Students must complete MATH 241, and at least one 400-level MATH
course for admission into the minor. The Mathematics minor is designed
to prepare students majoring in some other discipline with a background
in mathematics that is both broad and deep. Students interested in
pursuing the minor should have completed the calculus sequence
through MATH 241, and one additional Math course at the 400-level
demonstrating a strong record of success in college-level mathematics
courses. Given the cumulative character of mathematics preparation,
students earning grades of C or below in previous mathematics courses
are advised not to pursue the minor.
