or CHEM 444. Prerequisite: ME 200.

ME 410  Intermediate Gas Dynamics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/410/)
Solution of internal compressible-flow problems by one-dimensional techniques, both steady and unsteady; flows with smooth and abrupt area change, with friction, with heat addition, and with mass addition; flows with weak and strong waves, multiple confined streams, and shock waves. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ME 200; ME 310, TAM 335 or AE 311.

ME 411  Viscous Flow & Heat Transfer  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/411/)
Same as AE 412. See AE 412.

ME 412  Numerical Thermo-Fluid Mech  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/412/)
Numerical techniques for solving the equations governing conduction and convective heat transfer in steady and unsteady fluid flows: finite-difference and finite-volume techniques, basic algorithms, and applications to real-world fluid-flow and heat-transfer problems. Same as CSE 412. 2 or 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ME 310 OR TAM 335; ME 320.

ME 420  Intermediate Heat Transfer  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/420/)
Conduction heat transfer, radiation heat transfer, mass transfer, phase change, heat exchangers; numerical methods. 4 undergraduate hours. 4 graduate hours. Prerequisite: ME 310 OR TAM 335; ME 320.

ME 430  Failure of Engr Materials  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/430/)
Material anisotropy and elasto-plastic properties at the crystal level; microstructural basis for fatigue, fracture, and creep in metals, polymers, and ceramics; failure mechanisms and toughening in composites; structure and behavior of metal-matrix composites, ceramic-matrix composites, and polymer composites. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ME 330 OR TAM 324.

ME 431  Mechanical Component Failure  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/431/)
Relationship of materials and mechanics concepts to the design of structures and components: elasticity, plasticity, thermal loading, creep, fatigue, fracture, and residual-life assessments as they relate to materials selection and design. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ME 330 and ME 371; Recommended: ME 430.

ME 432  Fundamentals of Photovoltaics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/432/)
In this course, we will develop a fundamental understanding of how solar cells convert light to electricity, how solar cells are made, how solar cell performance is evaluated, and the photovoltaic technologies that are currently on the market and/or under development. Using thermodynamics, materials physics, and engineering analysis we will assess and critique the potential and drawbacks of modern photovoltaic technologies, including single- and multi-crystalline silicon, tandem cells, CdTe, CIGS, PVT, bulk heterojunctions (organic), Graetzal cells, nanostructure-based, and third generation PV. 3 undergraduate hours. 4 graduate hours. Approved for Letter and S/U grading. Prerequisite: PHYS 212 and ME 330 or equivalent.

ME 440  Kinem & Dynamics of Mech Syst  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/440/)
Kinematics and dynamics of constrained rigid-body mechanical systems; use of modern computer-based analysis software packages. 3 undergraduate hours. 4 graduate hours. Prerequisite: ME 370.

ME 445  Introduction to Robotics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/445/)
Same as AE 482 and ECE 470. See ECE 470.

ME 446  Robot Dynamics and Control  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/446/)
Same as ECE 489 and SE 422. See SE 422.
ME 447 Computational Design and Dynamics of Soft Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/447/)
Provides a hands-on introduction to modern modeling and simulations techniques for heterogeneous structures made of assemblies of soft, elastic slender elements. Such systems are ubiquitous in nature, from animal musculoskeletal architectures to 'birds-nest' composite materials. They are also becoming increasingly relevant in robotics. Students will implement in python their own Cosserat rods-based solver. The developed solver will be then coupled with evolutionary optimization techniques for design, and reinforcement learning for control. 4 undergraduate hours. 4 graduate hours. Prerequisite: CS 101 OR CS 125; MATH 415.

ME 451 Computer-Aided Mfg Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/451/)
The application of computer technology and operations research to manufacturing systems. Use of microprocessors for direct numeric control of machine tools, adaptive control and optimization, and integrated manufacturing systems. Applications of industrial robots. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ME 270.

ME 452 Num Control of Mfg Processes  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/452/)
Numerical control systems, manufacturing processes, principles and practices basic to numerical control, and programming methodology for numerical control. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ME 270 or equivalent or consent of instructor.

ME 453 Data Science in Manufacturing Quality Control  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/453/)
Manufacturing quality management in the big data era; quality improvement philosophies; statistical modeling of process quality; inferences about quality; statistical process control; control charts; machine learning and applications in quality engineering; quality classification/prediction with machine learning; design and implementation of quality monitoring systems based on supervised learning; measurement system analysis (gage R&R study); design of experiments. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ME 270; either IE 300 or STAT 400; either MATH 257 or MATH 415.

ME 455 Micromanufacturing Process & Automation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/455/)
Scaling laws in miniaturization, Micro-machine tools design and characterization, Micromanufacturing process modeling, simulation and automation, Micro-metrology and Micro-assembly systems. 3 undergraduate hours. 4 graduate hours. Prerequisite: ME 270 or equivalent or consent of instructor.

ME 458 Additive Manufacturing and Product Design  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/458/)
Additive manufacturing fundamentals, how and why to design products using additive manufacturing, theory, and practice of product innovation, modern product design. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ME 270 or consent of instructor. Senior or graduate standing, or instructor permission.

ME 460 Industrial Control Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/460/)
Industial control techniques; case studies of industrial systems; design, selection, and maintenance of industrial control systems, including electromechanical, pneumatic, thermal, and hydraulic systems. 4 undergraduate hours. 4 graduate hours. Credit is not given for both ME 460 and ECE 486. Prerequisite: ME 340 and ME 360.

ME 461 Computer Cntrl of Mech Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/461/)
Microcomputer control of thermal and mechanical systems: sensors and transducers, signal transmission and conversion, and regulator actuation. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ME 360 or ABE 425.

ME 462 Advanced Computer Control  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/462/)
Computer-based design of modern real-time controllers through progression from basic theory to advanced control algorithms proven successful in applications. Both discrete and continuous time formats are employed and linked through sampled-data concepts. The course has 8 2-hour labs providing exposure to 1) controller enhancement through AI and machine learning, 2) the related MATLAB toolboxes, 3) controller implementation on modern computing platforms (GPUs and FPGAs), and 4) applications in aerospace, power generation, manufacturing, and other areas. The lecture focus will be on clear control problem statement, analytical expressions of the control laws solving the problem, and applicability limitations. The corresponding MATLAB-based controller design tools and applications will be provided in the labs. Rigorous mathematical proofs will be given in the lectures for only a few key results. 4 undergraduate hours. 4 graduate hours. Prerequisite: ME 460 and MATH 415 or consent of instructor.

ME 465 Optics: Theory & Applications  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/465/)
Introduction to basic concepts in electromagnetic fields and waves as they pertain to measurement science and subsurface imaging. Related applications using wave-based probes, such as acoustic fields and waves with an emphasis on current phenomena and technologies. 4 undergraduate hours. 4 graduate hours. Prerequisite: PHYS 212, MATH 285 OR MATH 286 OR MATH 441. Restricted to students with Senior or Graduate standing, or instructor permission.

ME 470 Senior Design Project  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ME/470/)
Solution of a real-world design problem: development, evaluation, and recommendation of alternative solutions subject to realistic constraints that include most of the following considerations: economics, environment, sustainability, manufacturability, ethics, health and safety, society, and politics. 3 undergraduate hours. No graduate credit. Departmental approval required. Prerequisite: Concurrent enrollment in no more than two required ME courses; completion of all required courses. This course satisfies the General Education Criteria for: Advanced Composition
ME 471  Finite Element Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/471/)
The finite element method and its application to engineering problems: truss and frame structures, heat conduction, and linear elasticity; use of
application software; overview of advanced topics such as structural dynamics, fluid flow, and nonlinear structural analysis. Same as AE 420 and
CSE 451. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both ME 471 and CEE 470. Prerequisite: CS 101 and ME 371 or
TAM 470. Alternatively, AE 370 for AE students.

ME 472  Introduction to Tribology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/472/)
Friction, wear, and lubrication; engineering surfaces; surface properties and surface topography; Hertzian contacts and contact of rough surfaces;
fraction of surfaces in contact; wear and surface failures; boundary lubrication; fluid properties; hydrodynamic lubrication; elastohydrodynamic
lubrication; bearing selection; introductory micro- and nanotribology. 3 undergraduate hours. 3 or 4 graduate hours.

ME 475  Bioinspired Design  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/475/)
The bioinspired design course offers interdisciplinary, advanced design and critical thinking experience. Students will work in teams to integrate
biological knowledge into the engineering design process. The course uses case studies to show how biological solutions can be transferred into
engineering design. The case studies will include themes such as locomotion, materials, and sensing. By the end of the course, students will be able
to use analogical design concepts to engineer a prototype based on biological function. Same as IB 480. 3 undergraduate hours. 4 graduate hours.
Prerequisite: ME 370 or consent of instructor. Restricted to senior or graduate standing or consent of instructor.

ME 481  Whole-Body Musculoskel Biomech  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/481/)
Exploration of the human musculoskeletal system with an emphasis on the whole-body or organism level; modeling and analysis techniques for
examining human movement, such as rigid-body modeling techniques, forward and inverse dynamics, and Lagrangian mechanics; examination of
current topics, such as orthopedic biomechanics, prosthetics and orthotics, postural control, and locomotion; use of computerized motion-capture
equipment and software to examine, simulate, and analyze human movement. Same as BIOE 481. 3 undergraduate hours. 3 or 4 graduate hours.
Prerequisite: TAM 212 and TAM 251.

ME 482  Musculoskel Tissue Mechanics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/482/)
Composition-structure-function relationships for musculoskeletal tissues, including bone, tendon, ligament, cartilage, and muscle; hierarchical
structure of tissues from the macro- to nano-scales; relation of composition to mechanical properties of health and diseased tissue; experimental
methods used to obtain mechanical properties. Same as BIOE 482. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: TAM 251.

ME 483  Mechanobiology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/483/)
Integrative approach to mechanobiology; mechanics of cell adhesion; cytoskeletal structure and mechanics; mechanotransduction; mechanics of cell
proliferation, apoptosis, cancer cells, and stem cells; aging; critical issues facing the mechanobiological sciences. 4 undergraduate hours. 4 graduate
hours. Prerequisite: CHEM 102 and TAM 251.

ME 485  MEMS Devices & Systems  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ME/485/)
Same as ECE 485. See ECE 485.

ME 487  MEMS-NEMS Theory & Fabrication  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/487/)
Physical and chemical theory, design, and hands-on fabrication of micro- and nano-electromechanical systems (MEMS and NEMS); cleanroom
fabrication theory, including general cleanroom safety, lithography, additive and subtractive processes, bulk and surface micromachining, deep reactive
ion etching (DRIE), lithographic Galvanoformung Abformung (LIGA), packaging, scaling, actuators, and micro-nanofluids; fabrication of two take-home
devices, such as piezoresistive sensors and microfluidic logic chips, that demonstrate advanced fabrication processing. 4 undergraduate hours. 4 graduate
hours. Prerequisite: CHEM 102 and TAM 251.

ME 496  Honors Project credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/496/)
Special project or reading course for James Scholars in engineering. 1 to 4 undergraduate hours. No graduate credit. May be repeated. Prerequisite:
Consent of instructor.

ME 497  Independent Study credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/ME/497/)
Independent study of advanced problems related to mechanical engineering. 1 to 3 undergraduate hours. No graduate credit. May be repeated in
separate terms to a maximum of 6 hours, as topics vary. Prerequisite: Consent of Instructor. Students with Junior or Senior standing.

ME 498  Special Topics credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/498/)
Subject offerings of new and developing areas of knowledge in mechanical engineering intended to augment the existing curriculum. See Class
Schedule or departmental course information for topics and prerequisites. 0 to 4 undergraduate hours. 0 to 4 graduate hours. May be repeated in the
same or separate terms if topics vary to a maximum of 9 hours.

ME 501  Combustion Fundamentals  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/501/)
Fundamentals of kinetic theory, transport phenomena, chemical equilibria, and reaction kinetics; flames, their gross properties, structure, and gas
dynamics including oscillatory and turbulent burning; solid and liquid propellant combustion; one-dimensional detonation theory including structure
and initiation; three-dimensional and other complex detonation waves; supersonic burning. Same as AE 538. Prerequisite: AE 311 or ME 410.

ME 502  Thermal Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/502/)
Steady-state simulation and optimization of thermal systems, dynamic performance, and probabilities in system design. Prerequisite: ME 402.

ME 503  Design of IC Engines  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/503/)
Design of internal combustion engines, including gas forces, inertia loads, bearing analysis, torsional vibration, balance, lubrication, valve and cam
design, and stress analysis of major engine components. Prerequisite: ME 403.
ME 504  Multiphase Systems & Processes  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/504/)
Dynamics and thermodynamics of multiphase and multicomponent systems with special relevance to air-pollution control and energy conversion; relaxation phenomena; general motion of systems of disparate elemental masses; diffusion in gravitational and electric fields, and boundary-layer motion with mass transport; dispersion and collection of particulate matter; transport with surface reactions. Prerequisite: ME 404.

ME 510  Advanced Gas Dynamics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/510/)
Theoretical gas dynamics; fundamental laws and basic equations for subsonic, transonic, and supersonic steady and unsteady flow processes. Same as AE 510. Prerequisite: ME 410.

ME 512  Physicochemical Hydrodynamics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/512/)
Introduces basic concepts of molecular diffusion in liquids with interactions due to stationary or flowing fluid. Uncharged and charged solutions/dispersions/suspensions of molecules, macromolecules, and particles are considered in enclosed and porous media flows. Particular emphasis is placed on analysis using the equations that govern concentration and velocity fields, flux and flow constitutive relations, driving forces, and transport properties and parameters. Applications are presented in energy, environmental, chemical, and biological systems. 4 graduate hours. No professional credit. Prerequisite: ME 420, ME 411, CEE 442, CEE 451, CHBE 421, or consent of instructor.

ME 520  Heat Conduction  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/520/)
Fundamentals of heat conduction in isotropic and anisotropic materials; methods of solution to steady and transient heat conduction problems in one, two, and three dimensions; internal heat sources; periodic flow of heat; problems involving phase change; approximate analytical techniques; numerical methods; study of current articles on the subject. Prerequisite: ME 420.

ME 521  Convective Heat Transfer  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/521/)
Fundamentals of convective heat transfer; calculation of heat transfer within ducts and over submerged objects for laminar and turbulent flow; natural convection; film condensation and boiling; liquid metals. Prerequisite: ME 411.

ME 522  Thermal Radiation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/522/)
Fundamentals of radiant-energy transport in absorbing and nonabsorbing media; pyrometry; applications to selected problems involving combined energy-transport mechanisms. Prerequisite: ME 420.

ME 523  Nanoscale Energy Transport  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/523/)
An advanced treatment of diverse transport phenomena at the nanometer scale involving solids, liquids and gases emphasizing common features in transport by molecules, electrons, phonons, photons, and other quasi-particles of interest, oriented toward applied research in the areas of nanoscale heat transfer and nanoscale energy conversion. Topics include intermolecular forces at surfaces and in the bulk, momentum and species transport in microfluidics, linear response theory, free molecular flow in gases, electron and phonon transport in crystals, Boltzmann equation and its moments, ballistic and diffusive transport, thermoelectric energy conversion, interfacial transport, energy transport in nanostructures and radiative transport in the near-field. Approved for letter and S/U grading.

ME 530  Fatigue Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/530/)
Fatigue analysis methods for the design of structures and components: stress-life, strain-life, and crack-propagation approaches; multiaxial and high-temperature fatigue; interrelationship among material properties, geometry, and design methodology appropriate for a wide range of mechanical engineering components. Prerequisite: ME 430.

ME 531  Inelastic Design Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/531/)
Material deformation under combined mechanical and thermal loading; constitutive equations and their application in engineering design and in inelastic finite element methods; material and structural degradation under fatigue and creep conditions. Prerequisite: ME 471 and ME 430.

ME 540  Control System Theory & Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/540/)
Same as ECE 515. See ECE 515.

ME 543  Applied Control System Design & Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/543/)
Covers advanced design and analysis of control systems by state-space methods: classical control review, Laplace transforms, review of linear algebra (vector space, change of basis, and Jordan forms), linear dynamic systems (modes, stability, controllability, state feedback, observability, observers, canonical forms, output feedback, separation principle and decoupling), nonlinear dynamic systems (stability, Lyapunov methods). Frequency domain analysis of multivariable control systems. State space control system design methods: state feedback, observer feedback, pole placement, linear optimal control. Design exercises with CAD (computer-aided design) packages for engineering problems. Key to the course are the applied/real-world examples and CAD homework problems used to teach and reinforce the learnings of the material. Aerospace control system pose some of the most difficult and challenging control system design problems. In addition to designing feedback control system gains, the course teaches filtering techniques needed in real-world implementation of flight controls systems. 4 graduate hours. No professional credit. Credit will not given for both ME 543 and ECE 515/ME 540. Prerequisite: MATH 257 or MATH 415 or equivalent; ME 340, TAM 412 or equivalent.

ME 544  Dynamic System Reliability  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/544/)
Same as ECE 554. See ECE 554.

ME 546  Analysis of Nonlinear Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/546/)
Same as ECE 528 and SE 520. See ECE 528.

ME 561  Convex Methods in Control  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/561/)
Use of convex optimization in analysis and control of dynamical systems; robust control methods and the use of semidefinite programming; linear matrix inequalities, operator theory, model reduction, H-2 and H-infinity optimal control, S-procedure and integral quadratic constraints, structured singular value and mu-synthesis, and Markovian jump systems; applications in control design. Prerequisite: ECE 515.
ME 562  Robust Adaptive Control  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/562/)
Mathematical foundation for synthesis and analysis of adaptive control systems: Lyapunov stability theory; methods of direct and indirect model reference adaptive control; recent methods, such as L1 adaptive control, that enable adaptive control with desired transient and steady-stage performance specifications. Prerequisite: Any of ECE 486, ECE 515, ECE 528, GE 424, ME 460.

ME 570  Nonlinear Solid Mech Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/570/)
Optimality conditions; finite element methods; design sensitivity analysis; nonlinear analysis; transient analysis; thermo-mechanical solid mechanics. Same as AE 524. 4 graduate hours. No professional credit. Prerequisite: One of AE 420, CEE 470, ME 471, TAM 470; TAM 445, TAM 551.

ME 586  Mechanics of MEMS  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/586/)
Mechanics and dynamics of microelectromechanical systems (MEMS); scaling laws in electrostatics, magnetics, and fluidics; analytical models for thin-film growth and etching; effect of surface tension in small dimensions in relations to stability of MEMS during web fabrication; size effects on mechanical properties of MEMS materials; equations of motion for MEMS, involving coupled elastic and electric fields that give rise to nonlinear dynamical behavior; Mathieu behavior and chaotic systems. Prerequisite: ME 485.

ME 590  Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ME/590/)
Presentation and discussion of significant developments in mechanical engineering. Approved for S/U grading only. May be repeated.

ME 591  Interest Group Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ME/591/)
Seminars on current topics in mechanical science and engineering. May be repeated in the same term if topics vary. May be repeated in separate terms.

ME 597  Independent Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/597/)
Independent study of advanced problems related to mechanical engineering. May be repeated in the same term or in separate terms if topics vary to a maximum of 12 hours. Prerequisite: Consent of instructor.

ME 598  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/598/)
Subject offerings of new and developing areas of knowledge in mechanical engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. May be repeated in the same or separate terms if topics vary.

ME 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/ME/599/)
Approved for S/U grading only. May be repeated.
MFST - Metropolitan Food & Environmental Systems

MFST Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/MFST/)

Courses

MFST 101  Experiencing Food Systems  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MFST/101/)
This course uses a guided, discovery-based learning approach designed for students to understand, apply, and analyze key principles of a food system: what food is, where it comes from, how it gets to our plate, and what happens to food waste. Students will develop an understanding of the interrelatedness and interdependence of the food system components. Students will also "experience the food system" through activities related to food production, processing, retail, and post-consumption operations.

MFST 198  Food Systems Reflection  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MFST/198/)
This course is the final course in a series needed to obtain a Food Systems Certificate. In this course, the students will link and construct meaning from the individual Certificate courses by developing their own view of a food system based on the previously learned concepts. In addition, this course will guide student reflection on their role in the food system. Approved for S/U grading only. Prerequisite: MFST 101, NRES 102, HORT 100, FSHN 120, and ACE 100. Concurrent enrollment in any of the prerequisite courses is allowed. Restricted to students enrolled in the Food Systems Certificate program.

MFST 301  Experiential Learning Preparedness & Planning  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MFST/301/)
First of a three part "plan-do-review" series with the goal of immersing students in a professional metropolitan food and environmental systems-related experience. Students will learn what experiential learning is and what defines the best practices of an experiential learning experience. Students will actively participate in developing their learning experience, including defining what they want to learn and how their learning will be assessed. Approved for S/U grading only. Prerequisite: Instructor approval required. MFST majors receive registration priority.

MFST 396  Honors Research or Thesis  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MFST/396/)
Individual research, independent study, special problems, thesis, development and/or design work under the direction of the instructor/Honors advisor. May be repeated in the same or subsequent semesters to a maximum of 12 hours. No more than 12 hrs may be counted towards degree. Prerequisite: Junior standing, admission to the ACES Honors Program, consent of instructor. Restricted to students majoring in MFST.

MFST 397  Experiential Learning  credit: 3 to 9 Hours. (https://courses.illinois.edu/schedule/terms/MFST/397/)
Second of a three part "plan-do-review" series with the goal of immersing students in a professional metropolitan food and environmental systems-related experience. In this course, students will complete the learning experience developed in MFST 301, including the previously defined learning objectives, work product, and grading rubric. At least two weeks of full-time (40 hrs of work) or its equivalent is required for each term hour of credit. May be repeated in the same or separate terms for a total of 9 credit hours. Credit is not given for more than 12 combined credit hours of MFST 397 and MFST 450. Prerequisite: MFST 301. Instructor approval required. MFST majors receive registration priority.

MFST 401  Experiential Learning Review and Reflection  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MFST/401/)
This is the third of a three part "plan-do-review" series with the goal of immersing students in a professional metropolitan food and environmental systems-related experience. In this course, students will review and reflect on their previous MFST 397 "on-the-job" learning experience in multiple ways. Students will learn how to effectively communicate what they did and why it matters, how this job relates to other jobs in a food system, and how this job impacts the food system. 3 undergraduate hours. No graduate credit. Prerequisite: MFST 301 and MFST 397. Restricted to MFST majors.

MFST 450  Social Impact Learning Experience  credit: 3 to 9 Hours. (https://courses.illinois.edu/schedule/terms/MFST/450/)
