

INTEGRATIVE BIOLOGY MINOR

for the Undergraduate Minor in Integrative Biology

The minor, administered by the School of Integrative Biology, is designed for students intending to have a career in a field other than biology, but for whom a background in biology is nevertheless complementary, e.g. law, technology, bioinformatics, business, scientific writing, and engineering. A minor in integrative biology provides an understanding of fundamental principles for one major subdiscipline of biology, whether this be organismal and evolutionary biology; behavior, ecology and the environment; or integrative anatomy, physiology, and molecular biology.

Code	Title	Hours
Select one of the following:		4
IB 150	Organismal & Evolutionary Biol	
IB 103	Introduction to Plant Biology	
IB 104	Animal Biology	
Select two of the following:		6-8
IB 202	Physiology	
IB 203	Ecology	
IB 204	Genetics	
IB 302	Evolution	
Two additional courses at the 300 or 400 level (3-4 hours, some 5 hours) selected from the IB Area Courses. The prerequisite course(s) must be taken if specified by an advanced course. (http://sib.illinois.edu/courses/area/)		6-8
Total Hours		16-20

Other possible combinations of courses are possible for the Integrative Biology minor, if an SIB advisor approves the combination.
