The Global Studies major develops knowledge sets, skills and values necessary for the analysis and solution of contemporary world problems. The requirements of the major enrich, complement, and coordinate departmental offerings with the goals of:

- providing knowledge of diverse cultures: their social, economic and political interactions and impacts on the world;
- developing skills for successfully negotiating realities of contemporary societies;
- fostering values that respect diverse ways of living and deepen commitment to sustainability.

The Global Studies major is interdisciplinary, drawing upon the resources of faculty and departments across the university. The major has three elements. The Foundations requirement introduces a variety of global issues and skills necessary for their analysis. The Language and Culture requirements allow students to develop area expertise in one world region through on-campus coursework and a semester-long study abroad. The Thematic Area focuses student programs on a topic of global importance to allow for an in-depth and multidisciplinary understanding of relevant historical and emerging issues, how they are analyzed and addressed. Students work with an advisor to customize the major curriculum most appropriate to their individual interests and career plans.

This program of study was developed in response to the growing demand for knowledge and skills to successfully navigate concerns at international and global levels. The competencies established through this program are critical for students preparing for careers or further study in a variety of fields including international affairs, public policy, business, law, finance, education, and communications.

The LAS Global Studies program with the European Union Center offers a 5 Year BALAS/MA in Global Studies and European Union Studies.

LAS Global Studies also offers two undergraduate minors.

The Global Studies minor develops the interdisciplinary knowledge and intercultural skills necessary to analyze and solve contemporary world problems. In consultation with an advisor, students select courses from a variety of departments to form a coherent program of study suited to individual interests, educational and career aspirations. The Global Studies minor can complement any major.

The Global Markets and Society minor enables students at the University of Illinois to gain interdisciplinary knowledge of global market-society relations through historical and global perspectives that emphasize the social, political, and economic forces that shape market institutions and practices. A professional development capstone experience course is optional and can be met by completing an internship or participating in a research experience and/or written project. The LAS Global Markets and Society Minor is open to undergraduate students in any major at the University of Illinois at Urbana-Champaign campus.
Students choose an approved thematic area and, in consultation with a Global Studies advisor, construct an appropriate customized curriculum of a minimum of 18 hours. Students cannot include more than 3 hours of 100-level work and must complete 9 hours of 300- and 400-level coursework. Courses must be taken from more than one department. Approved thematic areas are:

A. Cultures in Contact
B. Wealth and Poverty in a Globalized World
C. Human Rights
D. Governance, Conflict and Resolution
E. Knowledge, Communication and Information Systems
F. Environment, Sustainability, and Social Responsibility
G. Global Health

Optional Senior Capstone. Students do an individual research project (GLBL 200, 494 and GLBL 495) based on their Thematic Area.

Total Hours 51-52

5 Year BALAS/MA in Global Studies and European Union Studies

The Program in Global Studies with the European Union Center offers a 5-year BALAS/MA degree program in Global Studies and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS-granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the stand-alone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; the BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.
