

INFORMATION SCIENCES, BS

for the Degree of Bachelor of Science in Information Sciences

The Bachelor of Science in Information Sciences (BSIS) prepares students for a wide range of careers within the knowledge economy. In today's technology-centered job market, there is a high demand for information professionals. By earning a BSIS from the School of Information Sciences (iSchool), you will gain a competitive edge. Our interdisciplinary, STEM-designated degree will prepare students for careers in a variety of fields. As a BSIS student, you'll learn how to manage data and other types of information to help organizations achieve their goals. You will become an information technology expert who understands the human perspective, social context, and policy implications.

Visit Information Sciences (<https://ischool.illinois.edu/degrees-programs/undergraduate/>), BS Degree website for more information.

for the Degree of Bachelor of Science in Information Sciences

Minimum required major and supporting course work: Students must earn at least 51 hours in the School of Information Sciences or in approved courses offered by other departments. Students must demonstrate proficiency in at least one programming language.

General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/requirements>).

GPA Requirement: 2.5 - Earn a cumulative grade point average of 2.50 (A = 4.00) in all courses presented for the degree and a cumulative 2.50 grade point average for all courses taken in the School.

Core Curriculum

Code	Title	Hours
Hours Required in Core Curriculum		51
IS 101	Introduction to Information Sciences	
IS 101	Introduction to Information Sciences	
IS 202	Social Aspects Info Tech	
IS 203	Analytical Foundations for Information Problems	
IS 203	Analytical Foundations for Information Problems	
IS 204	Research Design for Information Sciences	3
IS 204	Research Design in Information Sciences	
IS 205	Programming for Information Problems	3
IS 205		
IS 206	Introduction to Database Concepts & Applications	3
IS 206		
IS 307		
or IS 308 OR IS 309		

School of Information Sciences Electives or approved courses in other departments	30
Additional electives outside of the school and General Education Requirements	21
Hours required for graduation	123

for the Degree of Bachelor of Science in Information Sciences

Program Goals

The goals of the program are to:

1. Equip students to be leaders in a knowledge society and innovators in a knowledge economy
2. Educate students for known, emerging, and currently unforeseeable careers in information sciences
3. Provide an interdisciplinary education where studies in fundamentals of information sciences and in application areas are fully integrated
4. Ensure that various upper-division elective pathways of the major share a common core of information sciences knowledge
5. Provide a program with enough flexibility to facilitate transfers into the major at the sophomore level, transfers across colleges at the sophomore and junior level, and transfers from two-year colleges
6. Since information sciences is a rapidly developing field, offer a flexible program that responds quickly to new needs and opportunities, and to new findings and approaches in the information sciences
7. Prepare interested students for graduate study in information sciences and related fields

Program Learning Outcomes

By the end of the program, students will be able to:

1. Understand relationships among people, information, and technology
2. Understand the history, theory, philosophy, and methodologies of the field of information sciences
3. Apply various approaches to research in the information sciences, including social science methods, data and text mining, digital humanities, historical approaches, and others
4. Apply critical analytical skills to information issues
5. Understand fundamental mathematical and programming tools for solving problems of information modeling, expression, and transformation
