The College of Education at the University of Illinois at Urbana-Champaign offers undergraduate degree programs in the majors of Early Childhood Education, Elementary Education, Special Education and a minor in Secondary Education, all of which include teaching licensure. The College of Education also offers a non-licensure undergraduate degree in the major of Learning and Education Studies.

A distinguishing hallmark of the College of Education is the commitment to diversity. Faculty members engage in research, teaching, and service activities developed to ensure that all children, including those who are racially, ethnically, linguistically, and economically different as well as people with different abilities and disabilities, are provided with educational opportunities.

Students who satisfactorily complete the degree program in Elementary Education are eligible for the University's recommendation for Illinois licensure (grades kindergarten through nine) \(^1\). The Early Childhood Education degree program prepares students for recommendation for Illinois Early Childhood licensure (birth through grade three). The program also incorporates coursework leading to an Early Childhood Special Education approval. The teacher education minor in Secondary Education is a component of the teaching option within the following majors in the College of Liberal Arts and Sciences: Biology, Chemistry, English, Geology, History, Mathematics, and Physics. Students who satisfactorily complete an LAS degree in one of these areas and the teacher education minor in secondary education are eligible for the University's recommendation for Illinois licensure in grades six through twelve \(^2\). For additional information regarding Liberal Arts and Sciences requirements, see the College of Liberal Arts and Sciences (http://catalog.illinois.edu/undergraduate/las).

The Special Education major offers an undergraduate field-based professional preparation program designed to prepare teacher candidates to work with individuals with varying disabilities including: learning disabilities, social or emotional disorders, cognitive disabilities, physical disabilities and other health impairments, autism and traumatic brain injury. Candidates who successfully complete the degree program are eligible for the University's recommendation for Illinois licensure to teach students with disabilities from ages 5 through 21 in a range of settings.

The Learning and Education Studies degree program is a non-licensure major with concentrations in Applied Learning Science, Educational Equality and Cultural Understanding, and Workplace Training and Development. The curriculum prepares students for a broad range of positions requiring expertise in informal and non-formal learning and education. Examples include training and program development, international schools, and other education-related positions in agencies, business, and government.

### Requirements

#### Admission

Admission to the College of Education at any level (freshmen, off campus and on-campus applicants) is competitive. Freshmen must complete the University's minimum high school subject pattern described in the undergraduate admissions section elsewhere in this catalog. In addition, freshman applications are evaluated for admission based on ACT/SAT scores and the high school percentile rank achieved at the conclusion of the junior year in high school.

Admission is based on the following criteria: competitive overall and institutional grade point average (on-campus applicants), cumulative grade point average with a minimum of 2.5 (applicants from other institutions), and grades earned in the course work of the intended curriculum.

#### Graduation

Undergraduate students in the College of Education must meet the University requirements for graduation. For those in a major leading to licensure, the requirements of the Council on Teacher Education for certification must also be met. Students in all curricula must meet the course and academic credit requirements of their curricula with satisfactory scholastic averages. Student teaching is required of all undergraduates in a licensure major and must be completed through the University of Illinois at Urbana-Champaign.

Students in need of additional information concerning regulations and degree requirements of the College of Education should consult their academic advisers or the Assistant Dean for Academic Affairs in the College of Education, University of Illinois at Urbana-Champaign, 142 Education Building, 1310 South Sixth Street, Champaign, IL 61820.

For additional requirements pertaining to licensure, please refer to the Council on Teacher Education (http://illinois.dev6.leepfrog.com/2012/fall/programs/undergrad/cte.html).

#### General Education

In order to meet the University's current requirements in general education, each candidate for a degree from the College of Education must complete the campus general education requirements and the Language other than English through the third semester college course. In most teacher education curricula, specific coursework within the general education areas must be taken. Also, in most teacher education curricula, additional credit in the general education areas is required. For more information on required general education coursework, contact a College of Education academic adviser. Students must select their courses for general education from the campus general education course list.

#### Special Programs

##### Honors at Graduation

Eligibility for graduation with honors is established after all grades are recorded following a student's final semester. A student who achieves the required scholastic average in all work presented for graduation (excluding credit for courses not included in the computation of the grade point average) may be recommended for honors as follows: honors, minimum cumulative grade point average of 3.75; high honors, minimum cumulative grade point average of 3.85; highest honors, minimum cumulative grade point average of 3.90.

##### Edmund J. James Scholars

The James Scholar program is a University-wide honors program established to encourage undergraduate research and independent study and to foster scholarly endeavors. As a James Scholar, students are entitled to certain academic privileges, including priority assignment.
of registration time, access to the "stacks" in the library, and official recognition on the University of Illinois transcript.

Entering freshmen in the top 15% of the College’s admitted applicant pool based on their ACT/SAT score and High School rank/GPA are invited to participate in the James Scholar Program. Transfer and continuing students must have achieved at least a 3.5 cumulative and University of Illinois grade point average to participate.

Students are certified as James Scholars by the college on a yearly basis. To qualify for this certification, the student must successfully complete a James Scholar project/requirement in the fall and spring semester and maintain a 3.5 University of Illinois and cumulative grade point average. Details are available on the college website.

1 For students graduating after September 1, 2017, the Elementary Education program will prepare students to teach grades 1-6.

2 For students graduating after January 31, 2018, the Secondary Education program will prepare students to teach grades 9-12.
